with respect to the initial $10,000 payment (within 15 days of receipt of the initial payment), but need not report with respect to any subsequent payment.

(3) *Initial payment of $10,000 or less*. If the initial payment does not exceed $10,000, the recipient must aggregate the initial payment and subsequent payments made within one year of the initial payment until such aggregate amount exceeds $10,000, and report with respect to the aggregate amount within 15 days after receipt of the payment that causes the aggregate amount to exceed $10,000. Any subsequent payment which by itself exceeds $10,000 must be separately reported.

(c) *Meaning of terms*. The following definitions apply for purposes of this section—

(1) The term "cash" means the coin and currency of the United States or of any other country, which circulate in and are customarily used and accepted as money in the country in which issued. Cash includes United States notes and Federal Reserve notes, but does not include bank checks, travelers checks, bank drafts, wire transfers or other negotiable or monetary instruments not customarily accepted as money.

(2) The term "trade or business" has the same meaning as under section 162 of the Internal Revenue Code of 1954.

(3)(i) The term "transaction" means the underlying event precipitating the payer's transfer of cash to the recipient. Transactions include (but are not limited to) a sale of goods or services; a sale of real property; a sale of intangible property; a rental of real or personal property; an exchange of cash for other cash; the establishment or maintenance of or contribution to a custodial, trust, or escrow arrangement; a payment of a preexisting debt; a conversion of cash to a negotiable instrument; a reimbursement for expenses paid; or the making or repayment of a loan. A transaction may not be divided into multiple transactions in order to avoid reporting under this section.

(ii) The term "related transactions" means any transaction conducted between a payer (or its agent) and a recipient of cash in a 24-hour period. Additionally, transactions conducted between a payer (or its agent) and a cash recipient during a period of more than 24 hours are related if the recipient knows or has reason to know that each transaction is one of a series of connected transactions.

(iii) The following examples illustrate the definition of paragraphs (c)(3)(i) and (ii).

Example (1). A person has a tacit agreement with a gold dealer to purchase $36,000 in gold bullion. The $36,000 purchase represents a single transaction under paragraph (c)(3)(i) of this section and the reporting requirements of this section cannot be avoided by recasting the single sales transaction into 4 separate $9,000 sales transactions.

Example (2). An attorney agrees to represent a client in a criminal case with the attorney's fee to be determined on an hourly basis. In the first month in which the attorney represents the client, the bill for the attorney's services comes to $8,000 which the client pays in cash. In the second month in which the attorney represents the client, the bill for the attorney's services comes to $4,000, which the client again pays in cash. The aggregate amount of cash paid ($12,000) relates to a single transaction as defined in paragraph (c)(3)(i) of this section, the sale of legal services relating to the criminal case, and the receipt of cash must be reported under this section.

Example (3). A person intends to contribute a total of $45,000 to a trust fund, and the trustee of the fund knows or has reason to know of that intention. The $45,000 contribution is a single transaction under paragraph (c)(3)(i) of this section and the reporting requirement of this section cannot be avoided by the grantor's making five separate $9,000 cash contributions to a single fund or by making five $9,000 cash contributions to five separate funds administered by a common trustee.

Example (4). K, an individual, attends a one day auction and purchases for cash two items, at a cost of $9,240 and $1,732.50 respectively (tax and buyer's premium included). Because the transactions are related transactions as defined in paragraph (c)(3)(ii) of this section, the auction house is required to report the aggregate amount of cash received from the related sales ($10,972.50), even though the auction house accounts separately on its books for each item sold and presents the purchaser with separate bills for each item purchased.

Example (5). F, a coin dealer, sells for cash $9,000 worth of gold coins to an individual on three successive days. Under paragraph (c)(3)(ii) of this section the three $9,000 transactions are related transactions aggregating $27,000 if F knows, or has reason to know, that each transaction is one of a series of connected transactions.

(4)(i) The term "recipient" means the person receiving the cash. Except as provided in paragraph (c)(4)(ii) of this section, each store, division, branch, department, headquarters, or office ("branch") (regardless of physical location) comprising a portion of a person's trade or business shall for purposes of this section be deemed a separate recipient.

(ii) A branch that receives cash payments will not be deemed a separate recipient if the branch (or a central unit linking such branch with other branches) would in the ordinary course of business have reason to know the identity of payers making cash payments to other branches of such person.

(iii) *Examples*. The following examples illustrate the application of the rules in paragraphs (c)(4)(i) and (ii) of this section:

Example (1). N, an individual, purchases regulated futures contracts at a cost of $7,500 and $5,000, respectively, through two different branches of Commodities Broker X on the same day. N pays for each purchase with cash. Each branch of Commodities Broker X transmits the sales information regarding each of N's purchases to a central unit of Commodities Broker X (which settles the transactions against N's account). Under paragraph (c)(4)(ii) of this section the separate branches of Commodities Broker X are not deemed to be separate recipients; therefore. Commodities Broker X must report with respect to the two related regulated futures contracts sales in accordance with this section.

Example (2). P, a corporation, owns and operates a racetrack. P's racetrack contains 100 betting windows at which pari-mutuel wagers may be made. R, an individual, places cash wagers of $3,000 each at five separate betting windows. Assuming that in the ordinary course of business each betting window (or a central unit linking windows) does not have reason to know the identity of persons making wagers at other betting windows, each betting window would be deemed to be a separate cash recipient under paragraph (c)(4)(i) of this section. As no individual recipient received cash in excess of $10,000, no report need be made by P under this section.

(d) *Exceptions to the reporting requirements of section 6050I*—(1) *Receipt of cash by certain financial institutions*. A financial institution as defined in subparagraphs (A), (B), (C), (D), (E), (F), (G), (J), (K), (R), and (S) of section 5312(a)(2) of Title 31, United States code is not required to report the receipt of cash exceeding $10,000 under section 6050I.

(2) *Receipt of cash by certain casinos having gross annual gaming revenue in excess of $10,000,000*. (i) *In general*. If a casino receives cash in excess of $10,000 and is required to report the receipt of such cash directly to the Treasury Department under 31 CFR 103.22(a)(2) and 103.25 and is subject to the recordkeeping requirements of 31 CFR 103.36, then the casino is not required to make a return with respect to the receipt of such cash under section 6050I and these regulations.

(ii) *Casinos exempt under 31 CFR 103.45(c)*. Under the authority of section 6050I(c)(1)(A), the Secretary may exempt from the reporting requirements of section 6050I casinos with gross annual gaming revenue in excess of $1,000,000 that are exempt under 31 CFR 103.45(c) from reporting certain cash transactions to the Treasury Department under 31 CFR 103.22(a)(2) and 103.25. The determination whether a casino which is granted an exemption under 31 CFR section 103.45(c) will be required to report under section 6050I will be made on a case by case basis, concurrently with the granting of such an exemption.

(iii) *Reporting of cash received in a nongaming business.* Nongaming businesses (such as shops, restaurants, entertainment, and hotels) at casino hotels and resorts are separate trades or businesses in which the receipt of cash in excess of $10,000 is reportable under section 6050I and these regulations. Thus, a casino exempt under paragraph (d)(2)(i) or (ii) of this section must report with respect to cash in excess of $10,000 received in its nongaming businesses.

(iv) *Example.* The following example illustrates the application of the rules in paragraphs (d)(2)(i) and (iii) of this section:

Example. A and B are casinos having gross annual gaming revenue in excess of $1,000,000. C is a casino with gross annual gaming revenue of less than $1,000,000. Casino A receives $15,000 in cash from a customer with respect to a gaming transaction which the casino reports to the Treasury Department under 31 CFR 103.22(a)(2) and 103.25. Casino B receives $15,000 in cash from a customer in payment for accommodations provided to that customer at Casino B's hotel. Casino C receives $15,000 in cash from a customer with respect to a gaming transaction. Casino A is not required to report the transaction under section 6050I or these regulations because the exception for certain casinos provided in paragraph (d)(2)(i) ("the casino exception") applies. Casino B is required to report under section 6050I and these regulations because the casino exception does not apply to the receipt of cash from a nongaming activity. Casino C is required to report under section 6050I and these regulations because the casino exception does not apply to casinos having gross annual gaming revenue of $1,000,000 or less which do not have to report to the Treasury Department under 31 CFR 103.22(a)(2) and 103.25.

(3) *Receipt of cash not in the course of the recipient's trade or business.* The receipt of cash in excess of $10,000 by a person other than in the course of the person's trade or business is not reportable under section 6050I. Thus, for example, F, an individual in the trade or business of selling real estate, sells a motorboat for $12,000, the purchase price of which is paid in cash. F did not use the motorboat in any trade or business in which F was engaged. F is not required to report under section 6050I or these regulations because the exception provided in this paragraph (d)(3) applies.

(4) *Receipt is made with respect to a foreign cash transaction*—(i) *In general.* Generally, there is no requirement to report with respect to a cash transaction if the entire transaction occurs outside the United States (the fifty states and the District of Columbia). An entire transaction consists of both the transaction as defined in paragraph (c)(3)(i) of this section and the receipt of cash by the recipient. If, however, any part of an entire transaction occurs in the Commonwealth of Puerto Rico or a possession or territory of the United States and the recipient of cash in that transaction is subject to the general jurisdiction of the Internal Revenue Service under Title 26 of the United States Code, the recipient is required to report the transaction under this section.

(ii) *Example.* The following example illustrates the application of the rules in paragraph (d)(4)(i) of this section:

Example. W, an individual engaged in the trade or business of selling aircraft, reaches an agreement to sell an airplane to a U.S. citizen living in Mexico. The agreement, no portion of which is formulated in the United States, calls for a purchase price of $125,000 and requires delivery of and payment for the airplane to be made in Mexico. Upon delivery of the airplane in Mexico, W receives $125,000 in cash. W is not required to report under section 6050I or these regulations because the exception provided in paragraph (d)(4)(i) of this section ("foreign transaction exception") applies. If, however, any part of the agreement to sell had been formulated in the United States, the foreign transaction exception would not apply and W would be required to report the receipt of cash under section 6050I and these regulations.

(e) *Time, manner, and form of reporting*—(1) *Time of reporting.* The reports required by paragraph (a) of this section must be filed with the Internal Revenue Service by the 15th day after the date the cash is received. If a person elects to report as one payment several independently reportable payments received within a 15-day period (as described in paragraph (b)(1) of this section), the report must be filed with the Internal Revenue Service by the 15th day after the date the initial payment is received.

(2) *Form of reporting.* A report required by paragraph (a) of this section must be made on Form 8300. A return of information made in compliance with this paragraph must contain the name, address, and taxpayer identification number of the person from whom the cash was received; the name, address, and taxpayer identification number of the person on whose behalf the transaction was conducted (if the recipient knows or has reason to know that the person from whom the cash was received conducted the transaction as an agent for another person); the amount of cash received; the date and nature of the transaction; and any other information required by Form 8300. Form 8300 can be obtained from any Internal Revenue Service Forms Distribution Center.

(3) *Manner of reporting*—(i) *Where to file.* A person making a return of information under this section must file Form 8300 by mailing it to the address shown in the instructions to the form.

(ii) *Verification.* A person making a return of information under this section must verify the identity of the person from whom the reportable cash is received. Verification of the identity of a person who purports to be an alien must be made by examination of such person's passport, alien identification card, or other official document evidencing nationality or residence. Verification of the identity of any other person may be made by examination of a document normally acceptable as a means of identification when cashing or accepting checks (for example, a driver's license or a credit card). In addition, a return will be considered incomplete if the person required to make a return knows (or has reason to know) that an agent is conducting the transaction for a principal, and the return does not identify both the principal and the agent.

(iii) *Retention of returns.* A person required to make an information return under this section must keep a copy of each return filed for five years from the date of filing.

(f) *Requirement of furnishing statements*—(1) *In general.* Any person required to make an information return under this section must furnish a single, annual, written statement to each person whose name is set forth in a return ("identified person") filed with the Internal Revenue Service.

(2) *Form of statement.* The statement required by the preceding paragraph need not follow any particular format, but it must contain the following information:

(i) The name and address of the person making the return;

(ii) The aggregate amount of reportable cash received by the person who made the information return required by this section during the calendar year in all cash transactions relating to the identified person; and

(iii) A legend stating that the information contained in the statement is being reported to the Internal Revenue Service.

(3) *When statement is to be furnished.* Statements required under this paragraph (f) must be furnished to an identified person on or before January 31 of the year following the calendar year in which the cash is received. A statement shall be considered to be furnished to an identified person if it is mailed to the identified person at the identified person's last known address.

(g) *Cross-reference to penalty provisions*—(1) *Failure to file information return*. Any person who fails to make a return under section 6050I and paragraph (a) of these regulations shall be subject to the penalties provided in section 6652.

(2) *Failure to furnish statement*. Any person who fails to furnish any statement to identified persons under section 6050I and paragraph (f) of these regulations shall be subject to the penalties provided in section 6678.

(3) *Criminal penalties*. Any person who willfully fails to make a return under section 6050I and these regulations may be subject to criminal prosecution.

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

(26 CFR Part 602)

Par. 3. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101 (c) is amended by inserting in the appropriate place in the table "§1.6050I-1 * * * 1545-0892".

James I. Owens,
Acting Commissioner
of Internal Revenue.

Approved July 21, 1986.

J. Roger Mentz,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on September 3, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 4, 1986, 51 F.R. 31610)

Part IV. Items of General Interest

Limitation on Certain Changes of Annual Accounting Period

Announcement 86–101[1]

Legislation currently is pending that, if enacted, would revise substantially the federal income tax system. The Internal Revenue Service is concerned that certain taxpayers may attempt to change their annual accounting period in order to defer the application of certain provisions of that legislation. The Service also is concerned that certain pass-through entities (or investors in those entities) may attempt to change to a 52–53 week year in order to defer income to a year in which the lower rates contained in that legislation may apply. Therefore, the Service will issue temporary regulations to limit the ability of taxpayers to change their annual accounting period for these purposes.

In general, the temporary regulations will suspend the provisions of sections 1.441–2(c), 1.442–(c)(2), and 1.706–1(b) of the Income Tax Regulations, section 18.1378–1 of the Temporary Income Tax Regulations under the Subchapter S Revision Act of 1982, and any revenue procedure issued before September 18, 1986, that otherwise would permit a taxpayer to change its taxable year (including a change to a 52–53 week taxable year) either under a procedure that does not require the prior approval of the Commissioner or under expedited procedures for securing that approval. In addition, the temporary regulations will provide that, for the period to which the temporary regulations apply, approval of the Commissioner to a change of annual accounting period generally will be granted only if the taxpayer establishes a substantial business purpose by satisfying certain mechanical tests set forth in the temporary regulations. Approval also will be granted in certain cases in which the taxpayer has had a substantial acquisition or divestiture in the preceding twelve months that would justify a change in taxable year. Special rules will apply to certain taxpayers that wish to change to a 52–53 week taxable year that ends with reference to the end of the same month of the year as that in which the preceding taxable year ended.

The temporary regulation will prescribe procedures under which a taxpayer that satisfies the mechanical tests set forth in the temporary regulations or that is subject to the special rules relating to a 52–53 week year may change its taxable year without securing the prior approval of the Commissioner. A taxpayer that satisfies one of the mechanical tests or that is subject to the special rules relating to a 52–53 week year should follow the procedures set forth in the temporary regulations and should not file an application for approval under section 1.442–1(b) of the regulations.

The temporary regulations also will contain provisions to prevent the circumvention of these rules, such as through the use of tiered arrangements.

The temporary regulations generally will apply to any change in annual accounting period if the income tax return for the short period involved in the change is filed after September 29, 1986. The temporary regulations will not apply, however, in cases where the due date (without regard to extensions) for the short period involved in the change is before September 29, 1986, and the income tax return for the short period is timely filed (determined with regard to extensions). In addition, the temporary regulations will not apply to a change to a calendar year.

These special rules relating to changes in annual accounting period generally will apply only for a limited period of time that will be specified in the temporary regulations. That period will reflect the Service's concerns regarding the possible interaction between a change in taxable year and the effective date provisions of the pending tax reform legislation. For periods after the expiration of the temporary regulations, the Service may revise the procedures currently applicable to certain taxpayers.

Foundations Status of Certain Organizations

Announcement 86–102

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

A Wish Come True, Inc., Tiverton, RI
Access House, Inc., New York, NY
Adirondack Repertory Dance, Glenn Falls, NY
Aditus, Inc., Ludlow, MA
Agudsa Taharas Hamishpacha of Crown Heights Mikvah, Inc., Brooklyn, NY
Altiloria Art Alliance, New York, NY
Alumni Association of Massasoit Community College, Brockton, MA
American Ceramic Arts Society, Inc., New York, NY
American Civic Independence Foundation, Inc., Rockaway Beach, NY
American Friends of Mishkan Shimeon, Inc., Brooklyn, NY
Battle for Madison Commitee, Inc., The, Madison, CT
Beech Hill Scholarship, Ellsworth, ME
Birthright of Owego NY, Inc., Owego, NY
Blood Stream, Inc., New York, NY
Boston Stage Productions, Ltd., Boston, MA
Bragi Productions, Inc., Astoria, NY
Bronx Economic Neighborhood Development Corp., Bronx, NY
Bronx Park East Neighborhood Patrol, Inc., Bronx, NY
Bronx Red Cap Fund, Inc., Bronx, NY
Buc's Boys & Girls Association, Cambridge, MA
Cambridge Glaucoma Foundation, Inc., Cambridge, MA
Center for Language and Cerebral Function, Inc., Burlington, VT
Central New York Police Athletic League, Inc., Solvay, NY
Chakrachari Nishkalanki International Organization, Inc., Queens, NY
Children's Masquerade, Inc., New York, NY
Christian Community Charities, Inc., Brooklyn, NY
Cohasset Dramatic Club, Inc., Cohasset, MA

Women in Sales Association, Inc., Valhalla, NY

Woodmont Woods Elderly Housing, Inc., Milford, CT

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)–7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Deletions From Cumulative List of Organizations Contributions To Which Are Deductible Under Section 170 of the Code

Announcement 86–103

The names of organizations that no longer qualify as organizations contributions to which are deductible under section 170 of the Internal Revenue Code of 1954 are listed below.

Generally, the Service will not disallow deductions for contributions made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that the organization no longer qualifies. However, the service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170 where the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsible for or was aware of, the activities or deficiencies on the part of the organization which gave rise to the loss of qualification.

Moreover, if the Service has announced suspension of advance assurance of deductibility of contributions to an organization pending examination, and the qualification of the organization is subsequently terminated, contributions made after the date specified in the announcement in the Internal Revenue Bulletin are not deductible. In such a case the date of suspension will appear after the name of the organization to which it applies.

Copperweld Steel Company's Warren Employees Trust, Warren, OH.

Rodeo Evangelistic Ministry, Snyder, TX.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Paul R. Beutler	Cold Spring, MN	Certified Public Accountant	Eighteen Months from August 13, 1986
Robert J. Sher	Hyattsville, MD	Attorney	Indefinite from August 22, 1986
Russell H. Strong	Breckinridge, TX	Certified Public Accountant	Indefinite from August 22, 1986
David G. Willemain	Towson, MD	Attorney	Indefinite from July 22, 1986

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses or practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Alton C. Bingham	Las Vegas, NV	Certified Public Accountant	August 16, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified **describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).**

Clarified **is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.**

Distinguished **describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.**

Modified **is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).**

Obsoleted **describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.**

Revoked **describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.**

Superseded **describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.**

Supplemented **is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.**

Suspended **is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.**

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

_A_—Individual.
Acq.—Acquiescence.
_B_—Individual.
_BE_—Beneficiary.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 453.—Installment Method

26 CFR 1.453–9: Gain or loss on dispositions of installment obligation.

Whether a former shareholder who receives an installment obligation from a corporation in a section 337 liquidation recognizes gain when, upon the buyer's default, the former shareholder subsequently receives the real property used to secure the obligation. See Rev. Rul. 86–120, this page.

Section 1038.—Certain Reacquisitions of Real Property

26 CFR 1.1038–1: Reacquisitions of real property in satisfaction of indebtedness.
(Also Section 453; 1.453–9.)

Reacquisitions; repossession by former shareholder of the seller. The nonrecognition provision section 1038 of the Code will not apply to a former shareholder who has received an installment obligation from a corporation in a section 337 liquidation when that shareholder, upon the buyer's default, subsequently receives the real property used to secure the obligation.

Rev. Rul. 86–120

ISSUE

Does section 1038 of the Internal Revenue Code apply with respect to a reacquisition of real property under an installment obligation distributed to a shareholder by a corporation pursuant to a liquidation described in section 337 of the Code?

FACTS

A corporation adopted a plan of complete liquidation to which section 337 of the Code applied. During the following 12 months, it sold real property and accepted as payment for the property an installment obligation secured by the property. The installment obligation was later distributed to a shareholder in exchange for the shareholder's interest in the corporation. Following the liquidation, the buyer of the property defaulted on the obligation and the property was acquired by the former shareholder in full settlement of the installment obligation.

LAW AND ANALYSIS

Section 453(h) of the Code, as added by the Installment Sales Revision Act of 1980, section 2, 1980–2 C.B. 489, 491, generally provides that if a shareholder receives an installment obligation in connection with a corporate liquidation under section 337, the receipt of payments under the obligation (but not the receipt of the obligation) by the shareholder shall be treated as the receipt of payment for the stock.

Section 453B(a) of the Code generally provides that gain or loss is recognized when an installment obligation is satisfied at other than face value. Thus, a repossession of property in satisfaction of an installment obligation results in gain or loss as a disposition of the installment obligation. *Morrison v. Commissioner*, 12 T.C. 1178 (1949); *Boca Ratone Co. v. Commissioner*, 86 F.2d 9 (3rd Cir. 1936). In the case of an obligation that is subject to section 453(h), any gain or loss on disposition is considered as resulting from the sale or exchange of the shareholder's stock.

Notwithstanding section 453B(a), section 1038 generally provides that if a sale of a real property gives rise to indebtedness to the seller which is secured by the real property, and the seller later reacquires the property in partial or full satisfaction of the indebtedness, then no gain or loss will result to the seller from the reacquisition.

Section 1.1038–1(a)(3)(i) of the Income Tax Regulations states that section 1.1038–1 of the regulations applies only when the seller reacquires the real property in partial or full satisfaction of the indebtedness that arose from the sale of the real property and was secured by the property.

Neither the Internal Revenue Code nor the regulations define the term "seller" as used in section 1038. The legislative history, however, shows that, in enacting section 1038, Congress contemplated its application to a reacquisition of property by the original seller of the property. The Senate Report states:

> Your Committee believes it is inappropriate to measure gain upon repossession by reference to the fair market value of the repossessed property. Your Committee does not believe that merely because property *originally held by a seller* has been restored to him should constitute grounds for taxing any appreciation in value of this property to the seller at that time. Apart from any payments he may have received, he actually is in no better position than he was before he made the sale. As a result, your committee has concluded that instead of the repossession of the property being treated as a second sale of the property back to its *original holder*, it is desirable to consider instead that the first sale has been nullified.

S. Rep. No. 1361, 88th Cong., 2d Sess. 5 (1964), 1964–2 C.B. 828, 831 (Emphasis added.).

At the same time that Congress added section 453(h) to the Code, it also added section 1038(g). Section 1038(g) generally provides that, for purposes of section 1038(a), the acquisition of real property by the estate or beneficiary of the deceased seller shall be treated as a reacquisition by the seller. Thus, the estate or beneficiary generally succeeds to the same nonrecognition treatment under section 1038 to which the deceased seller would have been entitled. Significantly, no similar provision was added to allow a shareholder that receives an installment obligation under section 453(h) to be treated as the "seller" for purposes of section 1038.

Moreover, the circumstances under which section 1038(g) of the Code applies are fundamentally different from those in which section 453(h) applies. In cases to which section 1038(g) applies, a transfer of the real property from the decedent directly to the decedent's estate or beneficiary would not be taxable to the transferee. The nonrecognition treatment provided to the estate or beneficiary by virtue of section 1038(g) is thus consistent with the income tax consequences that would have been obtained had the original seller acquired the property in satisfaction of the installment debt and held the property until death. In contrast, in cases in which section 453(h) applies, a transfer of the real estate from the liquidating corporation directly to the shareholder would be taxable to the shareholder under section 331. Accordingly, permitting nonrecognition treatment under section 1038 when the shareholder acquires the property indirectly from the corporation's defaulting installment purchaser would put the shareholder in a better tax position than if the property were acquired directly from the corporation. There is no indication that Congress intended such a result.

In the instant case, the corporation was the owner and seller of the real property in question. Acquisition by the shareholder did not restore the property to the original seller. Rather, it placed the property in the hands of a person that acquired, through an exchange transaction with the original owner and seller, the right to possession upon default. The taxpayer is no more the original seller of the property than is a purchaser of installment contracts from a real estate vendor. *See* Rev. Rul. 68–523, 1968–2 C.B. 82, which concerns repossessions by the purchaser of such contracts and does not allow section 1038 treatment.

HOLDING

Section 1038 of the Code does not apply to the former shareholder's acquisition of the property, because the liquidated corporation, not the former shareholder, was the seller of the property for purposes of that section.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

Federal short-term, mid-term, and long-term rates. Section 1274(d) of the Code was amended by section 101(b)(1) of the 1985 imputed interest simplification act. Accordingly, Rev. Rul. 85–170 is declared obsolete.

Rev. Rul. 86–121

Section 1274(d) of the Internal Revenue Code, as amended by section 101(b)(1) of the 1985 imputed interest simplification act (the Act), Pub. L. No. 99–121, 1985–2 C.B. 367, provides that the applicable federal short-term, mid-term, and long-term rates shall be determined each month. These rates are published monthly in the Internal Revenue Bulletin. Section 1274(d), as amended, is effective for sales and exchange transactions made after June 30, 1985.

Prior to the amendment of section 1274(d) of the Code by section 101(b)(1) of the Act, the applicable federal rates were determined semiannually, and monthly rates were computed under the alternate method provided by section 1.1274–6T of the Temporary Income Tax Regulations. Rev. Rul. 85–170, 1985–2 C.B. 186, sets forth the short-term, mid-term, and long-term applicable federal rates for the six-month period, January 1, 1986, through June 30, 1986. Rev. Rul. 85–170 was first made public as an attachment to News Release IR–85–102, dated October 7, 1985. News Release IR–85–102 was distributed prior to the date of enactment of section 101(b)(1) of the Act.

As a result of the amendment of section 1274(d) by the section 101(b)(1) of the Act, Rev. Rul. 85–170 is hereby declared obsolete.

Section 1275.—Other Definitions and Special Rules

26 CFR 1.1375–1A: Tax imposed when passive investment income of corporation having subchapter C earnings and profits exceed 25 percent of gross receipts.

Rules define the term "passive investment income." See T.D. 8104, below.

Section 1374.—Tax Imposed on Certain Capital Gains

26 CFR 1.1374–1A: Tax imposed on certain capital gains.
(Also Section 1375; 1.1375–1A.)

T.D. 8104

TITLE 26.—INTERNAL REVENUE—
CHAPTER I, SUBCHAPTER A, PART
1—INCOME TAX; TAXABLE YEARS
BEGINNING AFTER DECEMBER 31,
1953; SUBCHAPTER H, PART 602—
OMB CONTROL NUMBERS UNDER
THE PAPERWORK REDUCTION ACT

Capital Gains Tax and Passive Income Tax with Respect to Certain S Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to a tax imposed on capital gains of certain S corporations and a tax imposed on the excess net passive income of certain S corporations that have accumulated earnings and profits from subchapter C years. Changes to the applicable law were made by the Subchapter S Revision Act of 1982 [Pub. L. 97–354, 1982–2, C.B. 702], as amended by the Technical Corrections Act of 1982 [Pub. L. 97–448, 1983–1 C.B. 451] and the Tax Reform Act of 1984 [Pub. L. 98–369, 1984–3 C.B. 1]. The regulations would provide the public with the guidance needed to comply with the law as amended by these Acts.

DATES: The amendments under section 1374 are generally effective for taxable years beginning after December 31, 1982, and the amendments under section 1375 are generally effective for taxable years beginning after 1981.

SUPPLEMENTARY INFORMATION:
BACKGROUND

Proposed amendments to the Income Tax Regulations (26 CFR Part 1) were published in the FEDERAL REGISTER (50 FR 27457) on July 3, 1985 [LR–267–82, 1985–2 C.B. 790]. Those amendments were proposed to conform the regulations to section 2 of the Subchapter S Revision Act of 1982 (96 Stat. 1669), as amended by section 305(d)(3) of the Technical Corrections Act of 1982 (96 Stat. 2400) and section 102(d)(1), 474(r), and 721(u) and (v) of the Tax Reform Act of 1984 (98 Stat. 623, 844, and 971).

Approximately 4 written comments were received in response to the notice of proposed rulemaking. No public hearing was requested. After consideration of all the public comments, the proposed amendments are adopted as revised by this Treasury decision.

IN GENERAL

Section 1374 imposes a tax on the capital gains of certain S corporations. The tax is imposed for any taxable year in which the S corporation has a net capital gain in excess of $25,000 for the taxable year if the amount of the net capital gain exceeds 50 percent of the taxable income for such year and the taxable income for such year is in excess of $25,000.

The amount of the tax is generally 28 percent of the amount of the net capital gain in excess of $25,000. However, in no case will the tax imposed by section 1374 on the corporation exceed the tax that would have been imposed by section 11 on the corporation if the corporation were not an S corporation. Section 1374(c) contains exceptions to the tax imposed by section 1374(a) and a special rule in the case of property with a substituted basis. Section 1374(d) and §1.1374–1A(d) define the term "taxable income" for purposes of section 1374.

Section 1375 imposes a tax on the excess net passive income of certain S corporations that have subchapter C earnings and profits. This tax can generally be avoided by the corporation distributing its subchapter C earnings and profits before the close of the taxable year. The tax is computed by multiplying the excess net passive income by the highest rate of tax specified in section 11(b). Section 1375(b) and §1.1375–1A(b) define the term "excess net passive income." A special rule contained in section 1375(c) ensures that a net capital gain that is taken into account under section 1375 in computing the passive income tax will not also be taken into account in determining the capital gains tax under section 1374. Section 1375(d) provides that the tax imposed by section 1375 may be waived in certain limited cases where an S corporation determined in good faith that it had no subchapter C earnings and profits at the end of a taxable year and it is later determined that it did have such earnings and profits. Section 1.1375–1A(d) provides rules concerning this waiver.

PUBLIC COMMENTS AND CHANGES IN RESPONSE TO PUBLIC COMMENTS

Several comments suggested minor technical refinements to the proposed rules. Other comments asked for additional guidance to clarify certain of the proposed rules. In general, the suggested changes have been made.

One of the changes made deals with the procedure for requesting a waiver of the tax imposed by section 1375. The final regulations provide that the request for waiver should be made to the district director rather than in the form of a ruling request to the National Office.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. The Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these final regulations is John G. Schmalz of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805***.

§§1.1361–1 through 1.1361–16 [Removed]

Par. 2. Sections 1.1361–1 through 1.1361–16 are removed.

Par. 3. There are inserted immediately after §1.1348–3 the following new §§1.1361–0A, 1.1374–1A, and 1.1375–1A to read as follows:

§1.1361–0A Effective date.

(a) Except as otherwise provided in the regulations, the provisions of §§1.1374–1A and 1.1375–1A apply to taxable years beginning after December 31, 1982.

(b) The provisions of §§1.1374–1 through 1.1378–3 apply to a qualified casualty insurance electing small business corporation and to a qualified oil corporation for taxable years beginning after December 31, 1982, and the provisions of §§1.1374–1A and 1.1375–1A shall not apply. See section 6(c)(2), (3), and (4) of the Subchapter S Revision Act of 1982.

§1.1374–1A Tax imposed on certain capital gains.

(a) *General rule.* Except as otherwise provided in paragraph (c) of this section, if for a taxable year beginning after 1982 of an S corporation—

(1) The net capital gain of such corporation exceeds $25,000, and

(2) The net capital gain of such corporation exceeds 50 percent of its taxable income (as defined in paragraph (d) of this section) for such year, and

(3) The taxable income of such corporation (as defined in paragraph (d) of this section) for such year exceeds $25,000, section 1374 imposes a tax (computed under paragraph (b) of this section) on the income of such corporation. The tax is imposed on the S corporation and not on the shareholders.

(b) *Amount of tax.* The amount of tax shall be the lower of—

(1) An amount equal to the tax, determined as provided in section 1201(a)(2), on the amount by which the net capital gain of the corporation for the taxable year exceeds $25,000, or

(2) An amount equal to the tax which would be imposed by section 11 on the taxable income of the corporation (as defined in paragraph (d) of this section) for the taxable year were it not an S corporation.

No credit shall be allowable under part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (other than under section 34) against the tax imposed by section 1374(a) and this section. See section 1375(c)(2) and §1.1375–1A(c)(2) for a general rule that reduces the amount of the net capital gain of the corporation for purposes of this paragraph (b) in cases where a net capital gain is taxed as excees net passive income under section 1375. See section 1374(c)(3) and paragraph (c)(1)(ii) of this section for a special rule that limits the amount of tax on property with a substituted basis in certain cases.

(c) *Exceptions to taxation*—(1) *New corporations and corporations with election in effect for 3 immediately preceding years*—(i) *In general.* If an S corporation would be subject to the tax imposed by section 1374 for a taxable year pursuant to paragraph (a) of this section, the corporation shall, nevertheless, not be subject to such tax for such year, if:

(A) The election under section 1362(a) which is in effect with respect to such corporation for such year has been in effect for the corporation's three immediately preceding taxable years, or

(B) An election under section 1362(a) has been in effect with respect to such corporation for each of its taxable years for which it has been existence, unless there is a net capital gain for the taxable year which is attributable to property with a substituted basis within the meaning of paragraph (c)(1)(iii) of this section.

(ii) *Amount of tax on net captial gain attributable to property with a substituted basis.* If for a taxable year of an S corporation either paragraph (c)(1)(i) (A) or (B) of this section is satisfied, but the S corporation has a net capital gain for such taxable year which is attributable to property with a substituted basis (within the meaning of paragraph (c)(1)(iii) of this section), then paragraph (a) of this section shall apply for the taxable year, but the amount of tax determined under paragraph (b) of this section shall not exceed a tax, determined as provided in section 1201 (a), on the net capital gain attributable to property with a substituted basis.

(iii) *Property with substituted basis*. For purposes of this sectio, the term "property with a substituted basis" means:

(A) Property acquired by a corporation ("the acquiring corporation") during the period beginning 36 months before the first day of the acquiring corporation's taxable year and ending on the last day of such year;

(B) The basis of such property in the hands of the acquiring corporation is detemined in whole or in part by reference to the basis of any property in the hands of another corporation; and

(C) Such other corporation was not an S corporation throughout the period beginning the later of:

(1) 36 months before the first day of the acquiring corporation's taxable year. or

(2) The time such other corporation came into existence,

and ending on the date such other corporation transferred the property, the basis of which is used to determine, in whole or in part, the basis of the property in the hands of the acquiringg corporation. An S corporation and any predecessor corporation shall not be treated as one corporation for purposes of this paragraph (c)(1).

(iv) *Existence of a corporation*. For purposes of this section, a corporation shall not be considered to be in existence for any month which precedes the first month in which such corporation has shareholders or acquires assets or begins business, whichever is first to occur.

(v) *References to prior law included*. For purposes of this paragraph (c), the term "S corporation" shall include an electing small business corporation under prior subchapter S law, and the term "election under section 1362(a)" shall include an election under section 1372 of prior subchapter S law.

(iv) *Examples*. The provisions of this paragraph may be illustrated by the following examples:

Example (1): M Corporation was organized and began business in 1977. M subsequently made an election under section 1362(a) which was effective for its 1984 taxable year. If such election does not terminate under section 1362 for its taxable years 1984, 1985, and 1986. M is not subject to the tax imposed by section 1374 for its taxable year 1987, or for any subsequent year for which such election remains in effect, unless it has, for any such year, an excess of net long-term capital gain over net short-term capital loss attributable to property with a substituted basis. If there is such an excess for any such year, and the requirements of paragraph (a) of this section are met. M will be subject to the tax for such year. If there is no such excess for any year after 1986. M will not be subject to the tax for any such year even though the requirements of paragraph (a) of this section are met.

Example (2). N corporation was organized in 1983, and was an S corporation for its first taxable year. N is not subject to the tax imposed by section 1374 for 1983, or for any subsequent year for which its original election under section 1382(a) has not terminated under section 1362(d), unless for any such year, it has been an excess of net long-term capital gain over net short-term capital loss attributable to property with a substituted basis and the requirements of paragraph (a) of this section are met.

(2) *Treatment of certain gains of options and commodities dealers*—(i) *Exclusion of certain capital gains*. For purposes of this section, the net capital gain of any options dealer or commodities dealer shall be determined by not taking into account any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from any section 1256 contract or property related to such a contract.

(ii) *Definitions*. For purposes of this paragraph (c)(2)—

(A) *Options dealer*. The term "options dealer" has the meaning given to such term by section 1256(g)(8).

(B) *Commodities dealer*. The term "commodities dealer" means a person who is actively engaged in trading section 1256 contracts and its registered with a domestic board of trade which is designated as a contact market by the Commodities Futures Trading Commission.

(C) *Section 1256 contracts*. The term "section 1256 contracts" has the meaning given to such term by section 1256(b).

(iii) *Effective dates*—(A) *In general*. Except as otherwise provided in this paragraph (c)(2)(iii). This paragraph (c)(2) shall apply to positions established after July 18, 1984, in taxable years ending after such date.

(B) *Special rule for options on regulated futures contracts*. In the case of any option with respect to a regulated futures contract (within the meaning of section 1256), this paragarph (c)(2) shall apply to positions established after October 31, 1983, in taxable years ending after such date.

(C) *Elections with respect to property held on or before July 18, 1984*. See §§1.1256(h)–1T and 2T for rules concerning an election to have this paragraph (c)(2) apply to certain property held on or before July 18, 1984.

(d) *Determination of taxable income*—(1) *General rule*. For purposes of this section, taxable income of the corporation shall be determined under section 63(a) as if the corporation were a C corporation rather than an S corporation, except that the following deductions shall not apply in the computation—

(i) The deduction allowed by section 172 (relating to net operating loss deduction), and

(ii) The deductions allowed by part VIII of subchapter B (other than the deduction allowed by section 248, relating to organization expenditures). For any taxable year in which a tax under this section is imposed on an S corporation, the S corporation shall attach a Form 1120 completed in accordance with this paragraph (d) and the instructions to form 1120S to its tax return field for such taxable year.

(2) *Special rule for net capital gains taxed as excess net passive income under section 1375*. See section 1375(c)(2) and §1.1375–1A for a special rule that reduces the taxable income of the corporation for purposes of section 1374(b)(2) and §1.1374–1A(b)(2) in cases where a net capital gain is taxed as excess net passive income under section 1375.

(e) *Reduction in pass-thru for tax imposed on capital gain*. See section 1366(f)(2) for a special rule reducing the S corporation's long-term capital gains and the corporation's gain from sales or exchanges of property described in section 1231 for purposes of section 1366(a) by an amount of tax imposed under section 1374 and this section.

(f) *Examples*. The following examples illustrate the principles of this section and assume that a tax will not be imposed under section 1375:

Example (1). Corporation M is an S corporation for its taxable year beginning January 1, 1983. For 1983 M has an excess of net long-term capital gain over net short-term capital loss in the amount of $30,000. However, its taxable income for the year is only $20,000 as a result of other deductions in excess of other income. Thus, although the excess of the net long-term captial gain over the net short-term capital loss exceeds $25,000 and also exceeds 50 percent of taxable income. M is not subject to the tax imposed by section 1374 for 1983 because its taxable income does not exceed $25,000.

Example (2). Corporation N is an S Corporation for its 1983 taxable year. For 1983, N has an excess of net long-term capital gain over net short-term capital loss in the amount of $30,000, and taxable income of $65,000. Thus, although N's net capital gain ($30,000) exceeds $25,000, it does not exceed 50 percent of the corporation's taxable income for the year (50 percent of $65,000, or $32,500), and therefore N is not subject to the tax imposed by section 1374 for such year.

Example (3). Assume that Corporation O, an S corporation, is subject to the tax imposed by section 1374 for its taxable year 1983. For 1983 O has an excess of net long-term capital gain over net short-term capital loss in the amount of $73,000, and taxable income within the meaning of section 1374, which includes capital gains and losses, of $100,000. The amount of tax computed under paragraph (b)(1) of this sections is 28 percent of $48.00 ($73,000—$25,000, or $13,440. Since this is lower than the amount computed under paragraph (b)(2) of this section, which is $25 750 ($3,750 + $4,500 + 7,500 + $10,000). $13,440 is the amount of tax imposed by section 1374.

Example (4). Assume that in example (3) the taxable income of O for 1983 is $35,000. This results from an excess of deductions over income with respect to items which were not included in determining the excess of the net long-term capital gain over the net short-term capital loss. In such case, the amount of tax, computed under paragraph (b)(2) of this section, is $5,500. Since this is lower than the amount computed under paragraph (b)(1) of this section, $5,550 is the amount of tax imposed by section 1374.

Example (5). Corporation P, an S corporation, for its taxable year 1983 has an excess of net long-term capital gain over net short-term capital loss in the amount of $65,000 and has taxable income of $80,000. P's election under section 1362 has been in effect for its three immediately preceding taxable years, but P, nevertheless, is subject to the tax imposed by section 1374 for 1983 since it has an excess of net long-term capital gain over net short-term capital loss (in the amount of $20,000) attributable to property with a substituted basis. The tax computed under paragraph (b)(1) of this section, $11,200 (28 percent of $40,000 ($65,000—$25,000)), is less than the tax compound under paragraph (b)(2) of this section, $17,750. However, under the limitation provided in paragraph (c) of this section which is applicable in this factual situation, the tax imposed by section 1374 for 1983 may not exceed $5,600 (28 percent of $20,000, the excess of net long-term capital gain over the net short-term capital loss attributable to property with a substituted basis).

§1.1375–1A Tax imposed when passive investment income of corporation having subchapter C earnings and profits exceed 25 percent of gross receipts.

(a) *General rule.* For taxable years beginning after 1981, section 1375(a) imposes a tax on the income of certain S corporations that have passive investment income. In the case of a taxable year beginning during 1982, an electing small business corporation may elect to have the rules under this section not apply. See the regulations under section 1362 for rules on the election. For purposes of this section, the term "S corporation" shall include an electing small business corporation under prior law. This tax shall apply to an S corporation for a taxable year if the S corporation has—

(1) Subchapter C earnings and profits at the close of such taxable year, and

(2) Gross receipts more than 25 percent of which are passive investment income.

If the S corporation has no subchapter C earnings and profits at the close of the taxable year (because, for example, such earnings and profits were distributed in accordance with section 1368), the tax shall not be imposed even though the S corporation has passive investment income for the taxable year. If the tax is imposed, the tax shall be computed by multiplying the excess net passive income (as defined in paragraph (b) of this section) by the highest rate of tax specified in section 11(b).

(b) *Definitions*—(1) *Excess net passive income*—(i) *In general.* The term "excess net passive income" is defined in section 1375(b)(1), and can be expressed by the following formula:

$$\text{ENPI} = \text{NPI} \times \frac{\text{PII} - (.25 \times \text{GR})}{\text{PII}}$$

Where:

ENPI = excess net passive income
NPI = net passive income
PII = passive investment income
GR = total gross receipts

(ii) *Limitation.* The amount of the excess net passive income for any taxable year shall not exceed the corporation's taxable income for the taxable year (determined in accordance with section 1374(d) and §1.1374–1A(d)).

(2) *Net passive income.* The term "net passive income" means—

(i) Passive investment income reduced by

(ii) The deductions allowable under chapter 1 of the Internal Revenue Code of 1954 which are directly connected (within the meaning of paragraph (b)(3) of this section) with the production of such income (other than deductions allowable under section 172 and part VIII of subchapter B).

(3) *Directly connected*—(i) *In general.* For purposes of paragraph (b)(2)(ii) of this section to be directly connected with the production of income, an item of deduction must have proximate and primary relationship to the income. Expenses, depreciation, and similar items attributable solely to such income qualify for deduction.

(ii) *Allocation of deduction.* If an item of deduction is attributable (within the meaning of paragraph (b)(3)(i) of this section) in part to passive investment income and in part to income other than passive investment income, the deduction shall be allocated between the two types of items on a reasonable basis. The portion of any deduction so allocated to passive investment income shall be treated as proximately and primarily related to such income.

(4) *Other definitions.* The terms "subchapter C earnings and profits," "passive investment income," and "gross receipts" shall have the same meaning given these terms in section 1362(d)(3) and the regulations thereunder.

(c) *Special rules*—(1) *Disallowance of credits.* No credit is allowed under part IV of subchapter A of chapter 1 of the Code (other than section 34) against the tax imposed by section 1375(a) and this section.

(2) *Coordination with section 1374.* If any gain—

(i) is taken into account in determining passive income for purposes of this section, and

(ii) is taken into account under section 1374.

The amount of such gain taken into account under section 1374(b) and §1.1374-1A(b)(1) and (2) in determining the amount of tax shall be reduced by the portion of the excess net passive income for the taxable year which is attributable (on a pro rata basis) to such gain. For purposes of the preceding sentence, the portion of excess net passive income for the taxable year which is attributable to such capital gain is equal to the amount determined by multiplying the excess net passive income by the following fraction:

$$\frac{\text{NCG–E}}{\text{NPI}}$$

Where:

NCG = net capital gain
NPI = net passive income.
E = Expense attributable to net capital gain

(d) *Waiver of tax in certain cases*—(1) *In general.* If an S corporation establishes to the satisfaction of the Commissioner that—

(i) It determined in good faith that it had no subchapter C earnings and profits at the close of the taxable year, and

(ii) During a reasonable period of time after it was determined that it did have subchapter C earnings and profits at the close of such taxable year such earnings and profits were distributed.

The Commissioner may waive the tax imposed by section 1375 for such taxable year. The S corporation has the burden of establishing that under the relevant facts and circumstances the Commissioner should waive the tax. For example, if an S corporation establishes that in good faith and using due diligence it determined that it had no subchapter C earnings and profits at the close of a taxable year, but it was later determined on audit that it did have subchapter C earnings and profits at the close of such taxable year, and if the corporation establishes that it distributed such earnings and profits within a reasonable time after the audit, it may be appropriate for the Commissioner to waive the tax on passive income for such taxable year.

(2) *Corporation's request for a waiver.* A request for waiver of the tax imposed by section 1375 shall be made in writing to the district director request and shall contain all relevant facts to establish that the requirements of paragraph (d)(1) of this section are met. Such request shall contain a description of how and on what date the S corporation in good faith and using due diligence determined that it had no subchapter C earnings and profits at the close of the taxable year, a description of how and on what date it was determined that the S corporation had subchapter C earnings and profits at the close of the year and a description (including dates) of any steps taken to distribute such earnings and profits. If the earnings and profits have not yet been distributed, the request shall contain a timetable for distribution and an explanation of why such timetable is reasonable. On the date the waiver is to become effective, all subchapter C earnings and profits must have been distributed.

(e) *Reduction in pass-thru for tax imposed on excess net passive income.* Set section 1366(f)(3) for a special rule reducing each item of the corporation's passive investment income for purposes of section 1366(a) if a tax is imposed on the corporation under section 1375.

Examples. The following examples illustrate the principles of this section:

Example (1). Assume Corporation M, an S corporation, has for its taxable year total gross receipts of $200,000, passive investment income of $100,000, $60,000 of which is interest income, and expenses directly connected with the production of such interest income in the amount of $10,000. Assume also that at the end of the taxable year Corporation M has subchapter C earnings and profits. Since more than 25 percent of Corporation M's total gross receipts are passive investment income, and since Corporation M has subchapter C earnings and profits at the end of the taxable year. Corporation M will be subject to the tax imposed by section 1375. The amount of excess net passive investment income is $45,000 ($90,000 × (50,000/100,000)). Assume that the other $40,000 of passive investment income is attributable to net capital gain and that there are no expenses directly connected with such gain. Under these facts $20,000 of the excess net passive income is attributable to the net capital gain ($45,000 × ($40,000/$90,000)). Accordingly the amount of gain taken into account under section 1374(b)(1) and the taxable income of Corporation M under section 1374(b)(2) shall be reduced by $20,000.

Example (2). Assume an S corporation with subchapter C earnings and profits has tax-exempt income of $400, its only passive income, gross receipts of $1,000 and taxable income of $250 and there are no expenses associated with the tax-exempt income. The corporation's excess net passive income for the taxable year would total $150 (400 × ((400 − 250)/400)). This amount is subject to the tax imposed by section 1375, notwithstanding that such amount is otherwise tax-exempt income.

Par. 4. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805 * * *.

Par. 5. Section 602.101(c) is amended by inserting in the appropriate places in the table

"§1.1374-1A(d). . .

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue

Approved September 3, 1986.

J. ROGER MENTZ,
Acting Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on September 25, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 26, 1986, 51 F.R. 34200)

Section 4051.—Imposition of Tax on Heavy Trucks and Trailers Sold at Retail

26 CFR 145.4051-1: Imposition of Tax on Heavy Trucks and Trailers Sold at Retail.

Constructive sales price in the case of sales of an article at non-arm's-length by a dealer who regularly sells the same article at arm's length. See Rev. Rul. 86-122, below.

Section 4052.—Definitions and Special Rules

26 CFR 145.4052-1: Special rules and definitions.
(Also Section 4051; 145.4051-1.)

Truck chassis and bodies; constructive sale price. When taxable truck bodies and chassis are sold by a dealer at both arm's length and non-arm's length, the dealer's constructive sale price on its non-arm's-length sales is the lowest price at which the dealer regularly sells the article at arm's length.

Rev. Rul. 86-122

ISSUE

When a truck dealer sells taxable truck bodies and chassis to its wholly owned subsidiary company for use in the company's business, what rule determines whether the sales are at less than fair market price for purposes of section 4052(b)(2) of the Internal Revenue Code, and, if they are at less than fair market price, how is a constructive sales price to be determined under that section?

FACTS

A corporate truck dealer sells taxable truck bodies and chassis to its wholly owned subsidiary company for use in the subsidiary's business. In all cases, the price for which the dealer sells a particular body or chassis to the subsidiary is lower than the lowest price for which the dealer regularly sells the same model truck body or chassis at retail to unrelated customers.

LAW AND ANALYSIS

Section 4051(a)(1) of the Code imposes on the first retail sale of certain articles (including in each case parts and accessories sold on or in connection therewith or with the sale thereof) a tax of 12 percent of the price for which the articles are sold. Among the taxable articles are truck bodies and chassis suitable for use with a vehicle which has a gross vehicle weight rating in excess of 33,000 pounds. Section 4052(a)(1) defines the term "first retail sale" as the first sale, for a purpose other than resale, after manufacture, production, or importation.

Section 145.4052-1(d)(1) of the Temporary Excise Tax Regulations provides that the price for which an article is sold includes the total consideration paid for the article whether that consideration is paid in money, services, or other forms. In addition, there shall be included any charge incident to placing the article in condition ready for use. Similar rules to section 4216(a) of the Code and the regulations thereunder, relating to charges to be included in the price and excluded from the price, shall apply. For example, charges for transportation, delivery, insurance, and installation (other than installation charges to which section 4051(b) applies), and other expenses actually incurred in connection with the delivery of an article to a purchaser pursuant to a bona fide sale shall be excluded from the price in computing the tax.

Section 4052(b)(2) of the Code provides that, in the case of any article sold (otherwise than through an arm's length transaction) at less than the fair market price, the tax under subchapter B of chapter 31, which includes section 4051, shall be computed on the price for which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

Section 145.4052–1(d)(4) of the temporary regulations, relating to sales not at arm's length, provides that a sale is considered to be made under circumstances other than at "arm's length" if

(i) one of the parties is controlled (in law or in fact) by the other, or there is common control, whether or not such control is actually exercised to influence the sale price, or

(ii) the sale is made pursuant to special arrangements between a seller and a purchaser.

In the case of an article sold otherwise than at arm's length, and sold at less than the fair market price, the tax imposed under section 4051(a)(1) or (b)(1) is to be computed on the price for which similar articles are sold at retail in the ordinary course of trade, as determined by the Commissioner. Once such a price has been determined, no further adjustment of such price shall be made.

For purposes of retail sales under section 4051(a)(1) of the Code, the Commissioner has determined that if a truck dealer regularly sells a certain article in both arm's length retail sales and non-arm's-length sales, the retail fair market price of the article is the lowest price at which the dealer regularly sells the article in the arm's length retail sales. Where the non-arm's-length sale price is less than at the fair market price, the Commissioner has determined that the constructive sales price for purposes of section 4052(b)(2) of the Code is the lowest price at which the dealer regularly sells the article to unrelated retail customers. *See also* Rev. Rul. 81–188, 1981–2 C.B. 211, which concerned the now-repealed manufacturers excise tax on automotive chassis and bodies. That ruling held that where a manufacturer regularly sold an article at retail in arm's length as well as non-arm's-length retail sales, the retail fair market price of the article was the lowest price at which the manufacturer regularly sold the article in the retail arm's length sales.

HOLDING

When taxable truck bodies and chassis are sold by a dealer to its wholly owned subsidiary company for use in the subsidiary's business, the lowest price at which the dealer regularly sells such articles to unrelated retail customers is the measure both of fair market price and of constructive sales price.

Section 4996.—Other Definitions and Special Rules [Windfall Profit Tax]

26 CFR 51.4996–1: Definitions.

T.D. 8103

TITLE 26—INTERNAL REVENUE.—
CHAPTER I, SUBCHAPTER D, PART
51—EXCISE TAX REGULATIONS
UNDER THE CRUDE OIL WINDFALL
PROFIT TAX ACT OF 1980

Definition of Removed from the Premises

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final Regulations.

SUMMARY: This document contains amendments to the final excise tax regulations concerning the definition of "removed from the premises" for purposes of the windfall profit tax. These amendments are being made to clarify when domestic crude oil is removed from the premises under the Crude Oil Windfall Profit Tax Act of 1980. These regulations provide the public with guidance needed for determining when the taxable event occurs for purposes of the imposition of the windfall profit tax under section 4986 of the Internal Revenue Code of 1954.

DATES: Paragraph (d)(3) of these final regulations is effective for domestic crude oil which under both rules set forth in T.D. 7844, *supra,* and the rules set forth in these final regulations is not treated as having been removed from the premises before October 23, 1986. Except as otherwise provided, paragraph (d)(2) and (4) of these final regulations is effective for domestic crude oil removed) from the premises (within the meaning of paragraph (d) of §51.4996–1, as amended) after February 29, 1980, under T.D. 7844 [1982–2 C.B. 321].

FOR FURTHER INFORMATION CONTACT: Beverly A. Baughman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION: BACKGROUND

On April 4, 1980, the FEDERAL REGISTER published temporary and proposed regulations (45 FR 23384, 23400) [T.D. 7690, 1980–1 C.B. 259] under section 4996 and others. The temporary regulations defined removed from the premises and were required to give guidance as to when the tax imposed by the Crude Oil Windfall Profit Tax Act of 1980 is triggered. These temporary and proposed regulations were further amended by Treasury Decision 7755 and an accompanying notice of proposed rulemaking, both published on January 19, 1981 (45 FR 4873, 4950) [1981–1 C.B. 551]. The proposed regulations were finalized by Treasury Decision 7844, published on Nov. 5, 1982 (47 FR 50215).

On January 14, 1983, the FEDERAL REGISTER published proposed regulations (48 FR 1762) [LR–227–81, 1983–1 C.B. 1000] to amend §51.4996–1(d) of the Excise Tax Regulations (26 CFR Part 51), as promulgated by T.D. 7844. A public hearing was held on June 14, 1983. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision.

EXPLANATION OF PROVISIONS

In general.

Section 4986 imposes an excise tax on the windfall profit from taxable crude oil when it is removed from the premises. Current §51.4996-1(d)(1) states that, with certain exceptions, crude oil is removed from the premises when it is physically transported off the premises. Additionally, that section provides that crude oil is deemed removed when it is used, manufactured, or converted before it is removed. This document describes the exceptions to this general rule.

Injection or use in production.

One exception provided for in current §51.4996–1(d)(2) as well as in the proposed and final regulations is that crude oil that is injected into a well or used to power a production process or production equipment on the property (the proposed regulations used the term "premises") is not removed from the premises. To qualify for the exception such crude oil cannot leave the property (except for transportation to a storage facility in certain cases), nor can it be manufactured or converted. The final regulations add another qualification that requires that, in order for the exception to apply, the same person or persons who hold 100 percent of the operating interests in the portion of the property from which the injected oil is produced also must hold 100 percent of such interests in the portion of the property on which the oil is injected. Additionally, the final regulations provide that an election to treat separate and distinct reservoirs as separate properties is disregarded for purposes of this exception.

Transportation to contiguous tracts.

The proposed and final regulations clarify another exception provided for in current §51.4996–1(d)(3). This exception applies to crude oil that has not been manufactured, converted, sold or exchanged and that is to be used as powerhouse fuel, or injected into a well, on another part of the same tract or parcel of land from which it was produced or on a tract that is contiguous to the producing tract (or is in a group of tracts contiguous to the producing tract). Such crude oil may be transported between premises located on the same tract or parcel of land or from the producing tract or parcel of land to contiguous tracts or parcels of land in which the same persons hold 100 percent of the operating mineral interests without triggering removal. (The proposed regulations did not refer to premises located on the same tract or parcel of land.) However, pursuant to the proposed and final regulations, if any consideration is transferred to any holder of a mineral interest in the producing tract or parcel (or portion thereof) who holds a lesser interest or no interest in the tract or parcel (or portion) on which the crude oil is used, as compensation for the holder's interest in the transported oil, removal from the premises occurs. In the case of a holder of a lesser interest, consideration in the form of certain taxable crude oil is disregarded. In both instances the number of barrels of crude oil whose constructive sales price equals the fair market value of the total consideration transferred shall be deemed removed on the date the crude oil is transported.

For this purpose, contiguous is defined in the proposed and final regulations to require actual touching of the areas below the surface along a substantial common border that are subject to the right to produce crude oil. However, actual touching of the tracts or parcels of land on the surface is not required. For example, if a railroad right-of-way separates the tracts but the producer (or producers) who possess the right to produce in the areas on each side of the right-of-way also hold such interests in the area below the railroad right-of-way the tracts are contiguous.

Transportation to storage facilities; point of measurement.

Current §51.4996–1(d)(3)(ii) provides that crude oil shall not be considered removed from the premises when, prior to sale, it is transported a short distance to a storage facility. The final regulations clarify this storage tank exception by providing that crude oil in some instances may be transported to its first storage tank located 5 miles or less from the producing well (or in the case of an offshore well, 5 miles or less from the point the crude oil comes on shore) without triggering removal. (The proposed regulations stated that generally crude oil transported less than 2 miles from the premises to its first storage facility was deemed not removed from the premises.)

Several comments received on the proposed regulations, expressed concern that this exception might be interpreted so as to include transportation costs in the removal price of the crude oil. Therefore, this Treasury decision states that this exception is only for purposes of determining the timing of the imposition of the windfall profit tax and the date of the determination of the removal price. Additionally, these provisions clarify that the removal price of crude oil affected by the provisions is the removal price of the crude oil determined at the premises on which the crude oil was produced on the date that the crude oil is removed (or deemed removed) pursuant to §51.4996–1(d).

Additionally, several comments received on the proposed regulations suggested that the storage tank exception be amended to allow onshore-produced crude oil to be transported less than 10 miles to a storage tank without triggering removal. The commentators also recommended that the storage tank exception be only a safe-harbor rule and that the facts and circumstances of each case determine whether or not the crude oil is removed. These suggestions were rejected. Five miles or less from the producing well was determined to be a sufficient distance with regard to the transportation of onshore-produced crude oil to a storage tank. Additionally, the facts-and-circumstances test was rejected because it would be unduly difficult to administer in this case.

The storage tank exception provided for in the proposed and final regulations applies only if the crude oil has not been sold, exchanged, manufactured, or converted prior to the transportation. Removal will then generally be deemed to occur when crude oil is sold, exchanged, manufactured, converted, or withdrawn from its first storage facility.

The proposed regulations also provided that measurement of the crude oil in connection with its sale or exchange prior to its transportation to its first storage tank would trigger removal. Several commentators pointed out that this provision was unnecessary and confusing. They were concerned that this phrase might be interpreted to include the measurement of crude oil at the point of production solely for the purpose of allocating gross proceeds to producers. This language has been deleted from the final regulations.

Return to the tract or parcel of land.

The proposed and final regulations state that crude oil that is transported to the storage tank and later withdrawn from the storage facility but not deemed removed pursuant to §51.4996–1(d)(3)(ii)(A)(*2*), or (*3*) shall not subsequently be deemed removed in certain circumstances. Such crude oil shall be deemed not removed if it is returned directly from the storage tank to the property on which it was produced. Additionally, such crude oil transported directly from the storage tank to a tract or group of tracts contiguous to the producing tract shall be deemed not removed provided all the requirements regarding transportation between contiguous tracts are met.

Injected oil and recovered oil.

Current §51.4996–4 provides that, if oil that has been removed or deemed removed is injected into a well, the first crude oil recovered after injection (up to an amount equal to the amount injected) shall be deemed not removed. The final regulations expand upon this rule. They provide that if the injected oil has not been removed or deemed removed, the recovered oil shall be deemed to be the same category of crude oil as the injected oil. The categories of crude oil are tier 1 oil, tier 2 oil, newly discovered oil, tier 3 oil other than newly discovered oil, and exempt oil. Additionally, in the case of a property on which a qualified tertiary project is in effect, the recovered crude oil first shall be allocated to that portion of the production from the property that exceeds the base level (described in section 4993(b)(1)).

EFFECTIVE DATES

The amendments to the final regulations contained in paragraph (d)(3) of §51.4996–1 of this document shall apply to domestic crude oil which under both the rules set forth in T.D. 7844, *supra,* and under the rules set forth in these amendments, is not treated as having been removed from the premises before October 23, 1986. The amendments to the final regulations contained in paragraph (d)(2) and (4) of §51.4996–1 of this document shall apply to domestic crude oil removed (or deemed removed) from the premises (within the meaning of paragraph (d) of §51.4996–1, as amended) after February 29, 1980, under T.D. 7844.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analyses is not required. Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these regulations is Beverly A. Baughman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 51 is amended by revising paragraph (d)(2), (3), and (4) of §51.4996–1 to read as follows:

Paragraph 1. The authority for Part 51 continues to read in part:

Authority: 26 U.S.C. 7805. Section 51.4996–1(d) also issued under 26 U.S.C. 4997.

Par. 2. In §51.4996–1 the headings and texts of paragraph (d)(2), (3), and (4) are revised to read as follows:

§51.4996–1 Definitions.

* * * * *

(d) Removed from the premises; deemed removed. * * *

(2) *Crude oil not treated as removed when used for certain purposes*—(i) *In general.* Crude oil that is injected into any well on the producing property or used on the property to power a production process (such as a tertiary injection process or water flood) or production equipment (such as an artificial lift device) shall not be treated as removed from the premises under paragraph (d)(1) of this section, provided that the crude oil never left the property from which it was produced and was not manufactured or converted. In the case of crude oil so injected or used after September 23, 1986, the preceding sentence is applicable only of the person or persons who hold 100 percent of the operating mineral interests in the portion of the property from which the crude oil is produced also hold 100 percent of such interests in the portion of the property on which the crude oil is injected or used as powerhouse fuel. For example, if a property which existed on January 1, 1972, subsequently is subdivided and leased to different persons who each hold operating mineral interest in only one of the subdivisions, crude oil produced from one subdivision is treated as removed pursuant to paragraph (d)(1) of this section. For purposes of this paragraph (d)(2), if consideration is transferred to a mineral interest owner who does not hold the same percentage interest in the portion of the property from which the crude oil is produced as in the portion of the property on which the crude oil is injected or used as powerhouse fuel, the principles described in paragraph (d)(3)(i)(B)(*1*) shall apply for determing the number of barrels of crude oil that is deemed removed.

(ii) *Crude oil deemed not to have left property*—(A) *In general.* For purposes of this paragraph (d)(2), crude oil transported to a storage facility before being used on the property is deemed not to have left the property from which it was produced only if it is transported to its first storage facility pursuant to paragraph (d)(3)(ii) of this section, subsequently withdrawn from such storage facility, and used on the producing property without ever having been deemed removed from the premises pursuant to paragraph (d)(3)(ii)(A)(*2*) or (*3*) of this section. For example, assume that wells 1 and 2 on property A have separate premises. Crude oil is produced from well 1 on premises 1 and transported from premises 1 to its storage facility that is located off the property and two miles from the producing well. Later the crude oil is injected into well 2 on premises 2 without having been deemed removed from premises 1 pursuant to paragraph (d)(3)(ii)(A)(*2*) or (*3*) of this section. The crude oil is deemed not to have left the property and is not treated as removed when it is injected into well 2. However, if the crude oil is transported from premises 1 to a storage facility located more than five miles from the producing well prior to injection into either well 1 or well 2, it is removed when it is transported. For rules relating to the category of oil injected into a well and the category of crude oil recovered after injection, see paragraph (d)(4) of this section.

(B) *Separate reservoir election.* Solely for purposes of determining whether crude oil has left the property or otherwise been removed from the premises under this paragraph (d)(2), an election to treat separate and distinct reservoirs as separate properties shall be disregarded. For example, assume that a tract is underlain by two separate and distinct reservoirs which are treated as two separate properties. Crude oil produced from one reservoir is transported to its first storage facility located less than five miles from the producing well pursuant to paragraph (d)(3)(ii) of this section. Later the crude oil is injected into the second reservoir without having been deemed removed pursuant to paragraph (d)(3)(ii)(A)(*2*) or (*3*) of this section. The crude oil is deemed not to have left the property and is not treated as removed although it is used by the taxpayer (*i.e.,* reinjected into the producing reservoir).

(iii) *Removal price.* If, under this paragraph (d)(2), crude oil is not treated as removed but is later removed from the premises pursuant to this paragraph (d), its removal price shall be the constructive sales price, computed in accordance with the principles applicable for determining gross income from the property under section 613, on the date that the crude oil is removed or deemed removed from the premises. For purposes of the preceding sentence, the term constructive sales price means the constructive sales price at the premises on which the crude oil was produced, not at the physical location of the crude oil at the time is is removed (or deemed removed) pursuant to this paragraph (d).

(3) *Certain transported crude oil deemed not removed*—(i) *Transported to contiguous tracts*—(A) *In general.* This paragraph (d)(3)(i)(A) applies only for purposes of determining the timing of the imposition of the windfall profit tax and the date of the determination of the removal price (described in section 4988(c)). Except as provided in paragraph (d)(3)(i)(B) of this section, crude oil that is transported away from the premises from which it was produced to another portion of the same tract or parcel of land, or from the tract or parcel of land on which it was produced to a contiguous tract or parcel of land (or to a tract or parcel that is in a group of contiguous tracts or parcels that is contiguous to a producing tract or parcel) shall be deemed not removed from the premises if four conditions are met. These conditions are:

(*1*) The transported crude oil has not been manufactured, converted, sold, or exchanged;

(*2*) The crude oil is used to power a production process or production equipment, or is injected into a well, on a premises or tract or parcel of land described in the immediately preceding sentence;

(*3*) In the case of transportation between contiguous tracts or parcels of land, the same person or persons hold 100 percent of the operating mineral interests in each of the tracts or parcels of land; and

(*4*) In the case of transportation away from the premises to another portion of the same tract or parcel of land, the person or persons who hold 100 percent of the operating mineral interests in the portion of the property from which the crude oil is produced also hold 100 percent of such interests in the portion of the property on which the crude oil is injected or used as powerhouse fuel.

(B) *Exceptions.* (*1*) Except as provided in paragraph (d)(3)(i)(B)(*2*) of this section, paragraph (d)(3)(i)(A) does not apply if any consideration is or will be transferred to a holder of a mineral interest in the tract or parcel of land (or portion thereof) that produced the crude oil—

(*i*) Who does not hold a mineral interest in the tract or parcel (or portion) on which the crude oil is used, or

(*ii*) Who also holds a mineral interest in the tract or parcel (or portion) on which the crude oil is used that entitles that holder to a smaller share of production than the holder's share of production in the producing tract or parcel (or portion).

as compensation for the holder's interest in the crude oil transported. If any consideration is transferred, the number of barrels of crude oil whose constructive sales price (determined under the principles employed under section 613) equals the fair market value (in the case of crude oil transferred as consideration, such constructive sales price of the crude oil transferred as consideration) of the total consideration transferred shall be deemed removed on the date the crude oil is transported from the producing tract or parcel of land.

(*2*) Paragraph (d)(3)(i)(B)(*1*) of this section does not apply to taxable crude oil that is transferred as consideration to a holder of a mineral interest described in paragraph (d)(3)(i)(B)(*1*)(ii) and that is to be produced from the premises or tracts or parcels of land in the same calendar quarter as that in which the crude oil is transported pursuant to paragraph (d)(3)(i)(A) or in the immediately following calendar quarter.

(C) *Definition of contiguous.* As used in this paragraph (d)(3)(i), the term "contiguous" means actually touching along a substantial common border. There must be such actual touching below the surface of the areas that are subject to the right to produce crude oil, but physical touching of the tracts or parcels of land on the surface is not required. Thus, a road separating two tracts of land will not affect the contiguity of the tracts as long as the right to produce under the road is held by the same person or persons who hold such rights in the tracts or parcels of land on each side of the road.

(D) *Transportation to storage tank exception.* If crude oil, which has been transported to its first storage facility pursuant to paragraph (d)(3)(ii) of this section and subsequently withdrawn from such storage facility, and which has not been deemed removed from the premises pursuant to paragraph (d)(3)(ii)(A)(2) or (*3*), is transported directly from such storage facility to a premises or tract or parcel of land referred to in the second sentence of paragraph (d)(3)(i)(A) of this section, such crude oil shall be deemed not removed from the premises provided that it would have been deemed not removed if it had been transported directly to such premises, tract, or parcel from the producing premises.

(E) *Examples.* The provisions of this paragraph (d)(3)(i) may be illustrated by the following examples:

Example (1). Crude oil is transported from tract 1 where it was produced to contiguous tract 2 to power production equipment. A and B hold operating mineral interests in tracts 1 and 2 as indicated in the following table:

	Tract 1 (percent)	Tract 2 (percent)
A	80	45
B	20	55
	100	100

Additionally, C holds a royalty interest in tract 1 but not in tract 2. B agrees to pay A money to reflect the 35 percent (80% − 45%) difference in his operating mineral interests in tracts 1 and 2. A and B agree to pay C money for his royalty interest in the crude oil transported from tract 1. The number of barrels of crude oil whose constructive sales price equals the fair market value of the total consideration transferred to A and C is removed from the premises when it is transported from tract 1.

Example (2). D holds a 100% operating mineral interest in tract 3 and in tract 4. Tracts 3 and 4 are separated by a 100-foot wide area in which E railroad company holds a fee (including all mineral rights). Tracts 3 and 4 are not contiguous and, accordingly, crude oil is removed when it is transported from one of these tracts to the other.

(ii) *Transportation to a storage facility*—(A) *In general.* This paragraph (d)(3)(ii) applies only to crude oil transported away from the premises to its first storage facility. For purposes of determining the timing of the imposition of the windfall profit tax and the date of the determination of the removal price, such crude oil transported to such first storage facility located five miles or less from the producing well, or, in the case of an offshore well, five miles or less from the point the crude oil comes on shore, shall be deemed not removed from the premises provided that the transportation of the crude oil to such first storage facility is completed prior to manufacture, conversion, sale, or exchange. In those cases the crude oil shall be deemed removed on the first date that any of the following occurs:

(*1*) Withdrawal of the crude oil from such first storage facility; or

(*2*) Sale or exchange of the crude oil; or

(*3*) Manufacture or conversion of the crude oil.

(B) *Exceptions*. For exceptions to paragraph (d)(3)(ii)(*1*) of this section for crude oil returned to the property from which it was produced or to a tract or parcel of land or group of tracts or parcels of land contiguous to the one on which it was produced, see paragraphs (d)(2)(ii)(A) and (d)(3)(i)(D) of this section, respectively.

(iii) *Removal price*. If under paragraph (d)(3)(i)(A) or (D) or (ii)(A) crude oil is deemed not removed, but is later removed from the premises pursuant to this paragraph (d), its removal price shall be determined under the principles set forth in paragraph (d)(2)(iii) of this section.

(iv) *Effective date*. This paragraph (d)(3) shall apply to domestic crude oil which under both the rules set forth in T.D. 7844 (47 Fed. Reg. 50,275) 1982)), and the rules set forth in this paragraph (d)(3) is not treated as having been removed from the premises before October 23, 1986. For rules applicable to domestic crude oil not subject to this paragraph (d)(3), see 26 CFR 51.4996–1(d) (Rev. as of April 1, 1983).

(4) *Categories of oil injected into a well and recovered after injection*—(i) *Injection of oil that has not been removed*. If oil that has not been removed or deemed removed is injected into a well, the first crude oil recovered after injection and as a result of injection (up to an amount equal to the amount injected) shall be deemed to be of the same category of crude oil as the injected oil. For purposes of this paragraph (d)(4)(i) the categories of crude oil are tier 1 oil, tier 2 oil, newly discovered oil, tier 3 oil other than newly discovered oil, and exempt oil. In the case of a property on which a qualified tertiary project is in effect during the month in which the crude oil is recovered, such recovered crude oil first shall be allocated to that portion of the production from the property for the month that exceeds the base level (described in section 4993(b)(1)) for the property for that month. For example, assume that during the month, 500 barrels of tier 1 oil that have not been removed are injected into a property from which both tier 1 and tier 2 oil is produced. Additionally, a qualified tertiary project is in effect on the property. During the month 10,000 barrels of crude oil are produced from the property. Of that 10,000 barrels, 8,000 barrels is production which exceeds the base level amount for the property for the month. Pursuant to this paragraph (d)(4)(ii), 500 barrels of the 10,000 barrels produced are recovered tier 1 oil. The 500 barrels of recovered tier 1 oil are allocated to the 8,000 barrels which exceed the base level amount. Therefore, the remaining 7,500 barrels (8,000-500) of crude oil are allocated between tier 1 and tier 2 oil pursuant to section 4993(b)(3).

(ii) *Injection of oil that has been removed*. If oil that has been removed or deemed removed from the premises pursuant to this paragraph (d) is injected into a well (*e.g.*, "wash" or "frac" oil), the first crude oil recovered after injection and as a result of injection (up to an amount equal to the amount injected) shall be deemed not removed, provided the operator certifies the information required by paragraph (b)(7) of §51.6050C–1. The preceding sentence shall not apply to oil (A) which is a "hydrocarbon injectant" within the meaning of section 193(b) and (B) for which a deduction is allowable under section 193.

ROSCOE L. EGGER, JR.
Commissioner.

Approved February 9, 1986.

J. ROGER MENTZ,
Acting Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on September 22, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 23, 1986, 51 F.R. 33741)

Part IV. Items of General Interest

Withdrawal of Notice of Proposed Rulemaking—Notice of Proposed Rulemaking

Definition of Property for Purposes of the Windfall Profit Tax

LR-34-82

AGENCY: Internal Revenue Service, Treasury.

ACTION: Withdrawal of notice of proposed rulemaking—notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the windfall profit tax on domestic crude oil imposed by title 1 of the Crude Oil Windfall Profit Tax Act of 1980. The regulations would clarify the meaning of the term "property" for purposes of the windfall profit tax. In addition, this document withdraws the notice of proposed rulemaking relating to the definition of "property" for purposes of the windfall profit tax that was published in the FEDERAL REGISTER on November 10, 1982 (47 FR 50924) [1982-2 C.B. 930].

DATES:

PROPOSED EFFECTIVE DATE

These regulations are proposed to be effective for crude oil removed after February 29, 1980.

DATES FOR COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Written comments and requests for a public hearing must be delivered or mailed by November 11, 1986. ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-34-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Robert H. Ginsburgh of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. (Attention: CC:LR:T) (202-566-3297).

SUPPLEMENTARY INFORMATION: BACKGROUND

This document contains proposed amendments to the Excise Tax Regulations under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 51). These proposed regulations are to be issued under the authority of Code section 4997 (b) (94 Stat. 250, 26 U.S.C. 4997 (b)), which grants the Secretary of the Treasury of his delegate authority to prescribe regulations necessary or appropriate to carry out the purpose of the windfall profit tax (including changes in the application of the energy regulations), and the more general regulatory authority contained in Code section 7805 (68A Stat. 917, 26 U.S.C. 7805). This document also withdraws the proposed regulations relating to the definition of "property" for purposes of the windfall profit tax that were published in the FEDERAL REGISTER on November 10, 1982 (47 FR 50924).

Under the windfall profit tax taxable crude oil is divided into three tiers. The windfall profit tax rate depends, in part, on the tier of the crude oil. In order to determine the tier of taxable crude oil it is often necessary to determine the "property" from which the crude oil is produced. For example, the determinations of whether crude oil qualifies as crude oil from a stripper well property, newly discovered oil, or heavy oil (all these types of oil receive preferred treatment under the windfall profit tax) are made on a property-by-property basis.

"Property" is defined for windfall profit tax purposes in §150.4996-1(i) of the Temporary Excise Tax Regulations Under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 150) as promulgated by Treasury Decision 7846, published on November 10, 1982 (47 FR 50858) [1982-2 C.B. 353]. The text of that Treasury decision also served as the text of a notice of proposed rulemaking published on the same day (47 FR 50924) [1982-2 C.B. 930]. Section 150.4996-1(i) provides that "property" generally is determined by reference to the geographical boundaries of the right to produce crude oil as such right existed on January 1, 1972, provided such right was in production in commercial quantities on that date. If such right was not in production in commercial quantities on January 1, 1972, the determination of "property" is generally made by reference to the geographical boundaries of the right to produce crude oil when crude oil is first produced thereafter in commercial quantities. For this purpose the term "commercial quantities" has the same meaning as that term has in proposed §51.4996-1(n). See the notice of proposed rulemaking relating to newly discovered crude oil (LR-224-81) [1982-2 C.B. 903] published on November 5, 1982 (47 FR 50306), for the content of proposed §51.4996-1(n).

Although paragraph (i)(1) of §150.4996-1 provides the general rule for determining "property," that paragraph and the notice of proposed rulemaking relating to "property" published in the Federal Register on the same date as that paragraph (47 FR 50924) reserved for subsequent publication the exceptions to the general rule. These proposed amendments would provide rules relating to the exceptions to the general rule for determining "property" as well as the general rule.

EXPLANATION OF PROVISIONS

Under the energy regulations, "property" generally was determined by reference to the right to produce crude oil. The Department of Energy and its predecessor agencies (hereinafter the term "DOE" refers to the Department of Energy and its predecessor agencies) recognized exceptions to this general rule. These exceptions included the following situations in which DOE either recognized multiple rights to produce from a single instrument, such as a lease or deed, or multiple properties from a single right to produce crude oil: (1) Separate development of specifically identified portions of a property, (2) noncontiguous tracts, (3) royalty owner accountability, (4) severance tax accountability, (5) very large tracts, and (6) separate reservoirs. In addition, DOE recognized a single property as a result of the aggregation of several separate rights to produce crude oil. Unitizations were the principal exception in this category.

The proposed amendments would amend §51.4996-4. This section would contain the rules relating to the definition of "property" for windfall profit tax purposes. This proposed section contains a general definition of "property," which is essentially the same as the definition in §150.4996-1(i)(1). In addition, paragraphs (c), (d), and (e) of proposed §51.4996-4 contain the exceptions to the general definition of "property." These exceptions are generally similar to those provided by DOE, but are mandatory rather than permissive.

Proposed §51.4996–4(b) provides a definition of the term "right to produce." This definition is essentialy the same as the definition contained in §150.4996–1(i)(2). However, proposed §51.4996–4(b) makes clear that a right to produce may arise from a farmout agreement. See examples (8), (9), (10), and (11) in paragraph (f) of §51.4996–4. No inference as to the proper treatment of farmout agreements for income tax purposes is to be drawn from their treatment under proposed §51.4996–4.

Proposed §51.4996–4(d)(6) provides that the operator of a property, rather than each producer, may elect to treat as separate properties each separate and distinct producing reservoir subject to the same right to produce. It also specifies the time and manner of making the election. Once the election is made it is irrevocable, applies to all producers who currently hold an interest in the property and all producers who acquire an interest in the property, and applies to newly-discovered producing reservoirs.

Proposed §51.4996–4(e)(2) provides that a recognized unitization shall be treated as a separate property except as otherwise provided in section 4988(b) (relating to the net income limitation). For this purpose the term "unitization" refers to the right to produce crude oil that arises from an agreement under which the persons holding the rights to produce crude oil with respect to different geographical areas agree to have the rights to produce operated on a unified basis and further agree to share in production on a stipulated percentage or fractional basis regardless of the geographical boundaries of the right to produce from which crude oil is produced. The proposed amendments make clear that an agreement merely among the holders of the working interests to operate several separate rights to produce as a single property does not result in a unitization that will be treated as a single property because the holders of the royalty interests are not parties to the agreement.

The proposed amendments provide that, in the case of a recognized unitization, if a portion of a property is not included in the unitized property, that portion is treated as a separate right to produce. However, a special rule is provided to prevent production from the nonunitized portion from being treated as newly discovered oil, stripper well oil, or heavy oil after the unitization if the production did not receive that treatment before the unitization.

COMMENTS AND REQUEST FOR PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is to be held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

SPECIAL ANALYSIS

The Commissioner of Internal Revenue has determined that a Regulatory Impact Analysis is not required because these final rules are not major rules under Executive Order 12291.

Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations was Mr. Douglas W. Charnas of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations, both on matters of substance and style.

* * * *

Proposed amendments to the regulations.

The proposed amendments to 26 CFR Part 51 relating to the definition of "property" for purposes of the windfall profit tax that were published in the FEDERAL REGISTER on November 10, 1982 (47 FR 50924), are hereby withdrawn, and the proposed amendments to 26 CFR Part 51 are as follows:

Paragraph 1. The authority citation of Part 51 continues to read in part:

Authority: Secs. 4997, 7805 Internal Revenue Code of 1954 (94 Stat. 249, 68A Stat. 917; (26 U.S.C. 4997, 7805)), * * *

Par. 2. Paragraph (c)(1) of §51.4989–1 is amended by removing "§150.4996–1(i)" and inserting in lieu thereof "§51.4996–4."

Par. 3. Section 51.4996–1 is amended by removing paragraph (i) and redesignating paragraphs (j), (k), (l), and (m) as (i), (j), (k), and (l), respectively.

Par. 4. Paragraph (b) of §51.4996–3 is amended by removing "paragraph (i) of §51.4996–1" and inserting in lieu thereof "§51.4996–4."

Par. 5. Section 51.4996–4 is added to read as follows:

§51.4996–4 Definition of property.

(a) *In general.* Except as otherwise provided in section 4988(b) and §51.4988–2 (relating to the net income limitation on windfall profit) and paragraphs (c) and (d) of this section, in the case of a right to produce crude oil in existence on January 1, 1972, that was in production in commercial quantities (as defined in paragraph (n)[1] of §51.4996–1) on that date, the "property" is determined by reference to the geographical boundaries of such right. If such right was not in production in commercial quantities on January 1, 1972, the determination of "property" is generally made by reference to the geographical boundaries of the right to produce crude oil when crude oil is first produced thereafter in commercial quantities.

(b) *Right to produce.* The right to produce crude oil is an operating or working interest. It may arise, for example, from a lease, sublease, farmout agreement or deed of a fee interest.

---

[1] Section 51.4996–1(n) was proposed on November 5, 1982, 47 FR 50307.

(c) *Separate rights to produce from single instrument.* A single instrument, such as a lease or deed, shall be treated as having transferred more than one right to produce crude oil if—

(1) The instrument specifically identifies portions of the acreage covered by the instrument,

(2) The instrument creates significantly different rights and duties (particularly for exploration and drilling obligations) with respect to the specifically identified portions,

(3) The holders of the rights transferred by the instrument have in good faith relied upon such differences in their exploration and development activities,

(4) The holders of the rights transferred by the instrument have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from more than one such portion), consistently and historically accounted for such portions separately, and

(5) The holders of the rights transferred by the instrument have, since the inception of price controls (or, if later, when production first began in commercial quantities from more than one such portion), consistently and historically treated each such portion as a separate right to produce crude oil.

If the requirements of this paragraph are met, each specifically identified portion described in this paragraph shall be treated as a separate right to produce crude oil. The requirements of paragraph (c)(4) and (5) of this section shall be considered met if the rights transferred by the instrument are acquired after the inception of price controls and the holders of those rights have, since the acquisition of those rights (or, if later, when production first began in commercial quantities from more than one such portion), consistently and historically accounted separately for each specifically identified portion and treated each portion as a separate right to produce. If the holders of those rights consistently and historically treated specifically identified portions as separate rights to produce, but departed from such treatment to more closely comport with the definition of "property" as specifically set forth by the Department of Energy's predecessor agencies before the issuance of FEA Ruling 1977–1, the holders of those rights shall be considered to have consistently and historically treated such portions as separate rights to produce provided the holders of those rights readopted such treatment by January 1, 1978. For purposes of this section, the inception of price controls is treated as having occurred with the adoption of subpart L of 6 CFR Part 150 (38 FR 22546, August 22, 1973), effective August 19, 1973.

(d) *Separate properties from a single right to produce*—(1) *In general.* In limited situations, a single right to produce that would be a single property under the rules of paragraph (a) of this section shall be treated as more than one property. Those situations are set forth in this paragraph. Except as otherwise provided for in this paragraph and paragraph (c) of this section, a single right to produce that would be a single property under the rules of paragraph (a) of this section shall be treated as a single property (not subject to division into multiple properties).

(2) *Noncontiguous tracts.* An instrument transferring the right to produce crude oil may convey a single undifferentiated right to produce crude oil with respect to multiple, noncontiguous tracts. In this case, each noncontiguous tract shall be treated as a separate property if—

(i) The right to produce crude oil would be a single property under the rules of paragraph (a) of this section.

(ii) The noncontiguous tracts were developed and produced separately by the holders of the right to produce crude oil,

(iii) The holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from more than one such tract), consistently and historically accounted for each noncontiguous tract separately, and

(iv) The holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from more than one such tract), consistently and historically treated each noncontiguous tract as a separate property.

The principles of paragraph (c) of this section relating to whether the holders of the rights transferred by an instrument are considered to have consistently and historically accounted separately for specifically identified portions and treated each such portion as a separate right to produce crude oil shall apply for purposes of paragraph (d)(2)(iii) and (iv) of this section.

(3) *Royalty owner accountability.* A right to produce crude oil that would be treated as a single property under the rules of paragraph (a) of this section shall be treated as more than one property if—

(i) The instrument transferring the right to produce crude oil specifically identifies portions of the acreage covered by the right to produce crude oil the production from which is required to be measured and accounted for separately for purposes of accounting to royalty owners (but not overriding royalty owners, working interest owners, or other interest owners),

(ii) The instrument imposes no duty to account to the royalty owners of one such specifically identified portion for the production and sale of crude oil from another such specifically identified portion,

(iii) The holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from one such portion), consistently and historically accounted for such portions separately, and

(iv) The holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from one such portion), consistently, and historically treated each such portion as a separate property.

If the requirements of this subparagraph are met, each such specifically identified portion of the right to produce shall be treated as a separate property. The principles of paragraph (c) of this section relating to whether the holders of the rights transferred by an instrument are considered to have consistently and historically accounted separately for specifically identified portions and treated each such portion as a separate right to produce crude oil shall apply for purposes of paragraph (d)(3)(iii) and (iv) of this section. For purposes of this subparagraph, a division order is not an instrument which specifically requires production to be measured and accounted for separately for purposes of accounting to royalty owners.

(4) *Severance tax accountability.* A right to produce crude oil that would be treated as a single property under the rules of paragraph (a) of this section shall be treated as more than one property if—

(i) The instrument transferring the right to produce crude oil identifies portions of the acreage covered by the right to produce crude oil the production from which must be measured and accounted for separately for purposes of determining severance tax liability,

(ii) The severance tax liability as a result of the separate accounting is different from that which would have resulted had there not been such separate accounting,

(iii) The holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began in commercial quantities from one such portion), consistently and historically accounted for such portions separately, and

(iv) The holders of the right to produce crude oil have, since the inception of price controls (or, if later, when production first began in commercial quantities from one such portion), consistently and historically treated each such portion as a separate property.

If the requirements of this subparagraph are met, each such specifically identified portion of the right to produce crude oil shall be treated as a separate property. Thus, for example, separate accounting for severance tax purposes may be necessary in situations in which the rate of severance tax varies according to the value of the crude oil produced and sold from the right to produce which would be treated as a single property under the rules of paragraph (a) of this section. In such a situation, if the imposition of a severance tax has required the holders of the right to produce separately to account for production from specifically identified portions subject to the same right to produce, and if the holders of the right to produce have consistently and historically treated such specifically identified portions as separate properties, such specifically identified portions shall be treated as separate properties. However, if a severance tax is determined merely by applying a fixed rate to total production volume, separate property treatment is not allowed unless different rates of tax were applied to specifically identified portions. An *ad valorem* tax which is based on the value of crude oil remaining in reservoirs on the property is not a tax the rate of which varies according to the value of crude oil produced and sold from the property, and, accordingly is not in the nature of a severance tax the separate accounting of which would result in the treatment of specifically identified portions as separate properties. The principles of paragraph (c) of this section relating to whether the holders of the rights transferred by an instrument are considered to have consistently and historically accounted separately for specifically identified portions and treated each such portion as a separate right to produce shall apply for purposes of paragraph (d)(4)(iii) and (iv) of this section.

(5) *Very large tracts*—(i) *In general.* Separate geological structures subject to the same right to produce crude oil that would be treated as a single property under the rules of paragraph (a) of this section shall be treated as separate properties if the holders of the right to produce crude oil have, since the inception of price controls on crude oil (or, if later, when production first began from more than one such structure), consistently and historically accounted for separately and treated as separate properties each separate geological structure. The principles of paragraph (c) of this section relating to whether the holders of the rights transferred by an instrument are considered to have consistently and historically accounted separately for specifically identified portions and treated each such portion as a separate right to produce shall apply for purposes of determining whether the holders of the right to produce have consistently and historically accounted for separately and treated as separate properties each separate geological structure.

(ii) *Separate geological structures.* For purposes of this subparagraph, the term "geological structure" means layers of sedimentary rock which have been displaced from the horizontal by various forces of nature. Five general categories are recognized: (A) Faults, (B) anticlines, (C) monoclines, (D) synclines, and (E) domes.

(6) *Election to treat separate reservoirs as separate properties.* (i) *Effect of election*—(A) *In general.* The operator of a single right to produce crude oil (including a separate right to produce after the application of paragraph (c) of this section) that is treated as a single property under the rules of paragraph (a) of this section may elect to treat as separate properties each separate and distinct producing reservoir subject to the same right to produce crude oil that is not in communication with any other producing reservoir subject to the same right to produce crude oil. If an election is made, each such reservoir shall be treated as a separate property. Once made, an election is irrevocable, applies to all producers who currently hold an interest in the property and all producers who acquire an interest in the property, and applies to each separate and distinct newly-discovered producing reservoir that is not in communication with any other producing reservoir subject to the same right.

(B) *Commingled production.* For purposes of this subparagraph, reservoirs subject to the same right to produce crude oil are in communication if the production is commingled in a well bore located within the geographical boundaries of such right to produce crude oil, and all such reservoirs whose production is commingled with one another shall be treated as a single reservoir for so long as commingling continues. If production from two or more separate and distinct producing reservoirs is commingled after the effective date of an election to treat such reservoirs as separate properties, such reservoirs shall be treated as a single property as of the beginning of the month during which commingled production is begun. Production through a well bore from two or more reservoirs shall not be considered commingled if the well meets the following requirements:

(*1*) The well consists of two (or more) separate tubing strings run inside the casing (or one or more such strings and the annulus between such string or strings and the casing), each of which carries crude oil from a separate and distinct producing reservoir,

(*2*) The production from each reservoir can be separately measured at the wellhead, and

(*3*) The production capabilities of each reservoir are unaffected by any change in the production level of any other reservoir producing through the same well.

Production from two or more otherwise separate and distinct reservoirs shall not be considered commingled if the reservoirs are produced through different wells but such production is commingled in a single tank battery, provided that production is separately measured at the wellhead or that production volumes are allocated back to each well based on regular well tests.

(ii) *Method of making election.* An election pursuant to this subparagraph may be made by the operator at any time after crude oil is first produced in commercial quantities from more than one separate and distinct producing reservoir subject to the same right to produce crude oil. An election shall be effective as of the first day of the calendar month in which the election is made. However, if the election is made by the date that is 60 days after the date of publication of this subparagraph in the Federal Register in a Treasury decision, the election may be made effective as of an earlier date selected by the operator provided the operator has consistently and historically separately accounted for and treated as separate properties each separate and distinct producing reservoir subject to the same right to produce since such earlier date selected by the operator. Separate and distinct reservoirs shall not be treated as separate properties in the absence of an election pursuant to this subparagraph, notwithstanding the operator's consistent and historic treatment of such reservoirs as separate properties for price control purposes and the acceptance of such treatment by the Department of Energy (or any of its predecessor agencies), unless the operator establishes that the failure to make such election was due to reasonable cause. The principles of paragraph (c) of this section relating to whether the holders of the rights transferred by an instrument are considered to have consistently and historically accounted separately for specifically identified portions and treated each such portion as a separate right to produce shall apply for purposes of determining whether an operator has consistently and historically accounted for and treated as separate properties each separate and distinct producing reservoir. The operator shall make the election under this subparagraph by submitting a certification, signed under penalties of perjury by a petroleum engineer (who has been duly registered or certified in accordance with applicable state law, if any) to the Internal Revenue Service Center, Austin, Texas. The certification shall contain the following:

(A) A statement clearly indicating that an election is being made to treat as separate properties each separate and distinct producing reservoir subject to the same right to produce crude oil,

(B) The operator's name, address, and identifying number (employer identifying number, or, if none, social security number),

(C) A description of the property subject to the election including the location, identifying number (if any), and the names and identifying numbers or, if none, other sufficient identification of the leases or subleases composing the property.

(D) A statement that each reservoir is a producing reservoir that is separate and distinct from, and not in communication with, any other producing reservoir, and

(E) If the election is made before the date that is 60 days after the date of publication of this paragraph in the Federal Register in a Treasury decision, the date on which the election is effective.

(e) *Aggregation of rights to produce*—(1) *Aggregations other than unitizations*—(i) *In general.* An aggregation of rights to produce described in paragraph (e)(1)(ii), (iii), or (iv) of this section shall be treated as a single property provided the producers can demonstrate a bona fide reason for the aggregation.

(ii) *Undivided interests.* In certain situations, various persons may hold partial undivided interests in the right to produce crude oil from a particular area. It is not uncommon in these situations to aggregate the separate rights to produce before production begins from the area. These aggregations may occur voluntarily through a joint operating agreement or other type of agreement, or pursuant to compulsory state regulations. An aggregation in these situations in order to perfect the right to produce is considered an aggregation of separate rights to produce for purposes of this section.

(iii) *State required aggregations.* In certain situations, premises subject to separate rights to produce crude oil are required to be combined by a state regulatory agency as a condition to the operation of production activities. For example, a state regulatory agency may compel a "unit" to be formed by the owners of the tracts with respect to the surface area which overlies the portion of a reservoir that may be efficiently drained by a single well, provided the owners of at least a certain percent of the surface area agree to the formation of the unit. Such a combination of rights to produce is considered an aggregation of separate rights to produce for purposes of this section.

(iv) *Spacing requirements.* In states that maintain spacing requirements for crude oil wells, individual rights to produce crude oil may need to be combined, whether voluntary or involuntary, before a single well may be drilled and the right to produce made effective. Such a combination of rights to produce (sometimes known as a "drilling unit") is considered an aggregation of separate rights to produce for purposes of this section.

(2) *Unitizations*—(i) *In general.* A unitization (within the meaning of paragraph (e)(2)(ii) of this section) shall be treated as a single property (the "unitized property") except as otherwise provided in section 4988(b) and §51.4988–2 (relating to the net income limitation on windfall profit).

(ii) *Unitization defined.* The term "unitization" refers to the right to produce crude oil that arises from an agreement under which the persons holding the rights to produce crude oil with respect to different geographical areas agree to have the rights to produce operated on a unified basis and further agree to share in production on a stipulated percentage or fractional basis regardless of the geographical boundaries of the right to produce from which the crude oil is produced. A unitization occurs when a bona fide unitization agreement (within the meaning of paragraph (e)(2)(iii) of this section) is approved by the applicable governmental regulatory authority or by the Energy Regulatory Administration, or, if later, the effective date specifically set forth in the unitization agreement. However, notwithstanding the occurrence of the unitization, the unitization shall not be treated as having occurred for any month beginning before the unitized property sustained a significant alteration in producing patterns provided the operator of the unitized property certified (pursuant to the provisions of 10 CFR Part 205, Subpart G) to the Energy Regulatory Administration its intention to determine volumes (for price control purposes) of lower tier, upper tier, newly discovered, and stripper well property crude oil separately for all properties that constitute the unitized property. For purposes of the preceding sentence, a "significant alteration in producing patterns" means the occurrence of either (A) the application of extraneous energy sources by the injection of liquids or gases into the reservoir, or (B) the increase in production allowables for any property that constitutes the unitized property.

(iii) *Bona fide unitization agreement.* A unitization agreement is bona fide if the unitization is necessary, in accordance with sound engineering practice, to maximize production from the reservoir affected by the unitization, and if the agreement manifests an intent by the majority of the holders of royalty interests and working interests to some change in the underlying property and contractual rights of the various interest holders, particularly through their agreement to a participation formula. An agreement merely among the holders of the working interests to operate several separate rights to produce crude oil as a single property does not constitute a bona fide unitization agreement because the holders of the royalty interests are not parties to the agreement.

(3) *Special rules for unitizations or other aggregations*. If a unitized property or other aggregation treated as a single property under this paragraph encompasses less than the geographical boundaries of a right to produce crude oil as such right exists before the unitization or other aggregation, the portion of the geographical boundaries of such right to produce that is not encompassed by the unitized property or other aggregation shall be treated as a right to produce separate from the unitization or other aggregation. For purposes of section 4996(e) and §51.4996-3, crude oil produced from the portion of the right to produce crude oil that is not unitized or otherwise aggregated shall be treated as crude oil produced from property transferred as of the date of the unitization or other aggregation. However, the rule in the preceding sentence shall only apply to production from those reservoirs underlying such right to produce crude oil (as such right existed before the unitization or other aggregation) from which crude oil was produced in commercial quantities before the unitization or other aggregation through a well located within the geographical boundaries of such right to produce crude oil (as such right existed before the unitization or other aggregation).

(f) *Examples*. The provisions of this section may be illustrated by the following examples (references in the examples to production of crude oil mean production in commercial quantities):

Example (1). A purchased land in 1960 (receiving a standard special warranty deed) and used the land exclusively for farming until 1969 when he drilled a well in the southwest portion of the land. The well began producing crude oil in 1970 and is still in production. In 1973 A executed four oil and gas leases for portions of the land none of which included any area that ever had a producing well and each of which began producing crude oil in 1980. The boundaries of the "property" are determined by reference to the geographical boundaries of the fee interest held by A on January 1, 1972, because A's right to produce crude oil on January 1, 1972, was in production on that date.

Example (2). B purchased land in 1960 (receiving a standard special warranty deed) and used the land exclusively for farming. In 1973 B sold the west half of the land. In 1974 B drilled a well in the northeast portion of his land. The well began producing crude oil on February 1, 1974. "Property" is determined by reference to the geographical boundaries of B's fee interest on February 1, 1974, because those are the geographical boundaries of the right to produce crude oil when crude oil was first produced. Any "property" with respect to the land sold by B in 1973 will be determined by reference to the geographical boundaries of the right or rights pursuant to which crude oil is ultimately produced thereon.

Example (3). C purchased land in 1960 (receiving a standard special warranty deed) and used the land exclusively for farming. In 1970 C granted an oil and gas lease to D on the entire fee interest. In 1973 D drilled a well in the south half of the land. The well began producing crude oil in 1973. In 1974 D granted an oil and gas sublease to E on the north half of his lease. E drilled a well and began producing crude oil in 1974. "Property" is determined by the geographical boundaries of D's lease because those are the geographical boundaries of the right to produce crude oil when crude oil was first produced. "Property" is not determined by reference to the geographical boundaries of E's sublease because of the crude oil production from D's lease prior to execution of the sublease.

Example (4). On December 31, 1971, F granted an oil and gas lease to G on the north half of his fee interest and an oil and gas lease to H on the south half of his fee interest. Each lease provided that drilling was to commence within 5 years or the lease would expire. On January 1, 1973, G began drilling a well in the land subject to his lease. The well began producing crude on March 15, 1973. As of December 31, 1976, no well had been drilled on the land subject to H's lease and H's lease expired. G's lease was a right to produce crude oil pursuant to which the first production of crude oil after January 1, 1972, occurred. Thus, the boundaries of G's lease in 1973 constitute the "property" for purposes of the windfall profit tax. "Property" is not determined by reference to the geographical boundaries of H's lease because no crude oil was produced pursuant to that right to produce crude oil. Also, "property" is not determined by reference to the geographical boundaries of that portion of F's fee interest not subject to G's lease (upon expiration of H's lease) because no crude oil has been produced pursuant to that right to produce crude oil.

Example (5). Assume the same facts as in example (4) except that on December 31, 1973, H granted on oil and gas sublease to I on the west half of his lease an an oil and gas sublease to J on the east half of his lease. Under each oil and gas sublease drilling was to commence on the land subject to the sublease within 3 years or the sublease would expire. J drilled a well during February of 1974 which began producing crude oil that month. No production occurred on I's sublease by December 31, 1976, and, at that time, I's sublease expired. Because H's lease did not produce crude oil before H granted oil and gas subleases to I and J, "property" is determined by reference to the geographical boundaries of J's sublease. J's sublease was a right to produce crude oil pursuant to which crude oil was actually produced. "Property" is not determined by reference to the geographical boundaries of I's sublease because the sublease expired before crude oil was produced pursuant to that right to produce. "Property" is not determined by reference to the geographical boundaries of that portion of H's lease that was not subject to J's sublease (land formerly subject to I's sublease) because crude oil was not produced pursuant to H's right to produce crude oil therefrom after the expiration of I's sublease. As in example (4) another "property" is determined by reference to the geographical boundaries of G's lease.

Example (6). Assume the same facts as in example (5) except that on January 1, 1977, H granted an oil and gas sublease to K of the portion of his lease that was formerly subject to I's sublease. Under the sublease, K was to commence drilling within 1 year. K drilled a well during May of 1977 which began producing crude oil that month. "Property" is determined by reference to the geographical boundaries of K's sublease because there was no crude oil production pursuant to H's lease before H ganted oil and gas subleases to I and J nor was there crude oil production pursuant to I's sublease before it expired.

Example (7). In 1970 L acquired an oil and gas lease for a 1,600 acre tract. The lease assigned to L the right to produce crude oil from any portion of the tract for a primary term of 5 years after which the lease would expire, except as to sufficient acreage around each producing well (as of the expiration of the primary term) to constitute a drilling unit for each well. In 1971 L drilled 10 wells which began producing that year. The drilling unit for each well was 40 acres. L did not drill any other producing wells. In 1975, when the primary term of the lease expired, L's right to produce expired except for the 400 acres around the 10 producing wells. The boundaries of the "property" are determined by reference to the geographical boundaries of the 1,600 acre tract because those are the geograpical boundaries of L's right to produce crude oil on January 1, 1972, which was in production on that date.

Example (8). Assume that the right to produce crude oil for the 1,600 acre tract in example (7) was held be a lessee who entered into a farmout agreement with L in 1971. The agreement provided that L had the right to explore and drill for oil and gas on the tract for a period of 5 years, and that, for each producing well drilled by L, the lessee would assign to L the right to produce crude oil as to sufficient acreage around the well to constitute a drilling unit. In 1973 L drilled one well which began producing crude oil that year. The drilling unit for that well was 40 acres. In 1975, when the term of the agreement expired, L's right to produce expired except for the 40 acres around the producing well. The boundaries of the "property" are determined by reference to the geographical boundaries of the farmout agreement when L obtained production from the producing well. At that time the farmout agreement covered the entire 1,600 acre tract. Thus, "property" is determined by reference to the geographical boundaries of the 1,600 acre tract.

Example (9). M acquired an oil and gas lease for a 160 acre tract of land in 1965, and drilled a well in the southwest portion of the land in 1969. The well began producing crude oil in 1970, and is still producing crude oil. In 1973 M entered into a farmout agreement with N.

The agreement provided that N had the right to explore and drill for oil and gas on the east half of M's land for a period of 5 years. The agreement provided that if N drilled a well which produced crude oil, M would assign to N the entire working interest (the right to produce crude oil) for the east half of M's land and would retain an overriding royalty interest. The agreement further provided that after recovery by N of all costs of drilling, equipping, and operating the well out of the proceeds from the working interest's share of all crude oil, gas, and other hydrocarbons produced, saved and sold from the east half, M will have the right to convert the overriding royalty interest to an undivided one-half of the working interest in the east half. In 1975 N drilled a well in the southwest quarter of the east half which began producing crude oil that year, and M assigned to N the entire working interest in the east half of M's land. The boundaries of the "property" are determined by reference to the geographical boundaries of the lease held by M on January 1, 1972, because M's right to produce crude oil on January 1, 1972, was in production on that date and the farmout agreement was entered into after M's right to produce crude oil produced crude oil.

Example (10). Assume the same facts as in example (9) except that M did not drill the producing well in the southwest portion of his land until 1974, after M and N had entered into the farmout agreement. For purposes of determining property, the geographical boundaries of M's right to produce crude oil do not include the geographical boundaries of the farmout agreement because the agreement was entered into before M's right to produce crude oil produced crude oil. Thus, "property" is determined by reference to the geographical boundaries of the west half of M's land because those are the geographical boundaries of M's right to produce for property purposes when crude oil was first produced. "Property" is determined by reference to the geographical boundaries of the farmout agreement when N drilled a producing well on the east half of M's land. The fact that one-half of the working interest may revert to M after production has occurred does not affect property determinations.

Example (11). Assume the same facts as in example (10) except that the farmout agreement contains an express provision dividing the east half of M's land into quarters and requiring the quarters to be developed in a specific order, and provides that the right to produce crude oil will be transferred for a quarter when a producing well is drilled in that quarter. Also assume that N drilled a producing well in each quarter, N historically and consistently accounted for the production from each quarter separately and treated each quarter as a separate property, and that M assigned the right to produce crude oil for each quarter to N. The farmout agreement is treated as having created a separate right to produce for each quarter. "Property" is determined by reference to the geographical boundaries of each quarter of the east half of M's land at the time production first occurs from each quarter. Accordingly, each quarter is treated as a separate property. As in example (10), "property" is also determined by reference to the geographical boundaries of the west half of M's land.

Example (12). O purchased land in 1960 (receiving a standard special warranty deed), and used the land exclusively for farming until 1970 when O leased the land to P. The lease, which transferred to P the right to produce crude oil for the land, contains a provision that specifically identifies four separate tracts of the land. The lease also provides that each tract is to be developed in a specific order, and that at the end of 5 years the lease will expire except for those tracts which have a producing well. Pursuant to the terms of the lease, P drilled a well in the first tract which began producing crude oil in 1971. P developed the remaining three tracts in accordance with the terms of the lease. The last tract developed did not begin producing crude oil until 1973. From the time crude oil production began in 1971, P accounted for the production from each tract separately, and treated each tract as a separate property. Although P's lease transferred the right to produce crude oil from acreage which produced crude oil on January 1, 1972, "property" is not determined by reference to the geographical boundaries of P's lease. Rather, P's lease is treated as having transferred a separate right to produce for each tract. Thus, the geographical boundaries of each separate tract constitute a "property" for purposes of the windfall profit tax at the time production first occurs from that tract.

Example (13). Assume the same facts as in example (12) except that P, from 1971 until 1974, accounted for the production from each tract separately, and treated each tract as a separate property, but departed from that treatment in 1975, and began treating the four tracts as one property because he thought this treatment to more closely comport with the definition of "property" as explained in FEA Ruling 1975–15. Also assume that P readopted his initial treatment of the four tracts as separate properties in 1977 after the issuance of FEA Ruling 1977–1, and that P has consistently and historically continued such treatment since 1977. Although P has not actually met the requirements of paragraph (c)(4) and (5) of this section, he is treated as having met those requirements. Accordingly, the geographical boundaries of each tract constitute the "property" for purposes of the windfall profit tax.

Example (14). Q purchased land in 1960 (receiving a standard special warranty deed), and used the land exclusively for farming until 1970 when Q leased the land to R. The lease, which transferred to R the right to produce crude oil for the land, contains a provision that specifically identifies two separate tracts of the land, and requires production from each tract to be measured and accounted for separately. The lease also provides that (1) Q's son will receive from R a ⅐ royalty for one of the tracts and that Q's daughter will receive a ⅙ royalty for the other tract, (2) the lease will expire at the end of 5 years except for the tracts which have a producing well, and (3) R has no duty to account to the daughter for production from the son's tract or to the son for production from the daughter's tract. In 1971 R drilled a well in the son's tract which began producing crude oil that year. In 1973 R drilled a well in the north half of the daughter's tract. From the time crude oil production began in 1971, R accounted for the production from each tract separately, and treated each tract as a separate property. Although R had a single right to produce crude oil which produced crude oil on January 1, 1972, "property" is not determined by reference to the geographical boundaries of R's single right to produce (*i.e.*, R's lease). Rather, the geographical boundaries of each separate tract (*i.e.*, the son's tract and the daughter's tract) constitute a "property" for purposes of the windfall profit tax.

Example (15). (i) Assume the same facts as in example (14) except that in 1973 R assigned the right to produce crude oil for the south half of the daughter's tract before R drilled the well in the daughter's north half. Although R had assigned the right to produce for the south half of the daughter's tract before that tract produced crude oil, the geographical boundaries of the daughter's tract (*i.e.*, the north and south halves together) constitute a "property" for purposes of the windfall profit tax (except as otherwise provided in paragraph (d) of this section), because without the royalty owners accountability exception, which treats R's lease as two properties, R's lease would create a single property.

(ii) Assume further that two separate and distinct producing reservoirs that are not in communication with one another each underlie both the son's and daughter's tract. If R elects to treat the two reservoirs as separate properties, the son's tract will be treated as two properties and the daughter's tract will be treated as two properties. Thus, because of the combination of the royalty owner accountability exception (§51.4996–4(d)(3)) and the election to treat separate reservoirs as separate properties (§51.4996–4(d)(6)), the land covered by R's lease is treated as four separate properties.

Example (16). In 1965, five separate fee interest owners of five separate, contiguous tracts executed a single oil and gas lease which assigned their separate rights to produce gas and crude oil to S and retained a royalty interest. Under the terms of the lease the fee interest owners are to receive an amount equal to ⅛ of the production. In 1970 S assigned its right to produce to T before there was any production. The instrument assigning the right to produce specifically identified the five separate, contiguous tracts. In 1971 T drilled a well in one of the tracts which began producing crude oil that year. By 1975 T had fully developed the five tracts. Under the state law, T is required to separately account for the royalties for each of the five tracts covered by the lease because the lease does not state that the royalties must be apportioned. From the time crude oil production began in 1971, T accounted for the production from each tract separately, and treated each tract as a separate property. Although the instrument transferring the right to produce does not contain a provision specifically requiring production from specifically identified portions to be measured and accounted for separately, "property" is determined by reference to the geographical boundaries of each tract because T is required by state law to separately account for the royalties for each of the five tracts and T historically and consistently accounted for each tract separately and treated each tract as a separate property.

Example (17). U purchased land in 1960 (receiving a standard special warranty deed), and used the land exclusively for farming until 1971 when he granted an oil and gas lease on the north half of this land to V and an oil and gas lease on the south half to W. In 1975 V and W executed a single instrument by which they assigned their separate rights to produce to X. V and W each retained an overriding royalty interest. The instrument contains a provision that specifically identifies the two separate tracts, and requires production from each tract to be measured and accounted for separately for purposes of accounting for the overriding royalties. In 1975 X drilled a well in each tract, and each well began producing crude oil that year. From the time crude oil production first began in 1975, X accounted for the production from each tract separately, and treated each tract as a separate property. "Property" is determined by reference to the geographical boundaries of X's right to produce crude oil (both the north and south halves) because those are the geographical boundaries of the right to produce at the time of first production. "Property" is not determined by reference to the geographical boundaries of each tract because separate accounting for overriding royalties does not create separate properties from a single right to produce.

Example (18). Y purchased land in 1960 (receiving a standard special warranty deed), and used the land exclusively for farming until 1971 when he granted an oil and gas lease to Z on the entire fee interest. In 1973 Z, an integrated oil company, drilled a well in the southwest portion of the land which began producing crude oil that year. In 1974 Z drilled two more wells in the southwest portion of the land each of which began producing crude oil that year. The three wells are producing from the same geological structure, but no two wells are producing from the same reservoir. Z measures production from each well separately. For a 12-month period the average daily production from the three wells does not exceed 10 barrels per well. However, production from one well exceeded 10 barrels per day during that period and at all other times. In 1979 Z drilled a well in the northeast portion of the land. This well produces from a different geological structure than the other three wells. Z has historically and consistently accounted for the production from this well separately from the other three wells and has treated this well as a separate property. Z has two properties for windfall profit tax purposes. The geological structure containing the three wells is treated as one property and the geological structure containing the 1979 well is treated as another property. Production from the geological structure containing the three wells qualifies as tier 2 oil because that geological structure is treated as a stripper well property. Production from the geological structure containing the 1979 well is newly discovered oil because that property did not produce crude oil during 1978.

Example (19). Assume the same facts as in example (18) except that Z elects to treat each reservoir as a separate property. Because Z has four separate and distinct producing reservoirs each of which is not in communication with any other reservoir, Z has four properties for windfall profit tax purposes. The reservoir which began production in 1979 is treated as a newly discovered crude oil property. The two reservoirs which each did not exceed 10 barrels per well per day for a 12-month period qualify as stripper well properties. However, production from the reservoir that has always exceeded 10 barrels per well per day is treated as tier 1 oil as of the effective date of the election.

Example (20). A purchased land in 1960 (receiving a standard special warranty deed), and used the land for farming until 1971 when he granted an oil and gas lease to B on the west half of the land and an oil and gas lease to C on the east half. X and Y are separate and distinct reservoirs which each underlie both the west and east halves of A's land. In 1972 B drills a well in the west half which begins producing crude oil from reservoir X that year. In 1973 B reworks the 1972 well and begins producing crude oil from reservoir X as well as reservoir Y. After B reworks the well, the well meets the requirements of paragraph (d)(6)(i)(B) of this section. The production from reservoir X is not commingled in the well bore with the production from reservoir Y. In 1974 C drills a well in the east half which begins producing crude oil from reservoirs X and Y that year. The production from reservoir X is commingled in the well bore with the production from reservoir Y. C may not elect to treat reservoirs X and Y as separate properties because their production is commingled. However, the fact that the production from X and Y is commingled in the well bore located on C's property does not affect B's right to elect to treat reservoirs X and Y as separate properties. The production from reservoir X is not commingled with the production from reservoir Y in the well bore located on B's property. Thus, B may elect to treat reservoirs X and Y as separate properties.

Example (21). On January 1, 1983, a bona fide unitization agreement is approved by the state regulatory agency pursuant to which properties D, E, F, and the west half of G are unitized. The west half of G had production during 1978, but the east half had no producing wells located on it during 1978. On July 1, 1983, a well is drilled on the east half of G, and begins producing crude oil that month from the same reservoir from which G had previously produced crude oil. D, E, F, and the west half of G are a unitized property which is treated as a single property. The east half of G is treated as a separate right to produce after the unitization and creates a property at the time crude oil is produced from the well drilled on July 1, 1983. Production from the east half of property G is not newly discovered crude oil because production from that reservoir underlying that half is treated as production from a transferred property as of the date of the unitization for purposes of section 4996(e) and §51.4996–3 and production from G did not qualify as newly discovered crude oil before the unitization.

Example (22). Assume the same facts as in example (21) except that on July 1, 1983, a well is drilled on the east half of G, and begins producing crude oil that month from a different reservoir than that from which G had previously produced crude oil. Production from the well drilled on July 1, 1983, is not treated as production from a transferred property for section 4996(e) and §51.4996–3 purposes because no crude oil was produced from that reservoir through a well located on G before the unitization.

These proposed amendments are to be issued under the authority of Code section 4997(b) (94 Stat. 250, 26 U.S.C. 4997(b)), which grants the Secretary of the Treasury or his delegate authority to prescribe regulations necessary or appropriate to carry out the purpose of the windfall profit tax (including changes in the application of the energy regulations), and the more general regulatory authority contained in the Code section 7805 (68A Stat. 917, 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on September 24, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 25, 1986, 51 F.R. 34095)

Foundations Status of Certain Organizations

Announcement 86–104

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

Academy Arms Corp., Oneonta, NY
Adirondack Repertory Dance Theatre, Inc., Glenn Falls, NY
Alderwood Athletic Association, Alderwood, WA
Alternative Childbirth Taskforce, Inc., Evansville, IN
Anthracire Heritage, Inc., Shamokin, PA
Asean-U.S. Information Center Ltd., Annandale, VA
BJM Foundation, Inc., Kenton, OH
Burnside Housing Corporation, Bronx, NY
Caleb Foundation, Detroit, MI
Calumet Unemployed Workers Center, Inc., Gary, IN
Columbia Youth Soccer Federation, Vancouver, WA
Delaware Amateur Bowling Association, Wilmington, DE
Eielson Flyers Parent Booster Association, Fairbanks, AK
Eisenhower Basketball Booster Club, New Berlin, WI
Environmental Modification Laboratories, Inc., Paramus, NJ
Evangelist Roosevelt Moore's Crusade for Christ, Detroit, MI
Evergreen Park Central Junior High School Sports Group, Evergreen Park, IL
Friends of Cite Simone, Inc., Adelphi, MD
Garden City Parent Teacher Organization (P.T.O.), Indianapolis, IN
Head Injury Support Group of Southern New Jersey, Inc., The, Cherry Hill, NJ
Hegira, Inc., Westfield, MA
His Ministries, Inc., Rochester, IN
Inner City Nursing Home Resident Foundation, Cleveland, OH
Inventors Council of Ohio, Inc., Hilliard, OH
Korean Association of New York, Inc., New York, NY
Latino Educational Media Center, Inc., The, Bronx, NY
Lighthouse Christian Ministries, Columbus, OH
Lukas Foundation for the Mentally Handicapped, Inc., The, Little Neck, NY
Lutheran Housing Services, #4, Inc., Toledo, OH
Masonic Retirement Village, Inc., Taylor Mill, KY
Mattawamkeag Housing Corp., Lincoln, ME
Media Arts Growth Network Foundation, Cleveland, OH
Met Enterprises, Inc., Highland Park, MI
Michigan Crime Investigating Commission, Dearborn, MI
Middlesex County Bar Foundation, Inc., Cambridge, MA
Morristown Wrestling Club, Inc., Convent Station, NJ
National Hall of Fame for Persons with Disabilities, Inc., Columbus, OH
National Youth Science Camp Alumni Association, Inc., Morgantown, WV

Nebraska Coalition for Victims of Crime, Lincoln, NE
Neighborhood News, Inc., South Bend, IN
Nevins Towers Ltd., Methuen, MA
New Castle Indiana Elderly, Inc., Columbus, OH
New England Rural Community Assistance Program, Bellows Falls, VT
New Jerusalem Band, Lowellville, OH
New Life Foundation, Inc., Indianapolis, IN
New Nature Ministries, North Royalton, OH
Noble County Chamber of Commerce Elderly Housing Corp., Caldwell, OH
Noblesville Public Library Foundation, Inc., Noblesville, IN
Northeastern Indiana Emergency Medical Services, Inc., Fort Wayne, IN
Northern Ohio Early Music Society, Cleveland, OH
Northwest Network for a Nuclear Free and Independent Pacific, Seattle, WA
Norwood Band Boosters, Norwood, OH
Nouvelle Espoir Development, Cleveland, OH
OBGC III, Inc., Columbus, OH
Olivedale Fourth Housing Corp., Lancaster, OH
Olivedale Second Housing Corp., Lancaster, OH
Olivedale Third Housing Corporation, Lancaster, OH
One on One Program of Logan County, Bellfontaine, OH
Opera Pia International, Inc., New York, NY
Orchard Place Housing Corp., Lancaster, OH
Orchestra Parents Association of the Sandusky High School, Sandusky, OH
Oregon Avicultural Foundation, Portland, OR
Outwaite Homes Resident Council, Cleveland, OH
Oxford Revitalization Project, Inc., Oxford, NY
Parent Watch, Inc., Sparta, NJ
Phoenixville Youth/Babe Ruth League, Phoenixville, PA
Pine Lake Bible Grounds, Inc., Caldwell, OH
Pinecroft Acres, Inc., Troy, OH
Plaza View III, Inc., Youngstown, OH
Police Athletic League of Washington C. H. Ohio, Washington Court House, OH
Poltava Center, Inc., Parma, OH
Pops at the Park, Inc., Richmond, KY
Pretty Lake Adventure Centre, Inc., Kalamazoo, MI
Private Industry Council of Southwest Indiana, Inc., Evansville, IN
Proclaimed Word Ministries, Inc., New Martinsville, WV
Proclaimer Ministries, Inc., Martinsville, IN
Project Kids, Inc., Detroit, MI
Public Information and Education Committee, Inc., Louisville, KY

Vietnam Veterans Leadership Program of Kentucky, Inc., Louisville, KY
Vincennes Swim Team, Inc., Vincennes, IN
Vistorious Women, Inc., Chavies, KY
WWD Development Corporation, Flint, MI
Waha, Inc., Wheeling, WV
Walloon Conservancy, Petoskey, MI
Warren Avenue Baptist Church Housing Project, Inc., Detroit, MI
Wayne County Sheriff's Crime Prevention Program, St. Clairs Shores, MI
West End Medical Center, Inc., Louisville, KY
West Virginia Council of Home Health Agencies, Inc., Morgantown, WV
Western Kentucky Kidney Procurement Agency, Inc., Louisville, KY
Westwood Housing Association, Inc., Centerville, OH
Williamsburg Area Community Center, Inc., Williamsburg, IN
Williamsburg Junior Athletic Association, Williamsburg, OH
Youth Coalition for Social Concerns, Inc., Ypsilant, MI
Zanesville City Schools Academic Fund, Zanesville, OH
Zionsville Area Shepherd Center, Zionsville, IN

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)–7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practictioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Robert D. Digby	North Little Rock, AR	Certified Public Accountant	Four Months from July 29, 1986
Jeffrey E. Ellis	Rockland, ME	Certified Public Accountant	Indefinte from July 2, 1986
Charles L. Honey	Prescott, AR	Attorney	One Year from July 2, 1986
Bernhardt Karp	Hudson, NY	Attorney & Certified Public Accountant	Indefinite from July 29, 1986
George N. Meros	Springfield, MO	Attorney	Indefinite from July 25, 1986
William G. Waldrop	Adamsville, AL	Certified Public Accountant	Indefinite from July 17, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
David P. Rosenberg	Philadelphia, PA	Indefinite effective August 13, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–123, page 4.
Fringe benefits; aircraft valuation formula. For purposes of section 1.61–2T(g) of the temporary regulations, relating to the rule for valuing noncommercial flights on employer-provided aircraft, the Standard Industry Fare Level (SIFL) cents-per-mile rates and the terminal charges in effect on June 30, 1986, and for prior periods are set forth. Rev. Rul. 86–65 superseded.

Rev. Rul. 86–125, page 4.
Controlled corporation; stock distribution; active business. The active business requirement under section 355(b) of the Code is not met with regard to a rental office building if the building is managed by an unrelated real estate management company acting as an independent contractor. The limited activities of the corporation, undertaken through its president, are substantially indistinguishable from those carried on by a prudent real estate investor Rev. Rul. 73–237 distinguished.

Rev. Rul. 86–126, page 5.
Controlled corporation; stock distribution; active business. The active business requirement under section 355(b) of the Code is not met because of the absence of substantial operational and managerial activities under the circumstances described, where the business consists of leasing farmland to tenant farmers who plant, raise, harvest and sell the crop using their own equipment and supplies. The limited activities of the corporation, undertaken through its officers, in leasing the land, providing advice and consultation, and reviewing accounts are not substantial enough to meet section 355(b) requirements. Rev. Rul. 73–234 distinguished.

Rev. Proc. 86–38, page 10.
Automobile expenses; standard mileage rate. The standard mileage rate for 1986 for the first 15,000 miles of business use of an automobile that is not fully depreciated will be 21 cents per mile and 11 cents per mile for business use in excess of 15,000 miles. Rev. Proc. 82–61, as modified by Rev. Procs. 83–74, 84–72 and 85–49, is further modified.

Notice 86–11, page 9.
The applicable interest rate on the amount of additional tax attributable to any nonqualified withdrawals from a capital construction fund established under section 607 of the Merchant Marine Act is 11.09 percent for withdrawals made in taxable year 1986.

Announcement 86–105, page 19.
This Bulletin contains a list of organizations that no longer qualify as organizations contributions to which are deductible under section 170(c)(2) of the Code.

ESTATE TAX

Notice 86–12, page 9.
Technical amendments are set forth to section 20.2055–2 of the regulations, adopted by T.D. 8069, that relate to qualified conservation contributions.

EXCISE TAXES

T.D. 8102, page 6.
Regulations under sections 4701 and 6011 of the Code relate to the tax imposed on the issuer of registration-required obligations which are not issued in registered form.

LR-225-81, page 11.
Proposed regulations under section 4996 of the Code relate to production from a unitized property of imputed stripper well crude oil, imputed heavy crude oil, and imputed newly discovered crude oil.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 61.—Gross Income Defined

26 CFR 1.61–2T: Taxation of fringe benefits.

Fringe benefits; aircraft valuation formula. For purposes of section 1.61–2T(g) of the temporary regulations, relating to the rule for valuing noncommercial flights on employer-provided aircraft, the Standard Industry Fare Level (SIFL) cents-per-mile rates and the terminal charges in effect on June 30, 1986, and for prior periods are set forth. Rev. Rul. 86–65 superseded.

Rev. Rul. 86–123

For purposes of fringe benefit taxation under section 61 of the Internal Revenue Code, section 1.61–2T(g) of the Temporary Income Tax Regulations provides a rule for valuing noncommercial flights on employer-provided aircraft. Section 1.61–2T(g)(5) of the temporary regulations sets forth an aircraft valuation formula to determine the value of such flights. The value of a flight is determined by multiplying the base aircraft valuation formula for the period during which the flight was taken by the appropriate aircraft multiple provided in section 1.61–2T(g)(7) and then adding the applicable terminal charge. The value of a particular flight during the first 6 months of a calendar year is determined by using the base aircraft valuation formula (also known as the Standard Industry Fare Level formula or SIFL) and the terminal charge in effect on December 31 of the preceding year. The value of a particular flight during the last 6 months of a calendar year is determined by using the SIFL formula and terminal charge in effect on June 30 of that year. The SIFL cents-per-mile rates in the formula and the terminal charge are calculated by the Department of Transportation and are revised semi-annually.

The Department of Transportation has determined that the terminal charge in effect on June 30, 1986, is $26.02 and the SIFL formula in effect on June 30, 1986, is $.1423 per mile for the first 500 miles, $.1085 per mile for miles between 501 and 1500, and $.1043 per mile for miles over 1500.

The following chart sets forth the cumulative terminal charges and SIFL mileage rates:

Period	*Terminal Charge*	*SIFL Mileage Rates*
1/1/85–6/30/85	$27.05	Up to 500 miles = $.1480 per mile
		501–1500 miles = $.1128 per mile
		Over 1500 miles = $.1085 per mile
7/1/85–12/31/85	$25.62	Up to 500 miles = $.1402 per mile
		501–1500 miles = $.1069 per mile
		Over 1500 miles = $.1028 per mile
1/1/86–6/30/86	$26.19	Up to 500 miles = $.1433 per mile
		501–1500 miles = $.1092 per mile
		Over 1500 miles = $.1050 per mile
7/1/86–12/31/86	$26.02	Up to 500 miles = $.1423 per mile
		501–1500 miles = $.1085 per mile
		Over 1500 miles = $.1043 per mile

EFFECT ON OTHER REVENUE RULING

Rev. Rul. 86–65, 1986–19 I.R.B. 5, is superseded.

Section 162.—Trade or Business Expenses

26 CFR 1.162–17: Reporting and substantiation of certain business expenses of employees.

Simplified, optional method for computing the allowable deduction for the cost of operating an automobile for business purposes. See Rev. Proc. 86–38, page 10.

Section 167.—Depreciation

26 CFR 1.167(a)–1: Depreciation in general.

Simplified, optional method for computing the allowable depreciation deduction for the business use of an automobile. See Rev. Proc. 86–38, page 10.

Section 274.—Disallowance of Certain Entertainment, Etc., Expenses

26 CFR 1.274–5: Substantiation requirements.

Simplified optional method for computing allowable deductions for the cost of operating an automobile for business purposes. See Rev. Proc. 86–38, page 10.

Section 355.—Distribution of Stock and Securities of a Controlled Corporation.

26 CFR 1.355–1: Distribution of stock and securities of controlled corporation.

Controlled corporation; stock distribution; active business. The active business requirement under section 355(b) of the Code is not met with regard to a rental office building if the building is managed by an unrelated real estate management company acting as an independent contractor. The limited activities of the corporation, undertaken through its president, are substantially indistinguishable from those carried through its president, are substantially indistinguishable from those carried on by a prudent real estate investor. Rev. Rul. 73–237 distinguished.

Rev. Rul. 86–125

ISSUE

Whether a corporation is considered to be engaged in the active conduct of a trade or business within the meaning of section 355(b) of the Internal Revenue Code and section 1.355–1(c) of the Income Tax Regulations, under the following circumstances.

FACTS

P is a closely held corporation, which for more than 5 years has operated an insurance brokerage business. In addition, *P* has held all the stock of a subsidiary corporation, *S*, for more than 5 years. *S* owns a downtown office building, but *Z*, an unrelated real estate management company acting as an independent contractor, has been under contract to manage the property for many years. *Z* supplies and supervises janitors and maintenance personnel for *S's* office building. *Z* also arranges for all repairs to be made to the building by independent contracting companies. *Z* collects rents, pays all bills, including gas, water, sewage, electricity, and insurance, and, after deducting a monthly fee, remits the balance each month to *S*. *Z* advertises for tenants and negotiates the terms of the leases. Tenant complaints are directed to *Z*.

A, the president and principal stockholder of *P* and an officer of *S*, devotes some time to the operation of the office building. *A* visits the building to insure that the cleaning and maintenance done by *Z's* employees are done properly. In addition, *A* approves the leases negotiated by *Z's* employees and the contracts entered into for repair of the building. *A* attends to all matters concerning zoning, building permits, and other local laws and ordinances affecting the building. No other officers or employees of *P* or *S* attend to the operation of the office building. *P's* outside accountant audits monthly the itemized list of income and expenses collected and paid by *Z* and reports the results to *S*.

X, an unrelated corporation, operates a larger insurance brokerage business. *X* desired to acquire the insurance brokerage business of *P* solely in exchange for *X* voting common stock. *X*, however, would not acquire *P* if *P* continued to hold the *S* stock. The management of *P* believed the association of its business with *X* would ensure the future growth and profitability of *P*. Accordingly, *P* distributed the stock of *S* pro rata to the *P* shareholders. Since the distribution, *S* has continued to use the services of *Z* as it had prior to the transaction.

Except for the question here at issue, regarding the active conduct of a trade or business, the transfer meets all the requirements of section 355 of the Code and the regulations thereunder.

LAW AND ANALYSIS

Section 355(a) of the Code provides that under certain circumstances a corporation may distribute stock or securities in a corporation it controls to its shareholders or security holders in a transaction that is nontaxable to such shareholders or security holders. Furthermore, such a distribution of a subsidiary's stock can qualify for section 355 treatment when such distribution is followed by a second nonrecognition transaction in which the distributing corporation shareholders exchange their stock for stock in another corporation. Rev. Rul. 68–603, 1968–2 C.B. 148.

Section 355(b) of the Code requires that both the distributing and controlled corporations be engaged, immediately after the distribution, in the active conduct of a trade or business that has been actively conducted throughout the 5-year period ending on the date of distribution.

To meet the requirements of section 355(b) of the Code, each corporation must, as stated in *Rafferty v. Commissioner*, 452 F.2d 767, 772 (1st Cir. 1971), *cert. denied*, 408 U.S. 922 (1972), "engage in entrepreneurial endeavors of such a nature and to such an extent as to qualitatively distinguish its operations from mere investments. Moreover, there should be objective indicia of such corporate operations." Such objective indicia are found in active and substantial managerial and operational activities of the corporation. In addition, this business activity has to be activity of the corporation itself (through its officers and employees) and not the activity of independent contractors. Rev. Ruls. 80–181, 1980–2 C.B. 121, 79–394, 1979–2 C.B. 141, and 73–234, 1973–1 C.B. 180.

In Rev. Rul. 73–237, 1973–1 C.B. 184, it was held that a corporation engaged in the construction industry general contracting business is engaged in the active conduct of a trade or business within the meaning of section 355(b) of the Code, despite its utilization of independent subcontractors. However, in that revenue ruling, *X* corporation utilized its own salaried employees to submit bids, negotiate and enter into contracts with principals and with subcontractors, purchase or lease equipment and supplies, and supervise subcontractors to ensure compliance with contract specifications. As general contractor, *X* had the primary responsibility for the completion of each job. In analyzing *X's* activity in that revenue ruling, consideration has to be given to the fact that *X* was engaged not in construction, as such, but in general contracting. The business of general contracting is to an extent unique in that it presupposes that most, or all, of the actual construction work will be contracted out to subcontractors. However, the operation of a rental office building does not presuppose that either the managerial or operational activity will be contracted out.

In Rev. Rul. 73–237, the activity of *X*, carried on through its own employees, constituted active and substantial managerial and operational activity in the general contracting business. This activity of *X* contrasts with the activity carried on by *S* (through its officer) in the present situation. Here, the operational and management activity of the office building rental business is largely performed either by *Z* through *Z's* employees, or by independent contractors hired by *Z*. Clearly, *S* is not engaged in active and substantial operational and managerial activity with regard to the office building rental business. Although some of *S's* activities could be considered to be either managerial or operational, these activities are not different from those a prudent investor would be expected to undertake, and are not enough to "qualitatively distinguish its operations from mere investments." Thus, Rev. Rul. 73–237 is distinguishable from the present situation.

HOLDING

Because of the absence of substantial operational and managerial activities, the active business requirement of section 355(b) of the Code is not met, and the distribution of the stock is not governed by section 355. The *P* shareholders' receipt of the *S* stock constitutes a distribution of property made by *P* to its shareholders subject to the provisions of sections 301 and 311.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 73–237 is distinguished.

---

26 CFR 1.355–1: Distribution of stock and securities of controlled corporation.

Controlled corporation; stock distribution; active business. The active business requirement under section 355(b) of the Code is not met because of the absence of substantial operational and managerial activities under the circumstances described, where the business consists of leasing farmland to tenant farmers who plant, raise, harvest and sell the crop using their own equipment and supplies. The limited activities of the corporation, undertaken through its officers, in leasing the land, providing advice and consultation, and reviewing accounts are not substantial enough to meet section 355(b) requirements. Rev. Rul. 73–234 distinguished.

Rev. Rul. 86–126

ISSUE

Whether a corporation is considered to be engaged in the active conduct of a trade or business within the meaning of section 355(b) of the Internal Revenue Code and section 1.355–1(c) of the Income Tax Regulations under the following circumstances.

FACTS

A and *B* are the only officers and shareholders of *P* corporation. Each has held

50 percent of *P*'s outstanding common stock for more than 5 years. *A* and *B* are both farmers who are engaged in the business of farming their own individual tracts of farmland not owned by *P*. *P* has for more than 5 years held title to large tracts of farmland elsewhere in the same state. Each tract of land held by *P* is leased for one year at a time to a tenant farmer who has agreed with *P* to share one-half of all income and expenses of the farm. Each party to the lease is responsible for securing the financing necessary to pay that party's share of expenses. In the case of each tract leased, the planting, raising, and harvesting of corn and soybeans (the only crops grown on these farms) are done by the tenant farmer. The tenant farmer also supplies the farm equipment used in these activities. The tenant farmer repairs and maintains the equipment, and also maintains the irrigation system, fences, and other fixtures located on the property. After consulting with *A* and *B*, the tenant farmer purchases all herbicides, insecticides, and fertilizers used on the property. Also after consulting with *A* and *B*, the tenant farmer contracts to sell the crops at a future date, or sells them when harvested. Each tenant farmer is responsible for accounting to *A* and *B* for *P*'s share of the proceeds.

A and *B* each devote to substantial part of their time to the operation of their own respective farms which are unconnected with the farmland owned by *P*. After completing work on their own properties, *A* and *B*, in their capacity as officers of *P*, occasionally inspect the crops and improvements located on each leased tract. If any corrective steps must be taken, *A* or *B* points out the problem to the tenant farmer, who makes the necessary corrections in the way the tenant farmer sees fit. *A* and *B* also decide each year what portion of each tract will be leased, in the light of soil conservation needs, market conditions, and federal price support and acreage reserve programs. They review each tenant farmer's accounting of operations and sales.

For valid business reasons, *P* will transfer to a newly-formed subsidiary corporation, *S*, one-half of all the property held by *P*, and then will distribute all the *S* stock to *B* in exchange for all *B*'s stock in *P*. After the distribution, *P* and *S* will continue to conduct operations in the same manner with tenant farmers as *P* had prior to the distribution.

Except for the question here at issue regarding the active conduct of a trade or business, the transfer will meet all the requirements of sections 368(a)(1)(D) and 355 of the Code and the regulations thereunder.

LAW AND ANALYSIS

Section 355(a) of the Code provides that under certain circumstances a corporation may distribute stock or securities in a corporation it controls to its shareholders or security holders in a transaction that is nontaxable to such shareholders or security holders.

Section 355(b) of the Code requires that both the distributing and controlled corporations be engaged, immediately after the distribution, in the active conduct of a trade or business that has been actively conducted throughout the 5-year period ending on the date of distribution.

To meet the requirements of section 355(b) of the Code, each corporation must, as stated in *Rafferty v. Commissioner*, 452 F.2d 767, 772 (1st Cir. 1971), *cert. denied*, 408 U.S. 922 (1972), "engage in entrepreneurial endeavors of such a nature and to such an extent as to qualitatively distinguish its operations from mere investments. Moreover, there should be objective indicia of such corporate operations." Such objective indicia are found in active and substantial managerial and operational activities of the corporation. In addition, this business activity has to be the activity of the corporation itself (through its officers and employees) and not the activity of independent contractors. Rev. Ruls. 80–181, 1980–2 C.B. 121, 79–394, 1979–2 C.B. 141, and 73–234, 1973–1 C.B. 180.

In Rev. Rul. 73–234, it was held that a corporation engaged in farming with tenant farmers was engaged in the active conduct of a trade or business within the meaning of section 355(b) of the Code. However, in that revenue ruling, *Y* corporation, through its employees, *A* and *B*, was engaged in hiring seasonal workers, purchasing and supplying equipment, maintaining equipment, arranging financing, planning all rotation and planting and harvesting of crops, purchasing livestock, planning livestock breeding, selling all crops and livestock, and accounting to the tenant farmers for their shares of the proceeds. This activity of *Y*, carried on through its own employees and constituting active and substantial managerial and operational activity, contrasts with the activity carried on by the employees of *P* in the present situation. Here, *P* either did not engage in the above activities at all, or engaged in them only on a limited basis. At best, *P* could be considered to engage in some managerial and operational activity but not enough to "qualitatively distinguish its operations from mere investments." Thus, Rev. Rul. 73–234 is distinguishable from the present situation.

HOLDING

Because of the absence of active and substantial operational and managerial activities, the active business requirement of section 355(b) of the Code is not met and *P*'s distribution of the *S* stock is not governed by section 355. *B* will recognize gain on the receipt of the *S* stock in exchange for *P* stock, and *P* will be subject to the provisions of section 311. See Rev. Rul. 74–516, 1974–2 C.B. 121.

In addition, because there is no distribution of stock or securities to *B* under section 354, 355, or 356 of the Code, the transfer of property from *P* to *S* does not meet the requirements of section 368(a)(1)(D). However, this transfer does meet the requirements of section 351(a). The fact that *P* distributed the *S* stock to *B* does not violate the control requirement of Section 351(c).

EFFECT ON OTHER REVENUE RULINGS

TITLE 26.—INTERNAL REVENUE— CHAPTER I, SUBCHAPTER D, SUBCHAPTER H, PART 46— REGULATIONS RELATING TO MISCELLANEOUS EXCISE TAXES

PAYABLE BY RETURN; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Tax on Issuer of Registration Required Obligation Not in Registered Form

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the excise tax imposed on the issuer of registration-required obligations which are not issued in registered form. This action is necessary because of changes to the applicable law made by the Tax Equity and Fiscal Responsibility Act of 1982. The regulations affect issuers of obligations and provide them with the guidance needed to comply with the law.

DATES: The regulations are generally effective for registration-required obligations not in registered form that are issued after December 31, 1982.

FOR FURTHER INFORMATION CONTACT: Timothy J. McKenna of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-4336, not a toll-free call).

SUPPLEMENTARY INFORMATION: BACKGROUND

On August 22, 1984, the FEDERAL REGISTER published proposed amendments to the Excise Tax Regulations (26 CFR Part 46) under section 4701 of the Internal Revenue Code of 1954 (49 FR 33285) [LR-9-83, 1984–2 C.B. 865]. These amendments were proposed to conform the regulations to section 310(b)(4) of the Tax Equity and Fiscal Responsibility Act of 1982 (the Act) (P.L. 97–248, 96 Stat. 597) [1982–2 C.B. 462]. No comments were received. A public hearing was not requested. Accordingly, the proposed amendments are adopted as revised by this Treasury decision.

IN GENERAL

Section 4701(a) provides that a tax is imposed on any person who issues a registration-required obligation which is not in registered form. The amount of the tax is one percent of the principal amount multiplied by the number of years (including portions thereof) from the date of issuance to the date of maturity. The terms "registration-required obligation" and "registered form" are defined in section 4701(b) as having the same meaning as when used in section 163(f) relating to the denial of a deduction for interest on certain obligations not in registered form. However, a registration-required obligation does not include any obligation required to be registered under section 103(j). Thus, the tax does not apply to those obligations which would otherwise be exempt from Federal income tax under section 103(a) or any other provision of law. While section 4701 applies generally to obligations issued after December 31, 1982, section 310(d)(3) of the Act also provides that section 4701 does not apply to any obligation issued after December 31, 1982, pursuant to the exercise of a warrant or the conversion of a convertible obligation, if the warrant or convertible obligation was issued before August 10, 1982, and offered or sold outside the United States without registration under the Securities Act of 1933.

In addition, §46.6011(a)–1(a) relating to the general requirement of making a return, statement or list by a person made liable for any tax imposed by this title, is amended to provide for the filing of Form 720 (Quarterly Federal Excise Tax Return) by those persons liable for the tax under section 4701.

CHANGE IN THE REGULATION

A minor clarification is made in these final regulations under §46.4701–1(b)(5), relating to the definition of "issuer". The regulations make a cross-reference to §1.163–5T(d), which generally treats the recipient of the proceeds from the issuance of a pass-through certificate as the issuer of such pass-through certificate. Temporary regulation §1.163–5T(d) was published in the Federal Register on August 20, 1985 (50 FR 33522) [T.D. 8046, 1985–2 C.B. 61], along with a cross-referenced notice of proposed rulemaking (50 FR 33552) with respect to which public comments were solicited. When the proposed regulations are published as final regulations, the cross-reference in §46.4701–1(b)(5) will be revised to refer to those final regulations.

In addition, a new paragraph (b)(7) was added to cross-reference to the definition of "issue price" in section 1273(b).

REGULATORY FLEXIBILITY ACT

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under control number 1545–0023.

DRAFTING INFORMATION

The principal authors of these final regulations are Ada S. Rousso and Timothy J. McKenna of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Parts 46 and 602 are amended as follows:

Part 46—[AMENDED]

Paragraph 1. The authority for Part 46 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Sections 46.6011(a)–1 and 46.6011(a)–2 also issued under 26 U.S.C. 6011. * * *

Par. 2. Section 46.0–1 is amended as follows:

a. Paragraphs (a)(3) and (a)(4) are redesignated as paragraphs (a)(4) and (a)(5), respectively, and a new paragraph (a)(3) is inserted immediately after paragraph (a)(2) to read as set forth below.

b. Paragraph (b) is amended by removing the phrase "Subpart C of this part is reserved," and adding in its place "Subpart C of this part relates to the excise tax imposed by section 4701 on issuers of registration-required obligations not issued in registered form."

§46.0–1 Introduction.

(a) * * *

(3) the tax on the issuer of registration-required obligations not issued in registered form imposed by chapter 39 of the Internal Revenue Code of 1954, and * * *

* * * * *

Par. 3. A new Subpart C consisting of §46.4701–1 is added immediately after §48.4504–1 to read as set forth below.

Subpart C—Excise Tax on Obligations Not in Registered Form.

§46.4701–1 Tax on issuer of registration-required obligation not in registered form.

(a) *In general.* Section 4701 imposes a tax (determined under paragraph (c) of this section) on any person (referred to as the issuer) who issues an obligation that—

(1) Is a registration-required obligation, and

(2) Is not issued in registered form.

(b) *Definitions*—(1) *Person.* The term "person" includes all governmental entities.

(2) *Obligation.* The term "obligation" includes bonds, debentures, notes, certificates and other evidences of indebtedness regardless of how denominated.

(3) *Registration-required obligation.* The term "registration-required obligation" has the same meaning as when used in section 163(f) (and the regulations thereunder) which relates to the denial of a deduction for interest on certain obligations not in registered form. However, the term "registration-required obligation" does not include any obligation which would otherwise be exempt from Federal income tax under section 103(a) or any other provision of law.

(4) *Registered form.* The term "registered form" has the same meaning as when used in section 103(j) (and the regulations thereunder) which relates to obligations which must be in registered form to be tax-exempt.

(5) *Issuer.* Except as provided in §1.163–5T(d) (relating to pass-through certificates), the "issuer" is the person whose interest deduction would be disallowed solely by reason of section 163(f)(1).

(6) *Date of Issuance.* (i) for obligations intended to be offered to the public, the term "date of issuance" means the date the obligation is first sold to the public at the issue price.

(ii) For an obligation which is privately placed, the term "date of issuance" is the date the obligation is first sold by the issuer.

(7) *Issue price.* See section 1273(b) and the regulations thereunder for the definition of "issue price".

(c) *Rate and computation of tax.* The tax under section 4701(a) is imposed in an amount equal to the product of—

(1) 1 percent of the principal amount of the obligation, multiplied by

(2) The number of calendar years (or portions thereof) during the period beginning on the date of issuance of the obligation and ending on the date of maturity.

For purposes of this paragraph, the term "principal amount" for a discounted obligation is the issue price, and for all other obligations, including obligations sold at a premium, the term "principal amount" is the stated redemption price at maturity.

(d) *Payment of tax.* Every person who incurs liability for the tax imposed by section 4701 is required to file a return in accordance with section 6011 and §46.6011(a)–1 relating to the general requirement of a return, statement or list.

(e) *Effective date.* The provisions of this section shall apply to obligations issued after December 31, 1982, unless issued on the exercise of a warrant or the conversion of a convertible obligation if the warrant or obligation was offered or sold outside the United States without registration under the Securities Act of 1933 and was issued before August 10, 1982. See section 310(d)(3) of the Tax Equity and Fiscal Responsibility Act of 1982.

§46.6011 [Amended]

Par. 4. Section 46.6011(a)–1(a) is amended by removing the phrase "4371 or 4501(a)" from paragraph (a) wherever it appears and replacing it with the phrase "4371, 4501(a) or 4701".

Par. 5. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate place in the table:

"§46.4701–1(d) . . . 1545–0023".

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved August 29, 1986.

J. Roger Mentz,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on September 19, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 22, 1986, 51 F.R. 33593)

Section 6011.—General Requirement of Return, Statement, or List

26 CFR 46.6011(a)–1: Returns.

The requirement that a return be filed by the issuer of registration-required obligations which are not issued in registered form. See T.D. 8102, page 6.

Part III. Administrative, Procedural, and Miscellaneous

Merchant Marine Act—Applicable Rate of Interest on Nonqualified Withdrawals from a Capital Construction Fund

Notice 86-11

AGENCY: Departments of Transportation; Commerce; Treasury; Maritime Administration; National Oceanic and Atmospheric Administration; Internal Revenue Service.

SUMMARY: The Secretaries of Transportation, Commerce and the Treasury, as required by the Merchant Marine Act, 1936, as amended, have determined and are jointly publishing the interest rate that shall apply during taxable year 1986 to "nonqualified withdrawals" made from a Capital Construction Fund.

DATES: The rate of interest that has been determined will apply to all nonqualified withdrawals from a Capital Construction Fund made between January 1, 1986 and December 31, 1986.

FOR FURTHER INFORMATION CONTACT: Russell Bigelow, Division of Capital Assets and Management, Maritime Administration, 400 Seventh Street SW., Washington, DC 20590, Tel. (202) 366-1908.

SUPPLEMENTARY INFORMATION: The Capital Construction Fund (CCF) Program, is authorized by section 607 of the Merchant Marine Act (Act). The act provides for the deferment of Federal income taxes on deposits of income in a CCF. The deposited funds are for the purpose of providing capital for the construction or reconstruction of vessels. The Maritime Administration (MARAD) administers the CCF program, under authority delegated by the Secretary of Transportation, for all vessels other than fishing vessels. The National Oceanic and Atmospheric Administration (NOAA) administers the CCF program for fishing vessels on behalf of the Secretary of Commerce. The Act requires the Secretaries of Transportation, Commerce and the Treasury, annually, to determine jointly and publish in the Federal Register the rate of interest that is applicable to all "nonqualified withdrawals" from a CCF (46 U.S.C. 1177(h)(4)(B), together with the tax. A nonqualified withdrawal is a withdrawal of funds not authorized by section 607. This annual determination is made in accordance with the procedure described at 46 CFR 394.7(e)(2)(ii) of the joint regulations that have been issued by MARAD, NOAA and the Internal Revenue Service. The applicable rate of interest for "nonqualified withdrawals", made in the taxable year 1986, shall be 11.09 percent, determined to the nearest one-hundredth of one percent. The determination was computed by multiplying eight percent by the ratio that the average yield on 5-year Treasury securities for the calendar year, immediately preceding the beginning of such taxable year, bears to the average yield on 5-year Treasury securities for the year 1970.

Dated: September 10, 1986.

John Gaughan,
Maritime Administrator.
Anthony J. Galio,
Administrator, National Oceanic and Atmospheric Administration.
J. Roger Mentz,
Assistant Secretary for Tax Policy.
James E. Saari,
Secretary, Maritime Administration, Maritime Subsidy Board.

(Filed by the Office of the Federal Register on September 17, 1986, 8:45 a.m., and published in the issue of the Federal Register for September 18, 1986, 51 F.R. 33173)

Qualified Conservation Contributions—Technical Amendments

Notice 86-12

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final rule; technical amendments.

SUMMARY: This document contains technical amendments to Estate Tax Regulations §20.2055-2, which relates to transfers not exclusively for charitable purposes.

EFFECTIVE DATE: These amendments are effective December 18, 1980.

FOR FURTHER INFORMATION CONTACT: Ada S. Rousso of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. Telephone 202-566-3287 (not a toll-free number).

SUPPLEMENTARY INFORMATION: BACKGROUND

On January 14, 1986, the FEDERAL REGISTER published final regulations relating to Qualified Conservation Contributions, as adopted by T.D. 8069 (51 FR 1496). The provisions set forth in those regulations reflected changes made by the Tax Reform Act of 1984 and the Temporary Tax Provisions, Extentions.

Revisions for Title 26 of the Code of Federal Regulations were published for April 1, 1986, with the inclusion of T.D. 8069. T.D. 8069 amended regulations §20.2055-2 but inadvertently failed to revise cross references contained in paragraphs (e)(2), (f)(1) and (f)(2) of §20.2055-2.

NEED FOR AMENDMENTS

As published, Title 26 of the Code of Federal Regulations contains technical errors in §20.2055-2(e)(2), (f)(1) and (f)(2). Accordingly, technical amendments are being published to correct these errors.

LIST OF SUBJECTS
26 CFR Part 20
Estate Taxes.

Part 20 of Title 26 of the Code of Federal Regulations is amended as follows:

Paragraph 1: The authority for Part 20 continues to read as follows:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 20.2055-2 is amended as follows:

1. Paragraph (e)(2)(vi)(*a*) is amended by revising the phrase "of this subdivision (v)" to read "of this subdivision (vi)".
2. Paragraph (e)(2)(vi)(*g*) is amended by revising the phrase "of this subdivision (v)" to read "of this subdivision (vi)".
3. Paragraph (e)(2)(vi)(*h*) is amended by revising the phrase "of this subdivision (v)" to read "of this subdivision (vi)".
4. Paragraph (e)(2)(vii)(*a*) is amended by revising the phrase "of this subdivision (vi)" to read "of this subdivision (vii)".
5. Paragraph (f)(1) is amended by revising the phrase "in paragraph (e)(2)(v)(*h*)" to read "in paragraph (e)(2)(vi)(*h*)".
6. Paragraph (f)(2) is amended by revising the phrase "in subdivision (iv), (v), or (vi)" to read "in subdivision (v), (vi), or (vii)".

7. Paragraph (f)(2)(iv) is amended by revising the phrase "paragraph (e)(2)(v)" to read "paragraph (e)(2)(vi)".

8. Paragraph (f)(2)(iv), Examples (1) thru (3), is amended by revising the phrase "(as defined in paragraph (e)(2)(v) of this section)" to read "(as defined in paragraph (e)(2)(vi) of this section)".

9. Paragraph (f)(2)(iv), Example (4), is amended by revising the phrase "paragraph (e)(2)(v)(*f*)" to read "paragraph (e)(2)(vi)(*f*)".

10. Paragraph (f)(2)(v) is amended by revising the phrase "described in paragraph (e)(2)(vi)" to read "described in paragraph (e)(2)(vii)".

DONALD E. OSTEEN,
Director, Legislation and Regulations Division.

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct liability.
(Also Part I, Sections 162, 167, 274, 1016; 1.162–17, 1.167(a)–1, 1.274–5, 1.1016–3.)

Rev. Proc. 86–38

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 82–61, 1982–2 C.B. 849, as modified by Rev. Proc. 83–74, 1983–2 C.B. 593, Rev. Proc. 84–72, 1984–2 C.B. 735, and Rev. Proc. 85–49, 1985–2 C.B. 716, by stating that there have been no changes in the optional standard mileage rates for the business use of an automobile for 1986. This revenue procedure also states that depreciation is considered to be allowed at 9 cents per mile for 1986 if the optional method for computing the costs of business use of an automobile is used.

SEC. 2. PROCEDURE

.01. Paragraph (2)(b) of subsection .01 of section 3 of Rev. Proc. 82–61, which was modified by Rev. Proc. 83–74, Rev. Proc. 84–72 and Rev. Proc. 85–49, is further modified to read as follows:

In the case of automobiles placed in service for business purposes after December 31, 1979, and in which the optional method was used in 1980, 1981, 1982, 1983, 1984, 1985, or 1986, depreciation will be considered to have been allowed at the rate of 7 cents a mile for 1980 and 1981, 7.5 cents a mile for 1982, and 8 cents a mile for 1983, 1984, and 1985, and 9 cents a mile for 1986, except that if the "actual cost" method was used for one or more of those years the rates above will not apply to any year in which that method was used. This depreciation will act to reduce the basis of the automobile in determining adjusted basis as required by section 1016 of the Code. An automobile placed in service after December 31, 1979, with respect to which the optional method is used is considered to have a useful life of 60,000 miles of business use at the maximum standard mileage rate determined without reference to the age of the vehicle. After 60,000 miles of business use at the maximum standard mileage rate, the automobile will be considered fully depreciated. For purposes of this paragraph, an automobile will be considered to have been driven no more than 15,000 miles in any one year, even though the actual business mileage of the automobile may be greater.

.02. Paragraph 2(f) of subsection .01 of section 3 of Rev. Proc. 82–61 is amended by substituting "applicable mileage rate for the taxable year" for "20-cent mileage rate" to reflect the changes that occur from time to time in the optional standard mileage rate for the business use of an automobile.

SEC. 3. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 82–61, as modified by Rev. Proc. 83–74, Rev. Proc. 84–72 and Rev. Proc. 85–49, is further modified.

Part IV. Items of General Interest

Notice Of Proposed Rulemaking

Windfall Profit Tax; Rules RelatingTo Production From A Unitized Property Of Imputed Stripper Well Crude Oil, Imputed Heavy Crude Oil, And Imputed Newly Discovered Cured Oil

LR–225–81

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the production from a unitized property of imputed stripper well crude oil, imputed heavy crude oil, and imputed newly discovered crude oil for purposes of the windfall profit tax. Changes to the applicable law were made by the Crude Oil Windfall Profit Tax Act of 1980 [Pub. L. 96–223, 1980–3 C.B. 1]. The regulations would provide guidance for determining whether all or a portion of the production from a unitized property will be treated as crude oil from a stripper well property, heavy oil, or newly discovered oil.

DATES: Written comments and requests for a public hearing must be delivered or mailed by December 1, 1986. The amendments are proposed to be effective for crude oil removed after February 29, 1980. However, the special rule contained in paragraph (e)(1) of proposed §51.4996–5 would be effective for months beginning after November 30, 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR–225–81), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Gail H. Morse of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Excise Tax Regulations Under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 51).

Under the windfall profit tax taxable crude oil is divided into three tiers. The windfall profit tax rate depends, in part, on the tier of the crude oil. In order to determine the tier of taxable crude oil it is often necessary to determine the "property" from which the crude oil is produced. For example, the determinations of whether crude oil qualifies as crude oil from a stripper well property, newly discovered oil, or heavy oil (all these types of oil receive preferred treatment under the windfall profit tax) are made on a property-by-property basis.

"Property" is defined for windfall profit tax purposes in §150.4996–1(i) of the Temporary Excise Tax Regulations Under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 150) as promulgated by Treasury decision 7846, published on November 10, 1982 (47 FR 50858) [1982–2 C.B. 353]. The text of that Treasury decision also served as the text of a notice of proposed rulemaking published on the same day (47 FR 50924) [LR–34–82, 1982–2 C.B. 930]. Section 150.4996–1(i) provides that "property" generally is determined by reference to the geographical boundaries of the right to produce crude oil as such right existed on January 1, 1972, provided such right was in production in commercial quantities on that date. If such right was not in production in commercial quantities on January 1, 1972, the determination of "property" is generally made by reference to the geographical boundaries of the right to produce crude oil when crude oil is first produced thereafter in commercial quantities.

Although §150.4996–1(i) provides the general rule for determining "property," paragraph (i)(4) of that section, which relates to unitizations, was reserved for subsequent publication. On September 25, 1986, a new notice of proposed rulemaking was published in the FEDERAL REGISTER (51 FR 34095) which generally provides that a unitization is treated as a single property. A new §51.4996–5 is added by this document which would provide rules for imputing stripper well oil, heavy oil, and newly discovered oil to a unitized property.

EXPLANATION OF PROVISIONS

Imputed oil

Because a unitization is generally treated as a single "property" for windfall profit tax purposes, the rules for determining whether crude oil produced from the unitized property qualifies as crude oil from a stripper well property, newly discovered oil, heavy oil, or incremental tertiary oil generally must be applied to the unitized property. For example, in order for all potential crude oil production from a unitized property to qualify as newly discovered oil, crude oil could not have been produced in commercial quantities during 1978 from the unitized property or from any portion of a property now included in the unitized property if the unitization occurred during or after 1978. Applying these rules to a unitized property can create a tax disincentive to unitizing properties. For example, the operator of a newly discovered crude oil property would not voluntarily unitize its property with properties that produced crude oil in commercial quantities during 1978 if the operator would not retain a benefit equal to the preferred tax treatment it has for crude oil produced from the newly discovered crude oil property without its inclusion within the unitized property.

The proposed rules provide that all or a portion of the crude oil produced from a unitized property within which is included a property that qualified as a stripper well property, newly discovered crude oil property, or heavy crude oil property before the unitization will be treated as crude oil from a stripper well property, newly discovered oil, or heavy oil, respectively. The portion of crude oil treated as crude oil from a stripper well property, newly discovered oil, or heavy oil is referred to as imputed stripper well crude oil, imputed newly discovered crude oil, or imputed heavy crude oil, respectively. The proposed rules generally determine the amount of imputed oil on the basis of the historical production levels for the properties composing the unitized property. However, several limitations apply. First, the proposed rules provide that for any particular month beginning after December 1, 1986, imputed oil is limited to the amount of crude oil allocated during that month by the unitization agreement to the properties (before inclusion within the unitization) or interests therein that give rise to the imputed oil. Second, the district director may adjust the amount allocated to certain newly discovered crude oil properties if the district director determines that the method of allocation used by the producers has as a principal purpose the avoidance of windfall profit tax. Finally, the district director may adjust the amount of any imputed oil if the district director determines that any of the properties composing the unit did not produce at its maximum feasible rate of production during the 12-month period immediately preceding the unitization.

Imputed stripper well crude oil

The proposed rules provide that, in determining imputed stripper well crude oil, condensate produced from a well other than an oil-producing well is not counted as crude oil produced during the 12-month period immediately preceding the establishment of the unit base production control level or the occurrence of the unitization.

Imputed newly discovered crude oil

Determining imputed oil on the basis of historical production levels may yield an undesirable result if a right to produce crude oil had no production before inclusion within the unit. Therefore, a special rule is provided in the case of a unitized property that contains a right to produce crude oil that was unitized before it produced crude oil in commercial quantities (referred to as a "newly discovered separate right to produce"). In this case, imputed newly discovered crude oil is determined by comparing the surface acreage within the unitized property of the newly discovered separate rights to produce the total surface acreage of the unitized property. For this purpose, surface acreage that is not underlain by proved developed or undeveloped oil and gas reserves affected by the unitization shall be disregarded. For this purpose, the terms "proved developed oil and gas reserves" and "proved undeveloped oil and gas reserves" are defined in proposed §51.4996–5(g)(3) and (4), respectively, and have the same meaning as the terms have in regulations promulgated by the Securities and Exchange Commission. See 17 CFR §201.4–10(a)(3) and (4). It is anticipated that these definitions generally will be applied for windfall profit tax purposes in a manner similar to the manner in which they are applied for financial reporting purposes.

If data is ascertained after the surface acreage is determined and such data would result in a more accurate determination of the surface acreage at the time of the unitization, the surface acreage must be redetermined using such data. For purposes of determining imputed newly discovered crude oil, the proposed rules provide that the term "newly discovered crude oil property" has the same meaning as that term has in proposed §51.4996–1(m)(2). Proposed §51.4996–1(m)(2) is contained in a notice of proposed rulemaking published in the Federal Register on November 5, 1982 (47 FR 50306).

Proposed §51.4996–5(e)(3) and (4) contains three special rules relating to imputed newly discovered crude oil. Under the rules for determining imputed stripper well crude oil, all production from a unitized property is treated as crude oil from a stripper well property if a stripper well property is unitized with a property that did not produce crude oil during the 12-month period immediately before the unitization. However, the rules for determining imputed newly discovered crude oil provide that if a right to produce crude oil that has never produced crude oil in commercial quantities is unitized with other properties, imputed newly discovered crude oil resulting from such right to produce is determined by comparing the surface acreage of such right to produce to the total surface acreage of the unitized property. The first special rule makes clear that imputed oil includes imputed newly discovered crude oil determined under the surface acreage method even though all production from the unitized property would be treated as crude oil from a stripper well property under the imputed stripper well crude oil provisions.

Although the first special rule provides that a certain portion of the production from the unitized property will be treated as imputed newly discovered crude oil even though all production would be treated as crude oil from a stripper well property under the imputed stripper well crude oil provisions, the second special rule permits producers who held an economic interest in the newly discovered separate rights to produce before the unitization to treat a certain portion of the production from the unitized property allocated to it as imputed stripper well crude oil. Finally, if a newly discovered crude oil property met the requirements of a stripper well property before the unitization, a producer may treat a certain portion of newly discovered crude oil allocated to that property after the unitization as crude oil produced from a property that qualifies as a stripper well property. Thus, an independent producer who treated its share of production from the property before the unitization as exempt stripper well oil generally may continue to treat its share of imputed newly discovered crude oil allocated to that property after the unitization as exempt stripper well oil.

Incremental tertiary recovery project.

Proposed §51.4996–5(f) provides that, solely for purposes of determining incremental tertiary oil and the effects of that determination on imputed oil, if a qualified tertiary recovery project (as defined in proposed paragraph (c) of §51.4993–1) is located on a unitized property and the unitized property is treated as more than one property under section 4993(d)(3) and proposed paragraph (e)(4) of §51.4993–1 (relating to a tertiary project which only affects a portion of a property), imputed oil will be determined by treating each property (as determined under sections 4993(d)(3) and proposed paragraph (e)(4) of §51.4993–1) as a separate unitized property. Proposed paragraphs (c) and (e)(4) of §51.4993–1 are contained in a notice of proposed rulemaking published in the Federal Register on September 10, 1984 (49 FR 35517) [LR–67–80, 1984–2 C.B. 835].

COMMENTS AND REQUEST FOR PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is to be held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

SPECIAL ANALYSIS

The Commissioner of the Internal Revenue has determined that these final rules are not major rules as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

Although this document is a notice of proposed rulemaking which solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations was Douglas W. Charnas of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations.

The proposed amendments to 26 CFR Part 51 are as follows:

Paragraph 1. The authority for Part 51 continues to read in part:

Authority: 26 U.S.C. 4997 and 7805. * * *

Par. 2. Paragraph (c)(1) of §51.4989–1 is amended by removing "150.4996–1(i)" and inserting in lieu thereof "51.4996–4."

Par. 3. Paragraph (m)(3) of §51.4996–1 (as proposed on November 5, 1982, in 47 FR 50307) is revised to read as follows:

§51.4996–1 Definitions.

* * * * *

(m) *Newly discovered oil.* * * *

(3) *Imputed newly discovered oil.* For rules relating to imputed newly discovered oil see paragraph (d) of §51.4996–5.

Par. 4. A new §51.4995–5 is added immediately after §51.4996–4, to read as follows:

§51.4996–5 Special rules for production from unitized properties.

(a) *Imputed oil.* For purposes of chapter 45 of the Code, any imputed stripper well crude oil, imputed heavy crude oil, or imputed newly discovered crude oil shall be treated as crude oil from a stripper well property, heavy oil, or newly discovered oil, respectively. However, see the special rules contained in paragraph (e) of this section.

(b) *Imputed stripper well crude oil*—(1) *Unitizations with BPCL established before August 1, 1977.* In the case of a unitized property for which a unit base production control level was established before August 1, 1977, the term "imputed stripper well crude oil" means, in a particular month, the number of barrels of crude oil equal to the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level for the unitized property from all properties that constitute the unitized property that qualified as stripper well properties before inclusion within the unitized property multiplied by a fraction the numerator of which is the number of days in that particular month and the denominator of which is the number of days in that 12-month period. The number of barrels of imputed stripper well crude oil determined under this subparagraph shall not exceed the number of barrels of crude oil removed from the premises of the unitized property during that particular month.

(2) *Unitizations that occur after February 29, 1980, or with BPCL established after July 31, 1977.* In the case of a unitized property for which a unit base production control level was established after July 31, 1977, or for which the unitization occurs after February 29, 1980, provided a unit base production control level was not required, the term "imputed stripper well crude oil" means, in a particular month, the greater of:

(i) The number of barrels of crude oil equal to the total number of barrels of crude oil removed from the premises of the unitized property during that particular month multiplied by a fraction the numerator of which is the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization for the unitized property from all properties that constitute the unitized property that qualified as stripper well properties before inclusion within the unitized property and the denominator of which is the total number of barrels of crude oil produced and sold during that 12-month period from all properties that constitute the unitized property (including those that qualified as stripper well properties), or

(ii) The number of barrels of crude oil equal to the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization for the unitized property from all properties that constitute the unitized property that qualified as stripper well properties before inclusion within the unitized property multiplied by a fraction the numerator of which is the number of days in that particular month and the denominator of which is the number of days in that 12-month period. The number of barrels of crude oil determined under this subdivision shall not exceed the number of barrels of crude oil removed from the premises of the unitized property during that particular month. For purposes of this paragraph, condensate produced from a well other than an oil-producing well is not counted as crude oil produced during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization.

(c) *Imputed heavy crude oil.* The term "imputed heavy crude oil" means, in a particular month, a portion of crude oil production of a unitized property for which a unit base production control level was established after August 16, 1979, or for which the unitization occurs after February 29, 1980, provided a unit base production control level was not required. That portion is the greater of:

(1) The number of barrels of crude oil equal to the total number of barrels of crude oil removed from the premises of the unitized property during that particular month multiplied by a fraction the numerator of which is the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization for the unitized property from all properties that constitute the unitized property that qualify as heavy crude oil properties (within the meaning of paragraph (g)(2) of this section) before inclusion within the unitized property and the denominator of which is the total number of barrels of crude oil produced and sold during that 12-

month period from all properties that constitute the unitized property (including those that qualified as heavy crude oil properties), or

(2) The number of barrels of crude oil equal to the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization for the unitized property from all properties that constitute the unitized property that qualified as heavy crude oil properties before inclusion within the unitized property multiplied by a fraction the numerator of which is the number of days in that particular month and the denominator of which is the number of days in that 12-month period. The number of barrels of crude oil determined under this subparagraph shall not exceed the number of barrels of crude oil removed from the premises of the unitized property during that particular month.

For purposes of this paragraph, the 12-month period prior to the inclusion of heavy crude oil property within a unitized property may be reduced to the number of days in the months in that period in which heavy crude oil was produced and sold.

(d) *Imputed newly discovered crude oil*—(1) *In general.* The term "imputed newly discovered crude oil" means, in a particular month, a portion of the crude oil production of a unitized property for which a unit base production control level was established after January 1, 1979, or for which the unitization occurs after February 29, 1980, provided a unit base production control level was not required. That portion is the sum of:

(i) The greater of:

(A) The number of barrels of crude oil equal to the total number of barrels of crude oil removed from the premises of the unitized property during that particular month multiplied by a fraction the numerator of which is the total number of barrels of crude oil produced and sold during the 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization for the unitized property from all properties that constitute the unitized property that qualified as newly discovered crude oil properties (within the meaning of paragraph (m)(2) of §51.4996–1) before inclusion within the unitized property and the denominator of which is the total number of barrels of crude oil produced and sold during that 12-month period from all properties that constitute the unitized property (including those that qualified as newly discovered crude oil properties), or

(B) The number of barrels of crude oil equal to the total number of barrels of crude oil produced and sold during that 12-month period from all properties that constitute the unitized property that qualified as newly discovered crude oil properties before inclusion within the unitized property multiplied by a fraction the numerator of which is the number of days in that particular month and the denominator of which is the number of days in that 12-month period, plus

(ii) The number of barrels of crude oil equal to the total number of barrels of crude oil removed from the premises of the unitized property during that particular month multiplied by a fraction the numerator of which is the surface acreage within the unitized property of the separate rights to produce crude oil that were first included within the unitized property after 1978 and before they produced crude oil in commercial quantities (hereinafter referred to as "newly discovered separate rights to produce") and the denominator of which is the total surface acreage of the unitized property.

The number of barrels of crude oil determined under paragraph (d)(1)(i)(B) of this section shall not exceed the number of barrels of crude oil removed from the premises of the unitized property during that particular month. For purposes of making a determination under paragraph (d)(1)(ii) of this section, surface acreage that is not underlain by proved developed or undeveloped oil and gas reserves (within the meaning of paragraph (g)(3) and (4) of this section, respectively) affected by the unitization shall be disregarded. Also for purposes of this paragraph, the 12-month period immediately preceding the inclusion of newly discovered crude oil properties within a unitized property may be reduced to the number of days in the months in that period during which newly discovered crude oil was produced and sold. If, at any time, the operators of the unitized property ascertain data that would result in a more accurate determination of the surface acreage of the unitized property underlain by the reservoir at the time of the unitization than the determination that was previously made for such surface acreage, the operators must promptly redetermine the surface acreage underlain by the reservoir at the time of the unitization using the newly ascertained data and must notify the first purchasers and producers of any change since the unitization in the number of barrels of imputed oil resulting from the redetermination of the surface acreage.

(2) *Statement by petroleum engineer.* If any crude oil produced from a unitized property is determined to be imputed newly discovered crude oil under paragraph (d)(1)(ii) of this section, each operator of crude oil production from that unitized property shall keep in its records a statement, signed under penalties of perjury by a petroleum engineer (who has been duly registered or certified in accordance with applicable state law, if any) setting forth the following information:

(i) The operator's name and identifying number (employer identification number or, if none, social security number),

(ii) A description of the unitized property including the location, identifying number (if any), and the names and identifying numbers or, if none, other information sufficient to identify the constituent properties (within the meaning of paragraph (e)(6)(i)(B) of this section) composing the unitized property,

(iii) The name and identifying number (employer identification number or, if none, social security number) of each producer holding an operating mineral interest (within the meaning of section 614(d)) in the unitized property,

(iv) The surface acreage of that portion of each newly discovered separate right to produce that is underlain by a reservoir of the unitized property affected by the unitization, and

(v) A statement that the portion of the reservoir underlying the surface acreage of each newly discovered separate right to produce contains proved undeveloped oil and gas reserves.

The statement shall be made at the time the newly discovered separate right to produce is included in the unitized property, or, if later, by the date that is 90 days after the date of publication of this paragraph in the Federal Register in a Treasury decision, shall be kept at all times available for inspection by authorized internal revenue officers or employees, and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law.

(e) *Special rules*—(1) *Limitation on imputed oil*—(i) *In general.* In a particular month beginning after November 30, 1986, the amount of imputed stripper well crude oil determined under paragraph (b) of this section, imputed heavy crude oil determined under paragraph (c) of this section, or imputed newly discovered crude oil determined under paragraph (d) of this section shall not exceed the number of barrels of crude oil removed from the premises of the unitized property during that month allocated by the unitization agreement to the constituent properties (within the meaning of paragraph (e)(6)(i)(B) of this section) or interests therein that qualified as stripper well properties, heavy crude oil properties, or newly discovered crude oil properties (including newly discovered separate rights to produce), respectively, before inclusion within the unitized property. However, if the unitized property includes only newly discovered separate rights to produce or properties that qualified as stripper well properties, heavy crude oil properties, or newly discovered crude oil properties before inclusion within the unitized property, the excess of any imputed oil determined under this section without regard to this subparagraph for a particular month over the amount determined with regard to this subparagraph shall be allocated among and treated as imputed stripper well crude oil, imputed heavy crude oil, and imputed newly discovered crude oil on the basis of each such imputed oil's proportionate share of production determined under this section without regard to this subparagraph for the particular month.

(ii) *District director's authority in the case of newly discovered separate rights to produce.* If the district director determines, based on all the facts and circumstances, that—

(A) The amount of crude oil allocated for a particular month by the unitization agreement to a constituent property that qualifies as a newly discovered separate right to produce exceeds the amount which would be allocated to such constituent property if the allocation were determined by multiplying total production from the unitized property for that month by a fraction the numerator of which is the proved undeveloped oil and gas reserves contained in the portion of the reservoir affected by the unitization underlying such constituent property and the denominator of which is the sum of the proved developed oil and gas reserves (within the meaning of paragraph (g)(3) of this section) and proved undeveloped reserves contained in the entire reservoir affected by the unitization, and

(B) A principal purpose of such allocation is the avoidance of windfall profit tax,

the district director may adjust such allocation, solely for purposes of applying the rule in paragraph (e)(1)(i) of this section, to more closely reflect the amount which results by multiplying total production from the unitized property for that month by such fraction. If the district director makes such an adjustment, the rule in paragraph (e)(1)(i) of this section shall be applied by using the amount allocated by the unitization agreement as adjusted by the district director.

(2) *Limitation of imputed oil based on district director's authority.* If the district director determines, based on all the facts and circumstances, that production on any constituent property was not maximum total potential production for the full 12-month period immediately preceding the establishment of a unit base production control level or the occurrence of the unitization (whichever is applicable in determining imputed oil), the district director may adjust the amounts of imputed oil from the unitized property to more closely reflect the maximum total potential production for the constituent properties during that 12-month period. In order for production from a constituent property to qualify as maximum total potential production, each oil-producing well (within the meaning of paragraph (b)(2) of this section) on the property must have been maintained for the full 12-month period at its maximum feasible rate of production in accordance with recognized conservation practices, and not have been significantly curtailed by reason of mechanical failure or other disruption in production, or insertion of devices that restrict the flow of production from any well.

(3) *Unitization including rights to produce from which no crude oil was produced before the unitization.* (i) The amount of each type of imputed oil for a particular month shall be determined under this section by first determining the amount of imputed newly discovered crude oil under paragraph (d)(1)(ii) of this section (subject to the limitation contained in paragraph (e)(1)(i) of this section). After the amount of imputed newly discovered crude oil is so determined, imputed oil is determined for the remaining crude oil production of the unitized property for the particular month by applying the rules of this section other than the rule contained in paragraph (d)(1)(ii) of this section. For example, if stripper well properties are unitized with a newly discovered separate right to produce and half of the production from the unitized property is determined to be imputed newly discovered crude oil under paragraph (d)(1)(ii) of this section (after application of the rules contained in paragraph (e)(1)(i) of this section), half of the crude oil removed from the unitized property shall be treated as newly discovered crude oil even though all of the production from the unitized property would be treated as crude oil from a stripper well property under paragraph (b) of this section.

(ii) If stripper well properties are unitized with newly discovered separate rights to produce, a producer may treat as imputed stripper well crude oil a certain amount of the producer's share of the imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section (subject to the limitation contained in paragraph (e)(1)(i) of this section) that is allocated to the newly discovered separate rights to produce in which the producer (or a person for whom the producer is a successor in interest) held an economic interest in the crude oil in place in the ground immediately before the unitization. That amount is equal to A in the following formula:

$$A = B \times \frac{C \times \frac{D}{E}}{F}$$

In which:

A = An amount during a particular month that a producer may treat as crude oil from a stripper well property.

B = The amount of the producer's share of imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section (subject to the rules contained in paragraph (e)(1)(i) and (e)(6) of this section) that is allocated to the newly discovered separate rights to produce in which the producer (or a person for whom the producer is a successor in interest) held an economic interest in the crude oil in place in the ground immediately before the unitization. However, this amount shall not exceed the product of the amount of imputed stripper well crude oil determined under this section without regard to paragraph (e)(1)(i) of this section multiplied by the percentage equal to the producer's share of the production allocated by the unitization agreement to the newly discovered separate rights to produce in which the producer (or a person for whom the producer is a successor in interest) held an economic interest in the crude oil in place in the ground immediately before the unitization. See example (5) in paragraph (e)(7) of this section.

C = The amount of total production from the unitized property during that month which would be treated as imputed stripper well crude oil under this section without regard to paragraphs (d)(1)(ii) and (e)(1)(i) of this section.

D = The surface acreage (as limited by paragraph (d)(1) of this section) within the unitized property of the newly discovered separate rights to produce.

E = The total surface acreage (as limited by paragraph (d)(1) of this section) of the unitized property.

F = The amount of production during that month from the unitized property that is allocated to such newly discovered separate rights to produce.

(4) *Properties that meet the requirements of both newly discovered crude oil properties and stripper well properties.* (i) Except as otherwise provided in paragraph (e)(4)(ii) of this section, if a unitized property includes any newly discovered crude oil properties that met the requirements of a stripper well property before inclusion within the unitization, a producer may treat as imputed stripper well crude oil a certain amount of the producer's share of certain imputed newly discovered crude oil that is allocated to such newly discovered crude oil properties in which the producer (or a person for whom the producer is a successor in interest) held an economic interest in the crude oil in the ground immediately before the unitization. For purposes of the preceding sentence, certain imputed newly discovered crude oil includes only imputed newly discovered crude oil that is attributable to production from newly discovered crude oil properties that also met the requirements of a stripper well property before the unitization. Such amount shall be equal to A in the following formula:

$$A = G \times \frac{C \times \frac{H}{I}}{J}$$

In which:

A = An amount during a particular month that a producer may treat as crude oil from a stripper well property.

G = The amount of the producer's share of imputed newly discovered crude oil attributable to the newly discovered crude oil properties that also met the requirements of a stripper well property before the unitization that is allocated to such newly discovered crude oil properties in which the producer (or a person for whom the producer is a successor in interest) held an economic interest in the crude oil in place in the ground immediately before the unitization.

C = The amount of total production from the unitized property during that month which would be treated as imputed stripper well crude oil (subject to the rules contained in this paragraph other than the rule in paragraph (e)(3)(ii) of this section) if the newly discovered crude oil properties that also met the requirements of a stripper well property before the unitization were treated as stripper well properties for purposes of determining imputed oil under this section.

H = The amount of crude oil produced and sold during the 12-month period immediately preceding the unitization from such newly discovered crude oil properties.

I = The amount of crude oil produced and sold during that 12-month period from all properties that constitute the unitized property.

J = The amount of production during that month from the unitized property that is allocated to such newly discovered crude oil properties.

For purposes of this subparagraph, the 12-month period immediately preceding the unitization may be reduced to the number of days in the months in that period in which all such newly discovered crude oil properties each met the requirements of a stripper well property.

(ii) If a unitized property is composed solely of stripper well properties and newly discovered crude oil properties that also met the requirements of a stripper well property before the unitization, a producer may treat all of its share of production from the unitized property as imputed stripper well crude oil.

(5) *Inclusion of less than entire property in unitization.* If less than an entire property is included in a unitization, only crude oil production from wells located on the portion of the property included in the unitization shall be counted as production from that property during the 12-month period immediately preceding the unitization for the purpose of determining the amount of imputed oil.

(6) *Allocation of crude oil among constituent properties*—(i) *In general.* Except as otherwise provided in paragraph (e)(6)(ii) of this section, in the case of a unitized property that produces crude oil of different categories, a constituent property's share of crude oil in each category shall be determined by the unitization agreement. For purposes of this paragraph, any amendment to a unitization agreement shall be effective for the first taxable period beginning after the amendment is made or, if later, the effective date stated in the amendment. If the unitization agreement does not explicitly allocate crude oil in a particular category among the constituent properties, crude oil in that category produced during the particular month shall be allocated among the constituent properties on the basis of each constituent property's proportionate share of crude oil produced in that category during the 12-month period immediately preceding the establishment of the unit base production control

level or, in the absence thereof, occurrence of the unitization, but only to the extent of the amount of the production of the unitized property during that month that is allocated to such constituent property by the unitization agreement. If one or more of the constituent properties had no crude oil production during that 12-month period, the amount of imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section (subject to the limitation contained in paragraph (e)(1) of this section) shall be allocated among the constituent properties on the basis of each constituent property's share of total production from the unitized property as established by the unitization agreement. However, no such imputed newly discovered crude oil shall be allocated to a constituent property for which an amount equal to such constituent property's share of production from the unitized property as established by the unitization agreement for the particular month has been allocated after applying the rule contained in the second preceding sentence. Any amount of crude oil in a category that has not been allocated to constituent properties for the particular month after applying the rules contained in the three preceding sentences shall be allocated among the constituent properties on the basis of each constituent property's proportionate share of production for that month from the unitized property as established by the unitization agreement for which crude oil in any category has not been allocated after applying the rules contained in the three preceding sentences. For purposes of this paragraph—

(A) The categories of crude oil are tier 1 oil, crude oil from a stripper well property, tier 2 oil other than crude oil from a stripper well property, newly discovered oil, heavy oil, incremental tertiary oil, and exempt oil.

(B) The term "constituent property" refers to a portion of a unitized property that was a separate right to produce crude oil or a portion thereof immediately before the unitization.

(ii) *District director's authority*. If the district director determines, based on all the facts and circumstances, that the allocation of any category of crude oil produced from the unitized property among the constituent properties does not reflect the manner in which the constituent properties share the production of the unitized property, the district director may adjust such allocation to reflect the manner in which the constituent properties share the production of the unitized property unless it is established by clear and convincing evidence that such allocation does not have as one of its principal purposes the avoidance of windfall profit tax. For example, such an adjustment would be appropriate in a situation in which a unitization agreement allocates to a constituent property production in excess of its proportionate share of production before the unitization and burdens such constituent property with a disproportionately large share of expenses. An allocation of crude oil in a particular category among the constituent properties on a basis other than each constituent property's proportionate share of crude oil produced in that category during the 12-month period immediately preceding the establishment of a unit based production control level or occurrence of the unitization (whichever is applicable in determining imputed oil) is evidence that the allocation has as one of its principal purposes the avoidance of windfall profit tax.

(7) *Examples*. The provisions of this paragraph may be illustrated by the following examples:

Example (1). On January 1, 1983, property K is unitized with property L. A single crude oil reservoir underlies K and L. At the time of the unitization, K qualified as a stripper well property, but all production from L was tier 1 oil. During the 12-month period immediately preceding the unitization, K and L each produced 50,000 barrels of crude oil. The unitization agreement provides that K will be allocated 40 percent of production and L will be allocated 60 percent of production from the unitized property. During February of 1983, the unitized property produced 10,000 barrels of crude oil. Although 5,000 barrels would be treated as imputed stripper well crude oil under paragraph (b) of this section, paragraph (e)(1)(i) of this section limits imputed stripper well crude oil to 4,000 barrels because that is the amount allocated to K, the constituent property that qualified as a stripper well property before the unitization. The remaining production, 6,000 barrels, is tier 1 oil.

Example (2). Assume the same facts as example (1) except that L qualified as a newly discovered crude oil property before the unitization. Imputed stripper well crude oil is limited to 4,000 barrels as in example (1). Imputed newly discovered crude oil is not limited by paragraph (e)(1)(i) of this section, and, therefore, equals 5,000 barrels. Because the unitized property only includes a property that qualified as a stripper well property and a property that qualified as a newly discovered crude oil property before the unitization, the excess of imputed stripper well crude oil determined without regard to paragraph (e)(1)(i) of this section (5,000 barrels) over such imputed oil determined with regard to paragraph (e)(1)(i) (4,000 barrels) is allocated between imputed stripper well crude oil and imputed newly discovered crude oil on the basis of the proportionate share of production of such imputed oils determined under this section without regard to paragraph (e)(1)(i). Thus, of the 1,000 barrel excess, 500 barrels are treated as imputed stripper well crude oil and 500 barrels are treated as imputed newly discovered crude oil.

Example (3). Assume the same facts as in example (1) except that L is a newly discovered separate right to produce and that the surface acreage of L underlain by proved undeveloped oil and gas reserves is 80 acres and the entire surface acreage of the unitized property underlain by proved developed or undeveloped oil and gas reserves is 160 acres. Although all of the production from the unitized property during February would be treated as imputed stripper well crude oil under the rules of paragraph (b) of this section, paragraph (e)(3)(i) provides that imputed stripper well crude oil, imputed heavy oil, and imputed newly discovered crude oil shall be determined by first including the amount determined under paragraph (d)(1)(ii) of this section (subject to the limitation in paragraph (e)(1)(i) of this section). The amount of imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section is not limited by paragraph (e)(1)(i) of this section. Thus, as in example (2), the amount of imputed newly discovered crude oil is 5,000 barrels for February. Also as in example (2), paragraph (e)(1)(i) of this section limits imputed stripper well crude oil to 4,000 barrels. The 1,000 barrel excess is allocated between imputed stripper well crude oil and imputed newly discovered crude oil because the unitized property only includes a property that qualified as a stripper well property before the unitization and a newly discovered separate right to produce. The excess is equally allocated between K and L because imputed oil determined without regard to paragraph (e)(1)(i) of this section would be 50 percent imputed stripper well crude oil and 50 percent imputed newly discovered crude oil.

Example (4). Assume the same facts as in example (3). In addition, assume that the unitization agreement does not explicitly allocate imputed stripper well crude oil and imputed newly discovered crude oil between K and L. As in example (3), 4,500 of the barrels produced during February are treated as imputed stripper well crude oil, and 5,500 barrels are treated as imputed newly discovered crude oil. Because the unitization agreement does not explicitly allocate these types of imputed oil, the imputed stripper well crude oil is allocated on the basis of K's and L's proportionate share of production from a stripper well property during the 12-month period immediately preceding the unitization. Because K was the only stripper well property before the unitization, imputed stripper well crude oil is allocated to K, but only to the extent of production allocated to K. Accordingly, 4,000 barrels of imputed stripper well crude oil are allocated to K. Because L was a newly discovered separate right to produce before the unitization, imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section (5,000 barrels) is allocated on the basis of each constituent property's proportionate share of production from the unitized property as established by the unitization agreement. Accordingly, L is allocated 3,000 barrels of such imputed newly discovered oil. However, because K has already had allocated to it an amount of imputed stripper well crude oil equal to its share of production from the unitized property, no imputed newly discovered crude oil is allocated to it. The remaining 500 barrels of imputed stripper well crude oil and 2,500 barrels of imputed newly discovered crude oil are allocated to L because it is the only constituent property that has production allocated to it by the unitization agreement in excess of the production in the categories of crude oil allocated to the constituent properties after applying the rules contained in the third, fourth, and fifth sentences of paragraph (e)(6)(i) of this section.

Example (5). Assume the same facts as in example (4). In addition, assume that M holds a working interest in L that entitles M to 50 percent of the production allocated to L. Under paragraph (e)(3)(ii) of this section, the number of barrels of imputed newly discovered crude oil M is permitted to treat as imputed stripper well crude oil is determined by the following formula:

$$A = B \times \frac{C \times \frac{D}{E}}{F}$$

Although M's share of imputed newly discovered crude oil (factor B in the formula) would, in the absence of the second sentence describing factor B in paragraph (e)(3)(ii), be 2,750 barrels (50% of the 5,500 barrels of imputed newly discovered crude oil allocated to L as explained in example (4)), paragraph (e)(3)(ii) limits this amount (for purposes of permitting M to treat a portion of the imputed newly discovered crude oil as imputed stripper well crude oil) to the product of the amount of imputed stripper well crude oil determined under this section without regard to paragraph (e)(3)(i) of this section (5,000 bbls. = 10,000 bbls. × 80 acres/160 acres) multiplied by M's percentage of the share of the production allocated to L (50%). Thus, paragraph (e)(3)(ii) limits the amount to 2,500 barrels (5,000 bbls. × 50%). Accordingly, the formula is applied as follows:

Example (6). Assume the same facts as in example (2) except that L also met the requirements of a stripper well property before the unitization. In addition, assume that M holds a working interest in L that entitles M to 50 percent of the production allocated to L. Under paragraph (e)(4)(ii) of this section, M is permitted to treat all of her share of the production from the unitized property as imputed stripper well crude oil.

Example (7). (i) On January 1, 1983, properties N and O are unitized with P, a newly discovered separate right to produce. A single crude oil reservoir underlies N, O, and P. At the time of the unitization, N qualified as a stripper well property, but all production from O was tier 1 oil. During the 12-month period immediately preceding the unitization, N and O each produced 50,000 barrels of crude oil. The surface acreage of P underlain by proved undeveloped oil and gas reserves is 60 acres, and the entire surface acreage of the unitized property underlain by proved developed or undeveloped oil and gas reserves is 180 acres. Q holds a working interest in P that entitles Q to 50 percent of the production allocated to P. The unitization agreement provides that N and O will each be allocated 30 percent of the production from the unitized property and P will be allocated 40 percent of the production. The unitization agreement also provides that P will be allocated all the imputed stripper well crude oil of the unitized property, and that imputed newly discovered crude oil will be allocated as follows: 35 percent each to N and O and 30 percent to P. (Assume for purposes of this example that it is established by clear and convincing evidence that the allocation of imputed newly discovered crude oil among N, O, and P, and the allocation of all the imputed stripper well crude oil to P do not have as one of their principal purposes the avoidance of windfall profit tax.) During February of 1983, the unitized property produces 12,000 barrels of crude oil. Paragraph (e)(3)(i) of this section provides that imputed oil is determined by first determining the amount of imputed newly discovered crude oil under paragraph (d)(1)(ii) of this section (subject to the limitation contained in paragraph (e)(1)(i) of this section). Thus, 4,000 barrels are treated as imputed newly discovered crude oil.

$$12{,}000\text{ bbls.} \times \frac{60\text{ acres}}{180\text{ acres}}$$

Paragraph (e)(1)(i) of this section does not limit imputed newly discovered crude oil because the production from the unitized property allocated to P exceeds 4,000 barrels (40% × 12,000 = 4,800). Imputed oil for the remaining 8,000 barrels of production from the unitized property is determined under the rules of this section without regard to paragraph (d)(1)(ii) of this section. Under paragraph (b) of this section 4,000 of the remaining 8,000 barrels produced in February from the unitized property would be imputed stripper well crude oil.

$$8{,}000\text{ bbls.} \times \frac{50{,}000\text{ bbls.}}{100{,}000\text{ bbls.}}$$

However, O is allocated only 30 percent of the production from the unitized property. Thus, paragraph (e)(1)(i) of this section limits imputed stripper well crude oil to 3,600 barrels. 30% × 12,000 bbls. The remaining 4,400 barrels of production for February are tier 1 oil (12,000 bbls. − (4,000 bbls. + 3,600 bbls.)).

(ii) Under the unitization agreement P is allocated 40 percent of production, which is 4,800 barrels for February. Of this amount, 3,600 barrels are imputed stripper well crude oil because the unitization agreement allocates all imputed stripper well crude oil to P, and 1,200 barrels are imputed newly discovered crude oil because the unitization agreement allocates 30 percent of the imputed newly discovered crude oil to P (30% × 4,000 bbls.). Because the unitized property includes a newly discovered separate right to produce in which Q held an economic interest in the crude oil in place in the ground immediately before the unitization, Q may treat as imputed stripper well crude oil under paragraph (e)(3)(ii) of this section a certain amount of his share of the imputed newly discovered crude oil allocated to P. That amount is 250 barrels determined as follows:

$$250\text{ bbls.} = 600\text{ bbls.} \times \frac{6{,}000\text{ bbls.} \times \frac{60\text{ acres}}{180\text{ acres}}}{4{,}800\text{ bbls.}}$$

The 600 barrels are Q's share of the 1,200 barrels of imputed newly discovered crude oil determined under paragraph (d)(1)(ii) of this section allocated to P. The 6,000 barrels are the barrels of imputed stripper well crude oil determined without regard to paragraphs (d)(1)(ii) and (e)(1)(i) of this section. The 4,800 barrels are the total barrels allocated to P.

Example (8). On January 1, 1983, a unitized property is formed which is composed of properties R and S and the north halves of T and U. U qualified as a newly discovered crude oil property before the unitization. Fifty percent of the crude oil produced from T and U before the unitization came from wells located on the north halves of T and U and 50 percent from wells located on the south halves. Only crude oil produced from the north halves of T and U during the 12-month period immediately preceding the unitization is counted for purposes of determining the amount of imputed newly discovered crude oil.

(f) *Imputed oil for unitized property with incremental tertiary recovery project.* Solely for the purposes of determining incremental tertiary oil under section 4993 and the effects of that determination on imputed oil, if a qualified tertiary recovery project (as defined in paragraph (c) of §51.4993–1) is located on a unitized property and the unitized property is treated as more than one property under section 4993(d)(3) and paragraph (e)(4) of §51.4993–1 (relating to a tertiary project which only affects a portion of a property), each property (as determined under paragraph (e)(4) of §51.4993–1) is treated as a separate unitized property. The principles of this paragraph may be illustrated by the following example:

Example. (i) Properties A, B, and C were unitized in 1982. During the 12-month period immediately preceding the unitization, A produced 40,000 barrels of tier 1 oil, B produced 40,000 barrels of tier 2 oil, and C produced 160,000 barrels of newly discovered oil. During the 6-month period ending March 31, 1979, properties A and B each produced an average of 4,000 barrels per month, and C had no production during that period. On January 1, 1984, a qualified tertiary recovery project is begun on A. The project can reasonably be expected to significantly increase the ultimate recovery of crude oil from A and B, but not from C. Because the project cannot reasonably be expected to significantly affect the production from C, A and B are treated as a separate unitized property for incremental tertiary oil purposes. During January of 1984 the unitized property without regard to section 4993(d)(3) (the A, B, and C unitized property) produces 24,000 barrels of crude oil, 16,000 barrels of which are produced from C. The base level for incremental tertiary oil is determined by reference only to A and B. The aggregate monthly levels of A and B during the 6-month period (8,000 bbls.) are reduced by one percent per month for 1979, 1980, 1981, 1982 and 1983 for a total reduction of 4,800 bbls. (8,000 bbls. × 60%). Thus the base level is 3,200 bbls. (8,000 bbls. − 4,800 bbls.). Incremental tertiary oil for January of 1984 equals the excess of the January production of the A and B deemed unitized property over the base level or 4,800 barrels. (8,000 bbls. − 3,200 bbls. = 4,800 bbls.) The incremental tertiary oil is allocated between the tier 1 and tier 2 oil produced from the A and B deemed unitized property during January. Production for the A and B deemed unitized property would be 50 percent tier 1 oil and 50 percent tier 2 oil (assuming the rules under paragraph (e) of this section do not apply). Thus, for the A and B deemed unitized property, 1,600 barrels are treated as tier 1 oil (4,000 bbls. − (4,800 bbls. × 4,000 bbls./8,000 bbls.)), 1,600 barrels are treated as tier 2 oil, and 4,800 barrels are treated as tier 3 incremental tertiary oil.

(ii) Assume that without regard to the incremental tertiary oil provisions production from the A, B, and C unitized property for January would be treated under this section as 4,000 barrels of tier 1 oil, 4,000 barrels of tier 2 oil, and 16,000 barrels of tier 3 newly discoverd oil. Because of the incremental tertiary oil provisions, production from the A, B, and C unitized property for January is treated as 1,600 barrels of tier 1 oil, 1,600 barrels of tier 2 oil, 4,800 barrels of tier 3 incremental tertiary oil, and 16,000 barrels of tier 3 newly discovered oil.

(g) *Definitions*. For purposes of this section—

(1) *Unit base production control level*. The term "unit base production control level" has the same meaning that term had under section 212.75 of the energy regulations (10 CFR 212.75) before its removal effective March 30, 1981.

(2) *Heavy crude oil property*. The term "heavy crude oil property" means a property if crude oil produced and sold from that property during either—

(i) The last month before July 1979 in which crude oil was produced and sold from that property, or

(ii) The taxable period, had a weighted average gravity of 16.0 degrees API or less (corrected to 60 degrees Fahrenheit).

(3) *Proved developed oil and gas reserves*. For purposes of this section, "proved developed oil and gas reserves" are reserves that can be expected to be recovered through existing wells with existing equipment and operating methods. Additional oil and gas expected to be obtained through the application of fluid injection or other improved recovery techniques for supplementing the natural forces and mechanisms of primary recovery should be included as "proved developed oil and gas reserves"only after testing by a pilot project or after the operation of an installed program has confirmed through production response that increased recovery will be achieved.

(4) *Proved undeveloped oil and gas reserves*. For purposes of this section, "proved undeveloped oil and gas reserves" are reserves that are expected to be recovered from new wells on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion. Reserves on undrilled acreage shall be limited to those drilling units offsetting productive units that are reasonably certain of production when drilled. Proved reserves for other undrilled units can be claimed only where it can be demonstrated with certainty that there is continuity of production from the existing productive formation. Under no circumstances should estimates for proved undeveloped oil and gas reserves be attributable to any acreage for which an application of fluid injection or other improved recovery technique is contemplated, unless such techniques have been proved effective by actual tests in the area and in the same reservoir.

These proposed amendments are to be issued under the authority of Code section 4997(b) (94 Stat. 250, 26 U.S.C. 4997(b)), which grants the Secretary of the Treasury or his delegate authority to prescribe regulations necessary or appropriate to carry out the purpose of the windfall profit tax (including changes in the application of the energy regulations), and the more general regulatory authority contained in Code section 7805 (68A Stat. 917, 26 U.S.C. 7805).

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue

(Filed by the Office of the Federal Register on September 29, 1986, 8:45 a.m., and published in the issue of Federal Register for September 30, 1986, 51 F.R. 34653)

Deletions from Cumulative List of Organizations Contributions to Which Are Deductible Under Section 170 of the Code

Announcement 86–105

The names of organizations that no longer qualify as organizations described in section 170(c)(2) of the Internal Revenue Code of 1954 are listed below.

Generally, the Service will not disallow deductions for contributons made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that an organization no longer qualifies. However, the Service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170(c)(2) if the organization has not timely filed a suit for declaratory judgment under section 7428 and if the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsible for or was aware of the activities or omissions of the organization that brought about this revocation.

If on the other hand a suit for declaratory judgment has been timely filed, contributions from individuals and organizations described in section 170(c)(2) that are otherwise allowable will continue to be deductible. Protection under section 7428(c) would begin on October 27, 1986, (the date of publication of this announcement) and would end on the date the court first determines that the organization is not described in section 170(c)(2) as more particularly set forth in section 7428(c)(1). For individual contributors, the maximum deduction protected is $1,000, with a husband and wife treated as one contributor. This benefit is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organization that were the basis for revocation.

Annoucement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practible for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Robert D. Digby	North Little Rock, AR	Certified Public Accountant	Four Months from July 29, 1986
Jeffrey E. Ellis	Rockland, ME	Certified Public Accountant	Indefinite from July 2, 1986
Charles L. Honey	Prescott, AR	Attorney	One Year from July 2, 1986
Bernhardt Karp	Hudson, NY	Attorney & Certified Pubic Accountant	Indefinite from July 29, 1986
George N. Meros	Springfield, MO	Attorney	Indefinite from July 25, 1986
William G. Waldrop	Adamsville, AL	Certified Public Accountant	Indefinite from July 17, 1986
S. Melvin Apotheker	Miami, FL	Attorney	Indefinite from September 1, 1986
Sandra S. Behn	London, TN	Certified Public Accountant	Indefinite from September 12, 1986
Charles K. Hyter	Hutchinson, KS	Attorney	Indefinite from September 18, 1986
William Pyke	Dallas, TX	Certified Public Accountant	Eighteen Months from August 15, 1986
Alan Z. Richards	West Hempstead, NY	Attorney and Certified Public Accountant	Indefinite from September 20, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
David P. Rosenberg	Philadelphia, PA	Indefinite effective August 13, 1986
Paul Beecher	Torrance, CA	Indefinite effective September 25, 1986

Under 31 Code of Federal Regulations, Part 10, an enrolled agent, in order to avoid the institution of a proceeding for his disbarment of suspension from practice before the Internal Revenue Service, may offer his resignation. The Director of Practice, in his discretion, may accept the offered resignation of an enrolled agent.

To enable the public and other practitioners to identify such resigned enrolled agents, the Director of Practice will announce in the Internal Revenue Bulletin the name and address of each enrolled agent who has resigned and the effective date of resignation. This announcement will appear in the weekly Bulletin at the earliest practicable date after the action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each resigned enrolled agent, and will later be consolidated and published in the Cumulative Bulletin.

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name of Enrolled Agent	Address	Effective Date of Resignation
William E. Bonafede	Wakefield, RI	September 30, 1986

Under Section 330, Title 31 of the United States Code, the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
James L. Ketner	Charlotte, NC	Certified Public Accountant	September 27, 1986
George L. Weil	Orange, CT	Certified Public Accountant	September 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 51.4989–1, 51.4996–1, 51.4996–3 amended; 51.4996–4 added	Definition of "property" for purposes of the windfall profit tax	1986–42 I.R.B. 15	Nov. 11, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 25.—Interest on Certain Home Mortgages

Guidelines prescribe the manner in which the income limits applicable to mortgage credit certificates are to be applied. See Rev. Rul. 86-124, this page.

Section 29.—Credit For Producing Fuel From A Nonconventional Source

Credit for producing fuel from a nonconventional source. Prior to July 1, 1987, only section 103 gas that is produced from a formation that is located at a depth of more than 5,000 feet is deregulated for purposes of the Natural Gas Policy Act. Rev. Rul. 86–19 modified and superseded.

Rev. Rul. 86–127

This revenue ruling corrects Rev. Rul. 86–19, 1986–1 C.B. 4, which incorrectly stated that all section 103 gas is deregulated for purposes of the NGPA. This correction to Rev. Rul. 86–19 is effective as if it had originally appeared in Rev. Rul. 86–19. Rev. Rul. 86–19 should have read as follows:

Section 29(a) of the Code (formerly Section 44D(a)) provides a credit against income tax of $3 per barrel-of-oil equivalent of qualified fuels sold by the taxpayer during the taxable year, subject to stated conditions. Section 29(c)(1)(B) provides that the term "qualified fuels" includes "gas produced from . . . a tight formation." However, section 29(c)(2)(B)(i) provides that the term "gas produced from a tight formation" shall only include gas the price of which is regulated by the United States.

Section 121 of the Natural Gas Policy Act of 1978, Pub. L. No. 95–621, 15 U.S.C. section 3331 (1982) (NGPA) eliminated price controls as of January 1, 1985, on certain categories of natural gas classified under section 102(c) and section 103(c) of the NGPA. The Federal Energy Regulatory Commission (FERC) has issued regulations concerning the types of gas that were deregulated by section 121. *See* 49 Fed. Reg. 46,874 (Nov. 29, 1984). These regulations include amendments to 18 C.F.R. section 272.103(a), which defines "deregulated natural gas." *See* 49 Fed. Reg. 46,884. The FERC also decided that gas is deregulated if it falls into two or more categories any one of which is a deregulated category. *See* 49 Fed. Reg. 46,877–79.

Thus, gas produced and sold after December 31, 1984, that falls under any of the categories listed in 18 C.F.R. section 272.103(a) (as amended) is gas the price of which is not regulated by the United States. Gas produced from a tight formation is generally classified as section 107(c)(5) gas under the NGPA. However, a considerable amount of section 107(c)(5) gas also is classified as section 102 or 103 gas. Thus, if gas from a tight formation also qualifies under section 102 or is section 103 gas that is produced from a formation that is located at a depth of more than 5,000 feet, it is deregulated for purposes of the NGPA. (Section 103 gas that is produced from a formation that is located 5,000 feet or shallower from the surface will be deregulated for purposes of the NGPA as of July 1, 1987). In accordance with section 29(c)(2)(B)(i) of the Code, even if deregulated gas would otherwise qualify as gas produced from a tight formation, it is not a qualified fuel under section 29(c), and producers of the gas are not eligible for the credit allowed by section 29(a).

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 86–19 is modified and superseded.

Section 143.—Mortgage Revenue Bonds

(Also Section 25.)

Mortgage revenue bonds and mortgage credit certificates; income limits. Guidelines prescribe the manner in which the income limits applicable to mortgage revenue bonds and mortgage credit certificates are to be applied to meet the requirements of section 1301 of the Tax Reform Act of 1986.

Rev. Rul. 86–124[1]

This revenue ruling contains guidelines prescribing the manner in which the income limits applicable to mortgage revenue bonds and mortgage credit certificates are to be applied.

BACKGROUND

Section 1301 of the Tax Reform Act of 1986, Pub. L. 99–100 Stat. added new income limits to the requirements that must be met in order for interest on a qualified mortgage bond to be excluded from gross income under section 103(a) of the Internal Revenue Code. In general, new section 143(f) of the Code provides that the income requirement is met if all owner-financing provided under the issue is provided for mortgagors whose family income is 115 percent or less of the applicable median family income. New section 143(f)(2) provides that family income and area median gross income are to be determined by the Secretary after taking into account the regulations prescribed under section 8 of the United States Housing Act of 1937. The new income requirement, in general, applies to obligations issued after August 15, 1986.

These income requirements also apply to mortgage credit certificates issued under section 25 of the Code. A mortgage credit certificate provides a credit against federal income tax to the recipient of the credit for a portion of the interest paid on the recipient's mortgage loan on his or her principal residence.

With respect to any residence, section 143(f)(4) defines the term "applicable median family income" as the greater of—

(A) The area median gross income for the area in which the residence is located, or

(B) The area median gross income for the state in which the residence is located.

GUIDELINES

Until regulations are issued, determinations of family income and applicable median family income are to be made in the manner prescribed in this revenue ruling.

For purposes of section 143(f)(4), the "area median gross income" for an area or state must be determined in a manner consistent with the determination of "median gross income" for the area or state under section 8 of the United States Housing Act of 1937, as amended, with adjustments for areas of unusually high or low income. These adjustments must be made in the manner that these adjustments are made for purposes of section 8 of the United States Housing Act of 1937, as amended. Thus, in determining area median gross income, issuers must use the Revised Income Limits for Lower Income and Very Low Income under the Housing Act of 1937. The most recent limits were released by the Department of Housing and Urban Development in

---

[1] Also released as News Release IR–86–136, dated October 14, 1986.

November 1985; these income limits may be relied upon until 30 days after the release of updated income limits. In using these limits, issuers must multiply the "very low income" limit for the area by 2.3 to apply the 115 percent limit of section 143(f)(1) and by 2.8 to apply the 140 percent limit of section 143(f)(3). Adjustments for family size are not required for purposes of determining area median gross income. (Issuers may, however, make adjustments for smaller and larger families if these adjustments are made with respect to all owner-financing provided under an issue.)

For purposes of applying the income requirements of section 143(f), the "family income" of a mortgagor (or mortgagors) is the mortgagor's annualized gross income. Annualized gross income is gross monthly income multiplied by 12. Gross monthly income is the sum of monthly gross pay; any additional income from overtime, part-time employment, bonuses, dividends, interest, royalties, pensions, Veterans Administration (VA) compensation, net rental income, *etc.;* and other income (such as alimony, child support, public assistance, sick pay, social security benefits, unemployment compensation, income received from trusts, and income received from business activities or investments). Information with respect to gross monthly income may be obtained from available loan documents executed during the 4-month period ending on the date of the closing of the mortgage, provided that any gross monthly income not included on the loan documents must be included by the issuer in determining gross monthly income. Thus, for example, if the mortgagor does not include alimony on the loan documents, the issuer in determining gross monthly income must determine the amount of alimony and add that amount to the amount shown on the loan documents. The income to be taken into account in determining the gross monthly income is the income of the mortgagor (or mortgagors) and any other person who is expected both to live in the residence being financed and to be secondarily liable on the mortgage.

Issuers who wish to use information from available loan documents under the restrictions described in the preceding paragraph may, for example, find that information on (1) lines 23D and 23E on the Application for VA of FMHA Home Loan Guaranty of the HUD/FHA Insured Mortgage (VA Form 26–1802a, HUD 92900, Jan. 1982), or (2) the total line from the Gross Monthly Income section of FHLMC Residential Loan Application form (FHLMC 65 Rev. 8/78).

For purposes of section 143(a)(2)(B)(ii) (relating to good faith effort to comply), in determining whether 95 percent or more of the proceeds devoted to owner-financing was devoted to residences with respect to which the income requirement was met, the issuer may rely on an affidavit of the mortgagor stating that the family income of the mortgagor does not exceed the applicable income limit.

Section 280G.—Golden Parachute Payments

Federal short-term, mid-term and long-term rates are set forth for the month of November 1986. See Rev. Rul. 86–128, page 10.

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates are set forth for the month of November 1986, See Rev. Rul. 86–128, page 10.

Section 468.—Special Rules for Mining and Solid Waste Reclaimation and Closing Costs

Federal short-term, mid-term and long-term rates are set forth for the month of November 1986. See Rev. Rul. 86–128, page 10.

Section 513.—Unrelated Trade or Business

26 CFR 1.513–1: Definition of unrelated trade or business.

Ct. D. 2035

SUPREME COURT
OF THE
UNITED STATES
No. 84–1737

United States v. American College
of Physicians
[U.S.]

On Writ of Certiorari to the
United States
Court of Appeals
for the Federal Circuit

[April 22, 1986]

Syllabus

Section 511(a)(1) of the Internal Revenue Code imposes a tax on the "unrelated business taxable income" of tax-exempt organizations. Section 512(a)(1) defines "unrelated business taxable income" as the gross income derived by such an organization from any "unrelated trade or business . . . regularly carried on by it," and §513(a) defines "unrelated trade or business" as "any trade or business the conduct of which is not substantially related" to the organization's tax-exempt purposes. Respondent tax-exempt organization, in furtherance of its exempt purposes of maintaining high standards in medical education and practice, encouraging research, and fostering measures for preventing disease and improving public health, publishes a monthly medical journal containing articles relevant to the practice of internal medicine. Each issue of the journal contains paid advertisements for pharmaceuticals, and medical supplies and equipment useful in the practice of internal medicine. After respondent had paid taxes on its net income from such advertisements in 1975, it filed a claim for a refund, and when the Government demurred, ultimately filed suit in the United States Claims Court, which held that the advertisements were not substantially related to respondent's tax-exempt purposes and that therefore the advertising proceeds were taxable. The Court of Appeals reversed. Taking the view that the Claims Court had focused too much on the commercial character of advertising business and not enough on the advertisement's contribution to the education of the medical journal's readers, the Court of Appeals that respondent had established the requisite substantial relation and its entitlement to exemption from taxation.

Held: Respondent must pay a tax on the profits it earns from the advertisements. Pp. 3–15.

(a) It is undisputed that respondent's publication of paid advertising is a "trade or business" and that the business is "regularly carried on." Pp. 4–6.

(b) There is no merit to the Government's argument that Congress and the Treasury intended to establish a blanket rule requiring the taxation of income from all commercial advertising by tax-exempt professional journals without a specific analysis of the circumstances. There is no support for such a rule in the regulations or in the legislative history of the Internal Revenue Code. Pp. 6–12.

(c) In this case, however, based on the Claims Court's finding of facts that are adequately supported by the record, and considering those facts in light of the applicable legal standard, it must be concluded that the advertisements in question were not "substantially related," or in the words of the implementing regulation did not "contribute importantly," to the medical journal's educational purposes. The Claims Court properly directed its attention to respondent's conduct of its advertising business, whereas the Court of Appeals erroneously focused exclusively upon the information conveyed by commercial advertising and consequently failed to give effect to the governing statute and regulations. Pp. 12–15.

743 F. 2d 1570, reversed.

MARSHALL, J., delivered the opinion for a unanimous Court. BURGER, C.J., filed a concurring opinion, in which POWELL, J., joined.

JUSTICE MARSHALL delivered the opinion of the Court.

A tax-exempt organization must pay tax on income that it earns by carrying on a business not "substantially related" to the purposes for which the organization has received its exemption from federal taxation. The question before this Court is whether respondent, a tax-exempt organiztion, must pay tax on the profits it earns by selling commercial advertising space in its professional journal, The Annals of Internal Medicine.

I

Respondent, the American College of Physicians, is an organization exempt from taxation under §501(c)(3) of the Internal Revenue Code.[1] The purposes of the College, as stated in its articles of incorporation, are to maintain high standards in medical education and medical practice; to encourage research, especially in clinical medicine; and to foster measures for the prevention of disease and for the improvement of public health. App. 16a. The principal facts were stipulated at trial. In furtherance of its exempt purposes, respondent publishes The Annals of Internal Medicine (Annals), a highly regarded monthly medical journal containing scholarly articles relevant to the practice of internal medicine. Each issue of Annals contains advertisements for pharmaceuticals, medical supplies, and equipment useful in the practice of internal medicine, as well as notices of positions available in that field. Respondent has a longstanding policy of accepting only advertisements containing information about the use of medical products, and screens profferred advertisements for accuracy and relevance to internal medicine. The advertisements are clustered in two groups, one at the front and one at the back of each issue.

In 1975, Annals produced gross advertising income of $1,376,322. After expenses and deductible losses were subtracted, there remained a net income of $153,388. Respondent reported this figure as taxable income and paid taxes on it in the amount of $55,965. Respondent then filed a timely claim with the Internal Revenue Service for refund of these taxes, and when the Government demurred, filed suit in the United States Claims Court.

The Claims Court held a trial and concluded that the advertisements in Annals were not substantially related to respondent's tax-exempt purposes. 3 Cl. Ct. 531 (1983). Rather, after finding various facts regarding the nature of the College's advertising business, it concluded that any correlation between the advertisements and respondent's educational purpose was incidental because "the comprehensiveness and content of the advertising package is entirely dependent on each manufacturer's willingness to pay for space and the imagination of its advertising agency." *Id.*, at 535. Accordingly, the court determined that the advertising proceeds were taxable.

The Court of Appeals for the Federal Circuit reversed. It held clearly erroneous the trial court's finding that the advertising was not substantially related to respondent's tax-exempt purpose. The Court of Appeals believed that the trial court had focused too much on the commercial character of the advertising business and not enough on the actual contribution of the advertisements to the education of the journal's readers. It held that respondent had established the requisite substantial relation and its entitlement to exemption from taxation. 743 F. 2d 1540, 1578 (1984). We granted the Government's petition for certiorari, 473 U.S. ____(1985), and now reverse.

II

The taxation of business income not "substantially related" to the objectives of exempt organizations dates from the Revenue Act of 1950, Ch. 994, 64 Stat. 906 (1950 Act). The statute was enacted in response to perceived abuses of the tax laws by tax-exempt organizations that engaged in profitmaking activities. Prior law had required only that the profits garnered by exempt organizations be used in furtherance of tax-exempt purposes, without regard to the source of those profits. See *Trinidad* v. *Sagrada Orden de Predicadores,* 263 U.S. 578, 581 (1924); *C. F. Mueller Co.* v. *Commissioner,* 190 F.2d 120 (CA3 1951); *Roche's Beach, Inc.* v. *Commissioner,* 96 F. 2d 776 (CA2 1938). As a result, tax-exempt organizations were able to carry on full-fledged commercial enterprises in competition with corporations whose profits were fully taxable. See Revenue Revision of 1950: Hearings before the House Committee on Ways and Means. Vol. I, 81st Cong., 2d Sess., 18–19 (1950) (hereinafter cited as 1950 House Hearings) (describing universities' production of "automobile parts, chinaware, and food products, and the operation of theatres, oil wells, and cotton gins"). Congress perceived a need to restrain the unfair competition fostered by the tax laws. See H. R. Rep. No. 2319, 81st Cong., 2d Sess., 36–37 (1950).

Nevertheless, Congress did not force exempt organizations to abandon all commercial ventures, nor did it levy a tax only upon businesses that bore no relation at all to the tax-exempt purposes of an organization, as some of the 1950 Act's proponents had suggested. See, *e.g.*, 1950 House Hearings, *supra*, at 4, 19, 165. Rather, in the 1950 Act it struck a balance between its two objectives of encouraging benevolent enterprise and restraining unfair competition by imposing a tax on the "unrelated business taxable income" of tax-exempt organizations. 26 U.S.C. §511(a)(1).

"Unrelated business taxable income" was defined as "the gross income derived by any organization from any unrelated trade or business . . . regularly carried on by it . . . " §512(a)(1). Congress defined an "unrelated trade or business" as "any trade or business the conduct of which is not substantially related . . . to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption . . . " §513(a). Whether respondent's advertising income is taxable, therefore, depends upon (1) whether the publication of paid advertising is a "trade or business," (2) whether it is regularly carried on, and (3) whether it is substantially related to respondent's tax-exempt purposes.

---

[1] Title 26 U.S.C. §501(c)(3) exempts from taxation entities "organized and operated exclusively for religious, charitable, scientific, testing for public safety, literary, or educational purposes," with certain restrictions on their activities, including prohibition of political activity.

III

A

Satisfaction of the first condition is conceded in this case, as it must be, because Congress has declared unambiguously that the publication of paid advertising is a trade or business activity distinct from the publication of accompanying educational articles and editorial comment.

In 1967, the Treasury promulgated regulations interpreting the unrelated business income provision of the 1950 Act. The regulation defined "trade or business" to include not only a complete business enterprise, but also any component activity of a business. Treas. Reg. §1.513–1(b), 26 CFR §1.513–1(b) (1985) (first published at 32 Fed. Reg. 17657 (1967)).[2] This revolutionary approach to the identification of a "trade or business" had a significant effect on advertising, which theretofore had been considered simply a part of a unified publishing business. The new regulation segregated the "trade or business" of selling advertising space from the "trade or business" of publishing a journal, an approach commonly referred to as "fragmenting" the enterprise of publishing into its component parts:

> "activities of soliciting, selling, and publishing commercial advertising do not lose identity as a trade or business even though the advertising is published in an exempt organization periodical which contains editorial matter related to the exempt purposes of the organization." 26 CFR §1.513–1(b).

In 1969, Congress responded to widespread criticism of those Treasury regulations[3] by passing the Tax Reform Act of 1969, Pub. L. 91–172, 83 Stat. 487 (1969 Act). That legislation specifically endorsed the Treasury's concept of "fragmenting" the publishing enterprise into its component activities, and adopted, in a new §513(c), much of the language of the regulation that defined advertising as a separate trade or business:

> "Advertising, etc., activities . . . an activity does not lose identity as a trade or business merely because it is carried on . . . within a larger complex of other endeavors which may, or may not, be related to the exempt purposes of the organization." 26 U.S.C. §513(c).

The statute clearly established advertising as a trade or business, the first prong of the inquiry into the taxation of unrelated business income.

The presence of the second condition, that the business be regularly carried on, is also undisputed here. The satisfaction of the third condition, however, that of "substantial relation," is vigorously contested, and that issue forms the crux of the controversy before us.

B

According to the Government, Congress and the Treasury established a blanket rule that advertising published by tax-exempt professional journals can never be substantially related to the purposes of those journals and is, therefore, always a taxable business. Respondent, however, contends that each case must be determined on the basis of the characteristics of the advertisements and journal in question. Each party finds support for its position in the governing statute and regulations issued by the Department of the Treasury.

In its 1967 regulations, the Treasury not only addressed the "fragmentation" issue discussed above, but also attempted to clarify the statutory "substantially related" standard found in §513(a). It provided that the conduct of a tax-exempt business must have a causal relation to the organization's exempt purpose (other than through the generation of income), and that "the production or distribution of the goods or the performance of the services from which the gross income is derived must *contribute importantly* to the accomplishment of [the exempt] purposes." Treas. Reg. §1.513–1(d)(2), 26 CFR §1.513–1(d)(2) (1985) (emphasis added). In illustration of its new test for substantial relation, the Treasury provided an example whose interpretation is central to the resolution of the issue before us. Example 7 of Treas. Reg. §1.513–1(d)(4)(iv) involves "Z," an exempt association formed to advance the interests of a particular profession and drawing its membership from that profession. Z publishes a monthly journal containing articles and other editorial material that contribute importantly to the tax-exempt purpose. Z derives income from advertising products within the field of professional interest of the members:

> "Following a practice common among taxable magazines which publish advertising, Z requires its advertising to comply with certain general standards of taste, fairness, and accuracy; but within those limits the form, content, and manner of presentation of the advertising messages are governed by the basic objective of the advertisers to promote the sale of the advertised products. While the advertisements contain certain information, the informational function of the advertising is incidental to the controlling aim of stimulating demand for the advertised products and differs in no essential respect from the informational function of any commercial advertising. Like taxable publishers of advertising, Z accepts advertising only from those who are willing to pay its published rates. Although continuing education of its members in matters pertaining to their profession is one of the purposes for which Z is granted exemption, the publication of advertising designed and selected in the manner of ordinary commercial advertising is not an educational activity of the kind contemplated by the exemption statute; it differs fundamentally from such an activity both in its governing objective and in its method. Accordingly, Z's publication of advertising does not contribute importantly to the accomplishment of its exempt purposes; and the income which it derives from advertising constitutes gross income from unrelated trade or business." §1.513–1(d)(4)(iv), Example 7.

The Government contends both that Example 7 creates a *per se* rule of taxation for journal advertising income and that

---

[2] The 1967 Treasury regulations at issue in this case, published in final form at 32 Fed. Reg. 17657 (1967), have not been amended in pertinent part since their promulgation, and references to those regulations herein are to the current version.

[3] See, *e.g.*, Moore, Current Problems of Exempt Organizations, 24 Tax L. Rev. 469, 476 (1969); Middleditch & Webster, The new unrelated business income Regs: what they mean; how to cope with them, 28 J. Tax. 174, 178 (1968); Webster. New proposals change definition of unrelated business income, 27 J. Tax. 42, 43 (1967); Weithorn & Liles, Unrelated Business Income Tax: Changes Affecting Journal Advertising Revenues, 45 Taxes 791, 798 (1967). See also Tax Reform, 1969: Hearings Before the House Committee on Ways and Means, 91st Cong., 1st Sess. 11129, 1184, 1223 (1969). Numerous bills were introduced in the 90th Congress, 1st Session, in an unsuccessful attempt to overturn the regulations, even before they became final. See, *e.g.*, H.R. 8765; H.R. 8766; H.R. 9103; H.R. 9468; H.R. 9661; H.R. 9763; H.R. 10150; H.R. 10997; H.R. 10998; H.R. 11491; H.R. 11492. And several years later, two federal courts struck down the 1967 regulations as exceeding pre-1969 statutory authority, insofar as they required the "fragmentation" of publishing activities. See *American College of Physicians* v. *United States*, 530 F. 2d 930, 933 (Ct. Cl. 1976); *Massachusetts Medical Society* v. *United States*, 514 F. 2d 153, 154 (CA1 1975).

Congress intended to adopt that rule, together with the remainder of the 1967 regulations, into law in the 1969 Act. We find both of these contentions unpersuasive.

Read as a whole, the regulations do not appear to create the type of blanket rule of taxability that the Government urges upon us. On the contrary, the regulations specifically condition tax exemption of business income upon the importance of the business activity's contribution to the particular exempt purpose at issue, and direct that "[w]hether activities productive of gross income contribute importantly to the accomplishment of any purpose for which an organization is granted an exemption depends *in each case* upon the facts and circumstances involved," *id.*, §1.513–1(d)(2) (emphasis added). Example 7 need not be interpreted as being inconsistent with that general rule. Attributing to the term "example" its ordinary meaning, we believe that Example 7 is best construed as an illustration of one possible application, under given circumstances, of the regulatory standard for determining substantial relation.

The interpretative difficulty of Example 7 arises primarily from its failure to distinguish clearly between the statements intended to provide hypothetical facts and those designed to posit the necessary legal consequences of those facts. Just at the point in the lengthy Example at which the facts would appear to end and the analysis to begin, a pivotal statement appears: "the informational function of the advertising is incidental to the controlling aim of stimulating demand for the advertised products." The Government's position depends upon reading this statement as a general proposition of law, while respondent would read it as a statement of fact that may be true by hypothesis of "Z" and its journal, but is not true of Annals.

We recognize that the language of the Example is amenable to either interpretation. Nevertheless, several considerations lead us to believe that the Treasury did not intend to set out a *per se* statement of law. First, when the regulations were proposed in early 1967, the Treasury expressed a clear intention to treat all commercial advertising as an unrelated business. See Technical Information Release No. 889, CCH 1967 Stand. Fed. Tax Rep. §6557. When the regulations were issued in final form, however, following much criticism and the addition of Example 7, they included no such statement of intention. 32 Fed. Reg. 17657 (1967). Second, a blanket rule of taxation for advertising in professional journals would contradict the explicit case-by-case requirement articulated in Treas. Reg. §1.513–1(d)(2), and we are reluctant to attribute to the Treasury an intention to depart from its own general principle in the absence of clear support for doing so. Finally, at the time the regulations were issued, the 1950 Act had been interpreted to mean that business activities customarily engaged in by tax-exempt organizations would continue to be considered "substantially related" and untaxed. See Note, The Macaroni Monopoly: The Developing Concept of Unrelated Business Income of Exempt Organizations, 81 Harv. L. Rev. 1280, 1291 (1968). A *per se* rule of taxation for activity, traditional among tax-exempt journals, of carrying commercial advertising would have been a significant departure from that prevailing view. Thus, in 1967 the idea of a *per se* rule of taxation for all journal advertising revenue was sufficiently controversial, its effect so substantial, and its statutory authorization so tenuous, that we simply cannot attribute to the Treasury the intent to take that step in the form of an ambiguous example, appended to a subpart of a subsection of a subparagraph of a regulation.

It is still possible, of course, that, regardless of what the Treasury actually meant by its 1967 regulations, Congress read those regulations as creating a blanket rule of taxation, and intended to adopt that rule into law in the 1969 Act. The Government appears to embrace this view, which it supports with certain statements in the legislative history of the 1969 Act. For example, the Government cites to a statement in the House Report, discussing, the taxation of advertising income of journals published by tax-exempt organizations:

> "Your committee believes that a business competing with taxpaying organizations should not be granted an unfair competitive advantage by operating tax free unless the business contributes importantly to the exempt function. It has concluded that by that standard, advertising in a journal published by an exempt organziation is not related to the organization's exempt functions, and therefore it believes that this income should be taxed." H. R. Rep. No. 91–413, pt. 1, p. 50 (1969).

Similar views appear in the Senate Report:

> "Present law.—In December 1967, the Treasury Department promulgated regulations under which the income from advertising and similar activities is treated as 'unrelated business income' even though such advertising for example may appear in a periodical related to the educational or other exempt purpose of the organization.
>
> "General reasons for change.—The committee agrees with the House that the regulations reached on appropriate result in specifying that when an exempt organization carries on an advertising business in competition with other taxpaying advertising businesses, it should pay a tax on the advertising income. The statutory language on which the regulations are based, however, is sufficiently unclear so that substantial litigation could result from these regulations. For this reason, the committee agrees with the House that the regulations, insofar as they apply to advertising and related activities, should be placed in the tax laws." S. Rep. No. 91–552, 75 (1969).

Based on this language, the Government argues that the 1969 Act created a *per se* rule of taxation for advertising income. The weakness of this otherwise persuasive argument, however, is that the quoted discussion appears in the Reports solely in support of the legislators' decision to enact §513(c), the provision approving the fragmentation of "trade or business." Although §513(c) was a significant change in the tax law that removed one barrier to the taxation of advertising proceeds, it cannot be construed as a comment upon the two other distinct conditions—"regularly carried on" and "not substantially related"—whose satisfaction is prerequisite to taxation of business income under the 1950 Act. Congress did not incorporate into the 1969 Act the language of the regulation defining "substantial relation," nor did the statute refer in any other way to the issue of the relation between advertising and exempt functions, even though that issue has been hotly debated at the hearings. See, *e.g.*, *Tax Reform, 1969: Hearings Before the House Committee on Ways and Means*, 91st Cong., 1st Sess., 1113, 1118, 1192, 1241 (1969). Thus, we have no reason to conclude from the Committee Reports that Congress resolved the dispute whether, in a specific case, a journal's carriage of advertising could so advance its educational objectives as to be "substantially related" to those objectives within the meaning of the 1950 Act.

It is possible that the Committees' discussion of advertising reflects merely an erroneous assumption that the "fragmentation" provision of §513(c), without more, would establish the automatic taxation of journal advertising revenue. Alternatively, the quoted passages could be read to indicate the Committees' intention affirmatively to endorse what they believed to be existing practice, or even to change the law substantially. The truth is that, other than a general reluctance to consider commercial advertisements generally as substantially related to the purposes of tax-exempt journals, no congressional view of the issue emerges from the quoted excerpts of the Reports.[4] Thus, despite the Reports' seeming endorsement of a *per se* rule, we are hesitant to rely on that inconclusive legislative history either to supply a provision *not* enacted by Congress, see *Commissioner* v. *Acker,* 361 U.S. 87, 93 (1959); J. Mertens, Law of Federal Income Taxation §3.29 (Weinstein rev. 1985), or to define a statutory term enacted by a prior Congress. See *SEC* v. *Sloan,* 436 U.S. 103, 121 (1978); *United States* v. *Price,* 361 U.S. 304, 313 (1960). *Cf. TVA* v. *Hill,* 437 U.S. 153, 193 (1978). We agree, therefore, with both the Claims Court and the Court of Appeals in their tacit rejection of the Government's argument that the Treasury and Congress intended to establish a *per se* rule requiring the taxation of income from all commercial advertisments of all tax-exempt journals without a specific analysis of the circumstances.[5]

IV

It remains to be determined whether, in this case, the business of selling advertising space is "substantially related"—or, in the words of the regulation, "contributes importantly"—to the purposes for which respondent enjoys an exemption from federal taxation. Respondent has maintained throughout this litigation that the advertising in Annals performs an educational function supplemental to that of the journal's editorial content. App. 7a. Testimony of respondent's witnesses at trial tended to show that drug advertising performs a valuable function for doctors by disseminating information on recent developments in drug manufacture and use. App. 27a, 38a, 43a. In addition, respondent has contended that the role played by the Food and Drug Administration, in regulating much of the form and content of prescription-drug advertisements, enhances the contribution that such advertisements make to the readers' education. All of these factors, respondent argues, distinguish the advertising in Annals from standard commercial advertising. Respondent approaches the question of substantial relation from the perspective of the journal's subscribers; it points to the benefit that they may glean from reading the advertisements and concludes that that benefit is substantial enough to satisfy the statutory test for tax exemption. The Court of Appeals took the same approach. It concluded that the advertisements performed various "essential" functions for physicians, 743 F. 2d, at 1576, and found a substantial relation based entirely upon the medically-related content of the advertisements as a group.

The Government, on the other hand, looks to the conduct of the tax-exempt organization itself, inquiring whether the publishers of Annals have performed the advertising services in a manner that evinces an intention to use the advertisements for the purpose of contributing to the educational value of the journal. Also approaching the question from the vantage point of the College, the Claims Court emphasized the lack of a comprehensive presentation of the material contained in the advertisements. It commented upon the "hit-or-miss nature of the advertising," 3 Cl. Ct., at 543, n. 3. and observed that the "differences between ads plainly reflected the advertiser's marketing strategy rather than their probable importance to the reader." *Id.,* at 534. "[A]ny educational function [the advertising] may have served was incidental to its purpose of raising revenue." *Id.,* at 535a.

We believe that the Claims Court was correct to concentrate its scrutiny upon the conduct of the College rather than upon the educational quality of the advertisements. For all advertisements contain some information, and if a modicum of informative content were enough to supply the important contribution necessary to achieve tax exemption for commercial advertising, it would be the rare advertisement indeed that would fail to meet the test. Yet the statutory and regulatory scheme, even if not creating a *per se* rule *against* tax exemption, is clearly antagonistic to the concept of a *per se* rule *for* exemption for advertising revenue. Moreover, the statute provides that a tax will be imposed on "any trade or business the *conduct* of which is not substantially related," 26 U.S.C. §513(a), directing our focus to the manner in which the tax-exempt organization operates its business. The implication of the statute is confirmed by the regulations, which emphasize the "manner" of designing and selecting the advertisements. See Treas. Reg. §1.513-1(d)(4)(iv), Example 7, 26 CFR §1.513-1(d)(4)(iv), Example 7 (1985). Thus, the Claims Court properly directed its attention to the College's conduct of its advertising business, and it found the following pertinent facts:

> "The evidence is clear that plaintiff did not use the advertising to provide its readers a comprehensive or systematic presentation of any aspect of the goods or services publicized. Those companies willing to pay for advertising space got it; others did not. Moreover, some of the advertising was for established drugs or devices and was repeated from one month to another, undermining the suggestion that the advertising was principally designed to alert readers of recent developments [citing, as examples, ads for Valium, Insulin and Maalox]. Some ads even concerned matters that had no conceivable relationship to the College's tax-exempt purposes." 3 Cl. Ct., at 534 (footnotes omitted).

These facts find adequate support in the record. See, *e.g.,* App. 29a-30a, 59a. Considering them in light of the applicable legal standard, we are bound to conclude that the advertising in Annals does not contribute importantly to the journal's educational purposes. This is not to say that the College could not control its publication of advertisements in such a way as to reflect an intention to contribute importantly to its educational functions. By coordinating the content of the advertisements with the editorial content of the issue, or by publishing only advertisements reflecting new developments in the pharmaceutical market, for example, perhaps the College could satisfy the stringent standards erected by Congress and the Treasury. In this case, however, we have concluded that the Court of Appeals erroneously focused exclusively upon the information that is invariably conveyed by commercial advertising, and consequently failed to give effect to the governing statute and regulations. Its judgment, accordingly, is

---

[4] Indeed, different excerpts suggest that perhaps the House Committee did not construe the statute as creating a *per se* rule. It its explanation of §513(c), the House Report states that "the advertising contained in a publication of an exempt organization *may* be subject to the tax under section 511 even though the editorial content of the publication may be related to the exempt purposes of the organization." H. R. Rep. No. 91-413, pt. 2, 28 p. 26 (1969) (emphasis added).

[5] This conclusion is consistent with the Treasury's own approach to analogous problems. See, *e.g.,* Rev. Rul. 82-139, 1982-2 Cum. Bull. 108 (advertisements in county bar journal; no *per se* rule); Rev. Rul. 72-431, 1972-2 Cum. Bull. 281 (exempt organization's sale of mailing lists to commercial advertisers; no *per se* rule). Our rejection of the *per se* rule renders it unnecessary for us to address respondent's alternative argument that any such rule should apply only to associations organized under §501(c)(6) of the Internal Revenue Code.

Reversed.

Section 911.—Citizens or Residents of the United States Living Abroad

26 CFR 1.911–1: Partial exclusion for earned income from sources within a foreign country and foreign housing costs.

Foreign residency requirements waived for individuals residing in certain countries during specified time periods. See Rev. Proc. 86–39, page 11.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 280G, 467, 468, 483, 7872.)

Rev. Rul. 86–128

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of November 1986 are as follows:

	Period for Compounding			
	Annual	Semiannual	Quarterly	Monthly
Short-Term				
AFR	6.16%	6.07%	6.02%	5.99%
110% AFR	6.79%	6.68%	6.63%	6.59%
120% AFR	7.41%	7.28%	7.21%	7.17%
Mid-Term				
AFR	7.23%	7.10%	7.04%	7.00%
110% AFR	7.96%	7.81%	7.74%	7.69%
120% AFR	8.70%	8.52%	8.43%	8.37%
Long-Term				
AFR	7.71%	7.57%	7.50%	7.45%
110% AFR	8.50%	8.33%	8.25%	8.19%
120% AFR	9.29%	9.08%	8.98%	8.91%

Section 1441.—Withholding of Tax on Nonresident Aliens

26 CFR 1.1441–1: Requirement for withholding of tax on nonresident aliens, foreign partnerships, and foreign corporations.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1442.—Withholding of Tax on Foreign Corporations

26 CFR 1.1442–1: Withholding of tax on foreign corporations.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1443.—Foreign Tax-Exempt Organizations

26 CFR 1.1443–1: Foreign tax-exempt organizations.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1461.—Liability for Withheld Tax

26 CFR 1.1461–2: Return of tax withheld.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1462.—Withheld Tax as Credit to Recipient of Income

26 CFR 1.1462–1: Withheld tax as credit to recipient of income.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1463.—Tax Paid by Recipient of Income

26 CFR 1.1463–1: Tax paid by recipient on income.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 1464.—Refunds and Credits with Respect to Withheld Tax

26 CFR 1.1464–1: Refunds or credits.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Section 6011.—General Requirement of Return, Statement or List

26 CFR 1.6011–1: General requirement of return, statement or list.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 86–40, page 11.

Federal short-term, mid-term, and long-term rates are set forth for the month of November 1986. See Rev. Rul. 86–128, this page.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.
(Also Part I Section 911; 1.911–1.)

Rev. Proc. 86–39

SECTION 1. PURPOSE

.01 This revenue procedure provides information to individuals who fail to meet the foreign residency requirements of section 911(d)(1) of the Internal Revenue Code for eligibility for the exclusion from gross income under section 911(a) of the foreign earned income and housing cost amounts because adverse conditions in a foreign country precluded the individual from meeting the foreign residency requirements of section 911(d)(1).

.02 Rev. Proc. 81–23, 1981–1 C.B. 693, lists countries in which the foreign residency requirements of section 911(d)(1) of the Code are waived under section 911(d)(4) because of adverse conditions present in those countries during the time periods indicated. This revenue procedure updates that list by relisting countries where the periods of adverse conditions are still in effect, by adding countries where periods of adverse conditions occurred after the publication of the list, and by removing countries where the period of adverse conditions ended prior to the publication of Rev. Proc. 81–23.

SEC. 2. BACKGROUND

.01 Section 911(a) of the Code allows foreign earned income and housing cost amounts to be excluded from the gross income of a "qualified individual" as defined in section 911(d)(1).

.02 Section 911(d)(1) of the Code defines the term "qualified individual" to mean an individual whose tax home is in a foreign country and who is (A) a citizen of the United States and establishes to the satisfaction of the Secretary that the individual has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, or (B) a citizen or resident of the United States and who, during any period of 12 consecutive months, is present in a foreign country or countries during at least 330 full days in such period.

.03 Section 911(d)(4) of the Code provides an exception to the residency requirements of section 911(d)(1). An individual who for any period is a bona fide resident of, or is present in, a foreign country, and who leaves that foreign country after August 31, 1978, will be treated as a qualified individual with respect to the period such individual was a bona fide resident of, or was present in, the foreign country if during such period the Secretary, after consultation with the Secretary of State, determines that individuals were required to leave the foreign country because of war, civil unrest, or similar adverse conditions in that foreign country which precluded the normal conduct of business by such individuals. An individual must establish that but for those conditions he or she could reasonably have been expected to meet the residency requirements.

.04 The following list of countries and time periods qualify for the exception to the residency requirements of section 911(d)(1) of the Code. An individual who left one of the following countries during the specified period shall be treated as a qualified individual, for purposes of section 911, with respect to the period during which that individual was a bona fide resident of, or present in, that foreign country, if such individual establishes that he or she could reasonably have been expected to meet the requirements of section 911(d) but for those conditions.

Country	*On or After*	*On or before*
Afghanistan	April 23, 1979	(still in effect)
Argentina	April 4, 1982	July 3, 1982
Bolivia	May 3, 1980	July 17, 1980
Chad	November 19, 1978	August 19, 1983
Colombia	November 13, 1984	(still in effect)
El Salvador	September 24, 1979	(still in effect)
Grenada	October 19, 1983	December 31, 1983

SEC. 3. INQUIRIES

If a taxpayer needs assistance on how to claim this exclusion, or on how to file an amended return, if applicable, the taxpayer should contact his or her local IRS Office or, for a taxpayer residing or traveling outside the United States, the nearest overseas IRS office.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 81–23 is updated.

---

26 CFR 601.602: Tax forms and instructions.
(Also Part I, Sections 1441, 1442, 1443, 1461, 1462, 1463, 1464, 6011; 1.1441–1, 1.1442–1, 1.1443–1, 1.1461–2, 1.1462–1, 1.1463–1, 1.1464–1, 1.6011–1.)

Rev. Proc. 86–40

PART A—GENERAL

SECTION 1. PURPOSE AND NATURE OF CHANGES

The purpose of this Revenue Procedure is to update and supersede Rev. Proc. 85–53, 1985–2 C.B. 721, that sets forth the requirements and conditions under which withholding agents, as defined in Section 2.01 below, may file Form 1042S, Foreign Person's U.S. Source Income Subject to Withholding, on magnetic tape.

For Tax Year 1986 the following changes have been included in this revenue procedure:

.01 Part A, Section 2 has been revised to address requirements to report on magnetic tape when 500 or more forms are to be filed, and address requests for waiver of the magnetic tape filing requirement as a result of undue hardship.

.02 Part A, Section 3.05 has been inserted to address consolidation of withholding agent data.

.03 Part A, Section 5.03 has been inserted to address procedures for correcting magnetic tape files.

.04 Part A, Section 7, a new paragraph .06 has been inserted to clarify situations under which more than one record for a recipient is to be submitted.

.05 Part A, Section 8 has been deleted since the information has now been incorporated into the revised Part A, Section 2.

.06 Part B, Section 4, State Code Table. State Code "TT" has been added for the Mariana Islands. This new code value will apply to all state code references: Part B, Section 4, element 8 of the Transmitter "T" record; Part B, Section 5, element 6 of the Recipient "Q" record; Part B, Section 5, element 19 of the Recipient "Q" record; Part B, Section 6, element 7 of the Withholding Agent "W" record.

.07 Part B, Section 5, Country Code (element 11 of the Recipient "Q" record). One new country code has been added:

Country	*Country Code*
Aruba	AA

For Aruba, the Netherlands Antilles tax treaty rates will apply.

.08 Part B, Section 5, Income Code (element 21 of the Recipient "Q" record). Income Code 20 ("Other Income") has been reassigned a new code number of "50" and a new income category has been added as Income Code 20:

Income Code	*Meaning*
20	Earnings as an Artist or Athlete
50	Other Income (non-personal service compensations)

Note that if Compensations covered under Income Codes 16–19 are directly attributable to the recipient's occupation as an artist or athlete, Income Code 20 should be used.

The Meaning of Income Code "14" has been expanded to read "Pensions, annuities, alimony, and/or insurance premiums".

.09 Part B, Section 5, Recipient Type (element 22 of the Recipient "Q" record). A new recipient type code has been added and two other codes have been reassigned new numbers. "Other" recipient type has changed its code value from "09" to "19". "Unknown" recipient type has its code value changed from "10" to "20". Recipient Type "09" represents an "Artist or Athlete". Note that wherever appropriate, recipient type "09" should be used instead of recipient type "01" (Individual), '02' (Corporation), or "03" (Partnership).

.10 Part B, Section 5, Tax Rate (element 26 of the Recipient "Q" record). Tax Rate "08" has been added as a valid rate.

The tax treaty rates have changed on certain types of income for Canada, United Kingdom, and Italy.

Additionally, Barbados and Cyprus now are tax treaty countries.

.11 Effective January 1, 1987, the National Computer Center (NCC) will assume the responsibility for processing Forms 1042S on magnetic tape. Forms 1042S on MAGNETIC TAPE should no longer be sent to Philadelphia Service Center. Forms 1042 and any PAPER document Forms 1042S should continue to be filed at the Philadelphia Service Center.

SEC. 2. APPLICATION FOR TAPE REPORTING AND REQUESTS FOR UNDUE HARDSHIP WAIVERS

.01 A withholding agent is defined as any person or entity, U.S. or foreign, required to withhold U.S. tax on payments of income subject to withholding from sources within the United States as provided for in Chapter 3 of the Internal Revenue Code. A withholding agent may be an individual, partnership, corporation, trust, estate, government agency (Federal, State or local), association, or a tax-exempt foundation or organization.

.02 Withholding agents must use magnetic tape to file 500 or more Forms 1042S with the Internal Revenue Service (IRS) for calendar years beginning before January 1, 1987 (Tax Year 1986); 250 or more Forms 1042S for calendar year beginning on or after January 1, 1987 (Tax Year 1987 and subsequent years).

.03 Withholding agents or their agents are required to complete Form 4419, Application for Magnetic Media Reporting of Information Returns. Applications should be filed with the National Computer Center (NCC) 90 days before the due date of the return. The NCC will act on an application and notify the applicant in writing within 30 days of receipt of the application. Magnetic tape returns may not be filed with IRS until the application has been approved.

.04 Generally withholding agents using equipment compatible with IRS's equipment can presume that their application will be approved. Compatible tape characteristics are shown in PART "B", Section 1.01. Where the capability to prepare several types of tapes exists, IRS prefers that compatible tapes be prepared.

.05 If withholding agents propose to submit convertible tapes, IRS will attempt to find conversion facilities. Generally, an application to file on magnetic tape will be disapproved only when IRS is unable to obtain facilities to convert a withholding agent's file to a compatible form.

.06 IRS will assist new filers with their initial magnetic tape submission by reviewing "test" files submitted in advance of the filing season. Approved withholding agents or their agents should submit "test" files to the Magnetic Media Specialist at the National Computer Center. As a guideline, IRS prefers that all Form 1042S "test" files be submitted between January 1 and February 15. Clearly mark the tape as "TEST DATA", and include identification information such as name, address, and telephone number of someone familiar with the "test" tape who may be contacted to discuss its acceptability.

.07 Withholding agents required to file Forms 1042S on magnetic tape may receive a waiver from such requirements in appropriate circumstances upon showing a hardship. Requests for a waiver generally must be filed at least 90 days before the filing of the first return for which the waiver is requested. Withholding agents may not apply for a waiver for more than one year at a time. The waiver request must be a written statement containing the following identifying information:

(a) The withholding agent's name;

(b) The withholding agent's address;

(c) The withholding agent's Employer Identification Number (EIN);

(d) The date to which the waiver is requested;

(e) The name and telephone number of a person to contact regarding the information contained in the waiver;

(f) A statement regarding the cost which is causing the undue hardship condition; and

(g) A statement explaining any other reasonable attempts the withholding agent has made to comply with this magnetic media filing requirement.

Magnetic tape is the only permissible magnetic media for filing Forms 1042S and shall be filed in accordance with the applicable revenue procedures. Diskette and cassette reporting of Forms 1042S can not be accepted at this time. Withholding agents should also be aware of current revenue procedures relating to magnetic tape, diskette, and cassette reporting for wage and other information documents. Copies of these other revenue procedures, as well as all requests for filing Forms 1042S on magnetic tape (Form 4419), applicable revenue procedures, waiver requests (pertaining to magnetic media filing only), and any other questions you may have regarding Forms 1042S should be directed to:

Magnetic Media Reporting
Internal Revenue Service
National Computer Center
P.O. Box 1359
Martinsburg, West Virginia
25401–1359

The National Computer Center may also be contacted by telephone at (304)263–8700. The hours of operation for telephone contact are between 8:30 a.m. and 8:00 p.m., Eastern time.

The address for filing Forms 1042 or for filing any PAPER document Forms 1042S will be:

Internal Revenue Service
Philadelphia Service Center
Philadelphia, Pennsylvania 19255

SEC. 3. FILING OF TAPE REPORTS

.01 Packaging, shipping, and mailing instructions will be provided in the authorizing letter issued by IRS in response to an application for tape reporting.

.02 Withholding agents submitting a portion of their statements on magnetic tape and the remainder on paper forms, should file magnetic tape records at the National Computer Center and paper documents at the Philadelphia Service Center, in separate shipments (see Part A, Section 2.07, for addresses).

.03 The withholding agent's Form 1042 tax return is used to verify the number of Forms 1042S filed on paper and/or magnetic tape. For transmitters of Service Bureaus filing Form 1042S information on tape for several withholding agents, separate Forms 1042 must be filed by each withholding agent included in the transmittal. Since the required Form 1042 is a tax return (with or without a remittance attached), it must be filed separately from the shipment of magnetic tape. Any additional paper documents required to be submitted should accompany Form 1042. (See instructions for Form 1042, Annual Withholding Tax Return for U.S. Source Income of Foreign Persons.)

.04 Magnetic tape reporting to IRS for Forms 1042S must be on a calendar year basis. The dates prescribed for filing paper documents with IRS will also apply to magnetic tape filing. Files must be submitted to the National Computer Center by March 15. Copies of the Form 1042S information must be furnished to the income recipient by January 31. Requests for extensions of time for filing on magnetic media and related matters should be made to the National Computer Center (requests for extension of time for filing Forms 1042 and/or Forms 1042S on paper should be made to the Director, Philadelphia Service Center). If an extension has been granted by IRS, a copy of the letter granting the extension must be attached to the transmittal Form 4804 when the file is submitted.

.05 Forms 1042S (Recipient "Q" records) from different branches of the withholding agent's business activity should be consolidated under one withholding agent's "W" record, especially when one common name and Employer Identification Number (EIN) would be used for each of the branches. For example, Bank X has branch offices in two different states. It would be acceptable for Branch Y of Bank X to report Recipient "Q" records and associated "W" record as "Bank X, Branch Y" when Branch Y has its own EIN, and for Branch Z of Bank X to report separately its Recipient "Q" records and associated "W" record as "Bank X, Branch Z" using its own EIN. Branches should not report separately when those branches are using a common EIN (and name). Branches filing separately should not use a common address (for example the address of the parent bank) when that common address is not normally used for filing other types of returns with IRS. It is assumed that for each "W" record (which represents a unique withholding agent), there will be a corresponding Form 1042 submitted which will reflect the accumulation of the associated Recipient "Q" records.

.06 Enclose a transmittal in duplicate, in the first box of the tape shipment, with the following information:

(a) The complete name, address, and EIN of the transmitter of the tape file.

(b) Name, address, title, and telephone number of the person to contact regarding any tape file problem.

(c) The complete name and address to be used in returning the tape file.

(d) The manufacturer and model of the main frame and tape drives, the tape width, the density in characters per inch, and the recording code (BCD, Excess 3, Octal, etc.).

(e) The type of document being reported—i.e. Form 1042S.

(f) Total number of tape reels in the file.

.07 Standard mail shipments should be addressed to:

Magnetic Media Reporting
Internal Revenue Service
National Computer Center
P.O. Box 1359
Martinsburg, West Virginia
25401–1359

Shipments by land carriers (UPS, for example) should be addressed to:

Magnetic Media Reporting
Internal Revenue Service
Route 9
Needy Road
Martinsburg, West Virginia 25401

Note on the address side of the shipment:

"EXPEDITE FORM 1042S STATEMENTS ON MAGNETIC TAPE, DELIVER UNOPENED TO TAPE LIBRARY."

.08 The magnetic tape specifications contained in PART "B" of this revenue procedure must be strictly adhered to. Deviations will not be permitted under any circumstances. All magnetic tape filings will be scanned for completeness of required fields, mathematical verification, and proper format. Tapes failing to meet specifications will not be processed, but will be returned to the transmitter for correction (See also Part A, Section 5.03, below). Corrected files must be filed with the National Computer Center within 15 days from receipt of the returned file.

SEC. 4. PROCESSING OF TAPE STATEMENTS

.01 Normally, tapes will be returned to the transmitters by September 15 of the year in which submitted. However, if the tapes submitted are unprocessable, and must be returned for correction prior to processing, they will be returned within six months of the receipt of acceptable tapes. We suggest that the withholding agent retain the original tape until the expiration of the statute of limitations for assessment.

.02 IRS will prepare the appropriate statements for transmittal to treaty countries.

SEC. 5. CORRECTED STATEMENTS

.01 The appropriate paper forms will normally be used if it is necessary to correct Recipient "Q" records in the magnetic tape files. Since corrected statements supersede information previously supplied, all required data fields must be completed. Annotate each form "Corrected" at the top. Corrected documents should be bundled separately from other paper documents. When corrected documents are shipped separately, an amended Form 1042 must be filed, also suitably annotated.

.02 If the withholding agent discovers that a large volume of records submitted have to be corrected, the NCC magnetic tape coordinator should be contacted. He/She should ask that the original tape be returned so that the corrections can be made to it. If the NCC has already processed the tape, paper documents must be prepared for the ones needing corrections.

.03 When magnetic tape files are returned to the transmitter for data correction, a listing of the type of errors and frequency of such errors will be provided. The transmitter should correct the problems and submit a replacement tape file to the magnetic tape coordinator. Certain problems noted may not require any corrective action. For example, certain recipient "Q" records should have had their tax withheld at a particular tax rate, but the withholding agent, for whatever reason, withheld at a different tax rate. The transmitter (in conjunction with the withholding agent if necessary) should first verify that the tax rates in question are in fact the rates at which tax was withheld. Once verified, a letter should accompany the tape file stipulating that the tax rates are accurate as submitted.

SEC. 6. EFFECT ON PAPER DOCUMENTS

.01 Magnetic tape reporting to IRS eliminates the need for submission of paper Forms 1042S. However, withholding agents must continue to provide recipients with requisite information, although this need not be on a copy of Form 1042S.

.02 If only a portion of the statements are reported on magnetic tape and the remainder are reported on paper forms, those paper statements must be filed on the prescribed forms.

SEC. 7. DATA ENTRIES

.01 Since taxpayer identifying numbers are not required on all Forms 1042S (see specific Instructions for Withholding Agents, Copy C of the official Form 1042S), the specifications in PART "B" of this revenue procedure permit omission of such identifying numbers. Although identifying numbers are not always required for nonresident alien income recipients, IRS appreciates their being furnished when available.

.02 Recipient surnames are used to computer-generate Sort Names. Use an asterisk to indicate the beginning of the surname for this purpose. If the surname is the first name on the line, as may be the case for nationals of Asian countries, the asterisk is to be omitted. In the case of a partnership or joint ownership, or some other case where more than one individual is listed, asterisk only the first surname. A blank will always precede the asterisk when it is used, but no asterisk may be followed by a blank. Do not use an asterisk with corporate or any other business entity or governmental organization name, except partnerships or sole proprietorships. Never have more than one blank separating portions of a name line or an address field.

.03 In case of multiple recipients, the name of the person whose identifying number has been provided should be placed before all other names.

.04 Sometimes the recipient identification recorded on the withholding agent's records is lengthy, and exceeds the 105 characters allotted in the Recipient Name Line and Supplemental Name Lines on the magnetic tape records. This is most common in the case of trusts or other types of fiduciary accounts. The first 105 characters of the recipient identification normally provide sufficient descriptive data for IRS's purposes. IRS encourages all agents to truncate or abbreviate lengthy recipient descriptions.

.05 All monetary amount fields must show dollars and cents (omit the decimal point). For example, $135.72 must be shown as 13572, and $100 must be shown as 10000. All money amount fields are positive and must not be signed in any fashion. All money amounts must be right-justified and zero filled. Do not truncate any money amount fields. If the amount is more than the allowed space, prepare a second "Q" record to show the difference.

.06 There are several circumstances where more than one "Q" record is expected for a recipient. These situations include:

1) Different sources of income. For example, Recipient X derived income from Capital Gains (Income Code 09) and Industrial Royalties (Income Code 10). One "Q" record must be provided listing Income Code "09", and the Gross Income Paid and Tax Withheld pertaining solely to that type of income. A separate "Q" record must document the Income Code "10" information.

2) Change in Country Code during the year. for example, on July 1, the withholding agent received notification via Form 1001 that the recipient changed his official country for which tax treaty benefits apply from country X to country Y. One "Q" record must be provided reflecting Gross Income Paid, Tax Rate, and Tax Withheld for country X (reflecting income and withholding from January 1 through June 30). A second "Q" record must be provided reflecting Income, Tax Rate, and Tax Withheld for country Y (covering income and withholding from July 1 through December 31).

3) Change in a country's tax treaty rate during the year. For example, effective April 1, country X changed its tax treaty rate for a particular type of income from 10% to 20%. One "Q" record must be provided reflecting Gross Income Paid and Tax Withheld at the 10% rate (covering January 1 through March 31). A second "Q" record must also be provided reflecting Gross Income Paid and Tax Withheld at the 20% rate (covering April 1 through December 31).

Note that these three situations are NOT mutually exclusive. Therefore, if a recipient has two sources of income, each of which is derived from a country whose corresponding tax treaty rates changed during the year, and the recipient submitted a Form 1001 to the Withholding Agent changing his country code for tax purposes, as many as six (6) separate "Q" records must be provided.

Part "B"—Magnetic Tape Specifications

SECTION 1. GENERAL

.01 These specifications prescribe the required format and content of the records to be included in the file, but not the methods or equipment to be used in their preparation. Usually, IRS will be able to process, without translation, any compatible tape file. To be compatible, a tape file must meet all of the following:

Type of Tape—1/2 inch Mylar base, oxide coated

Interrecord Gap—.75 inch for 556 or 800 bpi density 7-track,
.6 inch for 800 bpi density 9-track,
.6 inch for 1600 bpi density,
.3 inch for 6250 bpi density 9-track

(a) When the Recording Mode is EBCDIC (Extended Binary Coded Decimal Interchange Code):

(1) Parity—Odd Parity

(2) Recording Density—800, 1600, or 6250 Densities

(3) 9 Channel

(b) When the Recording Mode is ASCII (American Standard Coded Information Interchange):

(1) Parity—Odd Parity

(2) Recording Density—800, 1600, or 6250 Densities

(3) 9 Channel

(c) When the Recording Mode is BCD (Binary Coded Decimal):

(1) Parity—Odd or Even Parity

(2) Recording Density—556 or 800 Densities

(3) 7 Channel or 9 Channel

.02 An acceptable tape file for each withholding agent will contain data records as follows:

(a) Single reel:

(1) a Transmitter "T" record; then

(2) one or more Recipient "Q" records followed by a specific Withholding Agent "W" record; then

(3) additional "Q" and "W" record sequences for other withholding agents as needed; then

(4) an End of Transmission "Y" record.

(b) Multiple Reels:

(1) a Transmitter "T" record at the beginning of each reel; then

(2) sequences of Recipient "Q" records followed with corresponding Withholding Agent "W" records; then

(3) an End of Reel "Z" record on every reel except that last; and

(4) an End of Transmission "Y" record ending the last reel.

(c) Notes:

(1) a sequence of Recipient "Q" records may be continued from one reel to the next if they apply to the same withholding agent, without the necessity of repeating the "W" record. The sequence might be, for example, QQQQZ (end of one reel); TQQQQW (beginning of next reel).

(2) the End of Reel "Z" record is identical to the Withholding Agent "W" record, except that it indicates the end of the reel, but not necessarily the end of a withholding agent's "Q" records. For example, when end of reel will be reached before the end of an agent's "Q" records, the "Z" record will be used in lieu of a "W" record. The next tape reel will begin with a "T" record, followed by the remaining "Q" records for the withholding agent.

.03 Affix an external label to each tape with the following information:

(1) Name of Transmitter.

(2) Number of "Q" records on that reel.

(3) Density (556, 800, 1600 CPI, etc.).

(4) Channel (7 or 9).

(5) Recording Mode (EBCDIC, ASCII, etc.).

(6) Parity (odd or even).

(7) Manufacturer and model of mainframe and tape drives

(8) Sequence number of reel, and total reels in the file (i.e. 1 of 3, 2 of 4, etc.).

.04 All records, including Header and Trailer Labels (if used) must be transmitted at the same density.

SEC. 2. CONVENTIONS AND DEFINITIONS

.01 Header Labels, Trailer Labels, Record Marks and Tape Marks are all optional. They may be used as required by the transmitter's equipment or programming. If used, they must conform to the following standards:

(a) Header Labels must begin VOL1, VOL2, HDR1, HDR2, or 1HDR. If used, they must be first record(s) on the reel immediately before the Transmitter "T" record. Header labels may not exceed 80 characters in length.

(b) Trailer Labels must begin 1EOR, 1EOF, EOF1, or EOR1. If used, they must be the last record(s) on the reel, after the "Z" or "Y" record and Tape Mark (if a Tape Mark is used). Trailer Labels may not exceed 80 characters in length.

(c) Record Marks, if used, may only follow the data portion of a record or block. All records are of uniform length, and record marks are not needed.

(d) Tape Marks, if used, must be IBM 001111 (Octal 17) in even parity. They always appear immediately after the "Z" or "Y" record. If Header and Trailer Labels are also used, the tape mark must follow the Header Label and must precede and/or follow the Trailer Label(s).

.02 Definitions:

Element	Description
b	Denotes a blank position. For compatibility with IRS equipment, if using BCD recording mode, use BCD bit configuration 010000 ("A" bit only) in even parity, 001101 ("841" bits) in odd parity.
Special Character	Any character that is not a numeral, a letter, or a blank.
Withholding Agent	Person or organization responsible for paying income and withholding taxes. The withholding agent is responsible for the completeness, accuracy, and timely submission of magnetic tape files.
Payer	Person or organization who is the originator of income and enters into a contractual agreement with the withholding agent for the purpose of disbursing income for the payer. For example, Corporation X is about to declare a dividend. Corporation X contracts Bank Y to calculate and distribute such dividends to recipients, and be responsible for withholding. Corporation X is considered the Payer and Bank Y is considered the Withholding Agent.
Transmitter	Person or organization preparing and filing tape files. May be the withholding agent or his agent.
Recipient	Person(s) or organization(s) receiving payments from a withholding agent.

Element	Description
Record	A group of related fields of information treated as a unit.
Blocked Records	Two or more records grouped together between interrecord gaps.
File	For the purpose of this Procedure, a file consists of all tape records submitted by a transmitter.
Reel	A spool of magnetic tape.
EIN	Employer Identification Number that has been assigned by the Service to the particular entity.
SSN	Social Security Number.

SEC. 3. RECORD LENGTH AND BLOCKING

.01 Tape records prescribed in the specifications may be blocked or unblocked, subject to the following:

(a) All data records are of a fixed length (450 positions).

(b) All records may be blocked, except Header and Trailer Labels.

(c) A block may not exceed 15,000 characters, although shorter blocks may be written as desired. If records are being blocked, but sufficient records are not available to fill a complete block, the block may either be "padded" with 9's to fill all unused positions or truncated after the last data record ("short block"). Do not pad the block with blanks, or create blank records (for example, Q followed by 449 blanks, etc.).

(d) Two forms of blocking are acceptable:

(1) Only "Q" Records are blocked; all other records are unblocked.

(2) All records, except Header and Trailer Labels, if used, are blocked. In this case, a "T" Record may only be the first record in the first block on the reel (first reel only); a "W" Record must follow all associated "Q" Records; and, "Y" or "Z" Records may only be the last record in the last block on the reel (only block padding (all 9's) could follow).

.02 The first position of each record indicates the record type:

Transmitter	T
Recipient	Q
Withholding Agent	W
End of Reel	Z
End of Transmission	Y

.03 The minimum file transmitted must consist of a Transmitter "T" record, a Recipient "Q" Record, a Withholding Agent "W" Record, and an End of Transmission "Y" Record.

SEC. 4. THE TRANSMITTER "T" RECORD

This record identifies the entity who prepares and transmits the magnetic tape file. The Transmitter and one of the withholding agents may be the same, but they need not be. The Transmitter "T" Record must be the first data record on a reel (preceded only by header labels, if any), and must appear on each reel in the file sent by the Transmitter. On multiple reel files the reel number must be incremented by 1 (one) for each tape reel after the first reel. Each "T" Record has a fixed length of 450 positions. The elements of data prescribed for each "T" Record are as follows:

Element	Positions	Title	Description
1	1	Record Type	Enter letter "T"
2	2 & 3	Tax Year	Enter the last two digits of the year for which income and withholding is being reported. All recipient "Q" and transmitter "T" Records on the file for every withholding agent *must* report payments for this year, and this year *only*. Transmit separate Forms 1042 and tape files for different tax years.
3	4 & 5	Reel Number	The two-digit serial number assigned by the Transmitter to this reel, starting with 01. If Header Labels are used, this should be the same as the Reel Sequence Number.
4	6–14	EIN	Enter the Employer Identification Number of the *Transmitter*. Omit hyphen.
5	15–54	Transmitter Name	Enter name of submitter of file; left justify and blank fill. Abbreviate if necessary to fit 40-character limit. Omit punctuation marks except hyphens and ampersands.
6	55–94	Street Address	Enter Street Address, PO Box, or other location of Transmitter. Left justify and blank fill. Abbreviate as needed to fit 40-character limit.
7	95–114	City	Enter City, Town, APO/FPO, etc. of Transmitter. Left justify and blank fill. Abbreviate to fit 20-character limit.
8	115 & 116	State Code	Enter two-letter PO Code as shown in the list below *only*. Do not spell out any state name.

State	Code	State	Code	State	Code
Alabama	AL	Maine	ME	Pennsylvania	PA
Alaska	AK	Maryland	MD	Rhode Island	RI
Arizona	AZ	Massachusetts	MA	South Carolina	SC
Arkansas	AR	Michigan	MI	South Dakota	SD
California	CA	Minnesota	MN	Tennessee	TN
Colorado	CO	Mississippi	MS	Texas	TX
Connecticut	CT	Missouri	MO	Utah	UT
Delaware	DE	Montana	MT	Vermont	VT
District of Columbia	DC	Nebraska	NE	Virginia	VA
Florida	FL	Nevada	NV	Washington	WA
Georgia	GA	New Hampshire	NH	West Virginia	WV
Hawaii	HI	New Jersey	NJ	Wisconsin	WI
Idaho	ID	New Mexico	NM	Wyoming	WY
Illinois	IL	New York	NY	American Samoa	AS
Indiana	IN	North Carolina	NC	Canada	CD
Iowa	IA	North Dakota	ND	Guam	GU
Kansas	KS	Ohio	OH	Mariana Islands	TT
Kentucky	KY	Oklahoma	OK	Puerto Rico	PR
Louisiana	LA	Oregon	OR	Virgin Islands	VI

Notes:

(1) For other Foreign countries use XX

(2) APO & FPO addresses *must* show a city, state, and Zip. Do *not* use "X" for APO & FPO; the four permissible State codes are "NY", "CA", "WA", and "FL".

Element	Positions	Title	Description
9	117–125	ZIP Code	Enter the Zip Code of the Transmitter for all U.S., U.S. Territory or Possession, APO/FPO addresses. For Transmitters using a 5 digit zip code, enter the zip code in the leftmost 5 positions and zero fill the remaining 4 positions. For Transmitters outside the U.S. enter nine zeros only. DO NOT blank fill.
10	126–450	Blanks	Blank fill the rest of the "T" Record.

SEC. 5. RECIPIENT "Q" RECORD

This Record contains complete name and address data for both Withholding Agent and Recipient of Income, together with all the particulars of the income paid and tax withheld. Complete Withholding Agent data is required because each Recipient "Q" Record is treated as if it were a separate Form 1042S, and is processed independently of other records. Since the "Q" Record is restricted to one type of income only, it may be necessary to write more than one "Q" Record for any given individual income recipient, who may have received income of more than one type (see Part A, Section 7.06). All recipient "Q" Records for a particular Withholding Agent must be written before the corresponding Withholding Agent "W" Record, and before "Q" Records for another Withholding Agent may be used (for example, they may be sorted alphabetically by surname, or by country code, or by country of the mailing address, etc.) at the convenience of the Transmitter or Withholding Agent, since the "Q" Records are fully independent. All "Q" Records have a fixed length of 450 positions. All Elements are required unless otherwise stated.

Element	Positions	Title	Description
1	1	Record Type	Enter Q only.
2	2–10	Agent EIN	Enter the 9-digit Employer Identification Number of the Withholding Agent. Omit the hyphen.
3	11–45	Agent Name	Enter the name of the Withholding Agent up to the limit of 35 characters. Abbreviate as needed, omitting punctuation. Left justify and blank fill.
4	46–80	Agent Address	Enter Street address, PO Box, or other location of the Agent to a limit of 35 characters. Abbreviate as needed, omitting punctuation. Left justify and blank fill.
5	81–100	City	Enter the city or town (or other locality name) up to the limit of 20 characters. Left justify and blank fill.

Element	Positions	Title	Description
6	101 & 102	State Code	Enter the two-character alphabetic code in the list in Sec. 4., above. *DO NOT* use CD (Canada), MX (Mexico), or XX (Other foreign country). If the state is not a U.S. state, blank fill this field and use the Country Code field (Element 11) to identify the foreign address. Do not spell out any state name.
7	103–111	Zip Code	Enter 9 numeric characters for all U.S. addresses (including territories, possessions, and APO/FPO). If a 5 digit zip code is used, enter the zip code in the leftmost 5 positions and zero fill the remaining 4 positions. Zero fill for addresses outside the U.S.
8	112	Account Type Code	Enter "1" for U.S. business or organization; Element 9 must have an EIN. Enter "2" for U.S. citizen or resident alien; Element 9 must have SSN. Enter "3" for nonresident alien persons, businesses, or organizations. Element 9 should contain an EIN or SSN if one is available. Enter "4" if "1" or "2" applies, but an SSN or EIN is not available for a legitimate reason; for example, a number has been applied for but not received.
9	113–121	TIN	Enter the recipient's U.S. identification number; if Element 8 has a "1" you must enter an EIN; if Element 8 has a "2" you must enter an SSN; if Element 8 has a "3", enter an EIN or SSN if available—otherwise enter blanks; if Element 8 has a "4" you must enter blanks.
10	122–136	Agent's ID Number	Enter the account number assigned by the Withholding agent for this recipient up to a maximum of 15 positions. This number is used to facilitate identification of the specific record if there is any correspondence. Left justify and blank fill. This Element will be all blank if account numbers are not assigned. This field may contain numeric or alphabetic characters, blanks, or hyphens.
11	137 & 138	Country Code	Enter two alphabetic characters from the list below which represents the official country for which Tax Treaty benefits are based. This may or may not be the same as the country given in Element 20, below. Entry of a true country code is mandatory. "OC" (country unknown or not identified) is to be used with great reluctance. THE TAPE FILE WILL BE RETURNED FOR CORRECTION IF A SUBSTANTIAL NUMBER OF "Q" RECORDS SHOW COUNTRY CODE "OC." WHENEVER COUNTRY CODE "OC" IS USED, THE RATE OF TAX WITHHELD MUST EQUAL 30%.

Element	Positions	Title	Description
12	139–173	1st Name Line	Enter full name of recipient, or if there are more than one, the name of the first recipient only. Use an asterisk to indicate the surname as shown in Part A, Section 7.02 above. Valid characters are alphabetic, numeric, ampersand (&), hyphen (-), slash (/), asterisk (*), or blank. Left justify and blank fill. A name MUST be entered here; if the recipient is a numbered bank account, and the true recipient is not known, the account number must be supplied here. It is NOT acceptable to have two or more consecutive blanks separating parts of a name. For example, "JOHNbbbbb*DOE" is unacceptable, whereas "JOHNb*DOE" is acceptable ("b" represents a blank position). THE TAPE FILE WILL BE RETURNED FOR CORRECTION IF A SUBSTANTIAL NUMBER OF "Q" RECORDS SHOW A BLANK 1st NAME LINE OR AN INVALID 1st NAME LINE.
13	174–208	2nd Name Line	Enter supplementary name information of the recipient on this line. Use this line for additional names (e.g. of partners or joint owners), for trade names, stage names, aliases. Use this line also for "care of", "via", or "through" information. Valid characters are alphabetic, numeric, Blank, ampersand (&), Hyphen (-), Slash (/), Pound Sign (#), and the percent(%). The percent (%) is valid in the first position only (as shorthand for "in care of"). Two or more consecutive, imbedded blanks between name parts is not acceptable. If no additional name data is to be provided, blanks are to be inserted. Left justify and blank fill.
14	209–243	3rd Name Line	Enter further name data if applicable; otherwise blank fill. Specifications are precisely as for the 2nd Name Line. See Street address, below.

NOTE: 105 total characters are available for name information. IRS encourages full identification of nonresident alien persons and organizations because data is furnished to their governments in accordance with tax treaties and exchange of information agreements.

Element	Positions	Title	Description
15	244–278	Street Address	Enter the recipient's full street address. Valid characters are alphabetic, numeric, blank, ampersand (&), Hyphen (-), Slash (/), and Pound Sign (#). Two or more consecutive, imbedded blanks between address parts are not acceptable. If the street, building, military installation or other name is too long for the 35-character allotment of this element, use the 2nd Name Line (or 3rd Name Line if 2nd Name Line already contains name information) as the *1st* Street Address Line, and continue on this line as a 2nd Street Address line. This line may be all blank, but only for legitimate reasons; for example, if the recipient is from a small town or islet or other place where a town or island name is sufficient to enable mail to be received. Left justify and blank fill.
16	279–303	City	Enter the name of City, Town, Village, Municipality or rural place of residence of the recipient. Valid characters are as in street address. Left justify, and blank fill. Two or more consecutive, imbedded blanks between city parts are not acceptabe. For U.S. military installations enter one of the following: APO New York FPO New York APO San Francisco FPO San Francisco APO Seattle FPO Seattle APO Miami FPO Miami The name of the installation or ship may not be entered here, but should be in the Street Address Line.
17	304–318	Province Name	Enter here the name of the Province, Foreign State (but *not* the U.S. State), County, Shire, District, Region, or other political subdivision. For many countries the province (or other political subunit) is an important part of the postal address. For Canada the Province should be given here. A Canadian province must be expressed as a two-character code from the Canadian Province Code List below. No other abbreviations may be used, nor may the Canadian Province name be written out in full. If a Province (or other policital subunit) is not available, blank fill this element. Valid characters are alphabetic, numeric, blank, ampersand (&), Hyphen (-), or Slash (/). Left justify, blank fill. Two or more consecutive, imbedded blanks between province parts are not acceptable.

Canadian Province and Codes

Province	*Province Code*
Alberta	AB
British Columbia	BC
Labrador	LB
Manitoba	MB
New Brunswick	NB
Newfoundland	NF
Nova Scotia (including Sable Island)	NS
Northwest Territories	NT
Ontario	ON
Prince Edward Island	PE
Quebec	PQ
Saskatchewan	SK
Yukon Territories	YK

18	319–327	Postal Code	Enter the Foreign or U.S. Postal Code (Zip Code), if available. Withholding Agents should make an effort to obtain postal codes, especially for the following countries: Belgium, Canada, France, Germany, Italy, Spain, Switzerland, Netherlands, and United Kingdom. For U.S. addresses (including all possessions) a Zip Code must be given. All postal codes should be left justified and blank filled. Alphabetic, numeric, and blank characters only are allowed here. Do not omit any blanks that may appear in the Zip Code.

Element	Positions	Title	Description
19	328 & 329	State Code	For all U.S. addresses enter the correct two-letter code as prescribed for Post Office use. The state code *must* be present of all U.S. addresses, including territories and APO/FPO. Leave blank for non-U.S. addresses. See list in Section 4, above.
20	330–349	Country Name	Enter the unabbreviated name of the recipients country. Omit political titles such as "People's Republic Of", "Kingdom Of", etc. Use the English Language name, as opposed to the native language name. For example, use "Finland" and not "Suomi". Leave this field blank for all U.S. addresses, including territories, and APO/FPO. Left justify and blank fill.
21	350 & 351	Income Code	Enter the two digit income code from the following list. Valid range is 01–23 or 50. If a given recipient receives more than one kind of income, additional "Q" records must be prepared, since only one income code may be shown per "Q" record.

Income Code List

01	Interest paid by U.S. obligators—general
02	Interest on real property mortgages
03	Interest paid to a controlling foreign corporation
04	Interest paid by foreign corporations (U.S. Agent)
05	Interest in tax-free government bond
06	Dividends paid by U.S. corporation general
07	Dividends paid by U.S. subsidiary to foreign parent corporation
08	Dividends paid by foreign corporations
09	Capital gains
10	Industrial royalties
11	Motion Picture or television copyright royalties
12	Other copyright royalties
13	Real Property income and natural resources royalties
14	Pensions, annuities, alimony, and/or insurance premiums
15	Scholarship or fellowship compensations
16	Compensations for independent personal services[1]
17	Compensations for dependent personal services[1]
18	Compensations for teaching[1]
19	Compensations during training[1]
20	Earnings as an Artist or Athlete
21	Social Security benefits
22	Railroad Retirement (Tier 1) benefits
23	Railroad Retirement (Tier 2) benefits
50	Other income (non-personal service compensations)

[1] If this income (codes 16-19) is from earnings as an artist or athlete, use Income Code 20.

Element	Positions	Title	Description
22	352 & 353	Type of Recipient Code	Enter two digit code from the list below. Valid range is 01–09, 19 or 20.

Code	*Type of Recipient*
01	Individual[1]
02	Corporation[1]
03	Partnership[1]
04	Fiduciary
05	Nominee
06	Government or International Organization
07	"Tax Exempt" Organization
08	Private Foundation
09	Artist or Athlete
19	Other
20	Type of Recipient unknown

1 If the income recipient is an artist or athlete, use Recipient Code 09.

Element	Positions	Title	Description
23	354–364	Gross Income Paid	Enter dollars and cents up to 11 characters. Do *not* enter decimal point. Right justify and zero fill. An income amount other than zero must be shown. For whole dollar amounts, the cents *must* be shown by zeros. For example, $1500 should be shown as 00000150000 where the leftmost 5 zeros are "filler" and the rightmost 2 zeros represent cents.
24	365	Exemption Code	Enter the one-digit exemption code from the list below. If the rate of tax shown is 00%, enter the code of 1–4 that applies. If the rate of tax shown is other than 00%, enter a zero in this field. *Code* — *Description* Zero — No exemption claimed, rate of tax is above 00% 1 — Income is effectively connected with a U.S. trade or business (Form 4224 must be attached to Form 1042) 2 — Income is exempt from tax by the Internal Revenue Code 3 — Income is non-U.S. sourced 4 — No withholding per treaty for this type of income
25	366	Correction Indicator	Enter the one position code to identify if this return is the original issuance, an amendment to a previously submitted return, or a total replacement to a previously submitted return. *Code* — *Description* Zero — Original return R — Replacement return A — Amended return
26	367 & 368	Rate of Tax	Enter two-digit tax rate. Do not use percent signs or decimal points. A valid rate must be shown. For fractional rates, drop the fraction (e.g. for 12½ use 12, and for 27½ use 27). Valid tax rates are: 00 02 04 05 08 10 12 14 15 20 25 27 30 Note that when an exemption code of 1–4 is used for element 24, the Rate of Tax *must* be zero.
27	369–379	Amount of Tax Withheld	Enter in dollars and cents the amount of tax withheld, if any. An amount must be shown if the Rate of Tax is greater than 00, or if income is not otherwise exempt from withholding. If the rate of tax is 00, the amount of tax withheld should be zero. Specifications are the same as for Element 23 (Gross Income Paid). Right justify and zero fill.
28	380–414	Payer's Name	Enter the name of the Payer of Income, if different from the Withholding Agent, up to the limit of 35 characters. Abbreviate as needed, omitting punctuation. Left justify and blank fill. If Withholding Agent and Payer are one in the same, blank fill Payer Name. Valid characters are alphabetic, numeric, blank, ampersand (&), and hyphen (-).
29	415–423	Payer's EIN	Enter the 9 digit numeric Payer's Employer Identification Number if element 28, Payer Name, is significant. Blank fill if unknown or Payer Name is blank.
30	424–450	(Reserved)	Blank Fill.

NOTE: All money fields must be mathematically verified by the transmitter before being sent to IRS.

SEC. 6. WITHHOLDING AGENT "W" RECORD

Enter a "W" record after the last "Q" record submitted for a particular Withholding Agent. The "W" record serves as a summary of the preceding "Q" record data, and enables the Service to double-check the correctness of information received. Several "W" records for different withholding agents may appear on the same Transmitter's file. Also, the "W" record may refer to "Q" records on more than one reel, provided all of the preceding "Q" records are for the same withholding agent. A "W" record may only be followed by new Recipient "Q" records for the next Withholding Agent, if any, or by a tape mark and/or trailer label when more reels follow this reel, or by an End of Transmission "Y" record, when this is the last reel of the file. The "W" record cannot be the last record on the file. Each "W" record has a fixed length of 450 positions. All elements of data in the "W" record are required as follows:

Element	Positions	Title	Description
1	1	Record Type	Enter the letter "W"
2	2 & 3	Payment Year	Enter the last two digits of the calendar year for which income and withholding are being reported. All recipient "Q" records must report payments for this year *only*. Different tax years may not appear on the same file.
3	4–12	EIN	Enter the 9 digits of the Employer Identification Number of the *Withholding Agent*. Omit the hyphen.
4	13–47	Agent Name	Enter the name of the Withholding Agent, up to the limit of 35 characters. Abbreviate as needed, omitting punctuation. Left justify and blank fill.
5	48–82	Agent Address	Enter the street address, P.O. Box, or other location of the withholding agent to a limit of 35 characters. Abbreviate as needed, omitting punctuation. Left justify and blank fill.
6	83–102	City	Enter the city, town, or other locality name up to the limit of 20 characters. Left justify and blank fill.
7	103–104	State	Enter the two-character alphabetic code from the list in Section 4 above.
8	105–113	Zip Code	Enter 9 numeric characters for all U.S. addresses (including territories, possessions, and APO/FPO). For 5 digit zip codes, left justify and zero fill. Zero fill for addresses outside the U.S.
9	114–121	"Q" Record Count	Enter the total number of "Q" records for this withholding agent; that is, the total count of "Q" records following the last "W" record, or if this is the first "W" record on the file, the total number of "Q" records since the "T" record. The presence of a "Z" or "T" record does not interrupt the count, which may therefore include consecutive "Q" records on more than one tape reel.
10	122–134	Total Gross Amount Paid	Enter the sum of all gross amounts paid in all "Q" records, counted in Element 9 above. Zero fill and right justify. Do not "round off" this total, since it is used as a "hash total" check on the "Q" records.
11	135–147	Total Tax Withheld	Enter the sum of all tax withheld amounts from all "Q" records counted in Element 9 above. Right justify, zero fill.
12	148–450	Blank fill	Blank fill up to the total of 450 characters.

SEC. 7. END OF REEL "Z" RECORD

End every reel of a file, except the last reel, with an End of Reel "Z" record. If the last record of that reel would otherwise be a "W" record, then do not use the "Z" record, but use the "W" record instead. A "Z" record may only appear as the last data record of a reel. If records are blocked, the "Z" record must be the last data record in the last block on the reel, but padding records (all 9's) may follow to fill the block. The "Z" record is identical in format to the "W" record. The "Z" record may only be preceded immediately by a "Q" record, and may only be followed by Trailer labels, if any, or a tape mark. Elements of the "Z" record differ from the same elements of the "W" record as follows: (1) Element 1 Record Type, will be a "Z" instead of "W"; (2) Element 9, Total Number of "Q" records, will include a count of all "Q" records since the last preceding "W" record or "T" record; (3) Elements 10 and 11 will likewise total corresponding amounts on "Q" records since the preceding "W" or "T" record.

SEC. 8. END OF TRANSMISSION "Y" RECORD

End the last reel on a file with an End of Transmission "Y" record. The "Y" record may only be preceded by a "W" record. It may only be followed by a tape mark or tape mark and a Trailer Label (if Trailer Labels are used), or a Trailer Label. The "Y" record will count the total number of withholding agents in the transmission, and the total number of tape reels in the file. The "Y" record has a fixed length of 450 positions, and all elements listed are required.

Element	Positions	Title	Description
1	1	Record Type	Enter letter "Y"
2	2–4	Withholding Agent Count	Enter the total number of withholding agents on this file. This count will be the same as the total number of "W" records. Right justify and zero fill.
3	5–7	Reel Count	Enter the total number of reels for this transmission. Right justify and zero fill.
4	8–450	Blank fill	Blank fill up to the end of the record.

SEC. 9. EFFECT ON OTHER DOCUMENTS

Revenue Procedure 85–53 is superseded.

Part IV. Items of General Interest

Notice of Proposed Rulemaking
Definition of S Corporation
LR-262-82

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed Income Tax Regulations concerning the definition of the term "S corporation." Changes to the applicable tax law were made by the Subchapter S Revision Act of 1982 [1982-2 C.B. 702] and the Tax Reform Act of 1984 [1984-3 C.B. (Vol. 1)1]. The regulations would provide guidance on the qualifications of an S corporation.

DATES: Written comments and requests for a public hearing must be delivered or mailed by December 8, 1986. The amendments are proposed to be effective for taxable years beginning after December 31, 1982.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-262-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Robert H. Ginsburgh of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T). Telephone: 202-566-3297 (not a toll-free number).

SUPPLEMENTARY INFORMATION: BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 1361 of the Internal Revenue Code of 1954. These amendments are proposed to conform the Income Tax Regulations to sections 2 and 6 of the Subchapter S Revision Act of 1982 (96 Stat. 1669) and to section 721(c) and (f) of the Tax Reform Act of 1984 (98 Stat. 967).

IN GENERAL

The proposed regulations provide that the term "S corporation" means, with respect to any taxable year, a small business corporation for which an election under section 1362(a) is in effect for that taxable year. In addition, the proposed regulations provide that the term "small business corporation" means a domestic corporation that is not an ineligible corporation and that does not have (1) more than 35 shareholders, (2) as a shareholder, a person (other than an estate and certain trusts) who is not an individual, (3) a nonresident alien as a shareholder, or (4) more than one class of stock.

SMALL BUSINESS CORPORATION DEFINED

Ineligible corporation

Under the proposed regulations, an ineligible corporation is a corporation that is (1) a member of an affiliated group (determined under section 1504 without regard to any exception contained in subsection (b) thereof), whether or not that affiliated group has ever filed a consolidated return, (2) a financial institution to which section 585 or 593 applies, whether or not that financial institution uses the reserve for bad debts method provided in section 166(c), (3) an insurance company subject to tax under subchapter L, chapter 1 of the Code, (4) a corporation to which an election under section 936 applies, or (5) a DISC or former DISC. Certain exceptions to these rules are provided in the proposed regulations, such as the exception for a qualified casualty insurance electing small business corporation.

Number of shareholders

Under the Subchapter S Revision Act of 1982, the number of permissible shareholders of a small business corporation has been increased to thirty-five. For purposes of determining whether a corporation has more than thirty-five shareholders, the proposed regulations provide that stock owned by a husband and wife (or by either of or both of their estates) is treated as if owned by one shareholder, regardless of the form in which they own such stock.

Shareholders must be individuals or estates

In general, the proposed regulations provide that a corporation in which any shareholder is a corporation, partnership, or trust, or a corporation in which any shareholder's interest in the stock of the corporation is a legal life estate, usufruct interest, or an interest for a term of years, does not qualify as a small business corporation. However, a corporation having a shareholder who has an interest in the stock of the corporation that is a legal life estate or usufruct interest for life, which interest was created or came into existence before January 1, 1983, will not thereafter fail to qualify as a small business corporation by reason of that interest. Moreover, a corporation having a shareholder who has an interest in the stock of the corporation that is a legal life estate or usufruct interest for life, which interest comes into existence after December 31, 1982 (excluding those interests that were created before January 1, 1983), will not thereafter fail to qualify as a small business corporation by reason of that interest if all of the following requirements are met: (1) That interest is owned by only one individual who is a citizen or resident of the United States, (2) the individual for whom that interest was created has not transferred that interest to any other person, and (3) that interest must terminate upon the death of the individual for whom that interest was created. If any requirement described in the preceding sentence ceases to be met, the corporation will cease to be a small business corporation.

Special rules for certain trusts

A subpart E trust, a voting trust, a certain type of testamentary trust, and a qualified subchapter S trust that is treated as a subpart E trust are permitted to be shareholders of a small business corporation. Under the proposed regulations, a subpart E trust is a trust all of which (income and corpus) is treated (under subpart E, part I, subchapter J, chapter 1 of the Code) as owned by one individual (whether or not the grantor) who is a citizen or resident of the United States. Special rules apply in the case of a husband and wife. The deemed owner of a subpart E trust (and not the trust) is treated as the shareholder for purposes of determining whether the corporation qualifies as a small business corporation. If the trust ceases to be a subpart E trust upon the death of the deemed owner, the estate of the deemed owner (and not the trust) is treated as the shareholder for a certain period provided the trust continues in existence after the death of the deemed owner.

The proposed regulations provide that a voting trust is a trust created primarily to exercise the voting power of stock transferred to it. In order to qualify as a voting trust for purposes of section 1361, such a trust must (1) delegate to one or more trustees the right to vote, (2) require all distributions with respect to the stock of the corporation held by the trust to be paid to, or on behalf of, the beneficial owners of that stock, (3) require title and possession of that stock to be delivered to those beneficial owners upon termination of the trust, and (4) terminate, under it terms or by state law, on or before a specific date or event. For purposes of determining whether the corporation qualifies as a small business corporation, each beneficial owner of the stock held by the trust (and not the trust) is treated as a shareholder.

A qualified subchapter S trust, as defined in the proposed regulations, is a trust that satisfies all of the following requirements: (1) All the income of the trust is distributed (or is required to be distributed) currently to one individual who is a citizen or resident of the United States, and (2) the terms of the trust require that (A) during the life of the current income beneficiary, there shall be only one income beneficiary of the trust, (B) any corpus distributed during the life of the current income beneficiary may be distributed only to that income beneficiary, (C) the current income beneficiary's income interest in the trust shall terminate on the earlier of that income beneficiary's death or the termination of the trust, and (D) upon the termination of the trust during the life of the current income beneficiary, the trust shall distribute all its assets to that income beneficiary. If the current income beneficiary of a qualified subchapter S trust makes the election under section 1361(d)(2), the trust is treated as a subpart E trust. Accordingly, the current income beneficiary of the trust (and not the trust) is treated as the shareholder for purposes of determining whether the corporation qualifies as a small business corporation. If the trust ceases to be treated as a subpart E trust upon the death of that income beneficiary, the estate of that income beneficiary (and not the trust) is treated as the shareholder for a certain period provided the trust continues in existence after the death of that income beneficiary.

QUALIFIED SUBCHAPTER S TRUST ELECTION

In order to be an eligible shareholder of an S corporation, a qualified subchapter S trust must have its beneficiary make the election provided in section 1361(d)(2), which permits a qualified subchapter S trust to be treated as a subpart E trust. The qualified subchapter S trust election must be made separately with respect to each corporation whose stock is held by the trust. Generally, the qualified subchapter S trust election must be filed within the 16-day-and-2-month period beginning on the date on which the stock of the corporation is transferred to the trust or within the 16-day-and-2-month period beginning on the first day of the first taxable year for which the election to be an S corporation is effective, whichever period of time occurs later. However, if stock of the corporation has been transferred to the trust on or before the date on which the corporation makes the election to be an S corporation, and if that election and that transfer are made before the beginning of the first day of the first taxable year for which that election is effective, the qualified subchapter S trust election must be filed within the 16-day-and-2-month period beginning on the date on which the corporation makes the election to be an S corporation. The qualified subchapter S trust election may not be made by a beneficiary of a subpart E trust (as described in section 1361(c)(2)(A)(i) without regard to section 1361(d)). In addition, the qualified subchapter S trust election may not be made by a beneficiary of a trust with respect to a corporation if a person (other than the beneficiary making that election or the spouse of that beneficiary) is treated under subpart E, part I, subchapter J, chapter 1 of the Code as the owner as to any part of that portion of the trust which consists of the stock of that corporation.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be made available for public inspection and copying. A public hearing will be held upon written request of any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on those requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on those requirements to OMB also send copies of those comments to the Service.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that a Regulatory Impact Analysis is not required because this proposed rule is not a major rule under Executive Order 12291.

The Commissioner of Internal Revenue has concluded that these proposed regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations is Robert H. Ginsburgh of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these proposed regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805; * * * §1.1361–1A(i)(3) and (4) also issued under 26 U.S.C. 1361 (d)(2)(B)(iii).

Par. 2. Section 1.1361–1A is added immediately after §1.1361–0A to read as follows:

§1.1361–1A S corporation defined.

(a) *In general*. For purposes of this title, the term "S corporation" means, with respect to any taxable year, a small business corporation (as defined in paragraph (b) of this section) for which an election under section 1362(a) is in effect for that taxable year. In addition, the term "C corporation" means, with respect to any taxable year, a corporation that is not an S corporation for that taxable year.

(b) *Small business corporation defined*. For purposes of subchapter S, chapter 1 of the Code and the regulations thereunder, the term "small business corporation" means a domestic corporation that is not an ineligible corporation (as defined in paragraph (d) of this section) and that does not have—

(1) More than 35 shareholders,

(2) As a shareholder, a person (other than an estate and other than certain trusts described in paragraph (h)(1) of this section) who is not an individual,

(3) A nonresident alien as a shareholder, or

(4) More than one class of stock.

The term "estate," for purposes of this paragraph, includes the estate of an individual in a case under title 11 of the United States Code.

(c) Domestic corporation. For purposes of paragraph (b) of this section, the term "domestic corporation" means a corporation as defined in section 7701(a)(3) created or organized in the United States or under the law of the United States or of any State or Territory.

(d) *Ineligible corporation*—(1) *General rule*. (i) Except as otherwise provided in this paragraph, the term "ineligible corporation" means a corporation that is—

(A) A member of an affiliated group (determined under section 1504 without regard to any exception contained in subsection (b) thereof), whether or not that affiliated group has ever filed a consolidated return,

(B) A financial institution to which section 585 or 593 applies, whether or not that financial institution uses the reserve for bad debts method provided in section 166 (c),

(C) An insurance company (other than a qualified casualty insurance electing small business corporation, as defined in paragraph (d)(1)(ii) of this section) subject to tax under subchapter L, chapter 1 of the Code,

(D) A corporation to which an election under section 936 applies, or

(E) A DISC or former DISC.

(ii) The term "qualified casualty insurance electing small business corporation" means any corporation described in section 831 (a) if—

(A) As of July 12, 1982, the corporation was an electing small business corporation (within the meaning of section 1371(a) and (b), as in effect on July 1, 1982) and was described in section 831(a),

(B) The corporation was formed before April 1, 1982, and proposed (through a written private offering first circulated to investors before April 1, 1982) to elect to be taxed as an electing small business corporation (within the meaning of section 1371(a) and (b), as in effect on July 1, 1982) and to be operated on an established insurance exchange, or

(C) The corporation is approved for membership on an established insurance exchange pursuant to a written agreement entered into before December 31, 1982, and the corporation is described in section 831(a) as of December 31, 1984.

However, this paragraph (d)(1)(ii) shall not apply unless, as of July 12, 1982, the corporation is actively seeking investors or otherwise shows a present intent to enter into the casualty insurance business.

A corporation shall not be treated as a qualified casualty insurance electing small business corporation unless an election made under section 1372(a) (as in effect on July 1, 1982) is in effect for the first taxable year of the corporation beginning after December 31, 1984. The provisions of subchapter S of chapter 1 of the Code as in effect on July 1, 1982, shall apply in the case of a qualified casualty insurance electing small business corporation except as provided in paragraph (d)(1)(iii) of this section.

(iii) The provisions of paragraph (d)(1)(ii) of this section shall cease to apply with respect to any corporation after—

(A) Any termination of the election of the corporation made under section 1372(a) (as in effect on July 1, 1982),

(B) The first date on which more than 50 percent of the stock of the corporation is newly owned stock (within the meaning of section 1378(c)(2) and (3) as in effect for any taxable year beginning after December 31, 1982, applied by substituting "December 31, 1984," for "December 31, 1982," each place it appears therein), or

(C) The corporation ceases to be described in section 831(a).

(2) *Inactive corporation exception*. (i) For purposes of paragraph (d)(1)(i)(A) of this section, a corporation (hereinafter in this subparagraph referred to as the parent corporation) shall not be considered during a period within its taxable year to be a member of an affiliated group solely by reason of the ownership of stock in another corporation (hereinafter in this subparagraph sometimes referred to as the subsidiary corporation) if the subsidiary corporation—

(A) Has not begun business at any time on or before the close of that period, and

(B) Does not have gross income for that period.

(ii) The determination under paragraph (d)(2)(i)(A) of this section of the date on which a subsidiary corporation begins business shall be made by taking into account all the facts and circumstances of the particular case. A corporation has not "begun business," however, merely because it is "in existence." Ordinarily, a corporation begins business when it starts the business operations for which it was organized. Mere organizational activities, such as the obtaining of the corporate charter, are not alone sufficient to show the beginning of business. An example of a corporation that has not begun business is a corporation incorporated for the sole purpose of reserving a corporate name in a State or States in which the parent corporation is not doing business. If the activities of a corporation have advanced to the extent necessary to establish the nature of its business operations, however, the corporation will be deemed to have begun business. For example, a corporation that acquires operating assets necessary for the type of business contemplated may be deemed to have begun business.

(iii) If a subsidiary corporation ceases to meet any of the requirements of paragraph (d)(2)(i) of this section, then the parent corporation's election under section 1362(a) shall terminate effective on and after the earlier of the first day that the subsidiary corporation begins business or the first day, determined under the subsidiary corporation's method of accounting, that the subsidiary corporation realizes gross income.

(iv) The application of this subparagraph may be illustrated by the following example:

Example. Corporation P, which uses the calendar year as its taxable year, in 1983 owns all the stock of Corporation S, which uses the calendar year as its taxable year. For purposes of paragraph (d)(1)(i)(A) of this section, P would not be considered at any time during 1983 to be a member of an affiliated group solely by reason of its ownership of S's stock if S has not begun business before January 1, 1984, and has no gross income for calendar year 1983. Thus, P could qualify as a small business corporation during 1983 if it meets the other requirements provided in section 1361(b). Assuming that P's ownership of S stock remains unchanged, P would cease to be a small business corporation on the day that S either begins business or realizes gross income (determined under S's method of accounting), whichever day occurs earlier.

(3) *Exception for foreign corporation or DISC.* (i) In the case of a corporation which on September 28, 1982, was an electing small business corporation (within the meaning of section 1371(a) and (b), as in effect before enactment of the Subchapter S Revision Act of 1982), and which then owned at least 80 percent of the stock of a foreign corporation, a DISC, or a former DISC (within the meaning of section 1504(b)(3) or (7)), the corporation shall not be treated as an ineligible corporation under paragraph (d)(1)(i)(A) of this section by reason of such ownership.

(ii) The provisions of paragraph (d)(3)(i) of this section shall cease to apply with respect to any S corporation after—

(A) Any termination of the election of the corporation made under section 1362(a),

(B) The first date on which more than 50 percent of the stock of the corporation is newly owned stock (within the meaning of section 1378(c)(2) and (3)), or

(C) The first date after September 28, 1982, on which the corporation ceases to meet such 80 percent ownership requirement.

(e) *Number of shareholders*—(1) *General rule.* A corporation does not qualify as a small business corporation if it has more than 35 shareholders. Ordinarily, the persons who would have to include in gross income dividends distributed with respect to the stock of the corporation are considered to be the shareholders of the corporation. For example, if stock (owned other than by a husband and wife) is owned by tenants in common or joint tenants, each tenant in common or joint tenant is generally considered to be a shareholder of the corporation (For special rules relating to stock owned by husband and wife, see paragraph (e)(2) of this section.). Persons for whom stock of a corporation is held by a nominee, guardian, custodian, or an agent are generally considered to be shareholders of the corporation. But if stock is owned by a partnership, the partnership (and not its partners) is considered to be the shareholder and the corporation does not qualify as a small business corporation.

(2) *Special rules relating to stock owned by husband and wife.* For purposes of paragraph (e)(1) of this section, stock owned by a husband and wife (or by either or both of their estates) shall be treated as if owned by one shareholder, regardless of the form in which they own such stock. However, for purposes of paragraphs (f) and (g) of this section, each spouse (or his or her estate) shall be treated as a shareholder. The treatment described in this subparagraph shall cease upon dissolution of the marriage for any reason other than death.

(f) *Shareholders must be individuals or estates*—(1) *General rule.* Except as otherwise provided in this paragraph (f) and paragraph (h) of this section, a corporation in which any shareholder is a corporation, partnership, or trust, or a corporation in which any shareholder's interest in the stock of the corporation is a legal life estate, usufruct interest, or an interest for a term of years, does not qualify as a small business corporation.

(2) *Special rule for split interests created or coming into existence before January 1, 1983.* A corporation having a shareholder who has an interest in the stock of the corporation that is a legal life estate or usufruct interest for life, which interest was created or came into existence before January 1, 1983, will not thereafter fail to qualify as a small business corporation by reason of that interest. For purposes of this paragraph (f), an interest shall be considered to be created before January 1, 1983, if the interest is created under the terms of a will executed before that date, and if the decedent dies before January 1, 1986, without having republished the will after December 31, 1982, by codicil or otherwise. For special rules relating to certain trusts that are not considered to be shareholders, see paragraph (h) of this section.

(3) *Special rule for split interests coming into existence on or after January 1, 1983.* A corporation having a shareholder who has an interest in the stock of the corporation that is a legal life estate or usufruct interest for life, which interest comes into existence after December 31, 1982 (excluding those interests that were created before January 1, 1983), will not thereafter fail to qualify as a small business corporation by reason of that interest if all of the following requirements are met.

(i) That interest is owned by only one individual who is a citizen or resident of the United States,

(ii) The individual for whom that interest was created has not transferred that interest to any other person, and

(iii) That interest must terminate upon the death of the individual for whom that interest was created.

If any requirement in subdivision (i), (ii), or (iii) of this subparagraph ceases to be met, the provisions of this subparagraph shall cease to apply as of the first date on which that requirement ceases to be met.

(g) *No nonresident alien shareholder.* A corporation having a shareholder who is a nonresident alien does not qualify as a small business corporation.

(h) *Special rules relating to trusts*—(1) *General rule.* For purposes of paragraphs (e)(1), (f)(1), and (g) of this section, the following rules apply to determine who is treated as a shareholder if stock is held by a trust. Except as otherwise provided in this subparagraph, if stock is held by a trust, the trust is considered to be the shareholder. However, the trust is not considered to be the shareholder in the following cases:

(i) In the case where stock is held by a subpart E trust (as defined in paragraph (h)(3)(i) of this section), the deemed owner of the trust (determined under subpart E, part I, subchapter J, chapter 1 of the Code) shall be treated as the shareholder. If the trust ceases to be a subpart E trust upon the death of the deemed owner, the estate of the deemed owner shall be treated as the shareholder of stock held by the trust when the deemed owner dies, provided the trust continues in existence after the death of the deemed owner. The estate ordinarily shall cease to be treated as the shareholder of that stock upon the earlier of the transfer of that stock by the trust or the expiration of the 60-day period beginning on the date on which the deemed owner dies. However, if the entire corpus of the trust is includible in the gross estate of the deemed owner, the estate shall cease to be treated as the shareholder of that stock upon the earlier of the transfer of that stock by the trust or the expiration of the 2-year period beginning on the date on which the deemed owner dies. For the purpose of determining whether the entire trust corpus is includible in the gross estate of the deemed owner, any community property interest in the trust held by the deemed owner's spouse which arises by reason of applicable State law shall be disregarded.

(ii) In the case where stock is held by a voting trust (as defined in paragraph (h)(3)(ii) of this section), each beneficial owner of the stock shall be treated as a shareholder.

(iii) In the case where stock is transferred to a trust (other than a subpart E trust, a voting trust, and a qualified subchapter S trust that is treated as a subpart E trust) pursuant to the terms of a will, the estate of the testator shall be treated as the shareholder of that stock until the earlier of the disposition of that stock by the trust or the expiration of the 60-day period beginning on the date on which that stock is transferred to the trust.

(iv) In the case where stock is held by a qualified subchapter S trust that is treated as a subpart E trust, the income beneficiary who is treated (under section 678(a)) as the owner of the stock because of an election made under section 1361(d)(2) shall be treated as the shareholder. If the trust ceases to be treated as a subpart E trust upon the death of that income beneficiary (*e.g.*, there is no successive income beneficiary nor is another person treated as the deemed owner of the trust as described in paragraph (h)(3)(i) of this section), the estate of that income beneficiary shall be treated as the shareholder of the stock with respect to which the income beneficiary made the election under section 1362(d)(2), provided the trust continues in existence after the death of that income beneficiary. The estate ordinarily shall cease to be treated as the shareholder of that stock upon the earlier of the transfer of that stock by the trust or the expiration of the 60-day period beginning on the date on which the deemed owner dies. However, if the entire corpus of the trust is includible in the gross estate of that income beneficiary, the estate shall cease to be treated as the shareholder of that stock upon the earlier of the transfer of that stock by the trust or the expiration of the 2-year period beginning on the date on which the deemed owner dies. For the purpose of determining whether the entire trust corpus is includible in the gross estate of the deemed owner, any community property interest in the trust held by the deemed owner's spouse which arises by reason of applicable State law shall be disregarded.

(2) *Foreign trusts.* For purposes of paragraph (h)(1) of this section, in any case where stock is held by a foreign trust, the trust is considered to be the shareholder. Thus, for example, if a foreign trust qualifies as a voting trust, any corporation in which the trust holds stock does not meet the qualifications of a small business corporation.

(3) *Certain trusts defined*—(i) *Subpart E trust.* For purposes of this section, a subpart E trust is a trust all of which (income and corpus) is treated (under subpart E, part I, subchapter J, chapter 1 of the Code) as owned by one individual (whether or not the grantor) who is a citizen or resident of the United States. For the purpose of determining whether the entire trust is treated as owned by one individual, a husband and wife who file a joint return, and each of whom is a citizen or resident of the United States, shall be treated as one individual.

(ii) *Voting trust.* A voting trust is a trust created primarily to exercise the voting power of stock transferred to it. In order to qualify as a voting trust for purposes of this section, such a trust must be represented by a written agreement, or written document (such as a will), that—

(A) Delegates to one or more trustees the right to vote,

(B) Requires all distributions with respect to the stock of the corporation held by the trust to be paid to, or on behalf of, the beneficial owners of that stock,

(C) Requires title and possession of that stock to be delivered to those beneficial owners upon termination of the trust, and

(D) Must terminate, under its terms or by state law, on or before a specific date or event.

(i) *Qualified subchapter S trust*—(1) *Definition.* A qualified subchapter S trust is a trust (including a trust that is represented by a will) that satisfies all of the following requirements:

(i) All the income (within the meaning of §1.643(b)–1) of the trust is distributed (or is required to be distributed) currently to one individual who is a citizen or resident of the United States, and

(ii) The terms of the trust meet all the requirements specified in paragraph (i)(2) of this section.

If a qualified subchapter S trust for which an election under section 1361(d)(2) has been made (as described in paragraph (i)(3) of this section) ceases to meet any requirement in paragraph (i)(2) of this section, the provisions of this paragraph (i) shall cease to apply as of the first day on which that requirement ceases to be met. If a qualified subchapter S trust for which an election under section 1362(d)(2) has been made (as described in paragraph (i)(3) of this section) ceases to meet any requirement in paragraph (i)(1)(i) of this section but continues to meet all the requirements in paragraph (i)(2) of this section, the provisions of this paragraph (i) shall cease to apply as of the first day of the first taxable year beginning after the first taxable year for which it ceased to meet any requirement in paragraph (i)(1)(i) of this section. See §§1.651(a)–2(a) and 1.663(b)–1(a) for the rules relating to the determination of whether all income of a trust is distributed (or is required to be distributed currently.

(2) *Terms of a qualified subchapter S trust.* For purposes of paragraph (i)(1)(ii) of this section, the terms of the trust must require that—

(i) During the life of the current income beneficiary, there shall be only one income beneficiary of the trust,

(ii) Any corpus distributed during the life of the current income beneficiary may be distributed only to that income beneficiary,

(iii) The current income beneficiary's income interest in the trust shall terminate on the earlier of that income beneficiary's death or the termination of the trust, and

(iv) Upon termination of the trust during the life of the current income beneficiary, the trust shall distribute all its assets to that income beneficiary.

The determination of whether the terms of a trust meet all the aforementioned requirements depends upon the terms of the trust instrument and the applicable local law. For example, a trust whose governing instrument provides that A is the sole income beneficiary of the trust is considered to have two income beneficiaries if, under the applicable local law, A and B are considered to be the income beneficiaries of the trust. Except as otherwise provided in this subparagraph, if the terms of a trust do not preclude the possibility that any of the aforementioned requirements will not be met, the trust shall not qualify as a qualified subchapter S trust. For example, if the terms of a trust are silent with respect to corpus distributions and distributions of corpus to a person other than the current income beneficiary are permitted under local law, the terms of the trust do not preclude the possibility that corpus will be distributed to a person other than the current income beneficiary. Any transferee of the current income beneficiary's income interest and any person treated as a beneficiary under §1.643(c)–1(a), (b), or (c) shall be treated as a current income beneficiary for purposes of this subparagraph. The fact that the terms of a trust do not preclude the current income beneficiary from transferring his or her interest in the trust or do not preclude a person other than the current income beneficiary named in the trust instrument from being treated as a beneficiary of the trust under §1.643(c)–1(a), (b), or (c) shall not preclude the trust from qualifying as a qualified subchapter S trust.

(3) *Qualified subchapter S trust election.* This paragraph applies to the election provided in section 1361(d)(2) to treat a qualified subchapter S trust (as defined in paragraph (i)(1) and (2) of this section) as a subpart E trust, and thus a qualifying shareholder. This election shall be made separately with respect to each corporation whose stock is held by the trust. The current income beneficiary of the trust or the legal representative of the current income beneficiary (or a natural or an adoptive parent of the current income beneficiary in the case where a legal representative has not been appointed, but only if the current income beneficiary is a minor) shall make this election by signing and filing with the service center with which the corporation files its income tax return a statement that—

(i) Contains the name, address, and taxpayer identification number of the current income beneficiary, the trust, and the corporation,

(ii) Identifies the election as an election made under section 1361(d)(2),

(iii) Specifies the date on which the election is to become effective (not earlier than 15 day and two months before the date on which the election is filed),

(iv) Specifies the date (or dates) on which the stock of the corporation has been transferred to the trust, and

(v) Provides all information necessary to show that the trust meets all the requirements set forth in paragraph (i)(1) and (2) of this section.

In general, the election under section 1361(d)(2) ("the QSST election") must be filed within the 16-day-and-2-month period beginning on the date on which the stock of the corporation is initially transferred to the trust or within the 16-day-and-2-month period beginning on the first day of the first taxable year for which the election under section 1362(a) ("the S election") is effective, whichever period of time occurs later. If stock of the corporation has been transferred to the trust on or before the date on which the corporation makes the S election, and if that election and that transfer are made before the beginning of the first day of the first taxable year for which the S election is effective, the QSST election must be filed within the 16-day-and-2-month period beginning on the date on which the corporation makes the S election. In the case of a trust (other than a qualified subchapter S trust) which ceases to be a subpart E trust (as defined in paragraph (h)(3)(i) of this section), the QSST election must be filed within the 16-day-and-2-month period beginning on the date on which the trust ceases to be a subpart E trust or, if applicable, the date on which the estate of the deemed owner ceases to be treated as a shareholder under paragraph (h)(1)(i) of this section. The QSST election may not be made by a beneficiary of a subpart E trust (as described in paragraph (h)(1)(i) of this section without regard to this paragraph (i)). In addition, the QSST election may not be made by a beneficiary of a trust with respect to a corporation if a person (other than such beneficiary or his or her spouse) is treated under subpart E, Part I, subchapter J, chapter 1 of the Code as the owner as to any part of that portion of the trust which consists of the stock of that corporation. The QSST election does not itself constitute an election as to the status of the corporation; the corporation must make the S election to be treated as an S corporation.

(4) *Coordination with grantor trust rules.* For purposes of subpart E, part I, subchapter J, chapter 1 of the Code, if a valid QSST election is made, the beneficiary shall be treated under section 678(a) as the owner of that portion of the trust which consists of the stock with respect to which such election was made, contrary provisions of section 678 notwithstanding.

(5) *Successive income beneficiary.* If a prior income beneficiary of a qualified subchapter S trust has made an election under section 1361(d)(2), a successive income beneficiary of that trust shall be treated as consenting to the election unless the successive income beneficiary affirmatively refuses to consent to the election. For this purpose, the term "successive income beneficiary" does not include any beneficiary of a separate trust that is newly created upon the death of the income beneficiary of the qualified subchapter S trust. A successive income beneficiary of the trust shall make the affirmative refusal to consent by signing and filing with the service center with which the corporation files its income tax return a statement that—

(i) Contains the name, address, and taxpayer identification number of the successive income beneficiary, the trust, and the corporation,

(ii) Identifies the refusal as an affirmative refusal to consent made under section 1361(d)(2), and

(iii) Sets forth the date on which the successive income beneficiary became the income beneficiary.

The affirmative refusal to consent must be filed within 15 days and 2 months after the date on which the successive income beneficiary became the income beneficiary. The affirmative refusal to consent shall be effective as of the date on which the successive income beneficiary became the income beneficiary.

(6) *Revocation of election under section 1361(d)(2).* An election made under section 1361(d)(2) may be revoked only with the consent of the Commissioner. An application for consent to revoke the election must be signed by the current income beneficiary and shall—

(i) Contain the name, address, and taxpayer identification number of the current income beneficiary, and of the trust and the corporation identified in connection with the election,

(ii) Identify the election being revoked as an election made under section 1361(d)(2), and

(iii) Explain why the current income beneficiary seeks to revoke the election.

The application for consent to revoke the election must be submitted to: Commissioner of the Internal Revenue, Attention: CC:IND, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

(j) *Examples.* The provisions of paragraphs (h) and (i) of this section may be illustrated by the following examples:

Example (1). (i) A, an individual who is a United States citizen, transfers in 1983 to a trust her shares of stock of Corporation M, a calendar year corporation with ten shareholders. Under the terms of the trust, A has the power to revest the entire corpus and the income therefrom in herself and B is the sole beneficiary. Moreover, the trust will continue in existence after A's death. Corporation M makes an election to be an S corporation that is effective for calendar year 1983. The trust qualifies as a subpart E trust described in section 1361(c)(2)(A)(i), and thus, A (and not the trust) is treated as the shareholder for purposes of section 1361(b)(1).

(ii) Assume the same facts as in example (1)(i) except that A dies without having exercised her power, and that upon A's death the trust ceases to be a subpart E trust because no individual is deemed to be the owner of the entire trust (income and corpus). Since the trust ceases to be a subpart E trust upon A's death, A's estate (and not the trust) is treated as the shareholder for purposes of section 1361(b)(1). Under section 2038, the entire corpus of the trust is includible in A's gross estate. Accordingly, A's estate shall cease to be treated as the shareholder of that stock upon the earlier of the transfer of that stock by the trust (other than to A's estate) or the expiration of the 2-year period beginning on the date on which A died.

(iii) Assume the same facts as in example (1)(ii) except that the terms of the trust also provide that, if A does not exercise her power before her death, B will have the power exercisable solely by himself to vest the entire corpus and the income therefrom in himself. Although A has died, the trust continues to qualify as a subpart E trust because, upon A's death, B is deemed to be the owner of the entire trust (income and corpus). Since the trust does not cease to be a subpart E trust upon A's death, B (and not the estate of A) is treated as the shareholder for purposes of section 1361(b)(1).

Example (2). C, the sole shareholder of an S corporation, establishes an irrevocable trust for the benefit of his son, D, and transfers shares of the corporation to the trust. The trust will terminate on the earlier of D's death or after 10 years and 1 day. Upon termination the trust corpus will revert to C and all accumulated but previously undistributed trust income will be distributed to D or his estate. During the term of the trust, D has a noncumulative power to withdraw all ordinary trust income, and all income allocable to trust corpus, earned during each taxable year. Under these facts, the trust does not qualify as a subpart E trust under section 1361 because for purposes of that section the entire trust (corpus and income) is not treated as owned by one individual. Accordingly, the trust is an ineligible shareholder and the corporation ceases to be an S corporation as of the date of the stock transfer.

Example (3). F holds interest in two S corporations, Corporation O and Corporation P. F directly owns his shares of stock in Corporation P. F's shares of stock in Corporation O are held by a subpart E trust with F as the deemed owner. F dies on July 1, 1983. The trust continues in existence after F's death but is no longer a subpart E trust. The entire corpus of the trust is not includible in F's gross estate. On August 1, 1983, F's shares of stock in Corporation P are transferred to the trust pursuant to the terms of F's will. Under section 1361(c)(2)(B)(iii), the last day on which F's estate could be treated as the shareholder of Corporation P would be September 29, 1983 (*i.e.*, the 59th day after the date of transfer). Since the stock of Corporation P was not held by the trust when F died, section 1361(c)(2)(B)(ii) does not apply with respect to that stock. With respect to the shares of stock in Corporation O held by the trust, section 1361(c)(2)(B)(ii) is applicable and the last day on which F's estate could be treated as the shareholder of Corporation P would be August 29, 1983 (*i.e.*, the 59th day after the date of death).

Example (4). (i) Corporation Q, a calendar year corporation with 15 shareholders, makes an election to be an S corporation that is effective for calendar year 1983. On July 1, 1983, G, a shareholder of Corporation Q, transfers his shares of Corporation Q stock to a trust with H as its current income beneficiary. The trust, which uses the calendar year as its taxable year, initially satisfies all the requirements to be a qualified subchapter S trust, even though its terms do not require that all income of the trust be distributed currently. On August 1, 1984, H makes a qualified subchapter S trust election (hereinafter in this paragraph referred to as QSST election) with respect to Corporation Q that becomes effective as of July 1, 1983. Accordingly, as of July 1, 1983, the trust is a qualified subchapter S trust that is treated as a subpart E trust and H is treated as the shareholder for purposes of section 1361(b)(1).

(ii) Assume the same facts as in example (4)(i), and further assume that, for the taxable year ending on December 31, 1983, the trust does not distribute all its income currently. As of January 1, 1984, the trust ceases to be a qualified subchapter S trust and the trust is no longer treated as a subpart E trust. Thus, the trust is considered to be the shareholder as of that date for purposes of section 1361(b)(1), and Corporation Q ceases to be an S corporation as of that date because the trust is an ineligible shareholder.

(iii) Assume the same facts as in example (4)(i) except that H dies on November 1, 1983, and that I and J become income beneficiaries of the trust after H's death. The trust ceases to be a qualified subchapter S trust as of that date because it has more than one current income beneficiary. For the 60-day period beginning on November 1, 1983, H's estate (and not the trust) is considered to be the shareholder for purposes of section 1361(b)(1) because the trust ceases to be treated as a subpart E trust upon H's death. See section 1361(c)(2)(A)(ii).

Example (5). On January 1, 1983, stock of Corporation R, a calendar year S corporation, is transferred to a trust that satisfies all the requirements to be a qualified subchapter S trust. The terms of the trust do not preclude the current income beneficiary, K, from assigning his income interest in the trust. K files in January 1983 a QSST election that is effective as of January 1, 1983. On July 1, 1983, K assigns his income interest in the trust to a person not named in the trust instrument. The assignee is treated as a current income beneficiary for purposes of determining whether the trust still qualifies as a qualified subchapter S trust. Because the assignee's income interest will terminate on K's death (rather than the assignee's), the trust does not meet the requirement set forth in section 1361(d)(3)(A)(iii). Accordingly, the trust ceases as of the date of the assignment to be a qualified subchapter S trust, and Corporation R ceases to be an S corporation as of the same date.

Example (6). Assume that the terms of a trust provide for termination of the trust only upon the death of the current income beneficiary. Although the terms of the trust fail to explicitly provide for the distribution of trust assets to the current income beneficiary upon termination of the trust during the life of the current income beneficiary, the requirement of section 1361(d)(3)(A)(iv) is met because the trust agreement precludes the possibility that the trust will terminate during the life of the current income beneficiary.

Example (7). On January 10, 1983, C transfers to a trust his shares of stock in Corporation S, a C corporation. C is the holder of the remainder interest and D, who is 13 years old, is the sole income beneficiary of the trust. The trust instrument provides that the trust shall terminate when D is 21 years old. The terms of the trust satisfy all the requirements to be a qualified subchapter S trust except the requirement of section 1361(d)(3)(A)(iv) that, upon termination of the trust during the life of the current income beneficiary, the corpus must be distributed to that income beneficiary. On February 10, 1983, C makes a gift of his remainder interest to D. Accordingly, as of February 10, 1983, the terms of the trust satisfy the requirement specified in section 1361(d)(3)(A)(iv) and the trust is a qualified subchapter S trust.

Example (8). (i) On January 1, 1983, stock of Corporation T, a calendar year corporation with 10 shareholders, is transferred to a trust that satisfies all the requirements to be a qualified subchapter S trust. On January 31, 1983, Corporation T files an election to be an S corporation that is to be effective for the taxable year beginning on January 1, 1983. In order for the election to be effective for that taxable year, the QSST election must be effective as of January 1, 1983, and must be filed within the period beginning on January 1, 1983, and ending on March 16, 1983 (*i.e.*, the 16-day-and-2-month period beginning on the first day of the first taxable year for which the election to be an S corporation is effective).

(ii) Assume the same facts as in example (9)(i) except that the election to be an S corporation is filed on April 1, 1983 (*i.e.*, it is filed after the 15th day of the 3rd month of the first taxable year for which its is to be effective but before the end of that taxable year). Although the election to be an S corporation is not timely filed for the 1983 taxable year, section 1362(b)(3) provides that the election is to be treated as made for the taxable year beginning on January 1, 1984. In order for that election to be effective for the 1984 taxable year, it must be valid when made. Thus, the QSST election must be filed within the 16-day-and-2-month period beginning on April 1, 1983, and ending on June 16, 1983 (and the election must state that it is to be effective on April 1, 1983).

(iii) Assume the same facts as in example (9)(i) except that the QSST election is filed on April 15, 1983 (*i.e.*, the 15th day of the 3rd month after the date on which the corporation makes the election to be an S corporation). Because the QSST election is not effective as of the beginning of Corporation T's 1983 taxable year, the election to be an S corporation is not valid for 1983. In that case, section 1362(b)(2) provides that the election to be an S corporation is to be treated as made for the taxable year beginning on January 1, 1984. Since the QSST election is filed within the 16-day-and-2-month period beginning on January 31, 1983, the date on which the corporation makes the election to be an S corporation, the election to be an S corporation is effective for the taxable year beginning on January 1, 1984 (provided the QSST election states that it is to be effective as of January 31, 1983, which is the date of the election to be an S corporation).

(k) *Application*. The rules contained in paragraphs (e)(2) and (h)(1) of this section apply solely for purposes of determining whether a corporation qualifies as a small business corporation. Thus, for example, the rules contained in paragraph (h)(1) of this section may not apply to determine who is a shareholder for purposes of section 1366 (*i.e.*, to whom the items of income, loss, deduction, or credit of the corporation are to be distributed).

(l) *Single class of stock.* [Reserved]

Roscoe L. Egger, Jr.
Commissioner of
Internal Revenue.

Transfers of Property by U.S. Persons to Foreign Corporations—Public Hearing

Announcement 86–106

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to transfers of property by U.S. persons to foreign corporations.

DATES: The public hearing will be held on Monday, December 1, 1986, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by Monday, November 17, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR–3–86 or INTL–610–86), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: B. Faye Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, telephone 202–566–3935 (not a toll-free call).

SUPPLEMENT INFORMATION: The subject of the public hearing is proposed regulations under sections 367 and 6038B of the Internal Revenue Code of 1954. The proposed regulations appeared in the FEDERAL REGISTER for Friday, May 16, 1986 (51 FR 17990).

The rules of §601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations should submit, not later than Monday, November 17, 1986, an outline of oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

By direction of the Commissioner of Internal Revenue:

D. Kevin Dolan
Associate Chief Counsel
(International).

(Filed by the Office of the Federal Register on October 9, 1986, 8:45 a.m., and published in the issue of the Federal Register for October 10, 1986, 51 F.R. 36409)

Amendment of Temporary Income Tax Regulations Under Section 338(h)(10)

Announcement 86–107

The Temporary Income Tax Regulations under section 338(h)(10) of the Internal Revenue Code will soon be amended to require use solely of the MADSP formula for determination of deemed sale price.

In general, if a corporation makes a qualified stock purchase of the stock of a target corporation from a group of affiliated corporations that files a consolidated return, the parties to the transaction may jointly make a section 338(h)(10) election. If this election is made, the target is deemed to have sold all its assets in a fully taxable transaction and thereafter to have liquidated. Section 1.338(h)(10)–1T(f) of the temporary regulations, published in the Federal Register on January 8, 1986 (T.D. 8068 1986–1 C.B. 165), generally provides that the price at which target is deemed to have sold each asset is its fair market value. Alternatively, the deemed sale price of each asset may be calculated by use of an elective formula ("the MADSP formula"), pursuant to which the deemed sale price of each asset is a proportionate share of an amount determined by reference to the actual purchase price of the target stock. The temporary regulations were amended, generally effective July 1, 1986 (T.D. 8092, 1986–36 I.R.B. 5), to require that, if the MADSP formula is used to calculate the deemed sale price of all assets, the MADSP amount must be allocated to each of the assets pursuant to the residual method of allocation.

The temporary regulations, as amended July 1, 1986, will be further amended to mandate use of the MADSP formula to determine the deemed sale price for qualified stock purchases for which the acquisition date is on or after November 10, 1986, unless the acquisition occurs pursuant to a binding contract entered into before that date.

Annoucement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practible for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
S. Melvin Apotheker	Miami, FL	Attorney	Indefinite from September 1, 1986
Sandra S. Behn	London, TN	Certified Public Accountant	Indefinite from September 12, 1986
Charles K. Hyter	Hutchinson, KS	Attorney	Indefinite from September 18, 1986
William Pyke	Dallas, TX	Certified Public Accountant	Eighteen Months from August 15, 1986
Alan Z. Richards	West Hempstead, NY	Attorney and Certified Public Accountant	Indefinite from September 20, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
Paul Beecher	Torrance, CA	Indefinite effective September 25, 1986

Under 31 Code of Federal Regulations, Part 10, an enrolled agent, in order to avoid the institution of a proceeding for his disbarment of suspension from practice before the Internal Revenue Service, may offer his resignation. The Director of Practice, in his discretion, may accept the offered resignation of an enrolled agent.

To enable the public and other practitioners to identify such resigned enrolled agents, the Director of Practice will announce in the Internal Revenue Bulletin the name and address of each enrolled agent who has resigned and the effective date of resignation. This announcement will appear in the weekly Bulletin at the earliest practicable date after the action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each resigned enrolled agent, and will later be consolidated and published in the Cumulative Bulletin.

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name of Enrolled Agent	Address	Effective Date of Resignation
William E. Bonafede	Wakefield, RI	September 30, 1986

Under Section 330, Title 31 of the United States Code, the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
James L. Ketner	Charlotte, NC	Certified Public Accountant	September 27, 1986
George L. Weil	Orange, CT	Certified Public Accountant	September 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 51.4989–1, 51.4996–1, 51.4996–3 amended; 51.4996–4 added	Definition of "property" for purposes of the windfall profit tax	1986–42 I.R.B. 15	Nov. 11, 1986
26 CFR 51.4989–1 amended; 51.4996–1 revised; 51.4996–5 added	Windfall profit tax; production from a unitized property of imputed stripper well crude oil, imputed heavy crude oil, and imputed newly discovered crude oil	1986–43 I.R.B. 11	Dec. 1, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Internal Revenue bulletin

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–129, page 4.

Investment credit; ACRS; computer; employee. A taxpayer's use of a computer at home does not meet the "required as a condition of employment" requirement of section 280F(d)(3)(A) of the Code in the factual circumstances set forth. Thus, none of the taxpayer's use of the computer is treated as use in a trade or business. Therefore, the taxpayer is not allowed any investment credit or recovery deduction for the computer.

EMPLOYEE PLANS

Announcement 86–109, page 22.

In accordance with Section 12.02 of Rev. Proc. 84–23, set forth is a list of master or prototype plans closed by the National Office of the Internal Revenue Service as of September 30, 1986.

EXCISE TAXES

Rev. Rul. 86–130, page 5.

Trucks; glider kit; tax-bases. Tax bases are provided in 3 situations in which a truck tractor is overhauled through the use of a "glider kit."

ADMINISTRATIVE

Rev. Proc. 86–41, page 7.

Controlled corporation; stock and securities distribution; revised checklist for ruling request. A revised checklist sets forth the information and representations to be included in a request for a ruling under section 355 of the Code with respect to distributions of stock and securities of a controlled corporation. Rev. Proc. 81–41 superseded.

Rev. Proc. 86–42, page 12.

Reorganizations; standard representations for ruling requests. Standard representations to be included in a request for a ruling under section 368 of the Code with respect to acquisitive corporate reorganizations are set forth. Rev. Proc. 77–37 amplified.

Announcement 86–108, page 20.

Guidance is provided to taxpayers who may wish to pay actual or contested tax deficiencies in 1986 in order to assure that interest paid on such deficiencies will be fully deductible on their 1986 returns.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 280F.—Limitation On Investment Tax Credit and Depreciation For Luxury Automobiles; Limitation Where Certain Property Used For Personal Purposes

26 CFR 1.280F-6T: Special rules and definitions.

Investment credit; ACRS; computer; employee. A taxpayer's use of a computer at home does not meet the "required as a condition of employment" requirement of section 280F(d)(3)(A) of the Code in the factual circumstances set forth. Thus, none of the taxpayer's use of the computer is treated as use in a trade or business. Therefore, the taxpayer is not allowed any investment credit or recovery deduction for the computer.

Rev. Rul. 86–129

ISSUE

If under the circumstances described below, an employee taxpayer cannot practically perform the tasks required by the taxpayer's job without the assistance of a computer and the employee often performs work at home, then is the use of a personal computer in the taxpayer's home "required as a condition of employment" under section 280F(d)(3)(A) of the Internal Revenue Code? If not, is the taxpayer therefore denied any recovery deduction otherwise allowable with respect to the computer?

FACTS

A, an individual, is employed by *X*, a corporation. *X* conducts a significant amount of research and development. *A*, who has a doctorate in aerospace engineering, performs research for *X*. *A*'s job description, like the job descriptions of all engineers and scientists employed by *X*, provides that *A* will seek to accomplish the research objectives of *X* by whatever means *A* and *X* determine are necessary. These professional employees of *X* use personal computers provided by *X* in all aspects of the company's research and development activities, and many of their tasks cannot practically be performed without the assistance of a computer.

A purchased a computer and kept it at home. *A* purchased it because the computers at *X* are often being used by other employees during working hours, and *A* often performs work for *X* at home. No portion of *A*'s home meets the requirements of section 280A(c)(1) of the Code, which concerns business use of a dwelling unit. The computer is used exclusively by *A* in connection with the performance of services for *X*. *X* provided *A* with a written statement indicating that *X* required *A*, as a condition of *A*'s employment, to purchase the computer.

LAW AND ANALYSIS

Section 280F(b)(1) of the Code disallows the investment tax credit, and section 280F(b)(2) of the Code disallows the use of accelerated percentages under the accelerated cost recovery system (ACRS) when the credit and the use of the accelerated percentages are attributable to listed property that is not predominantly used in a qualified business use for a taxable year.

Section 280F(d)(3)(A) of the Code provides that, for purposes section 280F, any employee use of listed property will not be treated as use in a trade or business for purposes of determining the amount of any investment credit allowable under section 38 to the employee or any recovery deduction allowable to the employee unless the use of the property is for the convenience of the employer and required as a condition of employment.

Section 1.280F–6T(a)(1) of the Temporary Income Tax Regulations provides that employee use of listed property will not be treated as business/investment use for purposes of determining the amount of any credit allowable under section 38 of the Code to the employee or the amount of any recovery deduction allowable to the employee unless that use is for the convenience of the employer and required as a condition of employment.

Section 1.280F–6T(a)(2)(ii) of the temporary regulations provides that in order to satisfy the "condition of employment" requirement, the use of the property must be required in order for the employee to perform the duties of employment properly. Thus, the employer need not explicitly require the employee to use the property. Similarly, a mere statement by the employer that the use of the property is a condition of employment is not sufficient.

Section 280F(d)(3)(B) of the Code provides that the term "employee use" means any use in connection with the performance of service as an employee.

As defined in section 280F(d)(4) of the Code, generally, the term "listed property" includes any computer or peripheral equipment (as defined in section 168(j)(5)(D)). However, pursuant to section 280F(d)(4)(B), the term "listed property" does not include any computer or peripheral equipment used exclusively at a regular business establishment. For purposes of the preceding sentence, any portion of a dwelling unit is a regular business establishment if and only if the requirements of section 280A(c)(1) are met with respect to that portion.

Since the portion of *A*'s home where the personal computer is used does not meet the requirements of section 280A(c)(1) of the Code, the computer is "listed property." As such, it is not eligible for *any* investment tax credit, or *any* recovery deduction, otherwise allowable to *A* unless *A*'s use of the property is for the convenience of A's employer and is required as a condition of employment. Section 1.280–6T(a)(1) of the temporary regulations.

Congress' intent when it included the phrase "for the convenience of the employer and required as a condition of employment" in section 280F(d)(3)(A) of the Code is set out in the conference report as follows:

> Listed property which an individual owns in connection with his employment is eligible for the investment credit and ACRS deductions only if such property is required for the convenience of the employer and as a condition of employment. The conferees intend the terms "convenience of the employer" and "condition of employment" to have the same meaning with respect to this provision as it [*sic*] does with respect to the exclusion from gross income for lodging furnished to an employee. In order to satisfy the condition of employment requirement the property must be required in order for an employee to properly perform the duties of his employment. This requirement is not satisfied merely by an employer's statement that the property is required as a condition of employment. The conferees intend that the principles of *Dole v. Commissioner*, 43 T.C. 697, *aff'd.*, 351 F.2d 308, (1st Cir. 1965) apply.

H.R. Rep. No. 98–861 (Conf. Rep.), 98th Cong., 2d Sess. 1027 (1984), 1984–3 (Vol. 2) C.B. 1, 281. *See also* section 1.280F–6T of the temporary regulations.

In *Dole*, the United States Tax Court was faced with the question of whether three key employees of a woolen mill could exclude from gross income the value of houses provided by the employer. The houses were located 1 mile from the mill and were required by the employer to be occupied by the employees so that those employees were readily available in the event of an emergency at the mill. The court noted that there was no available lodging closer to the mill than that provided by the employer but that there was other available lodging located within 3 miles of the mill.

In holding that the rental value of the lodging provided to the employees was not excludable from gross income because the lodging did not meet the "condition of employment" test under section 119 of the Code, the court stated, at pages 705–706:

> We need to go no farther than the first requirement of the statute to decide, on the facts of these proceedings, that the petitioners were *not* required to accept the lodging provided by their employer in order to enable them to perform properly the duties of their employment. Merely because [the president of the employer company] insisted that petitioners occupy the company-owned houses to help promote the efficient operation of the mill does not, standing alone, mean that the statutory standard—required to accept such lodging as a condition of employment—is met. The standard prescribed by Congress is not subjective. It is objective. The employer's state of mind is not controlling. [Emphasis in the original].

Aside from the statement of the employer, there are no facts in the present situation that indicate the use of the computer at home by *A* is required for *A* to perform properly the duties of *A*'s employment. *A* can more easily and efficiently perform the duties of employment using the home computer, just as the employees in *Dole* would have been more readily available in the case of emergencies living in the employer-provided housing. However, as noted by the court in *Dole*, the fact that the property will enable the employee to more easily and efficiently perform the duties of employment does not mean the use of the property is required as a condition of employment. In order to satisfy the requirement that a home computer is required as a condition of employment there must be a clear showing that the employee cannot perform properly the duties of employment without it. That clear showing is lacking in this situation because there is no evidence that the computers supplied by *X* are insufficient to enable *A* properly to perform the duties of *A*'s employment.

HOLDING

The use of the home computer by *A* is not required as a condition of employment within the meaning of section 280F(d)(3)(A) of the Code. Therefore, under section 280F(d)(3) and section 1.280F–6T(a)(1) of the temporary regulations, none of *A*'s use of the computer is treated as use in a trade or business. Thus, *A* is not allowed any investment credit or recovery (depreciation) deduction for the computer. The straight line recovery method under section 280F(b)(2) also is not allowed because, under section 280F(d)(3) and section 1.280F–6T(a)(1) of the temporary regulations, *A* is treated as having no business use of the computer.

Section 355.—Distribution of Stock and Securities of a Controlled Corporation

26 CFR 1.355–1: Distribution of stock and securities of controlled corporation.

Checklist (questionnaire) with regard to information to be included in a request for a letter ruling under section 355 of the Code. See Rev. Proc. 86–41, page 7.

26 CFR 1.368–1: Purpose and scope of exception of reorganization exchanges.

Standard representations for inclusion in requests for letter rulings regarding acquisitive reorganizations described in section 368 of the Code. See Rev. Proc. 86–42, page 12.

Section 4052.—Definitions and Special Rules

26 CFR 145.4052–1: Special rules and definitions.

Trucks; glider kit; tax-basis. Tax bases are provided in 3 situations in which a truck tractor is overhauled through the use of a "glider kit."

Rev. Rul. 86–130

ISSUE

If, in the situations described below, truck tractors are refurbished by use of a "glider kit" and other new components, are the refurbished truck tractors subject to the retailers excise tax imposed by section 4051(a)(1) of the Internal Revenue Code? If so, what is the tax base in each situation?

FACTS

Situation 1. A truck dealer receives a used highway truck tractor in a trade-in, overhauls it, and resells the overhauled truck tractor at retail. In the overhaul, a set of unassembled new parts commonly known as a "glider kit" is combined with other new components and with the retained used components.

A glider kit usually consists of a cab, fenders, dash instruments, wiring, steering wheel, steering gear, seats, chassis frame, front axle, and copper tubing for the brake system.

Situation 2. The owner of a used highway truck tractor purchases a glider kit and other new components and overhauls the truck tractor as in *Situation 1.* The owner then uses the overhauled vehicle in the operation of its business. The owner does not regularly sell such truck tractors at retail in arm's length transactions.

Situation 3. The owner of a used highway truck tractor delivers the vehicle to an unrelated truck repair shop for overhaul. The repair shop purchases a glider kit and other new components for incorporation into the truck tractor, overhauls the truck tractor, and delivers it to the owner for use in the operation of its business. The repair shop bills the owner for the completed overhaul operation. The owner does not regularly sell such truck tractors at retail in arm's length transactions.

LAW AND ANALYSIS

Section 4051(a)(1) of the Code imposes on the first retail sale of certain enumerated automotive articles (including in each case parts or accessories sold on or in connection therewith or with the sale thereof) a tax of 12 percent of the amount for which the article is so sold. Included among those articles are tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer. The term "first retail sale" is defined in section 4052(a)(1) to mean the first sale, for a purpose other than for resale, after manufacture, production, or importation.

Section 4052(a)(3)(A) of the Code provides that, in general, if any person uses an article taxable under section 4051 before the first retail sale of such article, then that person shall be liable for tax under section 4051 in the same manner as if such article were sold at retail by the person.

Section 4052(a)(3)(C) of the Code provides that in the case of any person made liable for tax by section 4052(a)(3)(A), the tax shall be computed on the price at which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

Section 145.4052–1(c)(5)(ii) of the Temporary Excise Tax Regulations provides that if the seller of an article regularly sells such articles at retail in arm's length transactions, tax liability on its use of any such article shall be computed on its lowest established retail price for such articles in effect at the time of the taxable use. In establishing such price, there shall be included and excluded, as applicable, the charges and readjustments specified in sections 4216(a), 4216(f), and 6416(b)(1) of the Code as in effect at the time the tax liability on the use of the article is incurred. If the seller of an article does not regularly sell such articles at retail in arm's length transactions, a constructive price on which the tax shall be computed will be determined by the Commissioner. This price will be established after considering the selling practices and price structures of sellers of similar articles.

Section 4052(b)(1)(B)(iv) of the Code provides that in determining price for purposes of the retailers excise tax, there will be excluded the value of any component of such article if (1) the component is furnished by the first user of the article, and (2) such component has been used before such furnishing.

Section 48.0–2(a)(4)(i) of the Manufacturers and Retailers Excise Tax Regulations provides that the term "manufacturer" includes a person who produces a taxable article from scrap, salvage, or junk material, as well as from new or raw material, (1) by processing, manipulating, or changing the form of an article, or (2) by combining or assembling two or more articles.

Section 48.0–2(a)(4)(ii) of the regulations provides that, under certain circumstances, as where a person manufactures or produces a taxable article for another person who furnishes materials under an agreement whereby the person who furnished the materials retains title thereto and to the finished article, the person for whom the taxable article is manufactured or produced, and not the person who actually manufactures or produces it, will be considered the manufacturer.

Rev. Rul. 71–584, 1971–2 C.B. 358, which dealt with the now repealed manufacturers excise tax on trucks under section 4061(a)(1) of the Code, concerned the assembly of a truck tractor by a company for its own use, by combining a glider kit with salvaged parts from a used truck tractor removed from the company's own fleet. The revenue ruling concluded that the assembly of the glider kit and used components was an act of production or manufacture of an article taxable under section 4061(a)(1). That conclusion was based on the definition of the term "manufacturer" set forth in section 316.4(a) of Regulations 46 (made applicable to the 1954 Code by Treasury Decision 6091, 1954–2 C.B. 47). That definition is the same as the definition of "manufacturer" now found in section 48.0–2(a)(4)(i) of the regulations.

Thus, under section 48.0–2(a)(4)(i) of the regulations, an act of manufacture has occurred in the three situations described above. That act of manufacture results in the production of a new truck tractor that is subject to the tax imposed by section 4051(a)(1) of the Code upon the first sale at retail or the first use before a retail sale.

In *Situation 1*, the dealer is liable for tax under section 4051(a)(1) of the Code on its sale of the refurbished truck tractor at retail. In determining the taxable selling price of the vehicle, the dealer may not invoke section 4052(b)(1)(B)(iv) to exclude the value of the used components because the used components were not furnished by the first user of the new article, the dealer's vendee.

In *Situation 2*, the owner is liable for tax upon its use of the refurbished truck tractor in its business. The owner does not regularly sell such truck tractors at retail in arm's length transactions within the meaning of section 145.4052–1(c)(5)(ii) of the temporary regulations. Accordingly, the tax must be computed on a constructive price determined by the Commissioner. After consideration of the selling practices and price structures of sellers of refurbished truck tractors, the Commissioner has determined that the constructive sale price upon which tax is to be computed is the cost to the owner of all the components used by the owner in the manufacturing operation plus an amount equal to 150 percent of the owner's labor costs (including overhead) in the manufacturing operation. Unlike *Situation 1*, the person furnishing the used components, the owner, is the first user of the new article. Thus, under section 4052(b)(1)(B)(iv) of the Code, the owner may exclude the value of any used components furnished by the owner and incorporated into the new truck tractor. Where the owner believes that facts and circumstances justify using a markup rate of less than 150 percent, a specific ruling may be sought from the Internal Revenue Service. *See* Rev. Rul. 54–490, 1954–2 C.B. 416.

In *Situation 3*, as in *Situation 2*, the owner is liable for tax on its first use of the refurbished truck tractor in its business. Here again, the owner does not regularly sell such truck tractors at retail in arm's length transactions. Where the owner of the used truck tractor contracts with a repair shop to perform the overhaul operation, the Commissioner has determined that the constructive sale price upon which tax is to be computed is the amount the repair shop bills the owner for the completed overhaul operation, plus the cost of any new components furnished by the owner to the repair shop. As in *Situation 2*, since the owner is the first user of the new article, the value of any used components furnished by the owner to the repair shop and incorporated into the overhauled truck tractor is not included in the constructive sale price.

HOLDING

In *Situation 1*, the truck dealer has manufactured a taxable truck tractor and is subject tax under section 4051(a)(1) of the Code on its sale of the truck tractor. The tax is based on the sale price of the vehicle with no exclusion for the value of used components incorporated into the manufactured vehicle.

In *Situation 2*, the truck tractor owner manufactured a truck tractor and is liable for tax under section 4052(a)(3)(A) of the Code on its use of the vehicle. The tax base on its use of the truck tractor is the cost to the owner of parts and accessories (exclusive of the value of used components supplied by the owner) plus 150 percent of the owner's labor costs (including overhead) incurred in manufacturing the truck tractor.

In *Situation 3*, the owner of the truck tractor is considered to have manufactured a truck tractor and is liable for tax under section 4052(a)(3)(A) of the Code on its use of the vehicle. The truck tractor owner's tax base is the total cost to the owner for the manufacture of the truck tractor (exclusive of the value of used components supplied by the owner).

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 355; 1.355–1.)

Rev. Proc. 86–41

SECTION 355 CHECKLIST QUESTIONNAIRE CONTENTS

1. PURPOSE
2. BACKGROUND
3. CHANGES
4. INFORMATION TO BE INCLUDED IN REQUESTS FOR RULINGS UNDER SECTION 355 OF THE CODE

.01 *Information regarding the distributing corporation (Distributing) and the corporation or corporations whose stock and securities are distributed (Controlled)*

1. Identification
2. Jurisdiction
3. Taxable year

.02 *Ownership of interests in Distributing and Controlled*

1. Stock in Distributing immediately prior to the distribution
2. Capital structure of Controlled immediately prior to the distribution
3. Description of stock, securities, and other property being distributed
    (a) Stock
    (b) Securities
    (c) Other property
    (d) Timing
4. Ownership of stock and securities immediately after the distribution
    (a) Interests in Controlled held by Distributing
        (1) Retention of stock or securities
        (2) Issuance of debt
        (3) Purpose for Distributing holding a stock or security interest in Controlled
    (b) Interests in Controlled held by shareholders of Distributing
        (1) Pro rata
            (A) Ownership
            (B) Securities
        (2) Non pro rata
            (A) Ownership
            (B) Values
            (C) Securities
    (c) Interests in Controlled held by security holders of Distributing
        (1) Receiving stock
        (2) Receiving securities
    (d) Receipt of consideration other than with respect to stock
        (1) Shareholder in dual capacity
        (2) Other transfers

.03 *Information concerning the businesses of Distributing and Controlled*

1. Distributing's businesses
    (a) Description of businesses remaining in Distributing
    (b) Description of businesses being transferred by Distributing to Controlled
2. Controlled's businesses
3. Employee information
4. Indirect conduct of trade or business through ownership of stock in other corporations (Other Corporations)
5. Five-year requirement
    (a) Continuous operation
    (b) Stock ownership
    (c) Active business acquired by Distributing, Controlled, or Other Corporations during the preceding 5-year period
        (1) Identity
        (2) Date
        (3) Transaction
        (4) Consideration
        (5) Gain or loss
    (d) Stock of Controlled or Other Corporations acquired by Distributing or Controlled during the preceding 5-year period
        (1) Identity
        (2) Date and consideration
        (3) Transaction
        (4) Gain or loss
    (e) Changes in ownership
    (f) Continued operations
    (g) Change in business
6. Financial statements
    (a) Information as to assets and liabilities associated with the Active Businesses of Distributing and Controlled
        (1) Balance sheets
        (2) Continuing indebtedness
        (3) Section 38 property
        (4) Investment company
        (5) Consideration received by Distributing
    (b) Profit and loss statements
    (c) Method of accounting

.04 *Business purpose*

1. Detailed description
2. Relevance of business purpose
3. Need for present transaction
4. Third party documentation

.05 *Information relating to whether the transaction will be considered to be used principally as a device for the distribution of earnings and profits of Distributing, Controlled, or both*

1. Liquidation or sale of assets
2. Disposition of stock or securities
    (a) Transaction
    (b) Consideration
3. Earnings and profits
4. Non pro rata distribution
5. Transfers between Distributing and Controlled
    (a) Contributions to capital
    (b) Cancellation of indebtedness
    (c) Continuing transactions between Distributing and Controlled
    (d) Distribution to Distributing
6. Investment and inactive assets
    (a) Distributing
    (b) Controlled

.06 *Continuity of shareholder interest*

.07 *General*

1. Other transactions
2. Copy of plan
3. Foreign corporation
4. Additional statements
5. Requested rulings
6. Taxpayer's memorandum

5. INQUIRIES
6. EFFECT ON OTHER DOCUMENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 81–41, 1981–2 C.B. 605, which sets forth in a checklist questionnaire the information that must be included in a request for a ruling under section 355 of the Internal Revenue Code, relating to the nonrecognition of gain or loss on distributions of stock and securities of controlled corporations.

SEC. 2. BACKGROUND

The Internal Revenue Service receives many requests for rulings in which the information relating to the proposed transaction is not sufficient to permit a determination to be made. In those cases, it is necessary to obtain additional facts from the taxpayer before the request for a letter ruling can be considered. Obtaining these additional facts is time consuming for both Service personnel and taxpayers and delays issuance of the ruling letter.

This checklist will facilitate the filing and processing of requests for rulings under section 355 of the Code by showing specific information and representations to be included so that the requests will be as complete as possible when initially filed. Because the information and representations necessary to rule on a particular transaction depend upon all the facts and circumstances, information or representations in addition to those set forth in this revenue procedure may be required.

The authority and general procedures of the National Office of the Internal Revenue Service and of the Office of the District Directors of Internal Revenue with respect to the issuance of letter rulings and determination letters are outlined in Rev. Proc. 86–1, 1986–1 C.B. 395. See also Rev. Proc. 86–3, 1986–1 C.B. 416, relating to areas in which advance rulings generally will not be issued. These revenue procedures, along with the present checklist revenue procedure, are subject to periodic updating by the Service. Therefore, careful attention should be given to ensure usage of the most current revenue procedures.

Careful attention to all requirements of these revenue procedures will aid in the timely processing of letter ruling requests.

SEC. 3. CHANGES

.01 Section 1 is modified to indicate that the purpose of the revenue procedure is to update Rev. Proc. 81–41.

.02 Section 2 is modified to state that representations are now required, and to update references to revenue procedures cited.

.03 Section 4 is substantially altered. The taxpayer must now submit standard representations using the precise language specified herein, or submit an explanation why the representations cannot be made in the requested form. Sections 4.023, 4.024, 4.034, 4.035, 4.036, 4.051, 4.052, 4.055, and 4.06 are modified accordingly. To properly reflect applicable changes, some citations to Code sections and to revenue rulings and procedures have been added or deleted. Changes include:

1. Section 4.012 now requires taxpayers to submit information concerning any prior ruling requests submitted by the taxpayer (or predecessor) that were withdrawn in which the identical or similar issue was present.

2. Section 4.02 now indicates more precisely the information required regarding ownership interests in Distributing and Controlled.

3. Sections 4.031, 4.032, 4.033, 4.034, and 4.035 now deal with the active business issue in greater detail, including a request for separate employee information for different active businesses and a request for the percent of activities performed by independent contractors.

4. Section 4.036 now contains a centralized request for financial information, including pro forma balance sheets and profit and loss statements for each active business of Distributing, Controlled, and Other Corporations.

5. Section 4.04 now indicates more precisely the information required regarding business purpose. Included is a list of revenue rulings showing factual situations in which the Service has found a valid business purpose. It is emphasized that in some instances third party documentation may be essential in substantiating the business purpose.

6. Section 4.056(a) and (b) has been added to request information concerning investment and inactive assets held by Distributing and Controlled following the transaction.

7. Section 4.06 has been added to reference Rev. Proc. 77–37 for a continuity of equity interest representation, if shareholders are disposing of their stock.

8. Section 4.07 requests certain general information and now includes a cross reference to the information and statements required for all ruling requests pursuant to Rev. Proc. 86–1 and requires taxpayers to list the specific rulings being requested and the authorities supporting the rulings.

.04 Section 5 is modified to substitute Associate Chief Counsel (Technical) for Assistant Commissioner (Technical) and CC:C:R for T:C:R.

.05 Section 6 is modified to state that Rev. Proc. 81–41 is superseded.

SEC. 4. INFORMATION TO BE INCLUDED IN REQUESTS FOR RULINGS UNDER SECTION 355 OF THE CODE

Each of the items in this section should be specifically dealt with in the letter ruling request. If an item is not applicable, so state and briefly explain why. Standard representations are set forth throughout this section and are highlighted by the word "representation" in boldface type. These representations are of equal importance with the other factual information requested herein. The representations function to ensure that specific statutory and judicial requirements and administrative ruling guidelines are satisfied. Each representation set forth in this section should be submitted precisely in the language requested. If a representation cannot be submitted as requested, an explanation must be given. Variations of the language of the representations may delay processing the ruling request and will not be accepted unless reasons satisfactory to the Service are submitted. Submission of the information and representations should follow the format of this revenue procedure as closely as possible, with appropriate descriptive headings. Care must be taken to ensure that all the facts relating to the transaction are submitted.

.01 *Information regarding the distributing corporation (Distributing) and the corporation or corporations whose stock and securities are distributed (Controlled).*

1. Identification.—Name, taxpayer identification number, and place and date of incorporation of Distributing and Controlled.

2. Jurisdiction.—Identify the District Office that will have audit jurisdiction over the return of Distributing (referred to below as "taxpayer") and of Controlled(s). State whether, to the best knowledge of the taxpayer and the taxpayer's representatives, if any, the identical issue is in a return of the taxpayer (or of a related taxpayer within the meaning of section 267 of the Code, or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504) and, if so, whether the issue (1) is being examined by a District Director, (2) has been examined by a District Director and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired, and (b) a closing agreement covering the issue or liability has not been entered into by a District Director, (3) is being considered by an Appeals Office in connection with the taxpayer's return for an earlier period, (4) has been considered by an Appeals Office and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired and (b) a closing agreement covering the issue or liability has not been entered into by an Appeals Office, or (5) is pending in litigation in a case involving the taxpayer or a related taxpayer. The request must contain a statement whether, to the best knowledge of the taxpayer and the taxpayer's representatives, the identical or a similar issue has been (i) submitted to the Service, but withdrawn before a ruling was issued, or (ii) ruled on by the Service to the taxpayer

or the taxpayer's predecessor and, if so, when and with what result. If, after the request is filed but before a ruling is issued, the taxpayer knows that an examination of the issue by a District Director has been started, the taxpayer must notify the National Office of this action. If a return is filed before a ruling is received from the National Office concerning the issue that is the subject of the request for ruling, a copy of the request must be attached to the return. This alerts the District Office and avoids premature District action on the issue.

3. Taxable year.—State the last day of the taxable year of Distributing and Controlled.

.02 *Ownership of interests in Distributing and Controlled.*

1. Stock in Distributing immediately prior to the distribution.—Provide a complete description of each class of Distributing's outstanding stock (throughout this document the word "stock" includes all forms of equity ownership) setting forth the rights and privileges of each class, including voting on nonvoting rights, dividend and liquidation preferences or limitations, and whether classified as common or preferred stock. State the number of shares and the percentage of each class of stock owned by each shareholder of Distributing prior to the distribution. However, if there are more than 25 shareholders, the statement in the preceding sentence may be limited by listing only those shareholders owning 5 percent or more of any class of stock, and then stating the total number of other shareholders together with the total number of shares and percentages which these other shareholders own of each class of stock. List all shareholders owning five percent or more of any class of stock who are foreign persons.

2. Capital Structure of Controlled immediately prior to the distribution.—Furnish a complete description of each class of Controlled's outstanding stock setting forth the rights and privileges of each class, including voting or nonvoting rights, dividend and liquidation preferences or limitations, and whether classified as common or preferred stock. Also describe all other outstanding interests (bonds, debentures, notes, warrants, options, etc.), and briefly explain why each of these items should or should not be considered a stock interest. State the number of shares and the percentage of each class of stock in Controlled owned by Distributing. If there are minority shareholders of Controlled, furnish information with respect to these shareholders similar to the information requested under section 4.021 above.

3. Description of stock, securities, and other property being distributed.

(a) Stock.—State the number of shares of each class of stock in Controlled being distributed. In addition, if preferred stock is distributed and it is contended that this stock is not "section 306 stock," within the meaning of section 306(c) of the Code, fully explain the reasons for this contention.

(b) Securities.—State the principal amount of each series of securities of Controlled being distributed.

(c) Other property.—State the amount and provide full particulars as to any property, other than stock and securities of Controlled, being distributed by Distributing including, but not limited to, cash and stock rights or warrants (see section 1.355–2(a) of the Income Tax Regulations). Submit the following REPRESENTATION: *The distributing and controlled corporations and their respective shareholders will each pay their own expenses, if any, incurred in connection with the transaction.*

(d) Timing.—State the date of the transaction and whether all the stock, securities, and other property is being distributed on that date. If all the stock, securities, and other property is not distributed on the same date, state the approximate length of the delay and the reasons for the delay in distribution.

4. Ownership of stock and securities immediately after the distribution.

(a) Interests in Controlled held by Distributing.

(1) Retention of stock or securities.—State the number of shares of each class of stock in, or the principal amount of each series of securities of, Controlled held by Distributing subsequent to the distribution, and the length of time Distributing will hold this interest.

(2) Issuance of debt.—State whether Controlled intends to issue debt instruments to Distributing after the distribution. If so, submit copies of the instruments or, if copies are not available, provide full particulars as to the principal amounts, terms, and reasons for the issuance.

(3) Purpose for Distributing holding a stock or security interest in Controlled.—If subsequent to the distribution, Distributing will hold a stock or security interest in Controlled, submit a detailed explanation of the purpose and why this should not be viewed as in pursuance of a plan having as one of its principal purposes the avoidance of federal income tax. See section 1.355–2(d) of the regulations.

(b) Interests in Controlled held by shareholders of Distributing.

(1) Pro rata.—State whether the distribution of Controlled stock is pro rata with respect to all the shareholders of Distributing. If so, fully describe the details of the transaction.

(A) Ownership.—Set forth the number of shares and the percentage of each class of stock outstanding in Distributing and Controlled to be owned by each shareholder immediately after the distribution. If there are more than 25 shareholders, see section 4.021 above for the information to be provided.

(B) Securities.—Identify any shareholders of Distributing receiving securities of Controlled and state the principal amount of each series of securities being received. With respect to each shareholder, state the principal amount of each series of Distributing securities being exchanged therefor, or, if no securities are being exchanged, so state. See section 1.355–2(e)(1) of the regulations.

(2) Non pro rata.—State whether the distribution of Controlled stock is non pro rata with respect to the shareholders of Distributing. If so, fully describe the details of the transaction.

(A) Ownership.—Set forth the number of shares and the percentage of each class of stock outstanding in Distributing and Controlled that each shareholder owns immediately after the distribution. If there are more than 25 shareholders, see section 4.021 above for the information to be furnished.

(B) Values.—Submit the following REPRESENTATION: *The fair market value of the controlled corporation stock and other consideration received by each shareholder of the distributing corporation approximately equals the fair market value of the distributing corporation stock surrendered by the shareholder in the exchange.*

(C) Securities.—Identify any shareholders of Distributing receiving securities of Controlled, and state the principal amount of each series of securities being received. With respect to each shareholder, state the principal amount of each series of securities of Distributing being surrendered in the transaction, or if no securities are being exchanged, so state.

of the Code). In addition, if Distributing or Controlled is not directly engaged in an Active Business, submit the following REPRESENTATION: *Following the transaction, at least 90 percent of the fair market value of the gross assets of [the corporation so indirectly engaged] will consist of the stock and securities of controlled corporations that are engaged in the active conduct of a trade or business as defined in section 355(b)(2) of the Code.* See Section 3.04 of Rev. Proc. 77–37, 1977–2 C.B. 568, 570.

5. Five-year requirement.—Provide the following information with respect to each Active Business described in sections 4.031, 4.032, and 4.034 above, conducted by Distributing, Controlled, and Other Corporations.

(a) Continuous operation.—State which Active Businesses have been continuously conducted, within the meaning of section 1.355–1(c) of the regulations, by Distributing, Controlled, and Other Corporations, for the 5-year period immediately preceding the date of distribution. Give the date each Active Business was commenced or acquired. If, for any active business, the 5-year period includes any time during which there was no business activity, or a significant amount of time during which there was a substantial reduction in business activity, identify the period of time, the type and amount of business activity during this period, and the reasons for the cessation or reduction in activity. See Rev. Rul. 82–219, 1982–2 C.B. 82.

(b) Stock ownership.—Identify Controlled and Other Corporations whose shares have been continuously held by Distributing or Controlled for the 5-year period immediately preceding the date of distribution.

(c) Active business acquired by Distributing, Controlled, or Other Corporations during the preceding 5-year period.

(1) Identify.—Identify the party from whom the business was acquired and the party's relationship to Distributing or its shareholders.

(2) Date.—State the date the business was acquired and the period of time the business had been previously conducted by Distributing, Controlled, or Other Corporation's predecessor in interest.

(3) Transaction.—Describe the transaction in which the business was acquired: for example, acquired in a reorganization under section 368(a)(1) of the Code, acquired by purchase, etc. If a ruling letter was issued with respect to the transaction, submit a copy.

(4) Consideration.—State the consideration given in the acquisition.

(5) Gain or loss.—State whether gain or loss was recognized, in whole or in part, by any party to the transaction.

(d) Stock of Controlled or Other Corporations acquired by Distributing, Controlled, or Other Corporations during the precedng 5-year period.

(1) Identity.—Identify the party from whom the stock was acquired and that party's relationship to Distributing or its shareholders.

(2) Date and consideration.—State the date the stock was acquired and the consideration given in the acquisition.

(3) Transaction.—Describe the transaction in which the stock was acquired: for example, acquired in a reorganization under section 368(a)(1) of the Code, acquired by purchase, etc. State whether control was acquired as a result of Distributing transferring cash or other liquid or inactive assets to Controlled (see section 4.0120 of Rev. Proc. 86–3). If a ruling letter was issued with respect to the transaction, submit a copy.

(4) Gain or loss.—State whether gain or loss was recognized, in whole or in part, by any party to the transaction.

(e) Changes in ownership.—Provide complete details concerning any changes in ownership of the stock of Distributing, Controlled, and Other Corporations during the 5-year period preceding the distribution, including, but not limited to, acquisitions, redemptions, recapitalizations, stock dividends, and sales. Information regarding sales of stock in which the issuing corporation is not a party need not be provided, if (i) the sale occurs on a recognized stock exchange or in an established market, and (ii) both the purchaser and the seller hold less than five percent of the corporation's stock before and after the sale.

(f) Continued operations.—If the transaction involves the vertical division of a single business (See *Commissioner v. Coady*, 289 F.2d 490 (6th Cir. 1961), *aff'g* 33 T.C. 771 (1960)), submit the following REPRESENTATION: *Following the transaction, the distributing and controlled corporations will each continue independently and with their separate employees the active conduct of all the integrated activities of the business conducted by the distributing corporation prior to consummation of the transaction.* If the transaction involves the separation of two or more active businesses, submit the following REPRESENTATION: *Following the transaction, the distributing and controlled corporations will each continue the active conduct of their respective businesses, independently and with their separate employees.* Additionally, if, following the transaction, Distributing and Controlled share the services of certain employees identify these employees and specify the services performed and the compensation arrangements.

(g) Change in business.—Describe any substantial change in the type of business activity during the preceding 5-year period such as the adding of new or the dropping of old products, changes in production capacity, extraordinary purchases, replacements or sales of assets, and change of business location (see section 1.355–4(b)(3) of the regulations).

6. Financial statements.

(a) Information as to assets and liabilities associated with the Active Businesses of Distributing and Controlled.—

(1) Balance sheets.—Submit a copy of the most recent balance sheets of Distributing, Controlled, and Other Corporations. State whether any property is being transferred by Distributing to Controlled, whether any transferred property is subject to liabilities, and whether Controlled is assuming any liabilities in the transaction. If property is being transferred from Distributing to Controlled, a pro forma balance sheet should be submitted clearly showing all assets transferred to each Controlled and all liabilities assumed or to which the property transferred is subject. In addition, if Controlled is receiving assets or assuming liabilities, submit the following REPRESENTATIONS: *(1) The total adjusted basis and the fair market value of the assets transferred to the controlled corporation by the distributing corporation each equal or exceed the sum of the liabilities assumed by the controlled corporation plus any liabilities to which the transferred assets are subject;* and *(2) The liabilities assumed in the transaction and the liabilities to which the transferred assets are subject were incurred in the ordinary course of business and are associated with the assets being transferred.* (Alternatively, state why these representations cannot be made.)

(2) Continuing indebtedness.— Submit the following REPRESENTATION: *No intercorporate debt will exist between the distributing corporation and the controlled*

corporation at the time of, or subsequent to, the distribution of the controlled corporation stock. Alternatively, submit a full description of all debts existing between Distributing and Controlled. If any debt exists between Controlled, as debtor, and Distributing, as creditor, state whether such debt arose in connection with a transfer of assets by Distributing to Controlled and whether the debt resulted from Controlled's assumption of an intradivisional obligation owing from one division of Distributing to another division of Distributing. In addition, if Controlled will be indebted to Distributing subsequent to the distribution of Controlled stock, submit the following REPRESENTATION: *The indebtedness owed by the controlled corporation to the distributing corporation subsequent to the distribution of the controlled corporation stock will not constitute stock or securities within the meaning of section 355 of the Code.*

(3) Section 38 property.—State whether any assets being transferred between Distributing and Controlled include property for which an investment tax credit was taken in prior years. If so, submit the following REPRESENTATION: *The investment tax credit previously computed with respect to the section 38 property transferred will be adjusted in the year of transfer to reflect an early disposition of the property pursuant to section 47(a)(1) and (5) of the Code.*

(4) Investment company.—If assets are transferred by Distributing to Controlled, or liabilities owed by Controlled to Distributing are cancelled, submit the following REPRESENTATION: *No two parties to the transaction are investment companies as defined in section 368(a)(2)(F) (iii) and (iv) of the Code.*

(5) Consideration received by Distributing.—Set forth all consideration received by Distributing in connection with the transaction.

(b) Profit and loss statements.—Submit separate unconsolidated profit and loss statements (including all applicable notes) for each of the past 5 years for each Active Business (sections 4.031, 4.032, and 4.034 above) relied on to satisfy the active trade or business requirement of section 355(b) of the Code for Distributing and each Controlled. The statements must show that each business has had gross receipts and operating expenses (including employee expenses such as payroll withholding taxes) representative of the active conduct of a trade or business for each of the past 5 years. Submit the following REPRESENTATION: *The 5 years of financial information submitted on behalf of the distributing, controlled, and other corporations is representative of each corporation's present operations, and, with regard to each corporation, there have been no substantial operational changes since the date of the last financial statements submitted.*

(c) Method of accounting.—State the overall method of accounting of Distribution and each Controlled. If Distributing is on the cash method of accounting or a similar method and Controlled is also on the cash method or similar method, or it is represented that Controlled will be on this method, then submit a statement as to whether any income items such as accounts receivable, or any items resulting from a sale, exchange or disposition which would have resulted in income to Distributing, or any items of expense, will be transferred to Controlled. If any of these items are being transferred, fully explain. Further, submit the following REPRESENTATION: *The distributing corporation neither accumulated its receivables nor made extraordinary payment of its payables in anticipation of the transaction.* If Distributing is on the cash method of accounting or similar method and Controlled is on the accrual method or similar method, a closing agreement will be required unless the following REPRESENTATION is submitted: *No income items, including accounts receivable or any items resulting from a sale, exchange or disposition or property, that would have resulted in income to the distributing corporation, and no items of expense, will be transferred to the controlled corporation, if the distributing corporation has earned the right to receive the income or could claim a deduction for the expense under the accrual or similar method of accounting.*

.04 *Business purpose.*

1. Detailed Description.—Describe in detail the business purpose for the distribution of the stock of Controlled.

2. Relevance of business purpose.—Explain how the business purpose is germane to the businesses of the corporations (see section 1.355-2(c) of the regulations). Also, see, generally, Rev. Rul. 85-127, 1985-2, C.B. 119; Rev. Rul. 85-122, 1985-2 C.B. 118; Rev. Rul. 82-131, 1982-2 C.B. 83; Rev. Rul. 82-130, 1982-2 C.B. 83; Rev. Rul. 78-383, 1978-2 C.B. 142; Rev. Rul. 77-22, 1977-1 C.B. 91; Rev. Rul. 76-527, 1976-2 C.B. 103; Rev. Rul. 76-187, 1976-1 C.B. 97; Rev. Rul. 75-337, 1975-2 C.B. 124; Rev. Rul. 72-530, 1972-2 C.B. 212; Rev. Rul. 70-18, 1970-1 C.B. 74; Rev. Rul. 69-460, 1969-2 C.B. 51; Rev. Rul. 68-603, 1968-2 C.B. 148; and Rev. Rul. 56-450, 1956-2 C.B. 201.

3. Need for present transaction.—Explain why other feasible ways of meeting the corporation's business needs were rejected in favor of the present transaction.

4. Third party documentation.—If the transaction is being undertaken at the request of, or under the advice of, persons other than Controlled or Distributing, explain fully.

Documentation of third party requests or advice may be essential to substantiate the business purpose for the distribution. (Illustrations of business purposes for which third party documentation would be requested are suggested by the facts of Rev. Ruls. 85-122, 82-131, 82-130, 77-22, 76-527, 75-337, and 69-460 *(Situation 2).*

.05 *Information relating to whether the transaction will be considered to be used principally as a device for the distribution of earnings and profits of Distributing, Controlled, or both.*

1. Liquidation or sale of assets.—Submit the following REPRESENTATION: *There is no plan or intention to liquidate either the distributing or controlled corporation, to merge either corporation with any other corporation, or to sell or otherwise dispose of the assets of either corporation subsequent to the transaction, except in the ordinary course of business.* Alternatively, describe the subsequent transaction.

2. Disposition of stock or secuities.—Submit the following REPRESENTATION: *There is no plan or intention by the shareholders or security holders of the distributing corporation to sell, exchange, transfer by gift, or otherwise dispose of any of their stock in, or securities of, either the distributing or controlled corporation subsequent to the transaction.* Alternatively, if a plan or intent to dispose exists, see section 1.355-2(b)(1) of the regulations as to what constitutes evidence of a device and provide the following information:

(a) Transaction.—Give complete details concerning the transaction, including any agreements existing between the parties and the number of shares of each class of stock or the amount of each series of securities that each shareholder or security holder will dispose of. If the disposition results from governmental action, explain fully how this action necessitates the shareholder disposition. See Rev. Ruls. 83–23, 1983–1 C.B. 82, and 78–383.

(b) Consideration.—State the consideration to be recieved by each shareholder and security holder.

3. Earnings and profits.—State whether either Distributing or Controlled will have any earnings and profits, within the meaning of section 316 of the Code, on the date of the distribution or at the close of their respective taxable years. This information aids the Service in determining whether the transaction is being used principally as a device for the distribution of earnings and profits. See Rev. Rul. 71–384, 1971–2 C.B. 181.

4. Non pro rata distribution.—State whether all or any part of the distribution, if considered taxable, would qualify as an exchange under section 302(a) of the Code (see Rev. Rul. 71–383, 1971–2 C.B. 180, and Rev. Rul. 64–102, 1964–1 (Part 1) C.B. 136).

5. Transfers between Distributing and Controlled.

(a) Contributions to capital.—Provide complete details concerning any contributions of property made by Distributing to the capital of Controlled as part of the transaction.

(b) Cancellation of indebtedness.—With respect to any indebtedness between Distributing and Controlled, give complete details concerning the principal amount of the indebtedness, the circumstances under which it arose, and the date and method under which the indebtedness will be discharged. See Rev. Rul. 83–114, 1983–2 C.B. 66.

(c) Continuing transactions between Distributing and Controlled.—Describe in detail any continuing transactions between Distributing and Controlled following the distribution. In addition, submit the following REPRESENTATION: *Payments made in connection with all continuing transactions between the distributing and controlled corporations will be for fair market value based on terms and conditions arrived at by the parties bargaining at arm's length.*

(d) Distribution to Distributing.—Provide complete details concerning any distributions of property by Controlled to Distributing in connection with the transaction.

6. Investment and inactive assets.

(2) Distributing.—State the total amount of investment assets, and other assets that are not used in an active business, that will be held by Distributing or by any of its subsidiaries. Explain the reason why Distributing or its subsidiaries will hold these assets.

(b) Controlled.—State the total amountof investment assets, and other assets that are not used in an active business, that will be held by Controlled or by any of its subsidiaries. Explain the reason why Controlled or its subsidiaries will hold these assets.

.06 *Continuity of shareholder interest*.—If any shareholder plans to dispose of stock in Distributing or Controlled, submit a representation that the shareholder disposition will not violate the requirement of a 50 percent in value continuing interest in stock ownership as specified in section 3.02 of Rev. Proc. 77–37. See section. 1.355–2(c) of the regulations.

.07 *General*

1. Other transactions.—State whether there have been, or will be, any related transactions, and, if so, briefly describe these other transactions and fully explain their relationship to, and impact on, the present transaction. Even if the transaction is thought to be unrelated, provide full details if it is contemplated that any stock is to be issued by Distributing or Controlled other than that already described as being distributed pursuant to the plan. Include a description of the stock of Distributing or Controlled being issued pursuant to a public offering or pursuant to the exercise of stock rights or warrants. See section 9.05 of Rev. Proc. 86–1.

2. Copy of plan.—Submit a copy of the plan of reorganization or distribution. Alternatively, state why a copy is not available.

3. Foreign corporation.—State whether either Distributing or Controlled is a foreign corporation. See section 367 of the Code.

4. Additional statements.—See Rev. Proc. 86–1 for additional information and statements that must be submitted with all ruling requests, including statements required under section 9.02 and 9.09 (relating to instructions to taxpayers).

5. Requested rulings.—List the rulings being requested in the exact wording desired, and provide statutory, regulatory, or other authority for their issuance.

6. Taxpayer's memorandum.—Submit the information required by section 9.08 of Rev. Proc. 86–1 (relating to relevant authorities regarding the tax results of the transaction).

SEC. 5. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and should be addressed to the Associate Chief Counsel (Technical), Attention: CC:C:R, Internal Revenue Service, Washington, D.C. 20224.

SEC. 6. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 81–41 is superseded.

---

26 CFR 601.201: Rulings and determination letters. (Also Part I, Section 368; 1.368–1.)

Rev. Proc. 86–42

SECTION 1. PURPOSE

The purpose of this revenue procedure is to amplify Rev. Proc. 77–37, 1977–2 C.B. 568, as amplified by Rev. Proc. 77–41, 1977–2 C.B. 574, Rev. Proc. 83–81, 1983–2 C.B. 598, and Rev. Proc. 84–42, 1984–1 C.B. 521, and superseded in part by Rev. Proc. 79–14, 1979–1 C.B. 496. Rev. Proc. 77–37, as amplified and superseded in part, sets forth certain operating rules of the Internal Revenue Service pertaining to issuing letter rulings and in determining whether it should decline to issue letter rulings.

SEC. 2. BACKGROUND

The Internal Revenue Service receives many requests for rulings in which the information relating to the proposed transaction is not sufficient to permit a determination to be made. In these cases, it is necessary to obtain additional facts from the taxpayer before the request for a letter ruling can be considered. Obtaining these additional facts is time consuming for both Service personnel and taxpayers and delays issuance of the letter ruling.

In addition to the operating rules set forth in Rev. Proc. 77–37, the Service has developed certain standard representations that must be submitted as a prerequisite to the issuance of rulings on the tax consequences of specific transactions. These representations ensure that specific statutory and judicial requirements and administrative ruling guidelines are satisfied. The purpose of this revenue procedure is to facilitate the filing and processing of requests for ruling for certain enumerated transactions under section 368(a)(1) of the Internal Revenue Code by showing specific representations to be included so that the requests will be as complete as possible when initially filed.

Because the information and representations necessary to rule on a particular transaction depend upon all the facts and circumstances, representations in addition to those set forth in this revenue procedure may be required. Careful attention to the preparation of the appropriate representations set forth below will aid in the timely processing of the letter ruling requests.

SEC. 3. PROCEDURE

Rev. Proc. 77–37 is amplified by adding the following as a new section 7 and renumbering the present sections 7 and 8 as sections 8 and 9:

SEC. 7. REPRESENTATIONS

Each representation set forth in this section ordinarily should be submitted in the application for a ruling under the applicable enumerated subparagraph of section 368(a)(1) of the Code. Each representation set forth in the appropriate subsection below should be submitted precisely in the language requested. If a representation cannot be submitted as requested, an explanation must be given. Variations of the language of the representations may delay processing the ruling request and will not be accepted unless reasons satisfactory to the Service are submitted.

The representations relating to the acquisitive reorganizations defined in section 368(a)(1) can be found in the following subsections of this section:

.01 Section 368(a)(1)(A)
.02 Section 368(a)(1)(A) and (a)(2)(D)
.03 Section 368(a)(1)(A) and (a)(2)(E)
.04 Section 368(a)(1)(B)
.05 Section 368(a)(1)(C)
.06 Section 368(a)(1)(D)
.07 Section 368(a)(1)(F)
.08 Miscellaneous representations

.01 Section 368(a)(1)(A) mergers or consolidations:

Legend: Acquiring = the surviving transferee corporation in a merger (or the new corporation formed in a consolidation)
Target = the transferor corporation

1. THE FAIR MARKET VALUE OF THE ACQUIRING STOCK AND OTHER CONSIDERATION RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF THE MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE, OR OTHERWISE DISPOSE OF A NUMBER OF SHARES OF ACQUIRING STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF ACQUIRING STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY, SURRENDERED BY DISSENTERS, OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF ACQUIRING STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF ACQUIRING STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR OR SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. ACQUIRING HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

4. ACQUIRING HAS NO PLAN OR INTENTION TO SELL OR OTHERWISE DISPOSE OF ANY OF THE ASSETS OF TARGET ACQUIRED IN THE TRANSACTION, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS OR TRANSFERS DESCRIBED IN SECTION 368(a)(2)(C) OF THE INTERNAL REVENUE CODE.

5. THE LIABILITIES OF TARGET ASSUMED BY ACQUIRING AND THE LIABILITIES TO WHICH THE TRANSFERRED ASSETS OF TARGET ARE SUBJECT WERE INCURRED BY TARGET IN THE ORDINARY COURSE OF ITS BUSINESS.

6. FOLLOWING THE TRANSACTION, ACQUIRING WILL CONTINUE THE HISTORIC BUSINESS OF TARGET OR USE A SIGNIFICANT PORTION OF TARGET'S HISTORIC BUSINESS ASSETS IN A BUSINESS.

7. ACQUIRING, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

8. THERE IS NO INTERCORPORATE INDEBTEDNESS EXISTING BETWEEN TARGET AND ACQUIRING THAT WAS ISSUED, ACQUIRED, OR WILL BE SETTLED AT A DISCOUNT.

9. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) AND (iv) OF THE INTERNAL REVENUE CODE.

10. TARGET IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMILAR CASE WITHIN THE MEANING OF SECTION 368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

11. THE FAIR MARKET VALUE OF THE ASSETS OF TARGET TRANSFERRED TO ACQUIRING WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES ASSUMED BY ACQUIRING PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

12. (If the transaction also meets the definition of a reorganization under section 368(a)(1)(D) of the Code, submit the following:)

THE TOTAL ADJUSTED BASIS OF THE ASSETS OF TARGET TRANSFERRED TO ACQUIRING WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES ASSUMED BY ACQUIRING, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

.02 Section 368(a)(1)(A) and (a)(2)(D) mergers

Legend: Parent = the controlling corporation

Sub = the acquiring corporation

Target = the transferor corporation

1. THE FAIR MARKET VALUE OF THE PARENT STOCK AND OTHER CONSIDERATION RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF THE MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE OR OTHERWISE DISPOSE OF A NUMBER OF SHARES OF PARENT STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF PARENT STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY, SURRENDERED BY DISSENTERS OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF PARENT STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF PARENT STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR OR SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. SUB WILL ACQUIRE AT LEAST 90 PERCENT OF THE FAIR MARKET VALUE OF THE NET ASSETS AND AT LEAST 70 PERCENT OF THE FAIR MARKET VALUE OF THE GROSS ASSETS HELD BY TARGET IMMEDIATELY PRIOR TO THE TRANSACTION. FOR PURPOSES OF THIS REPRESENTATION, AMOUNTS PAID BY TARGET TO DISSENTERS, AMOUNTS PAID BY TARGET TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, TARGET ASSETS USED TO PAY ITS REORGANIZATION EXPENSES, AND ALL REDEMPTIONS AND DISTRIBUTIONS (EXCEPT FOR REGULAR, NORMAL DIVIDENDS) MADE BY TARGET IMMEDIATELY PRECEDING THE TRANSFER, WILL BE INCLUDED AS ASSETS OF TARGET HELD IMMEDIATELY PRIOR TO THE TRANSACTION.

4. PRIOR TO THE TRANSACTION, PARENT WILL BE IN CONTROL OF SUB WITHIN THE MEANING OF SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

5. FOLLOWING THE TRANSACTION, SUB WILL NOT ISSUE ADDITIONAL SHARES OF ITS STOCK THAT WOULD RESULT IN PARENT LOSING CONTROL OF SUB WITHIN THE MEANING OF SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

6. PARENT HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

7. PARENT HAS NO PLAN OR INTENTION TO LIQUIDATE SUB; TO MERGE SUB WITH AND INTO ANOTHER CORPORATION; TO SELL OR OTHERWISE DISPOSE OF THE STOCK OF SUB; OR TO CAUSE SUB TO SELL OR OTHERWISE DISPOSE OF ANY OF THE ASSETS OF TARGET ACQUIRED IN THE TRANSACTION, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS OR TRANSFERS DESCRIBED IN SECTION 368(a)(2)(C) OF THE INTERNAL REVENUE CODE.

8. THE LIABILITIES OF TARGET ASSUMED BY SUB AND THE LIABILITIES TO WHICH THE TRANSFERRED ASSETS OF TARGET ARE SUBJECT WERE INCURRED BY TARGET IN THE ORDINARY COURSE OF ITS BUSINESS.

9. FOLLOWING THE TRANSACTION, SUB WILL CONTINUE THE HISTORIC BUSINESS OF TARGET OR USE A SIGNIFICANT PORTION OF TARGET'S BUSINESS ASSETS IN A BUSINESS.

10. PARENT, SUB, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

11. THERE IS NO INTERCORPORATE INDEBTEDNESS EXISTING BETWEEN PARENT AND TARGET OR BETWEEN SUB AND TARGET THAT WAS ISSUED, ACQUIRED, OR WILL BE SETTLED AT A DISCOUNT.

12. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) and (iv) OF THE INTERNAL REVENUE CODE.

13. TARGET IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMILAR CASE WITHIN THE MEANING OF SECTION 368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

14. THE FAIR MARKET VALUE OF THE ASSETS OF TARGET TRANSFERRED TO SUB WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES ASSUMED BY SUB, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

15. NO STOCK OF SUB WILL BE ISSUED IN THE TRANSACTION.

.03 Section 368(a)(1)(A) and (a)(2)(E) mergers:

Legend: Parent = the controlling corporation

Sub = the merged corporation

Target = the surviving corporation

1. THE FAIR MARKET VALUE OF THE PARENT STOCK AND OTHER CONSIDERATION RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR

MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF THE MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE, OR OTHERWISE DISPOSE OF A NUMBER OF SHARES OF PARENT STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF PARENT STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY, SURRENDERED BY DISSENTERS OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF PARENT STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF PARENT STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR OR SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. FOLLOWING THE TRANSACTION, TARGET WILL HOLD AT LEAST 90 PERCENT OF THE FAIR MARKET VALUE OF ITS NET ASSETS AND AT LEAST 70 PERCENT OF THE FAIR MARKET VALUE OF ITS GROSS ASSETS AND AT LEAST 90 PERCENT OF THE FIAR MARKET VALUE OF SUB'S NET ASSETS AND AT LEAST 70 PERCENT OF THE FAIR MARKET VALUE OF THE SUB'S GROSS ASSETS HELD IMMEDIATELY PRIOR TO THE TRANSACTION. FOR PURPOSES OF THIS REPRESENTATION, AMOUNTS PAID BY TARGET OR SUB TO DISSENTERS, AMOUNTS PAID BY TARGET OR SUB TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, AMOUNTS USED BY TARGET OR SUB TO PAY REORGANIZATION EXPENSES, AND ALL REDEMPTIONS AND DISTRIBUTIONS (EXCEPT FOR REGULAR, NORMAL DIVIDENDS) MADE BY TARGET WILL BE INCLUDED AS ASSETS OF TARGET OR SUB, RESPECTIVELY, IMMEDIATELY PRIOR TO THE TRANSACTION.

4. PRIOR TO THE TRANSACTION, PARENT WILL BE IN CONTROL OF SUB WITHIN THE MEANING OF SECTION 369(c)(1) OF THE INTERNAL REVENUE CODE.

5. TARGET HAS NO PLAN OR INTENTION TO ISSUE ADDITIONAL SHARES OF ITS STOCK THAT WOULD RESULT IN PARENT LOSING CONTROL OF TARGET WITHIN THE MEANING OF SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

6. PARENT HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

7. PARENT HAS NO PLAN OR INTENTION TO LIQUIDATE TARGET; TO MERGE TARGET WITH OR INTO ANOTHER CORPORATION; TO SELL OR OTHERWISE DISPOSE OF THE STOCK OF TARGET EXCEPT FOR TRANSFERS OF STOCK TO CORPORATIONS CONTROLLED BY BY PARENT; OR TO CAUSE TARGET TO SELL OR OTHERWISE DISPOSE OF ANY OF ITS ASSETS OR OF ANY OF THE ASSETS ACQUIRED FORM SUB, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS OR TRANSFERS OF ASSETS TO A CORPORATION CONTROLLED BY TARGET.

8. THE LIABILITIES OF SUB ASSUMED BY TARGET AND THE LIABILITIES TO WHICH THE TRANSFERRED ASSETS OF SUB ARE SUBJECT WERE INCURRED BY SUB IN THE ORDINARY COURSE OF ITS BUSINESS. (Alternatively) SUB WILL HAVE NO LIABILITIES ASSUMED BY TARGET, AND WILL NOT TRANSFER TO TARGET ANY ASSETS SUBJECT TO LIABILITIES, IN THE TRANSACTION.

9. FOLLOWING THE TRANSACTION, TARGET WILL CONTINUE ITS HISTORIC BUSINESS OR USE A SIGNIFICANT PORTION OF ITS HISTORIC BUSINESS ASSETS IN A BUSINESS.

10. PARENT, SUB, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

11. THERE IS NO INTERCORPORATE INDEBTEDNESS EXISTING BETWEEN PARENT AND TARGET OR BETWEEN SUB AND TARGET THAT WAS ISSUED, ACQUIRED, OR WILL BE SETTLED AT A DISCOUNT.

12. IN THE TRANSACTION, SHARES OF TARGET STOCK REPRESENTING CONTROL OF TARGET, AS DEFINED IN SECTION 368(c)(1) OF THE CODE, WILL BE EXCHANGED SOLELY FOR VOTING STOCK OF PARENT. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY ORIGINATING WITH PARENT WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION.

13. AT THE TIME OF THE TRANSACTION, TARGET WILL NOT HAVE OUTSTANDING ANY WARRANTS, OPTIONS, COVERTIBLE SECURITIES, OR ANY OTHER TYPE OF RIGHT PURSUANT TO WHICH ANY PERSON COULD ACQUIRE STOCK IN TARGET THAT, IF EXERCISED OR CONVERTED, WOULD AFFECT PARENT'S ACQUISITION OR RETENTION OF CONTROL OF TARGET, AS DEFINED IN SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

14. PARENT DOES NOT OWN, NOR HAS IT OWNED DURING THE PAST FIVE YEARS, ANY SHARES OF THE STOCK OF TARGET.

15. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) AND (iv) OF THE INTERNAL REVENUE CODE.

16. ON THE DATE OF THE TRANSACTION, THE FAIR MARKET VALUE OF THE ASSETS OF TARGET WILL EXCEED THE SUM OF ITS LIABILITIES, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE ASSETS ARE SUBJECT.

17. TARGET IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMULAR CASE WITHIN THE MEANING OF SECTION

368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

.04 Section 368(a)(1)(B) reorganizations:

Legend: Acquiring = the acquiring corporation

Target = the corporation whose stock is acquired

1. THE FAIR MARKET VALUE OF THE ACQUIRING STOCK RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF THE MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE, OR OTHERWISE DISPOSE OF A NUMBER OF SHARES OF ACQUIRING STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF ACQUIRING STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK SURRENDERED BY DISSENTERS OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF ACQUIRING STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF ACQUIRING STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR OR SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. TARGET HAS NO PLAN OR INTENTION TO ISSUE ADDITIONAL SHARES OF ITS STOCK THAT WOULD RESULT IN ACQUIRING LOSING CONTROL OF TARGET WITHIN THE MEANING OF SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

4. ACQUIRING HAS NO PLAN OR INTENTION TO LIQUIDATE TARGET; TO MERGE TARGET INTO ANOTHER CORPORATION; TO CAUSE TARGET TO SELL OR OTHERWISE DISPOSE OF ANY OF ITS ASSETS, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS; OR TO SELL OR OTHERWISE DISPOSE OF ANY OF THE TARGET STOCK ACQUIRED IN THE TRANSACTION, EXCEPT FOR TRANSFERS DESCRIBED IN SECTION 368(a)(2)(C) OF THE INTERNAL REVENUE CODE.

5. ACQUIRING HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

6. ACQUIRING, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

7. ACQUIRING WILL ACQUIRE TARGET STOCK SOLELY IN EXCHANGE FOR ACQUIRING VOTING STOCK. FOR PURPOSES OF THIS REPRESENTATION, TARGET STOCK REDEEMED FOR CASH OR OTHER PROPERTY FURNISHED BY ACQUIRING WILL BE CONSIDERED AS ACQUIRED BY ACQUIRING. FURTHER, NO LIABILITIES OF TARGET OR THE TARGET SHAREHOLDERS WILL BE ASSUMED BY ACQUIRING, NOR WILL ANY OF THE TARGET STOCK BE SUBJECT TO ANY LIABILITIES.

8. AT THE TIME OF THE TRANSACTION, TARGET WILL NOT HAVE OUTSTANDING ANY WARRANTS, OPTIONS, CONVERTIBLE SECURITIES, OR ANY OTHER TYPE OF RIGHT PURSUANT TO WHICH ANY PERSON COULD ACQUIRE STOCK IN TARGET THAT, IF EXERCISED OR CONVERTED, WOULD AFFECT ACQUIRING'S ACQUISITION OR RETENTION OF CONTROL OF TARGET, AS DEFINED IN SECTION 368(c)(1) OF THE INTERNAL REVENUE CODE.

9. ACQUIRING DOES NOT OWN, DIRECTLY OR INDIRECTLY, NOR HAS IT OWNED DURING THE PAST FIVE YEARS, DIRECTLY OR INDIRECTLY, ANY STOCK OF TARGET.

10. FOLLOWING THE TRANSACTION, TARGET WILL CONTINUE ITS HISTORIC BUSINESS OR USE A SIGNIFICANT PORTION OF ITS HISTORIC BUSINESS ASSETS IN A BUSINESS.

11. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) AND (iv) OF THE INTERNAL REVENUE CODE.

12. TARGET WILL PAY ITS DISSENTING SHAREHOLDERS THE VALUE OF THEIR STOCK OUT OF ITS OWN FUNDS. NO FUNDS WILL BE SUPPLIED FOR THAT PURPOSE, DIRECTLY OR INDIRECTLY, BY ACQUIRING, NOR WILL ACQUIRING DIRECTLY OR INDIRECTLY REIMBURSE TARGET FOR ANY PAYMENTS TO DISSENTERS. (Alternatively) THERE WILL BE NO DISSENTERS TO THE TRANSACTION.

13. ON THE DATE OF THE TRANSACTION, THE FAIR MARKET VALUE OF THE ASSETS OF TARGET WILL EXCEED THE SUM OF ITS LIABILITIES PLUS THE LIABILITIES, IF ANY, TO WHICH THE ASSETS ARE SUBJECT.

.05 Section 368(a)(1)(C) reorganizations:

Legend: Acquiring = the acquiring transferee corporation

Target = the transferor corporation

1. THE FAIR MARKET VALUE OF THE ACQUIRING STOCK RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE, OR OTHERWISE DISPOSE OF A NUM-

BER OF SHARES OF ACQUIRING STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF ACQUIRING STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY, SURRENDERED BY DISSENTERS, OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF ACQUIRING STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF ACQUIRING STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR OR SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. ACQUIRING WILL ACQUIRE AT LEAST 90 PERCENT OF THE FAIR MARKET VALUE OF THE NET ASSETS AND AT LEAST 70 PERCENT OF THE FAIR MARKET VALUE OF THE GROSS ASSETS HELD BY TARGET IMMEDIATELY PRIOR TO THE TRANSACTION. FOR PURPOSES OF THIS REPRESENTATION, AMOUNTS PAID BY TARGET TO DISSENTERS, AMOUNTS USED BY TARGET TO PAY ITS REORGANIZATION EXPENSES, AMOUNTS PAID BY TARGET TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, AND ALL REDEMPTIONS AND DISTRIBUTIONS (EXCEPT FOR REGULAR, NORMAL DIVIDENDS) MADE BY TARGET IMMEDIATELY PRECEDING THE TRANSFER WILL BE INCLUDED AS ASSETS OF TARGET HELD IMMEDIATELY PRIOR TO THE TRANSACTION.

4. ACQUIRING HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

5. ACQUIRING HAS NO PLAN OR INTENTION TO SELL OR OTHERWISE DISPOSE OF ANY OF THE ASSETS OF TARGET ACQUIRED IN THE TRANSACTION, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS OR TRANSFERS DESCRIBED IN SECTION 368(a)(2)(C) OF THE INTERNAL REVENUE CODE.

6. TARGET WILL DISTRIBUTE THE STOCK, SECURITIES, AND OTHER PROPERTY IT RECEIVES IN THE TRANSACTION, AND ITS OTHER PROPERTIES, IN PURSUANCE OF THE PLAN OF REORGANIZATION.

7. THE LIABILITIES OF TARGET ASSUMED BY ACQUIRING AND THE LIABILITIES TO WHICH THE TRANSFERRED ASSETS OF TARGET ARE SUBJECT WERE INCURRED BY TARGET IN THE ORDINARY COURSE OF ITS BUSINESS.

8. FOLLOWING THE TRANSACTION, ACQUIRING WILL CONTINUE THE HISTORIC BUSINESS OF TARGET OR USE A SIGNIFICANT PORTION OF TARGET'S HISTORIC BUSINESS ASSETS IN A BUSINESS.

9. ACQUIRING, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

10. THERE IS NO INTERCORPORATE INDEBTEDNESS EXISTING BETWEEN ACQUIRING AND TARGET THAT WAS ISSUED, ACQUIRED, OR WILL BE SETTLED AT A DISCOUNT.

11. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) AND (iv) OF THE INTERNAL REVENUE CODE.

12. ACQUIRING DOES NOT OWN, DIRECTLY OR INDIRECTLY, NOR HAS IT OWNED DURING THE PAST FIVE YEARS, DIRECTLY OR INDIRECTLY, ANY STOCK OF TARGET.

13. THE FAIR MARKET VALUE OF THE ASSETS OF TARGET TRANSFERRED TO ACQUIRING WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES ASSUMED BY ACQUIRING, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

14. TARGET IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMILAR CASE WITHIN THE MEANING OF SECTION 368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

.06 Section 368(a)(1)(D) acquisitive reorganizations:

Legend: Acquiring = the transferee corporation
Target = the transferor corporation

1. THE FAIR MARKET VALUE OF THE ACQUIRING STOCK AND OTHER CONSIDERATION RECEIVED BY EACH TARGET SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE TARGET STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF TARGET WHO OWN 1 PERCENT OR MORE OF THE TARGET STOCK, AND TO THE BEST OF THE KNOWLEDGE OF THE MANAGEMENT OF TARGET, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF TARGET TO SELL, EXCHANGE, OR OTHERWISE DISPOSE OF A NUMBER OF SHARES OF ACQUIRING STOCK RECEIVED IN THE TRANSACTION THAT WOULD REDUCE THE TARGET SHAREHOLDERS' OWNERSHIP OF ACQUIRING STOCK TO A NUMBER OF SHARES HAVING A VALUE, AS OF THE DATE OF THE TRANSACTION, OF LESS THAN 50 PERCENT OF THE VALUE OF ALL OF THE FORMERLY OUTSTANDING STOCK OF TARGET AS OF THE SAME DATE. FOR PURPOSES OF THIS REPRESENTATION, SHARES OF TARGET STOCK EXCHANGED FOR CASH OR OTHER PROPERTY, SURRENDERED BY DISSENTERS OR EXCHANGED FOR CASH IN LIEU OF FRACTIONAL SHARES OF ACQUIRING STOCK WILL BE TREATED AS OUTSTANDING TARGET STOCK ON THE DATE OF THE TRANSACTION. MOREOVER, SHARES OF TARGET STOCK AND SHARES OF ACQUIRING STOCK HELD BY TARGET SHAREHOLDERS AND OTHERWISE SOLD, REDEEMED, OR DISPOSED OF PRIOR

TO SUBSEQUENT TO THE TRANSACTION WILL BE CONSIDERED IN MAKING THIS REPRESENTATION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. ACQUIRING WILL ACQUIRE AT LEAST 90 PERCENT OF THE FAIR MARKET VALUE OF THE NET ASSETS AND AT LEAST 70 PERCENT OF THE FAIR MARKET VALUE OF THE GROSS ASSETS HELD BY TARGET IMMEDIATELY PRIOR TO THE TRANSACTION. FOR PURPOSES OF THIS REPRESENTATION, AMOUNTS PAID BY TARGET TO DISSENTERS, AMOUNTS PAID BY TARGET TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, AMOUNTS USED BY TARGET TO PAY ITS REORGANIZATION EXPENSES, AND ALL REDEMPTIONS AND DISTRIBUTIONS (EXCEPT FOR REGULAR, NORMAL DIVIDENDS) MADE BY TARGET IMMEDIATELY PRECEDING THE TRANSFER WILL BE INCLUDED AS ASSETS OF TARGET HELD IMMEDIATELY PRIOR TO THE TRANSACTION.

4. AFTER THE TRANSACTION, THE SHAREHOLDERS OF TARGET WILL BE IN CONTROL OF ACQUIRING WITHIN THE MEANING OF SECTION 368(c)(2) OF THE INTERNAL REVENUE CODE.

5. ACQUIRING HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

6. ACQUIRING HAS NO PLAN OR INTENTION TO SELL OR OTHERWISE DISPOSE OF ANY OF THE ASSETS OR TARGET ACQUIRED IN THE TRANSACTION, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS.

7. THE LIABILITIES OF TARGET ASSUMED BY ACQUIRING PLUS THE LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT WERE INCURRED BY TARGET IN THE ORDINARY COURSE OF ITS BUSINESS AND ARE ASSOCIATED WITH THE ASSETS TRANSFERRED.

8. FOLLOWING THE TRANSACTION, ACQUIRING WILL CONTINUE THE HISTORIC BUSINESS OF TARGET OR USE A SIGNIFICANT PORTION OF TARGET'S HISTORIC BUSINESS ASSETS IN A BUSINESS.

9. AT THE TIME OF THE TRANSACTION, ACQUIRING WILL NOT HAVE OUTSTANDING ANY WARRANTS, OPTIONS, CONVERTIBLE SECURITIES, OR ANY OTHER TYPE OF RIGHT PURSUANT TO WHICH ANY PERSON COULD ACQUIRE STOCK IN ACQUIRING THAT, IF EXERCISED OR CONVERTED, WOULD AFFECT THE TARGET SHAREHOLDERS' ACQUISITION OR RETENTION OF CONTROL OF ACQUIRING, AS DEFINED IN SECTION 368(c)(2) OF THE INTERNAL REVENUE CODE.

10. ACQUIRING, TARGET, AND THE SHAREHOLDERS OF TARGET WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

11. THERE IS NO INTERCORPORATE INDEBTEDNESS EXISTING BETWEEN ACQUIRING AND TARGET THAT WAS ISSUED, ACQUIRED, OR WILL BE SETTLED AT A DISCOUNT.

12. NO TWO PARTIES TO THE TRANSACTION ARE INVESTMENT COMPANIES AS DEFINED IN SECTION 368(a)(2)(F)(iii) AND (iv) OF THE INTERNAL REVENUE CODE.

13. THE FAIR MARKET VALUE OF THE ASSETS OF TARGET TRANSFERRED TO ACQUIRING WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES ASSUMED BY ACQUIRING, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

14. THE TOTAL ADJUSTED BASIS OF THE ASSETS OF TARGET TRANSFERRED TO ACQUIRING WILL EQUAL OR EXCEED THE SUM OF THE LIABILITIES TO BE ASSUMED BY ACQUIRING, PLUS THE AMOUNT OF LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT.

15. TARGET IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMILAR CASE WITHIN THE MEANING OF SECTION 368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

.07 Section 368(a)(1)(F) reorganizations:

Legend: Oldco = the transferor corporation
Newco = the surviving transferee corporation

1. THE FAIR MARKET VALUE OF THE NEWCO STOCK AND OTHER CONSIDERATION RECEIVED BY EACH OLDCO SHAREHOLDER WILL BE APPROXIMATELY EQUAL TO THE FAIR MARKET VALUE OF THE OLDCO STOCK SURRENDERED IN THE EXCHANGE.

2. THERE IS NO PLAN OR INTENTION BY THE SHAREHOLDERS OF OLDCO WHO OWN 1 PERCENT OR MORE OF THE OLDCO STOCK, AND TO THE BEST OF THE KNOWLEDGE OF MANAGEMENT OF OLDCO, THERE IS NO PLAN OR INTENTION ON THE PART OF THE REMAINING SHAREHOLDERS OF OLDCO TO SELL, EXCHANGE OR OTHERWISE DISPOSE OF ANY OF THE SHARES OF NEWCO STOCK RECEIVED IN THE TRANSACTION. (Alternatively, for publicly traded companies, submit the above representation substituting "5 percent" for "1 percent" where it appears.)

3. IMMEDIATELY FOLLOWING CONSUMMATION OF THE TRANSACTION, THE SHAREHOLDERS OF OLDCO WILL OWN ALL OF THE OUTSTANDING NEWCO STOCK AND WILL OWN SUCH STOCK SOLELY BY REASON OF THEIR OWNERSHIP OF OLDCO STOCK IMMEDIATELY PRIOR TO THE TRANSACTION.

4. NEWCO HAS NO PLAN OR INTENTION TO ISSUE ADDITIONAL SHARES OF ITS STOCK FOLLOWING THE TRANSACTION.

5. IMMEDIATELY FOLLOWING CONSUMMATION OF THE TRANSACTION, NEWCO WILL POSSESS THE SAME ASSETS AND LIABILITIES, EXCEPT FOR ASSETS DISTRIBUTED TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, ASSETS USED TO PAY DISSENTERS TO THE TRANSACTION, AND ASSETS USED TO PAY EXPENSES INCURRED IN CONNECTION WITH THE TRANSACTION, AS THOSE POSSESSED BY OLDCO IMMEDIATELY PRIOR TO THE TRANSACTION. ASSETS DISTRIBUTED TO SHAREHOLDERS WHO RECEIVE CASH OR OTHER PROPERTY, ASSETS USED TO PAY EXPENSES, ASSETS USED TO PAY DISSENTERS TO THE TRANSACTION, AND ALL REDEMPTIONS AND DISTRIBUTIONS (EXCEPT FOR REGULAR, NORMAL DIVIDENDS)

MADE BY OLDCO IMMEDIATELY PRECEDING THE TRANSACTION WILL, IN THE AGGREGATE, CONSTITUTE LESS THAN ONE PERCENT OF THE NET ASSETS OF OLDCO. DISSENTING SHAREHOLDERS WILL OWN LESS THAN ONE PERCENT OF THE OLDCO STOCK.

6. AT THE TIME OF THE TRANSACTION, OLDCO WILL NOT HAVE OUTSTANDING ANY WARRANTS, OPTIONS, CONVERTIBLE SECURITIES, OR ANY OTHER TYPE OF RIGHT PURSUANT TO WHICH ANY PERSON COULD ACQUIRE STOCK IN OLDCO.

7. NEWCO HAS NO PLAN OR INTENTION TO REACQUIRE ANY OF ITS STOCK ISSUED IN THE TRANSACTION.

8. NEWCO HAS NO PLAN OR INTENTION TO SELL OR OTHERWISE DISPOSE OF ANY OF THE ASSETS OF OLDCO ACQUIRED IN THE TRANSACTION, EXCEPT FOR DISPOSITIONS MADE IN THE ORDINARY COURSE OF BUSINESS.

9. THE LIABILITIES OF OLDCO ASSUMED BY NEWCO PLUS THE LIABILITIES, IF ANY, TO WHICH THE TRANSFERRED ASSETS ARE SUBJECT WERE INCURRED BY OLDCO IN THE ORDINARY COURSE OF ITS BUSINESS AND ARE ASSOCIATED WITH THE ASSETS TRANSFERRED.

10. FOLLOWING THE TRANSACTION, NEWCO WILL CONTINUE THE HISTORIC BUSINESS OF OLDCO OR USE A SIGNIFICANT PORTION OF OLDCO'S HISTORIC BUSINESS ASSETS IN A BUSINESS.

11. THE SHAREHOLDERS WILL PAY THEIR RESPECTIVE EXPENSES, IF ANY, INCURRED IN CONNECTION WITH THE TRANSACTION.

12. OLDCO IS NOT UNDER THE JURISDICTION OF A COURT IN A TITLE 11 OR SIMILAR CASE WITHIN THE MEANING OF SECTION 368(a)(3)(A) OF THE INTERNAL REVENUE CODE.

.08 Miscellaneous representations to be submitted, if applicable:

1. THE PAYMENT OF CASH IN LIEU OF FRACTIONAL SHARES OF (ACQUIRING, PARENT, OR OLDCO) STOCK IS SOLELY FOR THE PURPOSE OF AVOIDING THE EXPENSE AND INCONVENIENCE TO (ACQUIRING, PARENT, OR OLDCO) OF ISSUING FRACTIONAL SHARES AND DOES NOT REPRESENT SEPARATELY BARGAINED-FOR CONSIDERATION. THE TOTAL CASH CONSIDERATION THAT WILL BE PAID IN THE TRANSACTION TO THE TARGET SHAREHOLDERS INSTEAD OF ISSUING FRACTIONAL SHARES OF (ACQUIRING, PARENT, OR OLDCO) STOCK WILL NOT EXCEED ONE PERCENT OF THE TOTAL CONSIDERATION THAT WILL BE ISSUED IN THE TRANSACTION TO THE TARGET SHAREHOLDERS IN EXCHANGE FOR THEIR SHARES OF TARGET STOCK. THE FRACTIONAL SHARE INTERESTS OF EACH TARGET SHAREHOLDER WILL BE AGGREGATED, AND NO TARGET SHAREHOLDER WILL RECEIVE CASH IN AN AMOUNT EQUAL TO OR GREATER THAN THE VALUE OF ONE FULL SHARE OF (ACQUIRING, PARENT, OR OLDCO) STOCK.

2. NONE OF THE COMPENSATION RECEIVED BY ANY SHAREHOLDER-EMPLOYEES OF TARGET WILL BE SEPARATE CONSIDERATION FOR, OR ALLOCABLE TO, ANY OF THEIR SHARES OF TARGET STOCK; NONE OF THE SHARES OF ACQUIRING STOCK RECEIVED BY ANY SHAREHOLDER-EMPLOYEES WILL BE SEPARATE CONSIDERATION FOR, OR ALLOCABLE TO, ANY EMPLOYMENT AGREEMENT; AND THE COMPENSATION PAID TO ANY SHAREHOLDER-EMPLOYEES WILL BE FOR SERVICES ACTUALLY RENDERED AND WILL BE COMMENSURATE WITH AMOUNTS PAID TO THIRD PARTIES BARGAINING AT ARM'S-LENGTH FOR SIMILAR SERVICES.

3. ACQUIRING WILL PAY OR ASSUME ONLY THOSE EXPENSES OF TARGET THAT ARE SOLELY AND DIRECTLY RELATED TO THE TRANSACTION IN ACCORDANCE WITH THE GUIDELINES ESTABLISHED IN REV. RUL. 73–54, 1973–1 C.B. 187.

SEC. 4. EFFECTIVE DATE

This revenue procedure will apply to all ruling requests received in the National Office subsequent to November 10, 1986, the date of publication of this revenue procedure in the Internal Revenue Bulletin.

SEC. 5. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 77–37 is amplified.

Part IV. Items of General Interest

Instructions for Payment of Interest on Tax Deficiencies

Announcement 86–108

The Tax Reform Act of 1986 provides that interest on most tax deficiencies of non-corporate taxpayers will be treated as "personal interest" and will not be fully deductible after 1986. As a result, taxpayers may wish to pay actual or contested tax deficiencies in 1986 in order to assure that interest paid on such deficiencies will be fully deductible on their 1986 returns. The purpose of this announcement is to provide guidance to such taxpayers. This announcement interprets, and expands upon, the formal advice given to taxpayers concerning payments of deficiencies in Revenue Procedure 84–58, 1984–2 C.B. 501.

A. *General Considerations*

The following general considerations should aid in understanding the detailed instructions that follow.

1. Taxpayers should carefully review this announcement to assure that their payments can be properly credited by the Service. Despite its desire to assist taxpayers in settling their tax obligations, the Service can apply payments to interest accrued on tax deficiencies only if certain formalities are observed. To assure that the correct amount of a payment is posted as interest, the taxpayer should submit the appropriate form with any payment in order to enable the Service to assess the tax. Failure to observe these formalities may cause the payment to be applied to the taxpayer's underlying tax deficiency or to be posted to the taxpayer's account as a "cash bond." In either case, the taxpayer would receive no interest deduction for 1986.

2. Taxpayers will be bound by the consequences of paying contested liabilities. For example, a taxpayer who pays his or her entire potential tax liability before receiving a Statutory Notice of Deficiency will not have the right to petition the Tax Court for a redetermination of the deficiency and refund of such payment; instead, such a taxpayer will be able to obtain a refund only by successfully suing the Government in the Claims Court or a U.S. District Court. Similarly, a taxpayer who not only pays a deficiency but agrees to concede a case that is being contested in Tax Court may neither file a later claim for refund nor litigate the claim in either the Claims Court or the U.S. District Court.

As another example, if an investor in a tax shelter partnership that is not subject to the partnership audit rules (Code sections 6221–6233) pays a contested amount and if, at a later date, the Service offers to settle other similar cases on more favorable terms, the Service will not refund to the investor the excess of the amount paid in 1986 over the amount that the investor would have been required to pay under the later settlement offer.

3. The Service does not have the resources to accelerate the conclusion of a large number of examinations during 1986. Thus, a taxpayer whose returns are currently under examination may not know before the end of 1986 whether the revenue agent will propose deficiencies with respect to such returns. In these circumstances, the taxpayer may have to estimate the amount that he or she believes the revenue agent will propose as a tax deficiency and file an amended return that reflects such amount of additional tax for the year in question.

Furthermore, even those taxpayers who have received a Notice of Proposed Deficiency (or "30-day letter") indicating the amount that the revenue agent has proposed as a deficiency with respect to a particular tax return may have difficulty obtaining necessary assistance from the Service Appeals Officer or revenue agent assigned to their case, if they do not contact the Appeals Officer or revenue agent immediately. Ordinarily, taxpayers will be dealt with on a "first come, first served" basis; in most cases, however, the taxpayer will be able to make the appropriate payment without assistance from the Service.

4. In general, a taxpayer may not pay interest on a contested deficiency without simultaneously paying, or agreeing to pay, the underlying tax deficiency with respect to which the interest is being paid. A taxpayer may satisfy this requirement if the payment consists of interest accrued on a tax that has already been paid or if the taxpayer designates as interest an amount that is proportionate to the tax being paid for the year in question. For example, if a taxpayer has an asserted tax deficiency of $12,000 on which $6,000 of interest has accrued, the taxpayer may not simply pay $6,000 and designate the entire payment as interest. However, the taxpayer may pay $6,000 and designate up to $2,000 as interest, in which case the Service will apply the remaining $4,000 of the payment to the underlying tax deficiency. Similarly, if the taxpayer previously has paid $5,000 of the asserted $12,000 tax deficiency, the taxpayer may designate as interest the amount that accrued on the $5,000 prior to its payment, as well as the interest that subsequently has accrued with respect to that interest.

5. In limited circumstances, a taxpayer who agrees to pay a contested tax liability may pay the interest attributable to the deficiency before paying the actual amount of the deficiency. For example, if a taxpayer has received a Notice of Proposed Deficiency asserting a $10,000 tax liability, the taxpayer may execute the Form 870 enclosed with the Notice of Proposed Deficiency or may file an amended return (Form 1040X) for the year in question. If $5,000 of interest has accrued on the deficiency, the taxpayer may tender a payment of $5,000 with the executed Form 870 and request that the payment be applied to the accrued interest, and the Service will credit the entire payment to interest due on the deficiency. Taxpayers who utilize this procedure should understand, however, that, under normal collection procedures, the Service will bill them for the remaining tax deficiency and any subsequently accrued interest; if that amount is not paid when billed, the taxpayer's account will be turned over to the Collection Division for appropriate action.

6. Payments, once made and applied to tax deficiencies or interest thereon, cannot be refunded to the taxpayer, unless the Service or a Court later determines that the payment exceeds the taxpayer's legal liability for the year in question.

B. *Categories of Taxpayers*

Taxpayers wishing to make payments of contested or potentially contested tax deficiencies generally fall into one of several categories. The instructions that follow are provided for taxpayers in each category. The categories are:

(1) taxpayers who have petitioned the Tax Court for a redetermination of a de-

ficiency asserted by the Service in a Statutory Notice of Deficiency (a "90-day letter");

(2) taxpayers who have received a Statutory Notice of Deficiency, but have neither agreed to the proposed deficiency nor filed a petition for redetermination by the Tax Court;

(3) taxpayers whose returns have been examined by the Service and who have received a Notice of Proposed Deficiency (a "30-day letter"), but who have not received a Statutory Notice of Deficiency; and

(4) taxpayers who have not received the final results of a pending examination of their returns by the Service, as well as those who have been notified that their returns are to be examined, but as to which no actual examination has commenced.

C. *Detailed Instructions*

This section provides instructions to taxpayers falling into the categories enumerated above. Taxpayers should identify the category that corresponds to their situation and review the applicable instructions. Special rules may apply to taxpayers whose returns are involved in an entity-level audit under the partnership or S corporation audit rules. Those rules will be described in a subsequent announcement.

1. *Taxpayers Who Have Petitioned the Tax Court.*

a. *Taxpayers Desiring to Concede Their Tax Court Cases.* A taxpayer whose case is pending before the Tax court and who wishes to settle the case by conceding the entire asserted deficiency should contact the Service attorney or Appeals Officer who is assigned to the case. The attorney or Appeals Officer will prepare a decision document, through which the proposed deficiency will be incorporated into a final court decision. Such a final decision is binding on the taxpayer and may not be further contested in any court.

If a taxpayer executes a decision document agreeing to pay the entire amount in controversy before the Tax Court, the taxpayer may pay the accrued interest on the deficiency before the Service actually bills the taxpayer for the underlying deficiency amount. In making this payment, the taxpayer may estimate the amount due as interest, even if the amount of accrued interest has not been determined prior to execution of the decision document. In such a case, if the total amount of the deficiency and accrued interest exceeds the amount paid, the taxpayer will be billed for the balance. If the amount paid exceeds the amount of interest that had accrued as of the date of the payment, the excess will be applied to the underlying tax deficiency; any such excess is nondeductible.

b. *Taxpayers Desiring to Settle Their Tax Court Cases.* A taxpayer whose case is pending before the Tax Court and who wishes to settle the case on some basis other than a full concession should immediately contact the Service attorney or Appeals Officer who is assigned to the case. If a settlement is agreed to, the attorney or Appeals Officer will prepare the appropriate decision document. If the Service is unable to provide the taxpayer with a decision document in 1986, the taxpayer may utilize the procedure outlined in the next subsection, relating to taxpayers who wish to make payment on asserted deficiencies while continuing to litigate their cases in Tax Court. Under these circumstances, the appropriate Service attorney or Appeals Officer will process the decision document as soon as possible in 1987.

If the Service and the taxpayer are unable to reach agreement on a settlement, the taxpayer may utilize the procedure outlined immediately below for taxpayers who wish to make payment on asserted deficiencies being contested in Tax Court while continuing to litigate their cases in Tax Court.

c. *Taxpayers Desiring to Make a Payment in 1986, While Continuing to Contest the Asserted Deficiency in Tax Court.* A taxpayer whose case is pending in Tax Court may pay all or any portion of the amount in controversy in Tax Court and continue to litigate his or her case. In order to obtain an interest deduction for a payment made in 1986 while continuing to litigate in Tax Court, the taxpayer must simultaneously pay the amount of the contested tax deficiency to which the interest being paid is attributable. For example, if the amount of tax in controversy is $20,000 and the interest accrued on the contested tax liability is $10,000, the taxpayer can obtain an interest deduction of $5,000 only by tendering a total payment of $15,000 *and* designating that $5,000 of such payment be applied to interest on the contested tax liability. If the taxpayer fails to make any designation with such payment, the entire payment will be applied to the contested tax deficiency and no amount will be applied to interest on such deficiency.

Payments made under this procedure should be delivered to the Service attorney or Appeals Officer who is handling the case. If the final decision of the Tax Court is adverse to the taxpayer, the taxpayer will be billed for only the excess of the total deficiency and accrued interest over the amount paid; if the final decision is favorable to the taxpayer, any excess payments will be refunded to the taxpayer.

2. *Taxpayers Who Have Received a Statutory Notice of Deficiency But Have Not Petitioned the Tax Court.*

a. *Taxpayers Who Do Not Wish to Contest Their Notice of Deficiency.* If the taxpayer has received a Statutory Notice of Deficiency but has not petitioned the Tax Court and does not wish to contest the asserted deficiency, the taxpayer should sign the Form 870 included with the Statutory Notice and return it to the Service. If the taxpayer tenders a payment with the Form 870 and requests that the payment be applied to interest accrued on the deficiency, the Service will apply the payment first to the interest and then to the tax deficiency, and will bill the taxpayer for the remaining deficiency amount.

b. *Taxpayers Who Wish to Petition the Tax Court.* If the taxpayer has received a Statutory Notice of Deficiency and wishes to petition the Tax Court within the statutory period for a redetermination of such deficiency, the taxpayer may make a full or partial payment with respect to the asserted deficiency in 1986 without losing the right to petition the Tax Court for a redetermination of the deficiency. The taxpayer should tender, to the Service office that issued the Notice, a payment accompanied by a written statement designating the specific portion of the payment to be applied to interest and the portion to be applied to the asserted deficiency. The taxpayer must pay a proportionate amount of the underlying tax deficiency. Rev. Proc. 84–58, 1984–2 C.B. 501. If such a payment is made and no portion of the payment is designated as interest, the entire payment will be applied first against the asserted tax liability, then against asserted penalties, and only the remainder will be applied against interest accrued on the contested deficiency.

3. *Taxpayers Who Have Received a Notice of Proposed Deficiency.*

a. *Taxpayers Who Do Not Wish to Contest the Notice.* If the taxpayer has received a Notice of Proposed Deficiency and does not wish to contest the liability, the taxpayer should execute the Form 870 enclosed with the Notice of Proposed Deficiency and tender a payment for some or all of the asserted tax deficiency, penalties (if any), and accrued interest. The taxpayer may request that a partial payment be applied first against the accrued interest.

In lieu of the Form 870, the taxpayer may file with the appropriate Service Center an amended return (Form 1040X) for the year in question, reflecting the proposed deficiency on the return and tendering a payment for some or all of the entire amount of the asserted deficiency and accrued interest. As with an executed Form 870, the taxpayer may request that a partial payment be applied first against accrued interest.

If a taxpayer executes a Form 870 or files a Form 1040X for the entire amount of the proposed deficiency and accured interest and tenders only a partial payment, the Service will bill the taxpayer for the balance. If the taxpayer later wishes to reopen the case, the taxpayer must pay the balance due and file a claim for refund with the Service. If the claim is denied, the taxpayer will be required to file a suit in the Claims Court or U.S. District Court to recover the amount paid.

b. *Taxpayers Who Wish to Contest Some or All of the Notice*. If the taxpayer wishes to contest one or more items reflected in the Notice of Proposed Deficiency, the taxpayer has several options. First, the taxpayer may execute a Form 870 or 1040X with respect to some, but not all, of the proposed deficiency. As discussed above, the taxpayer may tender with the Form 870 or 1040X a payment allocated solely to interest, and the Service will bill the taxpayer for the balance; however, the interest payment may not exceed the amount accrued with respect to the increased liability reflected on the Form 870 or 1040X. If the total amount of the prior payments of tax is less than the entire amount of the tax that ultimately is asserted to have been due, the Service will issue the taxpayer a Statutory Notice of Deficiency and the taxpayer may petition the Tax Court for redetermination of the deficiency.

Alternatively, the taxpayer may file a Form 870 or Form 1040X with respect to the entire amount of the asserted deficiency. As discussed above, however, if the taxpayer's tax payments exceed the proposed adjustments, the taxpayer will be able to contest the asserted deficiency only by filing a claim for refund.

4. *Taxpayers Who Have Been Notified That Their Returns Are Under Examination, But Have Not Received Either a Notice of Proposed Deficiency or a Statutory Notice of Deficiency.*

In general, an interest deduction is not available for federal income tax purposes for any payment that is not attributable to indebtedness. Thus, if a taxpayer's return is under examination but the examination has not progressed to the point at which a proposed deficiency can be asserted, the taxpayer cannot make a payment and assure that it will be respected as interest for federal income tax purposes.

In such a case, however, the taxpayer may file an amended return (Form 1040X) for the year in question that reflects adjustments that the taxpayer expects may be asserted. As discussed above, the taxpayer may pay the entire amount shown to be due on the amended return, or the taxpayer may make a partial payment and request that it be applied first against the interest accrued on the underpayment of the recomputed tax. In the event of a partial payment, the Service will bill the taxpayer for the balance due.

If the Service completes the examination and later issues a Statutory Notice of Deficiency, the taxpayer will retain the right eventually to petition the Tax Court for redetermination of his or her entire liability for the year under examination. If the Service does not issue a Statutory Notice of Deficiency (because the taxpayer's payment exceeds the proposed adjustments) and the taxpayer wishes to reopen the case, the taxpayer will be able to obtain a refund for any overpayment only by filing a claim for refund with the Service. If the Service denies the claim, the taxpayer will be required to file a suit in the Claims Court or U.S. District Court to recover the amount paid.

Lists of Master and Prototype Plans Closed or Otherwise Disposed of Between July 1, 1986 and September 30, 1986, and Plans Omitted from Announcement 85–99

Announcement 86–109

This Announcement contains two lists of master and prototype (M&P) pension, annuity or profit-sharing plans submitted to the National Office of the Internal Revenue Service during 1984 by sponsoring organizations and mass submitters.

The first list (List A) includes those M&P plans that were timely submitted under Revenue Procedure 84–23, 1984–1 C.B. 457, by December 31, 1984, and were closed or otherwise disposed of by the Service between July 1, 1986, and September 30, 1986.

List A contains the names and addresses of the plans' sponsoring organization or mass submitter, symbols indicating the type of plan, and file folder number. It also shows the date of disposition of the plan and the type of disposition as follows: (1) favorable opinion letter (F), (2) unfavorable/nonopinion letter(U), (3) withdrawal letter(W), or (4) other(O).

Employers that adopted an approved M&P plan and, if appropriate, requested a determination letter on or before March 19, 1984, and received a favorable determination letter, retained reliance on their favorable letter under the provisions of Section 12 of Rev. Proc. 84–23. Other adopting employers will have the provisions of Section 12 of Rev. Proc. 84–23 applied to them also, provided the conditions outlined in Announcement 86–60, 1986–19 I.R.B. 17 are met. In either case, if the approved plan is included in List A, the employer must take further action in order to have continued reliance and to meet the compliance date described in Announcement 86–60.

If List A shows that the plan adopted by the employer received a favorable opinion letter, the employer must, within 12 months after the sponsor received the favorable letter, either (1) amend its existing plan by adopting the sponsor's M&P plan as approved by the Service, or (2) adopt an M&P plan of another sponsor on List A or another quarterly list, that has received a favorable letter (See Announcement 85–130, 1985–36 I.R.B. 58).

If List A shows that the plan was closed other than by issuance of a favorable opinion letter, such employer must either (1) make all amendments required by Section 5 of Rev. Proc. 84–23, including amendments to conform with the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) Pub. L. 97–248, 1982–2 C.B. 462, the Tax Reform Act of 1984 (TRA) Pub. L. 98–369, 1984–3 (Vol. 1) C.B. 1, and the Retirement Equity Act of 1984 (REA) Pub. L. 98–397, 1984–2 C.B. 433, and submit a request for a determination letter to the appropriate key district office, or (2) adopt an approved M&P plan of a sponsor that has received a favorable opinion letter and is listed in either Announcement 85–99, 1985–28 I.R.B. 4, or List B of this or the following Announcements: 85–165, 1985–47 I.R.B. 4; 86–43, 1986–14 I.R.B. 13, 86–70, 1986–21 I.R.B. 33, or 86–86, 1986–30 I.R.B. 7. In order to be afforded continued reliance and to meet the compliance date described in Announcement 86–60 the employer must adopt the amended plan by May 31, 1987.

After amending its existing plan or adopting another M&P plan, an employer must request a determination letter from the appropriate key district office in order to rely on the plan's qualification unless the employer adopts a standardized or paired plans within the meaning of Section 6.01 of Rev. Proc. 84–23.

The second list in this Announcement (List B) includes those M&P plans that were inadvertently omitted from the list published in Announcement 85–99. See Announcement 85–99 regarding when these plans must be adopted.

LISTING OF MASTER OR PROTOTYPE PLANS

Abbreviations:

Type of Closing
F = Favorable
U = Unfavorable/nonopinion
W = Withdrawal
O = Other

Type of Plan
P = Paired
S = Standardized (not paired)
NS = Nonstandardized
M = Money Purchase
T = Target Benefit
D = Defined Benefit

Annoucement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practible for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
S. Melvin Apotheker	Miami, FL	Attorney	Indefinite from September 1, 1986
Sandra S. Behn	London, TN	Certified Public Accountant	Indefinite from September 12, 1986
Charles K. Hyter	Hutchinson, KS	Attorney	Indefinite from September 18, 1986
William Pyke	Dallas, TX	Certified Public Accountant	Eighteen Months from August 15, 1986
Alan Z. Richards	West Hempstead, NY	Attorney and Certified Public Accountant	Indefinite from September 20, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
Paul Beecher	Torrance, CA	Indefinite effective September 25, 1986
Michael Winston	Fort Lauderdale, FL	Six Months from October 20, 1986

Under 31 Code of Federal Regulations, Part 10, an enrolled agent, in order to avoid the institution of a proceeding for his disbarment of suspension from practice before the Internal Revenue Service, may offer his resignation. The Director of Practice, in his discretion, may accept the offered resignation of an enrolled agent.

To enable the public and other practitioners to identify such resigned enrolled agents, the Director of Practice will announce in the Internal Revenue Bulletin the name and address of each enrolled agent who has resigned and the effective date of resignation. This announcement will appear in the weekly Bulletin at the earliest practicable date after the action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each resigned enrolled agent, and will later be consolidated and published in the Cumulative Bulletin.

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name of Enrolled Agent	Address	Effective Date of Resignation
William E. Bonafede	Wakefield, RI	September 30, 1986

Under Section 330, Title 31 of the United States Code, the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
James L. Ketner	Charlotte, NC	Certified Public Accountant	September 27, 1986
George L. Weil	Orange, CT	Certified Public Accountant	September 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 51.4989–1, 51.4996–1, 51.4996–3 amended; 51.4996–4 added	Definition of "property" for purposes of the windfall profit tax	1986–42 I.R.B. 15	Nov. 11, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Internal Revenue bulletin

Bulletin No. 1986–46
November 17, 1986

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–131, page 4.
Controlled foreign corporations; exclusion of previously taxed earnings and profits. The proper method to be followed in adjusting the earnings and profits of a controlled foreign corporation to reflect a distribution of property to its domestic shareholder in a situation in which the property has an adjusted basis greater than its fair market value on the date of the distribution is set forth.

Rev. Rul. 86–132, page 5.
Taxation of DISC income to shareholders. This revenue ruling sets forth the "base period T-bill rate" for the periods ending September 30, 1984, September 30, 1985, and September 30, 1986, as required by section 995(f)(4) of the Code.

Rev. Rul. 86–133, page 13.
Net operating loss carryforwards; section 382 and section 383 limitation; interest rate. Adjustments are made to the applicable federal rates for purposes of the limits, under section 382 and section 383 of the Code, on the amount of a corporation's taxable income and income tax liability that can be offset by certain of its net operating loss carryforwards and by other tax attributes following an "ownership change" as defined in section 382(g).

Rev. Rul. 86–135, page 13.
Original issue discount; tax-exempt obligations; interest rate. Adjustments are made to the applicable federal rates under section 1274 of the Code for the determination of the original issue discount on tax-exempt obligations for purposes of section 1288(b)(1).

EXEMPT ORGANIZATIONS

Rev. Proc. 86–43, page 15.
Educational organization; the methodology test. Criteria are set forth to determine whether an organization's viewpoint or position is considered educational under section 501(c)(3) of the Code and section 1.501(c)(3)–1(d)(3) of the regulations.

Announcement 86–111, page 20.
A list is given of organizations now classified as private foundations.

EMPLOYMENT TAX

Page 13.
Railroad Retirement; rate determination; quarterly. The Railroad Retirement Board has determined that the rate of tax imposed by section 3221(c) of the Code shall be 24 cents for the quarter beginning January 1, 1987.

EMPLOYEE PLANS

Notice 86–13, page 17.
Determination and opinion letters issued by the Service will not be reviewed for the qualification requirements of the Tax Reform Act of 1986 until further notice is given.

ADMINISTRATIVE

Treasury Department Order 150–02, page 15.
Establishment of certain offices. Certain offices in the National Office of the Internal Revenue Service are established.

Announcement 86–110, page 18.
The Service invites public comments on projects needed to implement the Tax Reform Act of 1986.

Announcement 86–112, page 22.
Guidance is provided with respect to the information reporting of mortgage interest in situations involving points and other prepaid interest, interest received by cooperative housing corporations, interest received on behalf of another, interest received from nonresident aliens, and Rule of 78s accounting.

Announcement 86–115, page 24.
Form 1099B, Statement for Recipients of Proceeds From Real Estate, Broker, and Barter Exchange Transactions, has been revised.

Announcement 86–116, page 25.
A printing error in Rev. Proc. 86–41, relating to information and representations to be included in a request for a ruling under section 355 of the Code, is corrected.

Finding Lists begin on page 29.
Announcement of Disbarments and Suspensions begin on page 26.
Disposition of Declaratory Judgement Proceedings Under Section 7428 on page 23.

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 312.—Effect on Earnings and Profits

26 CFR 1.312–1: Adjustment to earnings and profits reflecting distributions by corporations.

The earnings and profits of a controlled foreign corporation must be adjusted to reflect the distribution of property to its domestic shareholder in a situation in which the property has an adjusted basis greater than its fair market value on the date of the distribution. See Rev. Rul. 86–131, below.

Section 501.—Exemption From Tax on Corporations, Certain Trusts, Etc.

26 CFR 1.501(c)(3)–1: Organizations organized and operated for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or for the prevention of cruelty to children or animals.

Whether advocacy of a particular viewpoint or position by an organization is considered educational. See Rev. Proc. 86–43, page 14.

Section 959.—Exclusion From Gross Income of Previously Taxed Earnings and Profits

26 CFR 1.959–2: Exclusion from gross income of controlled foreign corporations of previously taxed earnings and profits.
(Also Section 312(a); 1.312–1.)

Controlled foreign corporations; exclusion of previously taxed earnings and profits. The proper method to be followed in adjusting the earnings and profits of a controlled foreign corporation to reflect a distribution of property to its domestic shareholder in a situation in which the property has an adjusted basis greater than its fair market value on the date of the distribution is set forth.

Rev. Rul. 86–131

ISSUE

How are the earnings and profits of a controlled foreign corporation to be adjusted to reflect a distribution to its domestic shareholder of property that has an adjusted basis that exceeds its fair market value?

FACTS

P, a domestic corporation, owns all of the outstanding stock of *FX1*, a controlled foreign corporation (CFC) within the meaning of section 957(a) of the Internal Revenue Code. On December 31, 1983, *FX1* purchased from an unrelated third party, in a transaction in which gain or loss was recognized, all of the outstanding shares of *FX2*, a CFC engaged in manufacturing.

On July 1, 1985, the fair market value of the *FX2* stock held by *FX1* was 50*x* dollars, and *FX1*'s adjusted basis in the *FX2* stock was 100*x* dollars. On that day, *FX1* distributed all of its *FX* stock to *P*.

On December 31, 1985, *FX1* had accumulated earnings and profits that had been previously included in *P*'s income as subpart F income.

LAW AND ANALYSIS

Since *FX1* acquired the stock of *FX2* within five years of the distribution of such stock in a transaction in which gain or loss was recognized, the distribution described above will not qualify as a taxfree distribution of stock under section 355 of the Code and will be treated as a dividend to the extent provided in sections 301 and 316. Section 355(a)(3)(B).

Section 301(b)(1)(C) of the Code provides that, in the case of a distribution to a corporate shareholder from a foreign corporation, the amount taken into account by the shareholder with respect to the property distributed (other than money) is the fair market value of such property. Under section 301(d)(4), such amount becomes the basis of the distributed property in the hands of the distributee. Under section 301(c)(1), the portion of the distribution that is a dividend, as defined in section 316, is included in gross income.

Section 316(a) of the Code provides that a dividend is any distribution of property made by a corporation to its shareholders out of its earnings and profits. Section 959 of the Code provides specific rules for the application of section 316 to the earnings and profits of a CFC. To the extent that an actual distribution is attributable to earnings and profits described in sections 959(c)(1) and 959(c)(2), which previously have been included in the gross income of a United States shareholder of a CFC, section 959(a) provides that such amount is not to be again included in the gross income of the United States shareholder when actually distributed. Section 959(d) provides that such amounts are generally to be treated as distributions that are not "dividends". Only those distributions, if any, attributable to section 959(c)(3) amounts constitute section 316 dividends. In determining the extent to which distributions are attributable to previously taxed earnings and profits, a distribution made by a foreign corporation is to be considered a distribution first out of earnings and profits attributable to amounts previously included in a United States shareholder's gross income under section 951(a)(1)(B) as an increase in earnings invested in United States property under section 956 (section 959(c)(1)), second as a distribution out of earnings and profits attributable to amounts previously included in gross income of a United States shareholder under section 951(a)(1)(A) as subpart F income (section 959(c)(2)), and finally as a distribution out of other earnings and profts (not yet included in a United States shareholder's income) (section 959(c)(3)).

Section 311(a) of the Code provides that, except as provided in section 311(d), no gain or loss is recognized to a corporation on the distribution of property with respect to its stock. Section 311(d)(1) provides that, if a corporation distributes property (other than an obligation of such corporation) to a corporate shareholder in a distribution to which section 301 applies and the fair market value of such property exceeds its adjusted basis in the hands of the distributing corporation, gain shall be recognized to the distributing corporation in an amount equal to such excess as if the property had been sold at the time of distribution. Section 311(d) does not result in the recognition of a loss on the distribution of property.

Section 312(a) of the Code provides that a corporation that distributes property with respect to its stock must decrease its earnings and profits (to the extent thereof) by the sum of:

(1) the amount of money,

(2) the principal amount of the obligations of such corporation (or, in the case of obligations having original issue discount, the aggregate issue price of such obligations), and

(3) the adjusted basis of the other property so distributed.

Under section 1.312–1(b) of the Income Tax Regulations, the reduction of earnings and profits for the adjusted basis of the "other property," as provided in section 312(a)(3), is to be made regardless of whether the property has appreciated or depreciated in value.

The rules of section 312(a) of the Code apply to distributions by a foreign corporation as well as a domestic corporation. *See H.H. Robertson Co. V. Commissioner*, 59 T.C. 53 (1972), *aff'd*, unpublished opinion (3d Cir. 1974). The distribution of *FX2* stock to *P* by *FX1* constitutes a distribution of "other property" within the meaning of section 312(a)(3) of the Code. The total earnings and profits of *FX1* will be reduced (but not below zero) by the adjusted basis of *FX2* stock distributed to *P* pursuant to section 1.312–1(b) of the regulations.

Because the section 959(c) components are intended to reflect the composition of the CFC's total earnings and profits, the section 959(c) components must be reduced by the same amount as the reduction under section 312(a)(3). However, pursuant to section 959(a), the section 959(c)(1) and 959(c)(2) components are reduced, to the extent thereof, by the amount of the dividend before application of section 959, which, under section 301(b)(1)(C), is generally the fair market value of the property distributed. In order to insure that the sum of the components described in section 959(c) will equal the CFC's total earnings and profits after the application of section 312(a)(3), the section 959(c)(3) component must be increased or decreased so that the total of the adjustments to the section 959(c) components equals the section 312(a)(3) reduction.

In the present situation, since the basis of the *FX2* stock (100*x* dollars) in the hands of *FX1* is in excess of the stock's fair market value (50*x* dollars), *FX1* will reduce its section 959(c)(1) and 959(c)(2) components of earnings and profits, to the extent thereof, by the fair market value of the *FX2* stock distributed to *P* and will reduce its section 959(c)(3) component by an amount equal to the difference between adjusted basis of the *FX2* stock and the amount used to reduce the section 959(c)(1) and 959(c)(2) components of earnings and profits. See the following example:

Earnings and Profits of *FX1* for purposes of section 959

	959(c)(1)	*959(c)(2)*	*959(c)(3)*	*Total*
E&P at 12/31/84	30	25	170	225
Plus E&P from 1985 Operations	*10*	*15*	*30*	*55*
Balance end of year prior to reduction for distribution	40	40	200	280
Reduce the 959(c)(1) and (c)(2) components, to the extent thereof, by the FMV (50*x*) of the *FX2* stock distributed	(40)	(10)	-0-	(50)
Reduce the 959(c)(3) component by the difference between the section 312(a)(3) adjustment (100*x*) and the portion of the FMV of *FX2* stock used to reduce the 959(c)(1) & (c)(2) components (50*x*)	-0-	-0-	(50)	(50)
Adjusted E&P that reflects the application of section 312(a)(3) at 12/31/85	-0-	30	150	180

As a result, *FX1*'s total earnings and profits will be properly adjusted to reflect the application of section 312(a)(3).

In a situation in which the fair market value of the property distributed to *P* by *FX1* exceeds *FX1*'s adjusted basis in such property, section 311(d), as amended by the Tax Reform Act of 1984, would require *FX1* to recognize gain in the amount of the appreciation in the property distributed, thereby increasing FX1's earnings and profits by that amount. *FX1*'s earnings and profits would be reduced (to the extent of *FX1*'s section 312 earnings and profits) by the amount of the basis of the property distributed, as adjusted to reflect the gain recognized on the distribution. This amount would be applied first against the previously taxed section 959(c)(1) and (c)(2) components, to the extent thereof, and the remainder, if any, would be applied against the section 959(c)(3) account.

HOLDING

Following a distribution out of earnings and profits by *FX1* to *P* of *FX2* stock, which had depreciated in value, *FX1*'s total earnings and profits will be adjusted: first, by reducing the section 959(c)(1) component, to the extent thereof, by the fair market value of the property distributed; second, by reducing the section 959(c)(2) component, to the extent thereof, by any excess of the fair market value of the distributed property over the total section 959(c)(1) component; and third, by reducing the section 959(c)(3) component by the difference, if any, between the section 312(a)(3) adjustment and the reductions in the section 959(c)(1) and 959(c)(2) components to reflect the application of section 312(a)(3).

Section 995.—Taxation of DISC Income to Shareholders

Taxation of DISC income to shareholders. This revenue ruling sets forth the "base period T-bill rate" for the periods ending September 30, 1984, September 30, 1985, and September 30, 1986, as required by section 995(f)(4) of the Code.

Rev. Rul. 86–132

Section 995(f)(1) of the Internal Revenue Code provides that a shareholder of a DISC shall pay for each taxable year interest in an amount equal to the product of the shareholder's DISC-related deferred tax liability for such year and the base period T-bill rate. This provision applies to tax years ending after December 31, 1984.

Section 995(f)(4) of the Code provides that the term "base period T-bill rate," as used in section 995(f)(1), means the annual rate of interest determined by the Secretary to be equivalent to the average investment yield of United States Treasury bills with maturities of 52 weeks which were auctioned during the 1 year period ending on September 30 of the calendar year ending with (or of the most recent calendar year ending before) the close of the taxable year of the shareholder.

Accordingly, the base period T-bill rate for the period ending September 30, 1984, is 10.96 percent. The base period T-bill rate for the period ending September 30, 1985, is 8.79 percent. The base period T-bill rate for the period ending September 20, 1986, is 6.92 percent. Pursuant to section 6622 of the Code interest shall be compounded daily.

Set forth below is a table providing factors reflecting daily compounding of the base period T-bill rate for any number of days in the shareholder's taxable year (including a 52-53 week accounting period) for both the 1984 and the 1985 base period T-bill rates. To compute the amount of the interest charge for the shareholder's taxable year, multiply the amount of the shareholder's DISC-related deferred tax liability (as defined in section 995(f)(2) of the Code) for such year by the base period T-bill rate factor corresponding to the number of days in the shareholder's taxable year for which the interest charge is being computed. Generally, the factor to be used will be the factor for 365 days. The factor to be used will be other than the factor for 365 days if the shareholder's taxable year for which the interest charge is being determined is a short taxable year, if the shareholder uses the 52–53 week taxable year, or if the shareholder's taxable year is a leap year.

Section 3221.—Rate of Tax

[Railroad Retirement Tax Act]

Determination of Quarterly Rate of Excise Tax for Railroad Retirement Supplemental Annuity Program

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C., Section 3221(c)), the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each work-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning January 1, 1987 shall be at the rate of 24 cents.

In accordance with directions in section 15(a) of the Railroad Retirement Act of 1974, the Railroad Retirement Board has determined that for the quarter beginning January 1, 1987, 29.0 percent of the taxes collected under sections 3211(b) and 3221(c) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Account and 71.0 percent of the taxes collected under such sections 3211(b) and 3221(c) plus one hundred percent of the taxes collected under section 3221(d) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Supplemental Account.

Dated: October 16, 1986.
By Authority of the Board.
BEATRICE EZERSKI,
Secretary to the Board.

(Filed by the Office of the Federal Register on October 22, 1986, 8:45 a.m., and published in the issue of the Federal Register for October 23, 1986, 51 F.R. 37687)

Section 382.—Limitation on Net Operating Loss Carryovers and Certain Built-In Losses Following Change in Control

Rev. Rul. 86–133

Sections 382 and 383 of the Internal Revenue Code were amended by section 621(a) and (b) of the Tax Reform Act of 1986 (the Act), Pub. L. No. 99–514, 100 Stat. _____. Following an "ownership change" as defined in section 382(g), sections 382 and 383 annually limit the amount of a corporation's (1) taxable income that can be offset by certain of its net operating loss (NOL) carryforwards and by other tax attributes, and (2) income tax liability that can be offset by other tax attributes. The NOL carryforwards and other tax attributes to which the limit applies are those that were available prior to the ownership change. This annual limitation is called "the section 382 limitation."

Section 382(b)(1) defines the section 382 limitation for any tax year ending after an ownership change as, in general, an amount equal to (A) the value of the stock of the corporation immediately prior to the ownership change, multiplied by (B) the long-term tax-exempt rate. Section 382(f)(1) provides that the long-term tax-exempt rate shall be the highest of the adjusted federal long-term rates in effect for any month in the three-calendar-month period ending with the calendar month in which the ownership change occurs. Section 382(f)(2) defines the term "adjusted federal long-term rate" as the federal long-term rate determined under section 1274(d), except that (A) paragraphs (2) and (3) thereof shall not apply, and (B) such rate shall be properly adjusted for differences between rates on long-term taxable and tax-exempt obligations. The Conference Report for the Act indicates that the adjusted federal long-term rate is to be computed as the yield on a diversified pool of prime, general obligation tax-exempt bonds with remaining periods to maturity of more than nine years. 2 H.R. Rep. No. 99–841 (Conf. Rep.), 99th Cong., 2d Sess. II–188 (1986).

Section 621(f) of the Act provides that the amendments made by section 621(a) and (b), in general, shall apply to any ownership change following (A) an owner shift involving a 5-percent shareholder, occurring after December 31, 1986, or (B) an equity structure shift occurring pursuant to a plan of reorganization adopted after December 31, 1986.

The adjusted federal long-term rate for the purpose of determining the long-term tax-exempt rate under section 382 is 6.41 percent for November 1986. This monthly rate is calculated in the same manner as the adjusted applicable federal rates for purposes of section 1288 are calculated.

To determine the long-term tax-exempt rate for purposes of section 382(b)(1)(B) of the Code for ownership changes that occur during January 1987, taxpayers must compare the adjusted federal long-term rates for November 1986, December 1986, and January 1987. The highest of these three adjusted federal long-term rates is the long-term tax-exempt rate for January 1987.

Each month, pursuant to section 1274(d), the Internal Revenue Service publishes a revenue ruling containing the applicable federal rates, including the federal long-term rates. In the future, the adjusted federal long-term rate for purposes of section 382 will also be published monthly in that revenue ruling. This monthly publication, starting with the rates for January 1987, will also specify the long-term tax-exempt rate for ownership changes that occur during that month (that is the highest of the adjusted federal long-term rates for that month and the prior two months).

Section 1288.—Treatment of Original Issue Discount on Tax Exempt Obligations

Rev. Rul. 86–135

Section 1288(b)(1) of the Internal Revenue Code provides that in applying section 483 or 1274 to determine original issue discount on tax-exempt obligations, appropriate adjustments shall be made to the section 1274 applicable federal rate (AFR) to take into account the tax exemption for interest on the obligations. Section 382(f)(1) provides that the long-term tax-exempt rate for purposes of section 382 shall be the highest of the adjusted federal long-term rates for the three months ending with the month in which the particular ownership change occurs. See Rev. Rul. 86–133, this page.

The AFR adjusted for section 1288 purposes (adjusted AFR) and the adjusted federal long-term rate for section 382 purposes for the month of November 1986 are listed below. In the future, the adjusted AFR, the adjusted federal long-term rate, and the long-term tax-exempt rate will be published on a monthly basis in conjunction with the AFR.

November 1986
Section 1288 Adjusted Federal Rates

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term	4.46%	4.41%	4.39%	4.37%
Mid-Term	5.36%	5.29%	5.36%	5.23%
Long-Term	6.41%	6.31%	6.26%	6.23%

Section 382 Rates

Long-term tax-exempt rate for ownership changes during __*__ (the highest of the adjusted federal long-term rates for the current month and the prior two months)	**

*Specific month to be supplied beginning in January 1987.

**To be supplied monthly beginning in January 1987.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Section 501; 1.501(c)(3)–1.)

Rev. Proc. 86–43

SECTION 1. PURPOSE

The purpose of this revenue procedure is to publish the criteria used by the Internal Revenue Service to determine the circumstances under which advocacy of a particular viewpoint or position by an organization is considered educational within the meaning of section 501(c)(3) of the Internal Revenue Code, and within the meaning of section 1.501(c)(3)–1(d)(3) of the Income Tax Regulations.

SEC. 2. BACKGROUND

.01 Section 501(c)(3) of the Code provides for exemption from federal income tax for organizations that are organized and operated exclusively for purposes specified in that section, including educational purposes. Section 1.501(c)(3)–1(d)(3) of the regulations provides that the term "educational" relates to a) the instruction or training of the individual for the purpose of improving or developing his capabilities; or b) the instruction of the public on subjects useful to the individual and beneficial to the community. Under this regulation, an organization may be educational even though it advocates a particular position or viewpoint, so long as it presents a sufficiently full and fair exposition of the pertinent facts as to permit an individual or the public to form an independent opinion or conclusion. On the other hand, an organization is not educational if its principal function is the mere presentation of unsupported opinion.

.02 In applying section 1.501(c)(3)–1(d)(3) of the regulations, the Service has attempted to eliminate or minimize the potential for any public official to impose his or her preconceptions or beliefs in determining whether the particular viewpoint or position is educational. It has been, and it remains, the policy of the Service to maintain a position of disinterested neutrality with respect to the beliefs advocated by an organization. The focus of section 1.501(c)(3)–1(d)(3), and of the Service's application of this regulation, is not upon the viewpoint or position, but instead upon the method used by the organization to communicate its viewpoint or positions to others.

.03 Two recent court decisions have considered challenges to the constitutionality of section 1.501(c)(3)–1(d)(3) of the regulations. One decision held that the regulation was unconstitutionally vague. *Big Mama Rag, Inc. v. United States*, 631 F. 2d. 1030 (D.C. Cir. 1980). However, in *National Alliance v. United States*, 710 F. 2d 868 (D.C. Cir. 1983), the court upheld the Service's position that the organization in question was not educational. Although the latter decision did not reach the question of the constitutionality of section 1.501(c)(3)–1(d)(3), it did note that the methodology test used by the Service when applying the regulation "tend[s] toward ensuring that the educational exemption be restricted to material which substantially helps a reader or listener in a learning process." The court also noted that the application of this test reduced the vagueness found in the earlier *Big Mama Rag* decision.

.04 The methodology test cited by the court in *National Alliance* reflects the longstanding Service position that the method used by an organization in advocating its position, rather than the position itself, is the standard for determining whether an organization has educational purposes. This methodology test is set forth in Section 3 of this revenue procedure, and is used in all situations where the educational purposes of an organization that advocates a particular viewpoint or position are in question. Publication of this test represents no change either to existing procedures or to the substantive position of the Service.

SEC. 3. CRITERIA USED TO DETERMINE WHETHER ADVOCACY BY AN ORGANIZATION IS EDUCATIONAL

.01 The Service recognizes that the advocacy of particular viewpoints or positions may serve an educational purpose even if the viewpoints or positions being advocated are unpopular or are not generally accepted.

.02 Although the Service renders no judgment as to the viewpoint or position of the organization, the Service will look to the method used by the organization to develop and present its views. The method used by the organization will not be considered educational if it fails to provide a factual foundation for the viewpoint or position being advocated, or if it fails to provide a development from the relevant facts that would materially aid a listener or reader in a learning process.

.03 The presence of any of the following factors in the presentations made by an organization is indicative that the method used by the organization to advocate its viewpoints or positions is not educational.

1 The presentation of viewpoints or positions unsupported by facts is a significant portion of the organization's communications.

2 The facts that purport to support the viewpoints or positions are distorted.

3 The organization's presentations make substantial use of inflammatory and disparaging terms and express conclusions more on the basis of strong emotional feelings than of objective evaluations.

4 The approach used in the organization's presentations is not aimed at developing an understanding on the part of the intended audience or readership because it does not consider their background or training in the subject matter.

.04 There may be exceptional circumstances, however, where an organization's advocacy may be educational even if one or more of the factors listed in section 3.03 are present. The Service will look to all the facts and circumstances to determine whether an organization may be considered educational despite the presence of one or more of such factors.

SEC. 4. OTHER REQUIREMENTS

Even if the advocacy undertaken by an organization is determined to be educational under the above criteria, the organization must still meet all other requirements for exemption under section 501(c)(3), including the restrictions on influencing legislation and political campaigning contained therein.

Treasury Department Order
Order Number 150–02

Establishment of Certain Offices in the National Office of the Internal Revenue Service

By the authority vested in me as Secretary of the Treasury by Section 1002 of 31 U.S.C.; Section 7801(a) and 7803 of the Internal Revenue Code of 1954, as amended; Section 321(b) of 31 U.S.C., and Reorganization Plan No. 1 of 1952 as made applicable to the International Revenue Code of 1954 by Section 7804(a) of such Code and by Executive Order No. 10574, approved November 5, 1954; and as provided by Section 7802(b) of the Internal Revenue Code of 1954, the following offices continue uninterrupted as they existed prior to this order, with the following changes:

The office of Assistant Commissioner (Support and Services) under the Associate Commissioner (Policy and Management) is abolished;

The title of Assistant Commissioner (Human Resources) is changed to Assistant Commissioner (Human Resources Management and Support); and

Certain functional responsibilities are moved from the Office of the Associate Commissioner (Policy and Management). Specificially, functional responsibility for disclosure and for administration of regulations governing the practice of representives before the Service and the Bureau of Alcohol, Tobacco and Firearms are moved to the Associate Commissioner (Operations); functional responsibility for data security and for tax form and publication design is moved to the Associate Commissioner (Data Processing).

Also with this order, a paragraph on Assistant to the Commissioner (Legislative Liaison), published at the time of that position's creation, is dropped because that office is listed elsewhere, and other portions of text are resequenced and reworded solely for clarity, with no change in meaning.

1. *Office of Commissioner of Internal Revenue.* The Office of the Commissioner shall consist of the Commissioner, Deputy Commissioner, Assistants to the Commissioner, the Assistant to the Commissioner (Public Affairs), Assistant to the Commissioner (Legislative Liaison), Assistant to the Commissioner (Taxpayer Ombudsman), Assistant to the Commissioner (Equal Opportunity) and the Assistant to the Deputy Commissioner.

a. Except for the specific positions and titles in Sections 1 through 5 of this order, the Commissioner may create, abolish, or modify offices and positions within the Internal Revenue Service as may be necessary to effectively and efficiently provide for the administration of tax laws or other responsibilities assigned to the Internal Revenue Service. The authority of the Commissioner to create, abolish, or modify offices under this delegation is subject only to limitations that exist by law or Department of the Treasury rules and regulations.

2. *Office of the Associate Commissioner (Operations).* The Associate Commissioner (Operations) is the principal advisor to the Commissioner on policy matters affecting operations. The Associate Commissioner (Operations) is responsible for the following activities:

a. Serves as the spokesperson for the operating functions, which are: collection of delinquent accounts and securing of delinquent returns; investigation of criminal fraud involving any internal revenue laws (except those concerning alcohol, tobacco, or firearms); examination of tax returns; approval and subsequent examination of Employee Plans and Exempt Organizations; guidance on tax treaty administration, international compliance, and foreign tax administration assistance; disclosure; and adminstration of regulations governing the practice of representatives before the Internal Revenue Service and the Bureau of Alcohol, Tobacco and Firearms.

b. Supervises and provides policy guidance and direction to the Assistant Commissioner (Collection), Assistant Commissioner (Examination), Assistant Commissioner (Criminal Investigation), Assistant Commissioner (Employee Plans and Exempt Organizations); and the Assistant Commissioner (International).

c. Represents the Service, as designated by the Commissioner, to the Department of the Treasury, Office of Management and Budget, Congress, foreign tax authorities and the public on major cross-functional issues and discusses or explains the Service's policy formulation and long-term plans.

3. *Office of Associate Commissioner (Policy and Management).* The Associate Commissioner (Policy and Management) is the principal advisor to the Commissioner on policy matters affecting agency administration. The Associate Commissioner (Policy and Management) is responsible for the following activities:

a. Serves as the spokesperson for the management functions, which are: personnel administration; financial management; planning; research; training and employee development; management of the Service's real and personal property, equipment and support services; and operation of the Data Center.

b. Supervises and provides policy guidance and direction to the Assistant Commissioner (Human Resources Management and Support) and the Assistant Commissioner (Planning, Finance, and Research).

c. Represents the Service, as designated by the Commissioner, to the Department of the Treasury, Office of Management and Budget, Congress, and the public on major policy and management issues, and discusses or explains the Service's policy formulation and long-term plans.

4. *Office of Associate Commissioner (Data Processing).* The Associate Commissioner (Data Processing) is the principal advisor to the Commissioner on policy matters affecting data processing. The Associate Commissioner (Data Processing) is responsible for the following activities:

a. Serves as the spokesperson for the data processing functions, which are: processing of tax returns and information documents; accounting for all revenues collected by the Service; maintaining master files of all taxpayer accounts; managing all large-scale tax-processing computers in the Service, the tax information program; tax form and publication design; data security; and designing, developing, testing, and maintaining computer software used on large-scale tax-processing computers in the Service.

b. Supervises and provides policy guidance and direction to the Assistant Commissioner (Computer Services), the Assistant Commissioner (Returns and Information Processing), and the Assistant Commissioner (Tax System Redesign).

c. Represents the Service, as designated by the Commissioner, to the Department of the Treasury, Office of Management and Budget, Congress, and the public on major data processing issues, and discusses or explains the Service's policy formulation and long-term plans.

5. *The Assistant and Commissioner (Inspection) and the Deputy Assistant Commissioner (Inspection)* will, to ensure objectivity and integrity, report directly to the Commissioner and Deputy Commissioner.

6. *The Chief Counsel,* pursuant to delegated authority from the General Counsel, is authorized to take necessary action on all personnel and administrative matters pertaining to the Office of Chief Counsel, including but not limited to those

for the appointment, classification, promotion, demotion, reassignment, transfer or separation of officers or employees; however, all personnel and administrative matters concerning Senior Executive Service or Performance Management Recognition System employees in the Office of Associate Chief Counsel (International) whose primary duties do not involve litigation or in the Office of Associate Chief Counsel (Technical), shall be approved by the Commissioner of Internal Revenue prior to implementation.

a. The Corporation Tax and Individual Tax Divisions are under the supervision of the Chief Counsel, with the authority to supervise and evaluate the work of all offices and employees of these functions.

b. The Appeals Division is under the supervision of the Chief Counsel, and the Commisisioner of Internal Revenue will exercise line supervision over the Chief Counsel for this function.

c. The Commissioner of Internal Revenue will exercise the Service's final authority concerning substantive interpretation of the tax laws as reflected in legislative and regulatory proposals, revenue rulings, letter rulings, and technical advice memoranda.

7. The above changes shall be implemented at a date determined by the Commissioner of Internal Revenue. Effective immediately, the Commissioner of Internal Revenue is authorized to effect, at appropriate times and in an orderly manner, such transfers of functions, personnel, positions, equipment and funds as may be necessary to implement the provisions of this order.

8. All offices in existence within the Internal Revenue Service but not mentioned in this order are continued without interruption.

9. *Effect on Other Treasury Department Orders.* This order supersedes Treasury Department Order: 150–02, February 27, 1986.

Dated: July 30, 1986
James A. Baker III,

Secretary of
the Treasury.

(Filed by the Office of the Federal Register on August 20, 1986, 8:45 a.m., and published in the issue of the Federal Register for August 21, 1986, 51 F.R. 30022)

Determination and Opinion Letters Issued After the Tax Reform Act of 1986

Notice 86–13

BACKGROUND

The Tax Reforms Act of 1986 (P.L. 99–514) (Act), enacted on October 22, 1986, changed several of the qualification requirements under the Internal Revenue Code (Code) applicable to pension, profit-sharing and stock bonus plans. While most of the new qualification requirements are not effective until plan years beginning after December 31, 1986 or December 31, 1988, the provisions of the Act described below are effective retroactively.

1. Section 1136 of the Act and section 401(a)(27) of the Code. For years beginning after December 31, 1985, employer contributions to a profit sharing plan will not be limited to the employer's current or accumulated profits.

2. Section 1119 of the Act and section 401(a)(8) of the Code. For plan years beginning after December 31, 1985, forfeitures in a money purchase pension plan may be reallocated to other participants.

3. Section 1139 of the Act and sections 411(a)(11) and 417(e) of the Code. Generally, for plan years beginning after December 31, 1984, with respect to a distribution to a participant or beneficiary from a defined benefit plan where the present value of the total benefit exceeds $25,000, the maximum interest rate that may be used to determine such value is the lesser of the plan rate or 120% of the rate(s) the Pension Benefit Guaranty Corporation would use to value the benefit on plan termination.

4. Section 1116 of the Act and section 401(k) of the Code. A qualified cash or deferred arrangement described in section 401(k) of the Code may permit a participant to withdraw elective deferrals upon the occurrence of several specific events including termination of the plan, sale of substantially all the assets used in the trade or business, and sale of a subsidiary of a corporation. This provision is effective for distributions after December 31, 1984.

5. Section 1174 of the Act and section 409(d) of the Code. Effective for terminations of tax credit employee stock ownership plans after December 31, 1984, termination of the plan has been added to the exceptions to the requirement that employer securities may not be distributed from a participant's account before the end of the 84th month following allocation to the participant's account.

SCOPE OF PROGRAM

Effective with the enactment of the Act, until further notice is given, plans receiving determination and opinion letters from the Service will not have been reviewed for the qualification requirements of the Code as changed by the Act. However, any amendments by the Act of the qualification requirements of the Code that the Service may consider in the future will be specifically stated on such determination or opinion letters. The sponsor of a plan drafted to comply with the qualification requirements of the Code as they were in effect immediately before the enactment of the Act may rely on the Service's approval of the plan's language, as expressed in a determination or opinion letter, until further amendments are required by the Act.

Thus, plans that do not utilize the provisions described in Items 1 through 5 above will receive determination or opinion letters based on the qualification requirements in effect prior to the enactment of the Act. The language of such plans will not need to be amended until further notice.

Plans that do utilize any provision described in Items 1 through 5 above will not receive adverse determination or opinion letters by reason of such provisions. However, determination or opinion letters issued to such plans may not be relied upon with respect to whether such provisions meet the requirements of the Act.

The Act also contains Technical Corrections to the Tax Reform Act of 1984 and to the Retirement Equity Act. Some of the corrections are retroactively effective. The Service will review plans for compliance with the retroactively effective technical corrections that affect plan qualification. Sponsors of plans receiving favorable determination or opinion letters issued after enactment of the Act may rely on the Service's approval of the plan's language with respect to these provisions.

Taxpayers with questions or comments with respect to the application of this notice should call 202-566-3149 (not a toll-free number). Such communications will be considered in developing further guidance.

Part IV. Items of General Interest

Tax Reform Act of 1986—Comments on Projects to Implement

Announcement 86–110[1]

The Service asked for public comment on projects needed to implement the Tax Reform Act of 1986.

The Service released two lists, one presenting provisions of the Tax Reform Act of 1986 that are being given priority for early guidance by the Service and the Treasury Department and the other presenting regulations projects on which advice from professional organizations, law and accounting firms, and interested taxpayers is specifically requested.

The Service welcomes comments concerning the relative priority of the provisions listed and invites suggestions for additions to the list.

Submissions concerning regulations projects should identify issues on which guidance is needed and, if possible, analyze the issues and recommend how they should be resolved. Submissions are also invited concerning any other provisions of the Act. In many instances the Service will use means other than regulations to provide early guidance.

All comments or submissions should be addressed to:

Commissioner of Internal Revenue
CC:LR:T
Internal Revenue Service
Room 4429
Washington, D.C. 20224

The two lists are attached. The Service requests comments concerning projects on the priority list by Nov. 28, 1986, and all other comments as soon as possible. All material submitted will be available for public inspection and copying.

PRIORITY LIST

Foundations Status of Certain Organizations

Announcement 86–111

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to recieve deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

Adult Activity Community Center for the Developmentally Disabled, Westminster, CA
Agape, Inc., Los Angeles, CA
Agency for Self Supportive Communities, Oakland, CA
Alma Brotherw Corporation, The, San Diego, CA
American Friends of Sadnat Enosh, Los Angeles, CA
American Friends of the Royal Philharmonic Orchestra, London, England
American Society of Camera Collectors, L.A., North Hollywood, CA
Arpeggio, Los Angeles, CA
Artreach, Inc., Louisville, KY
Asian Village, Inc., The, Los Angeles, CA
Aural Rehabilitation Enhancement Association, Inc., Southgate, KY
Aurodarshan International, Ojai, CA
Baby John Martinez Transplant Organ Organization, San Diego, CA
Beginnings Therapy Center, Los Angeles, CA
Benicia Sea Otters, Inc., Benicia, CA
Big Bands 80's Record Library, Los Angeles, CA
Building and Construction Trades Senior Housing, Inc., Canton, OH
California Corinthian Foundation, Manhattan Beach, CA
California Institute of Politics and Government, San Francisco, CA
California Polka Dancing Association, Claremont, CA
California Youth Advocate Program, Inc., San Diego, CA
Capitol City Comets Track Club, Columbus, OH
Carter Homes, Inc., Toledo, OH
Center for Applied Anomalous Phenomena, Fairfax, VA
Center Street Community Center, Inc., Springfield, OH

Youth for Seniors, Los Angeles, CA
Yugolslav-American Olypic Committee of So. California, San Pedro, CA

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classificaiton as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)–7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Information Reporting of Mortgage Interest

Announcement 86–112

This announcement concerns the reporting of mortgage interest payments under section 6050H of the Internal Revenue Code. Section 6050H of the Code provides that any person who is engaged in a trade or business and who receives at least $600 of interest on a mortgage in a calendar year from an individual must report the amount of interest received to the Internal Revenue Service (Service) and to the individual from whom the interest was received. The reporting requirement is effective for interest received after December 31, 1984. This announcement discusses the application of the reporting requuirement to interest received for calendar year 1986.

On August 20, 1985, the Service published proposed and temporary regulations relating to mortgage interest reporting (50 FR 33551, 33529). A public hearing was held on January 7, 1986.

On January 21, 1986, the Service published Announcement 86–3, 1986–3 I.R.B. 42. Announcement 86–3 modifies certain provisions of the temporary regulations with respect to mortgage interest received in 1985 and clarifies the application of certain other provisions of the temporary regulations. Taxpayers are reminded that certain of the modifications to the temporary regulations made by Announcement 86–3 apply only for interest received in calendar year 1985.

Points and other prepaid interest

The temporary regulations provide that points and other prepaid interest are not to be reported as interest received (§1.6050H–1T Q/A–17(c)).

Announcement 86–3 provides that for calendar year 1985, if an interest recipient cannot exclude the portion of interest that represents points or other prepaid interest received in that year, the recipient may report the points or other prepaid interest as part of interest. Announcement 86–3 also provides that an interest recipient who reports as interest an amount that may include points or other prepaid interest must provide the borrower with the notice described in the announcement.

For calendar year 1986 and thereafter, interest recipients must report interest received in accordance with the mortgage interest reporting regulations. Thus, as provided in the temporary regulations, interest recipients must not include points and other prepaid interest in reporting all interest received from an individual in a calendar year.

Interest received by cooperative housing corporations

The temporary regulations provide that cooperative housing corporations must report, as interest received in a trade or business, the respective amounts of their tenant-stockholders' proportionate shares of interest (see §1.6050H–1T Q/A–10). Announcement 86–3 suspends this requirement for calendar year 1985.

For calendar year 1986 and thereafter, cooperative housing corporations must comply with the mortgage interest reporting regulations. Thus, as provided in the temporary regulations, cooperative housing corporations must report the amount of their tenant-stockholders' proportionate shares of interest.

Interest received on behalf of another

The temporary regulations provide that interest received by a person on behalf of another must be reported by the first person receiving the interest (§1.6050H–1T Q/A–11). Announcement 86–3 provides that for calendar year 1985, any person who receives payments on behalf of another and who does not know the portion of the payment that represents interest need not report.

For calendar year 1986 and thereafter, persons who receive interest on behalf of another must comply with the mortgage interest reporting regulations. Thus, as provided in the temporary regulations, any person who receives interest on behalf of another and is the first person to receive the interest must report under section 6050H of the Code.

Interest received from nonresident aliens

The temporary regulations do not provide an exception from the reporting requirement for interest received from nonresident alien individuals.

Announcement 86–3 provides that for calendar year 1985, interest recipients may, but are not required to, report interest received from nonresident alien individuals. Announcement 86–3 also discusses the evidence required to determine whether an individual is a nonresident alien. In addition, the announcement states that the Service is considering the treatment of nonresident aliens for future years and invites comments from taxpayers.

The treatment of nonresident aliens is still under consideration. Thus, Announcement 86–3 remains in effect with respect to interest received from nonresident alien individuals. Accordingly, for calendar year 1986, taxpayers may, but are not required to, report interest received from nonresident alien individuals.

Rule of 78s method of accounting

Announcement 86–3 provides that interest recipients who are permitted by Rev. Proc. 83–40 to use the Rule of 78s method to calculate interest earned with respect to a transaction may report interest earned under the Rule of 78s method on that transaction as interest received from the borrower in a calendar year. Announcement 86–3 also provides that interest recipients must notify borrowers that the Rule of 78s method was used to calculate interest received and that the borrowers may not deduct the amount reported unless the borrowers are also properly using the Rule of 78s method to determine interest deductions.

Announcement 86–3 is still in effect with respect to interest recipients who use the Rule of 78s method to report interest earned. Thus, interest recipients who are properly using the Rule of 78s method may report interest earned under the Rule of 78s as interest received from the borrower in a calendar year. These interest recipients must satisfy the notification requirement of Announcement 86–3.

Section 7428(c) Validation of Certain Contributions Made During Pendency of Declaratory Judgment Proceedings

This announcement serves notice to potential donors that the organization listed below has recently filed a timely declaratory judgment suit under section 7428 of the Code, challenging revocation of its status as an eligible donee under section 170(c)(2).

Protection under section 7428(c) of the Code begins on the date that the notice of revocation is published in the Internal Revenue Bulletin and ends on the date on which a court first determines that an organization is not described in section 170(c)(2), as more particularly set forth in section 7428(c)(1). In the case of individual contributors, the maximum amount of contributions protected during this period is limited to $1,000.00, with a husband and wife being treated as one contributor. This protection is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organization that were the basis for the revocation. This protection also applies (but without limitation as to amount) to organizations described in section 170(c)(2) which are exempt from tax under section 501(a). If the organization ultimately prevails in its declaratory judgment suit, deductibility of contributions would be subject to the normal limitations set forth under section 170.

Copperweld Steel Company's Warren Employees Trust
Warren, OH (Protection period begins October 14, 1986)

Revision of Form 1099–B, Statement for Recipients of Proceeds From Real Estate, Broker, and Barter Exchange Transactions

Announcement 86–115

Form 1099-B has been revised to provide for the reporting of real estate transactions closing after 1986, as required by the Tax Reform Act of 1986, which added section 6045(e) to the Internal Revenue Code.

New Box 1b "Real estate" has been added for reporting gross proceeds from a real estate transaction, and two checkboxes have been added to Box 5 to identify the nature of the property involved in the transaction. Other minor changes have also been made to the form.

A copy of the revised form, which will be available in Internal Revenue Service offices in early January, appears below.

Correction of Rev. Proc. 86–41

Announcement 86–116

A printing error caused a portion of the text of Rev. Proc. 86–41, 1986–45 I.R.B. 7, to be omitted. This revenue procedure relates to information and representations to be included in a request for a ruling under section 355 of the Code. The text omitted should appear immediately after the last line of text in the third column on page 9.

The omitted text is as follows:

See section 1.355–2(e)(1) of the regulations.

(c) Interests in Controlled held by security holders of Distributing.

(1) Receiving stock.—Identify those security holders receiving Controlled stock, the total number of shares of each class of stock being received, and the principal amount of the securities of Distributing being exchanged. If no securities are being exchanged, so state. If the securities are held by more than 25 security holders, identify only those security holders owning in excess of 5 percent of the outstanding shares of any class of Controlled stock immediately after the distribution.

(2) Receiving securities.—Identify those security holders of Distributing receiving securities of Controlled, the principal amount being received by each holder, and the principal amount of the securities of Distributing being exchanged. See section 1.355–2(e)(1) of the regulations.

(d) Receipt of consideration other than with respect to stock.

(1) Shareholder in dual capacity.—Submit the following REPRESENTATION: *No part of the consideration distributed by the distributing corporation is being received by a shareholder as a creditor, employee, or in any capacity other than that of a shareholder of the corporation.*

(2) Other transfers.—State whether the shareholders of Distributing transfer or surrender any property in the transaction other than stock or securities of Distributing. If so, provide full details.

.03 *Information concerning the businesses of Distributing and Controlled.*

1. Distributing's businesses.

(a) Description of businesses remaining in Distributing.—Submit a complete description of each business conducted directly by Distributing for each of the past 5 years that will be retained by Distributing. Provide all information necessary to establish that each business described constitutes an active trade or business (Active Business) within the meaning of Rev. Rul. 75–160, 1975–1 C.B. 112. In general, the description should conclusively show that substantial managerial and operational activities have been directly carried on by each business of the corporation during each of the past 5 years. See Rev. Rul. 86–126, 1986–43 I.R.B. 5; Rev. Rul. 86–125, 1986–43 I.R.B. 4; Rev. Rul. 80–181, 1980–2 C.B. 121, amplifying Rev. Rul. 79–394, 1979–2 C.B. 141; Rev. Rul. 73–237, 1973–1 C.B. 184; Rev. Rul. 73–236, 1973–1 C.B. 183; and Rev. Rul. 73–234, 1973–1 C.B. 180.

(b) Description of businesses being transferred by Distributing to Controlled.—If, as part of the plan, Distributing transfers all the assets of one or more of its Active Businesses of part of the assets of a single Active Business (Rev. Rul. 64–147, 1964–1 (Part 1) C.B. 136) to either a newly formed or preexisting Controlled, identify and submit a complete description of each Active Business or part being transferred. See section 4.031(a) for the information to be submitted as to each Active Business transferred.

2. Controlled's businesses.—If Controlled is a preexisting corporation submit a complete description of each Active Business conducted directly by Controlled during each of the past 5 years. See section 4.031(a) for the information to be submitted as to each Active Business.

3. Employee information.—Submit separate lists for each Active Business listed in section 4.031 and 032, above, showing the job title and number of each category of managerial and operational employees employed in each Active Business for each of the past 5 years. Include a brief description of the type of duties performed by each category of employee during each of these years. Additionally, state whether either Distributing or Controlled utilizes independent contractors. If so, include a brief description of duties they perform, and the percent of the corporation's activities performed by independent contractors. State whether managerial or operational activities of an Active Business are conducted by employees of an affiliated corporation. If so, describe which activities are so conducted. See Rev. Rul. 79–394, amplified by Rev. Rul. 80–181.

4. Indirect conduct of trade or business through ownership of stock in other corporations.—If either Distributing or Controlled is not directly engaged in an Active Business and it is contended that either Distributing or Controlled will be so engaged indirectly through ownership of stock and securities in one or more corporations controlled by it or by a controlled subsidiary immediately after the distribution (Other Corporations) (see Rev. Rul. 74–382, 1974–2 C.B. 120), provide the information and representations requested in sections 4.031, 4.033, 4.035, and 4.036 (treating each Other Corporation as Distributing or Controlled, as appropriate, for this purpose) (see section 355(b)(2)(A).

The omitted text will appear in Rev. Proc. 86–41 when it is reprinted in 1986–2 C.B.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practible for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
S. Melvin Apotheker	Miami, FL	Attorney	Indefinite from September 1, 1986
Sandra S. Behn	London, TN	Certified Public Accountant	Indefinite from September 12, 1986
Charles K. Hyter	Hutchinson, KS	Attorney	Indefinite from September 18, 1986
William Pyke	Dallas, TX	Certified Public Accountant	Eighteen Months from August 15, 1986
Alan Z. Richards	West Hempstead, NY	Attorney and Certified Public Accountant	Indefinite from September 20, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
Michael Winston	Fort Lauderdale, FL	Six Months from October 20, 1986

Under 31 Code of Federal Regulations, Part 10, an enrolled agent, in order to avoid the institution of a proceeding for his disbarment of suspension from practice before the Internal Revenue Service, may offer his resignation. The Director of Practice, in his discretion, may accept the offered resignation of an enrolled agent.

To enable the public and other practitioners to identify such resigned enrolled agents, the Director of Practice will announce in the Internal Revenue Bulletin the name and address of each enrolled agent who has resigned and the effective date of resignation. This announcement will appear in the weekly Bulletin at the earliest practicable date after the action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each resigned enrolled agent, and will later be consolidated and published in the Cumulative Bulletin.

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name of Enrolled Agent	Address	Effective Date of Resignation
William E. Bonafede	Wakefield, RI	September 30, 1986

Under Section 330, Title 31 of the United States Code, the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
James L. Ketner	Charlotte, NC	Certified Public Accountant	September 27, 1986
George L. Weil	Orange, CT	Certified Public Accountant	September 27, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.
C.B.—Cumulative Bulletin.
CFR— Code of Federal Regulations.
CI—City.
COOP—Cooperative.
Ct.D.—Court Decision.
CY—County.
D—Decedent.
DC—Dummy Corporation.
DE—Donee.
Del. Order—Delegation Order.
DISC—Domestic International Sales Corporation.
DR—Donor.
E—Estate.
EE—Employee.
E.O.—Executive Order.
ER—Employer.
ERISA—Employee Retirement Income Security Act.
EX—Executor.
F—Fiduciary.
FC—Foreign Country.
FICA—Federal Insurance Contributions Act.
FISC—Foreign International Sales Company.
FPH—Foreign Personal Holding Company.
F.R.—Federal Register.
FUTA—Federal Unemployment Tax Act.
FX—Foreign Corporation.
G.C.M.—Chief Counsel's Memorandum.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–134, page 4.

Taxes of foreign countries and possessions of the United States. For purposes of the foreign tax credit under section 901 of the Code, Netherlands WIR premiums allowable with respect to commitments to invest in qualified assets entered into after April 30, 1986, must be treated as reducing Netherlands income taxes paid or accrued for the taxable year or years in which the premiums are allowed.

Announcement 86–113, page 46.

The Service will soon issue temporary regulations that will limit the ability of certain taxpayers to change their annual accounting period and suspend the provisions of Rev. Proc. 72–51.

EXCISE TAXES

Rev. Rul. 86–137, page 5.

Collection of $3.00 tax on use of international travel facilities; payment made outside the U.S. to foreign charterer. When a payment for air transportation that is subject to the $3.00 tax is made outside the U.S. to a foreign charterer, the airline that furnishes the transportation triggering the $3.00 tax is required to collect, report and pay the tax. Rev. Rul. 75–296 distinguished.

TAX CONVENTIONS

Australia, page 7.

The convention between the United States and Australia with respect to taxes on income is reproduced.

ADMINISTRATIVE

Announcement 86–114, page 46.

Additional guidance is provided to taxpayers who may wish to pay actual or contested tax deficiencies in 1986 in order to assure that interest paid on such deficiencies will be fully deductible on their 1986 returns.

Finding Lists begin on page 51.
Announcement of Disbarments and Suspensions begin on page 48.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 901.—Taxes of foreign countries and possessions of the United States.

26 CFR 1.901–2: Income, war profits, or excess profits tax paid or accrued.

Taxes of foreign countries and possessions of the United States. For purposes of the foreign tax credit under section 901 of the Code, Netherlands WIR premiums allowable with respect to commitments to invest in qualified assets entered into after April 30, 1986, must be treated as reducing Netherlands income taxes paid or accrued for the taxable year or years in which the premiums are allowed.

Rev. Rul. 86–134

ISSUE

Whether investment incentives ("WIR premiums") granted by the Kingdom of the Netherlands should be treated as reducing Netherlands income taxes paid or accrued for purposes of the U.S. foreign tax credit in the situation described below.

FACTS

X is an accrual method, calendar year domestic corporation actively engaged in a trade or business through a permanent establishment within the Netherlands. Income derived by X's permanent establishment is subject to the Netherlands Corporation Income Tax Act of 1969, as amended. X's 1986 Netherlands income tax liability computed without regard to credits is Dfl. 50,000.

After May 1, 1986, X purchased and placed in service certain fixed assets for use in the Netherlands permanent establishment. The total cost of these assets was Dfl. 100,000.

The assets qualify for a Netherlands investment incentive under the 1978 Investment Account Act, as amended (*Wet Investeringsrekening*, abbreviated WIR) in the amount of Dfl. 12,500. WIR allows tax-free premiums to encourage investment in qualifying business use assets located in the Netherlands. Currently the basic WIR premium is equal to 12.5 percent of the cost of a qualifying asset. The basic WIR premium may be increased by one or more supplemental premiums. The premiums are allowed to Netherlands residents subject to the Netherlands corporation or individual income tax and also to non-residents of the Netherlands who operate there through a permanent establishment.

The amount of the WIR premium is not included in Netherlands taxable income and the premium does not reduce the Netherlands depreciable basis of a qualified asset for which a premium is allowed. In general, the WIR premium is allowable in the taxable year in which a commitment (contract) to invest in a qualifying asset is entered into, but the amount of the premium is limited in that year to the portion of the premium allowable with respect to the amount actually expended in the year to acquire the asset, and the rest of the premium is allowable in the earlier of the taxable year the asset is placed in service or the year the balance of the purchase price is paid.

If an asset for which a WIR premium has been allowed is disposed of within 8 years, the premium is recaptured in the same proportion as the amount received for the asset bears to the original cost. Recaptured premiums are not deductible from Netherlands taxable income and do not affect the calculation of gain or loss on the disposition of the asset for Netherlands income tax purposes.

In general, with respect to commitments to invest in qualified assets entered into after April 30, 1986, payment of the allowable WIR premiums by the Netherlands government to the investor (and repayment of recaptured premiums to the government by the investor on the disposition of a qualified asset) is effected only through the Netherlands income tax assessment system. The investor, whether a resident or a non-resident of the Netherlands, claims a credit or offset against the Netherlands corporate or individual income tax assessment for the amount of WIR premiums due, and shows an addition to tax for recaptured premiums. If the net amount of premiums due the investor exceeds the tax assessment (or if there is no tax liability), the excess of current WIR premiums over the current year's Netherlands income tax assessment may be carried back 3 taxable years and then carried forward 8 taxable years (or carried forward 12 years in the case of start-up companies) until used against the investor's Netherlands income tax liability. These are the same periods over which Netherlands net operating losses may be carried.

LAW AND ANALYSIS

Section 901 of the Code allows a credit, subject to the limitations of section 904, for the amount of income, war profits and excess taxes paid or accrued, or deemed paid under sections 902 or 960, to any foreign country or possession of the United States. When analyzing a foreign levy to determine if it is a creditable tax, principles developed under U.S. law, not foreign law control. *Biddle v. Commissioner*, 302 U.S. 573 (1938); section 1.901–2(a)(2) of the Income Tax Regulations. Thus, U.S. principles also control in determining whether an amount of foreign income tax has been reduced by means of a refund or credit. The controlling U.S. principles regarding the treatment of an amount of foreign income tax subject to reduction by refund or credit for purposes of the U.S. foreign tax credit are contained in section 1.901–2(e)(2) of the Income Tax Regulations.

Section 1.901–2(e)(2)(i) of the Income Tax Regulations provides that an amount is not tax paid or accrued to a foreign country to the extent that it is reasonably certain that the amount will be refunded, credited, rebated, abated or forgiven. This rule is illustrated by Example (2) of section 1.901–2(e)(2)(ii), where an initial foreign income tax liability of 100u is reduced under foreign law by an investment credit of 15u and a charitable contributions credit of 5u. Example (2) holds that the amount of foreign income tax paid or accrued is 80u. Thus, the investment credit must be treated as reducing the amount of foreign income tax paid or accrued.

Because the only manner in which a taxpayer can receive WIR premiums is as a credit or offset against Netherlands income tax assessments, section 1.901–2(e)(2)(i) and the holding of Example (2) directly apply to the treatment of WIR premiums allowable with respect to commitments to invest in qualified assets entered into after April 30, 1986, under the 1978 Investment Account Act, as amended. Accordingly, the Dfl. 12,500 amount is not income tax paid or accrued to the Netherlands because it is reasonably certain that a WIR premium equal to that amount will be allowed as a credit against X's pre-credit Netherlands income tax liability within the meaning of section 1.901–2(e)(2)(i). X's 1986 pre-credit Netherlands income tax liability of

Dfl. 50,000 must be reduced by Dfl. 12,500, the amount of the allowable WIR premium. The taxable year (or taxable years, if a carryback or carryover applies) in which the WIR premium is allowed as an offset against Netherlands income tax is the proper taxable year for which Netherlands income taxes are considered reduced. If a WIR premium that has been allowed with respect to commitments to invest in qualified assets entered into after April 30, 1986, is recaptured in a later taxable year, the amount of the recaptured premium shall be treated as an increase in Netherlands income tax for the taxable year in which the liability for the recaptured premium is paid or accrued.

HOLDING

Under the circumstances described above, for purposes of the U.S. foreign tax credit, WIR premiums allowable with respect to commitments to invest in qualified assets entered into after April 30, 1986, must be treated as reducing Netherlands income taxes paid or accrued for the taxable year or years in which the premium is allowed. WIR premiums described in the previous sentence that are recaptured in a later taxable year must be treated as an increase in Netherlands income taxes paid or accrued for the taxable year in which the liability for the recaptured premium is paid or accrued.

The holding of this revenue ruling does not apply to either the allowance or the recapture of a WIR premium allowable with respect to commitments to invest in qualified assets entered into before May 1, 1986.

Section 4261.—Imposition of Tax

(Also Sections 4263, 4291, 7805; 42.4291-1, 301.7805-1.)

Collection of $3.00 tax on use of international travel facilities; payment made outside the U.S. to foreign charterer. When a payment for air transportation that is subject to the $3.00 tax is made outside the U.S. to a foreign charterer, the airline that furnishes the transportation triggering the $3.00 tax is required to collect, report and pay the tax. Rev. Rul. 75–296 distinguished.

Rev. Rul. 86–137

ISSUE

If an independent travel agent operating abroad sells tour tickets that provide for round trip charter transportation furnished by an airline to and from a point in the United States and if payment for the tour is made outside the United States, who is responsible for collecting and paying to the U.S. Government the $3.00 tax imposed by section 4261(c) of the Internal Revenue Code on the use of international travel facilities?

FACTS

An independent travel agency located in a foreign country sells tours that include round-trip air transportation to the United States. For such flights, the travel agency charters aircraft from an airline. The airline receives a flat amount for the charter and furnishes the pilot and crew. The travel agency does not have an office or representative in the United States.

LAW AND ANALYSIS

Section 4261(c) of the Code imposes a tax of $3.00 upon any amount paid (whether within or without the United States) for any transportation of any person by air, if such transportation begins in the United States. The subsection is inapplicable to any transportation all of which is subject to the 8 percent tax on transportation of persons by air imposed by section 4261(a).

Section 4263(e) of the Code provides that for purposes of applying the tax on transportation of persons by air to a round trip, such round trip shall be considered to consist of transportation from the point of departure to the destination and of separate transportation thereafter.

Section 4291 of the Code provides that, except as otherwise provided in section 4263(a), every person receiving any payment for facilities and services on which a tax is imposed on the payor under Chapter 33 shall collect the amount of the tax from the person making such payment.

Section 4263(a) of the Code provides that if the payment upon which tax is imposed by section 4261 is made outside the United States for a prepaid order, exchange order, or similar order, the person furnishing the initial transportation pursuant to such order shall collect the amount of tax.

Section 49.4261-7(h)(2) of the Facilities and Services Excise Tax Regulations provides that the charterer of a conveyance who sells transportation must collect and account for section 4261 taxes with respect to amounts paid to it for transportation. This regulation is a reflection of the general rules of sections 4261 and 4291, and, like these general rules, it is subject to the exception set forth in section 4263(a).

Rev. Rul. 72–538, 1972–2 C.B. 577, holds that where the return part of a round trip from a foreign country begins in the United States, the $3.00 departure tax applies to the return trip.

Rev. Rul. 75–296, 1975–2 C.B. 440, considered an independent travel agency chartered by the Interstate Commerce Commission that sold tours and chartered aircraft from various carriers. The ruling held that the agency was acting as a principal and was required to collect the air transportation tax imposed by section 4261 of the Code, file returns, and pay the tax to the U.S. Government. The provision applicable to collection of tax in that ruling was section 4291, under which the person receiving payment for the transportation must collect the tax. The ruling concluded that the independent travel agencies received the payment.

In the present situation, the portion of the amount paid by the traveler to the foreign travel agency that represents payment for the return air transportation from the United States to the foreign country is subject to the $3.00 tax. Because the taxable transportation was paid for outside of the United States, the person furnishing the initial taxable transportation is required under section 4263(a) of the Code to collect the amount of the tax and pay it to the U.S. Government. Under Rev. Rul. 60–311, 1960–2 C.B. 341, the person who has possession, command and control of the aircraft is the person furnishing the taxable transportation. In this case, that person is the foreign airline and, unlike Rev. Rul. 75–296, section 4263(a) applies and not section 4291.

HOLDING

When a payment for air transportation that is subject to the $3.00 departure tax is made outside the United States to a foreign charterer, the airline that furnishes the taxable transportation is required to collect, report and pay to the U.S. Government the $3.00 tax for each traveler. The charterer may remit the amount of the tax to the airline on behalf of the travelers; if it does not, the airline must collect the tax directly from the travelers.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 75–296 is distinguished

PROSPECTIVE APPLICATION

Under the authority contained in section 7805(b) of the Code, the conclusion in this revenue ruling will not be applied to payments for air transportation made before January 1, 1987.

Section 4263.—Special Rules

Who is responsible for collection and payment of the tax on the use of international travel facilities imposed by section 4261(c) of the Code when a foreign independent travel agent sells tickets abroad for a tour that includes round trip charter transportation furnished by an airline to and from a point in the United States? See Rev. Rul. 86–137, page 5.

Section 4291.—Cases Where Persons Receiving Payments Must Collect Tax

26 CFR 42.4291–1: Duty to collect tax.

Who is responsible for collection and payment of the tax on the use of international travel facilities imposed by section 4261(c) of the Code when a foreign independent travel agent sells tickets abroad for a tour that includes round trip charter transportation furnished by an airline to and from a point in the United States? See Rev. Rul. 86–137, page 5.

Section 7805.—Rules and Regulations

26 CFR 301.7805–1: Rules and regulations

Who is responsible for collection and payment of the tax on the use of international travel facilities imposed by section 4261(c) of the Code when a foreign independent travel agent sells tickets abroad for a tour that includes round trip charter transportation furnished by an airline to and from a point in the United States? See Rev. Rul. 86–137, page 5.

Part II. Treaties and Tax Legislation

Subpart A.—Tax Conventions

United States—Australia Income Tax Convention[1]

Convention signed at Sidney on August 6, 1982;

Ratification advised by the Senate of the United States of America on July 27, 1983;

Instruments of ratification exchanged on October 31, 1983.

CONVENTION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF AUSTRALIA FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON INCOME

The Government of the United States of America and the Government of Australia.

Desiring to conclude a Convention for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income,

Have agreed as follows:

ARTICLE 1
PERSONAL SCOPE

(1) Except as otherwise provided in this Convention, this Convention shall apply to persons who are residents of one or both of the Contracting States.

(2) This Convention shall not restrict in any manner any exclusion, exemption, deduction, rebate, credit or other allowance accorded from time to time:

(a) by the laws of either Contracting State; or

(b) by any other agreement between the Contracting States.

(3) Notwithstanding any provision of this Convention, except paragraph (4) of this Article, a Contracting State may tax its residents (as determined under Article 4 (Residence)) and individuals electing under its domestic law to be taxed as residents of that state, and by reason of citizenship may tax its citizens, as if this Convention had not entered into force. For this purpose, the term "citizen" shall, with respect to United States source income according to United States law relating to United States tax, include a former citizen whose loss of citizenship had as one of its principal purposes the avoidance of tax, but only for a period of 10 years following such loss.

(4) The provisions of paragraph (3) shall not affect:

(a) the benefits conferred by a Contracting State under paragraph (2) of Article 9 (Associated Enterprises), paragraph (2) or (6) of Article 18 (Pensions, Annuities, Alimony and Child Support), Article 22 (Relief from Double Taxation), 23 (Non-Discrimination), 24 (Mutual Agreement Procedure) or paragraph (1) of Article 27 (Miscellaneous); or

(b) the benefits conferred by a Contracting State under Article 19 (Governmental Remuneration), 20 (Students) or 26 (Diplomatic and Consular Privileges) upon individuals who are neither citizens of, nor have immigrant status in, that State (in the case of benefits conferred by the United States), or who are not ordinarily resident in that State (in the case of benefits conferred by Australia).

ARTICLE 2
TAXES COVERED

(1) The existing taxes to which this Convention shall apply are:

(a) in the United States: the Federal income taxes imposed by the Internal Revenue Code, but excluding the accumulated earnings tax and the personal holding company tax; and

(b) in Australia; the Australian income tax, including the additional tax upon the undistributed amount of the distributable income of a private company.

(2) This Convention shall also apply to any identical or substantially similar taxes which are imposed by either Contracting State after the date of signature of this Convention in addition to, or in place of, the existing taxes. At the end of each calendar year, the competent authority of each Contracting State shall notify the competent authority of the other Contracting State of any substantial changes which have been made during that year in the laws of his State relating to the taxes to which this Convention applies or in the official interpretation of those laws or of this Convention.

ARTICLE 3
GENERAL DEFINITIONS

(1) For the purposes of this Convention, unless the context otherwise requires:

(a) the term "person" includes an individual, an estate of a deceased individual, a trust, a partnership, a company and any other body of persons;

(b) the term "company" means any body corporate or any entity which is treated as a company or body corporate for tax purposes;

(c) the terms "enterprise of one of the Contracting States" and "enterprise of the other Contracting State" mean an enterprise carried on by a resident of Australia or an enterprise carried on by a resident of the United States, as the context requires;

(d) the term "international traffic" means any transport by a ship or aircraft, except where such transport is solely between places within a Contracting State;

(e) the term "competent authority" means:

(i) in the case of the United States: the Secretary of the Treasury or his delegate; and

(ii) in the case of Australia: the Commissioner of Taxation or his authorized representative;

(f) the terms "Contracting State", "one of the Contracting States" and "the other Contracting State" mean the United States or Australia, as the context requires;

(g)(i) the term "United States corporation" means a corporation which, under United States law relating to United States tax, is a domestic corporation or an unincorporated entity treated as a domestic corporation, and which is not, under the law of Australia relating to Australian tax, a resident of Australia; and

(ii) the term "Australian corporation" means a company, as defined under the law of Australia relating to Australian tax, which, under that law, is a resident of Australia, and which is not, under United States law relating to United States tax, a domestic corporation or an unincorporated entity treated as a domestic corporation;

(h) the term "State" means any National State, whether or not one of the Contracting States;

(i) the term "United States tax" means tax imposed by the United States to which this Convention applies by virtue of Article 2 (Taxes Covered) and the term "Australian tax" means tax imposed by Australia to which this Convention applies by virtue of Article 2 (Taxes Covered), but neither term includes any amount which represents a penalty or interest imposed under the law of either Contracting State relating to United States tax or Australian tax;

---

[1] Pertinent excerpts from Senate Report No. 98-16, page 16; Treasury Department Technical Explanation, page 33.

(j)(i) the term "United States" means the United States of America; and

(ii) when used in a geographical sense, the term "United States" means the states thereof and the District of Columbia and also includes:

(A) the territorial waters thereof; and

(B) the sea-bed and subsoil of the submarine areas adjacent to the coast thereof, but beyond the territorial waters, over which the United States exercises rights, in accordance with international law, for the purposes of exploration for, or exploitation of, the natural resources of those areas;

(k) the term "Australia" means the Commonwealth of Australia and, when used in a geographical sense, includes:

(i) the Territory of Norfolk Island;

(ii) the Territory of Christmas Island;

(iii) the Territory of Cocos (Keeling) Islands;

(iv) the Territory of Ashmore and Cartier Islands;

(v) the Coral Sea Islands Territory; and

(vi) any area adjacent to the territorial limits of Australia or of the said Territories in respect of which there is for the time being in force, consistently with international law, a law of Australia or of a State or part of Australia or of a Territory aforesaid dealing with the exploitation of any of the natural resources of the sea-bed and subsoil of the continental shelf;

(l) the term "resident of one of the Contracting States" and "resident of the other Contracting State" mean a resident of Australia or a resident of the United States, as the context requires.

(2) As regards the application of this Convention by one of the Contracting States, any term not defined herein shall, unless the context otherwise requires, have the meaning which it has under the laws of that State relating to the taxes to which this Convention applies.

ARTICLE 4
RESIDENCE

(1) For the purposes of this Convention:

(a) a person is a resident of Australia if the person is:

(i) an Australian corporation; or

(ii) any other person (except a company as defined under the law of Australia relating to Australian tax) who, under that law, is a resident of Australia,

provided that, in relation to any income, a person who:

(iii) is subject to Australian tax on income which is from sources in Australia; or

(iv) is a partnership, an estate of a deceased individual or a trust (other than a trust that is a provident, benefit, superannuation or retirement fund, or that is established for public charitable purposes or for the purpose of enabling scientific research to be conducted by or in conjunction with a public university or public hospital, the income of which is exempt from tax under the law of Australia relating to Australian tax),

shall not be treated as a resident of Australia except to the extent that the income is subject to Australian tax as the income of a resident, either in the hands of that person or in the hands of a partner or beneficiary, or, if that income is exempt from Australian tax, is so exempt solely because it is subject to United States tax; and

(b) a person is a resident of the United States if the person is:

(i) a United States corporation; or

(ii) any other person (except a corporation or unincorporated entity treated as a corporation for United States tax purposes) resident in the United States for purposes of its tax, provided that, in relation to any income derived by a partnership, an estate of a deceased individual or a trust, such person shall not be treated as a resident of the United States except to the extent that the income is subject to United States tax as the income of a resident, either in its hands or in the hands of a partner or beneficiary, or, if that income is exempt from United States tax, is exempt other than because such person, partner or beneficiary is not a United States person according to United States law relating to United States tax.

(2) Where by application of paragraph (1) an individual is a resident of both Contracting States, he shall be deemed to be a resident of the State:

(a) in which he maintain his permanent home;

(b) if the provisions of sub-paragraph (a) do not apply, in which he has an habitual abode if he has his permanent home in both Contracting States or in neither of the Contracting States; or

(c) if the provisions of sub-paragraphs (a) and (b) do not apply, with which his personal and economic relations are closer if he has an habitual abode in both Contracting States or in neither of the Contracting States.

(3) For the purposes of this paragraph, in determining an individual's permanent home, regard shall be given to the place where the individual dwells with his family, and in determining the Contracting State with which an individual's personal and economic relations are closer, regard shall be given to his citizenship (if he is a citizen of one of the Contracting States).

An individual who is deemed to be a resident of one of the Contracting States for any year of income, or taxable year, as the case may be by reason of the provisions of paragraph (2) shall, for all purposes of this Convention, be deemed to be a resident only of that State for such year.

ARTICLE 5
PERMANENT ESTABLISHMENT

(1) For the purpose of this Convention, the term "permanent establishment" means a fixed place of business through the business of an enterprise is wholly or partly carried on.

(2) The term "permanent establishment" shall include especially:

(a) a place of managment;

(b) a branch;

(c) an office;

(d) a factory;

(e) a workshop;

(f) a mine, an oil or gas well, a quarry or any other place of extraction of natural resources;

(g) an agricultural, pastoral or forestry property;

(h) a building site or construction, assembly or installation project which exists for more than 9 months; and

(i) an installation, drilling rig or ship that, for an aggregate period of at least 6 months in any 24 month period, is used by an enterprise of one of the Contracting States in the other Contracting State for dredging or for or in connection with the exploration or exploitation of natural resources of the sea-bed and subsoil.

(3) Notwithstanding paragraphs (1) and (2), an enterprise of one of the Contracting States shall not be regarded as having a permanent establishment solely as a result of one or more of the following:

(a) the use of facilities for the purpose of storage, display or delivery of goods or merchandise belonging to the enterprise;

(b) the maintenance of a stock of goods or merchandise belonging to the enterprise for the purpose of storage, display or delivery;

(c) the maintenance of a stock of goods or merchandise belonging to the enterprise for the purpose of processing by another enterprise;

(d) the maintenance of a fixed place of business for the purpose of purchasing goods or merchandise, or for collecting information, for the enterprise;

(e) the maintenance of a fixed place of business for the purpose of activities which have a preparatory or auxiliary character, such as advertising or scientific research, for the enterprise;

(f) the maintenance of a building site or construction, assembly or installation project which does not exist for more than 9 months; or

(g) the use by that enterprise in the other Contracting State, of an installation, drilling rig or ship for dredging, or for or in connection with the exploration or exploitation of natural resources of the sea-bed and subsoil, provided that such use is not for an aggregate period of at least 6 months in any 24 month period.

(4) Notwithstanding paragraphs (1) and (2), an enterprise of one of the Contracting States shall be deemed to have a permanent establishment in the other Contracting State if:

(a) it carriers on business in that other State through a person, other than an agent of independent status to whom paragraph (5) applies, who has authority to conclude contracts on behalf of that enterprise and habitually exercises that authority in that other State, unless the activities of such person are limited to those mentioned in paragraph (3) which, if exercised through a fixed place of business, would not make that fixed place of business a permanent establishment under the provisions of that paragraph;

(b) it maintains substantial equipment for rental or other purposes within that other State (excluding equipment let under a hire-purchase agreement) for a period of more than 12 months;

(c) it engages in supervisory activities in that other State for more than 9 months in any 24 month period in connection with a building site or construction, assembly or installation project in that other State; or

(d) it has goods or merchandise belonging to it that:

(i) were purchased by it in that other State, and not subjected to prior substantial processing outside that other State; or

(ii) were produced by it or on its behalf in that other State, and are, after such purchase or production, subjected to substantial processing in that other State by an enterprise where either enterprise participates directly or indirectly in the management, control or capital of the other enterprise, or where the same persons participate directly or indirectly in the management, control or capital of both enterprises.

(5) An enterprise of one of the Contracting States shall not be deemed to have a permanent establishment in the other Contracting State merely because that enterprise carries on business in that other State through a broker, general commission agent, or any other agent of independent status, where such broker or agent is acting in the ordinary course of his business as a broker, general commission agent or other agent of independent status.

(6) The fact that a company which is a resident of one of the Contracting States controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

(7) The principles set forth in the preceding paragraphs of this Article shall be applied in determining for purposes of this Convention whether there is a permanent establishment in a State other than one of the Contracting States and whether an enterprise other than an enterprise of one of the Contracting States has a permanent establishment in one of the Contracting States.

ARTICLE 6
INCOME FROM REAL PROPERTY

(1) Income from real property may be taxed by the Contracting State in which such real property is situated.

(2) For the purposes of this Convention:

(i) a leasehold interest in land, whether or not improved, shall be regared as real property situated where the land to which the interest relates is situated; and

(ii) rights to exploit or to explore for natural resources shall be regarded as real property situated where the natural resources are situated or sought.

ARTICLE 7
BUSINESS PROFITS

(1) The business profits of an enterprise of one of the Contracting States shall be taxable only in that State unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the business profits of the enterprise may be taxed in the other State but only so much of them as it attributable to that permanent establishment.

(2) Subject to the provisions of paragraph (3), where an enterprise of one of the Contracting States carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the business profits which it might be expected to make if it were a distinct and independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment or with other enterprises with which it deals.

(3) In the determination of the business profits of a permanent establishment, there shall be allowed as deductions expenses which are reasonably connected with the profits (including executive and general administrative expenses) and which would be deductible if the permanent establishment were an independent entity which paid those expenses, whether incurred in the Contracting State in which the permanent establishment is situated or elsewhere.

(4) No business profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

(5) For the purposes of the preceeding paragraphs of this Article, the business profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

(6) Where business profits include items of income which are dealt with separately in other Articles of this Convention, then the provisions of those Articles shall not be affected by the provisions of this Article.

(7) Nothing in this Article shall affect the application of any law of a Contract-

ing State relating to the determination of the tax liability of a person in cases where the information available to the competent authority of that State is inadequate to determine the profits to be attributed to a permanent establishment, provided that, on the basis of the available information, the determination of the profits of the permanent establishment is consistent with the principles stated in this Article.

(8) Nothing in this Article shall in a Contracting State prevent the operation in that State of its law relating specifically to the taxation of any person who carries on the business of any form of insurance (as long as that law as in effect on the date of signature of this Convention is not varied otherwise than in minor respects so as not to affect its general character).

ARTICLE 8
SHIPPING AND AIR TRANSPORT

(1) Profits derived by a resident of one of the Contracting States from the operation in international traffic of ships or aircraft shall be taxable only in that State. For the purposes of this Article, profits from the operation in international traffic of ships or aircraft include:

(a) profits from the lease on a full basis of ships or aircraft operated in international traffic by the lessee, provided that the lessor either operates ships or aircraft otherwise than solely between places in the other Contracting State or regularly leases ships or aircraft on a full basis; and

(b) profits from the lease of ships or aircraft on a bare boat basis or of containers and related equipment, provided that such lease is merely incidental to the operation in international traffic of ships or aircraft by the lessor and the leased ships or aircraft are operated in international traffic, or the containers and related equipment are used in international traffic, by the lessee.

(2) The provisions of paragraph (1) shall apply to the share of the profits from the operation in international traffic of ships or aircraft derived by a resident of one of the Contracting States through participation in a pool service, in a joint transport operating organization or in an international operating agency.

(3) For the purposes of this Article, profits derived from the carriage by ships or aircraft of passengers, livestock, mail, goods or merchandise shipped in a Contracting State for discharge at another place in that State shall not be treated as profits from the operation in international traffic of ships or aircraft and may be taxed in that State.

ARTICLE 9
ASSOCIATED ENTERPRISES

(1) Where:

(a) an enterprise of one of the Contracting States participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or

(b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of one of the Contracting States and an enterprise of the other Contracting State,

and in either case conditions operate between the two enterprises in their commercial or financial relations which differ from those which might be expected to operate between independent enterprises dealing wholly independently with one another, then any profits which, but for those conditions, might have been expected to accrue to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

(2) Where profits on which an enterprise of one of the Contracting States has been charged to tax in that State are also included, by virtue of paragraph (1), in the profits of an enterprise of the other Contracting State and taxed accordingly, and the profits so included are profits which might have been expected to have accrued to that enterprise of the other State if the conditions operative between the enterprises had been those which might have been expected to have operated between independent enterprises dealing wholly independently with one another, then the first-mentioned State shall make an appropriate adjustment to the amount of tax charged on those profits in the first-mentioned State. In determining such an adjustment, due regard shall be had to the other provisions of this Convention and the competent authorities of the Contracting State shall if necessary consult each other.

(3) Nothing in this Article shall affect the application of any Law of a Contracting State relating to the determination of the tax liability of a person, including determinations in cases where the information available to the competent authority of that State is inadequate to determine the income to be attributed to an enterprise, provided that, on the basis of the available information, the determination of that tax liability is consistent with the principles stated in this Article.

ARTICLE 10
DIVIDENDS

(1) Dividends paid by a company which is a resident of one of the Contracting States for the purposes of its tax, being dividends to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such dividends may be taxed in the Contracting State of which the company paying the dividends is a resident for the purposes of its tax, and according to the law of that State, but the tax so charged shall not exceed 15 percent of the gross amount of the dividends.

(3) The term "dividends" in this Article means income from shares and other income assimilated to income from shares by the taxation law of the Contracting State of which the company making the distribution is a resident for the purposes of its tax.

(4) The provisions of paragraph (2) shall not apply if the person beneficially entitled to the dividends, being a resident of one of the Contracting States, carries on business in the other Contracting State, being the State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(5) Where a company is a resident of one of the Contracting States, the other Contracting State may not impose any tax on dividends paid by the company, except insofar as:

(a) a resident of that other State is beneficially entitled to the dividends;

(b) the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State; or

(c) that other State does not impose a tax of the kind described in paragraph (6) (excluding the accumulated earnings tax and the personal holding company tax imposed by the United States) and the dividends are paid out of profits attributable to one or more permanent establishments which such company had in that other State, provided that the gross income attributable to such permanent establishments constituted at least 50 percent of such company's gross income from all sources.

Where sub-paragraph (c) applies and sub-paragraphs (a) and (b) do not apply, any such tax shall not exceed 15 percent of the dividends.

(6) Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the income of a company which is a resident of the other Contracting State, tax in addition to the taxes referred to in Article 2 in relation to the first-mentioned Contracting State which are payable by a company which is a resident of the first-mentioned State, provided that any such additional tax shall not exceed 15 percent of the amount by which the taxable income of the first-mentioned company of a year of income exceeds the tax payable on that taxable income to the first-mentioned State. Any tax payable to a Contracting State on the undistributed profits of a company which is a resident of the other Contracting State shall be calculated as if that company were not liable to the additional tax referred to in this paragraph and had paid dividends of such amount that tax equal to the amount of that additional tax would have been payable on the dividends in accordance with paragraph (2) of this Article.

ARTICLE 11
INTEREST

(1) Interest from sources in one of the Contracting States, being interest to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such interest may be taxed in the Contracting State in which it has its source, and according to the law of that State, but the tax so charged shall not exceed 10 percent of the gross amount of the interest.

(3) Paragraph (2) shall not apply if the person beneficially entitled to the interest, being a resident of one of the Contracting States, has a permanent establishment in the other Contracting State or performs independent personal services in that other State from a fixed base situated therein and the indebtedness giving rise to the interest is effectively connected with such permanent establishment of fixed base. In such a case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(4) Where, owing to a special relationship between the payer and the person beneficially entitled to the interest, or between both of them and some other person, the amount of the interest paid, having regard to the indebtedness for which it is paid, exceeds the amount which might have been expected to have been agreed upon by the payer and the person so entitled in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In that case, the excess part of the amount of the interest paid shall remain taxable according to the law of each Contracting State, but subject to the other provisions of this Convention.

(5) The term "interest" as used in this Convention includes income which, under the taxation law of the Contracting State in which the income has its source, is assimilated to income from money lent.

(6) A Contracting State may not impose any tax on interest paid by a resident of the other Contracting State, except insofar as:

(a) such interest has its source in the first-mentioned State, or is interest to which a resident of that State is beneficially entitled; or

(b) the indebtedness in respect of which the interest is paid is effectively connected with a permanent establishment or a fixed base of the beneficial owner of the interest situated in the first-mentioned State.

(7) Interest shall be treated as income from sources in a Contracting State when the payer is that State itself or a political subdivision or local authority of that State or a person who is a resident of that State for the purposes of its tax. Where, however, the person paying the interest, whether he is a resident of one of the Contracting States or not, has in one of the Contracting States or outside both Contracting States a permanent establishment or fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to have its source in the State in which the permanent establishment or fixed base is situated.

ARTICLE 12
ROYALTIES

(1) Royalties from sources in one of the Contracting States, being royalties to which a resident of the other Contracting State is beneficially entitled, may be taxed in that other State.

(2) Such royalties may be taxed in the Contracting State in which they have their source, and according to the law of that State, but the tax so charged shall not exceed 10 percent of the gross amount of the royalties.

(3) Paragraph (2) shall not apply if the person beneficially entitled to the royalties, being a resident of one of the Contracting States, has a permanent establishment in the other Contracting State or performs independent personal services in that other State from a fixed base situated therein, and the propery or rights giving rise to the royalties are effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

(4) The term "royalties" in this Article means:

(a) payments or credits of any kind to the extent to which they are consideration for the use of or the right to use any:

(i) copyright, patent, design or model, plan, secret formula or process, trademark or other like property or right;

(ii) industrial, commercial or scientific equipment, other than equipment let under a hire purchase agreement;

(iii) motion picture films; or

(iv) films or video tapes for use in connection with television or tapes for use in connection with radio broadcasting;

(b) payments or credits of any kind to the extent to which they are considered for:

(i) the supply of scientific, technical, industrial or commercial knowledge or information owned by any person;

(ii) the supply of any assistance of an ancillary and subsidiary nature furnished as a means of enabling the application or enjoyment of knowledge or information referred to in sub-paragraph (b)(i) or of any other property or right to which this Article applies; or

(iii) a total or partial forbearance in respect of the use or supply of any property or right described in this paragraph; or

(c) income derived from the sale, exchange or other disposition of any property or right described in this paragraph to the extent to which the amounts realized on such sale, exchange or other disposition are contingent on the productivity, use or futher disposition of such property or right.

(5) Where, owing to a special relationship between the payer and the person beneficially entitled to the royalties or between both of them and some other person, the amount of the royalties paid or credited, having regard to what they are paid or credited for, exceeds the amount which might have been expected to have been agreed upon by the payer and the person so entitled in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In that case, the excess part of the amount of the royalties paid or credited shall remain taxable according to the law of each Contracting State, but subject to the other provisions of this Convention.

(6) (a) Royalties shall be treated as income from sources in a Contracting State when the payer is that State itself or a political subdivision or local authority of that State or a person who is a resident of that State for the purposes of its tax. Where, however, the person paying the royalties, whether he is a resident of one of the Contracting States or not, has in one of the Contracting States or outside both Contracting States a permanent establishment or fixed base in connection with which the liability to pay the royalties was incurred, and the royalties are borne by the permanent establishment or fixed base, then the royalties shall be deemed to have their source in the State in which the permanent establishment or fixed base is situated.

(b) Where sub-paragraph (a) does not operate to treat royalties as being from sources in one of the Contracting States, and the royalties relate to use or the right to use in one of the Contracting States of any property or right described in paragraph (4), the royalties shall be treated as income from sources in that State.

ARTICLE 13
ALIENATION OF PROPERTY

(1) Income or gains derived by a resident of one of the Contracting States from the alienation or disposition of real property situated in the other Contracting State may be taxed in that other State.

(2) For the purposes of this Article:

(a) the term "real property situated in the other Contracting State", where the United States is that other Contracting State, includes a United States real property interest, and real property referred to in Article 6 which is situated in the United States; and

(b) the term "real property", in the case of Australia, shall have the meaning which it has under the laws in force from time to time in Australia and, without limiting the foregoing, includes:

(i) real property referred to in Article 6;

(ii) shares or comparable interests in a company, the assets of which consist wholly or principally of real property situated in Australia; and

(iii) an interest in a partnership, trust or estate of a deceased individual, the assets of which consist wholly or principally of real property situated in Australia.

(3) Income or gains derived by an enterprise of one of the Contracting States from the alienation of ships, aircraft or containers operated or used by it in international traffic shall, except to the extent to which that enterprise has been allowed depreciation in the other Contracting State in respect of those ships, aircraft or containers, be taxable only in that State, and income described in subparagraph (4)(c) of Article 12 (Royalties) shall be taxable only in accordance with the provisions of Article 12.

(4) For the purposes of this Article, real property consisting of shares in a company referred to in sub-paragraph (2)(b)(ii), and interests in a partnership, trust or estate referred to in sub-paragraph (2)(b)(iii), shall be deemed to be situated in Australia.

ARTICLE 14
INDEPENDENT PERSONAL SERVICES

Income derived by an individual who is a resident of one of the Contracting States from the performance of personal services in an independent capacity shall be taxable only in that State unless such services are performed in the other Contracting State and:

(a) the individual is present in that other State for a period or periods aggregating more than 183 days in the taxable year or year of income of that other State; or

(b) the individual has a fixed base regularly available to him in that other State for the purpose of performing his activities, in which case so much of the income as is attributable to that fixed base may be taxed in such other State.

ARTICLE 15
DEPENDENT PERSONAL SERVICES

(1) Subject to the provisions of Article 18 (Pensions, Annuities, Alimony and Child Support) and 19 (Governmental Remuneration), salaries, wages and other similar remuneration derived by an individual who is a resident of one of the Contracting States in respect of an employment or in respect of services performed as a director of a company shall be taxable only in that State unless the employment is exercised or the services performed in the other Contracting State. If the employment is so exercised or the services so performed, such remuneration as is derived from that exercise or performance may be taxed in that other State.

(2) Notwithstanding the provisions of paragraph (1), remuneration derived by an individual who is a resident of one of the Contracting States in respect of an employment exercised in the other Contracting State or in respect of services performed in the other Contracting State as a director of a company shall be taxable only in the first-mentioned State if:

(a) the recipient is present in that other State for a period or periods not exceeding in the aggregate 183 days in the taxable year or year of income of that other State;

(b) the remuneration is paid by, or on behalf of, an employer or company who is not a resident of that other State; and

(c) the remuneration is not deductible in determining taxable profits of a permanent establishment, a fixed base or a trade or business which the employer or company has in that other State.

(3) Notwithstanding the preceding provisions of this Article, remuneration in respect of an employment exercised aboard a ship or aircraft operated in international traffic by a resident of one of the Contracting States may be taxed in that State.

ARTICLE 16
LIMITATION ON BENEFITS

(1) A person (other than an individual) which is a resident of one of the Contracting States shall not be entitled under this Convention to relief from taxation in the other Contracting State unless:

(a) more than 75 percent of the beneficial interest in such person (or in the case of a company, more than 75 percent of the number of shares of each class of the company's shares) is owned, directly or indirectly, by any combination of one or more of:

(i) individuals who are residents of the United States;

(ii) citizens of the United States;

(iii) individuals who are residents of Australia;

(iv) companies as described in sub-paragraph (b); and

(v) the Contracting States;

(b) it is a company in whose principal class of shares there is substantial and regular trading on a recognized stock exchange in one of the Contracting States; or

(c) the establishment, acquisition and maintenance of such person and the conduct of its operations did not have as one of its principal purposes the purpose of obtaining benefits under the Convention.

(2) For the purpose of sub-paragraph (1)(b), the term "a recognized stock exchange" includes, in relation to the United States, the NASDAQ System owned by the National Association of Securities Dealers, Inc.

(3) Where:

(a) income derived by a trustee is to be treated for the purposes of this Convention as income of a resident of one of the Contracting States; and

(b) the trustee derived the income in connection with a scheme a principal purpose of which was to obtain a benefit under this Convention,

then, notwithstanding any other provision of this Convention, the Convention does not apply in relation to that income.

ARTICLE 17
ENTERTAINERS

(1) Notwithstanding the provisions of Articles 14 (Independent Personal Services) and 15 (Dependent Personal Services), income derived by entertainers (such as theatrical, motion picture, radio or television artists, musicians and athletes) from their personal activities as such may be taxed in the Contracting State in which these activities are exercised, except where the amount of the gross receipts derived by any such entertainer, including expenses reimbursed to him or borne on his behalf, from such activities does not exceed ten thousand United States dollars ($10,000) or its equivalent in Australian dollars for the taxable year or year of income concerned.

(2) Where income in respect of activities exercised by an entertainer in his capacity as such accrues not to the entertainer but to another person, that income may, notwithstanding the provisions of Articles 7 (Business Profits), 14 (Independent Personal Services), and 15 (Dependent Personal Services), be taxed in the Contracting State in which the activities of the entertainer are exercised, unless it is established that neither the entertainer nor any person related to him participates directly or indirectly in any profits of such other person in any manner, including the receipt of deferred remuneration, bonuses, fees, dividends, partnership distributions or other distributions.

ARTICLE 18
PENSIONS ANNUITIES, ALIMONY AND CHILD SUPPORT

(1) Subject to the provisions of Article 19 (Governmental Remuneration), pensions and other similar remuneration paid to an individual who is a resident of one of the Contracting States in consideration of past employment shall be taxable only in that State.

(2) Social Security payments and other public pensions paid by one of the Contracting States to an individual who is a resident of the other Contracting State or a citizen of the United States shall be taxable only in the first-mentioned State.

(3) Annuities paid to an individual who is a resident of one of the Contracting States shall be taxable only in that State.

(4) The term "pensions and other similar remuneration", as used in this Article, means periodic payments made by reason of retirement or death, in consideration for services rendered, or by way of compensation paid after retirement for injuries received in connection with past employment.

(5) The term "annuities", as used in this Article, means stated sums paid periodically at stated times during life, or during a specified or ascertainable number of years, under an obligation to make the payments in return for adequate and full consideration (other than services rendered or to be rendered).

(6) Any alimony or other maintenance payments, including payments for the support of a minor child, arising in one of the Contracting States and paid to a resident of the other Contracting State, shall be taxable only in the first-mentioned State.

ARTICLE 19
GOVERNMENTAL REMUNERATION

Wages, salaries, and similar remuneration, including pensions, paid from funds of one of the Contracting States, of a state or other political subdivision thereof or of an agency or authority of any of the foregoing for labor or personal services performed as an employee of any of the above in the discharge of governmental functions to a citizen of that State shall be exempt from tax by the other Contracting State.

ARTICLE 20
STUDENTS

Where a student, who is a resident of one of the Contracting States or who was a resident of that State immediately before visiting the other Contracting State and who is temporarily present in that other State for the purpose of his full-time education, receives payments from sources outside that other State for the purpose of his maintenance or education, those payments shall be exempt from tax in that other State.

ARTICLE 21
INCOME NOT EXPRESSLY MENTIONED

(1) Items of income of a resident of one of the Contracting States which are not expressly mentioned in the foregoing Articles of this Convention shall be taxable only in that State.

(2) However, if such income is derived by a resident of one of the Contracting States from sources in the other Contracting State, such income may also be taxed in the State in which it has its source.

(3) The provisions of paragraph (1) shall not apply to income derived by a resident of one of the Contracting States which is effectively connected with a permanent establishment situated in the other Contracting State. In such a case, the provisions of Article 7 (Business Profits) shall apply.

ARTICLE 22
RELIEF FROM DOUBLE TAXATION

(1) Subject to paragraph (4) and in accordance with the provisions and subject to the limitations of the law of the United States (as it may be amended from time to time without changing the general principle hereof), in the case of the United States, double taxation shall be avoided as follows:

(a) the United States shall allow to a resident or citizen of the United States as a credit against United States tax the appropriate amount of income tax paid to Australia; and

(b) in the case of a United States corporation owning at least 10 percent of the voting stock of a company which is a resident of Australia from which it receives dividends in any taxable year, the United States shall also allow as a credit against United States tax the appropriate amount of income tax paid to Australia by that company with respect to the profits out of which such dividends are paid.

Such appropriate amount shall be based upon the amount of income tax paid to Australia. For purposes of applying the United States credit in relation to income tax paid to Australia the taxes referred to in sub-paragraph (1)(b) and paragraph (2) of Article 2 (Taxes Covered) shall be considered to be income taxes. No provision of this Convention relating to source of income shall apply in determining credits against United States tax for foreign taxes other than those referred to in sub-paragraph (1)(b) and paragraph (2) of Article 2 (Taxes Covered).

(2) Subject to paragraph (4), United States tax paid under the law of the United States and in accordance with this Convention, other than United States tax imposed in accordance with paragraph (3) of Article 1 (Personal Scope) soley by reason of citizenship or by reason of an election by an individual under United States domestic law to be taxed as a resident of the United States, in respect of income derived from sources in the United States by a person who, under Australian law relating to Australian tax, is a resident of Australia shall be allowed as a credit against Australian tax payable in respect of the income. The credit shall not exceed the amount of Australian tax payable on the income or any class thereof or on income from sources outside Australia. Subject to these general principles, the credit shall be in accordance with the provisions and subject to the limitations of the law of Australia as that law may be in force from time to time.

(3) An Australian corporation that owns at least 10 percent of the voting power in a United States corporation is, in accordance with the law of Australia as in force at the date of signature of this Convention, entitled to a rebate in its assessment, at the average rate of tax payable by it, in respect of dividends paid by the United States corporation that are included in the taxable income of the Australian corporation. However, should the law as so in force be amended so that the rebate in relation to the dividends ceases to be allowable under that law, Australia shall allow credit under paragraph (2) for the United States tax paid on the profits out of which the dividends are paid as well as for the United States tax paid on the dividends.

(4) For the purposes of computing United States tax, where a United States citizen is a resident of Australia, the United States shall allow as a credit against United States tax the income tax paid to Australia after the credit referred to in paragraph (2). The credit so allowed against United States tax shall not reduce that portion of the United States tax that is creditable against Australian tax in accordance with paragraph (2).

ARTICLE 23
NON-DISCRIMINATION

(1) Each Contracting State in enacting tax measures shall ensure that:

(a) citizens of a Contracting State who are residents of the other Contracting State shall not be subjected in that other State to any taxation or any requirement connected therewith which is more burdensome than the taxation or connected requirements to which citizens of that other State who are residents of that other State in the same circumstances are or may be subjected;

(b) except where the provisions of paragraph (1) of Article 9 (Associated Enterprises), paragraph (4) of Article 11 (Interest) or paragraph (5) of Article 12 (Royalties) apply, interest, royalties and other disbursements paid by a resident of a Contracting State to a resident of the other Contracting State shall, for the purpose of determining the taxable profits of the resident of the first-mentioned State, be deductible under the same conditions as if they had been paid to a resident of the first-mentioned State;

(c) a corporation of a Contracting State, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other Contracting State, shall not be subjected in the first-mentioned State to any taxation or any requirement connected therewith which is more burdensome than the taxation or connected requirements to which other similar corporations of the first-mentioned State in the same circumstances are or may be subjected; and

(d) the taxation on a permanent establishment which a resident of a Contracting State has in the other Contracting State shall not be less favorably levied in that other State than the taxation levied on residents of that other State that carry on the same activities in the same circumstances.

(2) Nothing in this Article relates to any provision of the taxation laws of a Contracting State:

(a) in force on the date of signature of this Convention;

(b) adopted after the date of signature of this Convention but which is substantially similar in general purpose or intent to a provision covered by sub-paragraph (a); or

(c) reasonably designed to prevent the avoidance or evasion of taxes;

provided that, with respect to provisions covered by sub-paragraphs (b) or (c), such provisions (other than provisions in international agreements) do not discriminate between citizens or residents of the other Contracting State and those of any third State.

(3) Without limiting by implication the interpretation of this Article, it is hereby declared that, except to the extent expressly so provided, nothing in the Article prevents a Contracting State from distinguishing in its taxation laws between residents and non-residents solely on the ground of their residence.

(4) Where one of the Contracting States considers that the taxation measures of the other Contracting State infringe the principles set forth in this Article the Contracting States shall consult together in an endeavor to resolve the matter.

ARTICLE 24
MUTUAL AGREEMENT PROCEDURE

(1)(a) Where a resident of one of the Contracting States considers that the action of one or both of the Contracting States results or will result for him in taxation not in accordance with this Convention, he may, notwithstanding the remedies provided by the domestic laws of those States, present his case to the competent authority of the Contracting State of which he is a resident or citizen. The case must be presented within three years from the first notification of that action.

(b) Should the claim be considered to have merit by the competent authority of the Contracting State to which the claim is made, that competent authority shall seek to come to an agreement with the competent authority of the other Contracting State with a view to the avoidance of taxation contrary to the provisions of this Convention. Any agreement reached shall be implemented notwithstanding any time limits or other procedural limitations in the domestic law of the Contracting States.

(2) The competent authorities of the Contracting States shall seek to resolve by agreement any difficulties or doubts arising as to the application or interpretation of this Convention. In particular the competent authorities of the Contracting States may agree:

(a) to the same attribution of income, deductions, credits, or allowances of an enterprise of one of the Contracting States to its permanent establishment situated in the other Contracting State;

(b) to the same allocation of income, deductions, credits, or allowances between persons;

(c) to the same determination of the source of particular items of income;

(d) to the same meaning of any term used in this Convention; or

(e) to which of the Contracting States an individual described in sub-paragraph (2)(c) of Article 4 (Residence) has closer personal and economic relations.

(3) The competent authorities of the Contracting States may communicate with each other directly for the purpose of reaching an agreement in the sense of this Article.

ARTICLE 25
EXCHANGE OF INFORMATION

(1) The competent authorities shall exchange such information as is necessary for carrying out the provisions of this Convention or for the prevention of fraud or for the administration of statutory provisions concerning taxes to which this Convention applies provided the information is of a class that can be obtained under the laws and administrative practices of each Contracting State with respect to its own taxes.

(2) Any information so exchanged shall be treated as secret and shall not be disclosed to any persons other than those (including a Court or administrative body) concerned with the assessment, collection, administration or enforcement of, or with litigation with respect to, the taxes to which this Convention applies.

(3) No information shall be exchanged which would be contrary to public policy.

(4) If specifically requested by the competent authority of one of the Contracting States, the competent authority of the other Contracting State shall provide information under the Article in the form of copies of unedited original documents (including books, papers, statements, records, accounts or writings) to the same extent such documents can be obtained under the laws and administrative practices of that other State with respect to its own taxes.

(5) Each of the Contracting State shall endeavor to collect on behalf of the other Contracting State amounts equal to such taxes imposed by the other State as will ensure that any exemption or reduction in rate of tax granted under this Convention by that other State shall not be enjoyed by persons not entitled to such benefits.

ARTICLE 26
DIPLOMATIC AND CONSULAR PRIVILEGES

Nothing in this Convention shall affect diplomatic and consular privileges under the general rules of international law or under the provisions of special agreements.

ARTICLE 27
MISCELLANEOUS

(1)(a) Income derived by a resident of the United States which, under this Convention, may be taxed in Australia shall for the purposes of the income tax law of Australia and of this Convention be deemed to be income from sources in Australia.

(b) Income derived by a resident of Australia which, under this Convention, may be taxed in the United States, other than income taxed by the United States in accordance with paragraph (3) of Article 1 (Personal Scope) solely by reason of citizenship or by reason of an election by an individual under United States domestic law to be taxed as a resident of the United States, shall for the purposes of paragraph (2) of Article 22 (Relief from Double Taxation) and of the income tax law of Australia be deemed to be income from sources in the United States.

(c) Where paragraph (4) of Article 22 (Relief from Double Taxation) applies, income referred to in that paragraph shall be deemed to have its source in Australia to the extent necessary to give effect to the provisions of that paragraph.

(2) Any exemption from tax by one of the Contracting States provided for in Article 14 (Independent Personal Services), 15 (Dependent Personal Services), 17 (Entertainers) or 19 (Governmental Remuneration) shall be inapplicable to the extent that the income to which the exemption relates is not or, upon the application of the relevant Article of this Convention (prior to application of this paragraph), will not be subject to tax by the other Contracting State.

ARTICLE 28
ENTRY INTO FORCE

(1) This Convention shall be subject to ratification in accordance with the applicable procedures of each Contracting State, and instruments of ratification shall be exchanged at Washington, D.C., as soon as possible.

(2) The Convention shall enter into force upon the exchange of instruments of ratification and its provisions shall have effect:

(a) with respect to those dividends, interest and royalties to which Articles 10 (Dividends), 11 (Interest) and 12 (Royalties), respectively, apply and which are paid, credited or otherwise derived on or after the first day of the second month following the date on which the Convention enters into force; and

(b) with respect to all other income of a taxpayer, for the taxpayer's years of income or taxable years, as the case may be, commencing on or after the first day of the second month following the date on which the Convention enters into force.

(3) Subject to paragraph (4), the Convention between the Government of the United States of America and the Government of the Commonwealth of Australia for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income signed at Washington on May 14, 1953 (in this Article referred to as the 1953 Convention) shall cease to have effect with respect to taxes to which this Convention applies under paragraph (2).

(4) The 1953 Convention shall terminate on the expiration of the last date on which it has effect in accordance with the foregoing provisions of this Article.

ARTICLE 29
TERMINATION

(1) This Convention shall remain in force until terminated by a Contracting State. Either Contracting State may terminate the Convention at any time after 5 years from the date on which the Convention enters into force, provided that at least 6 months prior notice of termination has been given through the dip-

lomatic channel. In such event, the Convention shall cease to have effect:

(a) with respect to those dividends, interest and royalties to which Articles 10 (Dividends), 11 (Interest) and 12 (Royalties) respectively apply, and which are paid, credited or otherwise derived on or after the first day of January following the expiration of the 6 month period; and

(b) with respect to all other income of a taxpayer, for the taxpayer's years of income or taxable years, as the case may be, commencing on or after the first day of January following the expiration of the 6 month period.

(2) Notwithstanding the provisions of paragraph (1), upon prior notice to be given through the diplomatic channel, the provisions of paragraph (2) of Article 18 (Pensions, Annuities, Alimony and Child Support) may be terminated by either Contracting State at any time after this Convention enters into force.

Done in duplicate at Sydney this sixth day of August 1982.

SENATE EXECUTIVE REPORT NO. 98–16

[Bracketed numerals indicate official report page number]

TAX CONVENTION WITH THE GOVERNMENT OF AUSTRALIA

Mr. Percy, from the Committee on Foreign Relations, submitted the following report to accompany Treaty Doc. 97–28, 97th Cong., 2d sess.

The Committee on Foreign Relations, to which was referred the Tax Treaty with the Government of Australia[1] for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income (Treaty Doc. 97–28), having considered the same, reports favorably thereon, and recommends that the Senate give its advice and consent to ratification thereof.

I. PURPOSE

The principal purpose of the proposed income tax treaty between the United States and Australia is to reduce or eliminate potential double taxation of income earned by citizens and residents of either country from sources within the other country and to prevent avoidance or evasion of the income taxes of the two countries. The proposed treaty is intended to promote closer economic cooperation between the two countries and to eliminate possible barriers to trade caused by overlapping taxing jurisdictions of the two countries. It is intended to enable the countries to cooperate in preventing avoidance and evasion of taxes.

II. BACKGROUND

The proposed treaty with Australia was signed on August 6, 1982. The proposed treaty would replace the 1953 income tax treaty between the United States and Australia. The treaty was transmitted to the Senate for advice and consent to ratification on September 14, 1982.

III. SUMMARY

The proposed treaty is similar to other recent U.S. income tax treaties and to the model income tax treaty of the Organization for Economic Cooperation and Development (OECD) in many respects, but in certain respects it accords greater jurisdiction to tax to the country of source, rather than to the country of residence.

As in other U.S. tax treaties, the objectives of the treaty are principally achieved by each country agreeing to limit, in certain specified situations, its right to tax income derived from its territory by residents of the other. For example, the treaty contains the standard tax treaty provisions that neither country will tax the business income derived from sources within that country by residents of the other unless the business activities of the taxing country are substantial enough to constitute a permanent establishment or fixed base (Articles 7 or 14). Similarly, the treaty contains the standard "commercial visitor" exemptions under which residents of one country performing personal services in the other will not be required to pay tax in the other unless their contact with the other exceeds specified minimums (Articles 14, 15, and 17). The proposed treaty provides that dividends, interest, royalties, certain capital gains and certain other income derived by a resident of either country from sources within the other country, generally may be taxed by both countries (Articles 10, 11, 12, 13, and 21). Generally, however, dividends, interest, and royalties received by a resident of one country from sources within the other country are to be taxed by the source country on a restricted basis (Articles 10, 11, and 12).

In situations where the country of source retains the right under the proposed treaty to tax income derived by residents of the other country, the treaty generally provides for the relief of the potential double taxation by the country of residence allowing a foreign tax credit or, in certain cases, a partial exemption.

This treaty contains the standard provision (the "saving clause") contained in U.S. tax treaties that each country retains the right to tax its citizens and residents as if the treaty had not come into effect (Article 1). In addition, it contains the standard provision that the treaty will not be applied to deny any taxpayer any benefits he would be entitled to under the domestic law of the country or under any other agreement between the two countries (Article 1); that is, the treaty will be applied only to the benefit of taxpayers.

The proposed treaty differs in certain respects from many U.S. income tax treaties and the U.S. model. It also differs in significant respects from the present treaty with Australia.

(1) U.S. citizens who are not also U.S. residents are not generally covered. The U.S. model does cover such U.S. citizens. However, the United States has rarely been able to negotiate coverage for nonresident citizens.

(2) The proposed treaty does not provide for determination of a single residence for all corporations that are residents of both the United States and Australia under local law. The U.S. and Organization for Economic Cooperation and Development (OECD) model treaties do each provide for such a determination. The effect of the lack of such a provision in the proposed treaty is to deny certain treaty benefits to dual resident corporations. Although such corporations may under current law be able to deduct certain amounts in both countries, they would also have to include items of income in both countries. The proposed treaty might tend to encourage some dual resident companies to become residents of but one country so as to take advantage of certain treaty benefits.

(3) The definition of permanent establishment in the proposed treaty is somewhat broader than that in the U.S. model and in many existing U.S. treaties. The principal areas in which the proposed treaty departs from the U.S. model are the inclusion as a permanent establishment of a building site or construction, assembly or installation project that exists for more than 9 months and an installation, drilling rig or ship that, for at least 6 months in

---

[1] Page 7: Technical Explanation, page 33.

any 24 month period, is used for dredging or for sea-bed and subsoil exploration or mining (rather than, in each case, the model's 12 months). In addition, maintaining substantial equipment in a country for more than 12 months or engaging in supervisory activities in connection with building sites, etc. for more than 9 months in any 24 month period would create permanent establishment status under the proposed treaty but not under the model.

(4) The proposed treaty does not contain a definition of the term "business profits," although certain categories of business profits are defined in various articles. This leaves to local law the definition of that term in some cases, and accordingly the profits must be attributed to a permanent establishment before those profits can be taxed by the country where the permanent establishment is located. Many U.S. treaties, and the U.S. model, define the term business profits to include income from rental of tangible personal property and from rental or licensing of films or tapes. Absence of this definition means that persons who earn such rental or licensing income could be subject to tax on a gross basis, not a net basis, in the source country unless they maintain a permanent establishment there.

(5) The proposed treaty does not allow investors in real property in the country not of their residence to elect to be taxed on such investments on a net basis. The U.S. model allows such an election. Although current Australian law and current U.S. law provide for net basis taxation, there is no guarantee that Australia will continue such treatment.

(6) The proposed treaty does not exempt from source country tax certain categories of income that would be exempt under the U.S. model treaty as shipping or aircraft income. These categories include: (1) income from leasing containers that is not incidental to the operation of ships or aircraft in international traffic by the lessor; and (2) income from leasing ships or aircraft on a full basis by persons that do not either operate ships or aircraft in international traffic or in their home country or regularly lease ships or aircraft on a full basis.

(7) The limit on the gross dividend withholding tax that the country of source may impose is 15 percent (Article 10) in contrast to the 5 percent limit on direct dividends and 15 percent limit on portfolio dividends in the U.S. model. The present treaty also allows a 15 percent rate.

(8) The withholding tax at source on gross interest is limited to 10 percent (Article 11) rather than the zero rate in the U.S. model. A zero rate is not generally achieved in many treaties, but is at times achieved for interest earned by banks on loans made into the source country. Although the present treaty does not limit the rate of the withholding tax on interest, the current Australian statutory withholding rate is 10 percent, while the analogous U.S. rate is 30 percent.

(9) The withholding tax at source on royalties is limited to 10 percent (Article 12) rather than the zero rate in the U.S. model. The present treaty does not generally limit source country taxation of royalties, but does exempt certain copyright royalties (not film and video royalties) from tax at source. The current Australian statutory withholding rate on royalty payments (which would be reduced to 10 percent by the proposed treaty) is 51 percent in many cases.

(10) The proposed treaty allows source country taxation of capital gains generally including gain on disposition of real estate (thus preserving U.S. tax under the Foreign Investment in U.S. Real Property Tax Act of 1980 ("FIRPTA")). The U.S. model generally permits source country taxation of real estate gain and gain from the alienation of personal property attributable to a permanent establishment or fixed base in the source country but prohibits other source country taxation of capital gains.

(11) The proposed treaty allows source country taxation of independent personal services on the basis of presence in that country for more than 183 days in a taxable year. The model treaty does not allow taxation on that basis. Under the model, independent personal services of a nonresident are taxable only if the nonresident has available a fixed base in the source country.

(12) The proposed treaty allows source country taxation of entertainers and athletes who earn more than $10,000 there during a taxable year; the comparable amount in the model treaty is $20,000.

(13) The present treaty exempts from source country taxation the salaries of teachers from the other country who visit for two years or less. The proposed treaty, like the U.S. model, subjects those amounts to its standard rules, which would ordinarily result in full source country taxation.

(14) The proposed treaty exempts alimony payments from taxation in the country of the recipient's residence, while allowing the payor's country to tax them. The model treaty exempts such payments from taxation in the country of the payor's residence, while allowing the country of the recipient's residence to tax them.

(15) The proposed treaty's nondiscrimination provision is more limited than the U.S. model and provisions found in many U.S. tax treaties because it does not apply to the tax rules that were in effect in either country on the date of signature, August 6, 1982, and because it does not prevent discrimination by States and localities in their tax laws. The present treaty, however, does not limit discrimination at all.

[5] (16) The proposed treaty provides for the exchange of information relating only to taxes it covers. The U.S. model treaty applies to taxes of every kind imposed by the contracting countries.

(17) The proposed treaty provides that any source country exemption of personal services income is inapplicable if the residence country exempts that income. The model treaty contains a similar provision that is not limited to personal services income. One effect of this provision is that a limited category of U.S. individuals who are exempt from U.S. tax on foreign earned income (under Code sec. 911) would be subject to Australian tax on Australian income.

IV. DATE OF ENTRY INTO FORCE AND TERMINATION

Entry into Force

The proposed treaty will enter into force upon the exchange of instruments of ratification. As a general rule, the treaty will become effective for taxable years beginning on or after the first day of the second month following the date on which the proposed treaty comes into force. With respect to dividends, interest and royalties that are the subject of the treaty rules under Articles 10, 11, and 12 respectively, the treaty will be effective for amounts paid, credited, or derived on or after the first day of the second month next following the date on which the convention enters into force. The existing treaty is to be phased out as the proposed treaty becomes effective. When the proposed treaty becomes fully effective the existing treaty will terminate.

Termination

The proposed treaty will continue in force indefinitely, but either country may terminate it at any time after five years from its entry into force by giving at least six months prior notice through the diplomatic channel. If termination occurs, the termination will be effective with respect to dividends, interest and royalties (to which Articles 10, 11, or 12 apply) for amounts paid, credited or otherwise derived on or after the first day of January following the expiration of the six months notice. Any termination will be effective with respect to other income for taxable years beginning on or after the first day of January following the expiration of the six months notice.

The proposed treaty contains a special rule allowing either country to terminate one treaty provision in Article 18 (exempting social security payments and other public pension payments from taxation on the basis of residence and citizenship) without terminating any other provision of the treaty. Such partial termination may occur, upon prior notice through the diplomatic channel, at any time after the treaty enters into force.

V. COMMITTEE ACTION

The Commitee on Foreign Relations held public hearings on the proposed Australian income tax treaty, and on other income tax treaties, on May 24, 1983. The Committee heard testimony in opposition to the treaty from Edward Woolley, Secretary and General Counsel of the Institute of International Container Lessors. The [6] Committee considered the proposed treaty on June 28, 1983, and ordered it favorably reported by a voice vote, with the recommendation that the Senate give its advice and consent to its ratification.

VI. COMMITTEE COMMENTS

The Committee on Foreign Relations approved the treaty, but expressed its serious concern with the treatment of container leasing income and with the extension of permanent establishment treatment to drilling rigs present in the taxing country for a limited period of time.

This treaty contains two provisions that depart from the U.S. model treaty in a way that adversely affects two important U.S. industries—the container leasing industry and the contract drilling industry. In some cases, a particular taxpayer or industry may receive better treatment under an existing treaty than under a newly negotiated treaty or may receive better treatment under the U.S. model treaty than under a specific treaty. Since a treaty is essentially a compromise between two countries with competing interests, that result is not unexpected. The central issue is whether the final agreement represents a bargain which is sufficiently favorable overall to the United States that it should be ratified. The Committee recognizes that the negotiation of a tax treaty involves a wide range of issues and a significant amount of give and take on both sides. In this case, the Committee notes that the proposed treaty is the result of fourteen years of negotiation and would benefit a number of U.S. industries with substantial investments in Australia. Therefore, the Committee believes that the appropriate course of action is to approve the treaty while indicating the disfavor with which it views the provisions allowing Australian taxation of U.S. container lessors and contract drillers.

The Commitee is, however, concerned that an individual industry not repeatedly pay the price for treaty relationships. The Committee will monitor treaties that are negotiated in the future to make sure that individual industries are not bearing the brunt of the bargain in those treaties, and will have to seriously consider rejecting treaties that do not contain the proper balance between the interest of a particular industry and benefits to a broad range of U.S. taxpayers.

Container leasing income

The proposed treaty would permit Australia to tax container leasing rentals as royalties subject to a withholding tax of 10 percent of the gross rental in certain cases unless the lease is merely incidental to the operation in international traffic of ships or aircraft by the lessor (Articles 8 and 12). Under the U.S. model, container leasing income is treated as transportation income and is exempt from tax at source even though the lessor is not engaged in international traffic of ships or aircraft.

The Committee is concerned with this provision for several reasons. First, it represents a significant departure from U.S. policy as expressed in the U.S. model income tax treaty and from recent U.S. practice. All the treaties that the United States has negotiated since adoption of the 1977 U.S. model have treated container leasing [7] income as either shipping income, exempt in the source country, or as business profits, taxable on a net basis. Second, inclusion of this provision seems to indicate that there is some justifiable distinction between container leasing income and other transportation income. The Committee does not believe that any such justifiable distinction exists. Third, it could allow Australia to impose a gross withholding tax that could exceed net income in certain cases. Fourth, it would place container leasing companies at a competitive disadvantage to shipping companies who lease containers in international traffic as an incidental prt of their business, and who would be exempt from tax on those container leases under the proposed treaty (as under the U.S. model treaty). Fifth, the taxation of container leasing income on the basis of the residence of the payor is inappropriate because it could lead to multiple taxation. If one country (such as Australia) taxes container leasing income of a U.S. lessor on the basis of residence of the lessee, while a third country (not a party to the treaty) taxes that income on the basis of location of the container, there may be double taxation. Although the United States, as residence country, would not claim primary taxing jurisdiction in this example, the overlapping claims of source country jurisdiction could result in extremely high tax rates.

The Committee has been advised that the Treasury does not view this provision as precedent. The Committee expresses its strong concern about this provision and advises the Treasury Department, in any future negotiations, to take all necessary steps to conform future treaties to the U.S. model treaty on this point.

Income from drilling activities

The proposed treaty contains a permanent establishment article that is broader than that contained in the U.S. or OCED model treaties. It would permit the country in which certain activities are carried on to tax income from those activities sooner than it would be able to under the model. Under the proposed treaty, U.S. enterprises that use an installation, drilling rig or ship for dredging or in connection with the exploration for or exploitation of natural resources of the Australian sea-bed and subsoil may be subject to Australian tax if they are present in Australian territory for as little as 6 months in any 24-month period. Under the U.S. model, they must be present there for at least one year. The practical effect of the provision could be to increase Australian taxation of mineral exploration activities. This expansion was made at the insistence of Australia.

The Committee wishes to express its strong concern with the treatment that contract drillers receive under this treaty. The contract drilling industry is important to the United States, and the Committee strongly supports the approach of the U.S. model income tax treaty for contract drillers for treaties to be negotiated in the future. The Committee wishes to stress that the acceptance of this provision in this particular treaty does not indicate that the Committee will accept similar treatment in treaties negotiated in the future; it does not view this provision as a precedent for treaties to be negotiated in the future.

VII. BUDGET IMPACT

[8] The Committee estimates that the effect of the proposed treaty on budget receipts will be to produce negligible revenue gains in fiscal years through 1988.

In accordance with the objectives of section 403 of the Budget Act, the Committee advises that the Director of the Congressional Budget Office has examined the Committee's budget estimate and agrees that the effect on budget receipts will be to produce negligible revenue gains in fiscal years through 1988. In keeping with the spirit of section 308(a) of the Budget Act, and after consultation with the Director of the Congressional Budget Office, the Committee states that the treaty does not provide any new budget authority or any new or increased tax expenditures.

VIII. EXPLANATION OF TREATY PROVISIONS

[9] Set forth below is an article-by-article explanation of the proposed income tax treaty between the United States and Australia.

ARTICLE 1

PERSONAL SCOPE

The personal scope article describes the persons who may claim the benefits of the treaty and contains other rules including the "saving clause."

The proposed treaty applies generally to residents of the United States and to residents of Australia, with specific exceptions designated in other articles. This follows other U.S. income tax treaties, the U.S. model income tax treaty, and the OECD model income tax treaty. The terms "resident of the United States" and "resident of Australia" are defined in Article 4.

The proposed treaty provides that it does not restrict any benefits accorded by internal law or by any other agreement between the United States and Australia. Thus, the treaty will apply only where it benefits taxpayers.

Like all U.S. income tax treaties, the proposed treaty also contains a "saving clause." Under this clause, with specific exceptions described below, the treaty is not to affect the taxation by either country of its citizens or its residents. The proposed treaty would not affect the taxation of individuals electing under its domestic law to be taxed as residents of that taxing country. Under U.S. law, nonresident aliens may elect to be taxed as residents in certain circumstances (see sec. 6013(g), allowing filing of joint returns in certain cases upon such an election). By reason of the saving clause, unless otherwise specifically provided in the proposed treaty, the United States will continue to tax its citizens who are residents of Australia. Residents for purposes of the treaty (and thus, for purposes of the saving clause) include corporations and other entities as well as individuals (Article 4 (Residence)).

Under Section 877 of the Internal Revenue Code of 1954 ("Code"), a former U.S. citizen whose loss of citizenship had as one of its principal purposes the avoidance of U.S. income, estate or gift taxes, will, in certain cases, be subject to tax for a period of 10 years following the loss of citizenship. The treaty contains the standard provision found in the U.S. model and most recent treaties specifically retaining the right to tax former citizens. Even absent a specific provision the Internal Revenue Service takes the position that the United States retains the right to tax former citizens resident in the treaty partner (Rev. Rul. 79–152, 1979–1 C.B. 237).

Exceptions to the saving clause are provided for certain benefits conferred by the articles dealing with Associated Enterprises (Article 9); Pensions, Annuities, Alimony and Child Support (Article 18); Relief from Double Taxation (Article 22); Nondiscrimination (Article 23); [10] Mutual Agreement Procedure (Article 24); and certain sourcing rules (Article 27).

In addition, the saving clause does not apply to the benefits conferred by one of the countries under the articles dealing with Governmental Renumeration (Article 19), Students (Article 20), or Diplomatic and Consular Privileges (Article 26), upon individuals (1) who are not citizens of that conferring country and (2) who in the case of the United States do not have immigrant status, or who in the case of Australia are not ordinarily resident in Australia.

ARTICLE 2

TAXES COVERED

The proposed treaty generally applies to the income taxes of the United States and Australia.

In the case of the United States, the proposed treaty applies to the Federal income taxes imposed by the Internal Revenue Code, but excluding the accumulated earnings tax and the personal holding company tax. In the case of Australia, the proposed treaty applies to the Australian income tax, including the additional tax upon the undistributed amount of the distributable income of a private company. Although the U.S. model treaty applies to the excise tax on private foundations and (in certain cases) to the excise tax on insurance premiums paid to foreign insurers, the proposed treaty does not apply to those taxes. Thus, the United States could continue to impose them.

The proposed treaty contains a provision generally found in U.S. income tax treaties to the effect that it will apply to substantially similar taxes that either country may subsequently impose. The proposed treaty also obligates the competent authority of each country, at the end of each calendar year, to notify the competent authority of the other country of any substantial changes that have been made during that year in the laws of his country relating to the taxes to which the treaty applies or in the official interpretation of those laws or of the treaty. This rules is similar to the rule of the U.S. model.

ARTICLE 3

GENERAL DEFINITIONS

Certain of the standard definitions found in most U.S. income tax treaties are contained in the proposed treaty. The proposed treaty deviates from the U.S. model in its definitions of U.S. corporation and Australian corporation.

The term "person" is defined to include an individual, an estate or trust, a partnership, a company and any other body of persons. A "company" is any body corporate or any entity which is treated as a company or body corporate for tax purposes. An enterprise of a country is defined as an enterprise carried on by a resident of that country. Although the treaty does not define the term "enterprise" it would have the same meaning that it has in other U.S. tax treaties—the trade or business activities undertaken by an individual, partnership, corporation, or other entity.

The proposed treaty defines international traffic as any transport by a ship or aircraft, except where the transport is solely between places in one of the contracting countries. Accordingly, purely domestic transport in the United States or in Australia is excluded.

[11] The U.S. competent authority is the Secretary of Treasury or his delegate. In fact, the U.S. competent authority function has been delegated to the Commissioner of the Internal Revenue Service, who has redelegated the authority to the Associate Commissioner (Operations). The Assistant Commissioner (Examination) has been delegated the authority to administer programs for simultaneous, spontaneous, and industry-wide exchanges of information. The Director, Foreign Operations District (formerly called the Director of the Office of International Operations), has been delegated the authority to administer programs for routine and specific exchanges of information and mutual assistance in collection. The Australian competent authority is the Commissioner of Taxation or his authorized representative.

The term "Contracting State" means the United States or Australia, as the context requires. The term "State" means any country, and is not necessarily limited to the United States and Australia.

The term "United States corporation" is defined to mean a corporation that (1) under U.S. tax law, is a domestic corporation or an unincorporated entity treated (under section 7701) as a domestic corporation, and (2) is not, under Australian tax law, a resident of Australia. Similarly, the term "Australian corporation" means a company (as defined under the Australian tax law) that (1) is (under the Australian tax law) a resident of Australia, and (2) is not, under U.S. tax law, a U.S. corporation or an unincorporated entity treated (under section 7701) as a U.S. corporation. Under Australian law, a resident company is defined as a company which is incorporated in Australia, or which, not being incorporated in Australia, carries on business in Australia and has either its central management and control in Australia, or its voting power controlled by shareholders who are residents of Australia.

The interaction of United States and Australian law can result in a corporation being a resident of both countries under local law. For example, a corporation incorporated in the United States but carrying on business and being managed in Australia would be considered a domestic corporation by both countries under their local laws. The treaty provides that such a dual resident corporation is neither a U.S. nor an Australian corporation and thus would not be entitled to the benefits due a "United States corporation" or an "Australian corporation" under the treaty. The proposed treaty may tend to encourage corporations to arrange their affairs so as to obtain certain treaty benefits by being a resident of only one country. In this definition of residence, the proposed treaty differs from the U.S. model treaty, which seeks to find a single residence for corporations for treaty purposes.

The proposed treaty defines the terms "United States tax" and "Australian tax" as meaning the taxes covered by the treaty, but not penalties or interest imposed under the tax law of either country. Thus, the right of a country to impose penalties or interest is not limited by the proposed treaty.

The "United States" means the United States of America, a term that does not include Puerto Rico, the Virgin Islands, Guam or any other United States possession or territory. The definition of the United States also includes, when the term is used in a geographical sense, [12] the territorial waters of the United States and the seabed and subsoil of the submarine areas adjacent to the coast of the United States but beyond the territorial waters of the United States, which, in accordance with international law and the laws of the United States, are areas within which the United States exercises rights to exploit or explore for natural resources. The intent of this rule is to cover the U.S. continental shelf consistent with the definition of continental shelf contained in section 638 of the Code. In accordance with that intent, it is immaterial that no exploitation or exploration had occurred or was occurring in any particular area at the time of the signing of the treaty.

Under the proposed treaty, the term "Australia" means the Commonwealth of Australia. The definition of Australia also includes, when the term is used in a geographical sense, the Territory of Norfolk Island, the Territory of Christmas Island, the Territory of Cocos (Keeling) Island, the Territory of Ashmore and Cartier Islands, the Coral Sea Islands Territory, and any area adjacent to the territorial limits of Australia or any of those named territories which, in accordance with international law, is an area in which there is for the time being in force a law of Australia or of one of its States or Territories dealing with the exploitation of any of the natural resources of the seabed and subsoil of the continental shelf. Therefore, income earned on the Australian continental shelf is covered. The terms "resident of one of the Contracting States" and "resident of the other Contracting State" mean a resident of Australia or a resident of the United States, as the context requires.

The proposed treaty also contains the standard provision that, unless the context otherwise requires or the competent authorities of the two countries establish a common meaning, all terms are to have the meaning which they have under the applicable tax laws of the country applying the treaty.

ARTICLE 4
RESIDENCE

The assignment of a country of residence is important because the benefits of the proposed treaty generally are available only to a resident of one of the countries as that term is defined in the treaty. Furthermore, double taxation is often avoided by the treaty assigning one of the countries as the country of residence where under the laws of the countries the person is a resident of both.

Under U.S. law, residence of an individual is important because a resident alien is taxed on his worldwide income, while a nonresident alien is taxed only on U.S. source income and on his income that is effectively connected with a U.S. trade or business. The Code, however, does not define the term "residence." Instead, IRS regulations state that an alien is a resident of the United States if he is actually present in the United States and is not a mere transient or sojourner. Whether he is a transient is determined by his intentions as to the length and nature of his stay. (See Treas. Reg. sec. 1.871-2(b).) A company is resident in the United States if it is organized in the United States.

The proposed treaty defines "resident of Australia" to include any Australian corporation (as defined in Article 3 so as to exclude corporations with dual residence). The definition also includes any other person (other than a company, as defined in the Australian [13] tax law) who is a resident of Australia under Australian tax law. However, two categories of persons are treated as residents of Australia only to a limited extent (described below). These two categories of persons are (1) persons who are subject to Australian tax only on Australian source income (including certain residents of Australian territories), and (2) partnerships, estates, and trusts (other than certain charitable and employee-benefit trusts). Persons in these two categories are treated as Australian residents only (1) to the extent that the income they derive is subject to Australian tax as the income of an Australian resident, whether in the hands of one of the specified persons or in the hands of a partner in or beneficiary of such a person and, (2) to the extent that their income is exempt from Australian tax solely because it is subject to U.S. tax.

The proposed treaty defines "resident of the United States" to include any United States corporation (as defined in Article 3 so as to exclude corporations with dual residence). The term "resident of the United States" would generally include unincorporated entities treated as U.S. corporations for U.S. tax purposes. Corporations that are not U.S. corporations are not residents of the United States for purposes of the proposed treaty. In addition, the term "resident of the United States" includes any other person that is a U.S. resident for purposes of U.S. tax law. However, a partnership, estate, or trust will be considered to be a U.S. resident only (1) to the extent that the income it derives is subject to U.S. tax, either in its hands or in the hands of its partners or beneficiaries, as the income of a U.S. resident and (2) to the extent that its income is exempt from U.S. tax for reasons other than nonresidency (e.g., as an exempt organization under section 501(c)(3) of the Code or as a qualifying pension trust under section 401(a)). For example, if the share of U.S. residents in the profits of a U.S. partnership is only one-half, Australia would have to reduce its withholding tax on only half of the Australian source income paid to the partnership.

This provision of the proposed treaty is generally based on the fiscal domicile article of the U.S. model and OECD model tax treaties and is similar to the provisions found in other U.S. tax treaties. Consistent with most U.S. income tax treaties, citizenship alone does not establish residence. As a result, U.S. citizens residing overseas are not entitled to the benefits of the treaty as U.S. residents. This result is contrary to U.S. treaty policy as expressed in the U.S. model. The U.S. position is achieved in very few treaties.

A set of "tie-breaking" rules is provided to determine residence in the case of an individual who, under the basic treaty definition, would be considered to be a resident of both countries. Such a dual resident individual will be deemed for all purposes of the treaty to be a resident of the country in which he maintains his permanent home. In determining an individual's permanent home, regard is to be given to the place where the individual dwells with his family. If this permanent home test is inconclusive (because the individual has a permanent home in both countries or in neither), the individual's residence is deemed to be the country in which he has an habitual abode. If this habitual abode test is in its turn inconclusive, the individual's residence is deemed to be the country with which [14] his personal and economic relations are closer. In determining the country with which such relations are closer, regard is to be given to the individual's citizenship (if he is a citizen of one of the countries). The competent authorities of the United States and Australia are specifically authorized to agree as to with which country an individual has closer personal and economic relations (Article 24 (Mutual Agreement Procedure)).

When the tie-breaking rules described above operate to deem an individual a resident of Australia or of the United States for any taxable year, that individual shall be deemed to be a resident of only that country for that year.

ARTICLE 5
PERMANENT ESTABLISHMENT

The proposed treaty contains a definition of the term "permanent establishment" which, with certain exceptions, follows the pattern of other recent U.S. income tax treaties, the U.S. model, and the OECD model.

The permanent establishment concept is one of the basic devices used in income tax treaties to limit the taxing jurisdiction of the host country and thus mitigate double taxation. Generally, an enterprise that is a resident of one country is not taxable by the other country on its business profits unless those profits are attributable to a permanent establishment of the resident in the other country. In addition, the reduced rates of, or certain exemptions from, tax provided for dividends, interest, and royalties will apply unless the asset generating the income is effectively connected with the permanent establishment, in which case such items of income are taxed as business profits. U.S. taxation of business profits is discussed under Article 7 (Business Profits).

In general, under the proposed treaty, a permanent establishment is a fixed place of business through which an enterprise engages in business in the other country. A permanent establishment includes a place of management, a branch, an office, a factory, a workshop, a mine, an oil or gas well, a quarry, or other place of extraction of natural resources, and an agricultural, pastoral, or forestry property. It also includes any building site or construction, assembly or installation project, if the site or project lasts for more than 9 months. This 9-month period differs from the 12-month period of the U.S. model treaty. If the site or project lasts for 9 months or less, it does not constitute a permanent establishment. The use of an installation, drilling rig or ship in a country to dredge or for or in connection with exploration for or exploitation of natural resources of the sea-bed and subsoil also gives rise to a permanent establishment if the use in that country is for at least 6 months in any 24 month period. This 6-of-24 months rule differs from the 12-month rule of the U.S. model treaty. If use of an installation, rig or ship does not last as much as 6 months in any 24-month period, that use does not give rise to a permanent establishment. The current treaty does not contain special rules for building sites, etc.

This general rule is modified to provide that a fixed place of business that is used solely for any or all of a number of specified activities will not constitute a permanent establishment. These activities include the use of facilities for storing, displaying, or delivering [15] merchandise belonging to the enterprise or for the maintenance of a stock of goods belonging to the enterprise for storage, display, or delivery, or for processing by another enterprise. These activities also include the maintenance of a fixed place of business for the purchase of goods or merchandise, for the collection of information, for advertising or scientific research, or for any other preparatory or auxiliary activities for the enterprise.

If an enterprise of one country does business in the other country through a person who has, and habitually exercises, the authority to enter into contracts in that other country in the name of the enterprise, then the enterprise will be deemed to have a permanent establishment in the other country. This rule does not apply where the activities of the agent are limited to those activities (described above) such as storage, display, or delivery of merchandise which are excluded from the definition of permanent establishment. The proposed treaty contains the usual provision that the agency rule will not apply if the agent is a broker, general commission agent, or other agent of independent status acting in the ordinary course of its business.

In addition, an enterprise of one country will be deemed to have a permanent establishment in the other country if it maintains in that other country substantial equipment for rental or other purposes for a period exceeding 12 months. This rule does not apply to equipment leased under a hire-purchase agreement. The treaty does not define the term "substantial equipment."

An enterprise of one country will also be deemed to have a permanent establishment in the other country if it engages in supervisory activities in that other country for more than 9 months in any 24-month period in connection with a building site or construction, assembly or installation project in that other country. This 9-of-24-months rule for such supervisory activities contrasts with the 9-months-of-existence rule, described above, for the maintenance of such a site or project. There is no special rule for such supervisory activities in the U.S. model treaty.

In certain cases described below, an enterprise of one country will also be deemed to have a permanent establishment in the other country if it owns goods or merchandise that a second enterprise subjects to substantial processing in that other country after the first enterprise either (1) bought them in that other country (if the goods or merchandise were not subjected to prior substantial processing outside that other country), or (2) produced them in that other country (or if the goods were produced for the enterprise in question in that other country). This rule applies only in cases where either the first or the second enterprise participates directly or indirectly in the management, control, or capital of the other, or where the same persons participate directly or indirectly in the management, control, or capital of both enterprises. This rule is not in the U.S. model treaty or the OECD model. As compared to the models, it creates a broader concept of permanent establishment and thus a broader taxing jurisdiction of the country in which certain goods or merchandise were purchased or produced. This rule supplements the power of the competent authorities to include profits of one associated enterprise in the income of another on an arm's-length basis (Article 9).

[16] The determination whether a company of one country has a permanent establishment in the other country is to be made without regard to the fact that the company may be related to a resident of the other country or to a person who engages in business in that other country. The relationship is thus not relevant; only the activities of the company being tested are relevant.

The provisions described above are to be applied to determine, for purposes of the treaty, whether an enterprise of a country other than Australia or the United States has a permanent establishment in Australia or the United States, and whether an Australian or U.S. enterprise has a permanent establishment in a third country.

ARTICLE 6
INCOME FROM REAL PROPERTY

This article covers income from owning real property. The rules governing income from the sale of real property are in Article 13.

Under the proposed treaty, income from real property may be taxed in the country where the real property is located. For purposes of the treaty, real property in a country will include leasehold interests in land (whether or not improved) located in that country. In addition, real property in a country will include rights to exploit or to explore for natural resouces situated or sought in that country. Thus, income from real property will include royalties and other payments in respect of the exploitation of natural resources (e.g., oil). It does not include interest on loans secured by real property.

Certain U.S. treaties and the current U.S. model treaty permit residents of one country to elect to be taxed on income from real property in the other country on a net basis. The proposed treaty does not contain that election, but such an election is provided for United States real property income under the Code (secs. 871(d) and 882(d)), and Australia taxes income from real property on a net basis. Also, certain treaties limit the tax a country may impose on rental or royalty income from real property. There is no limit in the proposed treaty.

Under Article 13 (Alienation of Property), gains on the sale, exchange or other disposition of real property (and shares of certain corporations owning real property) may also be taxed by the country where the property is located.

ARTICLE 7
BUSINESS PROFITS

U.S. Code rules

United States law distinguishes between the business income and the investment income of a nonresident alien or foreign corporation. A nonresident alien or foreign corporation is subject to a flat 30 percent rate (or lower treaty rate) of tax on certain U.S. source income if that income is not effectively connected with the conduct of a trade or business within the United States. The regular individual or corporate rates apply to income (from any source) which is effectively connected with the conduct of a trade or business within the United States.

The taxation of income as business or investment income varies depending upon whether the income is U.S. or foreign. In general, U.S. source periodic income (such as interest, dividends, rents and wages) and U.S. source capital gains are effectively connected with [17] the conduct of a trade or business within the United States only if the asset generating the income is used in or held for use in the conduct of the trade or business, or if the activities of the trade or business were a material factor in the realization of the income. All other U.S. source income of a person engaged in a trade or business in the United States is treated as effectively connected income.

Foreign source income is effectively connected income only if the foreign person has an office or other fixed place of business in the United States and the income is attributable to that place of business. Only three types of foreign source income can be effectively connected income: rents and royalties derived from the active conduct of a licensing business;

dividends, interest, or gain from stock or debt derived in the active conduct of a banking, financing or similar business in the United States; and certain sales income attributable to a United States sales office.

Except in the case of a dealer, trading in stocks, securities or commodities in the United States for one's own account does not constitute a trade or business in the United States and accordingly income from those activities is not taxed by the United States as business income. This concept includes trading through a U.S. based employee, a resident broker, commission agent, custodian or other agent or trading by a foreign person physically present in the United States.

Proposed treaty rules

Under the proposed treaty, business profits of an enterprise of one country are taxable in the other country only to the extent they are attributable to a permanent establishment in the other country through which the enterprise carries on business. This is one of the basic limitations on a country's right to tax income of a resident of the other country.

The taxation of business profits under the proposed treaty differs from United States rules for taxing business profits primarily by requiring more than merely being engaged in trade or business before a country can tax business profits and by substituting the "attributable to" standard for the Code's "effectively connected" standard. Under the Internal Revenue Code, all that is necessary for effectively connected business profits to be taxed is that a trade or business be carried on in the United States. Under the proposed treaty, on the other hand, some level of fixed place of business must be present and the business profits must be attributable to that fixed place of business.

The business profits of a permanent establishment are determined on an arm's-length basis. Thus, there is to be attributed to a permanent establishment the business profits which would reasonably be expected to have been derived by it if it were a distinct and independent entity engaged in the same or similar activities under the same or similar conditions and dealing at arm's-length with the enterprise of which it is a permanent establishment, or with any other enterprise with which it deals. Thus, for example, this arm's-length rule applies to transactions between the permanent establishment and a branch of the resident enterprise located in a third country. Amounts may be attributed whether they are from sources within or without the country in which the permanent establishment is located.

[18] In computing taxable business profits, deductions are allowed for expenses, wherever incurred, which are reasonably connected with those profits. These deductions include a reasonable allocation of executive and general administrative expenses and other expenses. Thus, for example, a U.S. company which has a branch office in Australia but which has its head office in the United States will, in computing the Australian tax liability of the branch, be entitled to deduct the executive, general administrative and other expenses incurred in the United States by the head office that are reasonably connected with the profits of the Australian branch. However, no expenses (wherever incurred) are to be deductible unless they would be deductible if the permanent establishment were an independent entity that paid them.

Unlike some U.S. treaties and the U.S. model, the proposed treaty does not define the term "business profits." Thus, to the extent not dealt with in other Articles, the term will be defined under the law of the two countries. If the definitions cause double taxation, the competent authorities could agree on a common meaning of the term.

Business profits will not be attributed to a permanent establishment merely by reason of the purchase of merchandise by a permanent establishment for the account of the enterprise. Thus, where a permanent establishment purchases goods for its head office, the business profits attributed to the permanent establishment with respect to its other activities will not be increased by a profit element in its purchasing activities.

The amount of profits attributable to a permanent establishment must be determined by the same method each year unless there is good and sufficient reason to change the method.

Where business profits include items of income which are dealt with separately in other articles of the treaty, those other articles, and not this Business Profits Article, will govern the treatment of those items of income. Thus, for example, film rentals are generally taxed under the provisions of Article 12 (Royalties), and not as business profits.

The proposed treaty contains a provision, not generally found in other treaties, that permits a country to determine the tax liability of a person under internal law where the information available to the competent authority of that country is inadequate to determine the profits attributable to a permanent establishment. However, on the basis of available information, the determination of the profits of the permanent establishment must be consistent with the principles of the Article.

The proposed treaty allows either country to continue to tax persons carrying on an insurance business under its internal law rather than under the treaty's business profits rules. This exception from treaty coverage continues so long as the law relating to insurance taxation in effect on the date of signature of the convention is not changed other than in minor respects that do not affect its general character.

ARTICLE 8
SHIPPING AND AIR TRANSPORT

As a general rule, the United States taxes the U.S. source income of a foreign person from the operation of ships or aircraft [19] to or from the United States. An exemption from U.S. tax is provided if the ship or aircraft is documented under the laws of a foreign country that grants an equivalent exemption to U.S. citizens and corporations. The United States has entered into agreements with a number of countries under which that country grants an exemption which results in the United States exempting that country's shipping.

The proposed treaty provides that profits which are derived by a resident of one country from the operation of ships or aircraft in international traffic ("shipping profits") shall be exempt from tax by the other country. International traffic means any tranportation by ship or aircraft, except where the transportation is solely between places in one of the countries (Article 3(1)(d) (General Definitions)). The proposed treaty also provides, in Article 8(3), that profits derived from the carriage by ships or aircraft of passengers, livestock, mail, goods or merchandise shipped in one country for discharge at another place in that country are not profits from international traffic and may be taxed in that country. This provision in Article 8(3) largely duplicates the effect of the definition of international traffic in Article 3(1)(d).

This exemption applies even if the ship or aircraft is not registered in either country. Thus, for example, income of a U.S. resident from the operation of a ship flying, for example, the Liberian flag would not be subject to Australian tax. This exemption based solely on residence is a liberalization of the rule in the present treaty that generally provides for an exemption only if the ship or aircraft is registered in the country of residence (or, in the case of the United States, corporate organization or citizenship) of the operator. The exemption also applies to income derived from the operation of ships and aircraft in international traffic through participation in a pool service, a joint transportation operating organization or an international operating agency.

Under the proposed treaty, certain profits from the rental of ships or aircraft would be exempt from tax in the country not the residence of the lessor as profits from the operation of ships and aircraft in international traffic. The rules governing the availability of the exemption differ according to whether the rental occurs on a full basis or a bare boat basis. (Rental on a full or bare boat basis refers to whether the ships or aircraft are leased fully equipped, manned and supplied or not.)

The proposed treaty exempts from tax (as shipping and aircraft income) a narrower category of leasing income than the U.S. model treaty exempts. Income from leasing ships or aircraft on a full basis is exempt under the proposed treaty if the ship or aircraft is operated by the lessee in international traffic and if the lessor either operates ships or aircraft otherwise than solely between places in the country not of his residence or regularly leases ships or aircraft on a full basis. Profits from the lease of ships or aircraft on a bare boat basis (or of containers and related equipment) for operation or use by the lessee in international traffic are shipping profits exempt under the treaty if the lease is merely incidental to the operation of ships and aircraft in international traffic by the lessor. Under the U.S. model treaty, income from leasing ships or aircraft (on a full or bare boat basis) is exempt if the lessee operates the ships or aircraft in international traffic or if the profits are incidental to other shipping or transport profits. The U.S. model treaty generally does not condition the exemption of container leasing income on any other activity of the lessor.

ARTICLE 9
ASSOCIATED ENTERPRISES

The proposed treaty, like most other U.S. tax treaties, contains an arm's-length pricing provision similar to section 482 of the Internal Revenue Code, which recognizes the right of each country to make an allocation of income to that country in the case of transactions between related enterprises, if an allocation is necessary to reflect the conditions and arrangements which would have been made between independent enterprises.

For purposes of the proposed treaty an enterprise of one country is related to an enterprise of the other country if one of the enterprises participates directly or indirectly in the management, control or capital of the other enterprise. The enterprises are also related if the same persons participate directly or indirectly in the management, control, or capital of both enterprises.

When a redetermination of tax liability has been properly made by one country, the other country will make an appropriate adjustment to the amount of tax paid in that country on the redetermined income. In making that adjustment due regard is to be given to other provisions of the treaty and the competent authorities of the two countries will consult with each other if necessary. To avoid double taxation, the proposed treaty's saving clause retaining full taxing jurisdiction in the country of residence or citizenship will not apply in the case of such adjustments.

These provisions of the proposed treaty are not intended to affect the application of any law in either country that relates to the determination of the tax liability of a person. This provision makes it clear that the U.S. retains the right to apply its intercompany pricing rules (section 482) and its rules relating to the allocation of deductions (sections 861, 862, and 863, and Treas. Reg. Section 1.861–8). Moreover, these provisions are not to supersede U.S. or Australian law relating to determinations in cases where the information available to the competent authority is inadequate to determine the income to be attributed to an enterprise, so long as the competent authority proceeds on the basis of available information consistently with these rules. Thus, the treaty does not affect the U.S. rule that the burden of proof is on the taxpayer.

ARTICLE 10
DIVIDENDS

The United States imposes a 30-percent tax on the gross amount of U.S. source dividends paid to nonresident alien individuals and foreign corporations. The 30-percent tax does not apply if the foreign recipient is engaged in a trade or business in the United States and the dividends are effectively connected with that trade or business. In such a case, the foreign recipient is subject to U.S. tax like a U.S. person at the standard graduated rates on a net basis. U.S. source dividends are dividends paid by a U.S. corporation, and certain dividends paid by a foreign corporation if at least 50 percent of the gross income of the foreign corporation, in the [21] prior three year period, was effectively connected with a U.S. trade or business of that foreign corporation.

Under the proposed treaty, dividends paid by a company that is a resident of one country, and to which a resident of the other country is beneficially entitled, may be taxed by both countries. However, the rate of tax that the country of which the payor is a resident may impose is limited to 15 percent of the gross amount of the dividends. This 15-percent rate is the rate found in the existing treaty with Australia. The current statutory rate in Australia is 30 percent. The proposed treaty's 15 percent rate is greater than the five-percent rate found in many U.S. treaties and the U.S. model with respect to dividends on direct investment, but Australia has not to date agreed to any treaty providing a lower rate.

The proposed treaty defines dividends as income from shares. Dividends also include income from other corporate rights which are taxed by the country in which the distributing corporation is resident in the same manner as income from shares. Under this provision, each country may apply its rules for determining when a payment by a resident company is on a debt obligation or an equity interest. Thus, for example, the United States could apply its section 385 rules for determining whether an interest is debt or equity.

The reduced rates of tax on dividends will apply unless the recipient has a permanent establishment (or fixed base in the case of an individual performing independent personal services) in the source country and the shareholdings on which the dividends are paid are effectively connected with the permanent establishment (or fixed base). Dividends effectively connected with a permanent establishment are to be taxed on a net basis as business profits (Article 7). Dividends effectively connected with a fixed base are to be taxed on a net basis as income from the performance of independent personal services (Article 14).

One country may not tax dividends paid by a company resident in the other country except in three cases: first, where a resident of the first country is beneficially entitled to the dividends; second, where the shares in respect of which the dividends are paid are effectively connected with a permanent establishment or a fixed base of the beneficial owner of the dividends in the taxing country; and third, where at least 50 percent of the paying company's gross income was attributable to one or more permanent establishments in the taxing country. In this last situation, however, the tax can be imposed only to the extent the dividends are paid out of the profits attributable to those permanent establishments and only if the country does not impose a tax not covered by the treaty (other than the U.S. accumulated earnings tax or personal holding company tax) such as the branch profits tax described in the following paragraph. The United States does not now impose a branch profits tax or similar tax, while Australia does. Thus, the United States, but not Australia, would now be authorized to tax dividends under this third (50 percent of gross income) provision. Under this provision, the rate of tax on the taxable portion is limited to the 15-percent withholding rate applicable to dividends. This third provision enables the United States to continue to tax dividends paid by foreign corporations doing substantial business in the United States. [22] The provision is, however, different from the U.S. rules because the proposed treaty's permanent establishment concept is more limited than the U.S. trade or business concept. (See discussion in Article 7 (Business Profits).)

The proposed treaty also reserves the right of the United States or Australia to impose a tax (such as a branch profits tax) on a source basis in addition to the regular corporate tax imposed on a permanent establishment maintained there on the earnings of such a permanent establishment. A country could impose such a tax under the proposed treaty only if it did not impose a tax on dividends on the ground that at least 50 percent of the paying company's gross income was attributable to one or more permanent establishments in the taxing country. The rate of tax is limited to 15 percent of net earnings after the ordinary income tax. (With the current 46 percent tax rate effective in Australia, this limitation is equivalent to a rate of 8.1 percent of pretax earnings.) The purpose of this provision is to permit Australia, subject to the special limitations, to continue to impose its so-called branch profits tax. The Australian tax is currently imposed at the rate of 5 percent of certain pre-tax Australian source income of a nonresident of Australia, whether or not that nonresident is a branch of a foreign corporation. The United States does not impose such a tax. This tax, like the U.S. withholding tax on certain dividends of foreign corporations that are attributable to a U.S. trade or business, serves as a substitute, as to the branch operations of foreign corporations, for the withholding tax imposed on payments by domestic subsidiaries to their foreign parents.

Australia imposes an undistributed profits tax on the retained earnings of private companies, generally those not listed on stock exchanges and 75 percent of whose beneficial ownership (or whose parent company's beneficial ownership) is in the hands of a small number of persons. Under the proposed treaty, Australia would grant some relief to private U.S. companies with undistributed Australian profits. Australia, under the proposed treaty, would have to calculate this undistributed profits tax on private companies that are U.S. residents as if those companies were not liable for the branch profits tax discussed above and as if those companies had paid dividends in such amounts that the withholding tax due on those dividends would equal the branch profits tax. For example, a U.S. resident private company earning $100 of Australian income would be subject to a regular Australian corporate tax of $46 and a branch profits tax of $5. Calculating the undistributed profits tax as if no branch profits tax were due would result in $54 (rather than $49) being treated as after-tax income. The branch profits tax of $5 equals the 15 percent withholding tax if that latter tax were applied to the amount of $33.33. Therefore, the undistributed profits tax would apply to $20.67 ($54–$33.33).

The treaty would allow the United States to adopt the Australian type of branch profits tax, subject to the same rules that apply to Australia.

ARTICLE 11
INTEREST

The United States imposes a 30-percent tax on U.S. source interest paid to foreign persons under the same rules that are applicable [23] to dividends. Under the Code, U.S. source interest generally is interest on debt obligations of U.S. persons, but not interest on deposits in banks. U.S. source interest also includes interest paid by a foreign corporation if at least 50 percent of the gross income of the foreign corporation, in the prior three year period, was effectively connected with a U.S. trade or business of that corporation.

Under the proposed treaty, interest may be taxed by a country if the beneficial owner of the interest is a resident of that country, the interest arose in that country, or the indebtedness to which the interest relates is effectively connected with a permanent establishment or fixed base of the beneficial owner of the interest in that country. The proposed treaty limits the withholding tax imposed by reason of source to 10 percent generally. The present treaty does not limit the withholding tax on interest, although the current Australian statutory rate of withholding tax is 10 percent. The U.S. model treaty provides for elimination of the withholding tax on portfolio interest (a zero rate), although this result is rarely achieved. The limitation in the proposed treaty applies only if the interest is beneficially owned by a resident of the other country; it does not apply if the recipient is a nominee for a nonresident.

The reduced tax rate will not apply if the recipient has a permanent establishment or fixed base in the source country and the debt claim is effectively connected with that permanent establishment or fixed base. In that event, the interest will be taxed as business profits (Article 7) or income from the performance of independent personal services (Article 14).

The proposed treaty addresses the issue of non-arm's-length interest charges between parties having a special relationship by providing that the amount of interest for purposes of the treaty will be the amount of arm's-length interest. The amount of interest in excess of the arm's-length interest will be taxable according to the laws of each country, taking into account the other provisions of this treaty (e.g., excess interest paid to a parent corporation may be treated as a dividend under local law and thus entitled to the benefits of Article 10 of this treaty).

The proposed treaty defines interest to include any income treated under the tax law of the source country as interest. Under this provision, each country may apply its rules for determining when a payment by a resident company is on a debt obligation or an equity interest. Thus, the United States could apply its section 385 rules for determining whether an interest is debt or equity.

The proposed treaty provides a source rule for interest (which is also used in Article 22 (Relief from Double Taxation) for foreign tax credit purposes). Interest will be sourced within a country if the payor is the government of that country, including political subdivisions and local authorities, or a resident of that country. Generally, this is consistent with U.S. source rules (section 861–862) which provide that interest income is sourced in the country in which the payor is resident. However, if the interest is borne by a permanent establishment (or fixed base) that the payor has in a country other than his country of residence and the indebtedness was incurred with respect to that permanent establishment (or fixed base), interest will be sourced in that country, regardless of the residence of the payor. Thus, for example, if an Australian resident [24] has a permanent establishment in France and that Australian resident incurs indebtedness to a U.S. person for that French permanent establishment, and the permanent establishment bears the interest, then the interest will, for purposes of the proposed treaty, have its source in France and Australia will not tax the interest.

Australian law now exempts from tax payments of interest to foreign governments and their agencies (including payments to the Export-Import Bank). The treaty does not guarantee that such exemption will continue.

ARTICLE 12
ROYALTIES

Under the same system that applies to dividends and interest, the United States imposes a 30-percent tax on U.S. source royalties paid to foreign persons. Royalties are from U.S. sources if they are for the use of property located in the United States. U.S. source royalties include royalties for the use of or the right to use intangibles in the United States. Such royalties include motion picture royalties.

The present treaty with Australia does not generally limit source country taxation of royalties. The present treaty exempts from source country taxation, however, royalties from the use of copyrights of literary, dramatic, musical, or artistic works, but does not limit source country taxation of royalties for motion pictures, videotapes, and the like.

Australia subjects royalties paid by Australian residents to U.S. persons (that are not exempt under the present treaty) to withholding of 51 percent of the gross royalty. This withholding provision is an enforcement mechanism for the income tax on royalties, which Australia imposes at the rate of 51 percent of the net royalty. (The 51 percent rates represent the sum of the regular corporate tax rate, 46 percent, and the rate of an additional tax (the "branch profits tax"), 5 percent, imposed on certain income from Australian sources earned by foreign persons.) Absent proof that expenses are associated with the royalty income and thus that the gross royalty and the net royalty are different, the U.S. recipient of the royalty is generally subject under the present treaty to tax at the rate of 51 percent of the gross royalty. Such proof has sometimes been difficult for U.S. taxpayers to supply. When the U.S. taxpayer cannot supply adequate proof, it pays Australian tax at the rate of 51 percent of the gross royalty. A special Australian statutory rate of 10 percent of the gross royalty applies to royalties received by nonresidents of Australia for the right to use motion picture or television films, videotapes, or related copyrights or advertising materials, however.

The proposed treaty provides for a limitation of the rate of source basis taxation of royalties. Royalties from source (under the royalty source rule discussed below) in one country that are beneficially owned by a resident of the other country may be taxed by both countries. However, the withholding tax imposed in the source country may not exceed 10 percent of the gross royalty. As noted above, the present treaty exempts from source country taxation only certain royalties, while allowing full source country taxation of most kinds of royalties (currently up to 51 percent of the gross amount in the case of Australia). Although the bulk of Australian [25] source royalty income would be subject to a lower rate of withholding tax under the proposed treaty than under the present treaty, certain copyright income that is exempt under the present treaty would be subject to taxation (at up to the 10-percent rate) under the proposed treaty. The 10-percent rate limitation in the proposed treaty applies only if the royalty is beneficially owned by a resident of the other country; it does not apply if the recipient is a nominee for a nonresident.

In certain cases, under the proposed treaty, income from leasing of ships, aircraft, and containers would be royalties subject to withholding tax at the source of up to 10 percent of gross receipts if the lessor had no permanent establishment in the source country (see Article 8 (Shipping and Air Transport)).

The U.S. model treaty exempts royalties from tax at source.

The reduced withholding tax rate does not apply where the beneficial owner has a permanent establishment in the source country or performs personal services in an independent capacity through a fixed base in the source country, and the property giving rise to the royalties is effectively connected with the permanent establishment or fixed base. In that event the royalties will be taxed as business profits (Article 7) or income from the performance of independent personal service (Article 14).

Royalties are defined as payments or credits for the use of, or the right to use, copyrights, patents, designs, models, plans, secret processes or formulae, trademarks or other similar property or rights. Royalties also include payments or credits for the use of, or the right to use, industrial, commercial, or scientific equipment (not leased under a hire-purchase agreement), motion picture films, films or video tapes for television use, and audio tapes for radio use. In addition, royalties include payments or credits for the supply of scientific, technical, industrial or commercial knowledge or information owned by any person, the supply of any ancillary and subsidiary assistance furnished to enable the application or enjoyment of such knowledge or of any other property or right to which this article applies, or any forbearance in respect of any such property or right. Thus, payments for the royalty-free use of a copyright or patent could be considered to involve a royalty. In addition, income from the disposition of any property or right described above constitutes royalty income to the extent that the amounts realized on the disposition are contingent on the productivity, use, or further disposition of such property or right.

The proposed treaty provides that in the case of royalty payments or credits between persons having a special relationship, only that portion of the payment or credit that represents an arm's-length royalty will be treated as a royalty under the treaty. Payments in excess of the arm's-length amount will be taxable according to the law of each country with due regard being given for the other provisions of the treaty. Thus, for example, any excess amount might be treated as a dividend subject to the taxing limitations of Article 10.

The proposed treaty provides special source rules for royalties. Generally, under U.S. tax rules (section 861–862) royalty income is sourced where the property or right is being used. The proposed treaty alters this rule in certain cases. If a royalty is paid by the [26] government of one of the countries, including political subdivisions and local authorities, or by a resident of one of the countries, then the income will generally be sourced in the country of residence of the payor. However, if the payor has a permanent establishment or fixed base in a country in connection with which the obligation to pay the royalty was incurred, and if the royalties are borne by the permanent establishment or fixed base, the royalties arise (for purposes of the proposed treaty) in the country in which the permanent establishment or fixed base is situated. Finally, if the above rules do not result in a U.S. or Australian source for the royalties, and if the royalties relate to the use of or the right to use rights or property in either the United States or Australia, then the source of the royalties will be that country.

ARTICLE 13
ALIENATION OF PROPERTY

Generally, gain realized by a nonresident alien or a foreign corporation from the sale of a capital asset is not subject to U.S. tax unless the gain is effectively connected with the conduct of a U.S. trade or business or, in the case of a nonresident alien, he is physically present in the United States for at least 183 days in the taxable year. However, under the Foreign Investment in Real Property Tax Act of 1980, as amended, a nonresident alien or foreign corporation is taxed by the United States on gain from the sale of a U.S. real property interest as if the gain were effectively connected with a trade or business conducted in the United States. A U.S. real property interest includes corporations holding U.S. real property.

Under the proposed treaty gains from the disposition of real property may be taxed in the country where the real property is situated. The proposed treaty defines real property situated in the United States and real property situated in Australia separately. Real property situated in the United States includes real property located here for the purposes of Article 6. It also includes United States real property interests. This definition allows the United States to tax any transaction of an Australian resident taxable under the Foreign Investment in Real Property Tax Act of 1980.

Real property situated in Australia includes any property that is real property under Australian law, as that law changes from time to time. Without limiting the broad reach of the Australian law test, the proposed treaty specifically includes in the definition of real property situated in Australia three categories of property: real property located there for the purposes of Article 6; shares (or comparable interests) in a company whose assets are wholly or principally Australian real property; and an interest in a partnership, trust, or estate whose assets are wholly or principally Australian real property. Such shares and interests are deemed to be situated in Australia, wherever the entity was created or is operated, and wherever any shares or other evidences of ownership may be found. The proposed treaty does not define the term "principally."

Gains from the sale or exchange of ships, aircraft or containers operated or used by an enterprise of one country in international traffic are taxable only by the country of residence. However, the other country (not the country of residence) may tax the gain to the extent that it allowed depreciation to that enterprise in respect [27] of such items. Thus, that country may recapture that depreciation. Gains from dispositions of property or rights that are subject to tax under the royalty article (Article 12) as contingent on productivity, use, or further disposition are taxable only under that article; that is, the source country tax is generally limited to 10 percent of the gross amount.

The U.S. model treaty generally allows the country that is not the country of residence to tax gains from dispositions of only enumerated property (such as real property located in that country or personal property attributable to a permanent establishment or fixed base in that country). Under the model treaty, gains from dispositions of other property are taxable only in the country of residence. The proposed treaty does not provide such a restriction. Therefore, gains from dispositions of property not mentioned in this article are subject to the general rule of Article 21 (Income Not Expressly Mentioned), which provides that income from sources within a country may be taxed in that country.

ARTICLE 14
INDEPENDENT PERSONAL SERVICES

The United States taxes the income of a nonresident alien at the regular graduated rates if the income is effectively connected with the conduct of a trade or business in the United States by the individual. (See discussion of U.S. taxation of business profits under Article 7 (Business Profits).) The performance of personal services within the United States can be a trade or business within the United States (sec. 864(b)).

The proposed treaty limits the right of a country to tax income from the performance of personal services by a resident of the other country. Under the proposed treaty, income from the performance of independent personal services is treated separately from income from the performance of personal services as an employee.

Income from the performance of independent personal services (i.e., services performed as an independent contractor, not as an employee) in one country by a resident of the other country is exempt from tax in the country where the services are performed, unless (1) the person performing the personal services is present in the country where the services are performed for more than 183 days during the taxable year or (2) the individual has a fixed base regularly available to him in that country for the purpose of performing the services. In the second situation, the source country can tax only that portion of the individual's income which is attributable to the fixed base.

Independent personal services include all independent activities, not merely those of persons in professions such as physicians, lawyers, engineers, architects, dentists, and accountants.

The proposed treaty provides a broader exemption from tax than the present treaty. While the present treaty contains a 183-day rule, it does not exempt income under that rule unless the person performing the services does so for or on behalf of a resident of the country of which he is resident. However, the present treaty does not contain the fixed base rule of the proposed treaty; under the present treaty, a fixed base maintained in a country for the purpose of performing services does not necessarily cause taxation of [28] those services in that country. The U.S. model treaty, by contrast, does not contain a 183-day rule, but rather allows taxation in the source country only on the basis of a fixed base regularly available to the individual performing the independent services.

ARTICLE 15
DEPENDENT PERSONAL SERVICES

Under the Code, the income of a nonresident alien from the performance of personal services in the United States is not taxed if the individual is not in the United States for at least 90 days during a taxable year, the compensation does not exceed $3,000, and the services are performed as an employee of a foreign person not engaged in a trade or business in the United States or they are performed for a foreign permanent establishment of a U.S. person.

Under the proposed treaty, income from services performed as an employee or as a director of a company in one country (the source country) by a resident of the other country will be taxable only in the country of residence if three requirements are met: (1) the individual is present in the source country for fewer than 184 days during the taxable year; (2) his employer or company is not a resident of the source country; and (3) the compensation is not deductible by a permanent establishment, fixed base or a trade or business of the employer in the source country.

Compensation derived by an employee aboard a ship or aircraft operated by a resident of one country in international traffic may be taxed by that country.

This article is modified in some respects for pensions (Article 18) and for compensation as a government employee (Article 19).

The present treaty does not distinguish between dependent and independent personal services. The present treaty rules are discussed in the discussion of Article 14, above. In addition, the present treaty contains a special rule for teachers that allows visits of up to two years duration without subjecting the visiting teacher to taxation in the country he visits. Under the proposed treaty, as in the U.S. model, teachers who perform dependent personal services will be subject to the general rules for employees.

ARTICLE 16
LIMITATION ON BENEFITS

The proposed treaty contains a provision which is intended to limit the benefits of the treaty to persons who are entitled to those benefits by reason of their residence in the United States or Australia.

The proposed treaty is intended to limit double taxation caused by the interaction of the tax systems of the United States and Australia as they apply to residents of the two countries. At times, however, residents of third countries attempt to use a treaty. Such use is known as "treaty shopping", and refers to the situation where a person who is not a resident of either country seeks certain benefits under the income tax treaty between the two countries. Under certain circumstances, and without appropriate safeguards, the nonresident is able indirectly to secure these benefits by establishing a corporation (or other entity) in one of the countries which as a resident of that country, is entitled to the benefits of the treaty. Additionally, it may be possible for the third country resident to repatriate funds to that third country from the entity [29] under favorable conditions (i.e., it may be possible to reduce or eliminate taxes on the repatriation) either through relaxed tax provisions in the distributing country or by passing the funds through other treaty countries (essentially, continuing to treaty shop), until the funds can be repatriated under favorable terms.

The proposed treaty contains provisions intended to limit the benefits of the treaty to bona fide residents of the two countries. This is accomplished by providig that a person other than an individual (such as a corporation, partnership or trust) is not entitled to the benefits of the convention unless it satifies any one of an ownership test, a public company test, or a good business purpose test. Under the ownership test, more than 75 percent of the beneficial interest (in the case of a company, more than 75 percent of the number of shares of each class of shares) in that entity must be owned directly or indirectly by any combination of one or more individual residents of Australia or the United States, citizens of the United States, publicly traded companies (discussed below), or the governments of the countries (the United States and Australia) themselves. This provision would, for example, deny the benefits of the reduced U.S. withholding tax rates on dividends, interest or royalities to an Australian company that is owned by individual residents of a third country.

Under the public company test, a company that is a resident of one of the countries and that has substantial and regular trading in its principal class of stock on a recognized stock exchange in the United States or Australia is entitled to the benefits of the treaty regardless of where its actual owners reside. In addition, any interest that such a company holds is a qualifying interest under the 75-percent test above. The term "recognized stock exchange" includes the NASDAQ System owned by the National Association of Securities Dealers, Inc. in the United States.

Under the good business purpose test, denial of treaty benefits does not occur if the acquisition, ownership and maintenance of an entity that is a resident of the United States of Australia and the conduct of its operations did not have as one of its principal purposes the purpose of obtaining benefits under the proposed treaty. Accordingly, the provision will not apply if it can be shown that there was no treaty shopping motive for forming the company and if its operation does not have as one of its principal purposes the purpose of obtaining the treaty benefits. Thus the burden of overcoming the treaty shopping rule, as under U.S. tax law generally, is on the taxpayer claiming treaty benefits.

The proposed treaty disallows treaty benefits to any income derived by a trustee that is treated as income of a resident of the United States or Australia for purposes of the treaty if the trustee derived that income in connection with a scheme one of whose principal purposes was to obtain a benefit under the treaty.

ARTICLE 17
ENTERTAINERS

The proposed treaty contains an additional set of rules which apply to the taxation of income earned by entertainers (such as theater, motion pictures, radio or television entertainers, musicians, and athletes). The proposed article supplements the other provisions dealing with the taxation of income from personal services [30] (Articles 14 and 15) and is intended, in part, to prevent entertainers and athletes from using the treaty to avoid paying any tax on their income earned in one of the countries.

Under the Article, one country may tax an entertainer who is a resident of the other country on the income from his personal services as an entertainer in that country during any year in which the gross receipts derived by him such activities, including his reimbursed expenses, exceed $10,000 or its equivalent in Australian dollars. (The comparable amount in the U.S. model treaty is $20,000.) Thus, if an Australian entertainer maintained no fixed base in the United States and performed (as an independent contractor) for two days in one taxable year in the United States for total compensation of $9,000, the United States could not tax that income. If, however, that entertainer's total compensation were $11,000, the full $11,000 (less appropriate deductions) would be subject to U.S. tax. As in the case of the other provisions dealing with personal services income, this provision does not bar the country of residence or, in the case of the United States, the country of citizenship, from also taxing that income (subject to a foreign tax credit).

In addition, the proposed treaty provides that where income in respect of personal services performed by an entertainer or athlete accrues not to the entertainer or athlete but rather to another person or entity, that income will be taxable by the country in which the services are performed in any situation where the entertainer or athlete shares directly or indirectly in the profits of the person or entity receiving the income. (This provision applies notwithstanding Articles 7, 14, and 15.) For this purpose, participation in the profits of the recipient of the income includes the receipt of deferred compensation, bonuses, fees, dividends, partnership distributions, or other distributions. The provision does not apply if it is established that neither the entertainer or athlete, nor related persons, participate directly or indirectly in the profits of the person or entity receiving the income in any manner. This provision is intended to prevent highly paid performers and athletes from avoiding tax in the country in which they perform by routing the compensation for their services through a third person such as a personal holding company or trust located in a country that would not tax the income.

ARTICLE 18
PENSIONS, ANNUITIES, ALIMONY AND CHILD SUPPORT

Under the proposed treaty, pensions and other similar remuneration paid to a resident of either country are subject to tax only in the recipient's country of residence. (This rule does not apply in the case of pensions which are paid to citizens of one country attributable to services performed by the individual for government entities of the other (Article 19 (Governmental Remuneration)).) The term, "pensions and other similar remuneration" is defined to mean periodic payments made by reason of retirement or death, in consideration for services rendered, or as compensation paid after retirement in consideration of injuries received in connection with past employment. Social Security payments and other similar public pension payments paid by one country to a resident of the other country or to a U.S. citizen will be taxable only by the paying [31] country. This rule, which is not overriden by the saving clause, exempts U.S. citizens and residents from U.S. tax on Australian social security payments and Australian residents from Australian tax on U.S. social security payments.

The proposed treaty also provides that annuities may be taxed only by the recipients' country of residence. Annuities are defined as stated sums paid periodically at stated times during life or during a specified or ascertainable number of years, under an obligation to make the payments in return for adequate and full consideration (other than services).

Under the proposed treaty alimony and maintenance payments (including child support payments) are taxable in the source country, but are exempt from residence country taxation. The saving clause does not supersede this rule, so U.S. citizens and residents who receive such Australian source payments would not be subject to U.S. tax on those payments. The U.S. model treaty distinguishes between alimony payments and child support payments. Under the model treaty, alimony payments (and other maintenance payments other than child support payments) are taxable only by the country of residence of the recipient, while child support payments are taxable only by the country of the payor. The child support rule in the U.S. model, like the proposed treaty rule, is not subject to the saving clause.

At present, Australian rules provide that alimony and child support payments are neither deductible to the payor nor income to the recipient.

ARTICLE 19
GOVERNMENTAL REMUNERATION

The proposed treaty contains the standard provision that as a general rule exempts wages of employees of one of the countries from tax in the other country. Under the proposed treaty, compensation paid by one country, its political subdivisions or their agencies or authorities, to one of its citizens for labor or services rendered in the discharge of governmental functions is taxable only by the paying country. Thus, for example, Australia would not tax the compensation of a U.S. citizen who is in Australia to perform services for the U.S. government in the discharge of governmental functions. This rule also applies to pensions paid in respect of past services. This provision is generally excluded from the saving clause for persons who are not citizens of or immigrants in the source country.

This provision of the proposed treaty is similar to the provision of the U.S. model treaty, although the U.S. model provides that the exemption does not apply to remuneration paid for services rendered in connection with a business carried on by one of the countries or by any of their political subdivisions.

ARTICLE 20
STUDENTS

Under the proposed treaty, an individual who is a resident of one country and who is temporarily present as a full-time student in the other country will generally be exempt from tax in the host country on payments from abroad for maintenance or education. This rule also applies to a student who was a resident of one country immediately before visiting the other country. There is no precise [32] limitation on the amount of income to which the exemption applies. The proposed treaty does not define the term "temporarily present." The U.S. model applies this rule to students who are "present" rather than "temporarily present" in the host country. The saving clause does not apply to this article.

ARTICLE 21
INCOME NOT EXPRESSLY MENTIONED

This article is a catch-all article intended to cover items of income not specifically covered in other articles, and to assign the right to tax third country income to only one of the countries. It applies to income from third countries as well as income from the United States and Australia.

As a general rule, items of income not otherwise dealt with in the proposed treaty which are derived by residents of either country shall be taxable only by the country of residence. However, if the income is sourced (or is effectively connected with a permanent establishment) in the other country, it may also be taxed by that country. The source of an item of income is determined under the domestic laws of the two countries unless the treaty contains a special rule. This provision, for example, gives the United States the sole right to tax income sourced in a third country and paid to a resident of the United States. This provision is subject to the saving clause, so U.S. citizens who are Australian residents would continue to be subject to U.S. taxation on their worldwide income.

The proposed treaty would generally allow the source country to tax capital gains of residents of the other country. In this respect, the proposed treaty differs from the U.S. model, which generally allows such source country taxation only in limited circumstances (see discussion under Article 13 (Alienation of Property)).

ARTICLE 22
RELIEF FROM DOUBLE TAXATION

Background

One of the two principal purposes for entering into an income tax treaty is to limit double taxation of income earned by a resident of one of the countries that may be taxed by the other country. The United States seeks unilaterally to mitigate double taxation by generally allowing U.S. taxpayers to credit the foreign income taxes that they pay against the U.S. tax imposed on their foreign source income. A fundamental premise of the foreign tax credit is that it may not offset the U.S. tax on U.S. source income. Therefore, the foreign tax credit provisions contain a limitation that ensures that the foreign tax credit offsets U.S. tax on only foreign source income. This limitation is computed on a worldwide consolidated basis. Hence, all income taxes paid to all foreign countries are combined to offset U.S. taxes on all foreign income. Separate limitations on the foreign tax credit are provided for certain interest and for DISC dividends.

A U.S. corporation that owns 10 percent or more of the voting stock of a foreign corporation may credit foreign taxes paid or deemed paid by that foreign corporation on earnings that are received as dividends (deemed paid credit). These deemed paid taxes are included in the U.S. shareholder's total foreign taxes paid for [33] the year the dividend is received and go into the general pool of taxes to be credited.

Australia has its own set of tax provisions designed to mitigate double taxation unilaterally. In general, Australian residents are exempt from Australian income tax on income from sources in countries other than Australia if that income has been subjected to full taxation in the foreign country. In the case of non-Australian source royalty or interest income that is exempt from foreign income tax or subject to a reduced tax by treaty, and in the case of certain foreign source dividends, however, Australia generally uses a foreign tax credit system to avoid double taxation. A general rule of Australian tax law provides that tax on dividends received by certain corporate residents of Australia from any source is rebated. The rebate is calculated by determining the average rate of tax payable on the company's taxable income and applying that rate to the net income from dividends. This rebate precludes the use of foreign tax credits for the affected dividends.

Unilateral efforts to limit double taxation are imperfect. Because of differences in rules as to when a person may be taxed on business income, a business may be taxed by two countries as if it were engaged in business in both countries. Also, a corporation or individual may be treated as a resident of more than one country and be taxed on a worldwide basis by both.

Part of the double tax problem is dealt with in other articles that limit the right of a source country to tax income, and that coordinate the source rules. This article provides further relief where both Australia and the Untied States will still tax the same item of income. This article is not subject to the saving clause, so that the country of citizenship or residence waives its overriding taxing jurisdiction to the extent that this article applies.

The present treaty generally provides for relief from double taxation by each country permitting a credit against its tax for the appropriate amount of taxes paid to the other country on income from sources within that other country. The credit is provided, however, only to the extent permitted under certain domestic laws.

The proposed treaty provides separate rules for relief from double taxation for the United States and Australia. In addition, it provides special rules covering U.S. citizens resident in Australia.

United States

The proposed treaty contains the provision that the United States will allow a citizen or resident a foreign tax credit for income taxes paid or accrued in Australia. This kind of provision is found in many U.S. treaties. The credit is to be computed in accordance with the provisions of and subject to the limitations of U.S. law (as those provisions and limitations may change from time to time without changing the general principles of the credit). The credit is limited to the amount of tax paid to Australia and cannot exceed the U.S. Code foreign tax credit limitations.

The proposed treaty also allows the U.S. deemed paid credit (section 902) to U.S. corporate shareholders of Australian corporations receiving dividends from those corporations if the U.S. company owns 10 percent or more of the voting stock of the Australian corporation. The credit is allowed for Australian income taxes paid [34] by the Australian corporation on the profits out of which the dividends are paid.

This article provides that Australian income taxes covered by the treaty (Article 2 (Taxes Covered)) are considered income taxes for purposes of the U.S. foreign tax credit. Accordingly, all such Australian taxes will be eligible for the U.S. foreign tax credit. These taxes would probably be creditable for U.S. tax purposes in the absence of the proposed treaty. The treaty's special source rules do not apply for purposes of computing the limitation for other foreign taxes.

Australia

The proposed treaty generally provides that Australia is to credit U.S. taxes paid by Australian residents on U.S. source income. This rule applies to persons who are Australian residents under Australian tax law (i.e., including dual resident companies). This credit is not to exceed the Australian tax payable on the U.S. source income or any class of that income or on income from non-Australian sources. Thus, if the income is exempt from Australian tax under Australian law, no credit is available. The credit is to be in accordance with the provisions and subject to the limitations of Australian law, as that law changes from time to time. The credit is not available for U.S. taxes paid by Australian residents solely because of U.S.

citizenship or solely by reason of an election under U.S. law to be taxed as a U.S. resident.

The proposed treaty provides an exemption-like system for dividends received by certain Australian corporations from U.S. corporations in which they own at least ten percent of the voting power. In accordance with Australian law as of the date of signature of the proposed treaty (August 6, 1982), such a recipient Australian corporation is entitled to a rebate in its tax assessment, at its average rate of tax, of the tax attributable to such dividends received. If, however, Australia changes its internal law so as not to allow this rebate in respect of such dividends. Australia is to allow a deemed-paid foreign tax credit for U.S. tax paid on profits out of which come dividends received by Australian corporations from U.S. corporations in which they are ten-percent shareholders.

The proposed treaty provides a special rule for U.S. citizens who are Australian residents. Such persons are generally entitled to a credit against U.S. tax liability in the amount of the Australian tax paid. Thus, Australia generally would have taxing jurisdiction over the income of such persons as residents of Australia, subject to exemption or a credit with respect to the U.S. tax on U.S. source income. This U.S. tax credit is not to reduce U.S. taxation on a source basis of such a person's U.S. source income.

ARTICLE 23
NONDISCRIMINATION

The proposed treaty contains a nondiscrimination provision relating to the taxes covered by the treaty similar to provisions embodied in other recent U.S. income tax treaties. This nondiscrimination provision differs from other recent treaties and from the U.S. model in that it allows existing practices to continue, and in that it does not cover either U.S. or Australian taxes not generally [35] covered by the proposed treaty or the taxes of States, localities, or other political subdivisions.

In general, under the proposed treaty, one country cannot discriminate by imposing more burdensome taxes (or requirements connected with taxes) on its residents who are citizens of the other country than on its residents who are also its citizens. Similarly, in general, one country cannot impose more burdensome taxes or connected requirements on permanent establishments of residents of the other country than it imposes on its comparable residents. These provisions do not, however, generally require either country to treat nonresidents as it treats residents. Thus, a country need not grant to residents of the other country the personal allowances, reliefs, or deductions for taxation purposes on account of personal status or family responsibilities that it grants to its own residents.

The rule of nondiscrimination also applies to corporations of one country which are owned in whole or in part by residents of the other country. The saving clause (which allows the country of residence or citizenship to tax notwithstanding certain treaty provisions) does not apply to this nondiscrimination article.

Each country is required (subject to the arm's-length pricing rules of Article 9(1) (Associated Enterprises), 11(4) (Interest), and 12(5) (Royalties)) to allow a resident to deduct interest, royalties, and other disbursements paid by the resident to a resident of the other country under the same conditions that it allows deductions for such amounts paid to residents of the same country as the payor.

The provision is not intended to override the right of the United States to tax foreign corporations on their dispositions of a U.S. real property interest because the effect of the provisions imposing the tax is not discriminatory. Also, the provision is not intended to permit foreign corporations to claim the benefit of U.S. provisions intended to eliminate U.S. double tax, such as the dividends received deduction.

The proposed treaty would permit a country to continue any discriminatory tax laws in force on August 6, 1982 (the date of the signing of the treaty), to adopt any later modification of those laws that does not change their general nature, or to adopt any discriminatory laws reasonably designed to prevent tax avoidance or evasion. Any such newly adopted modification or anti-avoidance law generally cannot favor citizens or residents of any third country over citizens or residents of the treaty partner (the United States or Australia) of the country adopting the modification. The proposed treaty does not require that either state extend to residents of the other country benefits granted to residents of a third country by treaty, however.

Although this provision does not comport with the U.S. model treaty, Australia has never agreed to a more comprehensive nondiscrimination rule than that of the proposed treaty.

If the United States or Australia considers that the tax measures of the other country violate this nondiscrimination clause, the countries are to consult together in an endeavor to resolve the matter.

[36] ARTICLE 24
MUTUAL AGREEMENT PROCEDURE

The proposed treaty contains the standard mutual agreement provision which authorizes the competent authorities of the United States and Australia to consult together to attempt to alleviate individual cases of double taxation not in accordance with the proposed treaty. The saving clause of the proposed treaty does not apply to this article, so that the application of this article may result in waiver (otherwise mandated by the proposed treaty) of taxing jurisdiction by the country of citizenship or residence.

Under the proposed article a resident of one country who considers that the action of the countries or either of them will cause him to pay a tax not in accordance with the treaty may present his case to the competent authority of the country of which he is a resident or citizen. The taxpayer must notify this competent authority of his case within three years from the time the taxpayer receives notice of the action he considers improper. The competent authority then makes a determination as to whether the claim has merit. If it is determined that the claim does have merit, that competent authority endeavors to come to an agreement with the competent authority of the other country to limit the taxation which is not in accordance with the provisions of the treaty.

The provision requires the waiver of the statute of limitations of either country so as to permit the issuance of a refund or credit notwithstanding the statute of limitations. The provision, however, does not authorize the imposition of additional taxes after the statute of limitations has run.

A provision directs the competent authorities to seek to resolve any difficulties or doubts arising as to the application of the convention. Specifically, they are authorized to agree to the attribution or allocation of income, deductions, credits, or allowances of an enterprise of one country to its permanent establishment in the other country (or between persons), to the determination of the source of income, to the common meaning of terms, and, for the purpose of determining residence under Article 4, to the country with which an individual has closer personal and economic relations.

The treaty authorizes the competent authorities to communicate with each other directly for purposes of reaching an agreement in the sense of the mutual agreement provision. These provisions make clear that it is not necessary to go through standard diplomatic channels in order to discuss problems arising in the application of the treaty and also removes any doubt as to restrictions that might otherwise arise by reason of the confidentiality rules of the United States or Australia.

ARTICLE 25
EXCHANGE OF INFORMATION

This article forms the basis for cooperation between the two countries in their attempts to deal with avoidance or evasion of their respective taxes and to enable them to obtain information so that they can properly administer the treaty. The proposed treaty provides for the exchange of information which is necessary to carry out the provisions of the proposed treaty or for the prevention of fraud or for the administration of statutory provisions concerning [37] taxes to which the convention applies, so long as the information could be obtained under the tax laws and practices of both countries.

Information exchanged is to be treated as secret, except that it may be disclosed to persons involved in the assessment or collection of, the administration and enforcement in respect of, or litigation concerning, the taxes to which the treaty applies. The information may be used for such purposes only. Persons involved in the administration of taxes include legislative bodies involved in the administration of taxes and their agents such as, for example, the U.S. General Accounting Office, with respect to such information as they consider to be necessary to carry out their oversight responsibilities. A country is not required to supply information the disclosure of which would be contrary to public policy.

Where specifically requested, the requested competent authority will attempt to provide the information in the form requested. Specifically, the competent authority will attempt to provide copies of unedited original documents (including books, papers, statements, records, accounts, or writings) to the extent that they can be obtained under the laws and practices of the requested state in the enforcement of its own tax laws.

A requested country is to use its subpoena or summons powers or any other powers that it has under its own laws to collect information requested by the other country. It is intended that the requested country may use those powers even if the requesting country could not under its own laws. Thus, it is not intended that the provision by strictly reciprocal. For example, once the U.S. Internal Revenue Service has referred a case to the Justice Department for possible criminal prosecution, the United States investigators can no longer use an administrative summons to obtain information. If, however, Australia could still use administrative process to obtain requested information, it would be expected to do so even though the United States cannot. The United States could not, however, tell Australia which of its procedures to use.

Each country will also collect taxes for the other country, but only to the extent necessary to ensure that benefits of the treaty are not going to persons not entitled to those benefits. The provision does not require a country to collect any other taxes of the other country. The collection activities are to be carried out only in accordance with the administrative measures used by the collecting country to collect its own tax, and not in a manner contrary to its sovereignty, security, or public policy. The present treaty contains a similar collection provision.

The U.S. model treaty provides for the exchange of information about all taxes imposed by either country (whether or not otherwise covered by the treaty). The proposed treaty is more limited, applying only for enforcement of the taxes listed in Article 2 as generally covered by the treaty (generally income taxes).

ARTICLE 26
DIPLOMATIC AND CONSULAR PRIVILEGES

The proposed treaty contains the rule found in other U.S. tax treaties that its provisions are not to affect the privileges of diplomatic agents or consular officials under the general rules of international law or the provisions of special agreements. Accordingly, [38] the convention will not defeat the general exemption from tax which a host country may grant to the salary of diplomatic officials of the other country. The saving clause does not apply to this article so that, for example, U.S. diplomats who are considered Australian residents would not be subject to Australian tax.

ARTICLE 27
MISCELLANEOUS

In this article, the proposed treaty provides miscellaneous rules, including primarily source rules for determining when an item of income arises in one of the countries. These source rules are used for the purpose of determining credits and exemptions under the treaty, and for determining source of income under Australian tax law. These source rules do not supersede the U.S. source of income rules for the purpose of internal U.S. law. They are not subject to the treaty's saving clause, however. Thus, the source rules may result in a waiver of taxing jurisdiction by the country of citizenship or residence.

The general source rule is that an item of income of a resident of one country that may be taxed in the other country under the treaty is considered to arise in that other country. Accordingly, income taxes paid to that other country on that income will be creditable (subject to any relevant limitations) in the country of residence.

The general source rule (described above) does not apply to income derived by an Australian resident that is taxable in the United States solely by reason of U.S. citizenship or solely by reason of an election to be treated as a U.S. resident. Such income will not be treated as U.S. source income. Income of a U.S. citizen resident in Australia is to be treated as Australian source income to the extent necessary to implement the special treaty rule of Article 22(4) (Relief from Double Taxation) that allows primary taxing jurisdiction to the United States on the U.S. source income of such a person (but at reduced treaty rates) while allowing primary taxing jurisdiction to Australia on the non-U.S. source income of such a person.

Any exemption from source basis taxation granted by one of the countries under Article 14 (Independent Personal Services), Article 15 (Dependent Personal Services), Article 17 (Entertainers), or Article 19 (Governmental Remuneration) does not apply to the extent that the income exempted under one of those articles is exempt from tax by the other country (the country of residence), whether under internal law or under the proposed treaty. The Internal Revenue Code exempts from U.S. tax certain income earned by U.S. individuals in foreign countries (sec. 911). In certain limited cases, the proposed treaty's denial of the exemption from source basis taxation would allow Australia to tax certain Australian source income of U.S. individuals that would otherwise be exempt under the treaty from Australian tax. Such income not exempt from Australian source-basis taxation would include primarily earnings from personal services of U.S. individuals who remain less than six months in Australia but spend enough time in other foreign countries to qualify under section 911.

[39] ARTICLE 28
ENTRY INTO FORCE

The proposed treaty is subject to ratification in accordance with the applicable procedures of each country and the instruments of ratification will be exchanged as soon as possible in Washington. In general, the proposed treaty will enter into force when the instruments of ratification are exchanged.

As a general rule, the treaty will become effective for taxable years beginning on or after the first day of the second month following the date on which the proposed treaty comes into force. With respect to dividends, interest and royalties that are the subject of the treaty rules under Articles 10, 11, and 12 respectively, the treaty will be effective for amounts paid, credited, or derived on or after the first day of the second month next following the date on which the convention enters into force.

The existing treaty is to be phased out as the proposed treaty becomes effective. When the proposed treaty becomes fully effective, the existing treaty will terminate.

ARTICLE 29
TERMINATION

The proposed treaty will continue in force indefinitely, but either country may terminate it at any time after five years from its entry into force by giving at least six months prior notice through the diplomatic channel.

If termination occurs, the termination will be effective with respect to dividends, interest and royalties (to which Articles 10, 11, or 12 apply) for amounts paid, credited or otherwise derived on or after the first day of January following the expiration of the six months notice. Any termination will be effective with respect to other income for taxable years beginning on or after the first day of January following the expiration of the six months notice.

The proposed treaty contains a special rule allowing either country to terminate one treaty provision in Article 18 (exempting social security payments and other public pension payments from taxation on the basis of residence and citizenship) without terminating any other provision of the treaty. Such partial termination may occur, upon prior notice through the diplomatic channel, at any time after the treaty enters into force.

UNITED STATES TREASURY DEPARTMENT TECHNICAL EXPLANATION OF THE CONVENTION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF AUSTRALIA FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON INCOME

This Convention, signed at Sydney, Australia on August 6, 1982, was negotiated on the basis of the U.S. Model Convention for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital, published in May 1977, the revised U.S. model published in draft form in June 1981 (also referred to as the "U.S. model"), and the Model Double Taxation Convention on Income and Capital published by the Organization for Economic Cooperation and Development (OECD) in January 1977.

The technical explanation is an official guide to the Convention. It reflects policies behind particular Convention provisions, as well as understandings reached with respect to the interpretation and application of the Convention.

ARTICLE 1
PERSONAL SCOPE

This Article identifies the persons who come within the scope of the Convention (also referred to as "the Treaty") and establishes the relationship between it and domestic law.

Paragraph 1 states that, except where the Convention specifically provides otherwise, the Convention applies to residents of the United States and/or Australia. Certain provisions of the Convention may apply to residents of third countries, for example, paragraph 5 of Article 10 (Dividends), paragraph 6 of Article 11 (Interest), and Article 25 (Exchange of Information). The term "resident" is defined in Article 4 (Residence).

Paragraph 2 provides that the Convention may not increase tax above the liability that would result under domestic law or under other agreements between the Contracting States. If domestic law provides a more favorable treatment than the Convention, the taxpayer may apply the provisions of domestic law. For example, if certain interest income derived by nonresidents is exempt from tax by statute, but the treaty authorizes a tax at source of not more than 10 percent, the statutory exemption will apply. A taxpayer, however, may not make inconsistent choices between the rules of the Internal Revenue Code and the Convention rules.

Paragraph 3 contains the traditional "saving clause" under which each Contracting State reserved the right to tax its residents, as defined in Article 4 (Residence), as if the Convention had not come into effect. The two States also reserve the right so to tax their citizens, individuals electing under their respective domestic laws to be taxed as residents, and in the case of the United States, former citizens whose loss of citizenship had as one of its principal purposes the avoidance of tax. Such former citizens are taxable in accordance with section 877 of the Internal Revenue Code for 10 years following the loss of citizenship.

Paragraph 4 sets forth certain exceptions to the application of the saving clause where other provisions of the Convention present overriding policies. The saving clause does not override the benefits provided under paragraph 2 of Article 9 (Associated Enterprises), relating to correlative adjustments of tax liability, or the benefits of paragraphs 2 or 6 of Article 18 (Pensions, Annuities, Alimony and Child Support), relating to social security payments, alimony and child support. Social security payments and similar public pensions paid by Australia and alimony, child support and similar maintenance payments arising in Australia are taxable only by Australia even though the recipient may be a resident of the United States; similarly, social security payments by

Australia to a citizen of the United States, wherever resident, are taxable only in Australia. The benefits provided in Articles 22 (Relief from Double Taxation), 23 (Non-Discrimination), and 24 (Mutual Agreement Procedure), and the source rules of paragraph 1 of Article 27 (Miscellaneous) are also available to residents and citizens of the Contracting States, notwithstanding the saving clause.

In some cases, the saving clause overrides benefits otherwise conferred by the United States on citizens or persons having immigrant status in the United States and benefits otherwise conferred by Australia on citizens or persons ordinarily resident in Australia, but does not override those benefits when conferred on other residents of the respective States. This second category of exceptions to the saving clause concerns the benefits provided under Articles 19 (Governmental Remuneration), 20 (Students) and 26 (Diplomatic and Consular Privileges). The term "immigrant status" means a person admitted to the United States as a permanent resident under U.S. immigration laws (i.e., holding a "green card").

ARTICLE 2
TAXES COVERED

Paragraph 1 enumerates the existing taxes to which the Convention applies in each Contracting State.

In the United States these are the Federal income taxes imposed by the Internal Revenue Code, but excluding the accumulated earnings tax and the personal holding company tax. Social security taxes and excise taxes, such as those on private foundations and foreign insurers, are not covered by the Convention.

In Australia the Convention covers the income tax, including the additional tax on undistributed income of private (closely held) companies.

Paragraph 2 provides that taxes enacted after the date of signature of the Convention (August 6, 1982) are also covered if they are substantially similar to the taxes referred to in paragraph 1. The competent authorities agree to notify each other at the end of each calendar year of substantial changes in their income tax laws or in the official interpretation of those laws or of the Convention.

ARTICLE 3
GENERAL DEFINITIONS

Paragraph 1 defines some of the principal terms used throughout the Convention. Unless the context otherwise requires, the terms defined in this paragraph have a uniform meaning throughout. A number of other important terms are defined in other Treaty articles. For example, the term "resident" is defined in Article 4 (Residence), the term "permanent establishment" is defined in Article 5 (Permanent Establishment), and the term "royalties" is defined in Article 12 (Royalties).

The definitions of the terms "person", "company", "enterprise of a Contracting State", and "international traffic" are similar to the definitions in the U.S. Model.

The "competent authority" for the United States is the Secretary of the Treasury or his delegate, and for Australia the Commissioner of Taxation or his authorized representative.

The definitions of a United States corporation and an Australian corporation, respectively, exclude corporations which under the laws of the Contracting States are residents of both States. A corporation created and organized under the laws of a state of the United States is considered by the United States to be a United States corporation. Such a corporation could also be considered by Australia to be an Australian corporation if it is managed and controlled in Australia or if it does business there and its voting power is controlled by Australian resident shareholders. Typically, a corporation can avoid being a dual resident. If such a situation does arise, the dual resident corporation is not considered a resident of either country for purposes of the Treaty and is therefore not entitled to benefits granted by either State under the Treaty to residents of the other State.

The terms "United States" and "Australia" are defined to include the continental shelf areas of the two countries with respect to exploration and exploitation of their natural resources. For the United States, the definition of the continental shelf is interpreted in accordance with section 638 of the Internal Revenue Code and the regulations thereunder. The term "United States" does not include Puerto Rico, the Virgin Islands, Guam, or any other United States possession. The term "Australia" does include the Territories of Norfolk Island, Christmas Island, the Cocos Islands, Ashmore and Cartier Islands and the Coral Sea Islands; however, see also the discussion of paragraph 1(a)(iii) of Article 4 (Residence).

Definitions are provided for the terms "Contracting State," "State," "United States tax," "Australian tax," and "resident of one of the Contracting States." The covered taxes do not include penalty or interest charges. For example, the ceiling rate of tax at source of 15 percent on dividends under Article 10 (Dividends) does not include any penalty or interest charge for late payment of tax.

Paragraph 2 provides that terms not defined in the Convention shall have the meaning which they have under the laws of the Contracting State concerning the taxes to which the Convention applies, unless the context of the Convention requires a different interpretation. Under the terms of Article 24 (Mutual Agreement Procedure), the competent authorities may agree on a common definition of an otherwise undefined term. The term "context" includes the purpose and background of the provision in which the term appears. An agreement by the competent authorities with respect to the meaning of a term used in the Convention would supersede conflicting meanings in the domestic laws of the Contracting States.

ARTICLE 4
RESIDENCE

This Article sets forth rules for determining the residence of individuals, corporations, and other persons for purposes of the Convention. A definition of residence is important because, for the most part, only residents of the Contracting States may claim benefits under the Convention. The Convention definition is of course, exclusively for purposes of the Convention.

Paragraph 1 of this Article describes those persons who, for purposes of the Convention, are residents of Australia or the United States.

Subparagraph (a) provides that a resident of Australia means an Australian corporation and any other person (except a company that is not an Australian corporation) that is resident in Australia for purposes of its tax. However, if such a person is subject to Australian tax on income from Australian sources (but not on income from U.S. sources or other sources outside Australia), that person is not a resident of Australia for purposes of this Convention except to the extent that the income is subject to tax in Australia as the income of a resident or is exempt from Australian tax solely because it is subject to U.S. tax. This provision excludes residents of certain territories included within the definition of Australia in paragraph 1(k) of Article 3 (General Definitions) from claiming any Treaty reductions in United States tax on United States source income under the Treaty; although subject to Australian tax on their Australian source income, such persons are not subject to Australian tax on their United States source income and the reason is not solely because they are subject to U.S. tax. Similarly, a partnership, estate or trust is a resident of Australia for purposes of the Convention only to the extent that the income it derives is subject to Australian tax as the income of a resident either at the level of the partnership, estate or trust or in the hands of a partner or beneficiary, or, if that income is exempt from Australian tax under the Treaty, it is exempt solely because it is subject to U.S. tax. However, an Australian trust will be considered a resident of Australia, notwithstanding that its income is exempt from Australian tax, if the trust qualifies as a tax-exempt organization under Australian law because it is established for public charitable purposes or scientific research. Thus, a dividend paid by a U.S. corporation to an Australian partnership comprised equally of an Australian resident partner and an Indonesian resident partner would be treated as paid one half to an Australian resident and that half would enjoy the reduced rate of U.S. tax provided for in Article 10 (Dividends).

Subparagraph (b) provides tht a resident of the United States means a U.S. corporation and any other person resident in the United States for purposes of its tax. However, a partnership, estate or trust is a resident of the United States for purposes of the Convention only to the extent that the income it derives either is subject to U.S. tax as the income of a resident (either at the level of the entity or in the hands of a partner or beneficiary), or is exempt from U.S. tax for reasons other than the recipient's not being a U.S. person. Thus, a U.S. person that qualifies as a tax-exempt organization under U.S. law qualifies as a resident, and a recipient of tax-exempt income does not lose its status as a resident with respect to that income. The rule in paragraph 1 that tax-exempt organizations and recipients of tax-exempt income qualify as residents, notwithstanding that the income they derive is not subject to tax, is meant to be a clarification and not to imply that such tax-exempt organizations and other persons are not entitled to treaty benefits under conventions which do not include this or similar language.

Paragraph 2 provides a series of tie-breakers for assigning a single residence to an individual who, by the criteria of paragraph 1, would be a resident of both countries.

The first test is where the individual has a permanent home. If that test is inconclusive because the individual has a permanent home in both countries or in neither of them, the second test is where he has his habitual abode. If that test also fails to establish a single country of residence, because the individual has a habitual abode in both countries or in neither of them, he is deemed to be a resident of the country with which his personal and economic relations are closer. Citizenship, *per se*, is not recognized by Australia as a tie-breaker, but if the individual is a citizen of one of the Contracting States, that factor will be taken into account in determining where his personal and economic relations are closer. If these tests do not establish a single residence, the competent authorities will attempt to settle the question by mutual agreement under Article 24 (Mutual Agreement Procedure). Once an individual is assigned a residence under this paragraph for a taxable year, he is a resident only of that State for all purposes of the Convention for that year.

The residence of persons other than individuals is determined under the respective laws of the Contracting States. A dual resident company is treated as a resident of neither Contracting State for purposes of the convention. (See paragraph 1(g) of Article 3 (General Definitions)).

ARTICLE 5
PERMANENT ESTABLISHMENT

The rule governing the taxation by a Contracting State of business income derived by a resident of the other State utilize the concept of a "permanent establishment." Paragraph 1 of this Article defines in general terms the "permanent establishment" concept, and the following paragraphs give some specific illustrations of the meaning of the term.

A place of management, branch, office, factory, workshop and a place of extraction of natural resources, such as a well or quarry, are examples of a permanent establishment. Since a place of management would in most cases require an office, which is specifically noted in paragraph 2, the addition of that term will not generally cause a permanent establishment to exist where there would not otherwise be one.

A building site or construction or installation project will only be considered a permanent establishment if it lasts longer than 9 months, and an installation, drilling rig or ship used for dredging or exploring or exploiting offshore natural resources is a permanent establishment only if so used for at least 6 months in any 24-month period. In such a case, the site, project, installation, rig or ship constitutes a permanent establishment from the first day when work physically begins within the territory of a Contracting State. A series of contracts or projects which are interdependent both commercially and geographically are to be treated as a single project for the purpose of applying the 9-month and 6-month tests.

Paragraph 3 enumerates certain activities which may be undertaken singly or in combination without creating a permanent establishment. Although subparagraph (f) of this paragraph of the U.S. model was deleted, the same effect is obtained by the insertion of the reference to "one or more" in the introductory language of paragraph 3.

Paragraphs 4(a) and 5 consider the use of agents. A dependent agent who habitually exercises an authority to conclude contracts in the name of an enterprise is deemed to be a permanent establishment of that enterprise except to the extent that his activities are limited to those mentioned in paragraph 3 which would not constitute a permanent establishment under that paragraph. An enterprise of a Contracting State will not be considered to have a permanent establishment in the other State merely because it uses the services of an independent agent acting in the ordinary course of business in that other State.

Subparagraphs (b), (c) and (d) of paragraph 4 specify certain activities which constitute a permanent establishment even if not carried on through a fixed place of business like those enumerated in paragraph 2. Maintaining substantial equipment in a Contracting State for rental or other purposes for longer than 12 months constitutes a permanent establishment unless the equipment is leased under a "hire-purchase" agreement. Under Australian law the lessee under a "hire-purchase" agreement (a lease accompanied by certain lessee purchase options or rights) is treated for tax purposes as the owner of the leased property. The exception for hire-purchase agreements in this Article and elsewhere in the Convention (see Article 12 (Royalties)) was inserted at the request of Australia to distinguish such agreements from leases respected as such for tax purposes. Such a distinction is also made in the Commentary to Article 12 of the OECD Model Convention. Similarly, under the Internal Revenue Code, the terms of a "lease" may be such that for U.S. income tax purposes the lessee is treated as the owner of the property. For purposes of United States tax the exception for "hire-purchase" agreements simply confirms such treatment, which would also apply in the absence of such an explicit exception. See paragraph 2 of Article 3 (General Definitions). Engaging in supervisory activities at a building site or construction, assembly or installation project for more than 9 months in a 24-month period constitutes a permanent establishment. And, an enterprise which maintains goods in the other Contracting State which goods were either purchased there (and not previously processed elsewhere) or produced there by it or in its behalf, and are then substantially processed there by a related enterprise is deemed to have a permanent establishment in that other State. This provision was added at the request of Australia to permit it to tax a portion of the sale profit when goods are produced or purchased in Australia, processed there at cost by a related enterprise, and then sold. It is an alternative approach to allocating part of the profit to the processing operation in such a case, as the United States could do under section 482.

Paragraph 6 provides that control of one company by another does not of itself constitute either company a permanent establishment of the other. The determination as to whether a subsidiary is a permanent establishment of its parent corporation, or the converse, or whether two or more subsidiaries of the same corporation are permanent establishments of the parent or of each other is made by reference to the tests set out in paragraphs 1 through 5.

These same principles apply in determining whether an enterprise of a Contracting State has a permanent establishment in a third State or whether an enterprise of a third State has a permanent establishment in a Contracting State. Such a determination may be relevant, for example, in deciding the source of interest (paragraph 7 of Article 11 (Interest)) or royalties (paragraph 6 of Article 12 (Royalties)).

ARTICLE 6
INCOME FROM REAL PROPERTY

This Article provides that income from real property may be taxed by the Contracting State where the property is located. This rule does not confer an exclusive right of taxation on the State where the property is located. It simply provides that the situs State has the primary right to tax such income, regardless of whether the income is derived through a permanent establishment in that State or not. The provision in the U.S. Model for a binding election to be taxed on a net basis was deleted. Such an election is available under U.S. law and Australia taxes income from real estate on a net basis. The Article incorporates the rule that a leasehold interest in land and rights to exploit or explore for natural resources constitute real property situated where the land or resources, respectively, are situated. Except for those cases, the definition of real property is governed by the internal law of the Contracting State where the property is situated.

ARTICLE 7
BUSINESS PROFITS

This Article provides rules for the taxation by a Contracting State of income from business activity carried on by a resident of the other State.

Paragraph 1 provides that business profits of an enterprise of one Contracting State shall be taxable only in that State except to the extent that such profits are attributable to a permanent establishment through which the enterprise carries on business in the other Contracting State. (The term "enterprise of one of the Contracting States," used here and elsewhere in this Convention, excludes dual-resident corporations that are treated as residents of neither Contracting State for purposes of the Convention.)

Paragraph 2 provides that the profits to be attributed to a permanent establishment are those which it might be expected to make if it were an independent enterprise engaged in similar activities under similar conditions. The profits must reflect arm's length prices. The profits so attributed may be from income described in section 864(c)(4)(B) of the Internal Revenue Code which are attributable to a permanent establishment in the United States may be subject to tax by the United States. In addition, the limited "force of attraction" rule in I.R.C. section 864(c)(3) does not apply for U.S. tax purposes under the Convention.

Paragraph 3 provides that deductions shall be allowed for expenses incurred for the purposes of the permanent establishment, including, *inter alia*, executive and general administrative expenses, wherever incurred, if such expenses are reasonably connected with the profits of the permanent establishment and would be deductible if it were an independent entity. Australia and the United States will each allow an allocation to a permanent establishment of a portion of research and development and interest expenses incurred by the U.S. home office or elsewhere, provided that the expenses are reasonably connected with the profits of the permanent establishment.

Paragraph 4 states that no profits shall be attributed to a permanent establishment by reason of the mere purchase by it of goods or merchandise for the enterprise.

Paragraph 5 provides that, unless there is good and sufficient reason to the contrary, the same method of determining profits attributable to the permanent establishment shall be used each year.

Paragraph 6 provides that, where business profits include items of income dealt with in other articles of the Convention, the provisions of those other articles override the provisions of this Article. For example, the taxation of income of international shipping and aircraft operations is governed by Article 8 (Shipping and Air Transport) and not by this Article. Similarly, the taxation of dividends, interest, and royalties is controlled by Articles 10, 11, and 12, respectively; however, the terms of those Articles provide that where dividends, interest, or royalties derived by a resident of a Contracting State are attributable to a permanent establishment in the other Contracting State, the provisions of this Article do apply and the item of income is taxed as business profits.

Paragraph 7 was inserted at the request of Australia to permit the tax authorities of a Contracting State to apply the provisions of internal law in determining tax liability in cases where the information available to the competent authority is not adequate to measure accurately the profits of a permanent establishment. The Internal Revenue Service would have this power even in the absence of such a specific provision. The determination of profits in such cases, based on the available information, must be done consistently with the principles of this Article, i.e., it must seek to reflect arm's length pricing and appropriate deductions of expenses.

Notwithstanding the other provisions of this Article, paragraph 8 allows each State to apply its domestic law in taxing income from the insurance business, provided that such law remains the same as on the date the Convention was signed or is modified only in minor respects. In the case of a nonresident general insurance company which insures risks in Australia, Australia imposes its ordinary corporate tax rate (now 46 percent) on a deemed profit equal to 10 percent of the gross premiums from such insurance. The company may elect instead to be taxed on a net basis. The United States will apply its excise tax on insurance and reinsurance premiums of Australian insurers or will tax the net income of a U.S. trade or business of an Australian insurer, as appropriate.

Unlike the U.S. model, this Convention does not provide that business profits include income from the rental of tangible personal property and films. In this Convention those types of rentals are treated as royalties under Article 12 (Royalties). However, the maintenance of substantial equipment in the other Contracting State for more than 12 months (other than equipment leased under a "hire-purchase" agreement) constitutes a permanent establishment covered by this Article.

ARTICLE 8
SHIPPING AND AIR TRANSPORT

Paragraph 1 provides that each of the Contracting States shall exempt from tax profits derived by an enterprise of the other Contracting State from the international operation of ships or aircraft, including: (a) profits from the rental on a full basis of ships and aircraft operated in international traffic by the lessee (provided that the lessor also engages in the international operation of ships or aircraft or in the regular leasing of ships or aircraft on a full basis), and (b) profits from the rental of ships and aircraft on a bareboat basis and of containers and related equipment operated or used in international traffic by the lessee, provided in each case that the leasing activity is incidental to the operation of ships or aircraft in international traffic by the lessor. Rental on a full or bareboat basis refers to whether the ships or aircraft are leased fully equipped, manned and supplied.

For example, if a U.S. airline which operates internationally leases a plane on a bareboat basis to an Australian airline for use on its international routes, the rental income derived by the U.S. company is exempt from Australian tax under this Article. However, if the U.S. airline operates only within the United States, or if the leased plane is used only within Australia, the rental income is not exempt under this Article. Moreover, if a U.S. bank leases a plane on a bareboat basis to the Australian airline, either for use internationally or within Australia, that rental income is not exempt under this Article.

Income from the rental of ships, aircraft or containers which is not exempt from tax under this Article is taxable in accordance with Article 12 (Royalties). Australian law imposes tax on the net income after deducting expenses, subject to a maximum tax under Article 12 of 10 percent of the gross rental.

Paragraph 2 states that the provisions of this Article apply to the share of an enterprise of a Contracting State in the profits of a pool or joint venture, even though the other participants may be enterprises of third States not covered by this Convention. The profit shares of such third country participants are not affected by this Convention, but are taxable in accordance with internal law or under the provisions of another international agreement, if applicable.

Paragraph 3 merely clarifies that profits from the transport of goods or passengers picked up and discharged within the same Contracting State are not within the definition of international traffic and may be taxed by that State.

ARTICLE 9
ASSOCIATED ENTERPRISES

This article provides that, where related persons engage in transactions which are not at arm's-length, the Contracting States may make appropriate adjustments to their taxable income and tax liability.

Paragraph 1 states the general rule that where an enterprise of one Contracting State and an enterprise of the other Contracting State are related through management, control, or capital and their commercial or financial relations differ from those which would prevail between independent enterprises, the profits of the enterprises may be adjusted to reflect the profits which would have accrued if the two enterprises had been independent.

Paragraph 2 provides that, where one of the Contracting States has increased the profits of an enterprise of that State to reflect the amount that would have accrued to the enterprise had it been independent of an enterprise in the other Contracting State, the second State shall make an appropriate adjustment, decreasing the amount of tax which it has imposed on those profits. In determining such adjustments, due regard is to be had to the other provisions of the Convention. The competent authorities of the two States shall consult each other if necessary in implementing this provision.

Paragraph 3 clarifies that each Contracting State may apply its internal law in determining liability for its tax. For example, although paragraphs 1 and 2 refer to allocations of "profits" and "taxes," it is understood that such terms also include the components of the tax base and of the tax liability, such as income, deductions, credits, and allowances. The United States will apply its rules and procedures under section 482 of the Internal Revenue Code. Australia will apply the provisions of its income tax legislation, particularly with respect to the determination of taxable income in cases where the information available is inadequate to measure net income under the ordinary rules. Such determinations must be consistent in each case with the principles of arm's length transactions.

ARTICLE 10
DIVIDENDS

This Article limits the rate of tax which may be imposed by a Contracting State on dividends paid by a company which is a resident of that State for purposes of its tax to a resident of the other Contracting State. A dual resident corporation is a resident of each Contracting State "for purposes of its tax," but is a resident of neither State for purposes of the Convention.

Paragraph 1 states that such dividends may be taxed in the State of residence of the recipient. This provision, which is based on the OECD model, confirms the provision of paragraph 3 of Article 1 (Personal Scope) that each Contracting State reserves the right to tax its residents.

Paragraph 2 provides that such dividends may also be taxed in the Contracting State of which the paying company is a resident for the purposes of its tax, but such tax may not exceed 15 percent of the gross amount of the dividends when the beneficial owner is a resident of the other State. This limitation applies to the tax imposed by either State on dividends paid by a dual resident company to a resident of the other Contracting State; but since a dual resident company is not a resident of either State under Article 4 (Residence), it does not apply to dividends received by such a company. In the absence of a treaty, Australia, like the United States, imposes a tax of 30 percent on gross dividends paid to nonresidents. By treaty, Australia is willing to reduce that the tax to, but not below, 15 percent. The reciprocal 15 percent limit of taxation at source provided in this paragraph also applied in the 1953 Convention.

Paragraph 3 defines dividends as income from shares and income which under domestic law is assimilated to income from shares.

Paragraph 4 provides that when dividends benefically owned by a resident of one Contracting State are attributable to a permanent establishment or a fixed base which that resident maintains in the other State, of which the company paying the dividends is a resident, such dividends are not taxable in accordance with this Article, but in accordance with the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services).

Paragraph 5 provides that a Contracting State may not impose tax on dividends paid by a company which is a resident of the other State, with three exceptions: (a) to the extent that the dividends are paid to a resident of the first State; (b) to the extent that the dividends are attributable to a permanent establishment or fixed base of the beneficial owner in the first State; or (c) to the extent that 50 percent or more of the gross income of the company paying the dividends is attributable to one or more of permanent establishments of that company in the first State and the dividends are paid out of the profits of such permanent establishment. Subparagraph (c) applies only if the taxing State does not impose branch profits tax of the kind described in paragraph 6. For this purpose, the U.S. accumulated earnings and personal holding company taxes are not taxes of the kind described in paragraph 6. If only subparagraph (c) applies, the tax is limited to 15 percent. The United States may also tax dividends received by U.S. citizens under paragraph 3 of Article 1 (Personal Scope).

Paragraph 6 authorizes the imposition of a branch profits tax in addition to the ordinary corporate tax on profits of a permanent establishment of a resident of the other Contracting State. Australia's ordinary corporate income tax rate is 46 percent, but the rate of tax on permanent establishments of nonresident corporations is 51 percent. Dividends distributed by Australian corporations to a U.S. corporation are subject to a tax of 15 percent. Distributions by an Australian branch of a U.S. company are not subject to a further tax. Thus, the additional 5 percentage points of tax on the branch profits serves as a substitute for a withholding tax on distributed profits. Under paragraph 6, Australia's additional tax may not exceed the amount which would result if the 15 percent dividend withholding tax were to be applied to the profits of the permanent establishment net of the corporate tax at the rate applicable to domestic corporations. For example, if a permanent establishment has taxable income of 100 in Australia and the ordinary corporate income tax rate is 46 percent, the additional tax on the branch profits may not exceed 15 percent of 54, or 8.1; i.e., the total tax on the branch may not exceed 54.1 percent (46 plus 8.1). The Australian tax of 51 percent is within this limit.

Paragraph 6 also provides that, if a nonresident company is liable to a tax on its undistributed profits, the amount of undistributed profits shall be calculated as if that company had paid the corporate income tax applicable to a domestic corporation and had distributed dividends of an amount such that the 15 percent tax on those dividends imposed in accordance with paragraph 2 of this Article would have equalled the additional tax. For example, with an Australian tax on domestic corporations of 46 percent and on permanent establishments of foreign corporations of 51 percent, a permanent establishment of a U.S. corporation would, for purposes of any Australian tax on undistributed profits, be deemed to have distributed profits of 33.33 and undistributed profits of 20.67 for each 100 of taxable income. (Profit of 100 after basic corporate tax of 46 leaves 54 available for distribution. Additional tax of 5 is equivalent to a 15 percent withholding tax on 33.33; 15% × 33⅓ = 5. Therefore, distributed profits are deemed to be 33.33 and the remainder of the after-tax profit of 54, or 20.67 is deemed to be undistributed.

ARTICLE 11
INTEREST

This Article limits the tax which may be imposed by either Contracting State on interest derived and beneficially owned by a resident of the other Contracting State. There is no corresponding provision in the 1953 Convention.

Paragraph 1 states that such interest may be taxed in the State of residence of the beneficial owner. This provision, which comes from the OECD model, confirms the provision of paragraph 3 of Article 1 (Personal Scope) that each Contracting State reserves the right to tax its residents.

Paragraph 2 provides that such interest may also be taxed by the State in which it has its source, but the tax is limited to 10 percent of the gross amount of the interest. Australia's statutory rate of tax on interest paid to nonresidents is generally 10 percent.

Paragraph 3 provides that, when interest benefically owned by a resident of one Contracting State is attributable to a permanent establishment or fixed base which that resident maintains in the other State, that interest is not taxable in accordance with this Article but in accordance with the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services).

Paragraph 4 states that the provisions of this Article shall not apply to interest payments between related persons in excess of the amount which would have been agreed upon at arm's-length. Such excess amount shall be taxed according to the laws of each Contracting State, with regard also to the other provisions of this Convention.

Paragraph 5 defines interest as income assimilated to income from money lent under the tax law of the Contracting State where the income arises.

Paragraph 6 provides that a Contracting State may not tax interest paid by a resident of the other State, with three exceptions: (1) to the extent that the interest has its source in that State; (2) to the extent that the beneficial owner of the interest is a resident of that State; or (3) to the extent that the interest is attributable to a permanent establishment or fixed base of the owner in that State. Under these rules the United States may tax interest paid by an Australian company if the interest has its source in the United States in accordance with paragraph 7 of this Article, and in accordance with the Internal Revenue Code. Where such interest is beneficially owned by a resident of Australia, the U.S. tax will be reduced to 10 percent, in accordance with paragraph 2 of this Article. The United States may also tax interest received by U.S. citizens, pursuant to paragraph 3 of Article 1 (Personal Scope).

Paragraph 7 defines the source of interest. Interest has its source in a Contracting State if paid by that State, a political subdivision or local authority thereof, or a person who is a resident of that State for purposes of its tax, including a corporation which under the respective internal laws is a resident of both States. (Thus, interest paid by such a dual resident company may be eligible for the reduced rate provided in paragraph 2, although interest beneficially owned by such a company is not.) An exception to this general rule, which looks to the payer of the interest, provides that when the indebtedness is incurred in connection with and the interest is borne (deducted in computing taxable income) by a permanent establishment or fixed base which the payer has in a Contracting State, the interest has its source in that State.

The Convention does not provide for exemption at source of interest derived and beneficially owned by the Government of the other State or by a government instrumentality. Under Australian law, such interest, e.g., interest derived by the U.S. Government or the Export-Import Bank, is currently exempt from tax in Australia. Similarly, under U.S. law (I.R.C. section 892) interest derived by the Australian government would generally be exempt from U.S. tax.

ARTICLE 12
ROYALTIES

This Article limits the tax which may be imposed by either Contracting State on royalties derived and beneficially owned by a resident of the other Contracting State.

Paragraph 1 states that such royalties may be taxed in the State of residence of the beneficial owner. This provision, which comes from the OECD model, confirms the provision of paragraph 2 of Article 1 (Personal Scope) that each Contracting State reserves the right to tax its residents.

Paragraph 2 provides that such royalties may also be taxed by the State in which they have their source, but the tax is limited to 10 percent of the gross amount of the royalties. Under the 1953 Convention, copyright royalties (other than those related to films) are exempt from tax at source, but other royalties are taxable at the statutory rates. Australia's statutory tax on royalties paid to nonresidents, other than for films or video tapes, is withheld by the payer at the full corporate or individual tax rate on the gross amount less allowable expenses necessarily incurred in deriving the royalty. The Convention preserves the net basis of taxation by Australia, except that the amount of tax liability may not exceed 10 percent of the gross amount of the royalty paid. Payments for the use of films and video tapes are taxed by Australia at 10 percent of the gross amount. This practice is confirmed by this Article. On the U.S. side the statutory rate of 10 percent will be reduced to 10 percent.

Paragraph 3 provides that when royalties beneficially owned by a resident of one Contracting State are attributable to a permanent establishment or fixed base maintained by that resident in the other State, the royalties will not be taxed in accordance with the provisions of this Article but in accordance with the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services).

Paragraph 4 contains a definition of the term "royalties." The definition is broader than the one in the U.S. Model. For purposes of this Convention, payments for the use of, or right to use, industrial, commercial or scientific equipment are treated as royalties, except when such equipment is leased under a "hire-purchase" agreement. Payments for the use of, or right to use, motion picture films and certain tapes are also taxed as royalties. And royalties, for purposes of this Article, include payments or credits for scientific, technical, industrial or commercial knowledge or information owned by any person, and payments or credits for ancillary assistance furnished to enable the application of any property or right to which this Article applies. The reference to knowledge or information "owned" is meant to indicate that the term "royalties" implies a property right as distinguished from personal services. An engineer or architect who prepares a design for a customer is considered to perform personal services, the remuneration for which is covered under Article 14 (Independent Personal Services) or 15 (Dependent Personal Services). An engineer or architect who supplies a preexisting design or blueprint is considered to be furnishing knowledge or information, the payment for which constitutes a royalty governed by this Article. The supply of ancillary services does not give rise to a royalty when supplied in connection with the sale of property, but does give rise to a royalty when supplied in connection with the leasing of any of the property or rights covered by this Article.

In some cases, income covered by this Article gives rise to a permanent establishment if the income-producing activity continues long enough. For example, payments for the leasing of industrial, scientific or commercial equipment (other than under a "hire-purchase" agreement) are taxable as royalties, but if the enterprise deriving the royalties maintains the equipment for rental in the other State for longer than 12 months, it is considered to have a permanent establishment in that other State under paragraph 4(b) of Article 5 (Permanent Establishment). In such a case the income is taxable from the beginning in accordance with Article 7 (Business Profits), as provided in paragraph 3 of this Article. Similarly, payments for the supply of supervisory services could in some cases constitute royalties; but if the services are furnished for more than 9 months in a 24 month period, the enterprise has a permanent establishment under paragraph 4(c) of Article 5 (Permanent Establishment), and the income is taxable in accordance with Article 7 (Business Profits), as provided in paragraph 3 of this Article.

Subparagraph (b)(iii) of paragraph 4 provides a special rule to deal with the situation of a disguised lease of a property right of the type covered by this paragraph. If, for example, an Australian company were to use in Australia a copyright or patent held by a U.S. company without paying a royalty to the U.S. company and the U.S. company were to forebear from selling the protected products in Australia in return for payment, the U.S. company would be treated as having received a royalty from the Australian company.

Subparagraph (c) of paragraph 4 provides that, to the extent that income from the disposition of any property or right described in this paragraph is contingent on the productivity or use or further disposition of such property or right, it is a royalty.

Paragraph 5 states that the provisions of this Article shall not apply to royalty payments between related persons in excess of the amount which would have been agreed upon at arm's-length. Such excess amount shall be taxed according to the laws of each Contracting State, with regard also to the other provisions of this Convention.

Paragraph 6 defines the source of royalties. In general, a royalty is considered to have its source in a Contracting State if paid by the Government or a resident of that State or by a company which under internal law is a resident of that State. (Thus, a royalty paid by a dual resident company may be eligible for the reduced rate provided in paragraph 2, although a royalty beneficially owned by such a company is not.) However, if a permanent establishment or fixed base in one of the Contracting States or in a third State incurs the liability to pay the royalties and bears the payment (deducts it in computing taxable income), the royalty is considered to have its source in the State where the permanent establishment or fixed base is located. Moreover, if under these rules a royalty is not considered to have a source in either State but it relates to the use of property or the right to use property in one of them, the royalty is considered to have its source where the property is used or where there is a right to use it. Thus, for example, if an Australian resident were to license a patent to a third country company, which in turn sublicenses the patent for use in the United States, the United States would tax the sublicense payment by the U.S. user to the third country company in accordance with U.S. law, or with the provisions of a U.S. treaty with that country, if applicable, and would also tax the license payment by the third country company to the Australian resident, subject to the limitation in paragraph 2. Third country residents cannot obtain the rate reduction provided in paragrah 2, since this Article applies only to royalties derived by residents of a Contracting State.

ARTICLE 13
ALIENATION OF PROPERTY

This Article provides rules for the taxation of certain gains derived by a resident of a Contracting State. In general, it provides that: (1) gains from the alienation of real property may be taxed where the real property is located; (2) gains derived from the alienation of ships or aircraft or related property may be taxed only by the State of which the enterprise is a resident, except to the extent that the enterprise has been allowed depreciation of the property in computing taxable income in the other State; and (3) gains from the alienation of property referred to in paragraph 4(c) of Article 12 (Royalties) are taxable under Article 12. Gains with respect to any other property are covered by Article 21 (Income Not Expressly Mentioned), which provides that gains effectively connected with a permanent establishment are taxable where the permanent establishment is located, in accordance with Article 7 (Business Profits), and that other gains may be taxed by both the State of source of the gain and the State of residence of the owner. Double taxation is avoided under the provisions of Article 22 (Relief from Double Taxation).

Paragraph 1 of Article 13 states the rule that gains derived from the alienation of real property situated in a Contracting State may be taxed by that State.

Paragraph 2 defines real property in each of the Contracting States. In the case of the United States, paragraph 2(a) explains that the term "real property situated in the other Contracting State" includes a United States real property interest as defined under the Foreign Investment in Real Property Tax Act, as amended. Thus, the United States retains its full taxing right under the law. In the case of Australia, paragraph 2(b) provides that real property has the meaning it has under Australian law and includes an interest in a company, partnership, trust or estate, the assets of which consist wholly or principally of real property situated in Australia.

Paragraph 3 provides that when an enterprise of a Contracting State derives gains with respect to the alienation of ships, aircraft, or containers operated or used by it in international traffic, the gain shall be taxable only in the State of residence of the enterprise, except to the extent that the enterprise has been allowed depreciation on that property in the other Contracting State. To the extent that depreciation deductions have reduced the tax on income from the operation of such ships, aircraft, or containers in the other State, that other State may recapture those depreciation deductions (but not in excess of the gain realized) when the property is disposed of. This paragraph also provides a cross-reference to paragraph 4(c) of Article 12 (Royalties) and states that gain on royalties described in that paragraph (royalties which are contingent on the use or productivity of the right or property) are taxable in accordance with that Article.

Paragraph 4 clarifies that real property consisting of shares in a company or interests in a partnership, estate or trust referred to in paragraph 2(b) is deemed to be situated in Australia.

ARTICLE 14
INDEPENDENT PERSONAL SERVICES

This Article concerns the taxation of income derived by a resident of one of the Contracting States from independent personal services.

The rule established in this Article is that, if an individual who is a resident of one Contracting State performs independent personal services in the other Contracting State, the income from those services may be taxed by that other State if the individual either is present in that other State for an aggregate of more than 183 days in the taxable year (or income year) or has a fixed base regularly available to him in that other State for the purpose of performing his activities. In the latter case, the other State may tax the income for services performed in that other State which is attributable to that fixed base.

It is understood that the term "fixed base" is analogous to the term "permanent establishment." Independent personal services include all personal services performed by an individual for his own account, including services performed as a partner in a partnership, where he receives the income and bears the losses arising from such services, except that services performed as a director of a company are covered by Article 15 (Dependent Personal Services).

ARTICLE 15
DEPENDENT PERSONAL SERVICES

This Article concerns the taxation of remuneration derived by a resident of one of the Contracting States as an employee or as a director of a company.

Pensions, annuities and remuneration of government employees are covered by Articles 18 and 19. Other remuneration of a resident of one of the Contracting States for employee services or for services performed as a director of a company may be taxed only in the State of residence unless the employment is exercised or the services are performed in the other State, in which case that other State may tax the remuneration for the services performed there, subject to the conditions set forth in paragraph 2.

Paragraph 2 provides that, even where a resident of one Contracting State performs services in the other State, that other State may not tax the income for such services if three conditions are met: (a) the recipient is present in that State for not more than 183 days in the taxable year (or income year); (b) the remuneration is paid by or on behalf of an employer, or, in the case of remuneration of directors, a company, that is not a resident of that State; and (c) the remuneration is not deductible in determining taxable profits of a permanent establishment, fixed base, or a trade or business of the employer or company in that State. If any one of these conditions is not met, e.g., if the employer is a resident of the State where the services are performed, the income may be taxed by that State. The insertion of the reference to a trade or business means that if, for example, an Australian resident is employed in the United States by a Bermuda company and his salary is deducted in determining the profits of the U.S. trade or business of that company, the salary is taxable in the United States even if the Bermuda company does not have a permanent establishment in the United States.

Paragraph 3 provides that remuneration derived for employment aboard a ship or aircraft operated in international traffic by a resident of a Contracting State may be taxed by that State. Under this provision, Australia may tax the remuneration of employees for services aboard ships or aircraft operated internationally by Australian residents. Similarly, the United States may tax such remuneration when the operator is a U.S. resident. However, under U.S. law, the United States taxes such income of a nonresident alien only to the extent it is derived from U.S. sources (i.e., within U.S. territorial waters). This paragraph does not confer an exclusive taxing right. Both Contracting States retain the right to tax their residents and citizens under paragraph 3 of Article 1 (Personal Scope).

ARTICLE 16
LIMITATION ON BENEFITS

This Article limits the benefits of the Convention to bona fide residents of the Contracting States. It is intended to prevent residents of third countries from inappropriately using a company which is a resident of one of the Contracting States as a conduit or similar vehicle to obtain Treaty benefits. Specifically, a person (other than an individual) which is a resident of one of the Contracting States is entitled to relief from taxation from the other Contracting State only if any of three alternative tests is met.

The first two tests are objective tests relating to the entity in question. If more than 75 percent of the beneficial interest in the person receiving the income is owned, directly or indirectly, by any combination of individuals who are residents of the Contracting States, citizens of the United States, the Contracting States themselves, or publicly traded companies which are residents of the Contracting States, the first test is met.

Under the second test a publicly traded company that is a resident of Australia or the United States is considered to have a sufficient nexus with Australia or the United States, respectively, so as to entitle it to treaty benefits. Under this test, Treaty benefits are not denied if there is substantial and regular trading of the principal class of shares of such a company on a recognized stock exchange in one of the Contracting States. A recognized stock exchange includes the NASDAQ system in the United States.

The third test recognizes that ownership of an entity that is a resident of the United States or Australia by persons resident in third countries is not uncommon. In view of the factors discussed below, granting Treaty benefits to such an entity often is consistent with the goals of the Treaty. Accordingly, under the third test, Treaty benefits are allowed if the establishment, acquisition and maintenance of the person and the conduct of its operations did not have as a principal purpose the purpose of obtaining Treaty benefits. This test would be met, for example, if an Australian company owned by third country residents conducts business operations in Australia and its U.S. investments are related or incidental to those business activities, or if the Australian tax burden equals or exceeds the tax reduction claimed under the Convention. It could also be met in other situations.

Paragraph 3, inserted at the request of Australia, provides a special rule concerning certain trust situations. The benefits of the Treaty do not apply to income derived by a trustee which under the Convention is treated as income of a resident of one of the Contracting States if a principal purpose of the use of the trust was to obtain a benefit under the Convention. For example, if an Australian resident establishes one or more U.S. accumulation trusts with Australian beneficiaries to receive dividends from Australian corporations in order to reduce the Australian tax on those dividends, the reduced rate provided in paragraph 2 of Article 10 (Dividends) will not apply.

This Article is not meant to impose any added burden on withholding agents, and withholding agents will not be required to verify a person's ownership or purposes.

In applying this Article the normal burden of proof rules apply. For example, under present U.S. procedures, an entity that is a resident of Australia and that believes it is entitled, under one of the alternative tests of this Article, to the 10 percent U.S. tax rate on interest provided by Article 11 (Interest) would merely file a U.S. Form 1001 with the appropriate withholding agent to claim the benefit. Of course, the Internal Revenue Service could, on audit, examine the transaction.

In view of a combination of factors—the tax burden imposed by both the United States and Australia; the fact that, even under treaties, Australia imposes source taxation on income of nonresidents of Australia at a level that is not insignificant; the fact that the Treaty's rate reductions on source taxation of passive income are not as great as those accorded by the United States in many other treaties; and the concerns of both countries about tax avoidance and evasion—this Convention is not expected to be the subject of abuse. It is, therefore, anticipated that residents of the Contracting States will typically satisfy at least one of the three exceptions. Consequently, it should rarely be necessary to deny Treaty's benefits under this Article.

ARTICLE 17
ENTERTAINERS

This Article provides certain exceptions to the rules otherwise governing income from personal services in the case of income derived by entertainers and athletes.

Paragraph 1 provides that a Contracting State may tax income derived by a resident of the other State from the performance of personal services in the first State as an entertainer or athlete if the gross receipts for such services, including expenses reimbursed or paid on his behalf, exceeds $10,000 (or the equivalent in Australian dollars) for the income year or taxable year concerned. In that case the full amount may be taxed by the first State, subject to any deductions allowable under its laws. This rule overrides the provisions of Articles 14 (Independent Personal Services) and 15 (Dependent Personal Services) by adding another basis for taxation at source. However, if the income does not exceed $10,000, whether the income may be taxed by the State where the services are performed is determined in accordance with Article 14 or 15, as the case may be.

Income derived from services rendered by producers, directors, technicians and others who are not artistes or athletes is taxable in accordance with Article 14 or 15, as appropriate.

Paragraph 2 corresponds to the provision in the U.S. Model. Where income for services performed by an entertainer or athlete accrues not to the entertainer or athlete but to another person, it may be taxed in the State where the activities are performed, without regard to the provisions of the Convention concerning business profits or income from personal services, unless it is established that neither the entertainer or athlete nor any related person participates in those profits in any manner.

ARTICLE 18
PENSIONS, ANNUITIES, ALIMONY AND CHILD SUPPORT

This Article deals with the taxation of pensions, social security payments, annuties, alimony and child support derived by individuals who are residents of a Contracting State or citizens of the United States.

Paragraph 1 provides that pensions derived and beneficially owned by a resident of one of the Contracting States in consideration of past employment, other than pensions covered in Article 19 (Governmental Remuneration), shall be taxable only in that State.

Paragraph 2 provides that public pensions, such as social security benefits, paid by one Contracting State to a resident of the other State or to a citizen of the United States are taxable only in the paying State. The reference to U.S. citizens is to ensure that a social security payment by Australia to a U.S. citizen resident in Australia shall be taxable only in Australia and not in the United States. The exemption of such income provided by this paragraph is excepted from the saving clause under paragraph 4 of Article 1 (Personal Scope).

Paragraph 3 provides that annuities paid to a resident of a Contracting State shall be taxable only in that State.

Paragraph 4 defines "pensions and similar remuneration" and paragraph 5 defines "annuities."

Paragraph 6 provides that alimony and other maintenance payments, including child support payments, are taxable only in the State where they arise. The definitions and source rules relating to alimony and child support payments are determined under the internal laws of the Contracting States. Under Australian law alimony and child support payments are exempt to the recipient and not deductible by the payer. Thus, under this provision, alimony arising in the United States and paid to a resident of Australia will be deductible by the payer but taxed to the recipient by the United States. Alimony arising in Australia and paid to a U.S. resident, and child support payments arising in either State and paid to a resident of the other State, will not be deductible by the payer and will not be taxed to the recipient. These exemptions are available to residents and citizens of the respective States as a result of paragraph 4 of Article 1 (Personal Scope).

ARTICLE 19
GOVERNMENTAL REMUNERATION

This article provides that remuneration, including pensions, paid by one of the Contracting States or a political subdivision, local authority or agency thereof to a citizen of that State for the performance of governmental functions is exempt from tax by the other State. If such remuneration is paid to an individual who is a resident, but not a citizen, of the employing State, whether it may be taxed by the other Contracting State is determined in accordance with the provisions of Articles 14 (Independent Personal Services), 15 (Dependent Personal Services), 17 (Entertainers) or 18 (Pensions, Annuities, Alimony and Child Support), as the case may be. If such remuneration is paid by one of the States to an individual who is a resident of the other State (or by Australia to a citizen of the United States), it may be taxed by that other State (or by the United States in the case of U.S. citizens) in accordance with paragraph 3 of Article 1 (Personal Scope). If such remuneration is paid to an individual who is not a resident of either State (and is not a citizen of the United States), it is not covered by this Convention.

Whether functions are of a governmental nature is determined by reference to the concept of a governmental function in the State in which the income arises.

ARTICLE 20
STUDENTS

This Article provides that, when a resident of one of the Contracting States goes to the other State for the purpose of full-time education, that other State may not tax payments received by the student for the purpose of his maintenance or education from sources outside that State.

ARTICLE 21
INCOME NOT EXPRESSLY MENTIONED

This Article provides that items of income derived by a resident of one of the Contracting States and not covered in the preceding articles may be taxed by the country of residence of the recipient. If from sources in the other State, such income may also be taxed by that other State. However, Article 7 (Business Profits) governs the taxation of such income to the extent it is effectively connected with a permanent establishment in that other State.

Among the items covered by this Article are prizes and income from the insurance business, which is specifically excluded from the provisions of Article 7 (Business Profits) by paragraph 8 of that Article. The source of such items of income is determined under the respective domestic laws of the two countries. Any difficulties or doubts in applying this Article, as in other cases, may be addressed in accordance with the provisions of Article 24 (Mutual Agreement Procedure).

ARTICLE 22
RELIEF FROM DOUBLE TAXATION

Paragraph 1 provides that the United States shall give a foreign tax credit for income taxes paid to Australia, subject to the limitations provided in U.S. law. The credit is allowed for taxes paid directly by or on behalf of the U.S. resident or citizen. In addition, in the case of a U.S. corporation owning at least 10 percent of the voting stock of an Australian corporation, credit is allowed for the underlying Australian corporate tax on the profits of the Australian corporation out of which dividends are paid to the U.S. corporation. The Australian taxes referred to in paragraphs 1(b) and 2 of Article 2 (Taxes Covered) are considered income taxes for purposes of the credit.

This guarantee of a foreign tax credit is independent of the statutory grant of a credit under the Internal Revenue Code, but the amount of the credit to be allowed is determined in accordance with the limitations provided in the Internal Revenue Code. Since the Convention does not provide credit for a tax which is believed not to be creditable under the Internal Revenue Code, no special per-country limitation is contained in the Convention. However, paragraph 1 provides that the Convention source rules may be used only for purposes of determining U.S. foreign tax credits for the Australian taxes covered by the Convention, i.e., not for taxes of other foreign countries.

In paragraph 2, Australia agrees to allow Australian residents a credit against Australian income tax equal to the income tax paid in the United States other than solely by reason of U.S. citizenship (i.e., the amount of tax which the United States is authorized under the Convention to impose at source on residents of Australia who are not U.S. citizens), subject to the limitations in Australian law which limit the credit to the Australian income tax payable on the income or any class thereof or on income from sources outside Australia.

Paragraph 3 confirms that an Australian corporation that owns at least 10 percent of the voting stock of a U.S. corporation is entitled to a rebate in its assessment, at the average rate of Australian tax payable by it, on dividends it receives from the U.S. corporation which are included in its taxable income in Australia. If Australian law providing this relief from tax on inter-corporate dividends should change so that the rebate is no longer allowable, Australia agrees to allow credit for the underlying U.S. tax on the profits out of which such dividends are paid (similar to the U.S. credit allowed under section 902 of the Internal Revenue Code) in addition to the direct credit referred to in paragraph 3.

Paragraph 4 provides a special rule for avoiding double taxation of a U.S. citizen who is a resident of Australia. Both the United States and Australia tax the worldwide income of such a person. The special rule provides that, in such a case, the United States will credit against the U.S. tax the Australian tax paid, net of the Australian foreign tax credit provided for in paragraph 2 (i.e., the Australian foreign tax credit for United States source-basin taxation). For purposes of computing the foreign tax credit limitation under this paragraph, the United States will recharacterize enough U.S.-source income as Australian-source income to allow this special credit to be utilized, but without reducing the U.S. tax below the amount the United States may impose under this Convention other than by reason of citizenship (i.e., the amount of U.S. tax that may be imposed on a source basis under this Convention on residents of Australia who are not U.S. citizens). This source rule is provided by paragraph 1(c) of Article 27 (Miscellaneous), subject to the limitation provided in this paragraph.

ARTICLE 23
NON-DISCRIMINATION

This Article provides certain criteria of nondiscriminatory application of the taxes covered by the Convention.

Paragraph 1 provides, first, that citizens of a Contracting State who are residents of the other State shall not be taxed less favorably in that other State than resident citizens of that other State who are in the same circumstances. It is understood that United States citizens who are not residents of the United States and Australian citizens who are not residents of the United States are not in the same circumstances with respect to the U.S. income tax, which is generally imposed on the worldwide income of U.S. citizens but not of Australian citizens.

Paragraph 1 also provides, in subparagraph (b), that interest, royalties, and other disbursements paid by a resident of a Contracting State to a resident of the other State shall be deductible for determining taxable profits under the same conditions as if they had been paid to a resident of the first-mentioned State. The term "other disbursements" is understood to include a reasonable allocation of executive and administrative expenses, research and development expenses, and other expenses incurred for a group of related enterprises.

Subparagraph (c) is the same as the corresponding paragraph in the U.S. Model. It requires that a Contracting State not impose more burdensome taxation on a subsidiary corporation owned by residents of the other Contracting State than it imposes on similar corporations which are locally owned.

Subparagraph (d) provides that a Contracting State may not impose more burdensome taxes on a permanent establishment of an enterprise of the other State than it imposes on its own enterprises carrying on the same activities in the same circumstances.

Paragraph 2 states that this Article does not affect the taxes of either Contracting State as in force on the date of signature of the Convention or tax laws subsequently enacted which are substantially similar to the existing taxes in purpose or are reasonably designed to prevent avoidance or evasion of tax. However, any subsequent tax measure must treat residents or citizens of the other State no less favorably than residents or citizens of a third State (except where the treatment of residents or citizens of third States is governed by an international agreement rather than by internal law).

Both Australia and the United States allow certain exemptions, deductions or rate reductions to residents taxed on their worldwide income which they do not extend to nonresidents not taxed on their worldwide income. For example, Australia imposes a 5 percent additional corporate tax on the profits of Australian branches of foreign corporations in lieu of a withholding tax on their profit remittances to the home office, denies to such branches the rebate on intercorporate dividends available to Australian corporations, and limits certain exemptions from the withholding tax on interest to funds borrowed abroad by domestic corporations owned and controlled by Australian residents. The United States does not extent to U.S. branches of foreign corporations the same deduction for dividends received from U.S. corporations which is available to U.S. corporations nor does it allow inclusion of income of foreign corporations in a consolidated return. Under this Article, those practices will not be in violation of the Convention; however, paragraph 2 in this regard is merely clarifying as neither Australia nor the United States would consider the foregoing provisions of its respective law to violate to nondiscrimination provisions even in the absence of the rule of paragraph 2.

Paragraph 3 states that differentiating in taxation laws between residents and nonresidents does not of itself constitute discrimination contrary to this Article. This is merely an elaboration of the principles contained in paragraph 1, which require equal treatment of residents in the same circumstances. Residents and nonresidents are not in the same circumstances, reflecting the fact that in both countries residents are taxable on their worldwide income whereas nonresidents in general are taxable only on income from sources in that country.

Paragraph 4 provides that the competent authorities will attempt to resolve any instances of discriminatory taxation which might arise as a result of the tax measures of either country. Taxpayers may also take advantage of the provisions of Article 24 (Mutual Agreement Procedure) in such cases.

ARTICLE 24
MUTUAL AGREEMENT PROCEDURE

This Article provides for cooperation between the competent authorities to resolve problems of double taxation.

Paragraph 1(a) provides that a taxpayer who considers that the actions of one or both of the Contracting States may result in taxation not in accordance with the Convention may present his case to the competent authority of the State of which he is a resident or citizen. However, he must present his case within three years from the first notification of the action giving rise to the potential double taxation.

Paragraph 1(b) provides that the competent authority, if it considers the claim to be justified, shall endeavor to resolve the case by mutual agreement with the competent authority of the other Contracting State. Any agreement reached shall be implemented without regard to any statutory time limits of the Contracting States. Thus, for example, if it is agreed that tax liability should be adjusted downward, a refund of the excess tax paid will be made even though the statute of limitations may have expired. However, no additional tax may be imposed if the statute of limitations has expired in the taxing State.

Paragraph 2 provides that the competent authorities shall endeavor by mutual agreement to resolve any difficulties or doubts which may airse in the interpretation or application of the Treaty. For example, the competent authorities may agree on the same allocation of income, deductions, credits or allowances; to the same determination of the source of particular items of income; on a common meaning of a term; and they may decide, for purposes of paragraph 2(c) of Article 4 (Residence) to which State an individual has closer personal and economic relations. They may also discuss the application of the provisions of domestic law regarding penalties, fines and interest in a manner consistent with the purposes of the Convention.

Paragraph 3 provides that the competent authorities may communicate with each other directly for the purpose of reaching agreements in accordance with this Article.

ARTICLE 25
EXCHANGE OF INFORMATION

This Article provides for the exchange of information between the competent authorities of the Contracting States for the purposes of implementing the provisions of the Convention or administering statutory provisions concerning taxes covered by the Convention. Its terms are substantially similar to the corresponding provisions of the U.S. model.

Paragraph 1 provides that the competent authorities shall exchange such information as is necessary for carrying out the provisions of the Convention or for administering statutory provisions concerning taxes covered by the Convention provided the information can be obtained under domestic laws and administrative practices with respect to each State's own taxes. Thus, provided that the information could be obtained in administering a domestic tax covered by the Convention, the competent authorities agree to exchange such information without regard to whether there is a domestic liability in the case in question. The information furnished could relate to a tax not covered by the Convention if it is relevant to enforcing a tax which is so covered. For example, it is possible that information relating to sales taxes or estate taxes could be needed to verify an item of income or expense for income tax purposes.

Paragraph 2 provides guarantees that the information exchanged shall be kept secret and may be disclosed only to persons, including a court or administrative body, concerned with the assessment, collection, administration or enforcement of the taxes covered by the convention or with litigation with respect to those taxes. Persons involved in the administration of taxes covered by the Convention include legislative bodies involved in the administration of taxes and their agents such as, for example, the United States General Accounting Office; therefore, information may be disclosed to them, subject to the limitations of this Article and the internal law of the respective Contracting

Paragraph 3 provides that neither State will furnish information to the other State under this Article if it would be contrary to its public policy to do so.

Paragraph 4 states that, when specifically requested by the competent authority of the other Contracting State, and provided that such documents could be obtained in enforcing its own taxes, copies of unedited original documents shall be provided.

In paragraph 5 the competent authorities of the two Contracting States agree to endeavor to collect taxes on behalf of the other State to the extent necessary to ensure that any exemption or reduction in rate of tax provided in the Convention is not enjoyed by persons not entitled to the benefits of the Convention.

ARTICLE 26
DIPLOMATIC AND CONSULAR PRIVILEGES

This Article corresponds to Article 27 of the U.S. model. It provides that the Convention shall not affect taxation privileges of diplomatic consular officials under other special agreements of international law.

ARTICLE 27
MISCELLANEOUS

This Article provides certain miscellaneous rules of taxation under the Convention.

Paragraph 1 provides source rules. Income derived by a resident of the United States which, under the Convention, may be taxed by Australia, is deemed to have its source in Australia. Income derived by a resident of Australia which may be taxed by the United States under the Convention, other than solely by reason of citizenship or because the individual elected under U.S. law to be taxed as a resident of the United States, is deemed to have its source in the United States. With respect to U.S. citizens who are residents of Australia, to the extent that income which they derive is taxed by the United States by virtue of paragraph 3 of Article 1 (Personal Scope), such income is deemed to have its source in Australia for purposes of giving affect to paragraph 4 of Article 22 (Relief from Double Taxation).

Paragraph 2 provides that certain exemptions granted with respect to earned income by the source country, in accordance with Articles 14 (Independent Personal Services), 15 (Dependent Personal

Services), 17 (Entertainers), or 19 (Governmental Remuneration), will be inapplicable to the extent that such income is not taxed by the residence country. For example, a United States resident who performs services in Australia as a self-employed person and who neither remains in Australia for 183 days nor has a fixed base in Australia, nevertheless may be taxed by Australia on the remuneration for the services performed there, notwithstanding Article 14 (Independent Personal Services), to the extent with such remuneration is exempt from U.S. income tax under section 911 of the Internal Revenue Code. The purpose of the exemption at source provided in the articles listed in this paragraph is to avoid double taxation, not to provide double exemption.

ARTICLE 27 [28]
ENTRY INTO FORCE

The Convention is subject to ratification in accordance with the applicable procedures of each Contracting State. The instruments of ratification will be exchanged at Washington, D.C.

The Convention enters into force on the date on which the instruments of ratification are exchanged. Its provisions take effect, with respect to dividends, interest and royalties paid, credited or otherwise derived, on or after the first day of the second month following the exchange of instruments of ratification and, with respect to all other income, for taxable years (or income years) beginning on or after the first day of the second month following the exchange of instruments of ratification.

The 1953 Convention shall cease to have effect with respect to taxes to which this Convention applies in accordance with the above provisions and shall terminate on the expiration of the last date on which it has effect.

ARTICLE 29
TERMINATION

The Convention shall remain in force indefinitely unless terminated by one of the Contracting States. Either State may terminate the Convention after five years from the date on which it enters into force by giving at least six months prior notice through diplomatic channels. In that event, the Convention will cease to have effect with respect to dividends, interest and royalties paid, credited or otherwise derived on or after January 1 following the expiration of the six-month period and, with respect to all other income, for taxable years (or income years) beginning on or after January 1 following the expiration of the six-month period.

As an exception to those general rules, the provisions of the Convention concerning social security benefits and similar public pensions provided in paragraph 2 of Article 18 (Pensions, Annuities, Alimony and Child Support) may be terminated by either Contracting State at any time by giving prior notice to the other State through diplomatic channels.

May 24, 1983

Part IV. Items of General Interest

Limitation on Certain Adoptions and Changes of Annual Accounting Period

Announcement 86–113[1]

Announcement 86–101, 1986–41 I.R.B. 14, informed taxpayers that the Internal Revenue Service will issue temporary regulations to limit the ability of taxpayers to change their annual accounting period in anticipation of the Tax Reform Act of 1986. Except for certain anti-abuse rules, Announcement 86–101 did not address adoptions of a taxable year.

This announcement informs taxpayers that the temporary regulations also will suspend the provisions of Rev. Proc. 72–51, 1972–2 C.B. 832, in the case of partnerships requesting approval for the adoption of an annual accounting period that would result in the deferral of income to the partners of three months or less. In addition, the temporary regulations will suspend the provisions of section 4.03 of Rev. Proc. 83–25, 1983–1 C.B. 689, relating to corporations making the election to be an S corporation and seeking to adopt or retain an annual accounting period that results in the deferral of income of three months or less to shareholders holding more than one-half of the shares of the stock of the corporation. The temporary regulations will provide that partnerships and corporations generally must establish a substantial business purpose for the adoption or retention of an annual, accounting period. This requirement will not apply, however, to an adoption or retention of an annual accounting period under a procedure (such as that of section 4.02 of Rev. Proc. 83–25) that is not suspended by the temporary regulations.

The suspension of Rev. Proc. 72–51 and Rev. Proc. 83–25 as they relate to adoptions or retentions of an annual accounting period generally will apply unless the application required to effect or request the adoption or retention is timely filed before. Thus, for example, the temporary regulations will not apply to a taxpayer that elected subchapter S status and adopted a taxable year pursuant to section 4.03 of Rev. Proc. 83–25 if the Form 2553 was timely filed before. The temporary regulations will not apply to an adoption by a partnership of a taxable year that begins before January 1, 1986.

In addition, the effective date stated in Announcement 86–101 with respect to the application of the temporary regulations to changes of annual accounting period will be modified. The temporary regulations relating to changes of annual accounting period generally will apply if the income tax return for the short period involved in the change is filed after September 29, 1986. The temporary regulations will not apply, however, if the application required to effect or request the change was timely filed before September 30, 1986.

Payments of Tax and Interest in Cases Arising Under Partnership or S Corporation Audit Procedures and Estimates of Interest Accrued on Tax Liabilities

Announcement 86–114

This announcement supplements Announcement 86–108, 1986–45 I.R.B. 20, which describes the procedures taxpayers should follow to make payments of interest with respect to tax deficiencies, that may be or have been proposed by the Service. This announcement provides guidance to taxpayers who wish to make payments with respect to partnership or S corporation items for partnership taxable years beginning after September 3, 1982 or S corporation taxable years beginning after December 31, 1982.[1] This announcement also provides a table that all taxpayers may use to estimate the amount of interest that has accrued on any federal tax liability.

Announcement 86–108 and this announcement supplement rather than supersede Rev. Proc. 84–58, 1984–2 C.B. 501. For example, a taxpayer who has received a Notice of Proposed Deficiency may make an advance payment allocated proportionately to tax and interest under Rev. Proc. 84–58, even though Announcement 86–108 does not expressly mention the advance payment procedure in that situation. To ensure appropriate administrative treatment of the payment, however, the Service encourages taxpayers to follow one of the procedures applicable to their circumstances outlined in this announcement and Announcement 86–108.

Several significant differences exist between unified examinations of partnership and S corporation returns and other examinations. If the taxpayer's partnership or S corporation is audited under the partnership audit rules (Code sections 6221–6233) or the S corporation audit rules (Code sections 6241–6245), the taxpayer will not receive a Notice of Proposed Deficiency (30-day letter) or Statutory Notice of Deficiency (90-day letter) with respect to the partnership or S corporation items and affected items subject to a computational adjustment. The taxpayer will receive a Notice of Computational Adjustment after final resolution of the partnership or S corporation case. In addition, the taxpayer may receive, after completion of the partnership or S corporation proceeding, a Notice of Proposed Deficiency or Statutory Notice of Deficiency with respect to certain "affected items" that require a partner- or shareholder-level determination.

Because of the special rules applicable to entity-level proceedings, failure to follow the procedures outlined below may result in administrative or legal inability to process the payment as a payment of interest.

Prior to Issuance of a Final Partnership Administrative Adjustment (FPAA)

If a Notice of Final Partnership Administrative Adjustment (FPAA) has not yet been issued and the taxpayer wishes to make an interest payment before the end of 1986, the taxpayer may file an amended return (Form 1040X) and a Request for Administrative Adjustment (Form 8082) consistent with what the taxpayer believes will be the final determination of the unified examination. The taxpayer's submission of the Forms 1040X and 8082 permits the Service to assess the additional tax reported and the interest thereon. Along with the Forms 1040X and 8082, the taxpayer either may pay tax and interest or may pay interest only, in which case the Service will bill the taxpayer for the unpaid balance and subsequently accrued interest.

A taxpayer who files the Forms 1040X and 8082 after a notice of the beginning of a partnership or S corporation proceeding has been issued will remain part of the unified examination proceeding. Accordingly, if the Notice of Computational Adjustment sent to the taxpayer upon completion of the final partnership or S corporation audit determination reflects less tax than that reported by the taxpayer on the Form 1040X, any excess tax and interest previously paid will be credited to the taxpayer's account. Conversely, if the Notice of Computational Adjustment reflects a tax liability that exceeds the amount reported by the taxpayer, the additional tax and accrued interest owed by the taxpayer will be assessed.

---

[1] Also released as News Release IR–86–148, dated November 5, 1986.

[1] This announcement also applies to partnership taxable years ending after September 3, 1982, if the partnership has elected to be subject to the partnership audit procedures for such taxable years.

However, if the taxpayer files the Forms 1040X and 8082 before a notice of the beginning of a partnership (or S corporation) proceeding has been issued, the Service may remove the taxpayer from the unified examination proceedings under section 6227(c)(3) (or section 6244) by mailing a notice that the taxpayer's partnership (or S corporation) items will be treated as nonpartnership (or non-S corporation) items. If the Service does not mail this notice, the taxpayer remains part of the unified examination proceeding.

If the Service has a settlement position with respect to the particular partnership in which the taxpayer is an investor, the taxpayer may execute a Form 870–P agreeing to that position. The taxpayer may tender a payment allocated solely to interest, and the Service will bill the taxpayer for the unpaid balance and subsequently accrued interest. Execution of the settlement agreement binds both the taxpayer and the Service with respect to the partnership or S corporation items and removes the taxpayer from the unified proceeding. Thus, if the partnership or S corporation case is eventually resolved on some other basis, neither the taxpayer nor the Service may modify the settlement to reflect that later resolution.

Subsequent to Issuance of an FPAA

If the taxpayer wishes to make an interest payment after an FPAA has been issued, the taxpayer may enter into a settlement agreement (Form 870–P). The settlement agreement enables the Service to make the necessary computational adjustment and to assess the tax owed by the settling taxpayer. As a result, the taxpayer either may pay tax and interest or may pay interest only, in which case the Service will bill the taxpayer for the unpaid balance and any subsequently accrued interest. A taxpayer who wishes to tender an interest payment with the Form 870–P should estimate the amount of the computational adjustment and the interest due thereon and should submit a check designated as interest with the executed Form 870–P. The amount of the payment that exceeds the interest owed by the taxpayer will be credited against any unpaid tax.

The execution of a settlement agreement consistent with the FPAA removes the taxpayer from the scope of the unified proceeding and binds the taxpayer and the Service. Thus, neither the Service nor the taxpayer may modify the settlement agreement if the partnership or S corporation case is eventually resolved in a manner that is inconsistent with the FPAA.

In the alternative, a taxpayer may wish to make a payment while remaining in the partnership or S corporation proceeding until its conclusion. The taxpayer may do so by filing a Form 1040X that reflects the additional tax liability and tendering a check allocated to interest only or to tax and interest. The Form 1040X *must* contain the following waiver language:

> This Form 1040X reflects adjustments from ____________ (name of partnership/S corporation) for the year covered by this Form 1040X. Under I.R.C. §§6224(b)/6244, I/we hereby waive the restrictions on assessment and collection contained in I.R.C. §§6225/6244 with respect to the tax liability attributable to adjustments regarding the partnership or S corporation items and any other amounts that are subject to a computational adjustment under I.R.C. §§6231(a)(6)/6244 shown on this Form 1040X.

This waiver must be typed or handwritten on the back of the Form 1040X. Without the waiver, the Service may ultimately be unable to accept the taxpayer's payment as an interest payment and may eventually convert it into a cash bond. As described above, the Service will bill the taxpayer for any tax or subsequently accrued interest that is not paid with the Form 1040X. At the conclusion of the partnership or S corporation proceeding, the taxpayer will receive a Notice of Computational Adjustment reflecting the final determination of the entity-level proceeding. A Form 1040X filed after the FPAA has been issued shall not be treated as a return for purposes of the consistency requirements under section 6222(a) or 6242.

Taxpayers Having Both TEFRA and non-TEFRA Items

The unified partnership and S corporation proceeding rules provide separate audit, litigation, and assessment procedures for so-called TEFRA adjustments (*i.e.*, adjustments that are properly included in a computational adjustment under section 6231(a)(6) or section 6244, including partnership or S corporation items and affected items that do not require a partner- or shareholder-level determination). A taxpayer who has both TEFRA adjusments and non-TEFRA adjustments (including adjustments with respect to affected items that require a partner- or shareholder-level determination) with respect to the same taxable year should follow the procedures outlined in this announcement for the TEFRA adjustments and those outlined in Announcement 86–108 for the non-TEFRA adjustments.

Table for Estimating Interest

The table below provides a guide to estimating the amount of interest that has accured on a tax liability. Determine the amount of tax owed, locate the interest factor for the appropriate period, and multiply the tax owed by the interest factor. For example, if a taxpayer agrees to the waiver of restrictions on assessment and collection of $1,000 tax for calendar year 1984 on December 1, 1986, the estimated interest would be $1,000 × .1853 = $185.30.

Taxable Period	*Date of Remittance*			
	11/15/86	12/01/86	12/15/86	12/31/86
1977	1.3968	1.4063	1.4146	1.4241
1978	1.3029	1.3120	1.3200	1.3291
1979	1.1897	1.1984	1.2060	1.2147
1980	1.0018	1.0097	1.0167	1.0247

This table shows factors for computing the approximate amount of interest which has accrued, depending on the date remittance was made and the date the tax was due, for individual returns of calendar year taxpayers. The chart assumes no complications such as restricted interest, net operating losses, interest on substantial underpayments attributable to tax motivated transactions, partial payments subsequent to the filing of the return, or penalties.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorneys, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practible for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
S. Melvin Apotheker	Miami, FL	Attorney	Indefinite from September 1, 1986
Sandra S. Behn	London, TN	Certified Public Accountant	Indefinite from September 12, 1986
Charles K. Hyter	Hutchinson, KS	Attorney	Indefinite from September 18, 1986
William Pyke	Dallas, TX	Certified Public Accountant	Eighteen Months from August 15, 1986
Alan Z. Richards	West Hempstead, NY	Attorney and Certified Public Accountant	Indefinite from September 20, 1986

Under 20 Code of Federal Regulations, Part 901, an enrolled actuary, in order to avoid the initiation or conclusion of a suspension or termination proceeding, may offer his/her consent to suspension of enrollment. The Executive Director, Joint Board for the Enrollment of Actuaries, may suspend enrollment in accordance with the consent offered. An enrolled actuary whose enrollment is suspended is prohibited from performing actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA) during the period of suspension.

To enable employees of the Internal Revenue Service and others to identify enrolled actuaries under suspension, the Executive Director will announce in the Internal Revenue Bulletin the names and addresses of enrolled actuaries who have been suspended. This announcement will appear in the weekly Bulletin at the earliest practicable date following suspension and will continue to appear in the weekly Bulletin for at least three successive weeks for each enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

Name of Enrolled Actuary	Address	Term of Suspension
Michael Winston	Fort Lauderdale, FL	Six Months from October 20, 1986

Under 31 Code of Federal Regulations, Part 10, an enrolled agent, in order to avoid the institution of a proceeding for his disbarment of suspension from practice before the Internal Revenue Service, may offer his resignation. The Director of Practice, in his discretion, may accept the offered resignation of an enrolled agent.

To enable the public and other practitioners to identify such resigned enrolled agents, the Director of Practice will announce in the Internal Revenue Bulletin the name and address of each enrolled agent who has resigned and the effective date of resignation. This announcement will appear in the weekly Bulletin at the earliest practicable date after the action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each resigned enrolled agent, and will later be consolidated and published in the Cumulative Bulletin.

The following individual has entered a consent resignation from enrollment to practice before the Internal Revenue Service:

Name of Enrolled Agent	Address	Effective Date of Resignation
William E. Bonafede	Wakefield, RI	September 30, 1986

Under Section 330, Title 31 of the United States Code, the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individuals have been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
James L. Ketner	Charlotte, NC	Certified Public Accountant	September 27, 1986
George L. Weil	Orange, CT	Certified Public Accountant	September 27, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–136, page 9.
Estimated tax; underpayment; penalties; corporations and individuals. No penalties will be imposed on underpayments of estimated tax existing during any period ending on or before the applicable date for filing 1986 calendar year returns to the extent the underpayments are attributable to changes made by the Tax Reform Act of 1986.

Rev. Rul. 86–138, page 5.
Partnerships; income and deductions; partnership computation. A subsidiary partnership in a multitiered arrangement must separately state items of income, gain, loss, deduction, and credit.

Rev. Rul. 86–139, page 6.
Partnerships; adjustments to basis; extension of time to make election. The Commissioner will consider requests for extensions of time to make the election provided in section 754 of the Code where the failure to make a timely election was not discovered until after the partnership terminated.

Rev. Rul. 86–140, page 7.
Information reporting; state taxes. State imposed taxes on dividends, on net capital gains, and on net taxable income of unincorporated businesses are income taxes for purposes of the information reporting requirements of section 6050E of the Code.

Announcement 86–117, page 31.
This Bulletin contains a list of organizations that no longer qualify as organizations contributions to which are deductible under section 170(c)(2) of the Code.

Announcement 86–118, page 32.
Mortgage revenue bonds; average annual mortgage originations. Issuers of mortgage revenue bonds may continue to rely on the average annual mortgage originations contained in Rev. Proc. 85–39 until new average annual mortgage originations are published.

EXEMPT ORGANIZATIONS

EE–154–78, page 11.
Proposed regulations relate to lobbying expenditures by public charities described in section 501(c)(3) of the Code.

EMPLOYEE PLANS

Rev. Rul. 86–142, page 4.
Deductions; contributions; limitations; brokers' commissions. Brokers' fees paid by qualified plans and Individual Retirement Arrangements (IRAs), are not separately deductible, but are subject to the deduction limits of section 404(a) of the Code for plans, and section 219 for IRAs.

Notice 86–14, page 10.
Minimum distributions from qualified plans and individual retirement accounts and annuities for calendar years 1985 and 1986 will not be required until December 31, 1987.

Finding Lists begin on page 33.

Department of the Treasury
Internal Revenue Service

T 22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 162.—Trade Or Business Expenses

26 CFR 1.162–10: Certain employee benefits.

Whether broker's fees paid by employers that maintain qualified plans or by owners of Individual Retirement Arrangements are separately deductible, or whether they are subject to the deduction limits of sections 219(a) and 404(a) of the Code. See Rev. Rul. 86–142, this page.

Section 164.—Taxes

26 CFR 1.164–1: Deduction for taxes.

State imposed taxes on dividends, on net capital gains, and on net taxable income of unincorporated businesses are income taxes for purposes of the information reporting requirements of section 6050E of the Code. See Rev. Rul. 86–140, page 7.

Section 212.—Expenses For Production Of Income

26 CFR 1.212–1: Nontrade or business expenses.

Whether broker's fees paid by employers that maintain qualified plans or by owners of Individual Retirement Arrangements are separately deductible, or whether they are subject to the deduction limits of sections 219(a) and 404(a) of the Code. See Rev. Rul. 86–142, this page.

Section 219.—Retirement Savings

26 CFR 1.219–1: Deduction for retirement savings.

Whether broker's fees paid by owners of Individual Retirement Arrangements are subject to the deduction limits of section 219(a) of the Code. See Rev. Rul. 86–142, this page.

Section 404.—Deduction for Contributions of an Employer to an Employees' Trust or Annuity Plan and Compensation Under a Deferred-Payment Plan

26 CFR 1.404(a)–1: Contributions of an employer to an employees' trust or annuity plan and compensation under a deferred payment plan; general rule.
(Also Sections 162, 212, 219; 1.162–10, 1.212–1, 1.219–1.)

Deductions; contributions; limitations; brokers' commissions. Brokers' fees paid by qualified plans and Individual Retirement Arrangements (IRAs), are not separately deductible, but are subject to the deduction limits of section 404(a) of the Code for plans, and section 219 for IRAs.

Rev. Rul. 86–142

ISSUES

(1) Are additional contributions made by the employer to reimburse the trust of a qualified plan for brokers' commissions on transactions involving plan assets deductible under section 162 or 212 of the Internal Revenue Code?

(2) Are additional contributions to an individual retirement account (IRA) within the meaning of section 408(a) to reimburse the IRA for brokers' commissions on transactions involving IRA assets deductible under section 162 or 212?

FACTS

Situation 1.

A corporation established a plan for its employees. The plan is qualified under section 401(a) of the Code and the related trust is exempt from tax under section 501(a). The plan year and the taxable year of the employer are the calendar year.

The plan provides that the employer will reimburse the trust for brokers' commissions charged in connection with the purchase and sale of securities for the employees' trust. The employer, over the plan year, makes the maximum deductible contribution to the plan under section 404 of the Code. During the plan year, the employer makes additional contributions to reimburse the trust for the brokers' commissions paid by the trust.

Situation 2.

An individual established an IRA within the meaning of section 408(a) of the Code on July 1, 1985, and upon establishment contributed the maximum amount allowable as a deduction under section 219 for that year. Later, during 1985, the individual made additional contributions to the IRA to reimburse the account for brokers' commissions incurred in connection with the purchase of securities on behalf of the IRA.

LAW AND ANALYSIS

Section 162 of the Code allows a deduction for the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business.

Section 1.162–10(a) of the Income Tax Regulations provides that no deduction shall be allowed under section 162 of the Code if, under any circumstances, the amounts may be used to provide benefits under a stock bonus, pension, annuity, profit-sharing, or other deferred compensation plan of the type described in section 404(a).

Section 404(a) of the Code allows, subject to certain limitations, a deduction for employer contributions under a stock bonus, pension, profit-sharing, or annuity plan, or for compensation paid or accrued under a plan of deferred compensation, provided that such contributions or compensation satisfies the provisions of section 162 or 212.

Section 1.404(a)–3(d) of the regulations provides that expenses incurred by the employer in connection with a qualified employees' plan, such as trustee's fees and actuary's fees, that are not provided for by contributions under the plan are deductible by the employer under section 162 of the Code (relating to trade or business expenses), or section 212 (relating to expenses for production of income), to the extent that such expenses are ordinary and necessary. Amounts that are not ordinary and necessary expenses are not deductible under section 162.

Rev. Rul. 68–533, 1968–2 C.B. 190, holds that a sole proprietor's payment of trustee's fees that were expenses not provided for by contributions under a qualified plan are deductible by the sole proprietor under section 162 or 212 of the Code to the extent that they are ordinary and necessary. Such expenses are deductible in addition to the maximum deduction for employer contributions under the plan allowable by section 404.

The principles enunciated in the regulations under section 162 of the Code are equally applicable to section 212, except that the production of income requirement is substituted for the business requirement. Section 1.212–1(e) of the regulations provides in part that section 212 of the Code does not allow the deduction of any expenses which are disallowed by any of the provisions of Subtitle A of the Code (relating to Income Taxes) even though such expenses may be paid or incurred for one of the purposes specified in section 212.

Brokers' commissions are not recurring administrative or overhead expenses, such as trustee or actuary fees, incurred in connection with the maintenance of the trust or plan. Rather, brokers' commissions are intrinsic to the value of a trust's assets: buying commissions are part of the cost of the securities purchased and selling commissions are an offset against the sales price. Accordingly, employer contributions to reimburse the trust for brokers' commissions are used to provide benefits under the plan of which the trust is a part and thus are not deductible under section 162 or 212. Similarly, if instead of making additional contributions to the trust, the employer paid the brokers' commissions directly to the broker, such amounts are treated as though they had been contributed to the trust and used to provide benefits under the plan. Such direct payments thus are not deductible under section 162 or 212.

Amounts contributed (or treated as contributed) to a plan are deductible subject to the rules and limits in section 404. This is the case without regard to whether the amounts are used to pay brokers' commissions, administrative or overhead expenses (such as trustee or actuary fees), or cash benefits.

In situation (1), the employer's contributions to reimburse the trust for brokers' commissions are not deductible as a separate expense under section 162 or 212. Also, because such contributions result in the employer's total contributions exceeding the amount deductible under section 404 for the taxable year, such additional contributions are not deductible under section 404. Such contributions, however, may be deductible in future years under the carryover rules of section 404(a).

Section 219(a) of the Code provides that there shall be allowed as a deduction an amount equal to the qualified retirement contributions of the individual for the taxable year. Section 219(e)(1) provides that such contributions include amounts paid by or on behalf of an individual to an IRA.

Rev. Rul. 84–146, 1984–2, C.B. 61, discusses the deductibility of trustee's fees with respect to IRAs. It holds that, consistent with the rules governing deductions in connection with qualified plans, amounts paid by the IRA owner for such fees in connection with an IRA are deductible under section 212 of the Code to the extent they satisfy the requirements of that section, but that amounts paid that are not ordinary and necessary expenses, such as capital expenditures and disguised IRA contributions, are not deductible under section 212.

The analysis that applies to employer contributions to a trust to pay brokers' commissions on transactions involving qualified plan assets also applies to IRA contributions. Thus, IRA contributions to pay brokers' commissions on transactions involving IRA assets and direct payments by the IRA owner to a broker for commissions on transactions involving IRA assets are not deductible under section 162 or 212. Such contributions (and payments treated as IRA contributions) are deductible subject to the limits of section 219.

In Situation (2), the additional contributions to the IRA to reimburse the IRA for brokers' commissions result in the total IRA contributions for 1985 exceeding the amount that can be deducted under section 219 for 1985. The contributions that exceed the limits of that section are subject to the tax on excess contributions described in section 4973.

HOLDINGS

The employer contributions to the trust of the qualified plan in Situation (1) to reimburse the trust for brokers' commissions on transactions involving trust assets cannot be separately deducted as an ordinary and necessary business expense under sections 162 or 212 of the Code.

Similarly, the IRA contribution by the IRA owner in Situation (2) to pay brokers' commisions on transactions involving the assets of the IRA cannot be separately deducted under section 162 or 212 of the Code.

Section 702.—Income and Credits of Partner

26 CFR 1.702-1: Income and credits of partner.

Whether, in a multitiered partnership arrangement, the separate statement of income, gain, loss, deduction, or credit by the subsidiary partnership could affect the tax liability of a partner in the higher-tier partnership but not the tax liability of a partner of the subsidiary partnership. See Rev. Rul. 86–138, below.

Section 703.—Income and Deductions

26 CFR 1.703-1: Partnership computations.
(Also Section 702; 1.702-1.)

Partnerships; income and deductions; partnership computation. A subsidiary partnership in a multitiered arrangement must separately state items of income, gain, loss, deduction, and credit.

Rev. Rul. 86–138

ISSUE

Under section 703(a) of the Internal Revenue Code, is a subsidiary partnership in a multitiered arrangement required to state separately items of income, gain, loss, deduction, or credit if separate statement of these items could affect the tax liability of a partner in a higher-tier partnership in the multitiered arrangement but not the tax liability of a partner of the subsidiary partnership?

FACTS

S, a limited partnership, engages in construction activities. *X*, a corporation, is the sole general partner of *S*. *P*, a limited partnership, is the sole limited partner of *S*. The partners of *P* are all individuals. *S* and *P* are classified as partnerships under section 7701(a)(2) of the Code.

In the taxable year in question, *S* paid interest expense on indebtedness incurred to purchase property held for investment within the meaning of section 163(d)(3)(D) of the Code. *S* did not separately state the investment interest expense or the investment income in informing its partners of their distributive share of income, gain, loss, deduction, or credit on schedule K–1 (Form 1065) (Partner's Share of Income, Credits, Deductions, etc.) for the taxable year.

LAW AND ANALYSIS

Section 701 of the Code provides that a partnership as such shall not be subject to the income tax imposed by chapter 1 of the Code. Persons carrying on business as partners shall be liable for income tax only in their separate or individual capacities.

Section 702(a) of the Code provides that, in determining a partner's income tax, each partner must take into account separately the partner's distributive share of items enumerated in section 702(a)(1) through, (8). Under section 702(a)(7), a partner must take into account separately those items of income, gain, loss, deduction, or credit prescribed by regulations.

Section 1.702–1(a)(8)(ii) of the Income Tax Regulations provides that each partner must take into account separately the partner's distributive share of any partnership item which if separately taken into account by any partner would result in an income tax liability for that partner different from that which would result if that partner did not take the item into account separately.

Section 702(b) of the Code provides that the character of any item included in a partner's distributive share under paragraphs (1) through (7) of section 702(a) is determined as if the item were realized directly from the source from which realized by the partnership, or incurred in the same manner as incurred by the partnership.

Section 703(a)(1) of the Code provides that a partnership shall separately state the items described in section 702(a) of the Code in computing its taxable income.

Section 163(a) of the Code allows a deduction for all interest paid or accrued within the taxable year on indebtedness.

Section 163(d)(1) of the Code provides that, in the case of a taxpayer other than a corporation, the amount of investment interest otherwise deductible is limited to (A) $10,000 ($5,000, in the case of a separate return by a married individual), plus (B) the amount of the net investment income (as defined in section 163(d)(3)(A)), plus an additional amount in the case of net leases. Section 163(d)(3)(D) defines "investment interest" as interest paid or accrued on indebtedness incurred or continued to purchase or carry property held for investment.

Rev. Rul. 84–131, 1984–2 C.B. 37, concludes that in the case of a partnership whose partners are individuals, the partners must take into account separately their distributive shares of investment interest under section 163(d)(3)(D) of the Code.

The limitation on investment interest expense under section 163(d) of the Code does not apply to corporations. Under section 701, a partnership is not subject to the income tax. Because *S* has only a corporation and a partnership as partners, the tax liability of *S*'s partners cannot be affected by the section 163(d) limitation. However, *P*, the limited partner of *S*, has partners that are individuals. The tax liability of these individual partners of *P* may be affected by the section 163(d) limitation, and they therefore need a separate statement of their distributive share of investment income and investment interest expenses of *S* and *P*. *See* Rev. Rul. 84–131, 1984–2 C.B. 37. The fact that an item flows through an intermediate partnership does not change the character of the item. Therefore, in order to give effect to section 702(a)(8) and section 1.702–1(a)(8)(ii), *S* and *P* must separately state investment interest expense and investment income under section 703 of the Code.

HOLDING

Under section 703(a) of the Code, a subsidiary partnership in a multitiered arrangement must separately state those items of income, gain, loss, deduction, and credit which if separately taken into account by any partner of any partnership in the multitiered structure would result in an income tax liability for that partner different from that which would result if that partner did not take those items into account separately.

Section 708.—Continuation of Partnership

26 CFR 1.708–1: Continuation of partnership.

Requests for extensions of time to make section 754 elections after termination of partnership will be considered. See Rev. Rul. 86–139, below.

Section 743.—Optional Adjustment to Basis of Partnership Property

26 CFR 1.743–1: Optional adjustment to basis of partnership property.

Requests for extensions of time to make section 754 elections after termination of partnership will be considered. See Rev. Rul. 86–139, below.

Section 754.—Manner of Electing Optional Adjustment to Basis of Partnership Property

26 CFR 1.754–1: Time and manner of making election to adjust basis of partnership property.
(Also Sections 708, 743; 1.708–1, 1.743–1, 1.9100–1.)

Partnerships; adjustments to basis; extension of time to make election. The Commissioner will consider requests for extensions of time to make the election provided in section 754 of the Code where the failure to make a timely election was not discovered until after the partnership terminated.

Rev. Rul. 86–139

ISSUE

May the Commissioner grant a request for an extension of time to make the election provided in section 754 of the Internal Revenue Code where the failure to make a timely election was not discovered until after the partnership terminated under the provisions of section 708 of the Code?

FACTS

A and *B* were equal partners in *AB*, a calendar year partnership. *B* died on January 1, 1983. Upon *B*'s death, *B*'s estate succeeded to *B*'s interest in *AB*. The value of *B*'s partnership interest as determined for federal estate tax purposes greatly exceeded the adjusted basis of *B*'s share of partnership assets. During 1983, *B*'s estate was taxable on its distributable share of partnership income. *AB*'s partnership return for 1983 was filed on April 1, 1984. On May 1, 1984, *B*'s estate sold the interest in *AB* to *A*. Shortly thereafter, the executor of *B*'s estate discovered that the section 754 election was omitted from *AB*'s 1983 tax return and requested that the partnership file a request for an extension of time to make an election under section 754 of the Code in connection with the transfer of the partnership interest that occurred on January 1, 1983 when *B* died. The executor intends that the partnership's 1983 return be amended to reflect an increased basis in the estate's share of partnership assets, and a corresponding increase in the estate's deduction for depreciation.

LAW AND ANALYSIS

Section 708(b)(1)(A) of the Code provides that a partnership shall be considered as terminated if no part of any business, financial operation or venture of the partnership continues to be carried on by any of its partners in a partnership. Section 1.708–1(b)(1)(i)(a) of the Income Tax Regulations provides that upon the death of one partner in a two-member partnership, the partnership shall not be considered as terminated if the estate or other successor in interest of the deceased partner continues to share in the profits or losses of the partnership business. Upon a sale of the partnership interest by the estate of the deceased partner to the surviving partner, however, the partnership terminates. *See* Rev. Rul. 67–65, 1967–1 C.B. 168.

Section 754 of the Code provides that if a partnership files an election, the basis of partnership property shall be adjusted in the case of a transfer of a partnership interest in the manner provided in section 743. Under section 1.754–1(b) of the regulations, the election is made in a written statement filed with the partnership return for the taxable year during which the transfer occurs.

Section 743(b) of the Code provides that, in the case of a transfer of an interest in a partnership by a sale or exchange or upon the death of a partner, a partnership with respect to which the election provided in section 754 is in effect shall—(1) increase the adjusted basis of partnership property by the excess of the basis to the transferee partner of that partner's interest in the partnership over that partner's proportionate share of the adjusted basis of partnership property, or (2) decrease the adjusted basis of partnership property by the amount that the partner's share of such property exceeds the basis of that partner's interest in the partnership. Such increase or decrease constitutes an adjustment to the basis of partnership property with respect to the transferee partner only.

Section 1.9100-1(a) of the regulations provides that the Commissioner in the Commissioner's discretion may grant a reasonable extension of time for the making of an election upon the showing of good cause. Relief, however, may be granted only where the time for making the election is not expressly prescribed by statute and where the request for the extension is made before the time fixed by the regulations or within such time thereafter as the Commissioner may consider reasonable under the circumstances.

In this case, *AB* failed to make a timely section 754 election on its 1983 tax return with respect to the transfer of *B*'s partnership interest that took place upon *B*'s death. The availability of relief for the failure to file a timely election provided under section 1.9100-1 of the regulations depends on whether *AB* can show good cause for the failure and whether the election is made within the time deemed reasonable under the circumstances by the Commissioner. The fact that *AB* terminated under section 708(b)(1)(A) upon the sale of the interest by the estate to *A*, before the failure to make the election was discovered, does not preclude *AB* from showing good cause for the failure. The request for the extension, like the election itself, should be made on behalf of the partnership by the person empowered to file a return for a terminated partnership. Who that person is will vary depending on the facts of a given case.

Whether, under the facts and circumstances of each situation, the requirements of section 1.9100-1 have been met will depend upon the following factors:

(1) Due diligence of the taxpayer,

(2) Prompt action by the taxpayer,

(3) Intent of the taxpayer,

(4) Prejudice to the interests of the Government, and

(5) Statutory and regulatory objectives.

See Rev. Proc. 79-63, 1979-2 C.B. 578.

HOLDING

The Commissioner may grant a request for an extension of time to make the election provided in section 754 of the Code where the failure to make a timely election was not discovered until after the termination of the partnership under the provisions of section 708.

Section 6050E.—State and Local Income Tax Refunds

26 CFR 5f.6050E-1: Reporting of state and local income tax refunds.

Information reporting; state taxes. State imposed taxes on dividends, on net capital gains, and on net taxable income of unincorporated businesses are income taxes for purposes of the information reporting requirements of section 6050E of the Code.

Rev. Rul. 86-140

ISSUE

If, in the circumstances described below, a state imposes taxes on dividends, on net capital gains, and on the net taxable income of unincorporated businesses, are refunds, credits, or offsets to individuals of those taxes subject to the information reporting requirements of section 6050E of the Internal Revenue Code?

FACTS

The laws of state *X* impose tax *A* on the state's individual residents. Tax *A* is a tax on all dividends earned by, actually or constructively received by, or accrued or credited to, a taxpayer. The tax is imposed at a graduated rate and is imposed only if the taxpayer's adjusted gross income for federal income tax purposes is $20,000 or more. Under state law, the "dividends" on which the tax is imposed are those amounts that are taxable as dividends for federal income tax purposes, without regard to the dividend exclusion.

State *X* also imposes tax *B* on individual residents. Tax *B* is a tax of 7 percent on all net gains from the sale or exchange of capital assets, actually or constructively received by, or accrued or credited to, the taxpayer during the year. "Net gains" means gains from the sale or exchange of capital assets to the extent that those gains exceed losses from such sales. No capital gains tax is imposed if the net gains are less than $10, or if the taxpayer's adjusted gross income is less than $20,000 and the gains from the sale of the assets do not exceed (1) $200 for a husband and wife, or (2) $100 in all other cases.

State *X* also imposes tax *C*. Tax *C* is a tax on unincorporated businesses, trades, professions, or occupations conducted by, engaged in, or being liquidated by individuals. The tax, however, is not imposed on performance of services as employees or as officers or directors of corporations. The tax is 5 percent of the net taxable income of every unincorporated business wholly or partly carried on within the state and is in addition to other taxes imposed by the state. In computing net income for purposes of tax *C*, the taxpayer starts with gross income as defined for federal income tax purposes. The taxpayer then is allowed deductions for all items of loss and for all deductions directly connected with, or incurred in, the conduct of the business, if the items of loss and the deductions are allowable for federal income tax purposes. Allowable deductions include losses and deductions connected with any property used in the business, subject to certain modifications.

LAW AND ANALYSIS

Section 6050E(a) of the Code provides that every person who makes payments of refunds of state or local income taxes (or allows credits or offsets with respect to such taxes) during any calendar year to any individual aggregating $10 or more must make a return according to forms or regulations prescribed by the Secretary, setting forth the total amount of such payments, credits, or offsets, and the name and address of the individual to whom such payment, credit, or offset was made.

Section 6050E(b) of the Code generally requires that every person making a return under section 6050E(a) must send a statement to the individual whose name is on the return. However, no statement is required if it is determined in the manner provided by regulations that the individual did not claim itemized deductions under chapter 1 for the taxable year giving rise to the refund, credit, or offset.

Section 1.6050E-1(c) of the Income Tax Regulations provides that every refund officer shall make an information return for each calendar year. This return is required even if, under the exception for nonitemizers, the refund officer is not required to furnish a statement to the applicable taxpayer. "Refund officer" is defined in section 1.6050E-1(b)(1) as the officer or employee of a state or local taxing jurisdiction having control of payments of refunds or the allowance of credits or offsets, or the person appropriately designated for purposes of section 1.6050E-1.

Section 1.6050E-1(f) of the regulations provides that the information required to be reported includes the aggregate amount of refunds, credits, and offsets made or allowed during the calendar year with respect to the taxable year of the individual covered by the return; the name, address, and taxpayer identification number of the individual with respect to whom such payment, credit, or offset was made or allowed; the taxable year covered by the return; and such other information as may be required by the forms. In addition, the nature of the tax is required to be indicated on the Form 1099 in any case where the refund, credit, or offset is made or allowed with respect to a payment attributable to an income tax that applies exclusively to income from a trade or business and is not a tax of general application.

Under section 1.6050E–1(k)(1) of the regulations, generally every refund officer required to make an information return under section 1.6050E–1 must furnish to the individual whose identifying number is required to be shown on the return a written statement showing the aggregate amount shown on the information return of refunds, credits, and offsets made or allowed to the individual with respect to each taxable year of the individual, the name of the state or local taxing jurisdiction paying the refund, or allowing the credits or offsets, the taxable year giving rise to the refund, credit, or offset, and a legend stating that the amount is being reported to the Internal Revenue Service.

Section 1.6050E–1(k)(2) of the Code provides an exception to the general rule contained in section 1.6050E–1(k)(1). If the refund officer verifies that the individual did not claim itemized deductions for federal income tax purposes for the taxable year giving rise to the refund, credit, or offset, a statement need not be furnished to the individual. The exception, however, does not apply if the refund, credit or offset is made or allowed with respect to a payment attributable to an income tax that applies exclusively to income from a trade or business and is not a tax of general application.

Under section 62 of the Code, the term "adjusted gross income" in the case of an individual means gross income minus certain deductions. Under section 62(1), these deductions include the deductions allowed by chapter 1 (other than by part VII of subchapter B) that are attributable to a trade or business carried on by the taxpayer, if the trade or business does not consist of the performance of services by the taxpayer as an employee. Section 1.62–1(d) of the regulations states that to be deductible for the purposes of determining adjusted gross income, expenses must be those directly, and not those merely remotely, connected with the conduct of a trade or business.

Under section 63(f) of the Code, the term "itemized deductions" means the deductions allowable by chapter 1 other than the deductions allowable in arriving at adjusted gross income, the deductions for personal exemptions provided by section 151, and the direct charitable deduction.

For purposes of computing taxable income for federal income tax purposes, section 164(a) of the Code permits a deduction for state and local income taxes for the taxable year within which paid or accrued, according to the taxpayer's method of accounting. In addition, under section 1.164–1(a) of the regulations, state and local income taxes that are paid or accrued within the taxable year in carrying on a trade or business or an activity described in section 212 (relating to expenses for the production of income) are permitted as deductions.

The refund, credit, or offset of state or local income taxes that were deducted (with a resulting tax benefit) in a prior year is includible in a taxpayer's gross income. *See* section 111 of the Code. Section 6050E was enacted to assure that any individual taxpayer, whether or not engaged in a trade or business, who deducted a state or local income tax and later received a refund of any portion of those taxes deducted, would include that amount in gross income in the year in which the refund occurs. *See* S. Rep. No. 97–494 (Vol. 1), 97th Cong., 2d Sess. 250 (1982).

Principles developed under federal law, not state interpretations or designations, determine whether a payment falls within the meaning of the terms "taxes" and "income taxes" as used in federal statutes. *See* Rev. Rul. 79–180, 1979–1 C.B. 95; Rev. Rul. 76–215, 1976–1 C.B. 194; Rev. Rul. 71–49, 1971–1 C.B. 103; and Rev. Rul. 61–152, 1961–2 C.B. 42.

The word "taxes" has been defined as an enforced contribution, exacted pursuant to legislative authority in the exercise of the taxing power, and imposed and collected for the purpose of raising revenue to be used for public or governmental purposes and not as payment for some privilege granted or service rendered. The tax must be paid to a government levying the tax, to certain public benefit corporations created by that government for a public purpose, or to their agents. *See* Rev. Rul. 81–191, 1981–2 C.B. 49.

In general, an income tax is a direct tax on gains or profits. Gain is a necessary ingredient of income. *See Bank of America National Trust Savings Association v. United States*, 459 F.2d 513, 517 (Ct. Cl.), *cert. denied*, 409 U.S. 949 (1972). A tax can be an "income tax" even though it is restricted to only certain forms of income. *McGowan v. Commissioner*, 67 T.C. 599, 610 (1976).

The three taxes imposed by state *X* are exacted pursuant to legislative authority in the exercise of the taxing power of the state, and are imposed and collected by the state for the purpose of raising revenues to be used for a governmental function that serves public purposes. In addition, the three taxes fall on net income. They are taxes on gain or profit as opposed to gross receipts. As such, they are income taxes within the meaning of section 164(a) of the Code.

Taxes *A* and *B* are deductible from adjusted gross income as itemized deductions under section 164(a) of the Code. Tax *C*, however, is attributable to a trade or business carried on by the taxpayer that does not consist of the performance of services of an employee. As such, tax *C* is deductible from gross income under section 62(1). Thus, for purposes of the exception for nonitemizers in section 1.6050E–1(k)(2) of the regulations, tax *C* is an income tax that applies exclusively to income from a trade or business and is not a tax of general application. For that reason, the exception for nonitemizers does not apply to tax *C*.

HOLDING

If a refund, credit, or offset of any of the three state *X* taxes is made to an individual, the refund, credit, or offset is subject to the return requirements of section 6050E(a) of the Code and regulations thereunder. In the case of a refund, credit, or offset of taxes *A* and *B*, a statement under section 6050E(b) must also be furnished to the applicable taxpayer, unless pursuant to section 1.6050E–1(k)(2) the refund officer verifies that the taxpayer did not claim an itemized deduction of tax *A* or *B* for federal income tax purposes. In the case of a refund, credit, or offset of tax *C*, a statement must always be furnished to the taxpayer. Tax *C* is an income tax that applies exclusively to income from a trade or business and is not a tax of general application. Since it is a section

62 deduction in arriving at adjusted gross income, the nonitemizer exception from furnishing the statement under section 1.6050E–1(k)(2) does not apply. An itemized deduction. Thus, the exception from furnishing the statement under section 1.6050E–1(k)(2) does not apply.

Section 6654.—Failure by Individual to Pay Estimated Income Tax

26 CFR 1.6654–1: Addition to the tax in the case of an individual.

To the extent underpayments of estimated taxes are attributable to changes made by the Tax Reform Act of 1986 no penalties will be imposed for tax years ending on or before December 31, 1986, if the entire amount of estimated tax due is paid by the date established for filing returns for 1986 calendar year taxpayers. See Rev. Rul. 86–136, below.

Section 6655.—Failure by Corporation to Pay Estimated Income Tax

26 CFR 1.6655–1: Addition to the tax in the case of a corporation.
(Also Section 6654; 1.6654–1.)

Estimated tax; underpayment; penalties; corporations and individuals. No penalties will be imposed on underpayments of estimated tax existing during any period ending on or before the applicable date for filing 1986 calendar year returns to the extent the underpayments are attributable to changes made by the Tax Reform Act of 1986.

Rev. Rul. 86–136[1]

Sections 6654 and 6655 of the Internal Revenue Code impose an addition to tax on individuals and corporations, respectively, for failure to pay estimated taxes when due.

In calculating their estimated tax liability for taxable years beginning in 1985 and 1986, taxpayers may have relied on certain provisions of the Code, such as the investment tax credit of section 38(b)(1), that were subsequently modified or repealed by the Tax Reform Act of 1986 (the Act), (Pub. L. No. 99–514, 100 Stat.).

Section 1543 of the Act provides that no addition to tax shall be made under section 6654 or 6655 of the Code for any period before April 16, 1987 (March 16, 1987, in the case of a corporation), with respect to any underpayment, to the extent that the underpayment was created or increased by a provision of the Act.

The Statement of the Managers filed with the Conference Committee Report indicates that taxpayers shall have until the due date for calendar year returns (April 15, 1987, in the case of individuals, March 15, 1987, in the case of corporations) to pay their full 1986 income tax liability without incurring an addition to tax on account of an underpayment of estimated tax that is attributable to changes in the law made by the Act. (2 H.R. Rep. 99–841 (Conf. Rep.), 99th Cong, 2d Sess. II–798 (1986).) However, the Statement of the Managers also states that, "The conferees intend that no penalties be imposed under section 6655 on underpayments of estimated tax, but only to the extent that (1) the underpayment of an installment results from a taxpayer taking into account investment tax credits on property placed in service after December 31, 1985, and before the date of enactment of the Act, *and* (2) the taxpayer actually pays such underpayment within 30 days after the enactment of the Act." (Conf. Rep. at II–64, emphasis in the original.)

The statutory language of section 1543 of the Act determines the proper penalty relief. Accordingly, no penalties will be imposed on underpayments of estimated tax existing during any period ending on or before the applicable date for filing 1986 calendar year returns, but only to the extent the underpayments are attributable to changes made by the Act.

For example, assume that a taxpayer calculated its quarterly estimated tax payments based on its expected tax liability reduced by an anticipated investment tax credit for property placed in service after 1985. The taxpayer may obtain relief from the penalty imposed on underpayments of estimated tax to the extent its underpayment resulted from the repeal of the investment tax credit.

In a similar manner, a taxpayer that computed its expected regular tax liability using the Accelerated Cost Recovery System (ACRS) and subsequently elected to have the new ACRS rules apply after July 31, 1986, may obtain relief from the penalty imposed on underpayments of estimated tax to the extent that its underpayment resulted from the application of the new ACRS rules (including the mid-quarter convention under section 168(d)(3) of the Code (section 201(a) of the Act)).

Relief from the penalty imposed on underpayments of estimated tax is provided only for periods ending on or before the due date (determined without regard to any extensions) for filing 1986 calendar year returns. A taxpayer that uses a fiscal year as its taxable year will be subject to additions to tax under section 6654 or 6655 of the Code for underpayments of estimated tax existing after such date. In addition, since the Act provides no relief from interest imposed on underpayments of tax liability under section 6601, fiscal year taxpayers may owe interest on underpayments for periods ending on or before the applicable date for filing 1986 calendar year returns regardless of the cause of such underpayments.

For example, assume a corporate taxpayer that has a taxable year ending June 30 underpaid its estimated tax for both its 1986 and 1987 taxable years, solely because of changes made by the Act. With respect to the taxable year ending on June 30, 1986, no penalty will be imposed on the underpayment of estimated tax, although a penalty under section 6655 of the Code normally would accrue through September 15, 1986, the date prescribed for payment of the corporation's tax liability. Under section 6601, interest will run on any unpaid tax liability after September 15, 1986. With respect to the taxpayer's taxable year ending on June 30, 1987, no penalty will be imposed on underpayments of estimated tax existing on or before March 15, 1987. A penalty will be imposed on underpayments of estimated tax existing after March 15, 1987.

Taxpayers whose underpayments of estimated tax result solely from changes made to the Code by the Act should file Form 2210, Underpayment of Estimated Tax by Individuals, or Form 2220, Underpayment of Estimated Tax by Corporations, with their tax return or amended tax return for 1986. Taxpayers should write the word "waiver" in the left hand margin of Form 2210 or Form 2220 and attach a statement that no addition to tax should be assessed because the underpayment of estimated tax is due to changes in the law made by the Tax Reform Act of 1986. The statement should contain sufficient detail to illustrate the impact of the change made by the Act.

Taxpayers whose underpayments are partially due to changes made by the Act (and who are therefore entitled to partial relief) should clearly state the amount of penalty to be waived in addition to the explanatory statements otherwise required.

26 CFR 1.9100–1: Extension of time for making certain elections.

Requests for extensions of time to make section 754 elections after termination of partnership will be considered. See Rev. Rul. 86–139, page 6.

---

[1] Also released as News Release IR–86–157, dated November 19, 1986.

Part III. Administrative, Procedural, and Miscellaneous

Required Distributions from IRAs and Qualified Plans, under Sections 401(a)(9), 408(a)(6), and 408(b)(3) of the Code and Amendments to IRAs as a result of Amendments by Section 521 of the Tax Reform Act of 1984.

Notice 86–14

This notice provides further guidance with respect to minimum required before-death and after-death distributions from qualified plans and individual retirement accounts and annuities (IRAs) pursuant to sections 401(a)(9), 408(a)(6), and 408(b)(3) of the Internal Revenue Code, as amended by section 521 of the Tax Reform Act of 1984 (TRA of 1984). Because regulations will not be published in sufficient time to provide guidance necessary to enable plan administrators and individuals to make required minimum distributions for 1985 and 1986 from qualified plans and IRAs by December 31, 1986, this notice further delays the date by which minimum distributions for 1985 and 1986 must be made.

Section 401(a)(9), as amended, requires qualified plans to make minimum distributions to certain participants and beneficiaries. Sections 408(a)(6) and (b)(3), as amended, require that distributions from IRAs be made, pursuant to regulations of the Secretary, under rules similar to those of section 401(a)(9) for qualified plans.

Notice 86-1, 1986–1 C.B. 381, provided generally that minimum distributions required for calendar year 1985 need not be made until December 31, 1986 from qualified plans and IRAs. Initial distributions required under the minimum distribution rules by April 1 of a year are distributions for the previous calendar year. For example, distributions to a retired employee who attained age 70½ in calendar year 1985 that are not required to be made until April 1, 1986, are considered distributions for the 1985 calendar year. The notice also provided that an IRA with a current favorable opinion letter need not be amended to provide the distribution rules in section 408(a)(6) and (b)(3), as amended, until further notice.

Required Distributions

Minimum distributions for calendar years 1985 and 1986 will not be required to be made from qualified plans and IRAs by December 31, 1986, but instead such 1985 and 1986 distributions (plus, except in the case of an individual with a required beginning date of April 1, 1988, the minimum distribution required for calendar year 1987) will be required to be made by December 31, 1987.

Regulations on minimum distributions will be published by March 1, 1987. The regulations will provide specific guidance for calculating the amount of the minimum distributions required to be made by December 31, 1987 for calendar years 1985, 1986 and 1987. Further, distributions from qualified plans or IRAs made in 1985 or 1986 (except to the extent rolled over to another plan or IRA) with respect to taxpayers for whom minimum distributions are required for such years will be credited towards the minimum distributions required to be made by December 31, 1987.

Elections Under section 242(b) of TEFRA

Distributions required to be made under a designation permitted by the transitional rules contained in section 242(b) of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) are not affected by this notice. The amendments to section 401(a)(9) enacted by TEFRA were retroactively repealed by the TRA of 1984, but the transitional rule election contained in section 242(b) of TEFRA was preserved. This transitional rule provides that a designation of a method of distribution may have been made before January 1, 1984 with respect to distributions from a qualified plan and that distributions made under such a designation will not cause the plan to be disqualified under section 401(a)(9) as amended. Notice 83–23, 1983–2 C.B. 418 provides guidance for distributions permitted by this transitional rule and the requirements with respect to such distributions. Failure to make any distribution of an amount specified at the time specified under the method of distribution provided in a designation under section 242(b) of TEFRA will be treated as a change in the designation and, thus, a revocation of the designation.

IRA Amendments

A sponsor of a master of prototype IRA with an opinion letter issued on or before December 31, 1985 need not amend to provide for the distribution rules in sections 408(a)(6) and (b)(3), as amended, until further notice.

Reliance

The guidance in this Notice may be relied upon to comply with sections 401(a)(9), 408(a)(6) and 408(b)(3), as amended, with respect to distributions for the 1985 and 1986 calendar years.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Lobbying by Public Charities

EE–154–78

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to lobbying expenditures by certain tax exempt public charities that are described in section 501(c)(3) of the Internal Revenue Code of 1954. Changes to the applicable tax laws were made by the Tax Reform Act of 1976. The regulations will provide the organizations the guidance needed to comply with the Act, and will primarily affect organizations electing the expenditure test under section 501(h).

DATES: Written comments and requests for a public hearing must be delivered or mailed by February 3, 1987. The amendments to parts 7, 20, 25, and 56 are proposed to be effective for taxable years beginning after December 31, 1976. Amendments to §§1.170A–1, 1.501(c)(3)–1, 1.501(c)(4)–1, 1.6033–2, and §53.4945–2(a) are also proposed to be effective for taxable years beginning after December 31, 1976. Section 1.504–1 is proposed to be effective October 5, 1976. Section 1.504–2 and the amendments to §§53.4945–2(d)(1) are proposed to be effective February 3, 1987.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue,
Attention: CC:LR:T:EE–154–78, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Paul G. Accettura of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention:
CC:LR:T:EE–154–78, telephone 202–566–3544 (not a toll-free call).

SUPPLEMENTARY INFORMATION: BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1), Temporary Income Tax Regulations under the Tax Reform Act of 1976 (26 CFR Part 7), Estate Tax Regulations (26 CFR Part 20), Gift Tax Regulations (26 CFR Part 25). Foundation and Similar Excise Taxes (26 CFR Part 53), and Public Charity Excise Taxes (26 CFR part 56), under sections 170, 501(c)(3), 501(c)(4), 504, 2055, 2522, 4911, 4945, 6001, 6011, and 6033 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 1307 of the Tax Reform Act of 1976 (90 Stat. 1720) and are to be issued under the authority contained in sections 501(h)(6), 504(b), 4911(f)(3) and 7805 of the Internal Revenue Code of 1954 (90 Stat. 1721, 1722, 1726, 68A Stat. 917; 26 U.S.C. 501(h)(6), 504(b), 4911(f)(3), 7805).

PRIOR LAW

A publicly supported charity is not an organization described in section 501(c)(3) ("a section 501(c)(3) organization") unless any lobbying it does is limited to an insubstantial part of its activities. If it is determined that a substantial part of an organization's activities consists of attempts to influence legislation, the public charity will lose its tax-exempt status. Before the passage of the Tax Reform Act of 1976, there was uncertainty about what constituted a "substantial part" of an organization's activities. Congress was aware that the loss of tax exemption could constitute a severe blow to an organization or could in some cases, have relatively little effect. This uncertain effect could tend to discourage enforcement. Further, Congress was aware of the belief that the vague standards of the substantial part test tended to encourage subjective and selective enforcement.

EXPENDITURE TEST

Under sections 501(h) and 4911, added by section 1307 of the Tax Reform Act of 1976, certain section 501(c)(3) organizations may elect to spend up to a certain percentage of their "exempt purpose expenditures" to influence legislation without violating section 501(c)(3). If an organization elects the "expenditure test" of sections 501(h) and 4911, specific limits on lobbying expenditures apply. Separate limits, the "lobbying nontaxable amount" and the "grass roots nontaxable amount," are established for all lobbying expenditures and for grass roots lobbying expenditures, respectively. A 25 percent excise tax is imposed on the greater of the amount by which an organization's lobbying expenditures exceed its lobbying nontaxable amount or the amount by which its grass roots expenditures exceed its grass roots nontaxable amount. Additionally, "ceiling amounts" equal to 150 percent of the lobbying nontaxable amount and 150 percent of the grass roots lobbying nontaxable amount are established. If an organization's lobbying expenditures or grass roots expenditures normally exceed the corresponding ceiling amount, the organization will cease to be described in section 501(c)(3) and therefore will cease to be exempt from tax.

DENIAL OF DEDUCTION FOR OUT-OF-POCKET EXPENDITURES IN CONNECTION WITH LOBBYING

Code section 170 provides income tax rules governing the deductibility of charitable contributions made to public charities and certain other organizations, including churches and church related organizations. Under income tax regulations that are substantially unchanged since 1958, no deduction is allowed for expenditures for the "promotion or defeat of legislation" including out-of-pocket expenditures incurred in connection with lobbying on behalf of organizations referred to above.

Section 1307(c) of the Tax Reform Act of 1976 ("Act") added Code section 170(f)(6). That section denies a deduction for out-of-pocket expenditures made in connection with lobbying on behalf of a charitable organization, but contains a parenthetical exclusion relating to churches or church-related organizations ("Disqualified organizations"). The parenthetical exclusion in that section is consistent with Congressional intent that the rules in section 1307 of the Act not apply to disqualified organizations. *See e.g.*, S. Rep. No. 938 Part 2, 94th Cong., 2d Sess. (1976) 84, reprinted in 1976–3 C.B. Vol. 3 at 726. Accordingly, these proposed regulations do not construe the parenthetical language of section 170(f)(6) to permit a deduction for out-of-pocket expenditures made in connection with lobbying on behalf of a disqualified organization. Instead, the proposed regulations provide that out-of-pocket lobbying expenditures incurred on behalf of disqualified organizations are governed by prior law as if section 1307 of the Act had not been enacted. Thus, the proposed regulations do not affect the denial of deductibility, under present regulations, for out-of-pocket expenditures made in connection with lobbying on behalf of any organization other than an eligible organization.

ALLOCATIONS BETWEEN LOBBYING AND OTHER PURPOSES

Where an activity of an organization covered by these proposed regulations includes both lobbying and other purposes, the proposed regulations provide several specific rules. Section 56.4911-2(c)(1) provides that if any part of an advertisement constitutes grass roots lobbying, the entire amount expended for, or in connection with, the advertisement constitutes a grass roots expenditure. Section 56.4911-2(d)(2) provides that an expenditure that is both a fund raising expenditure and an expenditure for grass roots lobbying will be considered an expenditure for grass roots lobbying in full. However, if one of these special rules does not apply, §56.4911-2(d)(1) provides that an activity involving both lobbying and other purposes will require an allocation, based on all the facts and circumstances, between that part of the expenditure which is treated as a lobbying expenditure and that part which is treated as a nonlobbying expenditure. The Internal Revenue Service specifically requests comments on suggested factors to be taken into account in administering the facts and circumstances allocation rules of §56.4911-2(d)(1).

MAKING AVAILABLE THE RESULTS OF NONPARTISAN ANALYSIS, STUDY, OR RESEARCH

Code section 4911(d)(2)(A) provides that the term "influencing legislation" does not include making available the results of nonpartisan analysis, study, or research. These proposed regulations construe nonpartisan analysis, study, or research by cross-reference to §53.4945-2(d)(1) (relating to a similar exception to the private foundation rules regarding lobbying). In addition, this document proposes to amend §53.4945-2(d)(1)(iv) (relating to making available the results of nonpartisan analysis, study, or research) to provide that the exception does not apply if the method of distribution favors those persons interested solely in one side of a particular issue. This corresponds to the existing requirement that the distribution may not be limited to persons on one side of an issue and is intended to promote broad and equitable distribution of the analysis, study, or research, to all interested persons. The proposed amendment to §53.4945-2(d)(1) has a proposed effective date of ninety days after publication of this notice in the Federal Register.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; PAPERWORK REDUCTION ACT OF 1980

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

SUPERSESSION

These regulations, when published in final form in the Federal Register, will supersede §7.0(c)(4) of the Temporary Income Tax Regulations under the Tax Reform Act of 1976.

DRAFTING INFORMATION

The principal author of these proposed regulations was George Baker of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel. Other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

A new Part 56, Public Charity Excise Taxes, is proposed to be added to Title 26 of the Code of Federal Regulations, and amendments to 26 CFR Parts 1, 7, 20, 25, and 53 are proposed as follows:

INCOME TAX REGULATIONS
[26 CFR Part 1]

Paragraph 1. The authority citation for part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 1.504-1 and 1.504-2 also issued under 26 U.S.C. 504(b).

Par. 2. Section 1.170A-1 is amended by revising paragraph (h)(5), adding a new paragraph (h)(11), and revising paragraph (i). These revised and added provisions read as follows:

§1.170A-1 Charitable, etc., contributions and gifts; allowance of deduction.

* * * * *

(h) *Exceptions and other rules.* * * *

(5) No deduction shall be allowed under section 170 for amounts paid to an organization—

(i) Which is disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation, or

(ii) Which participates in, or intervenes in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

For purpose of determining whether an organization is attempting to influence legislation or is engaging in political activities, see sections 501(c)(3), 501(h), 4911 and the regulations thereunder.

* * * * *

(11) No deduction shall be allowed under section 170 for out-of-pocket expenditures on behalf of an eligible organization (within the meaning of §1.501(h)–2(b)(1)) if the expenditure is made in connection with influencing legislation (within the meaning of section 501(c)(3) or §56.4911–2), or in connection with the payment of the organization's tax liability under section 4911. For the treatment of similar expenditures on behalf of other organizations, see paragraph (h)(6) of this section.

(i) *Effective date.* In general this section applies to contributions paid in taxable years beginning after December 31, 1969. Paragraph (h)(11), however, applies only to out-of-pocket expenditures made in taxable years beginning after December 31 1976.

Par. 3. In §1.501(c)(3)–1, paragraph (b)(3) is amended by adding the following sentence at the end:

§1.501(c)(3)–1 Organizations organized and operated for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or for the prevention of cruelty to children or animals.

* * * * *

(b) *Organizational text.* * * *

(3) *Authorization of legislative or political activities.* * * * An organization's articles will not violate the provisions of subdivision (i) of this paragraph (b)(3) even though the organization's articles expressly empower it to make the election provided for in section 501(h) with respect to influencing legislation and, only if it so elects, to make lobbying or grass roots expenditures that do not normally exceed the ceiling amounts prescribed by section 501(h)(2)(B) and (D).

* * * * *

Par. 4. In §1.501(c)(3)–1, paragraph (c)(3)(ii) is amended by adding a new sentence at the end of subdivision (ii) to read as follows:

§1.501(c)(3)–1 Organizations organized and operated for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or for the prevention of cruelty to children or animals.

* * * * *

(c) *Operational test.* * * *

(3) *"Action" organizations.* * * *

(ii) * * * An organization for which the expenditure test election of section 501(h) is in effect for a taxable year will not be considered an "action" organization by reason of this subdivision (ii) for that year if it is not denied exemption from taxation under section 501(a) by reason of section 501(h).

* * * * *

Par. 5. In §1.501(c)(4)–1, paragraph (a)(2)(ii) is amended by revising the last sentence and adding a new sentence immediately thereafter. The revised and added sentences read as follows:

§1.501(c)(4)–1 Civic organizations and local associations of employees.

(a) *Civic organizations.* * * *

(2) *Promotion of social welfare.* * * *

(ii) *Political or social activities.* * * * A social welfare organization that is not, at any time after October 4, 1976, exempt from taxation as an organization described in section 501(c)(3) may qualify under section 501(c)(4) even though it is an "action" organization described in

§1.501(c)(3)–1(c)(3)(ii) or (iv), if it otherwise qualifies under this section. For rules relating to an organization that is, after October 4, 1976, exempt from taxation as an organization described in section 501(c)(3), see section 504 and §1.504–1.

* * * * *

Par. 6. The following new §§1.501(h)–1 through 1.501(h)–3 are added in the appropriate place:

§1.501(h)–1 Application of the "expenditure test" to expenditures to influence legislation; introduction.

(a) *Scope.* Section 501(c)(3) requires, among other things, that an organization described therein be one "no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation, (except as otherwise provided in subsection (h)." This requirement is referred to as the "substantial part test." Under section 501(h), certain organizations described in section 501(c)(3) (see §1.501(h)–2) may elect the "expenditure test" described in this section, §1.501(h)–2, and §1.501(h)–3, as a substitute for the substantial part test. An organization that elects the expenditure test under section 501(h) may make expenditures for lobbying or for grass roots lobbying within limits determined under section 4911(c) (the limits being referred to as the "lobbying nontaxable amount" and "grass roots nontaxable amount") without incurring an excise tax under section 4911(a) and without loss of tax exemption as an organization described in section 501(c)(3) by reason of section 501(h). However, if an electing organization's lobbying expenditures or grass roots expenditures exceed the corresponding nontaxable amount, the organization is subject to an excise tax on the excess (see §§56.4911–1 *et seq.*). Further, under section 501(h) (see §1.501(h)–3), if an electing organization's lobbying or grass roots expenditures normally exceed its "lobbying ceiling amount" or "grass roots ceiling amount" (150 percent of the corresponding nontaxable amounts), the organization will cease to be described in section 501(c)(3). An organization that elects the expenditures test may nevertheless be determined to be an action organization under §1.501(c)(3)–1(c)(3)(iii) or (iv). An organization that does not elect the expenditure test (including an organization not eligible to elect, or disqualified from making the election) remains subject to the substantial part test. The substantial part test is applied without regard to the provisions of section 501(h) and 4911 and the regulations thereunder.

(b) *Effective date.* The provisions of §§1.501(h)–1 through 1.501(h)–3, are effective for taxable years beginning after December 31, 1976. An election made before *[the date that final regulations are published in the Federal Register]* under the provisions of §7.0(c)(4) or the instructions to Form 5768 will be effective under these regulations without again filing Form 5768.

§1.501(h)–2 Electing the expenditure test.

(a) *In general.* The election to be governed by section 501(h) may be made by an eligible organization (as described in paragraph (b) of this section) for any taxable year of the organization beginning after December 31, 1976, other than the first taxable year for which a voluntary revocation of the election is effective (see paragraph (d) of this section). The election is made by filing a completed Form 5768, Election/Revocation of Election by an Eligible Section 501(c)(3) Organization to Make Expenditures to Influence Legislation, with the appropriate Internal Revenue Service Center listed on that form. Under section 501(h)(6), the election is effective with the beginning of the taxable year in which the form is filed. For example, if an eligible organization whose taxable year is the calendar year files Form 5768 on December 31, 1979, the organization is governed by section 501(h) for its taxable year beginning January 1, 1979. Once made, the expenditure test election is effective (without again filing Form 5768) for each succeeding taxable year for which the organization is an eligible organization and which begins before a notice of revocation is filed under paragraph (d) of this section.

(b) *Organizations eligible to elect the expenditure test*—(1) *In general.* For purposes of section 501 (h) and the regulations thereunder, an organization is an eligible organization for a taxable year if, for that taxable year, it is—

(i) Described in section 501(c)(3) (determined, in any year for which an election is in effect, without regard to the substantial part test to section 501(c)(3)),

(ii) Described in section 501(h)(4) and paragraph (b)(2) of this section, and

(iii) Not a disqualified organization described in section 501(h)(5) and paragraph (b)(3) of this section.

(2) *Certain organizations listed.* An organization is described in section 501(h)(4) and this paragraph (b)(2) if it is an organization described in—

(i) Section 170(b)(1)(A)(ii) (relating to educational institutions),

(ii) Section 170(b)(1)(A)(iii) (relating to hospitals and medical research organizations),

(iii) Section 170(b)(1)(A)(iv) (relating to organizations supporting government schools),

(iv) Section 170(b)(1)(A)(vi) (relating to organizations publicly supported by charitable contributions),

(v) Section 509(a)(2) (relating to organizations publicly supported by admissions, sales, etc.), or

(vi) Section 509(a)(3) (relating to organizations supporting public charities), but only if the organization it supports is described in section 501(c)(3).

(3) *Disqualified organizations.* An organization is a disqualified organization described in section 501(h)(5) and this paragraph (b)(3) if the organization is—

(i) Described in section 170(b)(1)(A)(i) (relating to churches),

(ii) An integrated auxiliary of a church or of a convention or association of churches (see §1.6033–2(g)(5)), or

(iii) Described in section 501(c)(3) and affiliated (within the meaning of §56.4911–7) with one or more organizations described in subdivision (i) or (ii) of this paragraph (b)(3).

(4) *Other organizations ineligible to elect.* Under section 501(h)(4), certain organizations, although not disqualified organizations, are not eligible to elect the expenditure test. For example, organizations described in section 509(a)(4) are not listed in section 501(h)(4) and therefore are not eligible to elect. Similarly, private foundations (within the meaning of section 509(a)) are not eligible to elect. For the treatment of expenditures by a private foundation for the purpose of carrying on propaganda, or otherwise attempting, to influence legislation, see §53.4945–2.

(c) *New organizations.* A newly created organization may submit Form 5768 to elect the expenditure test under section 501(h) before it is determined to be an eligible organization and may submit Form 5768 at the time it submits its application for recognition of exemption (Form 1023). If the newly created organization is determined to be an eligible organization, the election will be effective under the provisions of paragraph (a) of this section, that is, with the beginning of the taxable year in which the Form 5768 is filed by the eligible organization. However, if a newly created organization is determined by the Service to be a private foundation, section 4945(d)(1) and §53.4945–2 will apply and the organization will be liable for excise taxes under section 4945 on amounts expended in attempts to influence legislation. Also, if a newly created organization is neither a private foundation (see §1.501(h)–2(b)(4)) nor a disqualified organization (see §1.501(h)–2(b)(3)), but is determined by the Service not to be an eligible organization, the organization's election will not be effective and the substantial part test will apply from the effective date of its section 501(c)(3) classification.

(d) *Voluntary revocation of expenditure test election*—(1) *Revocation effective.* An organization may voluntarily revoke an expenditure test election by filing a notice of voluntary revocation with the appropriate Internal Revenue Service Center listed on Form 5768. Under section 501(h)(6)(B), a voluntary revocation is effective with the beginning of the first taxable year after the taxable year in which the notice is filed. If an organization voluntarily revokes its election, the substantial part test of section 501(c)(3) will apply with respect to the organization's activities in attempting to influence legislation beginning with the taxable year for which the voluntary revocation is effective.

(2) *Re-election of expenditure test.* If an organization's expenditure test election is voluntarily revoked, the organization may again make the expenditure test election, effective no earlier than for the taxable year following the first taxable year for which the revocation is effective.

(3) *Example. X*, an organization whose taxable year is the calendar year, plans to voluntarily revoke its expenditure test election effective beginning with its taxable year 1985. *X* must file its notice of voluntary revocation on Form 5768 after December 31, 1983 and before January 1, 1985. If *X* files a notice of voluntary revocation on December 31, 1984, the revocation is effective beginning with its taxable year 1985. The organization may again elect the expenditure test by filing Form 5768. Under paragraph (d)(2) of this section, the election may not be made for taxable year 1985. Under paragraph (a) of this section, a new expenditure test election will be effective for taxable years beginning with taxable year 1986, if the Form 5768 is filed after December 31, 1985, and before January 1, 1987.

(e) *Involuntary revocation of expenditure test election.* If, while an election by an eligible organization is in effect, the organization ceases to be an eligible organization, its election is automatically revoked. The revocation is effective with the beginning of the first full taxable year for which it is determined that the organization is not an eligible organization. If an organization's expenditure test election is involuntarily revoked under this paragraph (e) but the organization continues to be described in section 501(c)(3), the substantial part test of section 501(c)(3) will apply with respect to the organization's activities in attempting to influence legislation beginning with the first taxable year for which the involuntary revocation is effective.

(f) *Supersession.* This section supersedes §7.0(c)(4) of the Temporary Income Tax Regulations under the Tax Reform Act of 1976, effective [the date that final regulations are published in the Federal Register.]

1.501(h)–3 Lobbying or grass roots expenditures normally in excess of ceiling amount.

(a) *Scope.* This section provides rules under section 501(h) for determining whether an organization that has elected the expenditure test and that is not a member of an affiliated group of organizations (as defined in §56.4911–7(e)) either normally makes lobbying expenditures in excess of its lobbying ceiling amount or normally makes grass roots expenditures in excess of its grass roots ceiling amount. Under section 501(h) and this section, an organization that has elected the expenditure test and that normally makes expenditures in excess of the corresponding ceiling amount will cease to be exempt from tax under section 501(a) as an organization described in section 501(c)(3). For similar rules relating to members of an affiliated group of organizations, see §56.4911–9.

(b) *Loss of exemption*—(1) *In general.* Under section 501(h)(1), an organization that has elected the expenditure test shall be denied exemption from taxation under section 501(a) as an organization described in section 501(c)(3) for the taxable year following a determination year if—

(i) The sum of the organization's lobbying expenditures for the base years exceeds 150 percent of the sum of its lobbying nontaxable amounts for the base years, or

(ii) The sum of the organization's grass roots expenditures for its base years exceeds 150 percent of the sum of its grass roots nontaxable amounts for the base years.

The organization thereafter shall not be exempt from tax under section 501(a) as an organization described in section 501(c)(3) unless, pursuant to paragraph (d) of this section, the organization reapplies for recognition of exemption and is recognized as exempt.

(2) *Special exception for organization's first election.* For the first, second, or third consecutive determination year for which an organization's first expenditure test election is in effect, no determination is required under paragraph (b)(1) of this section, and the organization will not be denied exemption from tax by reason of section 501(h) and this section if, taking into account as base years only those years for which the expenditure test election is in effect—

(i) The sum of the organization's lobbying expenditures for such base years does not exceed 150 percent of the sum of its lobbying nontaxable amounts for the same base years, and

(ii) The sum of the organization's grass roots expenditures for those base years does not exceed 150 percent of the sum of its grass roots nontaxable amounts for such base years.

If an organization does not satisfy the requirements of this paragraph (b)(2), paragraph (b)(1) of this section will apply.

(c) *Definitions.* For purposes of this section—

(1) The term "lobbying expenditures" means lobbying expenditures as defined in section 4911(c)(1) or section 4911(f)(4)(A) and §56.4911–2(a).

(2) The term "lobbying nontaxable amount" is defined in §56.4911–1(c)(1).

(3) An organization's "lobbying ceiling amount" is 150 percent of the organization's lobbying nontaxable amount for a taxable year.

(4) The term "grass roots expenditures" means grass roots expenditures as defined in section 4911(c)(3) or section 4911(f)(4)(A) and §56.4911–2(c).

(5) The term "grass roots nontaxable amount" is defined in §56.4911–1(c)(2).

(6) An organization's "grass roots ceiling amount" is 150 percent of the organization's grass roots nontaxable amount for a taxable year.

(7) In general, the term "base years" means the determination year and the three taxable years immediately preceding the determination year. The base years, however, do not include any taxable year preceding the taxable year for which the organization is first treated as described in section 501(c)(3).

(8) A taxable year is a "determination year" if it is a year for which the expenditure test election is in effect, other than the taxable year for which the organization is first treated as described in section 501(c)(3).

(d) *Reapplication for recognition of exemption*—

(1) *Time of application.* An organization that is denied exemption from taxation under section 501(a) by reason of section 501(h) and this section may apply on Form 1023 for recognition of exemption as an organization described in section 501(c)(3) for any taxable year following the first taxable year for which exemption is so denied. See subparagraphs (2) and (3) of this paragraph (d) for material to be included with an application described in the preceding sentence.

(2) *Section 501(h) calculation.* An application described in paragraph (d)(1) of this section must demonstrate that the organization would not be denied exemption from taxation under section 501(a) by reason of section 501(h) if the expenditure test election had been in effect for all of its last taxable year ending before the application is made by providing the calculations, described either in paragraph (b)(1)(i) and (ii) of this section or in §56.4911–9(b), that would have applied to the organization for that year.

(3) *Operations for disqualifying.* An application described in paragraph (d)(1) of this section must include information that demonstrates to the satisfaction of the Commissioner that the organization will not knowingly operate in a manner that would disqualify the organization for tax exemption under section 501(c)(3) by reason of attempting to influence legislation.

(4) *Re-election of expenditure test.* If an organization is denied exemption from tax for a taxable year by reason of section 501(h) and this section, and thereafter is again recognized as an organization described in section 501(c)(3) pursuant to this paragraph (d), it may again elect the expenditure test under section 501(h) in accordance with §1.501(h)–2(a).

(e) *Examples.* The provisions of this section are illustrated by the following examples, which also illustrate the operation of the tax imposed by section 4911.

Example (1). (1) The following table contains information used in this example concerning organization *X*.

Year	Exempt Purpose Expenditures (EPE)	Calculation	Lobbying Nontaxable Amount (LNTA)	Lobbying Expenditures (LE)
1979	$400,000	(20% of $400,000 =)	$80,000	$100,000
1980	$300,000	(20% of $300,000 =)	$60,000	$100,000
1981	$600,000	(20% of $500,000 + 15% of $100,000 =)	$115,000	$120,000
1982	$500,000	(20% of $500,000 =)	$100,000	$100,000
Totals:	$1,800,000		$355,000	$420,000

(2) Organization *X*, whose taxable year is the calendar year, was organized in 1971. *X* first made the expenditure test election under section 501(h) effective for taxable years beginning with 1979 and has not revoked the election. None of *X*'s lobbying expenditures for its taxable years 1979 through 1982 are grass roots expenditures. Under section 4911(a) and §56.4911–1(a), *X* must determine for each year for which the expenditure test election is effective whether it is liable for the 25 percent excise tax imposed by

section 4911(a) on excess lobbying expenditures. *X* is liable for this tax for each of its taxable years 1979, 1980 and 1981, because in each year its lobbying expenditures exceeded its lobbying nontaxable amount for the year. For 1979, the tax imposed by section 4911(a) is $5,000 [25% × ($100,000 − $80,000) = $5,000]. For 1980, the tax is $10,000. For 1981, the tax is $1,250.

(3) The taxable years 1979 through 1981 are all determination years under paragraph (c)(8) of this section. On its annual return for determination year 1979, the first year of its first election, *X* can demonstrate, under paragraph (b)(2) of this section, that its lobbying expenditures during 1979 ($100,000) do not exceed 150 percent of its lobbying nontaxable amount for 1979 ($120,000). For determination year 1980, under paragraph (b)(2), *X* can demonstrate that the sum of its lobbying expenditures for 1979 and 1980 ($200,000) does not exceed 150 percent of the sum of its lobbying nontaxable amounts for 1979 and 1980 ($210,000). For 1981, under paragraph (b)(2), *X* can demonstrate that the sum of its lobbying expenditures for 1979, 1980, and 1981 ($320,000) does not exceed 150 percent of the sum of its lobbying nontaxable amounts for 1979, 1980, and 1981 ($382,500). For each of the determination years 1979, 1980, and 1981, the first three years of its first election, *X* satisfies the requirements of paragraph (b)(2). Accordingly, no determination under paragraph (b)(1) of this section is required for those years, and *X* is not denied tax exemption by reason of section 501(h).

(4) Under paragraph (b)(1) of this section, *X* must determine for its determination year 1982 whether it has normally made lobbying expenditures in excess of the lobbying ceiling amount. This determination takes into account expenditures in base years 1979 through 1982. The sum of *X*'s lobbying expenditures for the base years ($420,000) does not exceed 150% of the sum of the lobbying nontaxable amounts for the base years (150% × $355 000 = $532,500). Accordingly, *X* is not denied tax exemption by reason of section 501(h).

Example (2). (1) The following table contains information used in this example concerning *W*.

Year	Exempt Purpose Expenditures (EPE)	Calculation	Lobbying Nontaxable Amount (LNTA)	Lobbying Expenditures (LF)	Grass roots Nontaxable Amount (25% of LNTA)	Grass roots Expenditures
1979	$700,000	(20% of $500,000 + 15% of $200,000 =)	$130,000	$120,000	$32,500	$30,000
1980	$800,000	(20% of $500,000 + 15% of $300,000 =)	$145,000	$100,000	$36,250	$60,000
1981	$800,000	(20% of $500,000 + 15% of $300,000 =)	$145,000	$100,000	$36,250	$65,000
1982	$900,000	(20% of $500,000 + 15% of $400,000 =)	$160,000	$150,000	$40,000	$65,000
Totals:	$3,200,000		$580,000	$470,000	$145,000	$220,000

(2) Organization *W*, whose taxable year is the calendar year made the expenditure test election under section 501(h) effective for taxable years beginning with 1979 and has not revoked the election. *W* has been treated as an organization described in section 501(c)(3) for each of its taxable years beginning with its taxable year 1974.

(3) Under section 4911(a) and §56.4911–1(a), *W* must determine for each year for which the expenditure test election is effective whether it is liable for the 25 percent excise tax imposed by section 4911(a) on excess lobbying expenditures. In 1980, 1981, and 1982, *W* has excess lobbying expenditures because its grass roots expenditures in each of those years exceeded its grass roots nontaxable amount for the year. Therefore, *W* is liable for the excise tax under section 4911(a) for those years. The tax imposed by section 4911(a) for 1980 is $5,937.50 [25% × ($60,000 − $36,250) = $5,937.50]. For 1981, the tax is $7,187.50. For 1982, the tax is $6,250.

(4) On its annual return for its determination years 1979, 1980, and 1981, the first three years of its first election, *W* demonstrates that it satisfies the requirements of paragraph (b)(2) of this section. Accordingly, no determination under paragraph (b)(1) of this section is required for those years, and *W* is not denied tax exemption by reason of section 501(h).

(5) On its annual return for its determination year 1982, *W* must determine under paragraph (b)(1) whether it has normally made lobbying expenditures or grass roots expenditures in excess of the corresponding ceiling amount. This determination takes into account expenditures in base years 1979 through 1982. The sum of *W*'s lobbying expenditures for the base years ($470,000) does not exceed 150% of the sum of *W*'s lobbying nontaxable amounts for those years (150% × $580,000 = $870,000). However, the sum of W's grass roots expenditures for the base years ($220,000) does exceed 150% of the sum of *W*'s grass roots nontaxable amounts for those years (150% × $145,000 = $217,500). Under section 501(h), *W* is denied tax exemption under section 501(a) as an organization described in section 501(c)(3) for its taxable year 1983. For its taxable year 1984, and any taxable year thereafter, *W* is exempt from tax as an organization described in section 501(c)(3) only if *W* applies for recognition of its exempt status under paragraph (d) of this section and is recognized as exempt from tax.

Example (3). (1) The following table contains information used in this example concerning organization *Y*.

Year	Exempt Purpose Expenditures (EPE)	Calculation	Lobbying Nontaxable Amount (LNTA)	Lobbying Expenditures (LF)	Grass roots Nontaxable Amount (25% of LNTA)	Grass roots Expenditures
1977	$700,000	(20% of $500,000 + 15% of $200,000 =)	$130,000	$182,000	$32,500	$30,000
1978	$800,000	(20% of $500,000 + 15% of $300,000 =)	$145,000	$224,750	$36,250	$35,000
Subtotal:	$1,500,000		$275,000	$406,750	$68,750	$65,000
1979	$900,000	(20% of $500,000 + 15% of $400,000 =)	$160,000	$246,000	$40,000	$50,000
Total:	$2,400,000		$435,000	$670,750	$108,750	$115,000

(2) Organization *Y*, whose taxable year is the calendar year, was first treated as an organization described in section 501(c)(3) on February 1, 1977. Y made the expenditure test election under section 501(h) effective for taxable years beginning with 1977 and has not revoked the election.

(3) For 1977, *Y* has excess lobbying expenditures of $52,000 because its lobbying expenditures ($182,000) exceed its lobbying nontaxable amount ($130,000) for the taxable year. Accordingly, *Y* is liable for the 25 percent excise tax imposed by section 4911(a). The amount of the tax is $13,000 [25% × $52,000 = $13,000].

(4) For 1978, *Y* again has excess lobbying expenditures and is again liable for the 25 percent excise tax imposed by section 4911(a). The amount of the tax is $19,937.50 [25% × ($224,750 − $145,000) = $19,937.50].

(5) For 1979, *Y's* lobbying expenditures ($264,000) exceed its lobbying nontaxable amount ($160,000) by $104,000, and its grass roots expenditures ($50,000) exceed its grass roots nontaxable amount ($40,000) by $10,000. Under §56.4911–1(b), *Y's* excess lobbying expenditures are the greater of $104,000 or $10,000. The amount of the tax, therefore, is $26,000 [25% × $104,000 = $26,000].

(6) Under paragrah (c)(8) of this section, 1977 is not a determination year because it is the first year for which the organization is treated as described in section 501(c)(3). For 1977, *Y* need not determine whether it has normally made lobbying expenditures or grass roots expenditures in excess of the corresponding ceiling amount for purposes of determining whether it is denied exemption under section 501(h) for its taxable year 1978.

(7) For determination year 1978, *Y* must determine whether it has normally made lobbying or grass roots expenditures in excess of the corresponding ceiling amount, taking into account expenditures for the base years 1977 and 1978. For *Y*, the determination under paragraph (b)(2) of this section considers the same base years as the determination under paragraph (b)(1) of this section and is, therefore, redundant. Accordingly, *Y* proceeds to determine, under (b)(1), whether it is denied exemption. *Y's* grass roots expenditures for 1977 and 1978 ($65,000) did not exceed 150 percent of the sum of its grass roots nontaxable amounts for those years ($103,125). *Y's* lobbying expenditures for 1977 and 1978 ($406,750) did not exceed 150% of its lobbying nontaxable amount for those years (150% × $275,000 = $412,500). Therefore, *Y* is not denied tax exemption under section 501(h) for its taxable year 1979.

(8) For determination year 1979, the sum of *Y's* grass roots expenditures in base years 1977, 1978, and 1979 does not exceed 150 percent of its grass roots nontaxable amount (calculation omitted). However, the sum of *Y's* lobbying expenditures for the base years ($670,750) does exceed 150% of the sum of the lobbying nontaxable amounts for those years (150% × $435,000 = $652,500). Since *Y* was not described in section 501(c)(3) prior to 1977, ony the years 1977, 1978, and 1979 may be considered in determining whether *Y* has normally made lobbying expenditures in excess of its lobbying ceiling. Therefore, *Y* determines that it has normally made lobbying expenditures in excess of its lobbying ceiling. Under section 501(h), *Y* is denied tax exemption under section 501(a) as an organization described in section 501(c)(3) for its taxable year 1980. For its taxable year 1981, and any taxable year thereafter, *Y* is exempt from tax as an organization described in section 501(c)(3) only if *Y* applies for recognition of its exempt status under paragraph (d) of this section and is recognized as exempt from tax.

Par. 7. Existing section 1.504–1 is removed and new §§1.504–1 and 1.504–2, to read as follows, are added in the appropriate place:

§1.504–1 Attempts to influence legislation; certain organizations formerly described in section 501(c)(3) denied exemption.

Section 504(a) and this section apply to an organization that is exempt from taxation at any time after October 4, 1976, as an organization described in section 501(c)(3), and that ceases to be described in that section because it—

(a) Is an "action" organization, within the meaning of §1.501(c)(3)–1(c)(3)(ii) or (iv), on account of activities occurring after October 4, 1976, or

(b) Is denied exemption under the provisions of section 501(h) (see §1.501(h)–3 or §56.4911–9).

This section does not apply, however, to an organization that was described in section 501(h)(5) and §1.501(h)–2(b)(3) (relating generally to churches) for its taxable year immediately preceding the first taxable year for which it is no longer an organization described in section 501(c)(3). An organization to which section 504(a) and this section apply shall not be treated as described in section 501(c)(4) at any time after the organization ceases to be described in section 501(c)(3). Further, an organization denied treatment as an organization described in section 501(c)(4) under this section may not be treated as an organization described in section 501(c) other than as an organization described in section 501(c)(3). For rules relating to recognition of exemption after exemption is denied under section 501(h), see §1.501(h)–3(d).

§1.504–2 Certain transfers made to avoid section 504(a).

(a) *Scope.* Under section 504(b), a transfer described in paragraph (b) or (c) of this section to an organization exempt from tax under section 501(a) may result in loss of exemption by the transferee unless the Commissioner determines, under paragraph (e) of this section, that the original transfer did not effect an avoidance of section 504(a). For purposes of this section, the term "transfer" includes any use by, or for the benefit of, the recipient of the transfer, but does not include any transfer made for adequate and full consideration.

(b) *Transferor and transferee commonly controlled—(1) Loss of exemption.* A transfer is described in this paragraph (b) if it is described in paragraph (b)(2) through (b)(6). The transferee of a transfer described in this paragraph will cease to be exempt from tax under section 501(a), unless the provisions of paragraph (e) of this section apply.

(2) *Transferor organization.* A transfer is described in this paragraph (b)(2) only if it is from an organization that—

(i) Is or was described in section 501(c)(3), but not in section 501(h)(5), and

(ii) Is determined to be an "action" organization (as defined in §1.501(c)(3)–1(c)(3)(ii) or (iv)), or is denied exemption from tax by reason of section 501(h) and either §1.501(h)–3 or §56.4911–9.

(3) *Transferor and transferee commonly controlled.* A transfer is described in this paragraph (b)(3) only if, at the time of the transfer or at any time during the transferee's ten taxable years following the year in which the transfer was made, the transferee is controlled (directly or indirectly), as defined in paragraph (f) of this section, by the same person or persons who control the transferor.

(4) *Time of transfer.* A transfer is described in this paragraph (b)(4) only if the transfer is made after February 3, 1987, and—

(i) After the date that is 24 months before the earliest of the effective date of the determination under section 501(h) that the transferor is not exempt, the effective date of the Commissioner's determination that the transferor is an "action" organization (as defined in §1.501(c)(3)(ii) or (iv)), or the date on which the Commissioner proposes to treat it as no longer described in section 501(c)(3), and

(ii) Before the transferor again is recognized as an organization described in section 501(c)(3).

(5) *Transferee.* A transfer is described in this paragraph (b)(5) only if the transferee is exempt from tax under section 501(a) but the transferee is neither—

(i) An organization described in section 501(c)(3), nor

(ii) An organization described in section 401(a) to which the transferor contributes as an employer.

(6) *Amount of transfer.* A transfer is described in this paragraph (b)(6) only if the amount of the transfer exceeds the lesser of 30 percent of the transferor's assets, or 50 percent of the transferee's assets, computed immediately before the transfer. For purposes of this paragraph (b)(6)—

(i) The amount of a transfer by a transferor is the sum of the amounts transferred to any number of transferees in any number of transfers, all of which are described in paragraphs (b)(2) through (b)(5) of this section, and the time of the transfer is the time of the first transfer so taken into account; and

(ii) The amount of a transfer to a transferee is the sum of the amounts transferred by a transferor to the transferee in any number of transfers, all of which are described in paragraphs (b)(2) through (b)(5) of this section, and the time of the transfer is the time of the first transfer so taken into account.

(c) *Other transfers—(1) Transfers included.* A transfer is described in this paragraph (c) if it would be described in paragraph (b) of this section except that either—

(i) The amount of the transfer is less than the amount determined in paragraph (b)(6) of this section, or

(ii) The transferor and transferee are not commonly controlled as described in paragraph (b)(3) of this section, or

(iii) The transferee is an organization described in sections 501(c)(3) and 501(h)(4).

(2) *Loss of exemption.* The transferee of a transfer described in this paragraph (c) will cease to be exempt under section 501(a) if the Commissioner determines on all the facts and circumstances that the transfer effected an avoidance of section 504(a). In determining whether a transfer effected an avoidance of section 504(a), the Commissioner may consider whether the transferee engages, or has engaged, in attempts to influence legislation and may also consider any of the factors enumerated in paragraph (e) of this section.

(d) *Date of loss of exempt status.* A transferee of a transfer described in paragraph (b)(c)(1)(ii), or (c)(1)(iii) of this section will cease to be exempt from tax under section 501(a) on the date that all the requirements of paragraph (b), (c)(1)(ii), or (c)(1)(iii) (other than the determination by the Commissioner) are satisfied. A transferee of a transfer described in paragraph (c)(1)(i) of this section will cease to be exempt from tax under section 501(a) on the date of the last transfer preceding notification of the transferee that the Commissioner proposes to treat the transferee as other than an exempt organization.

(e) *Transfers not in avoidance of section 504(a).* Notwithstanding paragraph (b) of this section, if, based on all the facts and circumstances, the Commissioner determines that a transfer described in paragraph (b) did not effect an avoidance of section 504(a), the transferee will not be denied exemption from tax by reason of section 504(b) and this section. In making the determination called for in the preceding sentence, the Commissioner may consider all relevant factors including:

(1) Whether enforceable and effective conditions on the transfer preclude use of any of the transferred assets for any purpose that, if it were a substantial part of an organization's activities, would be inconsistent with exemption as an organization described in section 501(c)(3);

(2) In the absence of conditions described in paragraph (e)(1) of this section, whether the transferred assets are used exclusively for purposes that are consistent with the transferor's exemption as an organization described in section 501(c)(3);

(3) Whether the assets transferred would be described in §53.4942(a)–2(c)(3) before, as well as after, the transfer if both the transferor and transferee were private foundations;

(4) Whether and to what extent the transfer would satisfy the provisions of §1.507–2(a)(7) and (8) if the transferor were a private foundation;

(5) Whether all of the transferred assets have been expanded during a period when the transferee was not controlled (directly or indirectly) by the same person or persons who controlled the transferor; and

(6) Whether the entire amount of the transferred assets were in turn transferred, before the close of the transferee's taxable year following the taxable year in which the transferred assets were received, to one or more organizations described in section 507(b)(1)(A) none of which controlled (directly or indirectly) by the same persons who control either the original transferor or transferee.

(f) *Control.* For purposes of section 504 and the regulations thereunder—

(1) The transferor will be presumed to control any organization with which it is affiliated within the meaning of §56.4911–7(a), or would be if both organizations were described in section 501(c)(3), and

(2) The transferee will be treated as controlled (directly or indirectly) by the same person or persons who control the transferor if the transferee would be treated as controlled under section 53.4942(a)–3(a)(3), for which purpose the transferor shall be treated as a private foundation.

Par. 8. Section 1.6033–2 is amended by adding paragraph (a)(2)(ii)(*k*). This added provision reads as follows:

§1.6033–2 Returns by exempt organizations; taxable years beginning after December 31, 1969.

(a) *In general.* * * *

(2) * * *

(ii) * * *

(*k*) Its lobbying expenditures, grass roots expenditures, exempt purpose expenditures, lobbying nontaxable amount, and grass roots nontaxable amount for the taxable year and for prior taxable years that are base years (within the meaning of §1.501(h)–3(c)(7)), if the organization has an election under section 501(h) in effect for the taxable year. An organization that is a member of an affiliated group of organizations (as defined in §56.4911–7(e)) but that is not a member of a limited affiliated group (as defined in §56.4911–10(b)) shall report this information based on the expenditures of all members of the group during the taxable year of the group that ends with or within the member's taxable year and for prior taxable years of the group that are base years (within the meaning of §56.4911–9(b)). For additional information required to be furnished by members of an affiliated group of organizations, and by controlling members in a limited affiliated group, see §§56.4911–9(d) and 56.4911–10(f)(1), respectively.

TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

[26 CFR Part 7]

Par. 9. The authority citation for part 7 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 10. In §7.0, paragraph (c)(4) is removed and paragraph (d) is amended by removing ", (c)(4)" from the first parenthetical phrase in the first sentence.

ESTATE TAX REGULATIONS

[26 CFR Part 20]

Par. 11. The authority citation for part 20 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 12. Section 20.2055–1(a)(2) is revised to read as follows:

§20.2055–1 Deduction for transfers for public, charitable, and religious uses; in general.

(a) *General rule.* * * *

(2) To or for the use of any corporation or association organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and for the prevention of cruelty to children or animals), if no part of the net earnings of the corporation or association inures to the benefit of any private stockholder or individual (other than as a legitimate object of such purposes), if the organization is not disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation, and if, in the case of transfers made after December 31, 1969, it does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

* * * * *

GIFT TAX REGULATIONS

[26 CFR Part 25]

Par. 13. The authority citation for part 25 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 14. In §25.2522(a)–1, paragraph (a)(2) is revised to read as follows:

§25.2522(a)–1 Charitable and similar gifts; citizens or residents.

(a) * * *

(2) Any corporation, trust, community chest, fund, or foundation organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, including the encouragement of art and the prevention of cruelty to children or animals, if no part of the net earnings of the organization inures to the benefit of any private shareholder or individual, if it is not disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation, and if, in the case of gifts made after December 31, 1969, it does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office.

* * * * *

Par. 15. In §25.2522(a)–1, paragraph (b)(2) is revised to read as follows:

§25.2522(a)–1 Charitable and similar gifts; citizens or residents.

(b) * * *

(2) It must not be disqualified for tax exemption under section 501(c)(3) by reason of attempting to influence legislation.

* * * * *

FOUNDATION AND SIMILAR EXCISE TAXES
[26 CFR Part 53]

Par. 16. The authority citation for part 53 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

Par. 17. Section 53.4945–2 is amended as follows:

1. Paragraph (a)(5)(i) is revised to read as set forth below and paragraph (a)(5)(iii) is removed;
2. Paragraphs (a)(6) and (a)(7) are added as set forth below; and
3. In paragraph (d)(1)(iv), the last sentence is revised to read as set forth below.

§53.4945–2 Propaganda influencing legislation.

(a) *Propaganda influencing legislation, etc.* * * *

(5) *Grants to public organizations*—(i) *In general.* A grant by a private foundation to an organization described in section 509(a)(1), (2), or (3) does not constitute a taxable expenditure by the foundation under section 4945(d), other than under section 4945(d)(1), if the grant by the private foundation is not earmarked to be used for any activity described in section 4945(d)(2) or (5), is not earmarked to be used in a manner which would violate section 4945(d)(3) or (4), and there does not exist an agreement, oral or written, whereby the grantor foundation may cause the grantee to engage in any such prohibited activity or to select the recipient to which the grant is to be devoted. For purposes of this subdivision, a grant by a private foundation is earmarked if the grant is given pursuant to an agreement, oral or written, that the grant will be used for specific purposes. For the expenditure responsibility requirements with respect to organizations other than those described in section 509(a)(1), (2), or (3), see §53.4945–5. For rules for determining whether grants to public charities are taxable expenditures under section 4945(d)(1), see paragraphs (a)(6) and (a)(7) of this section.

* * * * *

(6) *Grants to public organizations that attempt to influence legislation*—(i) *In general.* A grant made by a private foundation to an organization described in section 509(a)(1), (2), or (3) (a "public charity" for purposes of paragraphs (a)(6) and (7) of this section), does not constitute a taxable expenditure under section 4945(d)(1) if it meets the requirements of this paragraph (a)(6).

(ii) *General support grant.* A general support grant by a private foundation to a public charity is not a taxable expenditure by the private foundation under section 4945(d)(1) to the extent that—

(A) The grant is not earmarked, within the meaning of §56.4911–4(f)(4), to be used in connection with an attempt to influence legislation, and

(B) The amount of the grant (as defined in paragraph (a)(6)(iv)(A) of this section)) does not exceed the greater of the amount expended by the grantee in the taxable year preceding the year of the grant or the amount budgeted for the year of the grant by the grantee for the sum of expenditures that constitute exempt purpose expenditures (within the meaning of §56.4911–4) other than lobbying expenditures (within the meaning of §56.4911–2(a)), plus expenditures for fund raising (see §56.4911–4(f)(1)).

(iii) *Specific project grant.* A grant by a private foundation to fund a specific project of a public charity is not a taxable expenditure by the foundation under section 4945(d)(1) to the extent that—

(A) The grant is not earmarked, within the meaning of §56.4911–4(f)(4), to be used in connection with an attempt to influence legislation, and

(B) The amount of the grant (as defined in paragraph (a)(6)(iv)(B) of this section) does not exceed the amount budgeted for the year of the grant by the granted organization for specific project activities that are not attempts to influence legislation.

(iv) *Special rules.* For purposes of paragraph (a)(6) of this section, the amount of a grantor's grant is the sum of—

(A) The sum of the grantor's general support grants (if any) and all specific project grants (if any) made to the same grantee for the same taxable year of the grantee, or

(B) The sum of the grantor's general support grants (if any) plus the grant for the specific project (but not grants for other specific projects, if any) made to the same grantee for the same taxable year of the grantee, plus

(C) Each grant (if any) attributed to the grantor even if made by another private foundation. For purposes of this paragraph (a)(6)(iv)(C), a grant is attributed to one private foundation (even if made by a second foundation) only if made in the same taxable year of the grantee to the same grantee under an oral or written agreement between the private foundation to which it is attributed and the other private foundation to make the grant. A grant described in the preceding sentence is counted once by each foundation.

(7) *Grants to organizations that cease to be described in 501(c)(3)—(i) Not taxable expenditure; conditions.* A grant to a public charity (as defined in paragraph (a)(6)(i) of this section) that thereafter ceases to be an organization described in section 501(c)(3) by reason of its attempts to influence legislation is not a taxable expenditure if—

(A) The grant meets the requirements of paragraph (a)(6) of this section,

(B) The grant is made before notice of the grantee organization's loss of tax exemption is given to the public,

(C) At the time the grant is made, no foundation manager (as defined in section 4946(b)(1)) of the grantor private foundation knows (or in the case of the taxes imposed by section 4945(a)(1) and (b)(1), has reason to know) that the grantee organization's ruling or determination letter has been or will be revoked, or is aware of the activities which would provide the basis for the revocation, and

(D) No disqualified person with respect to the private foundation, during the grantee's taxable year in which the grant is made, or the preceding or succeeding taxable year, controls, in whole or in part, the grantee organization's attempts to influence legislation.

(ii) *Examples.* The provisions of paragraphs (a)(6) and (a)(7) of this section are illustrated by the following examples:

Example (1). W, a private foundation, makes a general purpose grant to *Z*, a public charity described in section 509(a)(1). As an insubstantial portion of its activities, *Z* makes some attempts to influence the State legislature with regard to changes in the mental health laws. The amount of *Z*'s nonlobbying expenditures for the taxable year prior to the grant, as well as the amount budgeted for those expenditures for the taxable year of the grant, far exceed the amount of *W*'s general purpose grant. The use of the grant is not earmarked by *W* to be used in a manner which would violate section 4945(d)(1). In addition, there is no oral or written agreement whereby *W* may influence the choice by *Z* of the activity or recipient to which the grant is to be devoted. Even if the grant is subsequently devoted by *Z* to its legislative activities the grant by *W* is not a taxable expenditure under section 4945(d).

Example (2). *X*, a private foundation, makes a specific project grant to *Y* University for the purpose of conducting research on the potential environmental effects of certain pesticides. *X* does not earmark the grant for any purpose which would violate section 4945(d)(1) and there is no oral or written agreement or understanding whereby *X* may cause *Y* to engage in any activity described in section 4945(d)(1), (2), or (5), or to select any recipient to which the grant may be devoted. Further, *X* determines that *Y*'s budget for the project is reasonable and does not contain any amount for attempts to influence legislation. *Y* uses most of the funds for the research project; however, on its own volition, *Y* expends a portion of the grant funds to send a representative to testify at Congressional hearings on a specific bill proposing certain pesticide control measures. The portion of the grant funds expended with respect to the Congressional hearings is not treated as a taxable expenditure by *X* under section 4945(d)(1).

Example (3). *M*, a private foundation, makes a specific project grant of $150,000 to *P*, a public charity described in section 509(a)(1). In requesting the grant from *M*, *P* stated that the total budgeted cost of the project is $200,000, and that of this amount $20,000 is allocated to attempts to influence legislation related to the project. In making the grant, *M* did not earmark any of the funds from the grant to be used for attempts to influence legislation. *M*'s grant of $150,000 to *P* will not constitute a taxable expenditure under section 4945(d)(1) because *M* did not earmark any of the funds for attempts to influence legislation and because the amount of its grant ($150,000) does not exceed the amount allocated to specific project activities that are not attempts to influence legislation ($200,000 – $20,000 = $180,000).

Example (4). Assume the same facts as in example (3), except that *M*'s grant letter to *P* provides that *M* has the right to renegotiate the terms of the grant if there is a substantial deviation from those terms. This additional fact does not make *M*'s grant a taxable expenditure under section 4945(d)(1).

Example (5). Assume the same facts as in example (3), except that *M* made a specific project grant of $200,000 to *P*. Part of *M*'s grant of $200,000 will constitute a taxable expenditure under section 4945(d)(1). The amount of the grant ($200,000) exceeds by $20,000 the amount *P* allocated to specific project activities that are not attempts to influence legislation ($180,000). *M* has made a taxable expenditure of $20,000.

Example (6). Assume the same facts as example (3), except that *M* made a specific project grant of $180,000, and received from *P* an enforceable commitment that grant funds would not be used in connection with attempts to influence legislation. *M*'s grant is not a taxable expenditure under section 4945(d)(1).

Example (7). Assume the same facts as in example (3) except that *M* directed *P* to hire *A*, an individual, to expend $20,000 from the grant to engage in direct lobbying (within the meaning of §56.4911–2(b)) and grass roots lobbying (within the meaning of §56.4911–2(c)). *P* does not expend any other grant funds for lobbying activities. The $20,000 that is earmarked for direct lobbying and grass roots lobbying is a taxable expenditure under section 4945(d)(1).

Example (8). *R*, a public charity described in section 509(a)(1), requested *N*, a private foundation, to make a general purpose grant to it to aid *R* in carrying out its exempt purpose. In making this request, *R* notified *N* that it had elected the expenditure test under section 501(h) and that it expected to attempt to influence legislation in areas related to its exempt purpose. Since its formation, *R* generally has had exempt purpose expenditures (as defined in §56.4911–4) in excess of $7,000,000 in each of its taxable years, and has budgeted in excess of $7,000,000 of exempt purpose expenditures for the year of the grant. *N* made a grant of $200,000 to *R*. *N* did not earmark the funds for *R*'s attempts to influence legislation. The general purpose grant by *N* does not constitute a taxable expenditure under section 4945(d)(1).

Example (9). Assume the same facts as in example (8), except that *N* learns that *R* has had excess lobbying expenditures (within the meaning of §56.4911–1(b)) in some prior years. *N* also learns that in no year has *R*'s lobbying or grass roots expenditures (within the meaning of §56.4911–2(a) and (c)) exceeded the corresponding ceiling amount (within the meaning of §1.501(h)–3(c)(3) and (6)). *N* then makes the grant to *R*. After receiving the grant, *R* spends a large portion of its funds on influencing legislation and, as a consequence, is denied exemption from tax, as an organization described in section 501(c)(3), under section 501(h) and §1.501(h)–3. No disqualified person with respect to *N* controlled, in whole or in part, *R*'s attempts to influence legislation. The general purpose grant will not constitute a taxable expenditure under section 4945(d)(1).

* * * * *

(d) *Exceptions—(1) Nonpartisan analysis, study, or research.* * * *

(iv) *Making available results of analysis, study, or research.* * * * For purposes of this paragraph (d)(1)(iv), such presentations may not be limited to, be directed toward, or otherwise favor in any manner, persons who are interested solely in one side of a particular issue.

* * * * *

Par. 18. Title 26 is revised by adding a new Part 56 to read as follows:

Part 56—PUBLIC CHARITY EXCISE TAXES

Sec.

56.4911–1 Tax on excess lobbying expenditures.
56.4911–2 Lobbying expenditures, expenditures for direct lobbying, and grass roots expenditures.
56.4911–3 Activities not attempts to influence legislation.
56.4911–4 Exempt purpose expenditures.
56.4911–5 Communications with members.
56.4911–6 Records of lobbying and grass roots expenditures.
56.4911–7 Affiliated group of organizations.
56.4911–8 Excess lobbying expenditures of affiliated group.
56.4911–9 Application of section 501 (h) to affiliated groups of organizations.
56.4911–10 Members of a limited affiliated group of organizations.
56.6001–1 Notice or regulations requiring records, statements, and special returns.
56.6011–1 General requirement of return, statement, or list.

Authority: 26 U.S.C. 7805. Sec. 56.4911–7 also issued under 26 U.S.C. 4911(f)(3).

§56.4911–1 Tax on excess lobbying expenditures.

(a) *In general.* Section 4911(a) imposes an excise tax of 25 percent on the excess lobbying expenditures (as defined in paragraph (b) of this section) for a taxable year of an organization for which the expenditure test election under section 501(h) is in effect. The limit on expenditures for influencing legislation on which no tax is due from an organization for a taxable year is the lobbying nontaxable amount, or, on expenditures for influencing legislation through grass roots lobbying, the grass roots nontaxable amount (see paragraph (c) of this section). For rules concerning the application to the members of an affiliated group of organizations (as defined in §56.4911–7(e)) of the excise tax imposed by section 4911(a), see §56.4911–8.

(b) *Excess lobbying expenditures.* For any taxable year for which the expenditure test election under section 501(h) is in effect, the amount of an organization's excess lobbying expenditures is the greater of—

(1) The amount by which the organization's lobbying expenditures (within the meaning of §56.4911–2(a)) exceed the organization's lobbying nontaxable amount, or

(2) The amount by which the organization's grass roots expenditures (within the meaning of §56.4911–2(c)) exceed the organization's grass roots nontaxable amount.

(c) *Nontaxable amounts—(1) Lobbying nontaxable amount.* Under section 4911(c)(2), the lobbying nontaxable amount for any taxable year for which the expenditure test election is in effect is the lesser of—

(i) $1,000,000, or

(ii) To the extent of the organization's exempt purpose expenditures (within the meaning of §56.4911–4) for that year, the sum of 20 percent of the first $500,000 of such expenditures, plus 15 percent of the second $500,000 of such expenditures, plus 10 percent of the third $500,000 of such expenditures, plus 5 percent of the remainder of such expenditures.

(2) *Grass roots nontaxable amount.* Under section 4911(c)(4), an organization's grass roots nontaxable amount for any taxable year is 25 percent of its lobbying nontaxable amount for that year.

(d) *Examples.* The provisions of this section are illustrated by the examples in §1.501(h)-3.

(e) *Effective date.* The provisions of §§56.4911-1 through 56.4911-10 are effective for taxable years beginning after December 31, 1976.

§56.4911-2 Lobbying expenditures, expenditures for direct lobbying, and grass roots expenditures.

(a) *Lobbying expenditures.* An organization's lobbying expenditures for a taxable year for which the expenditures test election under section 501(h) is in effect are the sum of its expenditures for direct lobbying (as defined in paragraph (b) of this section) for the year and its grass roots expenditures (as defined in paragraph (c) of this section) for the year. In determining an organization's lobbying expenditures, no expenditure shall be counted twice.

(b) *Expenditures for direct lobbying defined*—(1) *Expenditures.* An expenditure for direct lobbying is any amount paid or incurred for, or in connection with, direct lobbying, or any amount treated as an expenditure for direct lobbying under paragraph (d) or (e) of this section or under §56.4911-5, or any amount included as an expenditure for direct lobbying under §56.4911-10(d)(2). Expenditures for direct lobbying include amounts paid or incurred as current or deferred compensation for an employee's services in connection with direct lobbying, and the allocable portion of administrative, overhead, and other general expenditures attributable to direct lobbying.

(2) *Direct lobbying communication defined.* A communication is an attempt to influence legislation through direct lobbying if the communication—

(i) Pertains to legislation being considered by a legislative body, or seeks or opposes legislation,

(ii) Reflects a view with respect to the desirability of the legislation (for this purpose, a communication that pertains to legislation but expresses no explicit view on the legislation shall be deemed to reflect a view on legislation if the communication is selectively disseminated to persons reasonably expected to share a common view of the legislation), and

(iii) Is either—

(A) With a member or employee of a legislative body, or

(B) With a government official or employee (other than a member or employee of a legislative body) who may participate in the formulation of legislation, but only if the principal purpose of the communication is to influence legislation.

(3) *Examples.* The provisions of this paragraph (b) are illustrated by the following examples:

Example (1). P is an organization for which the expenditure test election under section 501(h) is in effect. *P*'s employee, *A*, is assigned to approach members of Congress to gain their support for a pending bill. *A* spends several weeks researching the issue and contacting *P*'s directors to clarify *P*'s position on the bill. *P* then prints a position letter that is distributed to members of Congress. Additionally, *A* personally contacts several members of Congress or their staffs to seek support for *P*'s position on the bill. Amounts paid or incurred for, or in connection with, *A*'s research. *A*'s discussions with *P*'s directors, the position letter, and *A*'s Congressional contacts are expenditures for direct lobbying.

Example (2). Assume the same facts as in example (1), except that after *A* completes the research on the issue, it is decided by *P*'s directors that *P* will neither support nor oppose the bill. Under these circumstances, *A* has not engaged in any direct lobbying. Accordingly, *P*'s expenditures incurred for, or in connection with, *A*'s research are not expenditures for direct lobbying.

(c) *Grass roots expenditures*—(1) *Defined.* A grass roots expenditure is any amount paid or incurred for, or in connection with, grass roots lobbying, or any amount treated as grass roots expenditure under paragraphs (d) or (e) of this section or under §56.4911-5 or any amount included as a grass roots expenditure under §56.4911-10(d)(3). Grass roots expenditures include amounts paid or incurred as current or deferred compensation for an employee's services in connection with grass roots lobbying, and the allocable portion of administrative, overhead, and other general expenditures attributable to grass roots lobbying. "Grass roots lobbying" means an attempt to influence the general public, or any segment thereof, with respect to any legislation. A communication shall be considered an attempt to influence the general public, or a segment thereof, with respect to legislation if the communication—

(i) Pertains to legislation being considered by a legislative body, or seeks or opposes legislation,

(ii) Reflects a view with respect to the desirability of the legislation (for this purpose, a communication that pertains to legislation but expresses no explicit view on the legislation shall be deemed to reflect a view on legislation if the communication is selectively disseminated to persons reasonably expected to share a common view of the legislation), and

(iii) Is communicated in a form and distributed in a manner so as to reach individuals as members of the general public, that is, as voters or constituents, as opposed to a communication designed for academic, scientific, or similar purposes. A communication may meet this test even if it reaches the public only indirectly, as in a news release submitted to the media.

If any part of an advertisement constitutes grass roots lobbying, the entire amount expended for, or in connection with, the advertisement constitutes a grass roots expenditure.

(2) *Examples.* The provisions of this paragraph (c) are illustrated by the following examples:

Example (1). L, an organization for which the expenditure test under section 501(h) is in effect, places in local newspapers in State *W* an advertisement that asserts that lack of new capital is hurting the state's economy. The advertisement recommends that residents either invest more in local businesses or increase their savings so that funds will be available to others interested in making investments. Although the advertisement expresses a view with respect to a general problem that might receive legislative attention and is distributed in a manner so as to reach and influence many individuals, it does not constitute an attempt to influence the public with respect to legislation because it pertains to private conduct rather than legislation.

Example (2). Assume the same facts as in example (1), except that the advertisement, although not expressly calling for legislative action, also asserts that particular kinds of state tax incentives (which could not be implemented without legislation) would substantially increase capital formation. Thus, the advertisement is seeking action by the legislature and, at least in part, is addressed to individuals as voters or constituents rather than as potential investors. The advertisements reflects a view with respect to the desirability of the legislation. The advertisement constitutes an attempt to influence the public with respect to legislation, and the entire amount expended for, or in connection with, the advertisement is a grass roots expenditure.

Example (3). There is pending in the legislature of State *X* a proposal to amend certain laws concerning voting in state elections. As a public service, *M,* an organization in State *X* for which the expenditure test election is in effect places in local newspapers of general circulation an advertisement that explains both the current voting laws and the proposed amendments. The advertisement takes no position on the merits of the proposal. Under these circumstances, the advertisements does not reflect a view with respect to the desirability of the proposal and does not constitute an attempt to influence the general public with respect to the proposal.

Example (4). The legislature of State *Y* is considering a proposal to prohibit hunting on land owned by the State. *N,* an organization for which the expenditure test election is in effect, prepares a pamphlet that analyzes the proposal in detail but expresses no view on its merits. *N* arranges for distribution of the pamphlet to groups in State *Y* (with which it is not affiliated) that are opposed to hunting. The pamphlet pertains to legislation, and is deemed to reflect a view with respect to the desirability of the legislation by reason of its selective distribution to an audience reasonably expected to support the prohibition on hunting. The information is communicated in a form and distributed in a manner so as to reach individuals as voters or constituents. Expenditures for, or in connection with, the preparation and distribution of the pamphlet are grass roots expenditures.

Example (5). The legislature in State *Z* is considering a proposal to require pharmaceutical firms to test the safety of their products through certain laboratory procedures. *P*, an organization in State *Z* for which the expenditure test is in effect, prepares a detailed report on the usefulness of the tests that would be required under the proposal. The report concludes that the tests specified in the proposal are poorly designed. *P* distributes copies of the report to university professors in the field of health science without suggesting that the recipients make any attempt to influence the public with respect to the proposal. Although the report pertains to legislation and implies that the legislative proposal under consideration should not be enacted, the limited distribution of the report indicates that copies were furnished to the recipients as scholars in the field rather than as members of the general public, that is, as voters or constituents. The expenditures for the report, therefore, are not grass roots expenditures.

Example (6). Assume the same facts as in example (5), except that *P* also prepares a leaflet summarizing the report and distributes both the report and the leaflet only to academics in the field of health science who are known to oppose the legislation. The academics publicize their position by using the leaflets provided by *P*. *S*, an organization described in section 501(c)(4), of which the academics are members, also publicizes its opposition to the legislation using the leaflets provided by *P*. All amounts expended by *P* in connection with the report and the leaflets are grass roots expenditures since they were not communications designed for academic, scientific, or similar purposes.

Example (7). *Q*, an organization for which the expenditure test is in effect, pays for the radio broadcast of an advertisement that refers to a current controversy involving legislation and urges citizens to "become involved." The advertisement does not discuss the merits of any legislative proposal but it does offer a free booklet which analyzes and takes positions on various legislative proposals relating to the controversy. All expenditures for, or in connection with, the advertisement and the booklet are grass roots expenditures because together they constitute an attempt by *Q* to influence the public with respect to legislation.

Example (8). *R*, an organization for which the expenditure test is in effect, makes the services of *B*, one of its paid executives, available to *S*, an organization described in section 501(c)(4) of the Code. *B* works for several weeks to assist *S* in developing materials designed to influence public opinion on legislation. In performing this work, *B* uses office space and clerical assistance provided by *R*. *R* pays full salary and benefits to *B* during this period and receives no reimbursement from *S* for these payments or for the other facilities and assistance provided. All expenditures of *R*, including allocable office expenses, that are attributable to this assignment are grass roots expenditures because *B* was engaged in an attempt to influence the public on legislation.

(d) *Mixed purpose expenditures*—(1) *In general.* Except as provided in paragraphs (c)(1), (d)(2), and (d)(3) of this section, in the case of a mixed purpose expenditure, a reasonable allocation, based on all the facts and circumstances, must be made between the portion of the expenditure incurred for lobbying purposes and the portion incurred for charitable or fundraising purposes. For example, if a pamphlet has three articles of equal length, one of which constitutes an attempt to influence the general public with respect to legislation, and two of which relate to charitable, nonlobbying purposes, the cost of printing and mailing will be considered allocated reasonably if one-third of this cost is treated as a grass roots expenditure. See §56.4911–5 for rules with respect to certain communications with members.

(2) *Grass roots expenditures and fundraising.* If an expenditure (to which §56.4911–5 does not apply) is made for both grass roots lobbying purposes and fundraising purposes, the entire expenditure will be treated as a grass roots lobbying expenditure. For purposes of the preceding sentence, an expenditure for fundraising literature is not made for grass roots purposes if the fundraising literature merely mentions that the organization engages in attempts to influence legislation only to the extent consistent with section 501(c)(3) status.

(3) *Mixed lobbying.* If an expenditure (to which §56.4911–5 does not apply) is made for both direct lobbying and grass roots lobbying purposes, the expenditure will be treated as a grass roots expenditure except to the extent that the organization demonstrates that the expenditure was incurred solely for direct lobbying purposes.

(e) *Certain transfers treated as lobbying expenditures*—(1) *Transfer earmarked for grass roots purposes.* A transfer is a grass roots expenditure to the extent that it is earmarked (as defined in §56.4911–4(f)(4)) for grass roots lobbying purposes and is not described in §56.4911–4(e).

(2) *Transfer earmarked for direct and grass roots lobbying.* A transfer that is earmarked for direct lobbying purposes or for direct lobbying and grass roots lobbying purposes is treated as a grass roots expenditure in full except to the extent the transferor demonstrates that the amounts transferred were expended for direct lobbying purposes. This paragraph (e)(2) shall not apply to any expenditure described in §56.4911–4(e).

(3) *Certain transfers to organizations that lobby.* A transfer that is neither a controlled grant (as defined in §56.4911–4(f)(3)) nor an expenditure described is §56.4911–4(e) and that is made to an organization not described in section 501(c)(3) that engages in attempts to influence legislation is treated as a grass roots expenditure to the extent of the lesser of the amount of the transfer or the transferee's expenditures for grass roots lobbying. If the amount of the transfer exceeds the transferee's expenditures for grass roots lobbying, the excess will be treated as an expenditure for direct lobbying to the extent of the transferee's expenditures for direct lobbying. In applying the preceding two sentences, the expenditures of the transferee will be determined as if the regulations under section 4911 applied to the transferee.

(f) *Definitions.* For purposes of section 4911 and the regulations thereunder—

(1) *Legislation.* The term "legislation" includes action by the Congress, any state legislature, any local council, or similar legislative body, or by the public in a referendum, initiative, constitutional amendment, or similar procedure. The term "legislation" includes a proposed treaty required to be submitted by the President to the Senate for its advice and consent from the time the President's representative begins to negotiate its position with the prospective parties to the proposed treaty.

(2) *Action.* The term "action" is limited to the introduction, amendment, enactment, defeat to repeal of Acts, bills, resolutions, or similar items.

(3) *Legislative body.* The term "legislative body" does not include executive, judicial, or administrative bodies.

(4) *Administrative bodies.* The term "administrative bodies" includes school boards, housing authorities, sewer and water districts, zoning boards, and other similar Federal, State, or local special purpose bodies, whether elective or appointive.

§56.4911–3 Activities not attempts to influence legislation.

(a) *In general.* This section describes activities that are not attempts to influence legislation for purposes of section 4911. Accordingly, expenditures for, or in connection with, activities described in this section are not lobbying expenditures under §56.4911–2.

(b) *Nonpartisan analysis, study or research.* Under section 4911(d)(2)(A), "influencing legislation" does not include making available the results of nonpartisan analysis, study, or research. For guidance in determining whether an amount is paid or incurred for, or in connection with, making available the results of nonpartisan analysis, study, or research see §53.4945–2(d)(1).

(c) *Technical advice or assistance.* Under section 4911(d)(2)(B), "influencing legislation" does not include providing technical advice or assistance to a governmental body, a governmental committee, or a subdivision of either in response to a written request by the body, committee, or subdivision. For guidance in determining whether an amount is paid or incurred for, or in connection with, providing technical advice or assistance, see §53.4945–2(d)(2).

(d) *Self defense*—(1) *In general.* Under section 4911(d)(2)(C), "influencing legislation" does not include an appearance before or communication with any legislative body with respect to a possible action by the body that might affect the existence of the organization, its powers and duties, its tax-exempt status, or the deductibility of contributions to the organization. For guidance in determining whether an amount is paid or incurred for, or in connection with, these communications or appearances, see §53.4945–2(d)(3). See also, paragraphs (d)(2), (d)(3), and (d)(4) to this section concerning appearances on behalf of other organizations.

(2) *Affiliated group of organizations.* For an organization that is a member of an affiliated group of organizations (within the meaning of §56.4911–7(e)), "influencing legislation" does not include appearances before, or communications with, a legislative body with respect to a possible action by the body that might affect the existence of any other member of the group, its powers and duties, its tax-exempt status, or the deductibility of contributions to it.

(3) *Activities on behalf of member organizations.* For an organization that has a membership consisting solely of other organizations that are described in section 501(c)(3), "influencing legislation" does not include appearances before, or communications with, any legislative body with respect to a possible action by the body which might affect the existence of one or more of the member organizations, their powers, duties, or tax-exempt status, or the deductibility of contributions to one or more of the member organizations.

(4) *Limited affiliated group of organizations.* For an organization that is a member of a limited affiliated group of organizations under §56.4911–10, "influencing legislation" does not include appearances before, or communications with, the Congress of the United States with respect to a possible action by the Congress that might affect the existence of any member of the limited affiliated group, its powers and duties, tax-exempt status, or the deductibility of contributions to it.

§56.4911–4 Exempt purpose expenditures.

(a) Application. This section provides rules under section 4911(e) for determining an organization's "exempt purpose expenditures" for a taxable year for purposes of section 4911(c)(2) and §56.4911–1(c)(2), which define an organization's lobbying nontaxable amount by reference to its exempt purpose expenditures. In determining an organization's exempt purpose expenditures, no expenditure shall be counted twice by an organization.

(b) *Included expenditures.* Amounts paid or incurred by an organization that are exempt purpose expenditures include—

(1) Amounts paid or incurred to accomplish a purpose enumerated in section 170(c)(2)(B), including (but not limited to) the amount of any transfer made by the organization (other than a transfer described in paragraph (e) of this section) to another organization to accomplish the transferor's exempt purposes, and including amounts expended by an organization out of transfers (other than a transfer described in paragraph (e) of this section) for which the organization is the transferee,

(2) Amounts paid or incurred as current or deferred compensation for an employee's services in connection with a purpose enumerated in section 170(c)(2)(B),

(3) The allocable portion of administrative overhead, and other general expenditures attributable to the accomplishment of a purpose enumerated in section 170(c)(2)(B),

(4) Lobbying expenditures (as defined in §56.4911–2(a)) whether or not for a purpose enumerated in section 170(c)(2)(B),

(5) Amounts paid or incurred for, or in connection with, activities described in §56.4911–3,

(6) Amounts paid or incurred for, or in connection with, activities described in §56.4911–5 that are not lobbying expenditures, and

(7) A reasonable allowance for exhaustion, wear and tear, obsolescence or amortization, of assets to the extent used for one or more of the purposes described in paragraphs (b)(1) through (6) of this section, computed on a straight-line basis (for this purpose, an allowance for depreciation will be treated as reasonable if based on a useful life that would satisfy section 312(k)(3)(A) as in effect on January 1, 1985).

(c) *Excluded expenditures.* Notwithstanding paragraph (b) of this section, exempt purpose expenditures do not include—

(1) Amounts paid or incurred that are neither expenditures to accomplish a purpose enumerated in section 170(c)(2)(B) nor lobbying expenditures (as defined in §56.4911–2(a)),

(2) The amount of any transfer described in paragraph (e) of this section,

(3) Amounts paid to or incurred for a separate fund raising unit (as defined in paragraph (f)(2) of this section) of an organization or of an affiliated organization (see §56.4911–7(a)),

(4) Amounts paid to or incurred for any person not an employee, or any organization not an affiliated organization, if paid or incurred primarily for fund raising,

(5) Amounts paid or incurred that are properly chargeable to a capital account, determined in accordance with the principles that apply under sections 312(k)(1) and (3) (as in effect on January 1, 1985), to amounts paid or incurred in a trade or business,

(6) Amounts paid or incurred for a tax that is not imposed in connection with the organization's efforts to accomplish a purpose described in section 170(c)(2)(B), such as the taxes imposed under sections 511(a)(1) and 4911(a), and

(7) Amounts paid or incurred in connection with the production of income, whether or not described in section 512(a)(1).

(d) *Certain transfers treated as exempt purpose expenditures*—(1) An organization's transfer will be treated as an exempt purpose expenditure under paragraph (b)(1) of this section if it is—

(i) Described in either paragraph (d)(2) or (d)(3) of this section, and

(ii) Not described in paragraph (e) of this section.

(2) A transfer is described in this paragraph (d)(2) if it is made to an organization described in section 501(c)(3) in furtherance of the transferor's exempt purposes and is not earmarked for any purpose other than a purpose described in section 170(c)(2)(B). Thus, a payment of dues by a local or state organization to, respectively, a state or national organization that is described in section 501(c)(3) is considered an exempt purpose expenditure of the transferor to the extent it is not otherwise earmarked.

(3) A transfer is described in this paragraph (d)(3) if it is a controlled grant (as defined in paragraph (f)(3) of this section), but only to the extent of the amounts that are paid or incurred by the transferee that would be exempt purpose expenditures if paid or incurred by the transferor.

(e) *Transfers not exempt purpose expenditures*—(1) An organization's transfer is described in this paragraph (e) if it is described in one of paragraphs (e)(2) through (e)(4).

(2) A transfer is described in this paragraph (e)(2) if it is made to a member of any affiliated group (as defined in §56.4911–7(e)) of which the transferor is a member.

(3) A transfer is described in this paragraph (e)(3) if the Commissioner determines that the transfer artificially inflates the amount of the transferor's or transferee's exempt purpose expenditures. In general, the Commissioner will make that determination if a substantial purpose of a transfer is to inflate those exempt purpose expenditures. A transfer described in this paragraph will not be considered an exempt purpose expenditure of the transferor, but will be an exempt purpose expenditure of the transferee to the extent that the transferee expends the transfer in the active conduct of its charitable activities or attempts to influence legislation. Standards similar to those found in §53.4942(b)–1(b) may be applied in determining whether the transferee has expended amounts in the "active conduct" of its charitable activities or attempts to influence legislation.

(4) A transfer is described in this paragraph (e)(4) if it is not a controlled grant and is made to an organization not described in section 501(c)(3) that does not attempt to influence legislation.

(f) *Definitions*—(1) For purposes of paragraph (c) of this section, "fund raising" includes—

(i) Soliciting dues or contributions from members of the organization, from persons whose dues are in arrears, or from the general public,

(ii) Soliciting grants from businesses or other organizations, including organizations described in section 501(c)(3), or

(iii) Soliciting grants from a governmental unit referred to in section 170(c)(1), or any agency or instrumentality thereof.

(2) For purposes of paragraph (c) of this section, a separate fund raising unit of any organization must consist of either two or more individuals a substantial part of whose time is spent on fund raising for the organization, or any separate accounting unit of the organization that is devoted to fund raising.

(3) For purposes of this section, a "controlled grant" is a grant made by an eligible organization described in §1.501(h)–2(b) to an organization not described in section 501(c)(3) that meets the following requirements:

(i) The donor limits the grant to a specific project of the recipient that is in furtherance of the donor's exempt purposes; and

(ii) The donor maintains records to establish that the grant is used in furtherance of the donor's exempt purposes.

(4) A transfer, including a grant or payment of dues, is "earmarked" for a specific purpose—

(i) To the extent that the transferor directs the transferee to add the amount transferred to a fund established to accomplish the purpose, or

(ii) To the extent of the amount transferred or, if less, the amount agreed upon to be expended to accomplish the purpose, if there exists an agreement, oral or written, whereby the transferor may cause the transferee to expend amounts to accomplish the purpose or whereby the transferee agrees to expend an amount to accomplish the purpose.

(g) *Example.* The provisions of this section are illustrated by the following example:

Example. Organization *X* is an exempt organization described in section 501(c)(3) that is organized for the purpose of rehabilitating alcoholics. *X* elected to be subject to the provisions of section 501(h) in 1981. For 1981, *X* had the following expenditures that are included in its exempt purpose expenditures to the extent indicated.

Description	*Total*	*Includible*
Cost of real estate purchased for use as half-way house for alcoholics, attributable to the following:		
Land	30,000	-0-
Building	200,000	-0-
Depreciation 40-year useful life	-0-	5,000
Expenses of operating its half-way house.	170,000	170,000
Administrative expenses of the organization allocated to the operation of its half-way house.	95,000	95,000
Depreciation and allowances for equipment.	10,000	10,000
Expenses related to attempts to influence legislation (lobbying expenditures)	40,000	40,000
Amounts paid to *Z* by the organization for fundraising	35,000	-0-
		$320,000

For 1981, *X*'s exempt purpose expenditures total $320,000. The $35,000 paid by *X* to *Z* for fund raising is not included in the exempt purpose expenditures total. All lobbying expenses are included in full. Only depreciation computed on a straight-line basis is included in exempt purpose expenditures.

§56.4911–5 Communications with members.

(a) *In general.* For purposes of section 4911 and §56.4911–2, expenditures in connection with certain communications between an organization and its members are treated as expenditures for direct lobbying, as grass roots expenditures, or as other than lobbying expenditures in accordance with this section.

(b) *Communication directed only to members; excepted communication.* Expenditures for, or in connection with, a communication that pertains to legislation or proposed legislation are not lobbying expenditures if the communication satisfies the following requirements:

(1) The communication is directed only to members of the organization;

(2) The legislation or proposed legislation to which the communication relates is of direct interest to the organization and its members;

(3) The communication does not directly encourage the member to engage in direct lobbying (whether individually or through the organization); and

(4) The communication does not directly encourage the member to engage in grass roots lobbying, whether individually or through the organization.

(c) *Communication directed only to members; expenditures for direct lobbying.* Expenditures for, or in connection with, a communication that reflects a view with respect to the desirability of legislation and that satisfies the requirements of subparagraphs (1), (2), and (4) of paragraph (b) of this section, but does not satisfy the requirements of subparagraph (3) of such paragraph (b), are treated as expenditures for direct lobbying.

(d) *Communication directed only to members; grass roots expenditures.* Expenditures for, or in connection with, a communication that reflects a view with respect to the desirability of legislation and that satisfies the requirements of subparagraphs (1) and (2) of paragraph (b) of this section, but does not satisfy the requirements of subparagraph (4) of such paragraph (b), are treated as grass roots expenditures (whether or not the communication satisfies the requirements of subparagraph (3) of such paragraph (b)).

(e) *Written communications directed to members and nonmembers*—(1) *In general.* Expenditures for, or in connection with, any written communication that is designed primarily for members of an organization (but not directed only to members) and that reflects a view with respect to the desirability of legislation or proposed legislation of direct interest to the organization and its members, are treated as expenditures for direct lobbying or grass roots expenditures in accordance with paragraph (e)(2) or (e)(3) of this section.

(2) *Direct lobbying encouraged*—(i) *Lobbying expenditure amount.* If a written communication described in paragraph (e)(1) of this section directly encourages readers to engage individually or through the organization in direct lobbying but does not encourage them to engage in grass roots lobbying, the cost of the communication is allocated between expenditures for direct lobbying and grass roots expenditures in accordance with paragraphs (e)(2)(ii) and (iii) of this section. The portion of the cost to be allocated includes all costs of preparing all the material with respect to which readers are urged to engage in direct lobbying plus the mechanical and distribution costs attributable to the lineage devoted to this material (see §1.512(a)–1(f)(6)).

(ii) *Grass roots amount.* The amount allocable as a grass roots expenditure for a communication described in paragraph (e)(1) of this section is the amount calculated in paragraph (e)(2)(i) of this section multiplied by the sum of the nonmember subscribers percentage and the all other distribution percentage, both as defined in paragraph (f)(7) of this section. Solely for purposes of the allocation described in this paragraph (e)(2)(ii), the nonmember subscribers percentage is treated as zero unless it is greater than 15% of total distribution.

(iii) *Direct lobbying amount.* The amount allocable as an expenditure for direct lobbying for a communication described in paragraph (e)(1) of this section is the excess of the amount described in paragraph (e)(2)(i) of this section over the amount described in paragraph (e)(2)(ii) of this section.

(3) *Grass roots expenditure if grass roots lobbying encouraged.* The portion of the cost of a written communication described in paragraph (e)(1) of this section that constitutes a grass roots expenditure is—

(i) If the communication directly encourages readers to engage individually or collectively (whether through the organization or otherwise) in grass roots lobbying (whether or not it also encourages readers to engage in direct lobbying), the grass roots expenditure includes all the costs of preparing all the material with respect to which readers are urged to engage in grass roots lobbying the mechanical and distribution costs attributable to the lineage devoted to this material (see §1.512(a)–1(f)(6)); or

(ii) If the communication does not directly encourage readers to engage in direct lobbying (determined by applying the rule in paragraph (f)(6) of this section) and does not encourage readers to engage in grass roots lobbying, whether individually, collectively, through the organization, or otherwise, the amount described in paragraph (e)(2)(ii) of this section.

(f) *Definition and special rules.* For purposes of the regulations under section 4911—

(1) *Member; general rule.* A person is a member of an organization if the person—

(i) Pays dues or makes a contribution of more than a nominal amount,

(ii) Makes a contribution of more than a nominal amount of time, or

(iii) Is one of a limited number of "honorary" or "life" members who have more than a nominal connection with the organization and who have been chosen for a valid reason (such as length or service to the organization or involvement in activities forming the basis of the organization's exemption) unrelated to the organization's dissemination of information to its members.

(2) *Member; special rule.* A person not a member of an organization within the meaning of paragraph (f)(1) of this section may be treated as a member if the organization demonstrates to the satisfaction of the Internal Revenue Service that there is a good reason for its membership requirements not meeting the requirements of such paragraph (f)(1), and that its membership requirements do not operate to permit an abuse of the rules described in this section.

(3) *Member; affiliated group of organizations.* For purposes of this section, a person who is a member of an organization that is a member of an affiliated group of organizations (within the meaning of §56.4911–7(e)) is treated as a member of each organization in the affiliated group.

(4) *Member; limited affiliated group of organizations.* For purposes of this section, a person who is a member of an organization that is a member of a limited affiliated group of organizations (within the meaning of §56.4911–10(b)) is treated as a member of each organization in the limited affiliated group, but only to the extent that the communication relates to a national legislative issue (within the meaning of §56.4911–10(g)).

(5) *Subscriber.* A person is a subscriber to a written communication if—

(i) The person is a member of the publishing organization and the membership dues expressly include the right to receive the written communication, or

(ii) The person has affirmatively expressed a desire to receive the written communication and has paid more than a nominal amount for the communication.

(6) *"Self-defense" exception for communications with members.* For purposes of paragraphs (b)(3), (e)(2)(i), and (e)(3)(ii) of this section, a communication that directly encourages a member to engage in direct lobbying activities that are described in section 4911(d)(2)(C) and that would not be attempts to influence legislation if engaged in directly by the organization is treated as a communication that does not directly encourage a member to engage in direct lobbying.

(7) *Percentages of total distribution.* With respect to a communication described in paragraph (e)(1) of this section—

(i) "Member percentage" means the percentage of total distribution that represents distribution of a single copy to any member;

(ii) "Nonmember subscribers percentage" means the percentage of total distribution that represents distribution to nonmember subscribers (including libraries); and

(iii) "All other distribution percentage" means 100% reduced by the sum of the member percentage and the nonmember subscribers percentage.

§56.4911-6 Records of lobbying and grass roots expenditures.

(a) *Records of lobbying expenditures.* An organization to which the expenditure test under section 501(h) applies for a taxable year must keep a record of its lobbying expenditures for the taxable year. Lobbying expenditures of which an organization must keep a record include the following:

(1) Expenditures for grass roots lobbying, as described in paragraph (b) of this section;

(2) Amounts directly paid or incurred for direct lobbying, including payments to another organization earmarked for direct lobbying, fees and expenses paid to individuals or organizations for direct lobbying, and printing, mailing, and other direct costs of reproducing and distributing materials used in direct lobbying;

(3) The portion of amounts paid or incurred as current or deferred compensation for an employee's services in connection with direct lobbying;

(4) Amounts paid for out-of-pocket expenditures incurred on behalf of the organization and in connection with direct lobbying, whether or not incurred by an employee;

(5) The allocable portion of administrative, overhead, and other general expenditures attributable to direct lobbying;

(6) Expenditures for publications or for communications with members to the extent the expenditures are treated as expenditures for direct lobbying under §56.4911-5; and

(7) Expenditures for direct lobbying of a controlled organization (within the meaning of §56.4911-10(c)) to the extent included by a controlling organization (within the meaning of §56.4911-10(c)) in its lobbying expenditures.

(b) *Records of grass roots expenditures.* An organization to which the expenditure test under section 501(h) applies for a taxable year must keep a record of its grass roots expenditures for the taxable year. Grass roots expenditures of which an organization must keep a record include the following:

(1) Amounts directly paid or incurred for grass roots lobbying, including payments to other organizations earmarked for grass roots lobbying, fees and expenses paid to individuals or organizations for grass roots lobbying, and the printing, mailing, and other direct costs of reproducing and distributing materials used in grass roots lobbying;

(2) The portion of amounts paid or incurred as current or deferred compensation for an employee's services in connection with grass roots lobbying;

(3) Amounts paid for out-of-pocket expenditures incurred on behalf of the organization and in connection with grass roots lobbying, whether or not incurred by an employee;

(4) The allocable portion of administrative, overhead, and other general expenditures attributable to grass roots lobbying;

(5) Expenditures for publications or communications that are treated as expenditures for grass roots lobbying under §56.4911-5; and

(6) Expenditures for grass roots lobbying of a controlled organization (within the meaning of §56.4911-10(c)) to the extent included by a controlling organization (within the meaning of §56.4911-10(c)) in its grass roots expenditures.

§56.4911-7 Affiliated group of organizations.

(a) *Affiliation between two organizations*—(1) *In general.* For purposes of the regulations under section 4911, two organizations are affiliated, subject to the limitation described in paragraph (a)(2) of this section, if one organization is able to control action on legislative issues by the other by reason of interlocking governing boards (see paragraph (b) of this section) or by reason of provisions of the governing instruments of the controlled organization (see paragraph (c) of this section). The ability of the controlling organization to control action on legislative issues by the controlled organization is sufficient to establish that the organizations are affiliated; it is not necessary that the control be exercised.

(2) *Organizations not described in section 501(c)(3).* Two organizations, neither of which is described in section 501(c)(3), are affiliated only if there exists at least one organization described in section 501(c)(3) that is affiliated with both organizations.

(3) *Action on legislative issues.* For purposes of this section, the term "action on legislative issues" includes taking a position in the organization's name on legislation, authorizing any person to take a position in the organization's name on legislation, or authorizing any lobbying expenditures. The phrase does not include actions taken merely to correct unauthorized actions taken in the organization's name.

(b) *Interlocking governing boards*—(1) *In general.* Two organizations have interlocking governing boards if one organization (the controlling organization) has a sufficient number of representatives (within the meaning of paragraph (b)(5) of this section) on the governing board of the second organization (the controlled organization) so that by aggregating their votes, the representatives of the controlling organization can cause or prevent action on legislative issues by the controlled organization. If two organizations have interlocking governing boards, the organizations are affiliated without regard to how or whether the representatives of the controlling organization vote on any particular matter.

(2) *Majority or quorum.* Except as provided in paragraph (b)(3) or (4) of this section, the number of representatives of an organization (the controlling organization) who are members of the governing board of a second organization (the controlled organization) will be presumed sufficient to cause or prevent action on legislative issues by the controlled organization if that number either—

(i) Constitutes a majority of incumbents on the governing board, or

(ii) Constitutes a quorum, or is sufficient to prevent a quorum, for acting on legislative issues.

(3) *Votes required under governing instrument or local law.* Except as provided in paragraph (b)(4) of this section, if under the governing documents of an organization (the controlled organization), it can be determined that a lesser number of votes than the number described in paragraph (b)(2) of this section is necessary or sufficient to cause or to prevent action on legislative issues, the number of representatives of the controlling organization who are members of the governing board of the controlled organization will be considered sufficient to cause or prevent action on legislative issues if it equals or exceeds that number.

(4) *Representatives constituting less than 15% of governing board.* Notwithstanding paragraph (b)(2) or (3) of this section, if the number of representatives of one

organization is less than 15 percent of the incumbents on the governing board of a second organization, the two organizations are not affiliated by reason of interlocking governing boards.

(5) *Representatives.* (i) This paragraph (b)(5) describes members of the governing board of one organization (the controlled organization) who are considered representatives of a second organization (the controlling organization). Under this paragraph (b)(5), a member of the governing board of a controlled organization may be a representative of more than one controlling organization. A person with no authority to vote on any issue being considered by the governing board is not a representative of any organization.

(ii) A board member of one organization (the controlled organization) is a representative of a second organization (the controlling organization) if the controlling organization has specifically designated that person to be a board member of the controlled organization. For purposes of this paragraph (b)(5)(ii) and paragraph (b)(5)(iii) of this section, a board member of the controlled organization is specifically designated by the controlling organization if the board member is selected by virtue of the right of the controlling organization, under the governing instruments of the controlled organization, either to designate a person to be a member of the controlled organization's governing board, or to select a person for a position that entitles the holder of that position to be a member of the controlled organization's governing board.

(iii) A board member of one organization who is specifically designated by a second organization, a majority of the governing board of which is made up of representatives of a third organization, is a representative of the third organization as well as being a representative of the second organization pursuant to paragraph (b)(5)(ii) of this section.

(iv) A board member of one organization who is also a member of the governing board of a second organization is a representative of the second organization.

(v) A board member of one organization who is an officer or paid executive of the second organization is a representative of the second organization. Although titles are significant in determining whether a person is a member of the executive staff of an organization, any employee of an organization who possesses authority commonly exercised by an executive is considered an executive staff member for purposes of this paragraph (b)(5)(v).

(c) *Governing instrument.* One organization (the "controlling" organization) is affiliated with a second organization (the "controlled" organization) by reason of the governing instruments of the controlled organization if the governing instruments of the controlled organization expressly or by implication limit the independent action of the controlled organization on a legislative issue by requiring that it take into account the position of the controlling organization on that issue. Any limitation on the independent action of the controlled organization on a legislative issue is sufficient to establish the existence of the relationship of affiliation. It is immaterial how or whether the limiting power is exercised.

(d) *Three or more organizations affiliated*—(1) *Two controlled organizations affiliated.* If a controlling organization described in this section is affiliated with each of two or more controlled organizations described in this section, then the controlled organizations are affiliated with each other.

(2) *Chain rule.* If one organization is a controlling organization described in this section with respect to a second organization and that second organization is a controlling organization with respect to a third organization, then the first organization is affiliated with the third.

(e) *Affiliated group of organizations*—(1) *Defined.* For purposes of the regulations under section 4911, an affiliated group of organizations is a group of organizations—

(i) Each of which is affiliated with every other member for at least thirty days of the taxable year of the affiliated group (determined without regard to the election provided for in paragraph (e)(5) of this section),

(ii) Each of which is an eligible organization (within the meaning of §1.501(h)–2(b)(1)), and

(iii) At least one of which is an electing member organization (within the meaning of paragraph (e)(4) of this section).

Each organization in a group of organizations that satisfies the requirements of the preceding sentence is a member of the affiliated group of organizations for the taxable year of the affiliated group.

(2) *Multiple membership.* For any taxable year of an organization, it may be a member of two or more affiliated groups of organizations.

(3) *Taxable year of affiliated group.* If all members of an affiliated group have the same taxable year, that taxable year is the taxable year of the affiliated group. If the members of an affiliated group do not all have the same taxable year, the taxable year of the affiliated group is the calendar year, unless the election under paragraph (e)(5) of this section is made.

(4) *Electing member organization.* For purposes of the regulations under section 4911, an "electing member organization" is an organization to which the expenditure test election under section 501(h) applies on at least one day of the taxable year of the affiliated group of which it is a member. For purposes of the preceding sentence (and notwithstanding §1.501(h)–2(a)), the expenditure test is not considered to apply to the organization on any day before the date on which it files the Form 5768 making the expenditure test election.

(5) *Election of member's year as group's taxable year.* The taxable year of an affiliated group may be determined according to the provisions of this paragraph (e)(5) if all of the members of the affiliated group so elect. Under this paragraph (e)(5), each member organization shall apply the provisions of section 501(h) and 4911, and the regulations thereunder (unless the regulations provide otherwise), by treating its own taxable year as the taxable year of the affiliated group. The election may be made by an electing member organization by attaching to its annual return a statement from itself and every other member of the affiliated group that contains: the organization's name, address, and employer identification number; and its signed consent to the election provided for in this paragraph (e)(5). The election must be made no later than the due date of the first annual return of any electing member for a taxable year for which the member is liable for tax under section 4911(a), determined under §56.4911–8(d). The election may not be made or revoked after the due date of the return referred to in the preceding sentence except upon such terms and conditions as the Commissioner may prescribe.

(f) *Examples.* The provisions of this section are illustrated by the following examples.

Example (1). M, N, and *O* are eligible organizations within the meaning of §1.501(h)–2(b)(1). Each has a governing board made up of nine members. Five members on the board of *N* are also members of the board of *M*. *N* designates five individuals from among its board, officers, and executive staff members to serve on the board of *O*. *M* is affiliated with *N*, *N* is affiliated with *O*, and *M* is affiliated with *O*.

Example (2). *X*, an eligible organization, has a board consisting of 10 members. Five unaffiliated tax-exempt organizations each designate two individuals to serve on the governing board of *X*. A simple majority of the board of *X* is a quorum and may establish *X*'s position on legislative issues. *X* is not affiliated with any of the five autonomous organizations by reason of interlocking governing boards.

Example (3). *P* and *Q* are eligible organizations. The governing instruments of *Q* indicate that it will not take a position on legislation if *P* disapproves of the position. In addition, there is regular correspondence between *P* and *Q* with regard to positions on legislation. *P* is affiliated with *Q* regardless of whether *P* has ever vetoed a position taken by *Q*.

Example (4). The governing board of organization *R* resolves to adopt the position taken on legislative issues by organization *S*. *R* and *S* are eligible organizations and do not have interlocking governing boards. The governing instruments of *R* do not mention organization *S* and do not indicate that *R* is to be bound by the decisions on legislation of any organization. *R* and *S* are not affiliated.

Example (5). Organization *Z* is bound, under the terms of its governing instruments, by the legislative positions of Organization *Y*. Organization *Y*, however, is bound, under the terms of its governing instruments, by the legislative positions of Organization *X*. Organization *X* is affiliated with *Y* and *Z*; *Y* is affiliated with *X* and *Z*; and *Z* is affiliated with *X* and *Y*.

Example (6). Organizations *T* and *U* have interlocking boards of directors. *T* is the controlling organization. Organization *V* is bound, under the terms of its governing instruments, by the legislative positions of *U*. *T* and *V* are affiliated because *T* may cause or prevent action on legislative issues by *U*, and *V* is bound by *U*'s action. If *U* were the controlling organization, *T* and *V* would be affiliated as two organizations controlled by the same organization.

Example (7). Organization *A* is an organization described in section 501(c)(4). It is affiliated, as the controlling organization, with organizations *K* and *L*, both of which are described in 501(c)(3) and are eligible to elect under 501(h). If *K* elects under section 501(h), *K* and *L* are an affiliated group of organizations.

Example (8). *G*, *H*, *I*, and *J* are eligible organizations. *G*, *H*, and *I* have elected the expenditure test under section 501(h). The governing board of *J* has nine members. Under the governing instruments of *J*, organizations *G*, *H*, and *I* each designate three members of the governing board of *J*. Also under the governing instruments of *J*, action on legislative issues requires the approval of any seven board members. Because the three representatives of *G* may prevent action on legislative issues, *J* is affiliated with *G*. Similarly, *J* is affiliated with each of *H* and *I*. However, under none of the rules of affiliation is *G* affiliated with *H*, or *H* with *I*, or *I* with *G*. Therefore *J* is a member of one affiliated group comprising *G* and *J*, of another group comprising *H* and *J*, and of a third group comprising *I* and *J*.

Example (9). Organizations *C*, *D*, and *E* have been affiliated for many years and have all elected the expenditure test. Each has a taxable year ending July 31. For every day of the year ending July 31, 1982, they were eligible organizations, electing member organizations, and affiliated with each other. On no day of that year were they affiliated with any other eligible organization having a different taxable year. Therefore, the year ending July 31, 1982, is the taxable year of the affiliated group comprising *C*, *D*, and *E*.

§56.4911–8 Excess lobbying expenditures of affiliated group.

(a) *Application*. This section provides rules concerning the exempt purpose expenditures, lobbying expenditures, and grass roots expenditures of an affiliated group or organizations, and the application of the excise tax imposed by section 4911(a) on the excess lobbying expenditures of the group.

(b) *Affiliated group treated as one organization*. Under section 4911(f), an affiliated group of organizations is treated as a single organization for purposes of the tax imposed by section 4911(a). For any taxable year of the affiliated group, the group's lobbying expenditures, grass roots expenditures, and exempt purpose expenditures are equal to the sum of the lobbying expenditures, grass roots expenditures, and exempt purpose expenditures, respectively, paid or incurred by each member during the taxable year of the affiliated group. The lobbying and grass roots nontaxable amounts for the affiliated group for a taxable year are determined under section 4911(c)(2) and (4) and §56.4911–1(c) and are based on the sum of the exempt purpose expenditures described in the preceding sentence. The lobbying and grass roots ceiling amounts for the affiliated group for a taxable year are calculated under §1.501(h)–3(c)(3) and (6) based upon the nontaxable amounts determined pursuant to the preceding sentence.

(c) *Tax imposed on excess lobbying expenditures of affiliated group*. The excise tax under section 4911(a) is imposed for a taxable year of an affiliated group if the group has excess lobbying expenditures. For any taxable year of an affiliated group, the group's excess lobbying expenditures are the greater of—

(1) The amount by which the group's lobbying expenditures exceed the group's lobbying nontaxable amount, or

(2) The amount by which the group's grass roots expenditures exceed the group's grass roots nontaxable amount.

(d) *Liability for tax*—(1) *Electing organizations*. As provided in this paragraph (d), an electing member organization is liable for all or a portion of the excise tax imposed by section 4911(a) on the excess lobbying expenditures of an affiliated group of organizations. An organization that is liable under this paragraph (d) is not liable for any excise tax under section 4911 based on its own excess lobbying expenditures. A member of the affiliated group that is not an electing member organization is not liable for any portion of the excise tax that is imposed with respect to the affiliated group.

(2) *Tax based on excess lobbying expenditures*. If the excise tax imposed by section 4911(a) on the excess lobbying expenditures of an affiliated group of organizations is based upon the amount described in paragraph (c)(1) of this section, and at least one electing member has made lobbying expenditures, each electing member organization is liable for a portion of the tax equal to the amount of the tax multiplied by a fraction, the numerator of which is the electing member organization's lobbying expenditures paid or incurred during the taxable year of the affiliated group, and the denominator of which is the sum of the lobbying expenditures of all electing member organizations in the group paid or incurred during the taxable year of the affiliated group.

(3) *Tax based on excess grass roots expenditures*. If the excise tax imposed by section 4911(a) on the excess lobbying expenditures of an affiliated group of organizations is based upon the amount described in paragraph (c)(2) of this section, and at least one electing member has made grass roots expenditures, each electing member organization is liable for a portion of the tax equal to the amount of the tax multiplied by the fraction described in paragraph (d)(2) of this section, except that "grass roots expenditures" is substituted for "lobbying expenditures."

(4) *Tax based on exempt purpose expenditures*. If the excise tax imposed by section 4911(a) on the excess lobbying expenditures of an affiliated group of organizations is based upon the amount described in paragraph (c)(2) of this section, and if paragraphs (d)(2) and (d)(3) of this section do not apply because no electing organization has made lobbying or grass roots expenditures, respectively, each electing member organization is liable for a portion of the tax equal to the amount of tax multiplied by a fraction the numerator of which is the electing member organization's exempt purpose expenditures and the denominator of which is the exempt purpose expenditures of all the electing member organizations in the affiliated group.

(5) *Taxable year for which liable.* An electing member organization that is liable for all or a portion of the excise tax imposed by section 4911(a) on the excess lobbying expenditures of an affiliated group of organizations is liable for the tax as if the tax were imposed for its taxable year with which or within which ends the taxable year of the affiliated group.

(6) *Organization a member of more than one affiliated group.* If, under this paragraph (d), an organization is liable for its taxable year for two or more excise taxes imposed by section 4911(a) on the excess lobbying expenditures of two or more affiliated groups, then the organization is liable only for the greater of the two or more taxes.

(e) *Former member organization.* An electing member organization that ceases to be a member of an affiliated group of organizations, the taxable year of which is different from its own, must thereafter determine its liability under §56.4911–1 for the excise tax imposed by section 4911(a) as if its taxable year were the taxable year of the affiliated group of which it was formerly a member. An organization to which this paragraph (e) applies that is liable for the excise tax imposed by section 4911(a) is liable for the tax as if the tax were imposed for its taxable year within which ends the taxable year of the affiliated group of which it was formerly a member. The Commissioner may, at the Commissioner's discretion, permit an organization to disregard the rules of this paragraph (e) and to determine any liability under section 4911(a) based upon its own taxable year.

§56.4911–9 Application of section 501(h) to affiliated groups of organizations.

(a) *Scope.* This section provides rules concerning the application of the limitations of section 501(h) to members of an affiliated group of organizations (as defined in §56.4911–7(e)(1)).

(b) *Determination required.* For each taxable year of an affiliated group of organizations, the calculations described in §1.501(h)–3(b)(1)(i) and (ii) must be made, based on the expenditures of the group. If, for a taxable year of an affiliated group, it is determined that the sum of the affiliated group's lobbying or grass roots expenditures for the group's base years exceeds 150 percent of the sum of the group's corresponding nontaxable amounts for the base years, then under section 501(h), each member organization that is an electing member organization (as defined in §56.4911–7(e)(4)) at any time in the taxable year of the affiliated group shall be denied tax exemption beginning with its first taxable year beginning after the end of such taxable year of the affiliated group. Thereafter, exemption shall be denied unless (pursuant to §1.501(h)–3(d)) the organization reapplies and is recognized as exempt as an organization described in section 501(c)(3). For purposes of this section, the term "base years" generally means the taxable year of the affiliated group for which a determination is made and the group's three preceding taxable years. Base years, however, do not include any year preceding the first year in which at least one member of the group was treated as described in section 501(c)(3).

(c) *Member organizations that are not electing organizations.* An organization that is a member of an affiliated group of organizations but that is not an electing member organization remains subject to the "substantial part test" described in section 501(c)(3) with respect to its activities involving attempts to influence legislation.

(d) *Filing of information relating to affiliated group of organizations*—(1) *Scope.* The filing requirements described in this paragraph (d) apply to each member of an affiliated group of organizations for the taxable year of the member with which, or within which, ends the taxable year of the affiliated group.

(2) *In general.* Each member of an affiliated group of organizations shall provide to every other member of the group, before the first day of the second month following the close of the affiliated group's taxable year, its name, identification number, and the information required under §1.6033–2(a)(2)(ii)(*k*) for its expenditures during the group's taxable year and for prior taxable years of the group that are base years under paragraph (b). For groups electing under §56.4911–7(e)(5) to have each member file information with respect to the group based on its taxable year, each member shall provide the information required by the preceding sentence by treating each taxable year of any member of the group as a taxable year for the group.

(3) *Additional information required.* In addition to the information required by §1.6033–2(a)(2)(ii)(*k*), each member of an affiliated group of organizations must provide on its annual return the group's taxable year and, if the election under §56.4911–7(e)(5) is made, the name, identification number, and taxable year identifying the return with which its consent to the election was filed.

(4) *Information required of electing member organization.* In addition to the information required by §1.6033–2(a)(2)(ii)(*k*) and paragraph (d)(3) of this section, each electing member organization (as defined in §56.4911–7(e)(4)) must provide on its annual return—

(i) The name and identification number of each member of the group, and

(ii) The appropriate calculation described in §56.4911–8(d), if the organization is an electing member organization liable for all or any portion of the excise tax imposed by section 4911(a).

(e) *Example.* The provisions of this section may be illustrated by the following example:

Example. (1) *M*, *N*, and *O* are affiliated organizations under §56.4911–7(a). *M*'s taxable year ends November 30, *N*'s, January 31, and *O*'s, June 30. On June 20, 1979, *O* files Form 5768 to elect to be governed by the expenditure test. *M* files Form 5768 in December of 1979. Neither *M* nor *O* revokes the election and no organization makes the election provided for in §56.4911–7(e)(5). *M*, *N*, and *O* constitute an affiliated group of organizations, the first taxable year of which is the calendar year 1979.

(2) Because the organizations did not elect under §56.4911–7(e)(5) to use their own taxable years as the group's taxable years, the expenditures of the affiliated group for its first taxable year are the expenditures made by *M*, *N*, and *O* during calendar year 1979, and are reported by *M*, *N*, and *O* on their returns for their taxable years within which falls December 31, 1979. *M* reports the expenditures of the affiliated group for 1979 on its return for its taxable year ending November 30, 1980; and *O*, on its return for its taxable year ending June 30, 1980. *N* is not an electing member (as defined in §56.4911–7(e)(4)). Accordingly, under paragraph (d)(3)(i) of this section, it reports the name and identification number of each member of the group.

(4) For the affiliated group's taxable years 1979, 1980, 1981, and 1982, the group has excess lobbying expenditures. Under section 4911(f)(1)(B) and §56.4911–8(d), *M* and *O*, as electing member organizations, are liable for a portion of the 25 percent excise tax imposed on the group's excess lobbying expenditures, based on their respective shares of the lobbying expenditures of all electing member organizations. For 1979, the excess lobbying expenditures are $20,000 ($100,000 – $80,000). The tax is 25% of $20,000 or $5,000; *M* must pay $3,750 [($60,000/$80,000) × $5,000 = $3,750], and *O* must pay $1,250 [($20,000/$80,000) × $5,000 = $1,250]. For 1980, the tax is $10,000 and each must pay $5,000. For 1981, the tax is $1,250 *M* must pay $750 and *O* must pay $500. For 1982, the tax is $30,000. *M* must pay $24,000 and O must pay $6,000. *M* and *O* are not liable for any separate §4911 excise tax that otherwise would have been imposed on their separate excess lobbying expenditures.

(5) Under §56,4911–9(b), the group must make the calculation described in §1.501(h)–3(b)(1) 1982. The

(3) The following tables summarize the expenditures by the affiliated group for the calendar years indicated. None of the group's lobbying expenditures for its taxable years 1979 through 1982 were grass roots expenditures.

Table I: Group's Expenditures

Year	Exempt Purpose Expenditures (EPE)	Calculation	Lobbying Nontaxable Amount (LNTA)	Lobbying Expenditures (LE)
1979	$400,000	(20% × $400,000 =)	$80,000	$100,000
1980	$300,000	(20% × $300,000 =)	$60,000	$100,000
1981	$600,000	(20% × $500,000 + 15% × $100,000 =)	$115,000	$120,000
1982	$500,000	(20% × $500,000 =)	$100,000	$220,000
	Totals: $1,800,000	$355,000	$540,000	

	Exempt Purpose Expenditures		Lobbying Nontaxable Amount		Lobbying Expenditures		
	M	*O*	*M*	*O*	*M*	*O*	*M plus O*
1979	125,000	100,000	25,000	20,000	60,000	20,000	80,000
1980	100,000	50,000	20,000	10,000	40,000	40,000	80,000
1981	250,000	100,000	50,000	20,000	60,000	40,000	100,000
1982	200,000	100,000	40,000	20,000	160,000	40,000	200,000

following illustrates only the required calculation for the group's taxable year 1982. For its taxable year 1982, the group must determine whether it normally has made lobbying expenditures in excess of its lobbying ceiling amount. The determination takes into account the group's expenditures in base years 1979 through 1982. The sum of the group's lobbying expenditures for the base years ($540,000) exceeds 150% of the sum of the group's lobbying nontaxable amounts for the base years (150% × $355,000 = $532,000). Therefore, for its taxable year 1982, the group normally has made lobbying expenditures in excess of its lobbying ceiling amount. Under section 501(h) and §56.4911–9(b), *M* is not exempt from tax under section 501(a) as an organization described in section 501(c)(3) for its taxable year beginning December 1, 1983, and *O* is not exempt for its year beginning July 1, 1983. Whether *N*'s lobbying expenditures disqualify it for tax exemption at any time after January 1, 1979, is determined under the substantial part test of section 501(c)(3).

(f) *Cross reference*. For other provisions relating to members of an affiliated group of organizations, see §§56.4911–3(d)(2), 56.4911–4(c)(2), 56.4911–4(e), and 56.4911–5(f)(3).

§56.4911–10 Members of a limited affiliated group of organizations.

(A) *Scope*. This section provides additional rules for members of a limited affiliated group of organizations, as defined in paragraph (b) of this section (relating generally to organizations that are affiliated solely by reason of provisions of their governing instruments that extend control solely with respect to national legislation). Except otherwise provided in this section, §§56.4911–8 and 56.4911–9 do not apply to members of a limited affiliated group. Thus, as modified by this section, the regulations under sections 501(h) and 4911 apply to electing members of a limited affiliated group individually. For example, §§56.4911–2(b), 56.4911–2(c), and 56.4911–4 which, by their terms, include amounts described in paragraph (d) of this section, are used in applying sections 501(h) and 4911 to controlling member organizations (within the meaning of paragraph (c) of this section). Except as otherwise provided in this section, members of a limited affiliated group that are not electing organizations are subject to the substantial part test.

(b) *Members of limited affiliated group*. For purposes of section 4911, a limited affiliated group consists of two or more organizations that meet the following requirements:

(1) Each organization is a member of an affiliated group of organizations as defined in section 56.4911–7(e);

(2) No two members of the affiliated group described in paragraph (b)(1) of this section are affiliated by reason of interlocking governing boards under section 56.4911–7(b); and

(3) No member of the affiliated group described in paragraph (b)(1) of this section is, under its governing instrument, bound by decisions of one or more of the other such members on legislative issues other than national legislative issues.

Each organization in a group of organizations that satisfies the requirements of the preceding sentence is a member of the limited affiliated group.

(c) *Controlling and controlled organizations*. For purposes of this section, a member of a limited affiliated group is a controlling member organization if it controls one or more of the other members of the limited affiliated group, and a member of a limited affiliated group is a controlled member organization if it is controlled by one or more of the other members of the limited affiliated group. For purposes of the preceding sentence, whether an organization controls a second organization shall be determined by whether the second organization is bound, under its governing instruments, directly or indirectly, by actions taken by the first organization on national legislative issues.

(d) *Expenditures of controlling organization*— (1) *Scope*. This paragraph (d) applies to a controlling member organization that has the expenditure test election in effect for its taxable year. This paragraph (d) applies whether or not the organization is also a controlled member organization. In determining a controlling member organization's expenditures, no expenditure shall be counted twice.

(2) *Expenditures for direct lobbying*. A controlling member organization for which the expenditure test election is in effect shall include in its direct lobbying expenditures for its taxable year the direct lobbying expenditures (as defined in §56.4911–2(b)) paid or incurred with respect to national legislative issues during such year by each organization that is a member of the limited affiliated group and is controlled (within the meaning of paragraph (c) of this section) by such controlling member organization.

(3) *Grass roots expenditures*. A controlling member organization for which the expenditure test election is in effect shall include in its grass roots expenditures for its taxable year the grass roots expenditures (as defined in §56.4911–2(c)) paid or incurred with respect to national legislative issues during such year by each organization that is a member of the limited affiliated group and is controlled (within the meaning of paragraph (c) of this section) by such controlling member organization.

(4) *Exempt purpose expenditures*. The exempt purpose expenditures of a controlling member organization do not include the exempt purpose expenditures (other than lobbying expenditures described in paragraphs (d)(2) and (d)(3) of this section), of any organization that is a controlled member organization with respect to it.

(e) *Expenditures of controlled member.* A controlled member organization that is an electing organization but that does not control (within the meaning of paragraph (c) of this section) any organization in the limited affiliated group shall apply sections 501(h) and 4911 and the regulations thereunder without regard to the expenditures of any other member of the limited affiliated group.

(f) *Reports of members of limited affiliated groups*—(1) *Controlling member organization's additional information on annual return.* In addition to the information required by §1.6033-2(a)(2)(ii)(*k*), each controlling member organization for which the expenditure test election is in effect must provide on its annual return the name and identification number of each member of the limited affiliated group.

(2) *Reports of controlling members to other members.* Each controlling member organization for which an expenditure test election is in effect must notify each member that it controls of its taxable year in order for the controlled organization to prepare the report required by paragraph (f)(3) of this section. Such notification must be made before the beginning of the second month after the close of each taxable year of the controlling member for which the election is in effect.

(3) *Reports of controlled member organization.* Every controlled member organization (whether or not the expenditure test election is in effect with respect to it shall provide to each member of the limited affiliated group that controls it, before the first day of the second month following the close of the taxable year of each such controlling organization, its name, identification number, and the lobbying expenditures and grass roots expenditures on national legislative issues incurred by the controlled member organization.

(g) *National legislative issues.* The term "national legislative issue" means legislation, limited to action by the Congress of the United States or by the public in any national procedure. If an issue is both national and local, it is characterized as a national legislative issue if the contemplated legislation is Congressional legislation.

(h) *Examples.* The provisions of this section are illustrated by the following examples.

Example (1). State *X* has an income tax law that uses definitions contained in the Internal Revenue Code as it may be amended from time to time. Legislation to change a definition in the Internal Revenue Code is pending in Congress. This is a national legislative issue even though Congressional action may affect state law.

Example (2). Organization *M* takes a position favoring approval by Congress of a proposed amendment to the United States Constitution. This is a national legislative issue. After approval by Congress and submission to the states for ratification, the proposed amendment ceases to be a national legislative issue.

Example (3). *N*, *O*, and *P* are organizations described in section 501(c)(3) that do not have interlocking governing boards, within the meaning of §56.4911-7(b). *N* has elected the expenditure test under section 501(h). By virtue of the governing instruments of *O* and *P*, any decision made by *N* on national legislative issues (such as issues concerning action on acts, bills, resolutions, or similar items by Congress) binds both *O* and *P*. Under their governing instruments, *O* and *P* are not bound on any other issues. Therefore, *N*, *O*, and *P* constitute a limited affiliated group. If *P* sends a series of letters and pamphlets to members of Congress in support of bill *V*, their cost will be included in *N*'s and *P*'s expenditures for direct lobbying and in *N*'s and *P*'s exempt purposes expenditures, but will not be included in *O*'s lobbying expenditures. If *N* hires a lobbyist to solicit support for bill *V*, the cost of hiring the lobbyist will be includable only in *N*'s lobbying expenditures. Any lobbying expenditures incurred by either *O* or *P* on any issue that is not a national legislative issue will not be included in *N*'s lobbying expenditures.

Example (4). *Y* is an electing organization and a member of a limited affiliated group of organizations. *Y* controls organizations *A*, *B*, and *C* with respect to national legislative issues but is not controlled by any other organization. *Y*'s taxable year is the calendar year. During 1982, *A* dissolves on March 15th and *D*, also controlled by *Y* with respect to national legislative issues, is established on May 1st. For 1982 the limited affiliated group comprises *Y*, *A*, *B*, *C*, and *D*.

Example (5). *P*, *Q*, *R*, and *S* are electing organizations. The governing instruments of *Q* require it to adopt the positions on national legislative issues adopted by *P*, *R* is similarly bound by *Q*'s positions. *R* and *S* have interlocking governing boards, within the meaning of section 56.4911-7(b), but *S*'s governing instruments do not require it to adopt the position of any other organization on any legislative issues. Under §56.4911-7(e)(1), *P*, *Q*, *R*, and *S* are members of an affiliated group. Applying paragraph (b) of this section, it is determined that (1) *P*, *Q*, *R* and *S* are members of an affiliated group; and (2) *R* and *S* are affiliated by reason of interlocking governing boards. Accordingly, *P*, *Q*, *R* and *S* are not a limited affiliated group. Similarly *P*, *Q*, and *R* do not constitute a limited affiliated group because they are members of an affiliated group comprising *P*, *Q*, *R*, and *S*, two of whose members, *R* and *S*, are affiliated by reason of interlocking governing boards.

Example 6. *T*, *U*, *V*, and *W* are electing organizations. The governing instruments of *U* and *V* require them to adopt the positions on national legislative issues adopted by *T*, but do not require them to adopt the positions of any organization on any other legislative issues. The governing documents of *W* require it to adopt the positions of *V* on all legislative issues. Applying paragraph (b) of this section, it is determined that, (1) *T*, *U*, *V*, and *W* are all members of an affiliated group: (2) no two of *T*, *U*, *V*, and *W* are affiliated by reason of interlocking governing boards; but (3) *W* is bound, under its governing instrument, by decisions of *V* on legislative issues that are not national legislative issues. Accordingly, *T*, *U*, *V*, and *W* do not constitute a limited affiliated group. Similarly, *T*, *U*, and *V* do not constitute a limited affiliated group. *T*, *U*, *V*, and *W* are an affiliated group under §56.4911-7.

§56.6001-1 Notice or regulations requiring records, statements, and special returns.

(a) *In general.* The provisions of §53.6001-1 shall apply to any person subject to tax under chapter 41, Subtitle D, of the Code, by treating each reference to chapter 42 in §53.6001-1 as a reference to chapter 41.

(b) *Cross references.* See §56.4911-6 for general information on records of lobbying expenditures. See §§56.4911-9(d) and 56.4911-10(f) for information that members of an affiliated group and a limited affiliated group, respectively, are to provide to other members of the group and to the Internal Revenue Service.

§56.6011-1 General requirement of return, statement, or list.

Every organization liable for the tax imposed by section 4911(a) shall file an annual return with respect to the tax on the form prescribed by the Internal Revenue Service for that purpose and shall include the information required by the form and its instructions.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on November 4, 1986, 8:45 a.m., and published in the issue of the Federal Register for November 5, 1986, 51 F.R. 40211)

Deletions from Cumulative List of Organizations Contributions to Which Are Deductible Under Section 170 of the Code

Announcement 86-117

The names of organizations that no longer qualify as organizations described in section 170(c)(2) of the Internal Revenue Code of 1954 are listed below.

Generally, the Service will not disallow deductions for contributions made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that an organization no longer qualifies. However, the Service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170(c)(2) if the organization has not timely filed a suit for declaratory judgment under section 7428 and if the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsible for or was aware of the activities or omissions of the organization that brought about this revocation.

If on the other hand a suit for declaratory judgment has been timely filed, contributions from individuals and organizations described in section 170(c)(2) that are otherwise allowable will continue to be deductible. Protection under section 7428(c) would begin on December 1, 1986, (the date of publication of this announcement) and would end on the date the court first determines that the organization is not described in section 170(c)(2) as more particularly set forth in section 7428(c)(1). For individual contributors, the maximum deduction protected is $1,000, with a husband and wife treated as one contributor. This benefit is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organization that were the basis for revocation.

Average Annual Mortgage Originations

Announcement 86–118

Issuers of mortgage revenue bonds may rely on the average annual mortgage originations for each state, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands, as published in Rev. Proc. 85–39, 1985–2 C.B. 443, for purposes of determining whether the required portion of bond proceeds will be made available for financing single-family, owner-occupied residences in targeted areas under the provisions of section 143(h) of the Internal Revenue Code. Section 143(h) was added by the Tax Reform Act of 1986, Pub. L. No. 99–514, section 1301, 100 Stat. , to replace former section 103A(h).

Section 103(a) of the Code provides that, with certain exceptions, gross income does not include interest on any state or local bond. If the applicable requirements set forth in sections 146, 147, 148, and 149 are satisfied, section 103(a) applies to a qualified mortgage bond. Section 143(a)(1)(A) provides that a qualified mortgage bond is a bond that is issued as part of a qualified mortgage issue. Section 143(a)(2)(A) provides that a qualified mortgage issue means an issue by a state or a political subdivision of the state of one or more bonds, but only if all of the proceeds of such issue (exclusive of issuance costs and a reasonably required reserve) are to be used to finance owner-occupied residences and certain additional requirements are satisfied.

This announcement addresses the additional requirement contained in section 143(h) of the Code. Section 143(h) requires that a portion of bond proceeds must be made available for owner financing of targeted area residences. A targeted area residence is a residence in either a qualified census tract or an area of chronic economic distress. The portion of the proceeds of an issue required to be made available in targeted areas is the lesser of (1) 20 percent of the proceeds, or (2) 40 percent of the average annual aggregate principal amount of mortgages executed during the immediately preceding 3 calendar years for single-family, owner-occupied residences in targeted areas within the jurisdiction of the issuing authority.

When determining the portion of the proceeds that must be made available for owner financing of targeted area residences under the second alternative, issures of mortgage revenue bonds may rely upon the amount produced by a formula described in section 6a.103A–2(h)(3) of the Temporary Income Tax Regulations (issued under former section 103A(h) of the Code). One component of the formula is the average annual mortgage originations for the state in which the issuing jurisdiction is located. Section 6a.103A–2(h)(3) provides that the issuing jurisdiction may use the Treasury Department estimate of the average annual mortgage originations published with the mortgage volume safe harbor estimate. Under former section 103A(g), a state volume cap was equal to the greater of 9 percent of the average annual mortgage originations or $200,000,000. The volume cap under section 146 is generally equal to the greater of $75 multiplied by the state population, or $250,000,000.

Rev. Proc. 85–39 contains the list of 1985 state ceiling safe harbor limitations for qualified mortgage bonds. It also lists the average annual mortgage originations for each state. Issuers of mortage revenue bonds may rely on the average annual mortgage originations published in Rev. Proc. 85–39 until new average annual mortgage originations are published.

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

SPECIAL ANNOUNCEMENT

Announcement 86–119, page 25.
Service One, Income Tax, of the Bulletin Index-Digest System has been revised. This Service provides a comprehensive and up-to-date method of researching Income Tax items published in 33 years of the Bulletin (1953–1985), and may now be purchased from the Superintendent of Documents, Washington, D.C. Estate and Gift Taxes (Service Two), Employment Taxes (Service Three), and Excise Taxes (Service Four) will be revised as of December 1986.

INCOME TAX

Rev. Rul. 86–141, page 6.
S corporations; transition rules for corporations converting to S corporation status. Guidance is provided to corporations who may wish to convert to S corporation status to obtain transition relief from the corporate level tax on built-in gains recognized by a former C corporation during the 10-year period after it becomes an S corporation.

Rev. Rul. 86–143, page 5.
Federal rates, adjusted federal rates, adjusted federal long-term rate, and the long-term tax-exempt rate. For purposes of sections 1274, 1288, 382 and other sections of the Code, a table sets forth the rates for December 1986.

Rev. Rul. 86–144, page 4.
Moratorium on application of section 1.861–8 of the regulations; combined taxable income of a Domestic International Sales Corporation (DISC) or a Foreign Sales Corporation (FSC). The moratorium on the application of section 1.861–8 of the regulations does not affect the calculation of the combined taxable income of a DISC or FSC and its related supplier.

Finding Lists begin on page 29.

Internal Revenue Service

T22.23:

Rev. Proc. 86–44, page 15.
Areas in which the Service will now rule; reorganizations; section 368(a)(2)(E)(ii) "control" requirements. The Service will now rule as to whether a transaction qualifies under section 368(a)(1)(A) and (a)(2)(E) when there has been a prior redemption of stock of the acquired corporation as part of the plan of reorganization. Rev. Rul. 86–3 modified.

Ct. D. 2036, page 10.
Refunds and credits; Panama Canal Commission employees. U.S. citizen employees of the Panama Canal Commission are not entitled to refunds of federal income taxes paid on income received as a result of their work for the Commission. O'Connor, Supreme Court of the United States.

EMPLOYMENT TAXES

T.D. 8105, page 7.
LR–12–86, page 25.
Temporary and proposed regulations under sections 6011, 6071, 6157 and 6302 of the Code relate to the time and manner of making quarterly payments of the railroad unemployment repayment tax.

TAX CONVENTIONS

Rev. Rul. 86–145, page 14.
United States-United Kingdom Income Tax Convention; Article 15(2)(a). The term "tax year concerned" refers to the tax year in which personal services are performed rather than to the tax year in which compensation for those services is received.

ADMINISTRATIVE

Rev. Proc. 86–45, page 15.
Magnetic tape reporting; information returns; Form 8027. Requirements and conditions are set forth for submitting Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, on magnetic tape. Rev. Proc. 84–69 superseded.

Page 23.
Social Security contribution and benefit base. The Secretary of the Department of Health and Human Services has announced that the contribution and benefit base for remuneration paid in 1987 and self-employment income earned in taxable years beginning in 1987 is $43,800.

Announcement 86–120, page 26.
Tables are provided for the withholding of income tax from total distributions paid in 1987 under a qualified pension, profit-sharing, or stock bonus plan. These tables will appear in Publication 493, Alternative Tax Withholding Methods and Tables.

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 280G.—Golden Parachute Payments

Federal short-term, mid-term and long-term rates are set forth for the month of December, 1986. See Rev. Rul. 86-143, page 5.

Section 382.—Limitation on Net Operating Loss Carryforwards and Certain Built-In Losses Following Ownership Change

The adjusted federal long-term rate is set forth for the month of December 1986. The long-term tax-exempt rates will be set forth beginning in January 1987. See Rev. Rul. 86-143, page 5.

Section 383.—Special Limitations on Unused Business Credits, Research Credits, Foreign Taxes, and Capital Losses

The adjusted federal long-term rate is set forth for the month of December 1986. The long-term tax-exempt rates will be set forth beginning in January 1987. See Rev. Rul. 86-143, page 5.

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates are set forth for the month of December, 1986. See Rev. Rul. 86-143, page 5.

Section 468.—Special Rules for Mining and Solid Waste Reclaimation and Closing Costs

Federal short-term, mid-term and long-term rates are set forth for the month of December, 1986. See Rev. Rul. 86-143, page 5.

Section 483.—Special Limitations on Certain Excess Credits, etc.

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of December 1986. See Rev. Rul. 86-143, page 5.

Section 861.—Income from Sources within the United States

26 CFR 1.861–8: Computation of taxable income from sources within the United States and from other sources and activities.
(Also Section 994, 1.994–1.)

Moratorium on application of section 1.861–8 of the regulations; combined taxable income of a Domestic International Sales Corporation (DISC) or a Foreign Sales Corporation (FSC). The moratorium on the application of section 1.861–8 of the regulations does not affect the calculation of the combined taxable income of a DISC or FSC and its related supplier.

Rev. Rul. 86–144

ISSUE

Whether the moratorium on the application of section 1.861-8 of the Income Tax Regulations dealing with the allocation of research and development expenses, under section 223 of the Economic Recovery Tax Act of 1981 (ERTA 81), as extended by section 126 of the Tax Reform Act of 1984 (TRA 84), applies for the purpose of computing the combined taxable income of a Domestic International Sales Corporation (DISC), or a Foreign Sales Corporation (FSC), and its relates supplier.

FACTS

Situation 1

X is a calendar year domestic corporation engaged in the business of manufacturing products for sale both domestically and abroad. *Y* is a wholly owned domestic subsidiary of *X* that qualifies as a DISC under section 992 of the Code for the years 1983 and 1984. *X* pays a commission to *Y* in connection with the sale of export property by *X*. The income generated by the export sales consists of income which is United States source and foreign source income under sections 861 through 863. Both *X* and *Y* use the calendar year as their taxable year.

For the year ended December 31, 1983, *X* and *Y* elected to use the combined taxable income (CTI) method under section 994(a)(1) for determining *Y*'s taxable income and, correspondingly, *X*'s commission expense deduction. *X* incurred certain research or experimental expenses within the meaning of section 174 of the Internal Revenue Code during its 1983 tax year from activities conducted in the United States related to exported products. These research and experimental expenses constitute research and development expenses (R&D expenses) as that term is used for purposes of section 1.861-8 of the Income Tax Regulations relating to the allocation and apportionment of R&D expenses.

Situation 2

The facts are the same as in Situation 1, except that the R&D expenses were incurred in the tax year ending December 31, 1984.

Situation 3

The facts are the same as in Situation 1, except that the R&D expenses were incurred in the tax year ended December 31, 1985, and that *X* pays a commission to *Z* in connection with the sale of export property by *X*. *Z* is a wholly owned foreign subsidiary of *X* that qualifies as a FSC under section 923 of the Code.

LAW AND ANALYSIS

Section 994 of the Code provides that the taxable income of a DISC and its related supplier may be based on a transfer price calculated using the combined taxable income method. Under section 1.994–1(c)(6) of the regulations, the CTI of a DISC and its related supplier from a sale of export property is defined as the excess of the gross receipts (as defined in section 993(f)) of the DISC or its related supplier from the sale, over the total costs of the DISC and related supplier which relate to such gross receipts. Costs (other than cost of goods sold) that are treated as relating to gross receipts from sales of export property include (a) expenses, losses, and other deductions definitely related and therefore allocated thereto and (b) a ratable part of any other expenses, losses, or other deductions that are not definitely related to a class of gross income, determined under the rules set forth in section 1.861–8.

Section 1.861–8 of the regulations provides rules for the allocation and apportionment of expenses and deductions (*e.g.*, R&D expenses). Under Example 23 of section 1.861–8(g), R&D expenses are allocated and apportioned in two stages. In the first stage, R&D expenses are apportioned in order to calculate CTI for DISC and FSC purposes by treating the DISC or FSC and its related supplier as a single taxpayer. Section 1.861–8(f)(1)(iii) and Example 23 of Section 1.861–8(g). In the second stage, R&D expenses are apportioned for purposes of calculating the foreign tax credit limitation under section 904. Section 1.861–8(f)(1)(i).

The computation of CTI (first stage) does not involve geographic sourcing of income. It requires apportionment of R&D expenses between the statutory grouping of gross income from exports and other gross income. The sourcing of the income as United States source of foreign source is irrelevant when allocating deductions for purposes of determining CTI. On the other hand, geographic sourcing of income is required for purposes of calculating the foreign tax credit limitation in the second stage of apportionment.

Section 223 of the ERTA 81 provides that, for a taxpayer's first two taxable years beginning after August 13, 1981, all research and experimental expenditures (within the meaning of section 174 of the Code) which are paid or incurred in those taxable years for research activities conducted in the United States are to be allocated or apportioned to income from sources within the United States. Section 223 of ERTA 81 also directs the Treasury to conduct a study with respect to the impact which section 1.861–8 of the regulations would have on research and experimental activities conducted in the United States and on the availability of the foreign tax credit. The Conference Committee Report, H.R. Rep. No. 97–215, 97th Cong., 1st Sess. 224 (1981), 1981–2 C.B. 496, accompanying ERTA states that, during the two-year moratorium, research and experimental expenses which are paid or incurred in those taxable years for research activities conducted in the United States shall be allocated or apportioned to income from *sources within the United States* for all purposes under the Code.

Section 126 of the TRA 84 extends the moratorium on the research and experimental expense allocation rules to apply to taxpayer's taxable years beginning after August 13, 1983, and on or before August 1, 1985. In the event that the taxpayer's third taxable year commencing after August 13, 1981, does not begin during this period, the extension of the moratorium applies also to that taxable year. The Conference Committee Report, H.R. Rep. No. 98–861, 98th Cong., 2d Sess. 1262 (1984), 1984–3 (Vol. 2) C.B. 516, accompanying the TRA 84 states that the moratorium applies only to the allocation of research expenses for the purpose of *geographic sourcing* of income and that it does not apply for other purposes, such as the computation of combined taxable income of a DISC or FSC and its related supplier.

The moratorium under section 223 of ERTA 81 was enacted because of Congressional concern that the allocation and apportionment of R&D expenses under section 1.861–8 of the regulations could cause research activities performed in the United States to be moved abroad. The same concerns that resulted in the ERTA 81 legislation were present when Congress extended the moratorium by enacting section 126 of TRA 84. Prior to the moratorium, a percentage of all R&D expenses was apportioned between the U.S. and foreign source income. Section 1.861–8(e)(3). Expenses apportioned to foreign source income generally reduce the amount of the foreign tax credit by operation of the limitation contained in section 904. In order to encourage domestic research activities, Congress enacted the moratorium requiring the allocation or apportionment of domestic research and experimental expenses against U.S. source income. This allocation method provides a benefit to taxpayers performing research in the United States by increasing the amount of the foreign tax credit limitation.

The determination of CTI differs from that of foreign source taxable income. CTI determines the relative amount of income earned by a DISC or FSC and its related supplier from the export of U.S. manufactured goods and, thereby, the tax benefit derived from the export transaction. A taxpayer may derive gross receipts qualifying for DISC or FSC treatment, calculate CTI, and claim the related tax benefits with respect to export transactions irrespective of whether they generate foreign source or domestic source income. Therefore, the sourcing of income is not relevant for purposes of calculating CTI.

The moratorium enacted in section 223 of ERTA 81 and continued in section 126 of TRA 84 revised the allocation and apportionment of R&D expenses for identical reasons *i.e.*, in order to modify the calculation of foreign source taxable income and adjust the foreign tax credit limitation. The moratorium was not intended to modify the amount of DISC or FSC benefits derived from export transactions and, therefore, does not apply to the determination of CTI.

HOLDING

The moratorium on the application of section 1.861–8 of the regulations, as prescribed by section 223 of ERTA and as extended by section 126 of the TRA 84, does not affect the calculation of the combined taxable income of *X* and *Y* or *X* and *Z*. As a result, in all the situations described above, a portion of *X*'s research expenses will be apportioned between gross income from export sales, without regard to its source as domestic or foreign, and gross income from domestic sales under section 1.861–8 in the computation of the combined taxable income of the DISC or FSC and its related supplier.

Section 994.—Intercompany Pricing Rules

26 CFR 1.994–1: Inter-company pricing rules for DISC's.

The moratorium on the application of section 1.861–8 of the regulations does not affect the calculation of the combined taxable income of a DISC or FSC and its related supplier. See Rev. Rul. 86–144, page 4.

Section 1273.—Determination of Amount of Original Issue Discount

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of December 1986. See Rev. Rul. 86–143, this page.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 280G, 382, 383, 467, 468, 483, 1273, 1288, 7872.)

Rev. Rul. 86–143

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of December 1986 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	6.18%	6.09%	6.04%	6.01%
110% AFR	6.81%	6.70%	6.64%	6.61%
120% AFR	7.44%	7.31%	7.24%	7.20%
Mid-Term				
AFR	7.16%	7.04%	6.98%	6.94%
110% AFR	7.89%	7.74%	7.67%	7.62%
120% AFR	8.63%	8.45%	8.36%	8.30%
Long-Term				
AFR	7.71%	7.57%	7.50%	7.45%
110% AFR	8.50%	8.33%	8.25%	8.19%
120% AFR	9.29%	9.08%	8.98%	8.91%

For purposes of section 1288 of the Code, the short-term, mid-term, and long-term adjusted federal rates (adjusted AFR) for the month of December 1986 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-term				
AFR	4.13%	4.09%	4.07%	4.06%
Mid-term				
AFR	5.10%	5.04%	5.01%	4.99%
Long-term				
AFR	6.35%	6.25%	6.20%	6.17%

For purposes of section 382 of the Code, the adjusted federal long-term rate for December 1986 is 6.35 percent. The long-term tax-exempt rate for section 382 purposes will be published monthly beginning in January 1987.

Section 1288.—Treatment of Original Issue Discount on Tax-Exempt Obligations

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of December 1986. See Rev. Rul. 86-143, page 5.

Section 1362.—Election; Revocation; Termination

(Also Section 1374.)

S corporations; transition rules for corporations converting to S corporation status. Guidance is provided to corporations who may wish to convert to S corporation status to obtain transition relief from the corporate level tax on built-in gains recognized by a former C corporation during the 10-year period after it becomes an S corporation.

Rev. Rul. 86-141[1]

PURPOSE

Following the enactment of the Tax Reform Act of 1986, Pub. L. No. 99-514, 100 Stat. (Act), there has been uncertainty regarding the manner in which a corporation can obtain transition relief from the provisions of subtitle D of title VI of the Act by electing to be an S corporation. The provisions of subtitle D generally require a corporation to recognize gain or loss on a liquidating sale of its assets and on a liquidating or nonliquidating distribution of its assets (the repeal of the *General Utilities* doctrine). This revenue ruling interprets certain pertinent provisions of the Act and of subchapter S of the Internal Revenue Code that are applicable to a corporation that seeks to obtain transition relief by electing to be an S corporation.

LAW

Section 1374 of the Code, as amended by section 632 of the Act, generally imposes a corporate-level tax on the "built-in" gains recognized by a former C corporation during the 10-year period beginning with the first day of the first taxable year for which the corporation becomes an S corporation (built-in gains tax).

Section 633(b) of the Act contains the effective date for the amendments to section 1374 of the Code. It provides that the built-in gains tax shall apply in taxable years beginning after December 31, 1986, but only if the first taxable year for which the corporation is an S corporation is pursuant to an election made after December 31, 1986. Thus, as explained in the Conference Report, the amendments to section 1374 "will generally be effective with respect to S elections made after December 31, 1986." 2 H.R. Rep. No. 99-841 (Conf. Rep.), 99th Cong., 2d Sess. II-203 (1986). Section 1374, prior to its amendment by section 632 of the Act, continues to apply in situations where section 1374, as amended by the Act, is inapplicable.

Section 1362(a)(1) of the Code provides generally that a small business corporation, as defined in section 1361(b) (small business corporation), may make an election (S election) to be an S corporation. Section 1362(b)(1) provides that an S election may be made for the current or the following taxable year of the corporation, but an election may be effective for the current taxable year only if it is made on or before the 15th day of the third month of that year.

Section 18.1362-1 of the Temporary Income Tax Regulations provides that an S election should be made by filing Form 2553, Election by a Small Business Corporation, at the appropriate Internal Revenue Service Center along with the required consents of the shareholders. The regulations further provide, in effect, that section 1362(b)(2) of the Code (concerning certain elections that are made for a taxable year but are treated as made for the succeeding taxable year) applies only if a corporation meets all of the requirements provided in section 1361(b) at the time the election is made.

Section 1362(g) of the Code prohibits a small business corporation (and any successor corporation) from making a new S election with respect to any of the first five taxable years after a termination of its S election was effective pursuant to section 1362(d), unless the Secretary consents to such new election.

Section 633(d)(1)-(7) of the Act provides a transition rule for a qualified small corporation (qualified corporation) that completely liquidates prior to January 1, 1989. Section 633(d)(8) of the Act provides that rules similar to the rules of section 633(d) of the Act shall apply for purposes of applying section 1374 of the Code, as amended by the Act, in the case of a qualified corporation that becomes an S corporation before January 1, 1989.

Section 633(d)(1) of the Act provides that if a qualified corporation completely liquidates before January 1, 1989, it generally will not be subject to the repeal of the *General Utilities* doctrine.

Section 633(d)(2) of the Act, however, provides that section 633(d)(1) of the Act shall not apply, and thus gain or loss will be recognized, on the liquidating sale or distribution of certain items, including assets resulting in ordinary gain or loss and capital assets held for not more than 6 months. Further, section 633(d)(1) of the Act provides that this small corporation exception will be phased out where the applicable value of the corporation exceeds $5,000,000. If the applicable value of a corporation exceeds $5,000,000, gain or loss will be recognized to the extent that such gain or loss exceeds the applicable percentage of each gain or loss from capital assets held for more than 6 months. The applicable percentage equals 100 percent reduced by the amount that bears the same ratio to 100 percent as the excess of the applicable value over $5,000,000 bears to $5,000,000.

---

[1] Also released as News Release IR-86-159, dated November 20, 1986.

Section 633(d)(5) of the Act generally defines "qualified corporation" as any corporation more than 50 percent (by value) of the stock in which is held by 10 or fewer "qualified persons," as defined in section 633(d)(6) of the Act, and the applicable value of which does not exceed $10,000,000.

Section 633(d)(4) of the Act defines "applicable value" as the fair market value of all of the stock of the corporation on the date of the adoption of the plan of complete liquidation (or if greater, on August 1, 1986).

ANALYSIS AND HOLDINGS

Conversion To S Corporation Status

As stated above, section 1374, as amended by the Act, is not applicable to an S corporation if its S election in effect after January 1, 1987, was made before that date. The date on which the S election is made is determinative, notwithstanding that the election may not be effective until a taxable year beginning after December 31, 1986. *See* Conference Report at II–203. A corporation with such an election in effect is subject to section 1374 as in effect prior to its amendment by the Act. In order to avoid section 1374, as amended by the Act, a corporation whose S election was terminated before January 1, 1987, must have made a new election before January 1, 1987. For example, a corporation whose S election was made in 1976 and was terminated in 1978 must make a new, valid S election prior to January 1, 1987, in order to avoid section 1374, as amended by the Act.

Section 1362 of the Code and section 18.1362–1 of the temporary regulations provide that, to make a valid S election, a corporation must be a small business corporation at the time the Form 2553 effecting the election is filed. Accordingly, a corporation that is not a small business corporation can avoid the provisions of section 1374, as amended by the Act, only if it becomes a small business corporation and then makes a valid S election before January 1, 1987. In addition, the election must be effective for the current or succeeding taxable year.

A corporation that does not make a valid S election prior to January 1, 1987, but is a qualified corporation as defined in section 633(d)(5) of the Act, may nevertheless qualify under section 633(d) of the Act for partial transition relief from the built-in gains tax imposed by section 1374, as amended by the Act. Under section 633(d)(8) of the Act, rules similar to those applicable to a liquidating corporation under section 633(d) of the Act apply for purposes of determining whether and to what extent this relief is available to a qualified corporation that makes an S election after December 31, 1986.

Such a qualified corporation that becomes an S corporation before January 1, 1989, unlike a qualified corporation that obtains transition relief from the repeal of the *General Utilities* doctrine under section 633(d)(1)–(7) of the Act, does not have to liquidate to qualify for relief from the amended provisions of section 1374 of the Code. This relief does not apply to the items described in section 633(d)(2) (which include ordinary income and short-term capital gain). Thus, the built-in gains tax imposed by section 1374, as amended by the Act, will apply to recognized built-in ordinary gains and recognized built-in short-term capital gains. Moreover, for a corporation with an applicable value between $5,000,000 and $10,000,000, this relief is limited to the applicable percentage of the gain from capital assets held for more than 6 months. Thus, the built-in gains tax will apply to the amount of any recognized built-in long-term capital gains in excess of the applicable percentage of each such gain. Section 1374, as it existed prior to the amendments made by the Act, will apply to the applicable percentage of each such gain.

The applicable value of a qualified corporation that becomes an S corporation is the greater of the fair market value of all of the stock of the corporation on either the date a valid S election is made or August 1, 1986.

S Elections After Terminations

Pursuant to section 1362(g) of the Code, the Secretary hereby consents to an election to convert to S corporation status by a small business corporation whose S election was terminated under section 1362(d) if it meets the following two conditions. First, the corporation makes the S election prior to January 1, 1987, or, in the case of a qualified corporation, the corporation becomes an S corporation before January 1, 1989. Second, the date that a revocation, as described in section 1362(d)(1), was filed under section 48.1362–3 of the temporary regulations or the effective date of a termination, as described in section 1362(d)(2)(B) or section 1362(d)(3)(A)(ii), occurred before October 22, 1986 (the date of enactment of the Act).

Any corporation that files a Form 2553 pursuant to the consent granted in the above paragraph should refer to this revenue ruling by either typing or legibly printing the following statement at the top of page 1 of Form 2553: "FILED UNDER REV. RUL. 86–141."

Section 1374.—Tax Imposed on Certain Capital Gains

The requirements that must be met by a corporation that makes an S election in order to obtain transition relief from the corporate-level tax on built-in gains recognized by a former C corporation during the 10-year period after it becomes an S corporation. See Rev. Rul. 86–141, page 6.

Section 6011.—General Requirement of Return, Statement, or List

26 CFR 31.6011(a)–3AT: Returns of the railroad unemployment repayment tax (temporary).

T.D. 8105

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER C, PART 31—EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX AT SOURCE; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Time and Manner of Making Quarterly Payments of the Railroad Unemployment Repayment Tax

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to the time and manner of making quarterly payments of the railroad unemployment repayment tax. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations * * * [page 25, this bulletin]. The temporary regulations reflect amendments to the Internal Revenue Code of 1954 with respect to quarterly payments of the railroad unemployment railroad tax made by section 231(b) of the Railroad Retirement Solvency Act of 1983 [Pub. L. 98–76, 1983–2 C.B. 375, 379], and provide guidance with respect to the time and manner of making those payments. (Amendments to the railroad unemployment repayment tax made by section 13301 of the Consolidated Omnibus Budget Reconciliation Act of 1985 do not affect the rules in this document.)

DATES: The regulations contained in this document are effective December 5, 1986 and apply to remuneration paid after June 30, 1986.

FOR FURTHER INFORMATION CONTACT: Gail H. Morse of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION

BACKGROUND

Railroad workers, unlike most other occupational groups within the United States, are not covered by the Federal Unemployment Tax Act (FUTA). Instead, such workers receive unemployment benefits under the Railroad Unemployment Insurance Act (RUIA), a separate program administered by the Railroad Retirement Board.

Railroad employers pay over to the Railroad Unemployment Insurance Trust Fund contributions on the wages of their employees ranging from .5 percent to 8 percent (the specific percentage for a calendar year depends upon the financial condition of the railroad unemployment insurance account on the preceding September 30). See 20 CFR Part 345, relating to employers' contributions and contribution reports under the Railroad Unemployment Insurance Act. Unlike the FUTA system, there are no individual employer experience ratings under RUIA. Rather, one experience rating is determined for the railroad industry as a whole and imposed on all employers.

When contributions are insufficient to pay railroad unemployment benefits, the program can borrow from the railroad retirement account and repay when the Railroad Unemployment Insurance Trust Fund has more cash than is needed to pay benefits. For 21 of the last 26 years the unemployment fund has had to borrow from the retirement system. In recent years such borrowing has increased and has been coupled with non-repayment of the borrowed funds. A crisis arose in the railroad industry with respect to the railroad retirement and unemployment compensation systems in 1982—by 1983 a shortfall in the retirement fund was expected due to the decline in rail employment relative to the number of retired railroad employees (resulting in an excess of benefit payments over contributions to the system) and increased borrowing by the unemployment system coupled with non-repayment of the borrowed funds. The expected shortfall caused Congress to act to insure the solvency of both the railroad retirement and the railroad unemployment accounts. The Railroad Retirement Solvency Act of 1983 (the Act) (Pub. L. 98–76, 97 Stat. 426) was intended to improve the financial status of both the railroad retirement and unemployment systems and to increase the likelihood that both systems would be able to meet their continuing benefit obligations.

In addition to provisions with respect to the retirement system and administration of the railroad unemployment system, the Act sought to provide for the repayment of funds borrowed by the railroad unemployment system which had not been repaid. Chapter 23A, added to the Internal Revenue Code of 1954 by section 231 of the Act, provides for the imposition of the railroad unemployment repayment tax. This tax is an excise tax on railroad employers (a term defined in the Act by reference to section 1 of the Railroad Unemployment Insurance Act) with respect to having individuals in their employ as well as a tax on the income of employee representatives. The tax is effective for remuneration paid after June 30, 1986, and, as amended by Section 13301 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Pub. L. 99–272, 100 Stat. 325), is equal to the applicable percentage of total rail wages for a particular taxable period. The applicable percentage, equal to the sum of the basic rate plus the surtax rate, will vary for each taxable period. The basic rate is applicable to taxable periods beginning after June 30, 1986, and before October 1, 1990. (This rate will terminate at an earlier date if loans made to the railroad unemployment fund before October 1, 1985, are repaid before October 1, 1990). The surtax rate is effective for any taxable period beginning after September 30, 1986, where, as of September 30 of the preceding taxable year, there is an outstanding balance of transfers (or unpaid interest thereon), made after September 30, 1985, to the railroad unemployment insurance account under section 10(d) of the Railroad Unemployment Insurance Act.

Section 6157 provides that the payment of the railroad unemployment repayment tax will be on a quarterly basis in such manner and at such time as regulations prescribed by the Secretary may provide.

The temporary regulations found in this document provide the time and manner of making quarterly payments of the railroad unemployment repayment tax.

EXPLANATION OF PROVISIONS

The temporary regulations reflect amendments to the Employment Tax Regulations under sections 6011, 6071, 6157, and 6302 of the Internal Revenue Code with respect to the requirement that there be quarterly payments of the railroad unemployment repayment tax.

Section 31.6011(a)–3AT(a) provides that rail employers shall make an annual return of the railroad unemployment repayment tax imposed by section 3321 on Form CT–1 (currently used for returns of railroad retirement tax). The Form CT–1 will thus provide for both the return of railroad retirement tax and the return of railroad unemployment repayment tax. The return is to be made for each taxable period (as defined in section 3322) in which the tax is imposed beginning with the period which commences on July 1, 1986. Section 31.6011(a)–3AT(b) provides that employee representatives (as generally defined in section 3323(d)) shall make a quarterly return of the railroad unemployment repayment tax on Form CT–2 (currently used for returns of railroad retirement tax). The Form CT–2 will thus provide for both the return of railroad retirement tax and the return of railroad unemployment repayment tax. The report is to be made for each calendar quarter of a taxable period in which the tax is imposed beginning with the period which commences on July 1, 1986.

Section 31.6071(a)–1T provides rules regarding the time for filing Forms CT–1 and CT–2. Section 31.6071(a)–1T(a) provides that Forms CT–1 and CT–2 are to be filed on or before the last day of the second calendar month following the period for which return is made (the same due date applicable to such returns filed in connection with railroad retirement taxes).

Section 31.6302(c)–2AT sets forth the rules governing the computation and payment by rail employers of the railroad unemployment repayment tax on a quarterly basis and provides for the deposit of the tax so computed with a Federal Reserve Bank or an authorized financial institution. The deposits are to be made by the last day of the first calendar month following the close of each of the first three calendar quarters of a taxable period.

However, no deposit is required with respect to any of the first three calendar quarters if the tax computed for the quarter plus unpaid amounts for prior quarters during the taxable period is $100 or less. No deposit of the railroad unemployment repayment tax is required for the last calendar quarter in any taxable period unless the amount of such tax reportable on Form CT–1 exceeds by more than $100 the sum of the amounts deposited in the preceding three calendar quarters. In cases where the reportable railroad unemployment retirement tax exceeds by more than $100 the sum of the amounts deposited in the preceding three calendar quarters, §31.6302(c)–2AT(b)(3) requires that the balance due be deposited with a Federal Reserve bank or with an authorized financial institution by the last day of the first calendar month following the taxable period for which the return is being filed. Where the railroad unemployment repayment tax reportable on Form CT–1 does not exceed by more than $100 the sum of the amounts deposited in the preceding three calendar quarters, that amount is to be remitted with Form CT–1. The preprinted Federal Tax Deposit coupon (Form 8109) is the form prescribed for making the deposits of the railroad unemployment repayment tax. Section 31.6302(c)–2AT(b)(1)(ii) requires that certain rail employers make their quarterly deposits of the railroad unemployment repayment tax by wire transfer to the Treasury. The wire payments will be credited to the rail employers' CT–1 account in the same manner as railroad retirement wire transfers. The wire deposit of the railroad unemployment repayment tax may not be made in the same wire deposit as any other tax.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; PAPERWORK REDUCTION ACT OF 1980

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Moreover, the Internal Revenue Service has concluded that the regulations herein will not have a significant impact on a substantial number of small entities. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule. The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive order 12291 and that a Regulatory Impact Analysis is therefore not required. The reporting requirements added by this document had been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. The reporting requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these temporary regulations is Gail H. Morse of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Part 31 and Part 602 are amended as follows:

PART 31 EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX AT SOURCE

Paragraph 1. The authority for Part 31 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 31.6011(a)–3AT is also issued under the authority of 26 U.S.C. 6011; §31.6071(a)–1T is also issued under the authority of 26 U.S.C. 6071; §31.6157–1T is also issued under 26 U.S.C. 6157(d); and §31.6302(c)–2AT is also issued under 26 U.S.C. 6302.

Par. 2. A new section 31.6011(a)–3AT is added immediately following existing §31.6011(a)–3 to read as follows:

§31.6011(a)–3AT Returns of the railroad unemployment repayment tax (temporary).

(a) *Requirement*—(1) *Employers.* Every rail employer (as defined in section 3323(a) and section 1 of the Railroad Unemployment Insurance Act) shall make a return of the tax imposed by section 3321(a) (relating to the railroad unemployment repayment tax) for each taxable period (as defined in section 3322(a)) with respect to the total rail wages (as defined in section 3323(b)) paid by the rail employer during the taxable period. Form CT–1 is the form prescribed for use in making the return. One original and a duplicate of each return on Form CT–1 shall be filed with the director of the service center as designated in the instructions to Form CT–1. Rail wages taxable under section 3321(a) shall be reported in the return required under this section for the return period in which they are actually paid unless they were constructively paid in a prior return period, in which case such wages shall be reported only in the return for such prior period.

(2) *Employee representatives.* Each employee representative (as defined in section 3323(d)(2) and section 1 of the Railroad Unemployment Insurance Act) shall make a return of the tax imposed by section 3321(b) on the rail wages paid to him (as determined under section 3321(b)(2)) during each calendar quarter within a taxable period. Form CT–2 is the form prescribed for use in making the return. One original and a duplicate of each return on Form CT–2 shall be filed with the director of the service center as designated in the instructions to Form CT–2. Rail wages taxable under section 3321(b) shall be reported in the return required under this section for the return period in which they are actually paid unless they were constructively paid in a prior return period, in which case such wages shall be reported only in the return for such prior period.

(b) *Time and place for filing returns.* For provisions relating to the time and place for filing returns, see §31.6071(a)–1T and §31.6091–1, respectively.

Par. 3. A new §31.6071(a)–1T is added immediately following existing §31.6071(a)–1 to read as follows:

§31.6071(a)–1T Time for filing returns with respect to the railroad unemployment repayment tax (temporary).

(a) *In general.* Each return of the taxes imposed under section 3321(a) and (b) required to be made under §31.6011(a)–3AT shall be filed on or before the last day of the second calendar month following the period for which it is made.

(b) *Last day for filing.* For provisions relating to the time for filing a return when the prescribed due date falls on Saturday, Sunday, or a legal holiday, see the provisions of §301.7503–1 of this chapter (Regulations on Procedure and Administration).

(c) *Late filing.* For additions to the tax in the case of failure to file a return within the prescribed time, see the provisions of §301.6651–1 of this chapter (Regulations on Procedure and Administration).

Par. 4. Section 31.6157–1T is added immediately following existing §31.6157–1 to read as follows:

§31.6157–1T Cross reference (temporary).

For provisions relating to the time and manner of depositing the railroad unemployment repayment tax imposed by section 3321(a), see §31.6302(c)–2AT.

Par. 5. A new §31.6302(c)–2AT is added immediately following existing §31.6302(c)–2 to read as follows:

§31.6302(c)–2AT Use of Government depositaries in connection with the railroad unemployment repayment tax (temporary).

(a) *Effective date.* The provisions of this section apply with respect to the tax imposed by section 3321(a) on rail employers (as defined in section 3323(a)) on wages paid on or after July 1, 1986, during a taxable period.

(b) *Requirement*—(1) *Rail employers*—(i) *In general.* Except as provided in this section, every rail employer who is required by section 6157(d) to compute the tax imposed by section 3321(a) on a quarterly basis shall deposit the amount of the tax so computed with respect to a calendar quarter (other than the fourth quarter of a calendar year) with a Federal Reserve bank or with an authorized financial institution on or before the last day of the first calendar month following the close of the calendar quarter.

(ii) *Special rule for certain rail employers.* If, for the calendar year prior to the calendar year immediately preceding the current calendar year, the aggregate amount of taxes imposed under sections 3202 and 3221 of the Code (relating to the railroad retirement tax) with respect to an employer equaled or exceeded $1,000,000, such employer shall (except as provided below) deposit his undeposited railroad unemployment repayment tax imposed by section 3321(a) with respect to the current calendar year at the time such tax would otherwise be required to be deposited under this section in the manner set forth in Revenue Procedure 83–90, 1983–2 C.B. 615 (relating to transfers by wire to the Treasury). The funds transfer message described in Revenue Procedure 83–90 (with respect to the railroad retirement tax) shall be completed in the same manner as is prescribed in that Revenue Procedure, except that the amount required by items 12(f) shall be the amount of the railroad unemployment repayment tax (to be labeled as such by the rail employer). Item 12(g) is to be disregarded with respect to the use of the Revenue Procedure for deposits of the railroad unemployment repayment tax. A wire transfer required to be made by a rail employer with respect to the railroad unemployment repayment tax shall be made separately from any wire transfer required to be made with respect to any other tax.

(2) *Special rule where accumulated amount does not exceed $100.* The provisions of paragraph (b)(1) of this section shall not apply with respect to any calendar quarter if the amount of tax imposed by section 3321(a) for such calendar quarter as computed under section 6157, plus unpaid amounts for prior calendar quarters within the taxable period, does not exceed $100.

(3) *Requirement for deposit in lieu of payment with return.* If the amount of the tax reportable on a return of tax on Form CT–1 for a taxable period (as defined in section 3322(a)) exceeds by more than $100 the sum of the amounts deposited pursuant to paragraph (b)(1) of this section for such taxable period, the rail employer shall, on or before the last day of the first calendar month following the period, deposit the balance of the tax due with a Federal Reserve bank or with an authorized financial institution.

(4) *Special rule for third calendar quarter of 1986.* Notwithstanding paragraph (b)(1)(i) of this section, every rail employer required by section 6157(d) to compute the tax imposed by section 3321(a) for the third calendar quarter of 1986 shall deposit the tax so computed on or before December 15, 1986, in the manner provided by this section.

(c) *Depositary forms.* The provisions of paragraphs (b) and (c) of §31.6302(c)–2, relating to depositary forms, are incorporated in this §31.6302(c)–2A by reference.

PART 602 OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 6. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 602.101(c) is amended by inserting in the appropriate places in the table: "§31.6011(a)–3AT . . . 1545–0955, "§31.6071(a)–1T . . . 1545–0955 "§31.6157–1T . . . 1545–0955 and "§31.6302(c)–2AT . . .1545–0955."

* * * * *

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

P.E. COATES,
Acting Commissioner of Internal Revenue.

Approved October 28, 1986.

J. ROGER MENTZ,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on October 31, 1986, 1:28 p.m., and published in the issue of the Federal Register for November 5, 1986, 51 F.R. 40167).

Section 6401.—Amounts Treated as Overpayments

26 CFR 301.6401–1: Amounts treated as overpayments.

Ct. D. 2036

SUPREME COURT OF THE UNITED STATES

No. 85–558

Robert E. O'Connor, et ux., v. United States

On Writs of Certiorari to the United States Court of Appeals for the Federal Circuit

[November 4, 1986]

JUSTICE SCALIA delivered the opinion of the Court.

Petitioners, United States citizen employees of the Panama Canal Commission and their spouses, seek refunds of income taxes collected on salaries paid by the Commission between 1979 and 1981. We granted certiorari to resolve conflicting appellate interpretations of an international agreement. 474 U.S.—(1986).

From 1904 to 1979, the United States exercised sovereignty over the Panama Canal and the surrounding 10-mile-wide Panama Canal Zone under the Isthmian Canal Convention, 33 Stat. 2234. On September 7, 1977, the United States and Panama signed the Panama Canal Treaty, T.I.A.S. No. 10030, which was ratified by the Senate on April 17, 1978, and took effect on October 1, 1979. The Treaty transferred to Panama sovereignty over the Canal and Zone, but gave the United States the right to operate the Canal until December 31, 1999. The vehicle for United States administration of the Canal is the Panama Canal Commission, a United States Government agency supervised by a Board of nine members, four of whom are Panamanian nationals proposed by the Government of Panama. See 22 U.S.C. §§3611, 3612; Panama Canal Treaty, Art. III, §3, T.I.A.S. No. 10030 (hereinafter Treaty).

Article III of the Treaty, entitled "Canal Operation and Management," specifies that "the rights and legal status of United States Government agencies and employees operating in the Republic of Panama pursuant to this Article, shall be governed by the Agreement in Implementation of this Article. . . ." Treaty, Art. III, §9. The latter agreement, signed simultaneously with the Treaty, see Panama Canal Treaty: Implementation of Article III, Sept. 7, 1977, T.I.A.S. No. 10031 (hereinafter Agreement), contains the provision that gives rise to the present dispute. Article XV of the Agreement, entitled "Taxation," provides as follows:

> "1. By virtue of this Agreement, the Commission, its contractors and subcontractors are exempt from payment in the Republic of Panama of all taxes, fees or other charges on their activities or property.
>
> "2. United States citizen employees and dependents shall be exempt from any taxes, fees or other charges on income received as a result of their work for the Commission. Similarly, they shall be exempt from payment of taxes, fees or other charges on income derived from sources outside the Republic of Panama.
>
> "3. United States citizen employees and dependents shall be exempt from taxes, fees or other charges on gifts or inheritance or on personal property, the presence of which within the territory of the Republic of Panama is due solely to the stay therein of such persons on account of their or their sponsor's work with the Commission.
>
> "4. The Coordinating Committee may establish such regulations as may be appropriate for the implementation of this Article."

The petitioners contend that §2 of this Article constitutes an express exemption of their Commission salaries from both Panamanian and United States taxation. See 26 U.S.C. §894(a) ("Income of any kind, to the extent required by any treaty obligation of the United States, shall not be included in gross income and shall be exempt from taxation under this subtitle"). The Claims Court agreed, *Coplin* v. *United States*, 6 Cl. Ct. 115 (1984), but was reversed by a five-judge panel of the Federal Circuit. *Coplin* v. *United States*, 761 F.2d 688 (1985). In a substantively identical case, the Eleventh Circuit has ruled for the taxpayers. *Harris* v. *United States*, 768 F.2d 1240 (1985), cert. pending, No. 85-1011. The same issue is presented in numerous cases still pending in the lower courts.[1]

We agree with the Federal Circuit. The first section of Article XV, which confers upon the Commission and its contractors an exemption "from payment *in the Republic of Panama* of all taxes" (emphasis added), establishes the context for the discussion of tax exemptions in the entire Article— so that when §§2 and 3 state that "United States citizen employees . . . shall be exempt" from taxes they are understood to be dealing only with taxes payable in Panama. In that regard the structure of Article XV is similar to that of Article XVI, which in most of its sections speaks generally of import duties, but is understood to refer only to *Panamanian* import duties principally because §1 sets the stage in that fashion by referring to "the customs laws and regulations *of the Republic of Panama.*" Agreement, Art. XVI, §1 (emphasis added).

There is some purely textual evidence, albeit subtle, of the understanding that Article XV applies only to Panamanian taxes: In conferring an exemption from property taxes, §3 displays an assumption that only personal property within the Republic of Panama is at issue; otherwise, that significant qualification to the operation of §3 would more naturally have been set forth as an explicit limitation ("personal property *within the territory of the Republic of Panama,* whose presence there," etc.) rather than being referred to incidentally in the modifying clause ("personal property, whose presence within the territory of the Republic of Panama," etc.). And the assumption that only personal property within Panama is at issue in turn reflects the more fundamental assumption that only *Panamanian* personal property taxes are being addressed.

More persuasive than the textual evidence, and in our view overwhelmingly convincing, is the contextual case for limiting Article XV to Panamanian taxes. Unless one posits the ellipsis of failing to repeat, in each section, §1's limitation to taxes "in the Republic of Panama," the Article takes on a meaning that is utterly implausible and has no foundation in the negotiations leading to the Agreement. For if the first sentence of §2 refers to United States as well as Panamanian taxes, then the second sentence of §2, and the totality of §3, must do so as well—with the consequence that United States citizen employees and their dependents would be exempt not only from United States income tax on their earnings from the Commission, but also from United States income tax on all income from sources outside Panama (*e.g.*, United States bank accounts), and from all United States gift and inheritance taxes. While, as the petitioners assert, there might have been some reason why Panama would insist that its inability to tax United States citizen Commission employees upon their earnings in Panama be matched by a detraction from the United States' sovereign power to tax those same earnings, there is no conceivable reason why this hypothetical "your-sovereignty-for-mine" negotiating strategy would escalate into a demand that the United States yield more sovereign prerogatives than it was asking Panama to forgo—and no imaginable reason why the United States would accept such an escalation, producing tax immunity of unprecedented scope.

The petitioners' attempts to explain why these broader tax consequences need not follow from their interpretation are unpersuasive. With regard to the second sentence of §2, they argue that the opening word "similarly" should be read to incorporate into that sentence the first sentence's restriction to "income received as a result of . . . work for the Commission." On this understanding, the second sentence provides a "simila[r]" tax exemption for Commission-related income "derived from sources outside the Republic of Panama," but allows both countries to tax non-Commission income. In addition to being an unnatural reading of "similarly" in this context, this interpretation is flatly inconsistent with the language of §2. Contrary to the petitioners' tacit assumption, the first sentence contains nothing limiting the scope of its exemption to income received as a result of work for the Commission *in Panama.* A person receiving a Commission salary for work performed in, for example, Bogota would seem plainly to qualify for exemption under this provision—rendering the second sentence, on the petitioners' understanding, superfluous. With regard to §3, the petitioners assert that its reference to taxation of property "within the territory of the Republic of Panama" is sufficient to demonstrate that only Panamanian taxation is intended to be covered. But as a reading of the provision will readily demonstrate, that reference applies only to personal property taxes; there is no comparable qualification on §3's exemption from taxes "on gifts or inheritance." That is limited, if at all, only by the implication that Panamanian taxes alone are at issue. In sum, we find the verbal distortions necessary to give plausible content, under the petitioners' theory, to the second sentence of §2 and §3, far less tolerable than the acknowledgment of ellipsis which forms the basis of the Government's interpretation.

---

[1] After this case was argued, the President signed into law the Tax Reform Act of 1985, Pub. L. 99-514, —— Stat. ——. Section 1232(a) of that Act provides, in relevant part, that for "all taxable years whether beginning before, on, or after the date of the enactment of this Act (or in the case of any tax not imposed with respect to a taxable year, [for] taxable events after the date of enactment of this Act," no provision of the Treaty or Agreement "shall be construed as exempting (in whole or in part) any citizen or resident of the United States from any tax under the Internal Revenue Code of 1954 or 1986." Because we find that the Agreement, properly interpreted, provides for the same result, we do not rely upon the statute, and thus avoid confronting the constitutional questions posed by retroactive income taxation. See *United States* v. *Darusmont*, 449 U.S. 292, 296-301 (1981); *Welch* v. *Henry*, 305 U.S. 134, 146-151 (1938).

Not only is limitation of Article XV to Panamanian taxes in accord with the consistent application of the Agreement by the Executive Branch—a factor which alone is entitled to great weight, see *Sumitomo Shoji America, Inc.* v. *Avagliano,* 457 U.S. 176, 184–185 (1982)—but that application has gone unchallenged by Panama. It is undisputed that, pursuant to clear Executive Branch policy, the Panama Canal Commission consistently withheld United States income taxes from petitioners and others similarly situated, see Letter from John L. Haines, Jr., Deputy General Counsel, Panama canal Commission, to David Slacter, United States Department of Justice, Dec. 20, 1982, pp. 2–3, 1 App. in Nos. 85–504, 85–505, 85–506, and 85–507 (CAFC), pp. 61–62, and that Panama, which had four of its own nationals on the Board of the Commission, did not object. The course of conduct of parties to an international agreement, like the course of conduct of parties to any contract, is evidence of its meaning. See *Trans World Airlines, Inc.* v. *Franklin Mint Corp.,* 466 U.S. 243, 259–260 (1984); *Pigeon River Improvement, Slide & Boom Co.* v. *Charles W. Cox, Ltd.,* 291 U.S. 138, 158–161 (1934). Cf. Uniform Commercial Code §2–208(1) (1978).[2]

The petitioners contrast §2 with the following provision of the simultaneously executed Agreement in Implementation of Article IV, relating to taxation of United States Armed Forces and associated civilian personnel:

> "(2) Members of the Forces or the civilian component, and dependents, shall be exempt from any taxes, fees, or other charges on income received as a result of their work for the United States Forces or for any of the service facilities referred to in Article XI or XVIII of this Agreement. Similarly, *as is provided by Panamanian law,* they shall be exempt from payment of taxes, fees, or other charges on income derived from sources outside the Republic of Panama." Panama Canal Treaty: Implementation of Article IV, Sept. 7, 1977, Art. XVI, §2, T. I. A. S. No. 10032 (emphasis added).

The petitioners contend that the variation in the phraseology of the two provisions demonstrates that the taxation provisions of the Article III Agreement were meant to be bilateral. We think not. It would be another matter if the variation at issue were alteration of the phrase "Panamanian taxes" in one agreement to merely "taxes" in the other; there would have been no reason to object to the former formulation *except* the belief that more than Panamanian taxes were covered. Several plausible reasons, however, would justify objection to the phrase "as is provided by Panamanian law." The most obvious is the concern that the phrase would be interpreted to leave future scope of the tax exemption within Panama's unilateral control, through the amendment of its domestic law. (To be sure, that reason would seemingly call for deletion of the phrase from both agreements rather than merely the Agreement in Implementation of Article III—but perhaps it was only with respect to the latter agreement, in which Panama had steadfastly opposed the whole concept of tax exemption, that unilateral Panamanian action was feared.) The surmise that the reason for deletion of the phrase in the Article III Agreement was its implication that only Panamanian taxes were covered would perhaps be reasonable if it were clear that the deletion was prompted by Panama. In fact, however, the deletion was made in the course of the American side's own internal drafting, before any text had even been presented to the Panamanians. (The phrase "as is provided by Panamanian law" was included in the June 26, 1977, United States draft of §2 of Art. XV, 1 App. in Nos. 85–504, 85–505, 85–506, and 85–507 (CAFC), p. 74, but was dropped from subsequent United States drafts, *id.,* at 77, 81.) The petitioners assert that this occurred as a consequence of the American side's knowledge that Panama would not accept a unilateral tax exemption provision and would accept a bilateral one—but they point to no Panamanian negotiating proposal supporting that speculation, which seems to us not inordinately credible on its face.

We find the petitioners' attempted reliance upon other elements of the negotiating history unavailing. While the Claims Court may have been correct that the negotiating history does not favor the Government's position sufficiently to overcome what that court regarded as a plain textual meaning in favor of the taxpayers, it certainly does not favor the taxpayers' position sufficiently to affect our view of the text. It contains, we may note, only a single (unhelpful) reference to United States income taxation—a silence that can perhaps be reconciled with the petitioners' position, but can hardly be said affirmatively to support it.

Finally, we find no significance in the fact, urged so strongly by the petitioners, that Article XV is entitled "Taxation" rather than "Panamanian Taxation." Of the twenty-one Articles of the Agreement, only two—Articles V and IX—are limited by title to Panamanian subject matter, though it is plain that most are so limited in their application. See, *e.g.,* Article VII ("Water Rights"); Article XII ("Entry and Departure"); Article XVI ("Import Duties").

The judgment of the court of appeals is

Affirmed.

---

[2] The Government has contended, here and before the Court of Appeals, that the answer to the current question is illumined, if not conclusively determined, by a February 22, 1985, diplomatic note from the Government of Panama, indicating that it shares the United States' view that Article XV pertains only to Panamanian taxation. The petitioners assert that mutual agreement between the contracting parties on interpretation cannot be dispositive of third-party rights, and that the note is in any event inadmissible on various grounds. Since we would sustain the Government's position without reference to the note, we need not resolve these disputes.

Section 7872.—Treatment of Loans with Below-market Interest Rates

Federal short-term, mid-term, and long-term rates are set forth for the month of December 1986. See Rev. Rul. 86-143, page 5.

Part II. Treaties and Tax Legislation

Subpart A.—Tax Conventions

United States-United Kingdom Income Tax Convention 1980–1 C.B. 394

United States-United Kingdom Income Tax Convention; Article 15(2)(a). The term "tax year concerned" refers to the tax year in which personal services are performed rather than to the tax year in which compensation for those services is received.

Rev. Rul. 86–145

ISSUE

Whether the term "tax year concerned" as used in Article 15(2)(a) of the United States-United Kingdom Income Tax Convention ("Convention"), which entered into force on April 25, 1980, 1980–1 C.B. 394, refers to the tax year in which personal services are performed or to the tax year in which compensation for those services is received.

FACTS

A, a United Kingdom resident, was present in the United States for more than 183 days in 1985. *A* performed personal services during that period for an employer who was not a resident of the United States and who had no permanent establishment or fixed base in the United States. With respect to 1985, *A* was a resident of the United Kingdom and was not deemed a resident of the United States under Article 4 of the Convention. *A* was present in the United States for 30 days in 1986 and during that period was paid for the services performed when present in the United States in 1985. In each of those years, *A*'s United States tax year was the calendar year.

LAW AND ANALYSIS

Article 15(1) of the Convention provides the general rule that remuneration in respect of employment is taxable in the Contracting State where the employment is performed.

Article 15(2) of the Convention provides that, notwithstanding Article 15(1), remuneration derived by a resident of a Contracting State in respect of an employment exercised in the other Contracting State shall be taxable only in the first-mentioned State if:

> (a) the recipient is present in that other State for a period not exceeding in the aggregate 183 days *in the tax year concerned;* and
>
> (b) the remuneration is paid by, or on behalf of, an employer who is not a resident of that other State; and
>
> (c) the remuneration is not borne as such by a permanent establishment or a fixed base which the employer has in that other State.

[Emphasis added.]

The Treasury Department Technical Explanation of the Convention, 1980–1 C.B. 455, 467, states that Article 15 of the Convention is based on Article 15 (Dependent Personal Services) of the 1977 OECD Model Convention (Model Convention). Article 15(1) of the Model Convention has a rule and exception similar to Article 15(2)(a) of the Convention. The focus of this exception is "employment of short duration abroad. . . . The exemption is limited to the 183-day period." Model Convention, Annex II, Commentaries on the Articles of the Model Convention, 131. Thus, the use of the term "in the tax year concerned" as part of the limitation on that exemption refers to the tax year in which the employment services being compensated are performed, and not to the tax year in which the compensation for the services is received.

Since *A* was present in the United States for more than 183 days in 1985, the exemption from United States taxation under Article 15(2)(a) of the Convention is unavailable to *A* with respect to the services *A* rendered during that year. The exemption is unavailable with respect to those services notwithstanding that *A* was paid for them in 1986 when *A* was present in the United States for less than 183 days.

HOLDING

For purposes of the 183-day limitation to the exemption under Article 15(2)(a) of the Convention, the term "tax year concerned" refers to the tax year in which the services being compensated are performed in a Contracting State by a resident of the other Contracting State and not to the tax year in which compensation for services is received.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 86–44

SECTION 1. BACKGROUND

Rev. Proc. 86–3, 1986–1 C.B. 416, lists areas in which rulings or determination letters will not be issued by the Internal Revenue Service. Section 5 of Rev. Proc. 86–3 is entitled Areas Under Extensive Study in Which Rulings or Determination Letters Will Not be Issued Until the Service Resolves the Issues Through Publication of a Revenue Ruling, Revenue Procedure, Regulations or Otherwise.

Section 5.19 provides: Section 368.—Definitions Relating to Corporate Reorganizations.—Whether a transaction qualifies under either section 368(a)(1)(B) or section 351(a) of the Code by reason of Rev. Rul. 67–448, 1967–2 C.B. 144, when the same transaction is structured under section 368(a)(1)(A) and 368(a)(2)(E) (as a reverse triangular merger) and fails to qualify for an advance ruling under those sections merely because (i), the "substantially all" requirement set forth in section 3.01 of Rev. Proc. 77–37, 1977–2 C.B. 568, is not met, or (ii), the "control" requirement of section 3689(a)(2)(E)(ii) is not met where the step transaction doctrine may be applied to treat a prior redemption of stock as part of the plan of reorganization.

SEC. 2. PROCEDURE

.01 Rev. Proc. 86–3 is amended by deleting clause (ii) from subsection .19 of section 5. The remainder of subsection .19 of section 5 is to remain, except that the designation "(i)" is deleted.

.02 The amended section 5.19 reads as follows:

Section 368.—Definitions Relating to Corporate Reorganizations.—Whether a transaction qualifies under either section 368(a)(1)(B) or section 351(a) of the Code by reason of Rev. Rul. 67–448, 1967–2 C.B. 144, when the same transaction is structured under sections 368(a)(1)(A) and 368(a)(2)(E) (as a reverse triangular merger) and fails to qualify for an advance ruling under those sections merely because the "substantially all" requirement" set forth in section 3.01 of Rev. Proc. 77–37, 1977–2 C.B. 568, is not met.

SEC. 3. EFFECTIVE DATE

This revenue procedure is effective for ruling requests on hand in the National Office on December 8, 1986, the date of publication of this ruling in the Internal Revenue Bulletin, and for all requests received thereafter.

SEC. 4. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 86–3 is modified.

PART B. MAGNETIC TAPE SPECIFICATIONS

SECTION 1. GENERAL
SECTION 2. RECORD LENGTH
SECTION 3. OPTIONS FOR FILING

PART A.—GENERAL

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to provide the requirements and conditions for submitting Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, on magnetic tape instead of filing paper returns. Form 8027 information is filed on paper and magnetic tape and sent annually to the Internal Revenue Service (IRS). The due date for submission of Form 8027 on magnetic tape to IRS is the last day of February.

.02 Section 301.6011–2 of the Regulations on Procedure and Administration requires that any person, including corporations, partnerships, individuals, estates and trusts, required to file 500 or more Forms 8027 in 1987 (for tax year 1986), must file such returns on magnetic media. For Forms 8027 filed in 1988 (for tax year 1987) and subsequent years, the requirement will drop to 250 or more returns (original *or* corrected). Please note that this requirement applies to both original *and* corrected returns. If you are required to file Forms 8027 on magnetic media and fail to do so, and you have not received a waiver from these filing requirements, you may be subject to a penalty of $50 per document for each document not submitted on magnetic tape, with a maximum penalty of $50,000.

.03 This procedure supersedes the following revenue procedure: Rev. Proc. 84–69, Publication 1239 (10–84), Requirements and Conditions for Submitting Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, on Magnetic Tape.

SEC. 2. BACKGROUND—PRIOR YEAR CHANGES (TAX YEAR 1985)

.01 The following changes were made to Part B, Section 2:

(a) Record length is 372 tape positions.

(b) Block length is 10,044 tape positions.

.02 The following changes were made to Part B, Section 3:

(a) Header labels UHL1 and bLAB were added as standard labels that IRS programs can process.

(b) Trailer labels EOV1 and EOV2 were added as standard labels that IRS programs can process.

.03 The following changes were made to the record layout of the 8027 Magnetic Tape Record:

(a) The 15-position field, "Establishment Identification Number" was dropped.

(b) The 1-position field, "Establishment Type" was added.

(c) The 5-position field, "Establishment Serial Number" was added.

(d) The fields, "Establishment City" and "Employer City" no longer allow the use of hyphens as valid characters.

(e) Due to the fact that money amounts are no longer reported separately for the first quarter and last three quarters of the year, the following fields were consolidated for annual reporting:

(1) Charged Receipts.
(2) Charged Tips.
(3) Service Charges Less than 10 Percent.
(4) Indirect Tips.
(5) Direct Tips.
(6) Total Tips.
(7) Gross Receipts.

(f) The special character fields, "BLANK," "HYPHEN," "SLASH," and "AMPERSAND" were dropped.

(g) The 1-position field, "Amended 8027 Indicator" was added.

SEC. 3. NATURE OF CHANGES—CURRENT YEAR (TAX YEAR 1986)

.01 Numerous editorial changes have been made to the publication. Information concerning extensions and waivers has been added as well as applications for magnetic media. There have been no changes to the magnetic tape program or format.

SEC. 4. APPLICATION FOR MAGNETIC MEDIA REPORTING

.01 For the purposes of this revenue procedure, the EMPLOYER is the organization supplying the information and the TRANSMITTER is the organization preparing the magnetic media file. The employer and transmitter may be the same organization. Employers or their transmitters are required to complete Form 4419, Application for Magnetic Media Reporting of Information Returns. Requests for copies of this form or for additional information on magnetic media reporting should be addressed to the attention of the Magnetic Media Specialist at the National Computer Center. (See Part A, Sec. 12 of this revenue procedure.)

.02 Applications should be filed with the National Computer Center 90 days before the due date of the return. IRS will act on an application and notify the applicant, in writing, of authorization to file. A five-character Transmitter Control Code (TCC) will be assigned and included in an acknowledgement letter within 30 days of receipt of the application. Magnetic tape returns may not be filed with IRS until the application has been approved. Include your TCC in any correspondence with the Magnetic Media Specialist.

.03 Once authorization to file on magnetic tape has been granted to an employer or transmitter, it will remain in effect in succeeding years provided that all of the requirements of this revenue procedure are met and there are no equipment changes by the filer. Contact the Magnetic Media Specialist at the National Computer Center if you have questions concerning your application.

.04 IRS will assist new filers with their initial magnetic tape submission by encouraging the submission of test files for review in advance of the filing season. Approved employers or transmitters who wish to submit a test file should contact the Magnetic Media Specialist at the National Computer Center. The address is listed in Part A, Sec. 12 of this revenue procedure. IRS prefers that all "TEST" files be submitted between August 15 and December 15 of the year before the returns are due. Do not submit "TEST" tapes after January 1. If you are unable to submit your "TEST" file by the end of December, send a sample hardcopy printout or tape dump to the National Computer Center. Clearly mark the hardcopy printout or tape dump as "TEST DATA" and include identification information such as name, address, and telephone number of someone familiar with the "TEST" print or tape dump who may be contacted to discuss its acceptability.

.05 Only employers or transmitters using equipment compatible with IRS' equipment will have their applications approved. Compatible tape characteristics are shown in Part B, Sec. 1.

.06 If your magnetic tape files have been prepared for you in the past by a service agency and you now have computer equipment compatible with that of IRS and wish to prepare your own files, you must request your own five-character TCC by filing an application, Form 4419, as described above.

.07 If you as an individual or organization are an approved filer on magnetic tape and you change your name or the name of your organization, please notify the National Computer Center's Magnetic Media Specialist so that your file may be updated to reflect the proper name.

SEC. 5. FILING OF MAGNETIC MEDIA REPORTS

.01 If you do not file your returns on time, you may be subject to a $50 per document failure to file penalty. If you file without following the instructions in this revenue procedure, you may also be subject to a $50 per document failure to file penalty.

.02 Packaging, shipping, and mailing instructions will be provided by IRS within 45 days of the granting of approval. A magnetic tape reporting package, which includes all necessary transmittals, labels, and shipping instructions, will be mailed out between October and December of each year to all approved filers.

.03 With the IRS' concurrence, employers can submit a portion of their returns on magnetic media and the remainder on paper Forms 8027, provided there is NO DUPLICATE FILING. A Form 8027–T, Transmittal of Employer's Annual Report of Allocated Tips, must accompany paper submissions and a Form 4804, Transmittal of Information Returns Reported on Magnetic Media, must accompany magnetic media submissions. Indicate on Form 4804, in the blank captioned "Number of Payee Records," the total number of *establishments* being reported in this shipment. This figure should match the total number of tape records in your file. If you report on paper Forms 8027, send them to:

Internal Revenue Service
Andover Service Center
Andover, MA 05501

The National Computer Center processes magnetic media *only*. Do *not* send paper Forms 8027 to the National Computer Center.

.04 The affidavit which appears on Forms 8027–T and 4804 should be signed by the employer. A transmitter, service bureau, paying agent, or disbursing agent may sign the affidavit on behalf of the employer (or other person required to file) if the conditions in Items 1, 2(i) or 2(ii), and 3 below are met.

(1) It has the authority to sign the form under an agency agreement (oral, written, or implied) that is valid under state law.

(2)(i) It has the responsibility (oral, written, or implied) conferred on it by the employer (or other person required to file), to request the TINS of recipients (or others for whom information is being reported).

(ii) If the return of more than one employer is included in a single magnetic media submission, covered by a single Form 4804, each employer (or other person required to file) has attested by affidavit to the transmitter, service bureau, paying agent, or disbursing agent that the employer (or other person required to file) has complied with the law in attempting to secure correct TINS.

(3) It signs the form and adds the caption "For: (Name of employer (or other person required to file))."

.05 Although a duly authorized agent signs the affidavit, the employer is held responsible for the accuracy of the Form 8027 and will be liable for penalties for failure to comply with filing requirements.

.06 If a portion of the returns are submitted on paper documents, include a statement on the Form 8027–T that the remaining returns are being filed on magnetic media. Please note that Form 8027–T normally applies to the filing of information returns on paper; however, filers of magnetic media must review the Form 8027–T and file Form 8027–T if appropriate. DO NOT REPORT THE SAME INFORMATION ON PAPER FORMS THAT YOU REPORT ON MAGNETIC MEDIA. IF YOU REPORT PART OF YOUR RETURNS ON PAPER AND PART ON MAGNETIC MEDIA, BE SURE THAT DUPLICATE RETURNS, WITH THE SAME INFORMATION, ARE NOT INCLUDED ON BOTH.

.07 If an allocation of tips is based on a good faith agreement, a copy of the agreement must accompany the submission.

.08 If an allocation rate of less than 8% has been granted by the District Director, a copy of the determination letter must accompany the submission. Employers with more than one establishment can receive approval from one district in each Internal Revenue Service region where establishments are located (see Sec. 31.6053–3(h)(4) of the Employment Tax Regulations).

.09 If an amended return is being filed, it must be a complete return replacing the original return.

.10 Before submitting magnetic tape files, include the following:

(a) A signed Form 4804 or computer-generated substitute.

(b) A Form 4802 (if you transmit for multiple employers).

(c) A hardcopy printout or tape dump of the first five blocks and last two of your file.

(d) The magnetic tape with an external identification label as described in Part B, Sec. 1.

(e) On the outside of the shipping container, include a Form 4801 or a substitute for the form which reads "Deliver Unopened to Tape Library—Magnetic Media Reporting—Box __of__." If there is only one container, mark the outside as Box 1 of 1. For multiple containers, include the sequence (i.e., Box 1 of 33, 2 of 33, etc.).

(f) If you were granted an extension and are filing late, include a copy of the approved extension letter with the magnetic tape.

.11 IRS will not pay or accept "Collect on Delivery" or "Charge to IRS" shipments of reportable tax information that an individual or organization is legally required to submit. The current policy is to return magnetic materials or requested information at U.S. Government expense.

SEC. 6. FILING DATES

.01 Magnetic tape reporting to IRS for Form 8027 must be on a calendar year basis. Generally, the due date of either paper or tape Forms 8027 is the last day of February, unless such day falls on a Saturday, Sunday, or holiday. For tax year 1986, the due date for filing Forms 8027 will be March 2, 1987.

SEC. 7. EXTENSIONS OF TIME TO FILE

.01 If an employer or transmitter of Forms 8027 on magnetic tape is unable to submit their magnetic media file by the filing date, submit a letter requesting an extension of up to 30 days to file, as soon as you are aware that an extension will be necessary. In order to be considered, the request MUST be filed *before* the due date of the returns; otherwise, you will be subject to the late filing penalty. The letter should be sent to the attention of the Magnetic Media Reporting Program at the IRS National Computer Center. See Part A, Sec. 12 for the address. The request should include:

(a) The filer's name and address.

(b) The filer's Taxpayer Identification Number (SSN or EIN).

(c) The tax year for which the extension of time is requested (e.g., tax year 1986).

(d) The name and telephone number of a person to contact who is familiar with the request.

(e) The type of returns and expected volume (e.g., 1000 Forms 8027).

(f) The five-character TCC assigned to the organization or individual requesting the extension (if a number has been assigned).

(g) The reason for the delay and date that you will be able to file.

(h) If you file for multiple employers, the request must include a list of all employers and their Taxpayer Identification Numbers (EIN or SSN).

An approved extension for magnetic tape filing does not provide an extension to file the paper Forms 8027 with the Andover Service Center. Requests for an extension to file paper Forms 8027 should be submitted to the Andover Service Center. (See Part A, Sec. 5.03 for address.)

.02 If an extension of time to file on magnetic tape is granted by the National Computer Center, a copy of the letter granting the extension MUST be attached to the transmittal Form 4804 or computer-generated substitute when the file is submitted. CAUTION: AN EXTENSION TO FILE IS NOT AN EXTENSION TO ISSUE INFORMATION RETURN COPY TO EMPLOYEE.

SEC. 8. WAIVERS

.01 Any individual or organization required to file original or corrected Forms 8027 on magnetic tape may request a waiver from the filing requirements by submitting Form 8508, Request for Waiver from Filing Information Returns on Magnetic Media, with the IRS National Computer Center if filing on magnetic tape would be an undue hardship. File the waiver request at least 90 days before the Forms 8027 are due to be filed with IRS. IF APPROVED, THE WAIVER WILL PROVIDE EXEMPTION FROM MAGNETIC TAPE FILING FOR ONE TAX YEAR ONLY. Filers may not apply for a waiver for more than one tax year at a time. Copies of Form 8508 may be obtained from the IRS National Computer Center. See Part A, Sec. 12 for the address.

.02 ALL OF THE INFORMATION REQUESTED ON FORM 8508 MUST BE PROVIDED AS REQUESTED; OTHERWISE, THE WAIVER REQUEST WILL BE RETURNED TO YOU DUE TO INSUFFICIENT INFORMATION.

.03 If you request a waiver from filing on magnetic tape and it is approved, do NOT send a copy of the approved waiver to the Andover Service Center with your paper returns. Keep the waiver for your records.

.04 Waivers are granted on a case-by-case basis and may be approved at the discretion of the Magnetic Media Specialist at the National Computer Center.

.05 If you are required to file your Forms 8027 on magnetic tape but fail to do so, and you do NOT have an approved waiver on record, you may be subject to a failure to file penalty.

.06 An approved waiver from filing Forms 8027 on magnetic tape does not provide exemption from filing; you MUST still file those returns on paper forms with the Andover Service Center.

SEC. 9. PROCESSING OF MAGNETIC MEDIA RETURNS

.01 The National Computer Center will process tax information from magnetic media files. All magnetic media files that are received timely by the National Computer Center will be returned to the filers by August 15 of the year in which submitted. After January 1, 1986, all magnetic media processing, including the Allocated Tips processing, was centralized at the National Computer Center. Due to the volume of input received and the cost to return special containers, special shipping containers should not be used for transmitting data to the National Computer Center since IRS cannot guarantee return of such containers.

.02 All files submitted must conform *totally* to this revenue procedures. Files will be returned to you for correction if they are unprocessable due to format or coding errors, or by the request of the filer. Files must be corrected and returned to the National Computer Center within 30 days of receipt by the filer. The corrected files will be returned to the filer by the National Computer Center within 6 months of receipt. *Please be sure that your format and coding comply with this revenue procedure.*

SEC. 10. EFFECT ON PAPER RETURNS

.01 If a portion of the returns is reported on magnetic media and the remainder is reported on paper forms, those returns not submitted on magnetic media must be filed on Form 8027 with the Andover Service Center. (See Part A, Sec. 5 for address.)

SEC. 11. CORRECTED RETURNS, SUBSTITUTE FORMS AND COMPUTER-GENERATED FORMS

.01 If returns must be corrected or amended, approved magnetic media filers should make every attempt to provide such corrections on tape. The filer must contact the IRS for format and shipping instructions. A Form 4804 must accompany the shipment and the blank space next to the box marked "CORRECTION" should be checked.

.02 If corrections are not submitted on tape, employers must submit them on official Forms 8027. Substitute forms that have been previously approved by IRS, or computer-generated forms that are exact facsimiles of the official form (except for minor page size or print style deviations), may be submitted without re-obtaining IRS approval before using the form. In all other cases, IRS approval must be obtained before a substitute or computer-generated form can be used. Publication 1167, "Substitute Printed, Computer-Prepared, Computer-Generated Tax Forms and Schedules," which contains specifications for substitute paper returns, is available from most IRS offices.

.03 Requests for approval of computer-generated or substitute forms should be sent to the following address with a copy of the proposed form:

Internal Revenue Service
Attn: Substitute Forms Program
Room 7033, D:R:R:I
1111 Constitution Ave., N.W.
Washington, DC 20224

.04 Employers/establishments may send amended or corrected Forms 8027 to IRS to be processed. The original and corrected paper Forms 8027 will be sent to:

Internal Revenue Service
Andover Service Center
Andover, MA 05501

Code the corrected paper returns with a capital alpha "G" at the top of Form 8027 above the title of the form.

SEC. 12. MAGNETIC MEDIA SPECIALIST CONTACT

Requests for additional copies of this revenue procedure or for additional information on magnetic media reporting of Forms 8027 should be addressed to the attention of the Magnetic Media Specialist at the following address:

Internal Revenue Service
National Computer Center
P.O. Box 1359
Martinsburg, WV 25401–1359
Telephone (304) 263-8700

SEC. 13. DEFINITIONS

Element	Description
EIN	A nine-digit Employer Identification Number which has been assigned by Internal Revenue Service to the reporting entity.
Employer	The organization supplying the information.
Establishment	A food or beverage operation where tipping of food or beverage employees is customary.
File	For the purpose of this procedure, a file consists of all magnetic media records submitted by an Employer or Transmitter.
Transmitter	Person or organization preparing magnetic media file(s). May be Employer or agent of Employer.

SEC. 14. EFFECT ON OTHER DOCUMENTS

.01 Rev. Proc. 84–69, Publication 1239, (10–84) is superseded.

SEC. 15. TO CONTACT THE IRS NATIONAL COMPUTER CENTER

.01 Effective January 1, 1986, the magnetic media processing for Forms 8027 was relocated at the IRS National Computer Center. Please direct all requests for IRS magnetic media related publications, information, forms, transmittals, undue hardship waivers, or extensions to the following addresses:

If by U.S. Postal Service, send to:
Magnetic Media Reporting
Internal Revenue Service
National Computer Center
P.O. Box 1359
Martinsburg, WV 25401–1359

If by land carrier, send to:
Magnetic Media Reporting
Internal Revenue Service
National Computer Center
Route 9 and Needy Road
Martinsburg, WV 25401

Hours of operation at the National Computer Center are 8:30 AM until 8:00 PM Eastern Time Zone. The telephone number is (304) 263-8700.

.02 Requests for paper returns, publications, or forms *NOT* related to magnetic media processing should be requested from your local IRS office or by calling the toll-free number in your area.

PART B.—MAGNETIC TAPE SPECIFICATIONS

SECTION 1. GENERAL

.01 The magnetic tape specifications contained in this part of the procedure define the required format and contents of the records to be included in the file. THESE SPECIFICATIONS MUST BE ADHERED TO UNLESS DEVIATIONS HAVE BEEN SPECIFICALLY GRANTED BY IRS IN WRITING.

.02 IRS will be able to process any compatible tape files. Compatible tape files must meet any one set of the following:

(a) 7-track BCD (Binary Coded Decimal) with:

(1) Either Even or Odd Parity and

(2) A density of 556 or 800 BPI.

(b) 9-track EBCDIC (Extended Binary Coded Decimal Interchange Code) with:

(1) Odd Parity and

(2) A density of 800, 1600, or 6250 BPI.

(3) If you use *Univac* Series 1100, you must submit an interchange tape.

(c) 9-track ASCII (American Standard Coded Information Interchange) with:

(1) Odd Parity and

(2) A density of 800, 1600, or 6250 BPI.

.03 All compatible tapes files must have the following characteristics:

(a) Type of Tape — ½ inch mylar base, oxide coated; computer grade magnetic tape on reels of up to 2400 feet (731.52m) within the following specifications:

(1) Tape thickness: 1.0 or 1.5 mils.

(2) Reel Diameter: 10.5 inch (26.67 cm), 8.5 inch (21.59 cm), or 7 inch (17.78 cm).

(b) Interrecord Gap

(1) .75 inch for 556 or 800 BPI density (7-track).

(2) .6 inch for 800 or 1600 BPI density (9-track).

(3) .3 inch for 6250 BPI density (9-track).

.04 IRS programs are capable of accommodating some minor deviations. Filers who can substantially conform to these specifications, but do require some minor deviations, MUST contact the Magnetic Media Specialist at the Internal Revenue Service, National Computer Center in Martinsburg, WV. *Under no circumstances may tapes deviating from the specifications in this revenue procedure be submitted without prior written approval from IRS.*

.05 An external identification label, Form 5064, must appear on each tape submitted for processing. The following information is needed:

(a) The transmitter's name.

(b) The five-character TCC.

(c) The two-character state code (e.g., NY).

(d) Tape density.

(e) Indicate whether tape is labeled or unlabeled.

(f) Track (e.g., 7 or 9).

(g) Recording code (e.g., EBCDIC, ASCII, or BCD).

(h) The tax year of the data (e.g., 1986).

(i) Document type (e.g., 8027).

(j) Number of payees (indicate total number of establishments being reported).

(k) A reel number assigned by the transmitter (if applicable).

(l) The sequence of each reel (e.g., 001 of 008).

This information will assist IRS in processing or locating a specific file. *IRS advises that special shipping containers not be used for transmitting data since it cannot be guaranteed that they will be returned.*

SEC. 2. RECORD LENGTH

.01 The tape record defined in this procedure may be blocked or unblocked, subject to the following:

(a) A FIXED RECORD OF 372 POSITIONS IS REQUIRED.

(b) All records except the Header and Trailer Labels may be blocked.

(c) If records are blocked, the block MUST be 10,044 tape positions.

(d) If the use of blocked records would result in a short block, *all remaining positions of the block MUST be filled with 9's. DO NOT PAD A BLOCK WITH BLANKS.*

SEC. 3. OPTIONS FOR FILING

For the purposes of this procedure the following conventions must be used.

Header Label:

1. Employers may use standard headers provided they begin with 1HDR, HDR1, VOL1, VOL2, UHL1, or bLAB.
2. Consists of a maximum of 80 positions.
3. Header and Trailer Labels are optional unless more than one reel is being submitted. If more than one reel is being submitted, Header and Trailer Labels are REQUIRED.

IRS PREFERS STANDARD OR ANSI LABELED TAPES. IF YOU SUBMIT AN UNLABELED TAPE, THIS *MUST* BE INDICATED ON THE EXTERNAL LABEL AND ON THE FORM 4804 OR COMPUTER-GENERATED SUBSTITUTE.

Trailer Label:

1. Standard trailer labels may be used provided that they begin with 1EOR, 1EOF, EOR1, EOF1, EOV1, or EOV2.
2. Consist of a maximum of 80 positions.
3. Header and Trailer Labels are optional unless more than one reel is being submitted. If more than one reel is being submitted, Header and Trailer Labels are REQUIRED.

Record Mark:

1. Special character used to separate blocked records on tape.
2. Can be written only at the end of a record or block.
3. For odd parity tapes, use BCD bit configuration 011010 ("A82").

Tape Mark:

1. Used to signify the physical end of the recording on tape.
2. For even parity, use BCD configuration 001111 ("8421").
3. May follow the header label and precede and/or follow the trailer label.

RECORD NAME: 8027 MAGNETIC TAPE RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Establishment Type	1	REQUIRED. This digit identifies the kind of establishment. Enter the number which describes the type of establishment, as shown below: 1 for an establishment that serves evening meals only (with or without alcoholic beverages). 2 for an establishment that serves evening meals and other meals (with or without alcoholic beverages). 3 for an establishment that serves only meals other than evening meals (with or without alcoholic beverages). 4 for an establishment that serves food, if at all, only as an incidental part of the business of serving alcoholic beverages.

RECORD NAME: 8027 MAGNETIC TAPE RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
2–6	Establishment Serial Number	5	REQUIRED. These five digits are for identifying individual establishments of an employer reporting under the same EIN. The employer numbers the various establishments uniquely until each establishment the employer is required to file a retun for has a number. NUMERICS ONLY.
7–46	Establishment Name	40	REQUIRED. Enter the name of the establishment. Left justify and fill unused positions with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, NUMERICS. BLANKS, HYPHENS, AMPERSANDS, AND SLASHES.
47–86	Establishment Street Address	40	REQUIRED. Enter the street address of the establishment. Left justify and blank fill. ALLOWABLE CHARACTERS ARE ALPHAS, NUMERICS, SLASHES, HYPHENS, AMPERSANDS, AND BLANKS.
87–111	Establishment City	25	REQUIRED. Enter the city of the establishment. Left justify and blank fill. ALLOWABLE CHARACTERS ARE ALPHAS AND BLANKS.
112–113	Establishment State	2	REQUIRED. Enter state code of the establishment; must be one of the following:

State	*Code*
Alabama	AL
Alaska	AK
Arizona	AZ
Arkansas	AR
California	CA
Colorado	CO
Connecticut	CT
Delaware	DE
District of Columbia	DC
Florida	FL

RECORD NAME: 8027 MAGNETIC TAPE RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks	
			Pennsylvania	PA
			Rhode Island	RI
			South Carolina	SC
			South Dakota	SD
			Tennessee	TN
			Texas	TX
			Utah	UT
			Vermont	VT
			Virginia	VA
			Washington	WA
			West Virginia	WV
			Wisconsin	WI
			Wyoming	WY
114–122	Establishment ZIP Code	9	REQUIRED. Enter the ZIP Code of the establishment. If using a five-digit ZIP Code, left justify the five-digit ZIP Code and fill the remaining four positions with blanks. If using a nine-digit ZIP Code, enter the number. ALLOWABLE CHARACTERS ARE NINE NUMERICS or FIVE NUMERICS AND FOUR BLANKS.	
123–131	Employer Identification Number	9	REQUIRED. Enter the nine-digit number assigned to the employer by IRS. DO NOT ENTER HYPHENS, ALPHA CHARACTERS, ALL 9's, or ALL ZEROS.	
132–171	Employer Name	40	REQUIRED. Enter the name of the employer as it appears on your tax forms (e.g., Form 941). Any extraneous information must be deleted. Left justify and blank fill. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS, AND SLASHES.	
172–211	Employer Street Address	40	REQUIRED. Enter street and address of employer. Left justify and blank fill. ALLOWABLE CHARACTERS ARE ALPHAS, NUMERICS, HYPHENS, AMPERSANDS, SLASHES AND BLANKS.	
212–236	Employer City	25	REQUIRED. Enter the city of the employer. Left justify and blank fill. ALLOWABLE CHARACTERS ARE ALPHAS AND BLANKS.	
237–238	Employer State	2	REQUIRED. Enter state code of employer. Must be one of the abbreviations shown above in the state abbreviation table for Establishment State (Tape Positions 112–113).	
239–247	Employer ZIP Code	9	REQUIRED. Enter ZIP Code of employer. If using a five-digit ZIP Code, left justify the five-digit ZIP Code and fill the remaining four positions with blanks. If using a nine-digit ZIP Code, enter the number. ALLOWABLE CHARACTERS ARE NINE NUMERICS or FIVE NUMERICS AND FOUR BLANKS.	
248–259	Charged Tips	12	REQUIRED. Enter the total amount of tips that are shown on charge receipts for the calendar year. Field is in dollars and cents. Right justify and zero fill. NUMERICS ONLY. DO NOT ENTER DECIMAL POINTS, DOLLAR SIGNS, OR COMMAS.	
260–271	Charged Receipts	12	REQUIRED. Enter the total sales for the calendar year other than carryout sales or sales with an added service charge of 10 percent or more, that are on charge receipts with a charged tip shown. This includes credit card charges, other credit arrangements, and charges to a hotel room unless the employer's normal accounting practice consistently excludes charges to a hotel room. Do not include any state or local taxes in the amount reported. Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT INCLUDE DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.	

RECORD NAME: 8027 MAGNETIC TAPE RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
272–283	Service Charge Less Than 10 Percent	12	REQUIRED. Enter the total amount of service charges less than 10 percent that have been added to customer's bills and have been distributed to your employees for the calendar year. In general, service charges added to the bill are not tips since the customer does not have a choice. These service charges are treated as wages and are included on Form W-2. For a more detailed explanation, see Rev. Rul. 69–28, 1969–1 C.B. 270. Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
284–295	Indirect Tips Reported	12	REQUIRED. Enter the total amount of tips reported by indirectly tipped employees (e.g., busboys, service bartenders, cooks) for the calendar year. Do not include tips received by employees in December of the prior tax year but not reported until January. Include tips received by employees in December of the tax year being reported, but not reported until January of the subsequent year. Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
296–307	Direct Tips Reported	12	REQUIRED. Enter the total amount of tips reported by directly tipped employees (e.g., waiters, waitresses, bartenders) for the calendar year. Do not include tips received by employees in December of the prior tax year but not reported until January. Include tips received by employees in December of the tax year being reported, but not reported until January of the subsequent year. Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
308–319	Total Tips Reported	12	REQUIRED. Enter the total amount of tips reported by all employees (both indirectly tipped and directly tipped) for the calendar year. Do not include tips received in December of the prior tax year but not reported until January. Include tips received in December of the tax year being reported, but not reported until January of the subsequent year. Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
320–331	Gross Receipts	12	REQUIRED. Enter the total gross receipts from the provision of food and/or beverages for this establishment for the calendar year. Do not include receipts for carryout sales or sales with an added service charge of 10 percent or more. Do not include in gross receipts charged tips shown on charged sales (tape positions 248–259) unless you have reduced the cash sales amount because you have paid cash to tipped employees for tips they earned that were charged. Do not include state or local taxes in gross receipts. If you do not charge separately for food or beverages along with other services (such as a package deal for food and lodging), make a good faith estimate of the gross receipts attributable to the food or beverages. This estimate must reflect the cost of providing the food or beverages plus a reasonable profit factor. Include the retail value of complimentary food or beverages served to customers if tipping for them is customary and they are provided in connection with an activity engaged in for profit whose receipts would not be included as gross receipts from the provision of food or beverages (e.g., complimentary drinks served to customers at a gambling casino). Right justify and zero fill. Field is in dollars and cents. If no entry, zero fill. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.

RECORD NAME: 8027 MAGNETIC TAPE RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
332–343	Tip Percentage Rate Times Gross Receipts	12	REQUIRED. Enter the amount determined by multiplying Gross Receipts for the year (tape positions 320–331) by the Tip Percentage Rate (tape positions 344–347). Right justify and zero fill. For example, if the value of Gross Receipts is "000045678900" and Tip Percentage Rate is "0800", multiply $456,789.00 by .0800 to get $36,543.12 and enter "000003654312". If tips are allocated using other than the calendar year, enter zeros; this may occur if you allocated tips based on the time period for which wages were paid or allocated on a quarterly basis. Field is in dollars and cents. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
344–347	Tip Percentage Rate	4	REQUIRED. Enter 8 percent (0800) unless a lower rate has been granted by the District Director. The determination letter must accompany the magnetic media submission. NUMERICS ONLY. DO NOT ENTER DECIMAL POINT.
348–359	Allocated Tips	12	REQUIRED. If Tip Percentage Rate Times Gross Receipts (tape positions 332–343) is greater than Total Tips Reported (tape positions 308–319), then the difference becomes Allocated Tips. Otherwise, enter all zeros. Right justify and zero fill. If tips are allocated using other than the calendar year, enter the amount of allocated tips from your records. Field is in dollars and cents. NUMERICS ONLY. DO NOT ENTER DOLLAR SIGNS, DECIMAL POINTS, OR COMMAS.
360	Allocation Method	1	REQUIRED. Enter the allocation method used if Allocated Tips (tape positions 348–359) is greater than zero as follows: 1 for allocation based on hours worked. 2 for allocation based on gross receipts. 3 for allocation based on a good faith agreement. The good faith agreement must accompany the magnetic media submission. If Allocated Tips is equal to zero, enter 0 (zero).
361–364	Number of Directly Tipped Employees	4	REQUIRED. Enter the total number of directly tipped employees employed by the establishment for the calendar year. Right justify and zero fill. NUMERICS ONLY.
365–369	Transmitter Control Code (TCC)	5	REQUIRED. Enter the 5 digit Transmitter Control Code assigned by the IRS.
370	Amended 8027 Indicator	1	REQUIRED. Enter blank for original return. Enter "G" for amended return. An amended return must be a complete new return replacing the original return.
371–372	IRS USE	2	Blanks.

Social Security Contribution and Benefit Base

The Secretary of the Department of Health and Human Services has determined—

* * * * *

Contribution and Benefit Base

General. The contribution and benefit base is $43,800 for remuneration paid in 1987 and self-employment income earned in taxable years beginning in 1987.

The contribution and benefit base serves two purposes:

(1) It is the maximum annual amount of earnings on which Social Security taxes are paid, and

(2) It is the maximum annual amount used in determining a person's Social Security benefits.

Computation. Section 230(c) of the Act provides a table with the contribution and benefit base for each year 1978, 1979, 1980, and 1981. For years after 1981, section 230(b) of the Act contains a formula for determining the contribution and benefit base. Under the prescribed formula, the contribution and benefit base for 1987 shall be equal to the 1986 base of $42,000 multiplied by the ratio of: (1) the average amount, per employee, of total wages for the calendar year 1985 to (2) the average amount of those wages for the calendar year 1984. Section 230(b) further provides that if the amount so determined is not a multiple of $300, it shall be rounded to the nearest multiple of $300.

Average Wages. The average wage for calendar year 1984 was previously determined to be $16,135.07. The average wage for calendar year 1985 has been determined to be $16,822.51 as stated herein.

Amount. The ratio of the average wage for 1985, $16,822.51, compared to that for 1984, $16,135.07, is 1,0426053. Multiplying the 1986 contribution and benefit base of $42,000 by the ratio 1.0426053 produces the amount of $43,789.42 which must then be rounded to $43,800. Accordingly, the contribution and benefit base is determined to be $43,800 for 1987.

(Filed by the Office of the Federal Register on November 3, 1986, 11:34 a.m., and published in the issue of the Federal Register for November 5, 1986, 51 F.R. 40256)

Part IV. Items of General Interest

Notice of Proposed Rulemaking

LR-12-86

Time and manner of making quarterly payments of the railroad unemployment repayment tax

SUMMARY: The Internal Revenue Service is issuing temporary employment tax regulations relating to the time and manner of making quarterly payments of the railroad unemployment repayment tax. The text of the temporary regulations serves as the comment document for this notice of proposed rulemaking.

DATES:

PROPOSED EFFECTIVE DATE

The proposed amendments would be effective 30 days after publication in the FEDERAL REGISTER of the Treasury decision finalizing these regulations and would be applicable to remuneration paid after June 30, 1986.

DATES FOR COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Written comments and requests for a public hearing must be delivered or mailed by January 5, 1987.

ADDRESS: Send comments and requests for a public hearing to Commissioner of Internal Revenue, Attention CC:LR:T (LR-12-86) Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Gail H. Morse of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, Attention CC:LR:T (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION: BACKGROUND

The temporary regulations * * * amend the Employment Tax Regulations (26 CFR Part 31) under sections 6011, 6071, 6157, and 6302 of the Internal Revenue Code.

For the text of the temporary regulations see T.D. 8105 * * * [Page 7, this Bulletin]. The preamble to the temporary regulations explains the addition to the regulations.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. The Internal Revenue Service has concluded that the regulations herein will not have a significant impact on a substantial number of small entities. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments and requests for a public hearing that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER. The collection of information requirements contained herein have been submitted to OMB for review under the Paperwork Reduction Act, and comments on them should be sent to the Office of Information and Regulatory Affairs of OMB, Attn: Desk Officer for the Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests persons submitting comments to OMB to also send copies of the comments to the Service.

DRAFTING INFORMATION

The principal author of these proposed regulations is Gail H. Morse of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations both on matters of substance and style.

P. E. COATES
Acting Commissioner
of Internal Revenue.

(Filed by the Office of the Federal Register on October 31, 1986, 1:29 p.m., and published in the issue of the Federal Register for November 5, 1986, 51 F.R. 40232)

Revised Bulletin Index-Digest System

Announcement 86-119

The basic Income Tax (Service One) volume of the Bulletin Index-Digest System has been revised and may be purchased from the Superintendent of Documents. The basic volumes for Estate and Gift Taxes (Service Two), Employment Taxes (Service Three), and Excise Taxes (Service Four) will be revised as of December 1986.

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions and other tax related items of general interest published in the Internal Revenue Bulletin or Cumulative Bulletin. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance and provides a researcher with more than 33 years (1953 to present) of Bulletin material.

Service One includes a basic volume that covers the period 1953-1985 and a cumulative supplement covering material published in subsequent Bulletins. Cumulative supplements to the basic volume are issued quarterly.

The major portion of the Service consists of digests of Revenue Rulings, Revenue Procedures, Supreme Court Decisions, and other items published in the Bulletin. Each digest is preceded by descriptive key words that pinpoint the issue and is followed by the applicable Code and regulations sections and a citation to the Bulletin where the full text of the item may be found.

An "Introduction" and "How to Use Your Bulletin Index-Digest System" at the beginning of the basic volume explain the various parts of the book and, by the use of examples, suggest steps to follow for rapid research. Additional features include various finding lists to facilitate research in the Bulletin. Each item in the finding list includes a citation to a numbered digest or to the Bulletin.

This System enhances the utility of the Cumulative Bulletins maintained in libraries and offices. One or more of the Services also make a handy desk reference for anyone who needs to refer frequently to materials published in Internal Revenue Bulletins.

The new basic volume with subsequent supplements may be ordered on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Information for ordering the Services, domestic and foreign subscription price lists, and an order blank are contained on the back page of this Bulletin.

New Tables for Withholding Income Tax from Qualified Total Distributions Paid in 1987

Announcement 86–120

The following tables are for withholding Federal income tax from total distributions paid in 1987 under a qualified pension, profit-sharing, or stock bonus plan described in Internal Revenue Code section 401(a) or a qualified annuity plan described in Code section 403(a).

These tables are included in the January 1987 revision of Publication 493, Alternative Tax Withholding Methods and Tables (Including Tables for Withholding from Qualified Total Distributions).

Withholding Rate Schedule for Qualified Total Distributions Paid in 1987

(If the qualified total distribution is less than $200, no withholding is required.)

If the amount of the Qualified Total Distribution is:	Then, the amount of income tax withheld shall be:
Not over $20,000	5% of the Qualified Total Distribution
Over $ 20,000 but not over $ 40,000	$ 1,000 plus 13½% of excess over $ 20,000
Over $ 40,000 but not over $135,000	$ 3,700 plus 16⅔% of excess over $ 40,000
Over $135,000 but not over $205,000	$19,280 plus 22½% of excess over $135,000
Over $205,000 but not over $280,000	$35,030 plus 27% of excess over $205,000
Over $280,000 but not over $330,000	$55,280 plus 32% of excess over $280,000
Over $330,000	$71,280 plus 37% of excess over $330,000

Optional Withholding Table for Qualified Total Distributions Paid in 1987

If the amount of the Qualified Total Distribution is:			If the amount of the Qualified Total Distribution is:			If the amount of the Qualified Total Distribution is:

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 2 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1984/1985 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–147, page 4.
LIFO; price indexes; department stores. The February 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, February 28, 1986.

Rev. Proc. 86–46, page 6.
LIFO; price indexes; retail department stores. The 20-group (or pool) list set forth in Rev. Proc. 72–21 that was previously used by the United States Bureau of Labor Statistics is replaced with the new 23-group (or pool) list. Rev. Proc. 72–21 modified and superseded.

Rev. Proc. 86–47, page 8.
LIFO; price indexes; retail department stores. A procedure is provided for retail department stores that have elected to use the LIFO inventory identification method in conjunction with the retail method of valuing inventories and have elected to use the United States Bureau of Labor Statistics (BLS) department store price indexes to expeditiously obtain the approval of the Commissioner to change from a list of groups or pools previously used by BLS to a new expanded list of groups or pools.

EMPLOYEE PLANS

Announcement 86–121, page 13.
Changes made with respect to Individual Retirement Arrangements (IRAs) by the Tax Reform Act of 1986 are highlighted.

EXEMPT ORGANIZATIONS

Announcement 86–127, page 17.
A list is given of organizations now classified as private foundations.

EXCISE TAXES

Notice 86–16, page 6.
Windfall profit tax; inflation adjustment factor. For purposes of computing the windfall profit tax, the inflation adjustment for the quarter ending March 31, 1987, is 0.4781 for tier 1 or tier 2 oil and 0.7082 for tier 3 oil.

ADMINISTRATIVE

Rev. Rul. 86–146, page 5.
Adjusted interest rate; underpayments and overpayments. The adjusted rate of interest determined under section 6621 of the Code will be 9 percent on underpayments and 8 percent on overpayments beginning January 1, 1987.

Announcement 86–123, page 15.
New Form 1120–ND, Return for Nuclear Decommissioning Funds and Certain Related Persons, has been developed for use by qualified funds that are created by public utilities to pay the future costs of decommissioning nuclear power plants.

Announcement 86–124, page 15.
New Form 1120–W (FY) (1986–87), Fiscal Year Corporation Estimated Tax, has been developed for use by corporations whose tax years begin in 1986 and end in 1987.

Announcement 86–125, page 15.
New Form 5500EZ, Annual Return of One-Participant Pension Benefit Plan, has been developed for pension benefit plans that cover only an individual and the individual's spouse who wholly own a business.

Announcement 86–126, page 15.
New Form 8453–F, U.S. Fiduciary Income Tax Declaration for Magnetic Media/Electronic Filing, and Form 8453-P, U.S. Partnership Declaration for Magnetic Media/Electronic Filing, have been developed for use by estates and trusts, and partnerships, respectively, participating in the electronic/magnetic media filing pilot program.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 446.—General Rule for Methods of Accounting

26 CFR 1.446–1: General rule for methods of accounting.

A procedure is provided for retail department stores that have elected to use the LIFO inventory identification method in conjunction with the retail method of valuing inventories and have elected to use the United States Bureau of Labor Statistics (BLS) department store price indexes to expeditiously obtain the approval of the Commissioner to change from a list of groups or pools previously used by BLS to a new expanded list of groups or pools. See Rev. Proc. 86–47, page 8.

Section 471.—General Rule for Inventories

26 CFR 1.471–8: Inventories of retail merchants.

The 20-group (or pool) list set forth in Rev. Proc. 72–21 that was previously used by the United States Bureau of Labor Statistics is replaced with the new 23-group (or pool) list. See Rev. Proc. 86–46, page 6.

26 CFR 1.471–8: Inventories of retail merchants.

A procedure is provided for retail department stores that have elected to use the LIFO inventory identification method in conjunction with the retail method of valuing inventories and have elected to use the United States Bureau of Labor Statistics (BLS) department store price indexes to expeditiously obtain the approval of the Commissioner to change from a list of groups or pools previously used by BLS to a new expanded list of groups or pools. See Rev. Proc. 86–47, page 8.

Section 472.—Last-in, First-out Inventories

26 CFR 1.471–1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The February 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, February 28, 1986.

Rev. Rul. 86–147

The following price indexes for February 1986 were issued by the Bureau of Labor Statistics on March 28, 1986, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472–1(k) of the Income Tax Regulations and Rev. Proc. 72–21, 1972–1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, February 28, 1986.

Indexes are prepared on a national basis for the store total, for 23 major groups of departments, and for three special combinations—soft goods, durable goods and miscellaneous goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, as well as contract departments.

The major groups of departments for which indexes are prepared have been expanded from 20 to 23. These new groups are: (1) Group 21—Recreation and Education; (2) Group 22—Home Improvements; and (3) Group 23—Auto Accessories. A Miscellaneous Goods index is also introduced to reflect the aggregate movement of these three new groups. *See* Rev. Proc. 86–46, page 6, this Bulletin.

Although the new indexes are introduced in the February 1986 Department Store Inventory Price Indexes, January 1987 will be the first month for which there will be a percent change based on a 12-month period. The January 1986 indexes for the new groups are all 100. Rev. Proc. 86–46 modifies and supersedes Rev. Proc. 72–21.

Rev. Proc. 86–47, page 8, this Bulletin, sets forth the procedures required of taxpayers to change their method of accounting from that of using the 20 groups set forth in Rev. Proc. 72–21 to the method of using the 23 groups set forth in Rev. Proc. 86–46.

26 CFR 1.472–1: Last-in, first-out inventories.

The 20-group (or pool) list set forth in Rev. Proc. 72–21 that was previously used by the United States Bureau of Labor Statistics is replaced with the new 23-group (or pool) list. See Rev. Proc. 86–46, page 6.

26 CFR 1.472–1: Last-in, first-out inventories.

A procedure is provided for retail department stores that have elected to use the LIFO inventory identification method in conjunction with the retail method of valuing inventories and have elected to use the United States Bureau of Labor Statistics (BLS) department store price indexes to expeditiously obtain the approval of the Commissioner to change from a list of groups or pools previously used by BLS to a new expanded list of groups or pools. See Rev. Proc. 86–47, page 8.

Section 6621.—Determination of Rate of Interest

26 CFR 301.6621–1: Interest rate.

Adjusted interest rate; underpayments and overpayments. The adjusted rate of interest determined under section 6621 of the Code will be 9 percent on underpayments and 8 percent on overpayments beginning January 1, 1987.

Rev. Rul. 86–146[1]

Section 6621 of the Internal Revenue Code, as amended by the Tax Reform Act of 1986, section 1511, Pub. L. No. 99–514, 100 Stat.—, establishes differential rates for allowance of interest on tax overpayments and assessment of interest on tax underpayments. Under section 6621(a)(1), the overpayment rate is the sum of the short-term federal rate plus 2 percentage points. Under section 6621(a)(2), the underpayment rate is the sum of the short-term federal rate plus 3 percentage points.

Section 6621(b)(1) of the Code provides that the Secretary shall determine the short-term federal rate for the first month in each calendar quarter.

Section 6621(b)(2) of the Code provides that the federal short-term rate determined under section 6621(b)(1) for any month shall apply during the first calendar quarter beginning after such month.

Section 6621(b)(3) of the Code provides that the federal short-term rate for any month shall be the federal short-term rate determined during such month by the Secretary in accordance with section 1274(d), rounded to the nearest full percent (or, if a multiple of ½ of 1 percent, such rate shall be increased to the next highest full percent.)

Rounded to the nearest full percent, the federal short-term rate determined during the month of October is 6 percent. Accordingly, an overpayment rate of 8 percent and an underpayment rate of 9 percent are established for the calendar quarter beginning January 1, 1987. The rates apply to amounts bearing interest during that calendar quarter. Pursuant to section 6621(b)(2)(B) of the Code, the 9 percent rate applicable to individual estimated tax underpayments also applies through April 15, 1987.

Daily rates for compound interest for 8 percent and 9 percent were published in Tables 14 and 15 of Rev. Proc. 83–7, 1983–1 C.B. 583, 597, 598.

Compound interest rates for prior periods are set forth in the following table:

PERIOD	RATE	DAILY RATE TABLE IN 1983–1 C.B.
January 1, 1983-June 30, 1983	16%	Table 22, pg. 605
July 1, 1983-December 31, 1983	11%	Table 17, pg. 600
January 1, 1984-June 30, 1984	11%	Table 41, pg. 625
July 1, 1984-December 31, 1984	11%	Table 41, pg. 625
January 1, 1985-June 30, 1985	13%	Table 19, pg. 602
July 1, 1985-December 31, 1985	11%	Table 17, pg. 600
January 1, 1986-June 30, 1986	10%	Table 16, pg. 599
July 1, 1986-December 31, 1986	9%	Table 15, pg. 598

Part III. Administrative, Procedural, and Miscellaneous

Inflation Adjustment for Computation of Windfall Profit Tax

Notice 86–16

Section 4989(b) of the Internal Revenue Code requires the determination of an inflation adjustment factor for use in computing the windfall profit tax.

The Service has determined that, for oil removed during the January-March quarter of 1986, the inflation adjustments are as follows:

Tier 1 or Tier 2 oil	0.4781
Tier 3 oil	0.7082

Worksheets for computation of the windfall profit tax are included in the Instructions for Form 6047, Windfall Profit Tax, and an explanation of the inflation adjustment may be found in the Specific Instructions for Line 4 of the worksheets.

Rev. Proc. 86–46

SECTION 1. PURPOSE

The purpose of this revenue procedure is to modify and supersede Rev. Proc. 72–21, 1972–1 C.B. 745, which sets forth the groups or pools used by the United States Bureau of Labor Statistics (BLS) in preparing price indexes for use by department stores that have elected to use the last-in, first-out (LIFO) inventory identification method in conjunction with the retail method of valuing inventories.

SEC. 2. BACKGROUND

.01 Section 1.472–1(k) of the Income Tax Regulations provides that if a taxpayer using the retail method of pricing inventories, authorized by section 1.471–8, elects to use in connection therewith the LIFO method authorized by section 472 of the Internal Revenue Code, the apparent cost of the goods on hand at the end of the year, determined pursuant to section 1.471–8, shall be adjusted to the extent of price changes therein taking place after the close of the preceding tax year. The amount of any apparent inventory increase or decrease to be eliminated in this adjustment shall be determined by reference to acceptable price indexes established to the satisfaction of the Commissioner.

.02 Price indexes prepared by BLS that are applicable to the goods in question are acceptable to the Commissioner under section 1.472–1(k) of the regulations. Monthly indexes are published by BLS and are subsequently published in the Internal Revenue Bulletin. The use of the BLS indexes is not mandatory. Indexes may be prepared by a taxpayer based upon its own data on prices and inventory quantities, subject to the provisions of section 1.472–1(k) of the regulations. Price indexes that are based upon inadequate records, or that are not subject to complete and detailed audit within the Internal Revenue Service, will not be approved.

.03 Section 1.472–8(a) of the regulations provides that under the dollar-value LIFO method of valuing inventories, the goods contained in the inventory are grouped into a pool or pools. Section 1.472–8(g) provides that any method of pooling used in computing the taxpayer's LIFO inventories shall be treated as a method of accounting. Any method of pooling shall be used for the year of adoption and for all subsequent tax years unless a change is required by the Commissioner in order to clearly reflect income, or unless permission to change is granted by the Commissioner as provided in section 1.446–1(e). A taxpayer must secure the consent of the Commissioner under section 1.446–1(e)(2)(i) before it changes its method of accounting for federal income tax purposes.

.04 Rev. Proc. 72–21 provides instructions and illustrations for the use of BLS indexes by a taxpayer who has elected to use the retail method of valuing inventories that are computed under the LIFO method. The last determination of the merchandise groups or pools for department stores was made by BLS in 1953, when 10 groups were added to the then existing 10 groups to reach the total of 20 groups set forth in Rev. Proc. 72–21.

.05 The lines of merchandise typically carried by full-line retail department stores have expanded since the 20 major groups were last revised in 1953. For this reason, BLS will now publish monthly indexes for three new groups and a monthly index for the aggregate of these groups. These new groups are listed in section 4.01 of this revenue procedure.

.06 Because the new indexes were introduced by BLS in February 1986, January 1987 will be the first month for which there will be a percent change based on a 12-month period. The January 1986 indexes for the new groups or pools are all 100.

.07 Rev. Proc. 86–47, page 8, this Bulletin, sets forth the procedures required of taxpayers to change their method of accounting from that of using the 20 groups or pools set forth in Rev. Proc. 72–21 to the method of using the 23 groups or pools set forth in this revenue procedure. Section 3.02 of Rev. Proc. 86–47 provides that its procedures, except as otherwise noted in section 3.03, apply to retail department stores (as described in section 3.01) for their first tax year ending on (or with reference to) a date that is on or after January 31, 1987. Section 3.03 of Rev. Proc. 86–47 provides that if retail department stores (as described in section 3.01) do not have the records necessary to (1) calculate the cost complement for each new expanded pool, or (2) separate its miscellaneous pool or pools into the new expanded pools, its procedures apply to affected retail department stores for their first tax year beginning on (or with reference to) a date that is after January 31, 1987.

SEC. 3. SCOPE

This revenue procedure applies to retail department stores that (1) have elected to use the LIFO inventory identification method in conjunction with the retail method of valuing inventories, and (2) have elected to use the BLS department store price indexes published monthly by the Service.

SEC. 4. THE 23 GROUPS PROVIDED BY BLS

.01 The following groups or combinations of groups are used by BLS as the basis for the preparation of indexes for use by department stores:

1. Piece Goods
2. Domestics and Draperies
3. Women's and Children's Shoes
4. Men's Shoes
5. Infants' Wear
6. Women's Underwear
7. Women's and Girl's Hosiery
8. Women's and Girl's Accessories

9. Women's Outerwear and Girl's Wear
10. Men's Clothing
11. Men's Furnishings
12. Boys' Clothing and Furnishings
13. Jewelry
14. Notions
15. Toilet Articles and Drugs
16. Furniture and Bedding
17. Floor Coverings
18. Housewares
19. Major Appliances
20. Radio and Television
21. Recreation and Education
22. Home Improvements
23. Auto Accessories
1–15: Soft Goods
16–20: Durable Goods
21–23: Miscellaneous Goods

SEC. 5. INSTRUCTIONS REGARDING THE USE OF INDEXES

.01 As illustrated in sections 5 and 6 of this revenue procedure, in using the group indexes, a department store taxpayer must apply to the inventory data for each of its departments separately the index for the group in which the department logically belongs. A given group index may be applicable to a number of departments in a department store.

.02 When one or more departments of a department store do not fit into any one of the 23 major groups or into either of the special combinations listed in section 4.01 of this revenue procedure, an index shall be employed that represents an average for the whole of the remainder of the store. This index may be the store total, as shown by BLS, or the total for those of the 23 major groups (or combination of groups) that most closely represents the coverage of the inventory carried in the department or departments that require an index. For example, in a particular department that carries apparel, piece goods, and notions, the index may be the total of groups 1, 3, 4, 7, 8, 9, 10, 11, 12, and 14 or whichever combination most closely represents the coverage of the inventory stock carried by the store.

SEC. 6. ILLUSTRATION OF FIRST YEAR PRICE ADJUSTMENT

.01 The method of making the first year price adjustments to the closing inventory values under the retail method, combined with the LIFO method, is illustrated for three hypothetical departments. In the first two departments there was an increase in the physical quantity of inventory during the year in question, as shown by the comparison of the adjusted retail value at the end of the year and the retail value at the beginning of the year. In the third department there was a decline in the physical quantity of inventory. In all three departments prices rose during the year, as shown by the index.

Method of Computing LIFO, Retail Inventory, Three Departments, First Year

Step No.	Item or computation	Department No.		
		1 Women's and children's shoes	2 Men's furnishings	3 Radio and television
	I. Data from taxpayer's books			
1	Opening inventory—retail value	$25,000	$40,000	$10,000
2	Opening inventory—mark-on percent	43.6%	45.2%	44.1%
3	Opening inventory—cost (1 reduced by 2)	$14,100	$21,920	$5,590
4	Mark-on on year's purchase (see step 12a)	44.7%	44.8%	44.6%
5	Closing inventory—retail method	$36,000	$42,000	$10,000
6	Closing inventory—mark-on percent	44.4%	44.9%	44.4%
7	Closing inventory—cost (FIFO) (5 reduced by 6)	$20,016	$23,142	$5,560
	II. Price Index Data			
8	Price index, close of year relative to prices at beginning of first LIFO Year as 100%	104.4%	103.4%	100.7%
	III. LIFO Computations			
9	Closing inventory—adjusted retail value (5/8)	$34,483	$40,619	$9,930
10	Increase (decrease) in year (9-1)	$9,483	$619	($70)
11	Increase at current prices (10×8)	$9,900	$640	
12a	Cost of increase (11 reduced by 4)	$5,475	$353	
12b	Cost of decrease (10 reduced by 2)			($39)
13	LIFO closing inventory (3 + 12a or 3 − 12b)	$19,575	$22,273	$5,551

Notes

(a) The mark-ons in steps 2 and 4 must be computed taking account of markdowns as well as mark-ups.

(b) In succeeding years the data to be used in steps 1, 2, and 3, to the extent applicable, must be taken from the taxpayer's books as of the beginning of the first year of the use of the LIFO method, and must be identical to those shown in the first year's computations.

(c) Steps 6 and 7 are shown to allow comparison of LIFO and FIFO inventories.

(d) The index in step 8 is the index of retail prices applicable to the goods in each department, showing the level of prices at the end of the year (104.4% in department 1) relative to the beginning of the year (100.0%).

SEC. 7. ILLUSTRATION OF SECOND AND THIRD YEAR ADJUSTMENTS

.01 To illustrate further the principles involved in making adjustments for additional years the data for Department 1 are shown below, the first year being repeated to show the continuity. The physical quantity of inventory increased in the first two years, but decreased in the third year, as indicated by the adjusted retail values (Line 9). Note that the decrease in the third year eliminated all of the second year's increase and part of the first year's increase, in that order, retaining in the closing inventory the merchandise appearing in the opening inventory "in the order of acquisition" (Line 10). Thus, it is necessary under the LIFO method to retain the identity of each annual increment to the inventory of each department. The price changes are measured by reference to the fixed prices at the beginning of the first LIFO year and the retail inventory value on each inventory date is adjusted to the price level on that date.

.02 These illustrations are intended to show the main principles involved in the LIFO adjustments to retail inventories, and are not intended to cover all accounting details of computations which may be required, particularly in later years, under the LIFO method.

Method of Computing LIFO, Retail Inventory Dept. No. 1, First Three Years

Step No.	Item or computation	First year	Second year	Third year
	I. Data from taxpayer's books			
1	Opening inventory—First LIFO year—retail	$25,000	$25,000	$25,000
2	Opening inventory—First LIFO year—mark-on percent	43.6%	43.6%	43.6%
3	Opening inventory—First LIFO year—cost (1 reduced by 2)	$14,100	$14,100	$14,100
4	Mark-on year's purchases	44.7%	44.8%	44.9%
5	Closing inventory given year—retail value	$36,000	$43,000	$34,000
	II. Price Index Data			
8	Price index, close of given year relative to prices at beginning of first LIFO year as 100%	104.4%	107.2%	104.5%
	III. LIFO Computations			
9	Closing inventory—adjusted retail value at price level of opening inventory for first LIFO year (5/8)	$34,483	$40,112	$32,536
10	Increase over opening inventory for first LIFO year (9-1)	$9,483	$15,112	$7,536
	a. Amount of increase attributable to first year	$9,483	$9,483	$7,536
	b. Amount of increase attributable second year		$5,629	0
11	Increase at prices existing when acquired:			
	a. First year's increase (10a × 104.4%)	$9,900	$9,900	$7,875
	b. Second year's increase (10b × 107.2%)		$6,035	
12	Cost of increases:			
	a. First year's increase (11a reduced by 44.7%)	$5,475	$5,475	$4,339
	b. Second year's increase (11b reduced by 44.87%)		$3,313	
	Add (3) above	$14,100	$14,100	$14,100
13	LIFO closing inventory (Sum of 12 and 3)	$19,575	$22,888	$18,439

SEC. 8. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 72–21 is modified and as modified is superseded.

SEC. 9. EFFECTIVE DATE

For taxpayers described in section 3.01 of Rev. Proc. 86–47, but not described in section 3.03 of Rev. Proc. 86–47, this revenue procedure is effective for tax years ending on (or with reference to) a date that is on or after January 31, 1987. For taxpayers described in sections 3.01 and 3.03 of Rev. Proc. 86–47, this revenue procedure is effective for tax years beginning on (or with reference to) a date that is after January 31, 1987.

Rev. Proc. 72–21 shall continue to be effective for tax years ending on (or with reference to) a date that is prior to January 31, 1987. For taxpayers described in sections 3.01 and 3.03 of Rev. Proc. 86–47, Rev. Proc. 72–21 shall continue to be effective for tax years beginning on (or with reference to) a date that is prior to January 31, 1987.

---

26 CFR 601.602: Forms and instructions.
(Also Part I, Sections 446, 471, 472; 1.446–1, 1.471–8, 1.472–1.)

Rev. Proc. 86–47

SECTION 1. PURPOSE

The purpose of this revenue procedure is to provide a procedure whereby retail department stores using the retail method of valuing inventories and the last-in, first-out (LIFO) inventory identification method pursuant to the provisions of Rev. Proc. 72–21, 1972–1 C.B. 745, may expeditiously obtain the approval of the Commissioner of Internal Revenue to change from a list of groups or pools previously used by the United States Bureau of Labor Statistics (BLS) to a new expanded list of groups or pools.

SEC. 2. BACKGROUND

.01 Section 446(e) of the Internal Revenue Code and section 1.446–1(e)(2)(i) of the Income Tax Regulations provide that a taxpayer must secure the consent of the Commissioner before it changes its methods of accounting for federal income tax purposes. Section 1.44–1(e)(3)(i) requires that, in general, to obtain this consent a Form 3115, Application for Change in Accounting Method, must be filed within 180 days after the beginning of the tax year for which the proposed change is to be made. Section 1.446–1(e)(3)(ii) authorizes the Commissioner to prescribe administrative procedures setting forth the limitations, terms, and conditions deemed necessary to permit taxpayers to obtain consent to change their method of accounting in accordance with section 1.446–1(e)(2)(i).

.02 Section 1.472–8(g)(1) of the regulations provides that any method of pooling authorized by the regulations and used by the taxpayer in computing its LIFO inventories under the dollar-value method shall be treated as a method of accounting. Any LIFO pooling method, once adopted, must be continued for all subsequent tax years unless a change is required by the Commissioner in order to clearly reflect income, or unless permission to change the method is granted by the Commissioner under section 1.446–1(e).

.03 Section 1.472–1(k) of the regulations provides that if a taxpayer using the retail method of pricing inventories, authorized by section 1.471–8, elects to use in connection therewith the LIFO method, the apparent cost of the goods on hand at the end of the year, determined pursuant to section 1.471–8, shall be adjusted to the extent of price changes therein taking place after the close of the preceding tax year. The amount of any apparent inventory increase or decrease to be eliminated in this adjustment shall be determined by reference to acceptable price indexes established to the satisfaction of the Commissioner. Price indexes prepared by BLS that are applicable to the goods in question are acceptable to the Commissioner under 1.472–1(k).

.04 Section 1.472–8(g)(2)(i) of the regulations provides that a taxpayer that is permitted or required to change its method of dollar-value LIFO pooling shall combine or separate the LIFO value of its inventory for the base year and each yearly layer of increment in order to conform to the new pools. Each yearly layer of increment in the new pool or pools must be separately accounted for and a record thereof maintained, and any liquidation occurring in the new pool or pools subsequent to the formation thereof shall be treated in the same manner as if the new pool or pools had existed from the date the taxpayer first adopted the LIFO method. The combination or separation of the LIFO value of the inventory for the base year and each yearly layer shall be made in accordance with the appropriate method set forth in section 1.472–8(g)(2)(ii), unless the use of a different method is approved by the Commissioner. Section 1.472–8(g)(2)(ii) provides that in separating a pool, each item in the former pool shall be placed in an appropriate new pool. Every item in each new pool is then extended at its base-year unit cost and the extensions are totaled. The regulations provide further steps for the complete separation of the LIFO value of the dollar-value pool into the expanded pools.

.05 Rev. Proc. 72–21 provides instructions and illustrations for the use of BLS indexes by a taxpayer that has elected to use the retail valuation method and the LIFO inventory identification method. Rev. Proc. 72–21 sets forth the 20 groups or pools used by BLS as the basis for the preparation of the indexes.

.06 Beginning in February 1986, BLS replaced the 20-group list with a 23-group list. The additional groups are: (1) Group 21—Recreation and Education; (2) Group 22—Home Improvements; and (3) Group 23—Auto Accessories. *See* Rev. Proc. 86–46, page 6, this Bulletin, which modifies and supersedes Rev. Proc. 72–21 by replacing the 20-group list with the 23-group list. Because the new indexes were introduced by BLS in February 1986, January 1987 will be the first month for which there will be a percent change based on a 12-month period. The January 1986 indexes for the new groups or pools are all 100.

.07 Taxpayers that presently compute their LIFO inventory by reference to the pools set forth in Rev. Proc. 72–21 are required under section 1.472–1(k) of the regulations to change their LIFO pooling method to conform to the expanded number of pools set forth in Rev. Proc. 86–47.

.08 Retail department stores that carry goods covered by the expanded groups presently use a miscellaneous pool or pools for these and other goods and use the BLS Store Total index, or develop their own index or indexes, to compute the LIFO value of the miscellaneous pool or pools. For these taxpayers, a change in method of accounting to comply with the provisions of Rev. Proc. 86–46 will involve a separation of the present miscellaneous pool or pools.

.09 The procedure set forth in section 1.472–8(g)(2)(ii) of the regulations and the example provided therein presuppose that the taxpayer uses the double-extension method of computing its LIFO inventory value. Under that method, the quantity of each item in a dollar-value pool at the close of the tax year is extended at both base-year unit cost and current-year unit cost. The dollar-value LIFO retail method used by retail department stores, as illustrated in Rev. Proc. 72–21, is based upon the so-called "link-chain" method. Under this method, cumulative price indexes are developed and published by BLS with the acceptance of the Internal Revenue Service, and it is not possible to compute original base-year unit costs for items in each dollar-value pool.

SEC. 3. SCOPE

.01 This revenue procedure applies to a retail department store that: (1) Uses the retail valuation method and the LIFO inventory identification method pursuant to the provisions of Rev. Proc. 72–21; (2) uses a miscellaneous pool or pools for goods described in new groups 21, 22, or 23; and (3) uses the BLS store total index, or develops its own index or indexes, in computing the LIFO value of this miscellaneous pool or pools.

.02 Except as otherwise provided in section 3.03, this revenue procedure applies to a retail department store described in section 3.01 for its first tax year ending on (or with reference to) a date that is on or after January 31, 1987.

.03 If a retail department store described in section 3.01 for its tax year described in section 3.02 does not have the records necessary to (1) calculate the cost complement for each new expanded pool, or (2) separate its miscellaneous pool or pools into the new expanded pools, this revenue procedure applies to this retail department store for its first tax year beginning on (or with reference to) a date that is after January 31, 1987.

.04 Those taxpayers that are required under this revenue procedure to change their method of accounting and to whom this revenue procedure does not apply should file a Form 3115 with the Commissioner in accordance with section 1.446–1(e)(3) of the regulations and Rev. Proc. 84–74, 1984–2 C.B. 736, if applicable.

SEC. 4. APPLICATION

.01 In accordance with section 1.446–

1(e)(3)(ii) of the regulations the 180-day rule is waived, and under section 1.446–1(e)(2)(i) consent is hereby granted to taxpayers described in section 3.01 of this revenue procedure. This consent is granted for the tax year described in section 3.02 or section 3.03 of this revenue procedure and for which a taxpayer requests a change (year of change) by filing a current Form 3115, Application for Change in Accounting Method, in the manner described in section 6 of this revenue procedure. Consent is not granted unless the taxpayer complies with the provisions of this revenue procedure.

.02 In accordance with section 1.472–8(g)(2)(i) of the regulations, which allows the Commissioner to approve a procedure for separating LIFO pools different from that described in section 1.472–8(g)(2), the Service will approve the separation of present miscellaneous dollar-value pools of retail department stores into the expanded pools set forth in Rev. Proc. 86–46 in the manner set forth in sections 4.03 and 4.04 of this revenue procedure.

.03 The procedures required of retail department stores in separating a miscellaneous pool or pools into the expanded pools set forth in Rev. Proc. 86–46 are based on the principles of sections 1.472–8(g)(3) and 1.472–8(e)(3)(vi) of the regulations. These procedures in general are as follows: (1) The base-year cost and layers of increment previously computed under the former pooling method are retained; (2) in using the new pooling method the new base year is the year of change; and (3) since the retail method does not contemplate accounting for the individual items in inventory, the separation of the original base-year cost and layers of increment into the new pools is based on the relationship of the current retail value of each of the departments in the ending inventory with respect to the miscellaneous pool for the tax year immediately preceding the year of change. The year of change must be the tax years described in sections 3.02 or 3.03 of this revenue procedure.

.04 *Example.* (1) The taxpayer, a retail department store, with a fiscal tax year ending January 31, has used Rev. Proc. 72–21 to compute the LIFO value of its dollar-value pools. For purposes of its LIFO inventory valuation, the taxpayer's base year began on February 1, 1983. The taxpayer's inventory includes departments A, B, C, and D that were all grouped together in one miscellaneous dollar-value LIFO pool prior to January 31, 1986. Departments A and B include merchandise described in new Group 21, and Departments C and D include merchandise described in new Group 22. The taxpayer does not sell any merchandise described in new Group 23. The LIFO inventory value at retail, at January 31, 1986, is computed as follows:

	Jan. 31, 1986 inventory at Feb. 1, 1983 base-year prices	Pool ABCD ratio of total current year prices to total base-year prices	Jan. 31, 1986 inventory at LIFO retail value
Feb. 1, 1983 base	$10,000	100%	$10,000
Jan. 31, 1984 increment	1,000	110	1,100
Jan. 31, 1985 increment	5,000	120	6,000
Jan. 31, 1986 increment	4,000	125	5,000
	$20,000		$22,100

The above composition of the LIFO retail value of the original pool reflects the LIFO base and layers at January 31, 1986, which is the date that immediately precedes the separation of the original LIFO pool into the expanded new pools as required by Rev. Proc. 86–46.

(2) The extension of the quantities of departments A, B, C, and D at their respective current-year retail prices at January 31, 1986, is as follows:

Dept.	Current Retail Value
A	$ 5,000
B	3,000
C	7,000
D	10,000
	$25,000

This step presents the retail value of each department in the original LIFO pool. The individual departmental retail values need only be determined for those departments directly affected by the new pooling configuration. That is, retail values are determined only for those departments being removed from the previous miscellaneous LIFO pool.

(3) In applying the provisions of this revenue procedure, the taxpayer separates former pool ABCD into two pools, AB and CD. The computation of the allocation of current retail value, by base year and layer, between the two pools is made on the basis of the ratio of total current retail value ($25,000) to total old base-year prices ($20,000) and the relationship of LIFO retail value to current retail value (new base-year prices) as of January 31, 1986, as follows:

	I 2/1/83 old base price	II/I current retail value to old base price relationship	II 1/31/86 current retail value	III 1/31/86 inventory at LIFO retail value	III/II LIFO to current retail value relationship
Feb. 1, 1983 base	$10,000	125	$12,500	$10,000	80%
Jan. 31, 1984 increment	1,000	125	1,250	1,100	88
Jan. 31, 1985 increment	5,000	125	6,250	6,000	96
Jan. 31, 1986 increment	4,000	125	5,000	5,000	100
	$20,000	125%	$25,000	$22,100	

(4) The determination of the relationship between current retail value and old base price creates the ratio needed to translate old base prices to equivalent current base prices comprising the new base year (current retail value). Subsequently, a comparison of the new base-year price with the LIFO retail value results in a LIFO retail value to current retail value relationship. This relationship is used whenever a decrease in the LIFO retail inventory value occurs that results in the penetration of a layer or the base year inventories accumulated prior to the pool separation. In this event, the reductions of LIFO retail value and current retail value bear this relationship. For example, if the January 31, 1985, increment ($6,250) incurred a decrement of $3,125, the LIFO retail value would decrease by $3,000 ($3,125 × 96%).

(5) The ratio of the new base-year price of new pools AB and CD to the base-year price of former pool ABCD is 8,000/25,000 and 17,000/25,000, respectively. The allocation of the January 31, 1986, current retail value (new base-year price) of former pool ABCD to pools AB and CD is as follows:

	New base-year price to be allocated	Pool AB	Pool CD
2/1/83	$12,500	$4,000	$ 8,500
1/31/84	1,250	400	850
1/31/85	6,250	2,000	4,250
1/31/86	5,000	1,600	3,400
	$25,000	$8,000	$17,000

This step divides the components of the current retail value of the original LIFO pool into the separated components of the new pools. The overall relationship between the old and new pools at January 31, 1986, is used to allocate the current retail amount among the base year and layers, by pool.

(6) The LIFO retail value of new pools AB and CD at January 31, 1986, as allocated, is as follows:

Pool AB	Jan. 31, 1986, inventory at new base-year (Feb. 1, 1986) price	LIFO to current retail value relationship	Jan. 31, 1986, inventory at LIFO retail value
2/1/83	$ 4,000	80%	$ 3,200
1/31/84	400	88	352
1/31/85	2,000	96	1,920
1/31/86	1,600	100	1,600
	$ 8,000		$ 7,072
Pool CD			
2/1/83	$ 8,500	80	$ 6,800
1/31/84	850	88	748
1/31/85	4,250	96	4,080
1/31/86	3,400	100	3,400
	$17,000		$15,028
	$25,000		$22,100

This step completes the separation of the value of the original LIFO pool into the new pools. This is done by using the LIFO to current retail value relationship developed above to reduce the current retail value amounts to their appropriate LIFO retail values, by base year and layer.

(7) The above determined LIFO base and layers, at retail value, are then converted, by applying the appropriate cost complement percentages of the original pools for the various years, to produce the inventory valuation, at LIFO cost, for each pool.

(8) Once the separation of the original LIFO pool into the new pools has been completed, LIFO calculations are to be made as if the year of separation was the initial LIFO year. Increases in closing inventory at adjusted retail value (see step 9 in section 7.02 of Rev. Proc. 86–46) over new base-year prices (February 1, 1986) will result in increments and will be priced reflecting inflation from a base-year LIFO inventory as of the year of separation. Decreases in closing inventory at adjusted retail value under new base-year prices (February 1, 1986) will result in decrements and will be removed from inventory in reverse chronological order at the LIFO to current retail value relationship applicable to the year the inventory was initially recorded.

SEC. 5. COMPLIANCE WITH CONDITIONS

Taxpayers making a change in method of accounting with respect to its pooling method without complying with all the conditions of this revenue procedure will be deemed to have initiated the change without obtaining the consent of the Commissioner.

SEC. 6. MANNER OF EFFECTING CHANGE

.01 Except as otherwise provided in section 6.02 of this revenue procedure, taxpayers described in section 3.01 of this revenue procedure must effect the change in their methods of accounting for their first tax year ending on (or with reference to) a date that is on or after January 31, 1987.

.02 Taxpayers described in sections 3.01 and 3.03 of this revenue procedure must effect the change in their methods of accounting for their first tax year beginning on (or with reference to) a date that is after January 31, 1987.

.03 The change is effected pursuant to the provisions set forth in this revenue procedure by filing a current Form 3115, in duplicate. The original of the Form 3115 must be attached to the taxpayer's timely filed federal income tax return for the tax year of the change (determined with regard to extensions) or to an amended return for such year filed no later than the extended time period prescribed in section 6081 of the Code and the regulations thereunder. Solely for purposes of the preceding sentence, a federal income tax return which is filed late, but within the time period described in section 6081 of the Code and the regulations thereunder, shall be treated as timely, regardless of the fact that the taxpayer has not been granted an extension of time for filing its income tax return. At the time the original of the Form 3115 is filed with the federal income tax return, a copy of the Form 3115 must be filed with the National Office, addressed to the Commissioner of Internal Revenue, Attention: CC:C:C:1, 1111 Constitution Ave. N.W., Washington, DC 20224.

.04 Taxpayers described in sections 3.01 and 3.03 of this revenue procedure must sign and attach to the original and duplicate of the Form 3115 a copy of the following statement:

Under penalties of perjury, I certify that the books and records of [insert name of taxpayer] do not contain sufficient information to (1) calculate the cost complement for each new expanded pool, or (2) separate the miscellaneous pool or pools into the new expanded pools for [insert the taxpayer's tax year that is the first tax year ending on (or with reference to) a date that is on or after January 31, 1987].

The original of this representation statement must also be attached to the taxpayer's filed federal income tax return for its first tax year ending on (or with reference to) a date that is on or after January 31, 1987. This statement must be signed by a person (or persons) that has the authority to bind the taxpayer. For example, an officer must sign on behalf of a corporation, a general partner on behalf of a partnership, a trustee on behalf of a trust, or a sole proprietor on behalf of himself or herself.

.05 To assist in the processing of these changes in method of accounting and to ensure proper handling, reference to this revenue procedure shall be made a part of the Form 3115 by either typing or legibly printing the following statement at the top of page 1 of Form 3115: "FILED UNDER REV. PROC. 86–47.

.06 The signature of the individual preparing the application for the taxpayer must appear in the space at the bottom of page one on the Form 3115. An application made by an agent on behalf of a taxpayer must be accompanied by a power of attorney authorizing the agent to sign for the taxpayer. If the agent is also authorized to represent the taxpayer before the Service, to receive the original or a copy of correspondence concerning the request, or perform any other act(s) regarding the application on behalf of the taxpayer, the power of attorney must reflect such authorization(s). If the taxpayer is a member of an affiliated group that has elected to file a consolidated federal income tax return, the Form 3115 submitted on behalf of the taxpayer, as described above, must be signed by a duly authorized officer of the common parent. (See section 1.1502–77 of the regulations.)

SEC. 7. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and be addressed to the Commissioner of Internal Revenue, Attention: CC:C:C:1, 1111 Constitution Avenue N.W., Washington, DC 20224.

SEC. 8. EFFECTIVE DATE

For taxpayers described in section 3.01 of this revenue procedure, but not described in section 3.03, this revenue procedure is effective for the first tax year ending on (or with reference to) a date that is on or after January 31, 1987. For taxpayers described in sections 3.01 and 3.03, this revenue procedure is effective for the first tax year beginning on (or with reference to) a date that is after January 31, 1987.

Part IV. Items of General Interest

General Description of the Tax Reform Act of 1986 Provisions Affecting Individual Retirement Arrangements

Announcement 86–121

This announcement highlights some of the changes made by the Tax Reform Act of 1986 (the Act) with respect to Individual Retirement Arrangements (IRAs). The announcement is intended to be a nontechnical explanation, rather than a comprehensive statement of the new rules concerning IRAs.

For a nontechnical explanation of the rules in effect before the new Act, as well as an explanation of the new law, see Internal Revenue Service Publication 590, which will be available at any IRS District office beginning early in January 1987.

This announcement may be used by a master or prototype IRA sponsor to update its disclosure statement, required by Treasury Regulations at section 1.408–6.

The Service expects to publish technical guidance concerning the Act changes to IRAs in the near future.

The nontechnical explanation follows:

The Tax Reform Act of 1986 (which we will call the Act) makes a number of major changes to the law governing the deductibility of contributions to Individual Retirement Arrangements (IRAs).

The changes made by the Act are generally not effective until January 1, 1987. This means that contributions made for 1987 are subject to the Act's new rules; however, you can still make a contribution for 1986 as late as April 15, 1987 under the old rules.

ELIGIBILITY

Under the new law, if neither you, nor your spouse, is an active participant (see A. below) you may make a contribution of up to the lesser of $2,000 (or $2,250 in the case of a spousal IRA) or 100% of compensation and take a deduction for the entire amount contributed. If you are an active participant but have an adjusted gross income (AGI) below a certain level (see B. below), you may make a deductible contribution as under current law. If, however, you or your spouse is an active participant and your combined AGI is above the specified level, the amount of the deductible contribution you may make to an IRA is phased down and eventually eliminated.

A. Active Participant

You are an "active participant" for a year if you are covered by a retirement plan. You are covered by a "retirement plan" for a year if your employer or union has a retirement plan under which money is added to your account or you are eligible to earn retirement credits. For example, if you are covered under a profit-sharing plan, certain government plans, a salary reduction arrangement (such as a tax sheltered annuity arrangement or a 401(k) plan), a simplified employee pension plan (SEP) or a plan which promises you a retirement benefit which is based upon the number of years of service you have with the employer, you are likely to be an active participant. Your Form W–2 for the year, starting with the 1987 tax year, should indicate your participation status.

You are an active participant for a year even if you are not yet vested in your retirement benefit. Also, if you make required contributions or voluntary employee contributions to a retirement plan, you are an active participant. In certain plans you may be an active participant even if you were only with the employer for part of the year.

You are not considered an active participant if you are covered in a plan only because of your service as 1) an Armed Forces Reservist, for less than 90 days of active service, or 2) a volunteer firefighter covered for firefighting service by a government plan. Of course, if you are covered in any other plan, these exceptions do not apply.

If you are married but file a separate tax return, your spouse's active participation does not affect your ability to make deductible contributions.

B. Adjusted Gross Income (AGI)

If you are an active participant, you must look at your Adjusted Gross Income for the year (if you and your spouse file a joint tax return you use your combined AGI) to determine whether you can make a deductible IRA contribution. Your tax return will show you how to calculate your AGI for this purpose. If you are at or below a certain AGI level, called the Threshold Level, you are treated as if you were not an active participant and can make a deductible contribution under the same rules as a person who is not an active participant.

If you are single, your threshold AGI level is $25,000. The threshold level if you are married and file a joint tax return is $40,000, and if you are married but file a separate tax return, the threshold level is $0.

If your AGI is less than $10,000 above your threshold level, you will still be able to make a deductible contribution but it will be limited in amount. The amount by which your AGI exceeds your Threshold Level (AGI − Threshold Level) is called your Excess AGI. The Maximum Allowable Deduction is $2,000 (or $2,250 for a Spousal IRA). You can estimate your Deduction Limit using Table I on Page 16, or calculate it as follows:

(Your Deduction Limit may be slightly higher if you use this formula rather than the Table).

$$\frac{10{,}000 - \text{Excess AGI}}{10{,}000} \times \text{Maximum Allowable Deduction} = \text{Deduction Limit}$$

You must round up the result to the next highest $10 level (the next highest number which ends in zero). For example, if the result is $1,525, you must round it up to $1,530. If the final result is below $200 but above zero, your Deduction Limit is $200. Your Deduction Limit cannot, in any event, exceed 100% of your compensation.

Example 1: Ms. Smith, a single person, is an active participant and has an AGI of $31,619. She calculates her deductible IRA contribution as follows:

Her AGI is $31,619

Her Threshold Level is $25,000

Her Excess AGI is (AGI − Threshold Level) or ($31,619 − $25,000) = $6,619

Her Maximum Allowable Deduction is $2,000

So, her IRA deduction limit is:

$$\frac{\$10{,}000 - \$6{,}619}{\$10{,}000} \times \$2{,}000 = \$676 \text{ (rounded to \$680).}$$

Example 2: Mr. and Mrs. Young file a joint tax return. Each spouse earns more than $2,000 and one is an active participant. They have a combined AGI of

$44,255. They may each contribute to an IRA and calculate their deductible contributions to each IRA as follows:

Their AGI is $44,255

Their Threshold Level is $40,000

Their Excess AGI is (AGI − Threshold Level) or ($44,255 − $40,000) = $4,255

The Maximum Allowable Deduction for each spouse is $2,000

So, each spouse may compute his or her IRA deduction limit as follows:

$$\frac{\$10{,}000 - \$4{,}255}{\$10{,}000} \times \$2{,}000 = \$1{,}149 \text{ (rounded to \$1,150).}$$

Example 3: If, in example 2, Mr. Young did not earn any compensation, or elected to be treated as earning no compensation, Mrs. Young could establish a Spousal IRA (consisting of an account for herself and one for her husband). The amount of deductible contributions which could be made to the two IRAs is calculated using a Maximum Allowable Deduction of $2,250 rather than $2,000.

$$\frac{\$10{,}000 - \$4{,}255}{\$10{,}000} \times \$2{,}250 = \$1{,}293 \text{ (rounded to \$1,300).}$$

The $1,300 can be divided between the two accounts, but neither IRA may receive a deductible contribution of more than $1,150.

Example 4: Mr. Jones, a married person, files a separate tax return and is an active participant. He has $1,500 of compensation and wishes to make a deductible contribution to an IRA.

His AGI is $1,500

His Threshold Level is $0

His Excess AGI is (AGI − Threshold Level) or ($1,500 − $0) = $1,500

His Maximum Allowable Deduction is $2,000

So, his IRA deduction limit is:

$$\frac{\$10{,}000 - \$1{,}500}{\$10{,}000} \times \$2{,}000 = \$1{,}700$$

Even though his IRA deduction limit under the formula is $1,700, Mr. Jones may not deduct an amount in excess of his compensation, so, his actual deduction is limited to $1,500.

SPOUSAL IRAs

As noted in Example 3 above, under the Act you may contribute to a Spousal IRA even if your spouse has earned some compensation during the year. Provided your spouse does not make a contribution to an IRA, you may set up a Spousal IRA consisting of an account for your spouse as well as an account for yourself. The maximum deductible amount for the spousal IRA is the lesser of $2,250 or 100% of compensation. This rule applies for 1986 spousal IRAs as well as 1987 spousal IRAs.

NONDEDUCTIBLE CONTRIBUTIONS TO IRAs

Even if you are above the threshold level and thus may not make a deductible contribution of $2,000 ($2,250 for a spousal IRA), you may still contribute up to the lesser of 100% of compensation or $2,000 to an IRA ($2,250 for a Spousal IRA). The amount of your contribution which is not deductible will be a nondeductible contribution to the IRA. You may also choose to make a contribution nondeductible even if you could have deducted part or all of the contribution. Interest or other earnings on your IRA contribution, whether from deductible or nondeductible contributions, will not be taxed until taken out of your IRA and distributed to you.

If you make a nondeductible contribution to an IRA you must report the amount of the nondeductible contribution to the IRS as a part of your tax return for the year.

You may make a $2,000 contribution at any time during the year, if your compensation for the year will be at least $2,000, without having to know how much will be deductible. When you fill out your tax return you may then figure out how much is deductible.

You may withdraw an IRA contribution made for a year any time before April 15 of the following year. If you do so, you must also withdraw the earnings attributable to that portion and report the earnings as income for the year for which the contribution was made. If some portion of your contribution is not deductible, you may decide either to withdraw the nondeductible amount, or to leave it in the IRA and designate that portion as a nondeductible contribution on your tax return.

IRA DISTRIBUTIONS

Because nondeductible IRA contributions are made using income which has already been taxed (that is, they are not deductible contributions), the portion of the IRA distributions consisting of nondeductible contributions will not be taxed again when received by you. If you make any nondeductible IRA contributions, each distribution from your IRAs will consist of a nontaxable portion (return of nondeductible contributions) and a taxable portion (return of deductible contributions, if any, and account earnings). Thus, you may not take a distribution which is entirely tax-free. The following formula is used to determine the nontaxable portion of your distributions for a taxable year:

$$\frac{\begin{array}{c}\text{Remaining}\\ \text{Nondeductible contributions}\end{array}}{\begin{array}{c}\text{Year-end total IRA}\\ \text{account balances}\end{array}} \times \begin{array}{c}\text{Total Distributions}\\ \text{(for the year)}\end{array} = \begin{array}{c}\text{Nontaxable distributions}\\ \text{(for the year)}\end{array}$$

To figure the year-end total IRA account balance you treat all of your IRAs as a single IRA. This includes all regular IRAs, as well as Simplified Employer Pension (SEP) IRAs, and Rollover IRAs. You also add back the distributions taken during the year.

Example: An individual makes the following contributions to his or her IRAs:

Year	*Deductible*	*Nondeductible*
1983	$2,000	
1984	1,800	
1987	1,000	$1,000
1989	600	1,400
	$5,400	$2,400

Deductible Contributions:	$5,400
Nondeductible Contributions:	2,400
Earnings on IRAs:	1,200
Total Account Balance of IRAs as of 12/31/91: (including distributions in 1991)	$9,000

In 1991 the individual takes a distribution of $3,000. The total account balance in the IRAs on 12/31/91 plus 1991 distributions is $9,000. The nontaxable portion of the distributions for 1991 is figured as follows:

$$\frac{\text{Total nondeductible contributions}}{\text{Total account balance in the IRAs plus distributions}} \qquad \frac{\$2,400}{\$9,000} \times \$3,000 = \$800$$

Thus, $800 of the $3,000 distribution in 1991 will not be included in the individual's taxable income. The remaining $2,200 will be taxable for 1991.

ROLLOVER IRA RULES

The Act made some changes in the rules for rollovers of *partial* distributions from retirement plans into IRAs. (A partial distribution is one which represents at least 50 percent of the amount owed to you from a retirement plan.)

After December 31, 1986, if you receive a partial distribution from an employer's pension plan after December 31, 1986, and the distribution is paid to you

1) because you separated from service with the employer.
2) because you became disabled while working for the employer, or
3) because of the death of your spouse while he or she was covered under the employer's plan, if you are named as a beneficiary.

then you may deposit that amount into a Rollover IRA.

IRA ARRANGEMENTS

In general, the above changes affect individual deduction provisions, rather than provisions required in IRA documents. Therefore, until further notice, trustees using Model IRAs and IRAs which have been approved under the IRA National Office Master and Prototype program need not amend their IRA documents to reflect the changes in the laws concerning IRAs.

New Form 1120–ND, Return For Nuclear Decommissioning Funds and Certain Related Persons

Announcement 86–123

New Form 1120–ND, Return For Nuclear Decommissioning Funds and Certain Related Persons, has been developed for use by qualified funds that are created by public utilities to pay the future costs of decommissioning nuclear power plants. These funds must file the Form 1120–ND to report contributions received, income earned, payment of the administrative expenses of the fund, the tax on income earned, and information on whether any acts of self-dealing have occurred during the tax year. Form 1120–ND must also be filed by trustees or disqualified persons who engage in acts of self-dealing with the fund.

Form 1120–ND must be filed within two and one-half months after the close of the taxpayer's tax year. It will be available beginning in January 1987.

New Form 1120–W (FY)(1986–87), Fiscal Year Corporation Estimated Tax

Announcement 86–124

New Form 1120–W (FY)(1986–87), Fiscal Year Corporation Estimated Tax, has been developed for use by corporations whose tax years begin in 1986 and end in 1987. The form highlights the changes made by the Tax Reform Act of 1986 that affect fiscal year taxpayers. It also provides a prorated tax computation for taxpayers whose tax years end after June 30, 1987, and includes a new computation of alternative tax under section 1201 of the Internal Revenue Code for all fiscal 1986–87 filers.

Corporations whose tax years begin in 1986 and end in 1987 should use this form to compute their estimated tax or recompute the amount due for each installment if estimated tax payments have already been made.

Form 1120–W (FY) (1986–87) will be available in January 1987.

New Form 5500EZ, Annual Return of One-Participant Pension Benefit Plan

Announcement 86–125

New Form 5500EZ, Annual Return of One-Participant Pension Benefit Plan, has been developed for use by pension benefit plans that cover only an individual or an individual and the individual's spouse who wholly own a business. This form may also be used for a plan or a partnership that covers only the partners, or the partners and their spouses, as long as the plan meets the coverage requirements of Internal Revenue Code section 410(b)(1) without being combined with any other plan.

The Form 5500EZ may not be used for a pension plan of a business that:

(a) is a member of an affiliated service group,

(b) is a member of a controlled group of corporations,

(c) is a member of a group of businesses under common control, or

(d) leases employees.

The use of Form 5500EZ will substantially reduce the reporting burden for small "one-participant" pension plans.

The Form 5500EZ will be available to the public in January 1987. It may be filed for plan years starting in 1986.

New Form 8453–F, U.S. Fiduciary Income Tax Declaration for Magnetic Media/Electronic Filing, and Form 8453–P, U.S. Partnership Declaration for Magnetic Media/Electronic Filing

Announcement 86–126

New Form 8453–F, U.S. Fiduciary Income Tax Declaration for Magnetic Media/Electronic Filing, and Form 8453–P, U.S. Partnership Declaration for Magnetic Media/Electronic Filing, have been developed for use by estates and trusts, and partnerships, respectively, participating in the 1986 electronic/magnetic media filing pilot program. These entities can use the program only for tax years ending on December 31, 1986. The details of the pilot program were published in the Federal Register, dated March 31, 1986.

The Form 8453–F program is limited to Forms 1041 with any of the following attachments:

Schedule D (Form 1041), Capital Gains and Losses
Schedule K–1 (Form 1041), Beneficiary's Share of Income, Deductions, Credits, etc.
Form W–2, Wage and Tax Statement
Form 6251, Alternative Minimum Tax Computation

The Form 8453–P program is limited to Forms 1065 with any of the following attachments:

Schedule D (Form 1065), Capital Gains and Losses
Schedule K (Form 1065), Partners' Shares of Income, Credits, Deductions, etc.
Schedule K–1 (Form 1065), Partner's Share of Income, Credits, Deductions, etc.

ESTIMATED DEDUCTION TABLE

If your Maximum Allowable Deduction is $2,000, use this table to estimate the amount of your contribution which will be deductible. (See page 13 for formula.)

Excess AGI	Deduction	Excess AGI	Deduction	Excess AGI	Deduction	Excess AGI	Deduction	Excess AGI	Deduction
$ 0.00	$2,000.00	$2,000.00	$1,600.00	$4,000.00	$1,200.00	$6,000.00	$800.00	$8,000.00	$400.00

Excess AGI = Your AGI minus your Threshold Level:
If you are single, your Threshold Level is $25,000.
If you are married, your Threshold Level is $40,000.
If you are married and file a separate tax form, your Excess AGI = your AGI.

Foundations Status of Certain Organizations

Announcement 86–127

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

Aficionados De Golf of Tucson, Inc., Tucson, AZ
Altitude Unlimited, Inc., Boulder, CO
Alvarado Murphy and Assn., Inc., Chicago, IL
American Institute of Banking Austin Chapter, Austin, TX
American-Irish Heritage Foundation of Washington, D.C., Washington, DC
Assistance, Inc., Aurora, CO
Association for the Promotion of New Music, Ship Bottom, NJ
Awareness Americas, Inc., St. Paul, MN
Beebe Hospital Auxiliary, Inc., The, Lewes, DE
Big Bend Manta Ray Swim Team Boosters, Moses Lake, WA

Waterfowl Habitat, Inc., Bloomington, MN
We Care Ministries, Inc., Mesa, AZ
West Suburban Crime Stoppers Program, Inc., West Des Moines, IA
World of Faith Ministry, Dallas, TX
Zurlag Theatre, Chicago, IL

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)–7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and address of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Howard M. Belser	Decatur, AL	Attorney	Three Years from October 9, 1986
Kennard I. Mandell	Wellesley, MA	Attorney	Indefinite from October 1, 1986

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any person who has violated the rules and regulations governing the recognition of attorneys, certified public accountants, enrolled agents or enrolled actuaries to practice before the Internal Revenue Service.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been suspended from further practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Paul Adams, Jr.	Bristol, VA	Certified Public Accountant	Indefinite from September 11, 1986

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Leonard Bezark	King of Prussia, PA	Certified Public Accountant	October 19, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1984/1985 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–148, page 4.
Office in the home; security system. Section 280A of the Code will disallow the deduction of business expenses and the recovery deduction attributable to the purchase of a security system by a taxpayer not engaged in a trade or business and, in the case of a security system purchased by a taxpayer engaged in a trade or business, section 280A will limit the deduction of the business expenses and recovery deduction to the gross income attributable to the office in the home.

Rev. Rul. 86–149, page 5.
Inventories; LIFO; real estate developer. Construction costs of completed homes and costs of construction in progress are capital expenditures under section 263 of the Code. Taxpayers cannot inventory such costs under LIFO inventory method. Rev. Rul. 69–536 amplified.

Rev. Rul. 86–150, page 7.
LIFO; price indexes; department stores. The March 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, March 31, 1986.

T.D. 8106, page 8.
Regulations under section 1239 of the Code clarify the proper time for determination of relatedness of the transferor and transferee of depreciable property for purposes of section 1239.

Announcement 86–128, page 22.
Guidance is provided with respect to the application of certain provisions of the built-in gain tax imposed under section 1374 of the Code on S corporations that were formerly C corporations.

EMPLOYMENT TAXES

Announcement 86–122, page 21.
State and local government employers covered by agreements under section 218 of the Social Security Act will be subject to the provisions of the Internal Revenue Code for wages paid after December 31, 1986. Guidance in question and answer form is provided for the rules such employers should follow beginning January 1, 1987.

EXCISE TAXES

Pub. L. 99–662, page 10.
The Harbor Maintenance Revenue Act of 1986 imposes a tax on port use. Also, section 4042 of the Code relating to tax on fuel used in transportation on inland waterways, is amended.

Announcement of Disbarments and Suspensions on page 24.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 162.—Trade or Business Expenses

26 CFR 1.162–1: Business expenses.

Whether expenses attributable to a security system that protects an office in the home are deductible. See Rev. Rul. 86–148, this page.

Section 167.—Depreciation

26 CFR 1.167–1(a): Depreciation in general.

Whether the depreciation deduction attributable to a security system that protects an office in the home is deductible. See Rev. Rul. 86–148, this page.

Section 168.—Accelerated Cost Recovery System

Whether the recovery deduction attributable to a security system that protects an office in the home is deductible. See Rev. Rul. 86–148, this page.

Section 212.—Expenses For Production of Income

26 CFR 1.212–1: Nontrade or nonbusiness expenses.

Whether the expenses attributable to a security system that protects an office in the home are deductible. See Rev. Rul. 86–148, this page.

Section 263.—Capital Expenditures

26 CFR 1.263(a)–1: Capital expenditures; in general.

Whether a taxpayer engaged in the construction of homes must capitalize the construction cost or may the taxpayer inventory such costs. See Rev. Rul. 86–149, page 5.

Section 280A.—Disallowance Of Certain Expenses In Connection With Business Use Of Home, Rental Of Vacation Homes, Etc.

(Also Sections 162, 167, 168, 212; 26 CFR 1.162–1, 1.167–1, 1.212–1.)

Office in the home; security system. Section 280A of the Code will disallow the deduction of business expenses and the recovery deduction attributable to the purchase of a security system by a taxpayer not engaged in a trade or business and, in the case of a security system purchased by a taxpayer engaged in a trade or business, section 280A will limit the deduction of the business expenses and recovery deduction to the gross income attributable to the office in the home.

Rev. Rul. 86–148

ISSUE

Are the expenses attributable to the purchase and operation of a security system installed in a taxpayer's residence deductible either as trade or business expenses under sections 162 and 168 of the Internal Revenue Code or as expenses for the production of income under sections 212 and 168 of the Code?

FACTS

Situation 1

On January 1, 1986, *A*, an individual, began using an office in *A*'s residence exclusively on a regular basis for managing *A*'s extensive investment portfolio. The investments, consisting primarily of securities, generate substantial income. The square footage of *A*'s office is one-sixth of the total square footage of *A*'s residence.

A's office contains a computer and other office equipment. In order to protect this equipment and the investment certificates kept in the office, *A*, on April 1, 1986, contracted to purchase a central alarm security system. On April 8, 1986, the system was installed in *A*'s home. *A* pays a monthly fee to a security service company to maintain and monitor the system. The security system protects all the doors and windows in *A*'s home.

On *A*'s federal income tax return, *A* intends to deduct as an investment expense one-sixth of the annual recovery deduction allowable under section 168 of the Code and one-sixth of the annual expenses incurred to maintain and monitor the system.

Situation 2

On January 1, 1986, *B*, an individual, opened a dental office in *B*'s residence. The office is used on a regular basis to provide dental care to *B*'s patients and is used exclusively for that purpose. The square footage of *B*'s office is one-sixth of the total square footage of *B*'s residence. On April 1, 1986, *B* contracted to purchase a central alarm system that is the same as *A*'s. On April 8, 1986, the system was installed in *B*'s home. *B* also pays a security service company a monthly fee to maintain and monitor the system. The security system protects all the doors and windows in *B*'s home.

On *B*'s federal income tax return, *B* intends to deduct as a business expense one-sixth of the annual recovery deduction allowable under section 168 of the Code and one-sixth of the annual expenses incurred to maintain and monitor the system.

LAW AND ANALYSIS

Section 162 of the Code provides for the deduction of all ordinary and necessary expenses paid or incurred in carrying on any trade or business.

Section 212 of the Code permits an individual to deduct all the ordinary and necessary expenses paid or incurred for the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income.

Section 167(a) of the Code provides that there shall be allowed as a depreciation deduction a reasonable allowance for the exhaustion, wear and tear (including a reasonable allowance for obsolescence) of property used in a trade or business, or of property held for the production of income. In general, in the case of recovery property (within the meaning of section 168), the deduction allowable under section 168 shall be deemed to constitute the reasonable allowance provided by section 167.

Section 168(a) of the Code provides that there shall be allowed as a deduction for any taxable year the amount determined under section 168 with respect to recovery property. (For purposes of this revenue ruling, the deduction allowed under section 168 is termed the "recovery deduction.")

Section 168(c)(1) of the Code, subject to the exceptions provided in section 168(e) (which are not relevant here), provides that the term "recovery property" means tangible property of a character subject to the allowance for depreciation that is used in a trade or business or held for the production of income.

Section 280A(a) of the Code provides that, except as otherwise provided in section 280A, in the case of a taxpayer who is an individual or an S corporation, no deduction otherwise allowable will be allowed with respect to the use of a dwelling unit that is used by the taxpayer during the taxable year as a residence.

Section 280A(b) of the Code provides

that section 280(A)(a) will not apply to any deduction allowable to the taxpayer without regard to its connection with the taxpayer's trade or business (or with the taxpayer's income-producing activity).

Section 280A(c)(1) of the Code provides, in part, that section 280A(a) will not apply to any item to the extent such item is allocable to a portion of the dwelling unit that is exclusively used on a regular basis as (A) the principal place of business of any trade or business of the taxpayer, or (B) as a place of business that is used by patients, clients, or customers in meeting or dealing with the taxpayer in the normal course of the taxpayer's trade or business.

S. Rep. No. 94–938, 94th Cong., 2d Sess. 31, 149 (1976), 1976–3 (Vol. 3) C.B. 49, 187, describing the intended scope of section 280A, states that an allocable portion of expenses paid or incurred with respect to the use of a dwelling unit that is used by the taxpayer both as a residence and in connection with income producing activities described in section 212 of the Code will not be allowable as a deduction unless the income producing activity constitutes a trade or business. For example, no deduction is to be allowed if a taxpayer uses a portion of the residence (exclusively on a regular basis) to read financial periodicals and reports, clip bond coupons, and perform similar activities with respect to an investment portfolio, because such investment activities are not a trade or business. *See also Higgins v. Commissioner*, 312 U.S. 212 (1941), 1941–1 C.B. 339, in which the Supreme Court held that an investor's management of the investor's own investments, no matter how continuous or extensive, did not constitute a trade or business.

If an activity carried on in a portion of a dwelling unit meets one of the "use exceptions" provided in section 280A(c) of the Code (including use in a trade or business described in section 280A(c)(1)(A) or (B)), expenses attributable to that use of that portion of the dwelling unit may be deducted. In calculating what expenses are attributable to a use in a trade or business described in section 280A(c)(1)(A) or (B), the taxpayer may use any method of allocation that is reasonable under the circumstances.

Under section 280A(c)(5), the deductions allowed by reason of being attributable to a use that qualifies under section 280A(c)(1)(A) or (B) may not exceed the amount by which the gross income derived from that use of the dwelling unit for the taxable year exceeds the deductions (for example, interest and taxes) allocable to that use that are allowable for the taxable year whether or not the dwelling unit was so used.

In *Situation 1*, because *A*'s investment activities do not constitute a trade or business, expenses attributable to the residential security system are deductible only to the extent, if any, that they are deductible without regard to *A*'s income producing activity. *See* Section 280A(b). Because the recovery deduction and the monthly maintenance fee are not deductible without regard to the existence of *A*'s income producing activity, no portion of those items is deductible by *A*.

In *Situation 2*, because *B* uses the office in *B*'s residence exclusively on a regular basis to meet with patients in the normal course of *B*'s trade or business as a dentist, expenses allocable to the office are deductible, subject to the limitation of section 280A(c)(5). Because the security system protects every doorway and window of *B*'s residence, and because the square footage of the office is one-sixth of the total square footage of *B*'s residence, it was reasonable for *B* to use square footage as the basis for allocating the recovery deduction and the monthly maintenance fee that *B* paid for the security system. Accordingly, one-sixth of the recovery deduction and one-sixth of the monthly fee attributable to the security system is allocable to the office.

HOLDING

In *Situation 1*, no portion of the recovery deduction otherwise allowable under section 168 and the monthly maintenance fee that *A* paid for the security system is deductible under section 280A(a) of the Code because *A*'s investment activity is not a "trade or business."

In *Situation 2*, one-sixth of the recovery deduction otherwise allowable under section 168 and one-sixth of the monthly maintenance fee *B* paid for the security system are deductible, but only to the extent that the gross income derived from *B*'s business use of the office for the taxable year exceeds the deductions that are allocable to that use and are allowable for the taxable year whether or not the residence was so used.

Section 446.—General Rule for Methods of Accounting

26 CFR 1.446–1: General rule for methods of accounting.

Whether a taxpayer can use the last-in, first-out inventory method of accounting for the costs of its completed homes and homes under construction. See Rev. Rul. 86–149, below.

Section 471.—General Rule for Inventories

26 CFR 1.471–1: General rule for inventories.
(Also Sections 263, 446, 472; 1.263(a)–1, 1.446–1, 1.472–1.)

Inventories; LIFO; real estate developer. Construction costs of completed homes and costs of construction in progress are capital expenditures under section 263 of the Code. Taxpayers cannot inventory such costs under LIFO inventory method. Rev. Rul. 69–536 amplified.

Rev. Rul. 86–149

ISSUE

Whether a taxpayer engaged in the business of developing real estate may use the last-in, first-out (LIFO) inventory identification method in accounting for the costs of its completed homes and homes under construction, exclusive of land costs?

FACTS

The taxpayer is a real estate developer that keeps its books and records and files its federal income tax returns on an accrual method of accounting. Its principal business activity is developing real estate upon which it constructs residential homes.

The taxpayer uses an accumulated "job cost" method to account for its construction and development costs. Under this method, each home is treated as a separate costing unit to which all direct identifiable costs are charged and all overhead costs, including the variable overhead as well as the construction and architectural costs, are allocated. All costs that have been accumulated for a particular home under the job cost method are charged to cost of sales at the time of settlement with the purchaser of the home.

With its federal income tax return filed for the year ended 1984, the taxpayer filed a timely Form 970, Application to Use LIFO Inventory Method, for its "inventory" of completed new homes and jobs in progress. The cost of its building lots, including the various development costs of improving the lots such as streets, curbs and gutters, were not included in the application to use the LIFO method.

LAW AND ANALYSIS

Section 263(a)(1) of the Internal Revenue Code and section 1.263(a)–1(1) of the Income Tax Regulations provides that no deductions shall be allowed for any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or estate.

Section 1.263(a)–2 of the regulations sets forth examples of capital expenditures, including the cost of acquisition, construction, or erection of buildings, machinery and equipment, furniture and fixtures, and similar property having a useful life substantially beyond the tax year.

Section 446(a) of the Code states the general rule that taxable income shall be computed by a taxpayer under the method of accounting it regularly uses in keeping its books. Section 446(b), however, provides that where a taxpayer's accounting method does not clearly reflect income, the computation of taxable income shall be made under such method as, in the Secretary's opinion, does clearly reflect income.

Section 471 of the Code provides that whenever in the opinion of the Secretary the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by such taxpayer on such basis as the Secretary may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting income.

Section 472(a) of the Code allows a taxpayer to use the LIFO method in inventorying goods specified in an application to use such method filed at such time and in such manner as the Secretary may prescribe.

Section 1.471–1 of the regulations provides that inventories at the beginning and end of each tax year are necessary in every case in which the production, purchase or sale of merchandise is an income-producing factor.

Section 1.472–1(a) of the regulations provides that any taxpayer permitted or required to take inventories pursuant to the provisions of section 471 of the Code may elect with respect to those goods specified in its application and properly subject to inventory to compute its opening and closing inventories in accordance with the method provided by section 472.

Whether a real estate developer may use the LIFO method to account for the costs of its completed homes and jobs in progress is dependent upon whether the taxpayer is required or permitted to maintain inventories with respect to these costs. Historically, taxpayers engaged in the real estate business have not been permitted to inventory real estate held for sale to customers. *Atlantic Coast Realty Co. v. Commissioner*, 11 B.T.A. 416 (1928); Rev. Rul. 69–536, 1969–2 C.B. 109. In *Atlantic Coast Realty Co.*, the United States Board of Tax Appeals concluded that, based on the purpose and legislative intent of the inventory provisions, the use of inventories is inappropriate for a taxpayer engaged in buying and selling lands. As stated by the Board of Tax Appeals on page 419:

> The use of inventories must be reasonably necessary to the determination of income. The basis of their use must be prescribed by the Commissioner, not arbitrarily, but in conformity to the best accounting practice in the trade or business and as most clearly reflecting income. The language indicates no intention to recognize in any trade a new method of determining income or a new limitation upon income, but only a recognition of the use of inventories in such trades or businesses, like "manufacturing and merchandise concerns" as had been found to require such accounting practice.

Unlike a manufacturing or merchandise concern, the use of inventories for the valuation of either unimproved land or developed real estate is unnecessary for the determination of income and generally impractical as a method to value real estate. *See Atlantic Coast Realty Co.* Real estate is unique and is particularly subject to specific accounting of costs including the tracing of costs to individual parcels and the separate computations of gains or losses on sales. *See* for example, Rev. Rul. 66–247, 1966–2 C.B. 198, which states that capitalized costs incurred in the construction of a house for speculative sale should be applied against the amount realized upon the sale of the house for purposes of determining gain or loss.

Instead of being a more convenient method of accounting, as it is with large stocks of merchandise, an inventory method for real estate could be so cumbersome and uncertain as to be generally impractical. *Atlantic Coast Realty Co.* For this reason, neither the land nor the materials and supplies used to construct the houses on the lots are considered merchandise or goods within the meaning of section 471 of the Code and its regulations. *See Homes by Ayres v. Commissioner*, 795 F. 2d 832 (9th Cir. 1986), *aff'g* T.C.M. 1984–475; *W. C. & A. N. Miller Development Co. v. Commissioner*, 81 T.C. 619 (1983); *see also Francisco Sugar Co. v. Commissioner*, 47 F. 2d 555 (2nd Cir. 1931), *aff'g in part* 14 B.T.A. 1062 (1929). Instead, the property and its improvements constitute real estate held for sale by the taxpayer. *See* section 263(a)(1).

In the instant situation, therefore, the taxpayer is neither permitted nor required to maintain inventories. Its job order cost method for accumulating the costs of its completed but unsold homes and construction in progress is not an inventory method but a capitalization method even though it may approximate the results of a specific identification inventory method. *W.C. & A.N. Miller Development Co.* As stated by the United States Tax Court in *W.C. & A.N. Miller Development Co.* on pages 632 and 633:

> There is a fundamental difference between capitalization and an inventory method. Under capitalization, gain will be determined pursuant to section 1001 on each individual home when it is sold, and such gain is to be determined based generally on the taxpayer's actual cost for that particular home. Since the specific identification method of inventory valuation is only one of several permissible inventory methods, there is not necessarily the requirement under this method that actual cost be used in arriving at cost of goods sold.

Thus, the Tax Court held that a seller of homes cannot maintain inventories.

A taxpayer engaged in the real estate business capitalizes its costs in accordance with section 263 of the Code. Under section 263(a)(1), costs incurred in the construction of homes and other permanent improvements to real property are not currently deductible. Instead the cost of unsold homes and construction in progress is capital expenditure that becomes part of the cost of the real estate, which, in turn, is recovered either through a depreciation allowance if the property is used in a trade or business, or as an offset against the price received in the subsequent sale or disposition of such property.

By utilizing the LIFO method of inventory accounting for its completed but unsold houses and costs of construction in progress, the taxpayer may be, in effect, deducting a portion of its construction costs before it has actually disposed of the real property. For example, as con-

struction costs increase, the LIFO method will produce a cost of goods sold deduction in excess of the cost specifically attributable to the particular real property actually disposed of during the year and in effect the taxpayer will be currently deducting the cost of improving other real property prior to its sale. Thus, as a consequence of utilizing the LIFO inventory method in conjunction with its job order cost method, the taxpayer is selectively combining attributes of both an inventory method and a capitalization method with a resulting distortion of income within the meaning of section 446(b) of the Code.

HOLDING

A taxpayer engaged in the business of developing real estate may not use the LIFO inventory identification method to account for its completed homes and homes under construction, exclusive of land costs.

Any change from the taxpayer's present method of accounting for its construction costs to the method described in this revenue ruling is a change in method of accounting to which sections 446 and 481 of the Code and the regulations thereunder apply.

This ruling is identified as a designated ruling pursuant to section 5.12(2) of Rev. Proc. 84–74, 1984–2 C.B. 736.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 69–536, 1962–2 C.B. 109 amplified.

Section 472.—Last-in, First-out Inventories

26 CFR 1.472–1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The March 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, March 31, 1986.

Rev. Rul. 86–150

The following price indexes for March 1986 were issued by the Bureau of Labor Statistics on April 24, 1986, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472–1(k) of the Income Tax Regulations and Rev. Proc. 72–21, 1972–1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, March 31, 1986.

Indexes are prepared on a national basis for the store total, for 23 major groups of departments, and for three special combinations—soft goods, durable goods and miscellaneous goods. The store total index covers all departments, including

BUREAU OF LABOR STATISTICS, DEPARTMENT STORE INVENTORY PRICE INDEXES BY DEPARTMENT GROUPS
(January 1941 = 100 unless otherwise noted)

	March 1985	March 1986	Percentage Change from March 1985 to March 1986[1]

Store Total	469.0	468.2	−0.2

[1] Absence of a minus sign before percentage change in this column signifies price increase

some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, as well as contract departments.

The major groups of departments for which indexes are prepared have been expanded from 20 to 23. These new groups are: (1) Group 21—Recreation and Education; (2) Group 22—Home Improvements; and (3) Group 23—Auto Accessories. A Miscellaneous Goods index is also introduced to reflect the aggregate movement of these three new groups. *See* Rev. Proc. 86–46, 1986–50, I.R.B. 6.

Although the new indexes were introduced in the February 1986 Department Store Inventory Price Indexes, January 1987 will be the first month for which there will be a percent change based on a 12-month period. The January 1986 indexes for the new groups are all 100. Rev. Proc. 86–46 modifies and supersedes Rev. Proc. 72–21.

Rev. Proc. 86–47, 1986–50 I.R.B. 8, sets forth the procedures required of taxpayers to change their method of accounting from that of using the 20 groups set forth in Rev. Proc. 72–21 to the method of using the 23 groups set forth in Rev. Proc. 86–46.

26 CFR 1.472–1: Last-in, first-out inventories.

Whether a real estate developer can use the last-in, first-out inventory method of accounting with respect to construction cost of completed homes and construction in progress. See Rev. Rul. 86–149, page 5.

Section 1239.—Gain from Sale of Depreciable Property Between Related Taxpayers

26 CFR 1.1239–1: Gain from sale or exchange of depreciable property between certain related taxpayers after October 4, 1976.

T.D. 8106

TITLE 26.—INTERNAL REVENUE—CHAPTER I, SUBCHAPTER A, PATR 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1983

Income Taxes; Time for Determining Relationship of Persons Transferring Depreciable Property

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations under section 1239 which clarify the proper time for determination of the relatedness of the transferor and transferee of depreciable property for purposes of section 1239. These final regulations provide the public with guidance as to the proper time for determining relatedness under section 1239. This amendment does not reflect amendments to section 1239 made by the Installment Sales Revision Act of 1980, the Technical Corrections Act of 1982 and the Tax Reform Act of 1984.

EFFECTIVE DATE: The regulations are effective for transfers after January 6, 1983.

FOR FURTHER INFORMATION CONTACT: Robert Beatson of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC 20224 (Attention: CC:LR:T) (202-566-3459).

SUPPLEMENTARY INFORMATION: BACKGROUND

On January 6, 1983, the **Federal Register** published proposed amendments (48 FR 667) to the Income Tax Regulations (26 CFR Part 1) under section 1239 of the Internal Revenue Code of 1954 [1983–1 C.B. 989]. One comment was received regarding this proposal. A public hearing was neither requested nor held. After consideration of this comment, these amendments are adopted as revised by this Treasury Decision.

EXPLANATION OF PROVISIONS

Section 1239 disallows capital gains treatment on the sale or exchange of depreciable property between related taxpayers as defined in section 1239(b). This section is designed to prevent the immediate payment of a capital gains tax in return for the elimination over a period of years of income taxes on an equivalent amount of ordinary income as a result of the additional depreciation deduction allowable on the increased basis of the transferred property.

PUBLIC COMMENT

The proposed amendments to section 1239 state that a taxpayer and an entity are considered related if there is 80-percent ownership before or immediately after the sale or exchange of depreciable property. This rule does not make any distinction between whether the selling party is the shareholder or the corporation. Additionally, the proposed amendments state that where there is a sale or exchange between two entities, there is relatedness if a shareholder has 80-percent ownership (either actual or constructive ownership) of the transferor before the sale or exchange of depreciable property and the same shareholder has 80-percent ownership (either actual or constructive ownership) of the transferee immediately after the sale or exchange of depreciable property.

The commentator noted that the appropriate time for determining whether a person and a controlled entity are "related persons" when the person sells property to or exchanges property with the entity should be immediately after the sale or exchange of the property. After consideration of this comment, the final regulations provide that when a person sells property to or exchanges property with a controlled entity, the proper time for determining relatedness is immediately after the sale or exchange. Thus, the holding in *Robishaw* v. *United States*, 616 F.2d 507 (Ct. Cl. 1980) is not followed. The commentator further suggested that the appropriate time for determining whether a person and a controlled entity are "related persons" when the entity sells property to or exchanges property with the person should be before the sale or exchange of the property. After consideration of this comment, it has not been adopted since it is believed that abusive situations may result under such a rule. Thus, when a controlled entity sells property to or exchanges property with a person, the time for determining relatedness is immediately before or immediately after the sale or exchange of the depreciable property.

The final regulations also do not adopt the proposed example.

REGULATORY FLEXIBILITY ACT

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

DRAFTING INFORMATION

The principal author of this final regulation is Robert Beatson of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

PART 1—[AMENDED]

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.1239–1 is amended by redesignating paragraph (c)(3) as (c)(5) and adding new paragraphs (c)(3) and (c)(4). New paragraphs (c)(3) and (c)(4) read as follows:

§1.1239–1 Gain from sale or exchange of depreciable property between certain related taxpayers after October 4, 1976.

* * * * *

(c) *Rules of construction.* * * *

(3) *Relationship determination for transfers made after January 6, 1983—taxpayer and an 80-percent owned entity.* For purposes of paragraph (b)(2) of this section with respect to transfers made after January 6, 1983—

(i) If the transferor is an entity, the transferee and such entity are related if the entity is an 80-percent owned entity with respect to such transferee either immediately before or immediately after the sale or exchange of depreciable property, and

(ii) If the transferor is not an entity, the transferee and such transferor are related if the transferee is an 80-percent owned entity with respect to such transferor immediately after the sale or exchange of depreciable property.

(4) *Relationship determination for transfers made after January 6, 1983—two 80-percent owned entities.* For purposes of paragraph (b)(3) of this section, with respect to transfers made after January 6, 1983, two entities are related if the same shareholder both owns 80 percent or more in value of the stock of the transferor before the sale or exchange of depreciable property and owns 80 percent or more in value of the stock of the transferee immediately after the sale or exchange of depreciable property.

* * * * *

James I. Owens,
Acting Commissioner of Internal Revenue.

Approved: November 14, 1986.

J. Roger Mentz,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on November 25, 1986, 8:45 a.m., and published in the issue of the Federal Register for November 26, 1986, 51 F.R. 42835)

Subpart B.—Legislation and Related Committee Reports

Public Law 99–662
99th Congress H.R. 6[1]
November 17, 1986:

An Act to provide for the conservation and development of water and related resources and the improvement and rehabilitation of the Nation's water resources infrastructure.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. This Act may be cited as the "Water Resources Development Act of 1986."

* * * * *

Title XIV—Revenue Provisions

SEC. 1401. SHORT TITLE.

This title may be cited as the "Harbor Maintenance Revenue Act of 1986."

SEC. 1402. IMPOSITION OF HARBOR MAINTENANCE TAX.

(a) General Rule.—Chapter 36 of the Internal Revenue Code of 1954 (relating to certain other excise taxes) is amended by inserting after the chapter heading the following new subchapter.

"Subchapter A—Harbor Maintenance Tax

"Sec. 4461. Imposition of tax.
"Sec. 4462. Definitions and special rules.

"SEC. 4461. IMPOSITION OF TAX.

"(a) General Rule.—There is hereby imposed a tax on any port use.

"(b) Amount of Tax.—The amount of the tax imposed by subsection (a) on any port use shall be an amount equal to 0.04 percent of the value of the commercial cargo involved.

"(c) Liability and Time of Imposition of tax.—

"() Liability.—The tax imposed by subsection (a) shall be paid by—

"(A) in the case of cargo entering the United States, the importer,

"(B) in the case of cargo to be exported from the United States, the exporter, or

"(C) in any other case, the shipper.

"(2) Time of Imposition.—Except as provided by regulations, the tax imposed by subsection (a) shall be imposed—

"(A) in the case of cargo to be exported from the United States, at the time of loading, and

"(B) in any other case, at the time of unloading.

"SEC. 4462. DEFINITIONS AND SPECIAL RULES.

"(a) Definitions.—For purposes of this subchapter—

"(1) Port Use.—The term 'port use' means—

"(A) the loading of commercial cargo on, or

"(B) the unloading of commercial cargo from, a commercial vessel at a port.

"(2) Port.—

"(A) In general.—The term 'port' means any channel or harbor (or component thereof) in the United States, which—

"(i) is not an inland waterway, and

"(ii) is open to public navigation.

"(B) Exception for certain facilities.—The term 'port' does not include any channel or harbor with respect to which no Federal funds have been used since 1977 for construction, maintenance, or operation, or which was deauthorized by Federal law before 1985.

"(C) Special rule for Columbia River.—The term 'port' shall include the channels of the Columbia River in the States of Oregon and Washington only up to the downstream side of Bonneville lock and dam.

"(3) Commercial cargo.—

"(A) In general.—The term 'commercial cargo' means any cargo transported on a commercial vessel, including passengers transported for compensation or hire.

"(B) Certain items not included.—The term 'commercial cargo' does not include—

"(i) bunker fuel, ship's stores, sea stores, or the legitimate equipment necessary to the operation of a vessel, or

"(ii) fish or other aquatic animal life caught and not previously landed on shore.

"(4) Commercial vessel.—

"(A) In general.—The term 'commercial vessel' means any vessel used—

"(i) in transporting cargo by water for compensation or hire, or

"(ii) in transporting cargo by water in the business of the owner, lessee, or operator of the vessel.

"(B) Exclusion of ferries.—

"(i) In general.—The term 'commercial vessel' does not include any ferry engaged primarily in the ferrying of passengers (including their vehicles) between points within the United States, or between the United States and contiguous countries.

---

[1] House Report No. 99–251 Part III, page 13, and Conference Report No. 1013, page 17.

"(ii) Ferry.—The term 'ferry' means any vessel which arrives in the United States on a regular schedule during its operating season at intervals of at least once each business day.

"(5) Value.—

"(A) In general.—The term 'value' means, except as provided in regulations, the value of any commercial cargo as determined by standard commercial documentation.

"(B) Transportation of passengers.—In the case of the transportation of passengers for hire, the term 'value' means the actual charge paid for such service or the prevailing charge for comparable service if no actual charge is paid.

"(b) Special Rule for Alaska, Hawaii, and Possessions.—

"(1) In general.—No tax shall be imposed under section 4461(a) with respect to—

"(A) cargo loaded on a vessel in a port in the United States mainland for transportation to Alaska, Hawaii, or any possession of the United States for ultimate use of consumption in Alaska, Hawaii or any possession of the United States.

"(B) cargo loaded on a vessel in Alaska, Hawaii, or any possession of the United States for transportation to the United States mainland for ultimate use or consumption in the United States mainland.

"(C) the unloading of cargo described in subparagraph (A) or (B) in Alaska, Hawaii, or any possession of the United States, or in the United States mainland, respectively, or

"(D) cargo loaded on a vessel in Alaska, Hawaii, or a possession of the United States and unloaded in the State or possession in which loaded.

"(2) Cargo does not include crude oil with respect to Alaska.—For purposes of this subsection, the term 'cargo' does not include crude oil with respect to Alaska.

"(3) United States mainland.—For purposes of this subsection, the term "United States mainland" means the continental United States (not including Alaska).

"(c) Coordination of Tax Where Transportation Subject to Tax Imposed by Section 4042.—No tax shall be imposed under this subchapter with respect to the loading or unloading of any cargo on or from a vessel if any fuel of such vessel has been (or will be) subject to the tax imposed by section 4042 (relating to tax on fuel used in commercial transportation on inland waterways).

"(d) Nonapplicability of Tax To Certain Cargo.—

"(1) In General.—Subject to paragraph (2), the tax imposed by section 4461(a) shall not apply to bonded commercial cargo entering the United States for transportation and direct exportation to a foreign country.

"(2) Imposition of charges.—Paragraph (1) shall not apply to any cargo exported to Canada or Mexico—

"(A) during the period—

"(i) after the date on which the Secretary determines that the Government of Canada or Mexico (as the case may be) has imposed a substantially equivalent tax, fee, or charge on commercial vessels or commercial cargo utilizing ports of such country, and

"(ii) subject to subparagraph (B), before the date on which the Secretary determines that such tax, fee, charge has been discontinued by such country, and

"(B) with respect to a particular United States port (or to any transaction or class of transactions at any such port) to the extent that the study made pursuant to section 1407(a) of the Water Resources Development Act of 1986 (or a review thereof pursuant to section 1407(b) of such Act) finds that—

"(i) the imposition of the tax imposed by this subchapter at such port (or to any transaction or class of transactions at such port) is not likely to divert a significant amount of cargo from such port to a port in a country contiguous to the United States, or that any such diversion is not likely to result in significant economic loss to such port, or

"(ii) the nonapplicability of such tax at such port (or to any transaction or class of transactions at such port) is likely to result in significant economic loss to any other United States port.

"(e) Exemption for United States.—No tax shall be imposed under this subchapter on the United States or any agency or instrumentality thereof.

"(f) Extension of Provisions of Law Applicable to Customs Duty.—

"(1) In general.—Except to the extent otherwise provided in regulations, all administrative and enforcement provisions of customs laws and regulations shall apply in respect of the tax imposed by this subchapter (and in respect of persons liable therefor) as if such tax were a customs duty. For purposes of the preceding sentence, any penalty expressed in terms of a relationship to the amount of the duty shall be treated as not less than the amount which bears a similar relationship to the value of the cargo.

"(2) Jurisdiction of courts and agencies.—For purposes of determining the jurisdiction of any court of the United States or any agency of the United States, the tax imposed by this subchapter shall be treated as if such tax were a customs duty.

"(3) Administrative provisions applicable to tax law not to apply.—The tax imposed by this subchapter shall not be treated as a tax for purposes of subtitle F or any other provision of law relating to the administration and enforcement of internal revenue taxes.

"(g) Special Rules.—Except as provided by regulations—

"(1) Tax imposed only once.—Only 1 tax shall be imposed under section 4461(a) with respect to the loading on and unloading from, or the unloading from and the loading on, the same vessel of the same cargo.

"(2) Exception for intraport movements.—Under regulations, no tax shall be imposed under section 4461(a) on the mere movement of cargo within a port.

"(h) Regulations.—The Secretary may prescribe such additional regulations as may be necessary to carry out the purposes of this subchapter including, but not limited to, regulations—

"(1) providing for the manner and method of payment and collection of the tax imposed by this subchapter,

"(2) providing for the posting of bonds to secure payment of such tax,

"(3) exempting any transaction or class of transactions from such tax where the collection of such tax is not administratively practical, and

"(4) providing for the remittance or mitigation of penalties and the settlement or compromise of claims."

(b) Clerical Amendment.—The table of subchapters for chapter 36 of the Internal Revenue Code of 1954 is amended by inserting the following before the item relating to subchapter D:

"Subchapter A. Harbor maintenance tax."

(c) Effective Date.—The amendments made by this section shall take effect on April 1, 1987.

SEC. 1403. CREATION OF HARBOR MAINTENANCE TRUST FUND.

"(a) In General.—Subchapter A of chapter 98 of the Internal Revenue Code of 1954 (relating to establishment of trust funds) is amended by adding after section 9504 the following new section:

"SEC. 9505. HARBOR MAINTENANCE TRUST FUND.

"(a) Creation of Trust Fund.—There is hereby established in the Treasury of the United States a trust fund to be known as the 'Harbor Maintenance Trust Fund," consisting of such amounts as may be—

"(1) appropriated to the Harbor Maintenance Trust Fund as provided in this section,

"(2) transferred to the Harbor Maintenance Trust Fund by the Saint Lawrence Seaway Development Corporation pursuant to section 13(a) of the Act of May 13, 1954, or

"(3) credited to the Harbor Maintenance Trust Fund as provided in section 9602(b).

"(b) Transfer to Harbor Maintenance Trust Fund of Amounts Equivalent to Certain Taxes.—There are hereby appropriated to the Harbor Maintenance Trust Fund amounts equivalent to the taxes received in the Treasury under section 4461 (relating to harbor maintenance tax).

"(c) Expenditures From Harbor Maintenance Trust Fund.—Amounts in the Harbor Maintenance Trust Fund shall be available, as provided by appropriation Acts, for making expenditures—

"(1) to carry out section 210(a) of the Water Resources Development Act of 1986 (as in effect on the date of enactment of this section),

"(2) for payments of rebates of tolls or charges pursuant to section 13(b) of the Act of May 13, 1954 (as in effect on April 1, 1987), and

"(3) for the payment of all expenses of administration incurred—

"(A) by the Department of the Treasury in administering subchapter A of chapter 36 (relating to harbor maintenance tax), but not in excess of $5,000,000 for any fiscal year, and

"(B) for periods during which no fee applies under paragraph (9) or (10) or section 13031(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985."

(b) Authorization of Appropriations.—There are authorized to be appropriated to the Department of the Treasury (from the fees collected under paragraphs (9) and (10) of section 13031(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985) such sums as may be necessary to pay all expenses of administration incurred by such Department in administering subchapter A of chapter 36 of the Internal Revenue Code of 1954 for periods to which such fees apply.

(c) Clerical Amendment.—The table of sections for subchapter A of chapter 98 of the Internal Revenue Code of 1954 as amended by adding after the item relating to section 9504 the following new item:

"Sec. 9505. Harbor Maintenance Trust Fund."

(d) Effective Date.—The amendments made by this section shall take effect on April 1, 1987.

SEC. 1404. INLAND WATERWAYS TAX.

(a) In General.—Subsection (b) of section 4042 of the Internal Revenue Code of 1954 (relating to tax on fuel used in commercial transportation on inland waterways) is amended to read as follows:

"(b) Amount of Tax.—The tax imposed by subsection (a) shall be determined from the following table:

If the use occurs:	The tax per gallon is:
Before 1990	10 cents
During 1990	11 cents
During 1991	13 cents
During 1992	15 cents
During 1993	17 cents
During 1994	19 cents
After 1994	20 cents

(b) Fuel Use on Tennessee-Tombigbee Waterway Subject to Inland Waterway Tax.—Section 206 of the Inland Waterways Revenue Act of 1978 is amended by adding at the end thereof the following:

"(27) Tennessee-Tombigbee Waterway: From its confluence with the Tennessee River to the Warrior River at Demopolis, Alabama."

(c) Effective Date.—The amendments made by this section shall take effect on January 1, 1987.

SEC. 1405. INLAND WATERWAYS TRUST FUND.

(a) In General.—Subchapter A of chapter 98 of the Internal Revenue Code of 1954 (relating to establishment of trust fund(s) is amended by adding after section 9505 the following new section:

"SEC. 9506. INLAND WATERWAYS TRUST FUND.

"(a) Creation of Trust Fund.—There is hereby established in the Treasury of the United States a trust fund to be known as the 'Inland Waterways Trust Fund', consisting of such amounts as may be appropriated or credited to such Trust Fund as provided in this section or section 9602(b).

"(b) Transfer to Trust Fund of Amounts Equivalent to Certain Taxes.—There are hereby appropriated to the Inland Waterways Trust Fund amounts equivalent to the taxes received in the Treasury under section 4042 (relating to tax on fuel used in commercial transportation on inland waterways).

"(c) Expenditures From Trust Fund.—

"(1) In general.—Except as provided in paragraph (2), amounts in the Inland Waterways Trust Fund shall be available, as provided by appropriation Acts, for making construction and rehabilitation expenditures for navigation on the inalnd and coastal waterways of the United States described in section 206 of the Inland Waterways Revenue Act of 1978, as in effect on the date of the enactment of this section.

"(2) Exception for certain projects.—Not more than ½ of the cost of any construction to which section 102(a) of the Water Resources Development Act of 1986 applies (as in effect on the date of the enactment of this section) may be paid from the Inland Waterways Trust Fund."

(b) Conforming Amendments.—Sections 203 and 204 of the Inland Waterways Revenue Act of 1978 (relating to Inland Waterways Trust Fund) are hereby repealed.

(c) Clerical Amendment.—The table of sections for subchapter A of chapter 98 of the Internal Revenue Code of 1954 is amended by adding at the end thereof the following new item:

"Sec. 9506. Inland Waterways Trust Fund."

(d) Effective Date.—

(1) In general.—The amendments made by this section shall take effect on January 1, 1987.

(2) Inland waterways trust fund treated as continuation of old trust fund.—The Inland Waterways Trust Fund established by the amendments made by

this section shall be treated for all purposes of law as a continuation of the Inland Waterways Trust Fund established by section 203 of the Inland Waterways Revenue Act of 1978. Any reference in any law to the Inland Waterways Trust Fund established by such section 203 shall be deemed to include (wherever appropriate) a reference to the Inland Waterways Trust Fund established by this section.

House of Representatives
Report No. 99–251 Part III
1st Session
[Bracketed numerals indicate official report page numbers]

PORT REVENUE ACT OF 1985

SEPTEMBER 23, 1985

Mr. Rostenkowski, from the Committee on Ways and Means, submitted the following Report To accompany H.R. 6[1]

The Committee on Ways and Means, to whom was referred the bill (H.R. 6) to provide for the conservation and development of water and related resources and the improvement and rehabilitation of the Nation's water resources infrastructure, having considered the same, report favorably thereon with an amendment and recommend that the bill as amended do pass.

* * * * *

[7] I. SUMMARY

A. Background of Legislation

H.R. 6 (the "Water Resources Conservation, Development and Infrastructure Improvement and Rehabilitation Act of 1985") was ordered reported on June 26, 1985, by the Committee on Public Works and Transportation. The bill was reported on August 1, 1985 (H. Rep. No. 99–251, Part 1), and was referred to the Committee on Interior and Insular Affairs for a period ending not later than September 5, 1985 (later extended to September 16, 1985), to the Committee on Merchant Marine and Fisheries for a period ending not later than September 15, 1985 (later extended to September 23, 1985), and to the Committee on Ways and Means for a period ending not later than September 23, 1985.

H.R. 6 was reported with amendments, by the Committee on Interior and Insular Affairs on September 16, 1985 (H. Rep. 99–251, Part 2). The Committee on Merchant Marine and Fisheries ordered H.R. 6 reported, with amendments, on September 12, 1985.

The Committee on Ways and Means held a public hearing on H.R. 6 on September 5, 1985, and ordered the bill favorably reported with an amendments on September 18, 1985.

B. Committee on Ways and Means Amendment

Port Use Tax and Trust Fund

Port use tax

The Committee amendment imposes a new 0.04 percent (4 cents per $100) excise tax on the value of commercial cargo loaded onto or unloaded from a commercial vessel at a port in the United States.

The port use tax does not apply to cargo when loaded or unloaded at ports in Hawaii or any possession of the United States; also, the tax does not apply to cargo when loaded on a vessel at any port in the United States for transportation to Hawaii or a U.S. possession for ultimate use of consumption in Hawaii or the possession. If the cargo loaded in Hawaii or a U.S. possession is unloaded at a port in the United States, then the port use tax applies when the cargo is so unloaded.

The tax does not apply to fish or other aquatic animal life caught during a voyage. Also, the tax does not apply to the United States Government or any Federal agency or instrumentality.

The port use tax does not apply to cargo where the transportation of that cargo has been (or will be) subject to the excise tax on diesel or other fuels used on the inland waterways under Code section 4042. A credit is allowed against the port use tax for Saint Lawrence Seaway tolls paid with respect to the cargo being loaded or unloaded, with any unused credit allowed as a carryover to apply against future port use tax liability of the taxpayer.

[8] Administration of the port use tax

Generally, as determined under Treasury regulations, the port use tax is to be administrated by the U.S. Customs Service, with penalties applicable as they are under the customs laws, and not under the tax administrative procedures of Subtitle F of the Internal Revenue Code. For purposes of determining court jurisdiction, the tax is to be treated as if it were a customs duty.

Port Trust Fund

The committee amendment establishes a new Port Infrastructure Development and Improvement Trust Fund in the Treasury. The Trust Fund is to receive amounts equivalent to revenues from the new port use tax. In addition, the committee amendment authorizes appropriations to the Trust Fund of sufficient general revenues for each fiscal year such that the total of port use tax revenues and general revenues for the fiscal year equals $1 billion. The trust Fund statute is placed in the Trust Fund Code of the Internal Revenue Code.

Under the committee amendment, permitted expenditures out of the Trust Fund generally are the same as under the bill as reported by the Committee on Public Works and Transportation, with an added provision to authorize payment out of the Trust fund for Treasury expenses in administering the port use tax.

Effective date

These provisions are effective on January 1, 1986. Thus, the port use tax applies to cargo loaded or unloaded on or after January 1, 1986.

Inland Waterways Trust Fund

Waterways trust fund statute

The committee amendment places the Inland Waterways Trust Fund statute in the Trust Fund Code of the Internal Revenue Code. The amendment specifies that not more than one-third of the cost of any waterway construction project under section 202(a) of the bill and not more than one-sixth of certain relocation costs under section 202(b) of the bill may be paid out of the Trust Fund. This provision is effective on January 1, 1986.

Waterways subject to fuel tax

The committee amendment adds the Tennessee-Tombigbee Waterway to the list of inland and intracoastal waterways the commercial use of which is subject to the inland waterways fuel tax under Code section 4042.[1] There is no other change in the fuel tax.

This provision is effective on January 1, 1986.

II. EXPLANATION OF COMMITTEE AMENDMENT

The amendments to H.R. 6 by the Committee on Ways and Means provide a revenue title (Title XVIII) for the bill, relating to [9] the imposition of a new port use tax, establishment of a new Port Infrastructure Development and Improvement Trust Fund, and certain changes relating to the Inland Waterways Trust Fund and the waterways subject to the inland waterways fuel tax.

---

[1] Public Law 99–662, page 10.

[1] The fuel excise tax is currently 8 cents per gallon, and is scheduled to increase to 10 cents per gallon on October 1, 1985.

A. Port Use Tax and Trust Fund

1. Imposition of port use tax (sec. 1702(a) of the bill and new secs. 4461–4462 of the Internal Revenue Code)

Present Law

Federal expenditures for harbors and port development historically have been financed from general revenues. No Federal user taxes or fees have been imposed for these specific expenditures.

Reasons for Change

The Committee on Ways and Means agrees that additional Federal investment is needed for port infrastructure development and for maintenance of such capital assets in order to expand, improve, and maintain U.S. ports and harbors for waterborne commerce. Such investments in U.S. ports and harbors will facilitate economic development and make the Nation's water transportation system more efficient.

The Committee on Ways and Means also agrees that a larger portion of Federal expenditures on port and harbor development and maintenance should be borne by the direct beneficiaries of such expenditures. Therefore, the committee amendment imposes a new port use tax. The tax is an *ad valorem* excise tax based on the value of the cargo loaded on or unloaded from ports financed (in part or whole) by the Federal Government. This will make it a uniform excise tax paid by the principal beneficiaries of Federal port development and maintenance costs. The tax rate is set at a level which the committee believes will not cause competitive or economic burdens on the ports or users. The committee emphasizes that it will very carefully review any future proposed increase or other expansion of this tax.

The Committee on Ways and Means believes that the port use tax should not apply to ports in Hawaii or in U.S. possessions to the extent that the cargo is being shipped into or among these islands because of their high dependence on waterborne commerce in their economies. However, cargo shipped through or from these islands to the continental U.S. (including Alaska) is to be subject to the tax when the cargo is unloaded. The Committee on Ways and Means does not wish to provide an incentive for importers to ship cargo through these islands to the mainland (and Alaska) in order to avoid the port use tax.

The Committee on Ways and Means agrees that the tax should not apply to fish and other aquatic animal life caught during a voyage. However, the tax would apply to shipments or processed fish, etc.

The Committee on Ways and Means determined that the port use tax should not be incurred where the Saint Lawrence Seaway toll charge is paid. The committee amendment therefore allows a credit against the port use tax, with carryovers, for such tolls paid to or on behalf of the Saint Lawrence Seaway Development Corporation. The committee was concerned that cargo shipped through the Seaway would bear a double burden of the toll charges and the port use tax. The committee decided to allow a credit against the port use tax for tolls paid rather than creating taxes paid against tolls in order to avoid affecting the amount of tolls paid since they are set through bilateral negotiations between the United States and Canada.

In addition, the committee amendment provides that the port use tax is not to be imposed with respect to cargo where the inland waterways fuel tax is paid. Further, the Committee on Ways and Means believes that the port use tax should not apply to cargo shipped by the United States Government.

The committee amendment provides that the effective date for imposition of the port use tax is January 1, 1986, in order to give the Treasury Department lead time to implement the tax.

Explanation of Provisions

Tax rate

The committee amendment imposes a new port use tax of 0.04 percent (4 cents per $100) on the value of commercial cargo loaded onto or unloaded from a commercial vessel at a port in the United States.

Coverage of tax

Port use subject to tax.—The port use tax applies to commercial cargo loaded or unloaded at any port or channel in the United States (see exemption for Hawaii and U.S. possessions, below) with a depth authorized by law of more than 14 feet. The tax does not apply at any port or channel with respect to which no Federal funds have been used for construction, maintenance, or operation.

Definitions.—The term "commercial cargo" means any waterborne cargo other than fuel supplies, ship's stores, sea stores, or legitimate equipment for the vessel (i.e., used on or in the vessel for its operation). A "commercial vessel" is any vessel used (a) in the business of transporting cargo by water for compensation or hire, or (b) in transporting cargo by water in the business of the owner, lessee, or operator of the vessel (other than fish or other aquatic animal life caught on voyage).

For purposes of the port use tax, "value" means (a) in the case of an arms length transaction, the sales price as determined under the principles of Code section 4216(a)[2]; or (b) in any other case, a constructive sales price determined under Treasury regulations. To the extent provided in regulations, value may be determined on the basis of standard commercial documentation.

Exemption for Hawaii and U.S. possessions.—The committee amendment provides that the port use tax generally does not apply to cargo loaded or unloaded at ports in Hawaii or in the possessions of the United States (Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, Northern Marianas, and the Trust Territory of the Pacific Islands). In addition, the tax does not apply with respect to any cargo loaded at a U.S. port on a vessel for transportation to Hawaii or any possession of the United States for ultimate use or consumption in Hawaii or the U.S. possession. Thus, for example, the tax would apply for waterborne cargo shipped from San Francisco through Hawaii for ultimate use or consumption in a foreign country.

The tax would also apply to waterborne cargo shipped from Hawaii or a possession when the cargo is unloaded at a mainland U.S. port (including Alaska).

Credit for Saint Lawrence Seaway tolls paid.—The committee amendment provides a credit against the port use tax on cargo for any Saint Lawrence tolls paid to or on behalf of the Saint Lawrence Seaway Development Corporation by the person liable for the tax with respect to that cargo. The taxpayer subject to the port use tax is to be allocated that portion of the Saint Lawrence Seaway tolls paid which is attributable to such cargo. That portion of the toll so allocated may be used as a credit against the port use tax.

---

[2] Under Section 4216(a), the price for purposes of imposing an excise tax includes any charge for coverings and containers and any charge for placing the article in a condition packed ready for shipment.

The credit for Seaway tolls paid is not to exceed the port use tax liability for any taxable period. Any excess amount of such tolls over the port use tax liability for the taxable period may be carried over to be applied against future port use tax liability of the taxpayer. The credit may not be transferred to another taxpayer but it may be used by the same taxpayer against port use tax liability incurred at any U.S. port.

Other exemptions.—The port use tax is not to be imposed with respect to any cargo if any portion of the water transportation of the cargo has been (or will be) subject to the inland waterways fuel tax (under sec. 4042). Further, the port use tax does not apply to the United States Government or any agency or instrumentality thereof.

Payment of port use tax

The port use tax is to be paid by the importer in the case of cargo entering the U.S., by the exporter in the case of cargo to be exported from the U.S., and by the shipper in the case of other waterborne cargo (i.e., cargo loaded or unloaded at U.S. ports involving shipment between U.S. ports).

The Treasury Department is to prescribe regulations so that there is only one payment of the port use tax with respect to the transportation of any cargo on the *same* vessel. For example, waterborne cargo shipped on the same vessel from Seattle to Los Angeles is to be subject to only one payment of the port use tax. Treasury regulations are to prescribe whether the tax in such a case is to be imposed on the loading or on the unloading of the cargo. Waterborne cargo shipped on one vessel between two ports in the United States and then transferred to another vessel at a subsequent U.S. port is subject to another port use tax.

In addition, the committee amendment provides that Treasury regulations are to be prescribed exempting any transaction or class of transactions from the port use tax where the collection of the [12] tax is not administratively practical (i.e., some *de minimis* level of tax per shipped item or class of items or for a taxable period that may be exempted from payment of the tax and filing of a port use tax return).

Effective Date

The port use tax provisions are effective on January 1, 1986.

2. Customs administration of port use tax (sec. 1702(a) of the bill and new Code sec. 4462(g))

Present Law

There are currently no Federal taxes assessed on port use in the United States. There is, however, a substantial body of law relating to the importation of merchandise and the collection of customs duties. The Tariff Act of 1930, as amended (codified in volume 19 of the U.S. Code), and the Customs Regulations of the United States (volume 19 of the *Code of Federal Regulations*) set out detailed rules and procedures for the classification and appraisal of imported merchandise and for the enforcement of customs laws.

Reasons for Change

Since the U.S. Customs Service currently has a strong presence at ports of entry and is experienced at appraising imported merchandise, the Committee on Ways and Means concluded that it would be more appropriate for the Customs Service, rather than the Internal Revenue Service, to collect and administer the port use tax provided for in this title.

Explanation of Provision

In order to facilitate Customs Service administration and collection of the port use tax, the committee amendment provides that all administrative and enforcement provisions of U.S. customs laws are to apply with regard to the cargo subject to the port use tax under this title of the bill as if the cargo were imported merchandise. The committee amendment further provides that Customs Service penalty provisions are to apply with respect to failures to comply with the port use tax provisions, and that the jurisdiction of courts and agencies is to be determined on the basis as if the tax imposed in this title of the bill were actually a customs duty. Thus, the Court of International Trade is to have primary jurisdiction for actions arising pursuant to this section. Further, since the customs laws and regulations are to apply, the committee amendment specifies that the administrative provisions of subtitle F of the Internal Revenue Code are to be inapplicable to the collection and administration of the port use tax.

3. Port Trust Fund (sec. 1703 of the bill and new sec. 9505 of the Code)

Present Law

There is currently no special fund or trust fund relating to Federal financing of ports and harbors. Such Federal expenditures [13] have been financed from general fund appropriations. There are several Federal trust funds receiving tax revenues earmarked for specific Federal expenditure purposes.

Currently, there are four trust funds within the Trust Fund Code of the Internal Revenue Code (Chapter 98): Black Lung Disability Trust Fund (sec. 9501); Airport and Airway Trust Fund (sec. 9502); Highway Trust Fund (sec. 9503); and Aquatic Resources Trust Fund (sec. 9504)

(The Inland Waterways Trust Fund is also added to the Internal Revenue Code by section 1704 of the bill (see B., below)).

Reasons for Change

The Committee on Ways and Means concluded that revenues from the new port use tax should go into a new trust fund in the Treasury to be available for costs of Federally-financed port projects. The committee amendment modifies the trust fund provisions in the bill as reported by the Committee on Public Works and Transportation in two respects: (1) the committee amendment specifies that general revenues, and not customs duty revenues, are authorized to be appropriated to the trust fund so that when added to the port use tax revenues appropriated to the trust fund would equal $1 billion per fiscal year; and (2) the committee amendment places the Port Trust Fund statute in the Trust Fund Code of the Internal Revenue Code. This latter provision is consistent with trust fund legislation in recent years.

Explanation of Provisions

Establishment of trust fund; transfer of revenues to the trust fund

The committee amendment establishes a new trust fund in the Treasury, the "Port Infrastructure Development and Improvement Trust Fund" (referred to herein as the "Port Trust Fund"). The committee amendment places this trust fund in the Trust Fund Code of the Internal Revenue Code.

The Port Trust Fund is to receive monies from the following three sources:

(1) amounts equivalent to revenues from

the new port use tax (new Code sec. 4461) are to be appropriated to the trust fund;

(2) amounts from general revenues equal to $1 billion less amounts received from the port use tax revenues are authorized to be appropriated to the trust fund; and

(3) interest earned on trust fund investments is to be credited to the trust fund.

Management of trust fund

Under the general provisions of the Trust Fund Code (sec. 9601), amounts appropriated to the trust fund are to be transferred at least monthly on the basis of estimates by the Secretary of the Treasury. Adjustments in estimated amounts so transferred are to be made by the Secretary.

The Secretary of the Treasury (under Code sec. 9602) is to manage the trust fund, and is to report to the Congress each year on the financial condition and results of the trust fund operations [14] during the preceding fiscal year and on its expected condition and operations during the next five fiscal years.

Any trust fund monies not necessary to meet current withdrawals are to be invested in interest-bearing obligations of the United States. Interest earned on such investments is to be credited to the trust fund.

Expenditures from trust fund

Amounts in the Port Trust Fund are to be available, as provided by appropriation Acts, for making expenditures for the following purposes:

(1) feasibility studies for, and construction, operation, and maintenance of, projects for ports by the Secretary of the Army;

(2) feasibility studies for, and construction, rehabilitation, operation, and maintenance of, projects for ports for the Saint Lawrence Seaway by the Saint Lawrence Seaway Development Corporation;

(3) relocations of utilities, structures, and other improvements, necessary for construction, operation, and maintenance of such projects;

(4) making payments to any non-Federal interest (i.e., a State or local governmental entity) which has planned and designed or planned, designed, and constructed a port in accordance with section 104 of this bill;

(5) grants under sections 113[3] and 114[4] of this bill; and

(6) the payment of all expenses incurred by the Department of the Treasury in administering the port use tax.

For purposes of the above trust fund expenditures, the term "construction" includes any planning, designing, engineering, and surveying which is necessary to carry out a project for a port and which is performed after authorization of the project. The term "port" has the meaning given such term by section 115 of the bill.[5] (See also discussion of port use tax coverage, A.1., above.) Any reference to a section of the Water Resources Conservation, Development, and Infrastructure Improvement and Rehabilitation Act of 1985 shall be treated as a reference to such section as in effect on the date of the enactment of the bill.

Effective Date

The trust fund provisions are effective on January 1, 1986.

B. Inland Waterways Trust Fund

Present Law and Background

In general, Federal expenditures for construction, operation, and maintenance costs of U.S. waterways have been financed from general revenues, rather than from fees or taxes imposed on navigation users. In the Inland Waterways Revenue Act of 1978, however, Congress imposed an inland waterways fuel excise tax, and provided for transfer of these tax revenues to an Inland Waterways Trust Fund. Amounts in the Trust Fund are available, as provided by authorization and appropriation acts, for making construction and rehabilitation expenditures for navigation on the specified waterways the commercial use of which is subject to the fuel excise tax. Amounts transferred to this trust fund have not been appropriated from the trust fund, which had an estimated balance of $192 million at the end of fiscal year 1985.

The fuel tax is imposed on diesel and other liquid fuels used by commercial cargo vessels on 26 designated inland or intracoastal waterways of the United States (Code sec. 4042). Included among the specified waterways are the Mississippi River upstream from Baton Rouge, La., the Mississippi River tributaries, Columbia-Snake Rivers Inland Waterways, part of the Willamette River in Oregon, and the Gulf and Atlantic Intracoastal Waterways. (See Treas. Reg. sec. 48.4042-1(g).) The tax does not apply to fuel used by deep-draft ocean-going vessels, recreational vessels, or noncargo vessels (such as passenger vessels and fishing boats).

The present tax rate of 8 cents per gallon is scheduled to increase to 10 cents per gallon on October 1, 1985.

Reasons for Change

The Committee on Ways and Means agrees that the Tennessee-Tombigbee Waterway should be added to the list of inland waterways the commercial use of which is subject to the inland waterways fuel tax. This waterway was not operational when the existing 26 specified waterways were included in the enactment of the Inland Waterways Revenue Act of 1978 (P.L. 95–502).

In addition, the Committee on Ways and Means determined that the provisions of the Inland Waterways Trust Fund should be part of the Trust Fund Code of the Internal Revenue Code. This action is consistent with the placing of other trust funds in the Internal Revenue Code in recent years. (See also A, 3., above, relating to the new Port Trust Fund.)

Explanation of Provision

Inland waterways subject to fuel tax

The committee amendment adds the Tennessee-Tombigbee Waterway to the list of specified inland and intracoastal waterways the commercial use of which is subject to the inland waterways fuel tax: that portion from Pickwick Pool on the Tennessee River at RM 215 to Demopolis, Ala., on the Tombigbee River at RM 215.4.

Inland Waterways Trust Fund

The committee amendment places the statutory provisions of the existing Inland

---

[3] Section 113 of the bill as reported by the Committee on Public Works and Transportation authorizes grants to a non-Federal interest operating a port project for provision of emergency response services in such port.

[4] Section 114 authorizes a grant for construction of a new port office at the Morro Bay Harbor, Calif.

[5] Section 115 defines "port" as (a) any port or channel in the United States with a depth authorized by law of more than 14 feet, including any channel administered by the Saint Lawrence Seaway Development Corporation and any channel connecting the Great Lakes, and (b) any lock or other improvement on such channel; except that such term does not include a entrance channel providing access solely to a harbor with an authorized depth of 14 feet or less and does not include the Bonneville Lock and Dam project on the Columbia River.

Waterways Trust Fund in the Trust Fund Code of the Internal Revenue Code (Chapter 98). The committee amendment also specifies that not more than one-third of the costs of seven waterway lock and dam projects listed in section 202(a) of this bill are to be financed from this trust fund and that not more than one-sixth of certain related relocation expenses under section 202(b) of this bill are to be financed from this trust fund.

The Inland Waterways Trust Fund under the committee amendment is to be treated for all purposes of law as a continuation of the existing Inland Waterways Trust Fund as established by section 203 of the Inland Waterways Revenue Act of 1978.

Effective Date

These provisions are effective on January 1, 1986.

C. Coordination with Other Provisions of H.R. 6

The revenue title of H.R. 6 (Title XVII), as added by the Committee on Ways and Means, states that nothing in any other provision of the bill is to be construed as (1) imposing (or exempting from) any tax, (2) establishing any trust fund which are not also authorized by this title. Thus, Title XVII would override any other tax or exemption from tax (or "fees") or trust fund provisions elsewhere in the bill.

Conference Report No. 99–1013
2nd Session
[Bracketed numerals indicate official report page numbers]

WATER RESOURCES DEVELOPMENT ACT OF 1986

October 17, 1986

Mr. Howard, from the committee of conference, submitted the following conference report to accompany H.R. 6[1]

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 6) to provide for the conservation and development of water and related resources and the improvement and rehabilitation of the Nation's water resources infrastructure, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

* * * *

[228] TITLE XIV—REVENUE PROVISIONS

A. Port Use Tax and Trust Fund

1. Port use tax

Present law

Ports and harbors financing.—Federal expenditures for harbors and port development and maintenance have been financed from general revenues. No Federal user taxes or charges have been imposed for these expenditures.

Customs Service.—The U.S. Customs Service administers the collection of customs duties. The Tariff Act of 1930, as amended (19 U.S.C.), and the Customs Regulations set forth detailed rules and procedures for the classification and appraisal of imported merchandise and for the administration and enforcement of customs laws.

Saint Lawrence Seaway tolls.—The Saint Lawrence Seaway Development Corporation and the Saint Lawrence Seaway Authority of Canada jointly impose tolls for the commercial use of the Saint Lawrence Seaway. The tolls are per metric ton of cargo, varying by class of cargo and by specific portion of the Seaway.

House bill

Imposition of tax.—The House bill imposes an excise tax on the use of a U.S. harbor or channel ("port") by a commercial vessel for loading or unloading of commercial cargo. The tax is 0.04 percent (4 cents per $100) on the value of the cargo.

Applicability of tax.—The port use tax does not apply with respect to:

(1) a port on which no Federal funds have been used for construction, operation, or maintenance;

(2) cargo the transportation of which is subject to the inland waterways fuel tax;

(3) cargo when loaded or unloaded at ports in Hawaii or in U.S. possession, or when loaded on a vessel at a U.S. port for ultimate use or consumption in Hawaii or a possession (the tax applies when cargo loaded in Hawaii or a possession is unloaded at a U.S. port);

(4) transportation of passengers;

(5) cargo consisting of fish or other aquatic animal life caught on the voyage;

(6) cargo shipped by the U.S. Government or Federal agencies; and

(7) de minimis transactions, to the extent prescribed in Treasury regulations.

Payment of tax.—The tax is payable by the importer, exporter, or shipper of the cargo. The tax is imposed only once with respect to transportation of any cargo on the same vessel.

[229] *Administration of tax.*—The port use tax is to be administered and enforced by the U.S. Customs Service in a manner similar to customs duties.

Seaway tolls.—The House bill provides a credit against the port use tax for Saint Lawrence Seaway tolls paid (U.S. portion). The credit for Seaway tolls paid is not to exceed the port use tax liability for the taxable period, but any excess credit may be carried over against any future port use tax liability.

Effective date.—January 1, 1986.

Senate amendment

Port use charge.—The Senate amendment imposes a charge (in the Internal Revenue Code) on the use of a U.S. port by a commercial vessel for loading or unloading of commercial cargo, and on the use of Great Lakes navigation improvements (other than the Saint Lawrence Seaway) for loading, unloading, or transporting commercial cargo. Passenger vessels also are subject to the charge, with value generally determined by reference to the prices paid by passengers for their transportation.

Port maintenance charge.—The Senate amendment imposes a charge (in the Internal Revenue Code) of ½ cent per registered ton on the use by commercial vessels of such ports or Great Lakes improvements other than for loading, unloading, or transportation (i.e., for fueling, refitting, repair, etc.). This charge cannot be imposed more than three times per year with respect to a particular vessel.

Appplicability of charges.—The port use charge does not apply with respect to:

(1) ports deauthorized prior to 1985, or ports receiving no U.S. funds since 1977;

(2) cargo the transportation of which is subject to the inland waterways fuel tax;

(3) cargo shipped from the U.S. mainland to Alaska, Hawaii, or a U.S. possession for local use, or cargo shipped from Alaska, Hawaii, or a U.S. possession to the U.S. mainland for local use (the charge applies to cargo shipped to or from a foreign country and to shipments of crude

---

[1] Public Law 99–662, page 10.

oil with respect to Alaska);

(4) short-haul ferrying (if regularly scheduled) of passengers and vehicles between U.S. points or between the United States and Canada or Mexico;

(5) fish or other aquatic animal life caught in voyage by a U.S. vessel, if not previously landed onshore;

(6) cargo shipped by the U.S. Government or Federal agencies;

(7) de minimis transactions, to the extent prescribed by Treasury regulations; and

(8) bonded cargo entering the U.S. for transportation and direct exportation to a foreign country. This exemption does not apply (a) if Canada imposes a similar port use charge or (b) to U.S. ports (or classes of cargo) if the mandated cargo diversion study (see below) shows that the charge is not likely to result in a significant diversion of cargo or that the nonapplicability [230] of the charge to a given U.S. port would cause economic harm to another U.S. port.

Payment of charges.—The port use charge is payable the same as under the House bill port use tax. Only one port use tax may be imposed with respect to (1) the transportation of the same cargo on the same vessel, and (2) the loading and unloading of identical cargo at one port. The port maintenance charge is payable by the vessel owner.

Administration of charges.—The port use and port maintenance charges are to be administered and enforced by the U.S. Customs Service in the same manner as provided under the House Bill.

Seaway tolls.—The Senate amendment provides for rebates of Saint Lawrence Seaway tolls (U.S. portion), to be paid out of the Trust Fund (see below).

Effective date.—April 1, 1986.

Conference agreement

Port use tax or charge.—The conference agreement follows the House bill, designating the use tax ("harbor maintenance tax") as an excise tax in the Internal Revenue Code. The rate (0.04 percent of the value of the cargo) is the same as in both the House bill and the Senate amendment. The conference agreement provides that the tax applies on use by a commercial vessel of a U.S. port for the loading or unloading of commercial cargo on or from the vessel, but does not include the additional provision in the Senate amendment that would also have applied with respect to use of Great Lakes navigation improvements for transporting cargo.

Port maintenance charge.—The conference agreement does not include the Senate amendment.

Applicablity of port use tax.—The conference agreement generally follows the Senate amendment with respect to the application of and exemption from the tax. The conference agreement includes the following modifications.

(1) the tax does not apply with respect to cargo loaded on a vessel in Alaska, Hawaii, or a U.S. possession and unload in the same State or possession in which loaded;

(2) the fish and aquatic animal exemption is not limited to U.S. vessels; and

(3) the exemption for transportation and direct exportation of bonded cargo also does not apply if Mexico imposes a similar port use tax.

Payment of tax.—The conference agreement follows the House bill and the Senate amendment.

Administration of tax.—The conference agreement follows the House bill and the Senate amendment.

Seaway tolls.—The conference agreement follows the Senate amendment, providing for rebates of Saint Lawrence Seaway tolls (U.S. portion), to be paid out of the Trust Fund (see below).

Effective date.—Under the conference agreement, the port use tax applies to use of ports in loading or unloading of cargo occurring on or after April 1, 1987.

[231] 2. Port (Harbor) Trust Fund

Present Law

No provision (see *Present law* under 1., above). There are several existing trust funds financed from earmarked excise taxes.

House bill

Establishment.—The House bill establishes the "Port Infrastructure Development and Improvement Trust Fund" in the Treasury. The statutory provisions for the Trust Fund are placed in the Trust Fund Code of the Internal Revenue Code.

Funding.—The Trust Fund is to receive amounts equivalent to revenues from the new port use tax. Also, the House bill authorizes annual appropriations to the Trust Fund equal to $1 billion less the amounts received from the port use tax revenues for the fiscal year. In addition, the Trust Fund will earn interest on investments of any cash balance.

Expenditures from the Fund.—Amounts in the Trust Fund are to be available, as provided by appropriation Acts, for making expenditures for:

(1) construction, rehabilitation, operation, and maintenance costs (including feasibility studies) for U.S. ports;

(2) construction, rehabilitation, operation, and maintenance costs (including feasibility studies) for Saint Lawrence Seaway ports;

(3) relocation costs for utilities, structures, and other improvements necessary for construction, operation, and maintenance of projects in (1) or (2), above;

(4) payments to a State or local government entity for eligible costs incurred in planning, designing, or construction under section 104 of the bill;

(5) grants under section 113 of the bill (provision of port emergency response services);

(6) grant for construction of a new port office at Morro Bay Harbor, California; and

(7) Treasury Department expenses in administering the port use tax.

Effective date.—January 1, 1986.

Senate amendment

Establishment.—The Senate amendment establishes a "Harbor Maintenance Trust Fund" in the Treasury. The Statutory provisions for the Trust Fund are placed in the Trust Fund Code of the Internal Revenue Code.

Funding.—The Trust Fund is to receive amounts equivalent to revenues from the port use and port maintenance charges, and revenues from the U.S. portion of Saint Lawrence Seaway tolls. In addition, the Trust Fund will earn interest on investments of any cash balance.

Expenditures from the Fund.—Amounts in the Trust fund are to be available, as provided by appropriation Acts, for making expenditures for:

(1) up to 40 percent of U.S. harbor (port) operation and maintenance costs (including Great Lakes navigational projects);

[232] (2) 100 percent of eligible Saint Lawrence Seaway operation and maintenance costs; and

(3) rebates of the U.S. portion of Saint Lawrence Seaway tolls to payors.

Effective date.—April 1, 1986.

Conference agreement

Establishment of Trust Fund.—The

conference agreement follows the Senate amendment.

Funding.—The conference agreement generally follows the Senate amendment.

Expenditures from the Trust Fund.—The conference agreement generally follows the Senate amendment, as modified to reflect the Trust Fund expenditure provisions in section 210(a) of the conference agreement. Also, under the conference agreement, the costs of the customs service incurred in administering and collecting the harbor maintenance tax are to be reimbursed from the customs user fee enacted in 1986. In the event such fee is repealed, such costs, not to exceed $5 million annually, are to be reimbursed from the Harbor Maintenance Trust Fund.

Effective date.—April 1, 1987.

3. Studies

House bill

No provision.

Senate amendment

Port use charge and cargo diversion.—The Secretary of the Treasury, in consultation with the Secretaries of the Army and Transportation (and other appropriate Federal agencies) and with representatives of U.S. ports, is to conduct a study to determine the impact of the port use charge of potential diversions of cargo to Canada and Mexico from U.S. ports. The Secretary's report is to be made to the Congress within one year after enactment of the bill.

Saint Lawrence Seaway tolls.—The Secretary of State, in consultation with the Secretary of Transportation, is to initiate discussions with Canada regarding reducing or eliminating all tolls on the Saint Lawrence Seaway and international Great Lakes. The Secretary is to report to the Congress on the progress of such discussions within two years after enactment.

Conference agreement

The conference agreement follows the Senate amendment, with a modification to include Treasury consultation with the U.S. Trade Representative with respect to the port use tax and cargo diversion study.

B. Inland Waterways Fuel Tax and Trust Fund

1. Fuel tax

Present law

Fuel tax rate.—An excise tax of 10 cents per gallon is imposed on diesel and other liquid fuels used by commercial cargo vessels on [233] designated inland or intracoastal waterways (Code sec. 4042). (The present tax rate was increased from 8 cents per gallon on October 1, 1985, under the rate schedule enacted in 1978). Amounts equivalent to the revenues from the tax are transferred to the Inland Waterways Trust Fund.

Waterways subject to tax.—The tax applies to taxable fuel used on 26 designated inland or intracoastal waterways (including the Mississippi River upstream from Baton Rouge, La., the Mississippi River tributaries, Columbia-Snake Rivers Inland Waterways, and the Gulf and Atlantic Intracoastal Waterways).

House bill

Fuel tax rate.—The House bill does not increase the rate of the inland waterways fuel tax.

Waterways subject to tax.—The House bill adds the Tennessee-Tombigbee Waterway to the list of inland waterways the use of which is subject to the fuel tax.

Effective date.—January 1, 1986.

Senate amendment

Fuel tax rate.—The Senate amendment increases the fuel tax rate by one cent per gallon per year, beginning on January 1, 1988, until the tax reaches 20 cents per gallon on January 1, 1997, and thereafter.

Waterways subject to tax.—The Senate amendment is the same as the House bill.

Effective date.—The increase in the fuel tax rate is effective on January 1, 1988 and January 1 of each year until 1997. The addition of the Tennessee-Tombigbee Waterway to the list of waterways with respect to which the fuel tax applies is effective April 1, 1986.

Conference agreement

Fuel tax rate.—The conference agreement provides that the inland waterways fuel tax is increased to 11 cents per gallon on January 1, 1990, to 13 cents per gallon on January 1, 1991, to 15 cents per gallon on January 1, 1992, to 17 cents per gallon on January 1, 1993, to 19 cents per gallon on January 1, 1994, and to 20 cents per gallon on January 1, 1995, and thereafter.

Waterways subject to tax.—The conference agreement follows the Senate amendment, effective on January 1, 1987.

2. Inland Waterways Trust Fund

Present law

Establishment and funding.—The Inland Waterways Trust Fund was established by section 203 of the Inland Waterways Revenue Act of 1978, and currently is not within the Trust Fund Code of the Internal Revenue Code (Chapter 98). Chapter 98 includes the Black Lung Disability Trust Fund, the Airport and Airway Trust Fund, the Highway Trust Fund, and the Aquatic Resources Trust Fund.

Amounts equivalent to the revenues from the inland waterways fuel excise tax are transferred to the Trust Fund. The Trust Fund also earns interest on investments of any cash balance.

Expenditures from the Fund.—Amounts in the Trust Fund, are available, as provided by authorization and appropriations Acts, for making construction and rehabilitation expenditures for navigation on the specified inland and intracoastal waterways, the commercial use of which is subject to the fuel tax.

House bill

Statute.—The House bill places the Inland Waterways Trust Fund in the Trust Fund Code of the Internal Revenue Code. The Trust Fund under the transferred statutory provision is treated as a continuation of the existing Trust Fund.

Expenditures from the Fund.—The House bill retains the general expenditure purposes of the Trust Fund as under present law, subject to the limitation that expenditures from the Trust Fund cannot be used to finance more than (1) one-third of the costs of specified inland waterways lock and dam projects or more than one-sixth of the costs of necessary relocation of pipelines, electricity, or communications cables or lines of related facilities in connection with such projects.

Effective date.—January 1, 1986.

Senate amendment

Statute.—The Senate amendment is the same as the House bill.

Expenditures from the Fund.—The Senate amendment provides that the Trust Fund is to pay, subject to appropriations Acts, one-half the costs (construction, rehabilitation, modification, and post-authorization planning) of certain specified inland waterways lock and dam projects.

Effective date.—April 1, 1986.

Conference agreement

Statute.—The conference agreement follows the House bill and the Senate amendment.

Expenditures from the Trust Fund.—The conference agreement generally follows the Senate amendment, as modified to reflect the Trust Fund expenditure purposes included in title III, section 844, and section 1103(j) of the conference agreement.

Effective date.—January 1, 1987.

* * * *

Part IV. Items of General Interest

State and Local Governments Covered by "218 Agreements"—FICA TAXES

Announcement 86–122

State and local government employers that are covered by "218 agreements" (agreements under section 218 of the Social Security Act, 42 U.S.C. section 418 (1985 Supp.)) will be subject to the Internal Revenue Code with respect to wages paid after December 31, 1986. This announcement explains, in question and answer form, the rules that these employers should follow, beginning January 1, 1987.

Section 218 of the Social Security Act provides that a state may enter into a voluntary agreement with the Secretary of Health and Human Services to provide social security coverage for its employees or employees of local governments within the state. Generally, before enactment of the Omnibus Budget Reconciliation Act of 1986 (OBRA), section 9002, Pub. L. No. 99–509, 100 Stat.—, wages paid by state and local government employers were excluded from taxation under the Federal Insurance Contributions Act (FICA) by section 3121(b)(7) of the Code.

Q1. What changes did OBRA make to the Social Security Act?

A1. OBRA amended section 218 of the Social Security Act with the result that starting in 1987 state governments are relieved from (1) collecting social security contributions from local governments and (2) liability for verifying and depositing the amounts owed by local governments.

Q2. What changes did OBRA make to the Internal Revenue Code?

A2. Among other changes, OBRA enacted sections 3121(b)(7)(E) and 3126 of the Code. Section 3121(b)(7)(E) provides that services covered under a 218 agreement will be treated as employment for purposes of FICA, effective with respect to wages paid after December 31, 1986. Section 3126 specifies who must file the FICA tax return, Form 941 (See Q&A 5).

Q3. What is the effect of providing that services under a 218 agreement are subject to FICA?

A3. States are no longer responsible for collecting the social security contributions from local governments and reporting those amounts to the Social Security Administration. Rather, each state and local government employer covered by a 218 agreement must file returns with the Internal Revenue Service and deposit FICA taxes through the Federal Tax Deposit (FTD) system.

Q4. What return should be used to report the FICA taxes?

A4. Employers covered by 218 agreements should use Form 941, Employer's Quarterly Federal Tax Return, to report FICA taxes starting with the return due for the calendar quarter ending March 31, 1987. Employers covered by 218 agreements should no longer file Form 941E, Quarterly Return of Withheld Federal Income Tax and Hospital Insurance (Medicare) Tax. Employers covered by 218 agreements should report all FICA taxes (including medicare tax) and withheld federal income tax on Form 941 even if the employers have some employees who are not covered by 218 agreements or some employees who are subject only to medicare tax. Employers not covered by 218 agreements, including those with federal employees on their payrolls, should continue to file Form 941E. Under no circumstances should an employer file both Form 941 and Form 941E.

Q5. Who is responsible for filing Form 941?

A5. Form 941 must be filed by the officer or employee of the state or local government or the appropriate agency or instrumentality of the state or local government having control of the payment of the wages or appropriately designated for that purpose.

Q6. What employer identification number should be used on the return?

A6. State and local government employers must use their individual employer identification numbers and not the numbers assigned to the states by the Social Security Administration for purposes of payment of section 218 contributions. If a state or local government employer has not been assigned an employer identification number, it should file Form SS-4, Application for Employer Identification Number, with the appropriate Internal Revenue Service Center.

Q7. How must taxes due under a section 218 agreement be paid to the federal government?

A7. For wages paid after December 31, 1986, FICA taxes will generally be deposited through the Federal Tax Deposit (FTD) system. The dates for deposit will depend on whether the aggregate amount of FICA taxes and undeposited withheld federal income taxes due is $3,000 or more, between $500 and $3,000, or less than $500. See Circular E, Employer's Tax Guide, for more information.

Q8. What rules apply to employers with undeposited taxes of $3,000 or more?

A8. Employers with an aggregate amount of undeposited withheld federal income tax and FICA taxes due on Form 941 of $3,000 or more must deposit the taxes using Form 8109, Federal Tax Deposit Coupon, with an authorized financial institution or with a Federal Reserve bank or branch within 3 banking days after the close of the eighth-monthly period in which the liability arises. Eighth-monthly periods end on the 3rd, 7th, 11th, 15th, 19th, 22nd, 25th, and last day of each month.

Q9. What rules apply to employers with undeposited taxes of $500 or more but less than $3,000?

A9. Employers with an aggregate amount of undeposited withheld federal income tax and FICA taxes of $500 or more, but less than $3,000, must generally deposit the taxes within 15 days after the end of a month. See Circular E.

Q10. What rules apply to employers with undeposited taxes of less than $500?

A10. Undeposited taxes of less than $500 at the end of any month other than the last month of a quarter do not have to be deposited. Those amounts are carried over to the following month within the quarter. Employers with undeposited taxes of less than $500 at the end of a quarter must pay the taxes directly to IRS with Form 941 or deposit them by the due date of Form 941.

Q11. What transition rules apply to the deposit rules set out in Q&A 7–10?

A11. There are two transition rules that apply to state and local government employers covered by 218 agreements.

First, for wages paid before October 1, 1988, the deposit schedule for FICA taxes may be determined separately from the deposit schedule for withheld federal income tax.

Second, for state or local government employers subject to the eighth-monthly deposit rules as determined under the first transition rule, the following rules apply:

(1) for wages paid before October 1, 1987, the employer may make its deposit of FICA taxes within 7 banking days after the close of the eighth-monthly period;

(2) for wages paid after September 30, 1987, and before October 1, 1988, the deposit of FICA taxes may be made within 5 banking days after the close of the eighth-monthly period.

An employer making deposits under the transition rules should use separate deposit coupons for deposits of the withheld federal income tax and the FICA taxes.

Starting on October 1, 1988, FICA taxes and withheld federal income tax must be aggregated for purposes of the deposit rules (Q&A 7–10).

Q12. What interest rate applies to late payments of taxes by state and local government employers?

A12. State and local government employers are subject to the interest rate on underpayments determined under section 6621 of the Code. The rate for the first quarter of 1987 is 9 percent.

Q.13 What penalties apply to state and local government employers?

A13. Absent a showing of reasonable cause, employers are subject to penalties for late filing and late payment under section 6651 of the Code and to penalties for failing to deposit or for claiming overstated deposits under section 6656.

Q14. What impact does OBRA have on state and local government employers not covered by 218 agreements?

A14. State and local government employers not covered by 218 agreements should continue to file Form 941E to report withheld federal income tax as well as medicare tax for employees hired after March 31, 1986. See Rev. Rul. 86–88, 1986–28 I.R.B. 10. Treatment of medicare tax for employees hired after March 31, 1986, by employers not covered by 218 agreements was not affected by OBRA.

State and local government employers not covered by 218 agreements are reminded that the transition rules (set out in Q&A 11) do not apply to them. They must make deposits under the rules applicable to all employers and must aggregate withheld federal income tax with any medicare tax and any non-section 218 agreement FICA taxes due.

Q15. Where should state and local government employers look for additional information?

A15. For additional information about reporting and payment of federal employment taxes, see Circular E, available at any IRS office.

Application of the Section 1374 Built-in Gain Tax To S Corporations

Announcement 86–128

The Tax Reform Act of 1986 (the Act) modifies the treatment of S corporations that were formerly C corporations by imposing a corporate-level tax under section 1374 of the Internal Revenue Code on certain "built-in" gains (gains arising prior to the conversion to S corporation status) that are recognized by the corporation (built-in gain tax). This built-in gain tax is applicable to S corporations for taxable years beginning after December 31, 1986, but only if the S election for the corporation is made after December 31, 1986. (Rev. Rul. 86–141 explains the rules applicable to corporations that seek to make an S election prior to January 1, 1987.)

The built-in gain tax is intended both to complement the amendments to the Code made by the Act that repeal the *General Utilities* doctrine and to prevent the circumvention of the purposes of those amendments. Section 337(d)(1) of the Code, as amended, provides, in part, that the Secretary shall prescribe regulations to prevent circumvention of the purposes of such amendments through the use of any provision of law or regulations, including specifically part III of subchapter C of the Code (corporate reorganization provisions).

The Internal Revenue Service has received numerous requests for clarification regarding the application of certain provisions of the built-in gain tax. This announcement informs taxpayers of the manner in which regulations will clarify the application of these provisions in five areas.

I. Section 1374(b)(1) of the Code provides that the tax is imposed on the lesser of the recognized built-in gains of an S corporation or the amount that would be its taxable income if it were not an S corporation. Section 1374(d)(2) generally defines "recognized built-in gain" as any gain recognized during the recognition period on the disposition of any asset. The "recognition period" is defined in section 1374(d)(3). The Service will issue regulations defining "disposition of any asset" for purposes of the built-in gain tax to include not only sales or exchanges but other income-recognition events that effectively dispose of or relinquish the taxpayer's right to claim or receive income. For instance, the term "disposition of any asset" will include the collection of accounts receivable by a cash method taxpayer and the completion of a long-term contract performed by a taxpayer using the completed contract method of accounting.

II. Inquiries have been made as to the treatment of inventory under the built-in gain tax. Section 1374(d)(2)(A) of the Code, in effect, excludes from the built-in gain tax the gain from the disposition of an asset if the S corporation establishes that the asset was not held at the beginning of the corporation's first taxable year for which the corporation was an S corporation pursuant to the S election that was in effect at the time the gain was recognized (first taxable year as an S corporation). The Service will issue regulations providing that, for purposes of section 1374(d)(2)(A), the inventory method used by the taxpayer for tax purposes (FIFO, LIFO, etc.) shall be used to identify whether goods disposed of following conversion to S corporation status were held by the corporation at the time of conversion. Thus, for example, a corporation using the LIFO inventory method will not be subject to the built-in gain tax with respect to sales of inventory except to the extent that a LIFO layer existing prior to the beginning of the first taxable year as an S corporation is invaded after the beginning of that year.

III. The Service is concerned about possible use of certain transactions under the corporate reorganization provisions of the Code to circumvent the application of the built-in gain tax. Under section 1374(c)(1) of the Code, the built-in gain tax does not apply to a corporation that always has been an S corporation. Under section 1374(c)(2), the aggregate gain of a corporation that is subject to the built-in gain tax is limited to the net unrealized built-in gain in the assets held at the beginning of the corporation's first taxable year as an S corporation. Section 1374(d)(2) limits recognized built-in gain to the extent that the S corporation establishes either that the asset disposed of was not held by the S corporation as of the beginning of its first taxable year as an S corporation or that such recognized gain exceeds the excess of the asset's fair market value as of the beginning of its first taxable year as an S corporation over its adjusted basis at that time. These provisions raise the question whether the built-in gain tax applies to the disposition by an S corporation of appreciated property received from a C corporation in a tax-free exchange to the extent the property received is transferred basis property (as defined in section 7701(a)(43)).

To prevent the use of the corporate reorganization provisions of the Code to circumvent the built-in gain tax, the regulations will provide that transferred basis property acquired by an S corporation from a C corporation or a former C corporation, such as transferred basis property acquired in a tax-free merger of a C corporation into an S corporation, generally is subject to the built-in gain tax notwithstanding that the transferee corporation always has been an S corporation or that the assets were not held as of the beginning of that corporation's first taxable year as an S corporation.

For purposes of section 1374 of the Code, as amended by the Act, the acquisition of such transferred basis property will be treated as a conversion to S corporation status as to that property. Therefore, the net unrealized built-in gain with respect to such property will be measured when the property is received. Such property will be subject to the built-in gain tax if disposed of by the transferee S corporation within 10 years of receipt by the transferee S corporation. The recognition period will begin on the date the property is received.

Similar rules will apply when an S corporation that is subject to the built-in gain tax transfers property to another S corporation in a transaction under the corporate reorganization provisions of the Code. In this instance, the regulations will provide that the built-in gain tax will apply to the transferee S corporation and that the ten-year recognition period for the assets received by the transferee S corporation will be reduced by the portion of the recognition period of the transferor that had expired prior to the transfer.

IV. A related issue concerns the treatment of exchanged basis property (as defined in section 7701(a)(44) of the Code) that is received by an S corporation that is subject to the built-in gain tax. Such property includes assets received in transactions under section 1031 (like-kind exchanges) or section 1033 (involuntary conversions). The regulations will provide that the net unrealized built-in gain of assets subject to the built-in gain tax when so transferred will be preserved in the assets received in the exchange. Therefore, such exchanged basis property will be subject to the built-in gain tax if disposed of by the transferee S corporation during the recognition period. The regulations will provide that the expiration date of the ten-year recognition period, as defined in section 1374(d)(3), that is applicable to the transferred property will apply to such exchanged basis property.

V. The Service is concerned that the built-in gain tax may be circumvented by the contribution of certain built-in loss assets (assets with adjusted bases in excess of their fair market values) to the corporation prior to its conversion to S corporation status because the tax is limited to the corporation's net unrealized built-in gain, as defined in section 1374(d)(1). The Service will issue regulations that provide special treatment for the contribution of built-in loss assets to corporations prior to their conversion to S corporation status. In appropriate cases, the regulations will prohibit the reduction of the corporation's net unrealized built-in gain through such contributions if the contributions are undertaken to limit or avoid the application of the built-in gain tax.

It is anticipated that the regulations will implement rules similar to those provided in section 336(d)(2) (as amended). Under such rules, the loss inherent in property contributed to a corporation within 2 years of the earlier of (1) the beginning of the first taxable year as an S corporation or (2) the filing of its S election will not reduce the net unrealized built-in gain, as defined in section 1374(d)(1), unless, for example, the taxpayer demonstrates a clear and substantial relationship between the contributed property and the conduct of the corporation's current or future business enterprises.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and address of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under the consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Howard M. Belser	Decatur, AL	Attorney	Three Years from October 9, 1986
Kennard I. Mandell	Wellesley, MA	Attorney	Indefinite from October 1, 1986

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any person who has violated the rules and regulations governing the recognition of attorneys, certified public accountants, enrolled agents or enrolled actuaries to practice before the Internal Revenue Service.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been suspended from further practice before the Internal Revenue Service.

Name	Address	Designation	Term of Suspension
Paul Adams, Jr.	Bristol, VA	Certified Public Accountant	Indefinite from September 11, 1986

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Leonard Bezark	King of Prussia, PA	Certified Public Accountant	October 19, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1984/1985 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

HIGHLIGHTS OF THIS ISSUE

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86–151, page 4.

Losses; casualty; disaster areas; year of deduction. Disaster areas in which losses during 1986 qualify for special tax treatment under section 165(i) of the Code are listed. Also, Rev. Rul. 84–178 (list of disaster areas in 1984) and Rev. Rul. 85–195 (list of disaster areas in 1985) are supplemented.

Rev. Rul. 86–152, page 10.

Inventories; LIFO; timber cut under a section 631(a) election. A taxpayer may not use the LIFO inventory identification method in arriving at the adjusted basis of timber for purposes of computing gain or loss when the timber is cut under a section 631(a) election. Rev. Rul. 60–244 clarified.

Rev. Rul. 86–153, page 12.

LIFO; price indexes, department stores. The April 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, April 30, 1986.

Rev. Rul. 86–154, page 14.

Interest on loans; effectively connected to branch office. Securities held by a U.S. branch of a foreign bank and recorded on its books are attributable to the U.S. branch or to the home office.

Rev. Rul. 86–155, page 15.

Foreign base company income; gross income. Gross income from the engineering, fabrication, and installation of offshore drilling platforms is determined according to section 1.61–3(a) of the regulations after the income from such activities is classified according to the standards set forth in section 1.954(f)(2). Rev. Rul. 83–118 revoked.

Rev. Rul. 86–157, page 13.

Mutual life insurance companies; differential earnings rates. The recomputed differential earnings rate for 1984 published in Rev. Rul. 86–114, 1986–39 I.R.B. 14, is corrected. The differential earnings rate for 1985 and the other figures on which these rates are based that are set forth in Rev. Rul. 86–114 are restated. Mutual life insurance companies use these rates to compute their income tax liability for 1985. Rev. Rul. 86–114 modified and superseded.

Rev. Rul. 86–158, page 16.

Federal rates; adjusted federal rates; adjusted federal long-term rate, and the long-term tax-exempt rate. For purposes of sections 1274, 1288, 382, and other sections of the Code, a table sets forth the rates for January 1987.

T.D. 8107, page 7.

Regulations under section 172 of the Code relate to the taxable years to which a net operating loss of a real estate investment trust may be carried.

Notice 86–17, page 19.

The branch profits tax provided by section 884(a) of the Code will not generally be imposed on (1) the complete termination of a foreign corporation's U.S. trade or business, (2) certain liquidations or reorganizations of a foreign corporation that has conducted a U.S. trade or business, or (3) a section 351 incorporation of a foreign corporation's U.S. trade or business.

Announcement 86–129, page 22.

Guidance is provided with respect to the diversification requirements under section 817(h) of the Code that are applicable to variable annuity, endowment, and life insurance contracts.

TAX CONVENTIONS

Rev. Rul. 86–156, page 18.

Netherlands; equipment rental payments; business profits. U.S. source payments for equipment rentals are exempt from U.S. income tax as business profits under Article III of the U.S.-Netherlands Income Tax Convention.

ADMINISTRATIVE

Rev. Proc. 86–48, page 20.

Election to expense certain depreciable business assets. The proposed revenue procedure provides guidance to taxpayers who made elections under section 179 of the Code to expense amounts that exceed the dollar limitations imposed by section 280F(a)(2) of the Code.

Notice 86–15, page 19.

The correct title and address is provided for the office of the new Assistant Commissioner (International) that was established May 12, 1986, to coordinate the various international activities of the Service.

Announcement 86–130, page 22.

Information reporting rules under section 6049 of the Code are set forth for brokers and middlemen who hold interests as nominees in certificates of deposit and other instruments issued at a discount.

Announcement 86–131, page 23.

Publication 1212, List of Original Issue Discount Instruments (Rev. Dec. 86), is supplemented to provide information to banks, brokers, and other middlemen regarding Treasury bills issued at a discount and maturing during January through June 1987.

Finding Lists begin on page 25.
Announcement of Disbarments and Suspensions on page 24.

Department of the Treasury
Internal Revenue Service

T22. 23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provides (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 165.—Losses

26 CFR 1.165–11: Election in respect of losses attributable to a disaster.

Losses; casualty; disaster areas; year of deduction. Disaster areas in which losses during 1986 qualify for special tax treatment under section 165(i) of the Code are listed. Also, Rev. Rul. 84–178 (list of disaster areas in 1984) and Rev. Rul. 85–195 (list of disaster areas in 1985) are supplemented.

Rev. Rul. 86–151

LAW AND ANALYSIS—HOLDING

Under section 165(i) of the Internal Revenue Code, if a taxpayer suffers a loss attributable to a disaster occurring in an area subsequently determined by the President of the United States to warrant assistance by the Federal Government under the Disaster Relief Act of 1974, sections 101 and 102, 42 U.S.C. sections 5121 and 5122 (1982), 1974–2 C.B. 414, then the taxpayer may elect to take a deduction for that loss on the taxpayer's federal income tax return for the taxable year immediately preceding the taxable year in which the disaster occurred.

The election to deduct for the preceding year must be made on or before the later of (1) the original due date of the taxpayer's income tax return for the year in which the disaster occurred, or (2) the due date of the preceding year's return (taking into account extensions of time for filing granted to the taxpayer). Section 1.165–11 of the Income Tax Regulations. This section of the regulations sets forth the procedures for making an election with respect to such losses.

The provisions of section 165(i) of the Code apply only to losses that are otherwise deductible under section 165(a). An individual taxpayer may deduct losses if they are incurred in a trade or business, if they are incurred in a transaction entered into for profit, or if they are casualty losses under section 165(c)(3).

As of November 30, 1986, the President had determined that the areas listed below have been adversely affected by disasters of sufficient severity occurring during 1986 to warrant disaster assistance by the Federal Government under the Disaster Relief Act of 1974.

There may be areas in which a disaster occurred during 1986 and which the President, after November 30, 1986, declares eligible for disaster assistance under the Disaster Relief Act of 1974. Information concerning these areas will be published in a supplemental revenue ruling. If possible, this information will be included in this revenue ruling when it is published in the Cumulative Bulletin.

Disaster Areas in 1986	Type of Disaster	Date Disaster Occurred or Began
Alaska		
Boroughes of North Slope and Northwest Arctic	Arctic sea storm, high winds, and wave action	September 20, 1986
Boroughes of Kenai Peninsula, Matanuska-Susitna, Valdez-Cordova, and Yukon-Koyukuk	Severe storms and flooding	October 10, 1986
Portion of the Alaska Railroad south of the Community of Healy		
California		
Counties of Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Lake, Lassen, Madera, Marin, Mendocino, Modoc, Mono, Napa, Nevada, Placer, Plumas, Sacramento, San Benito, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Sierra, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba	Severe storms, landslides, mudslides, and flooding	February 12, 1986
Illinois		
Counties of Adams, Calhoun, Cook, Jersey, Kane, Lake, McHenry, and St. Clair	Severe storms and flooding	September 21, 1986
Indiana		
County of Randolph	Tornadoes	March 10, 1986

Disaster Areas in 1986	Type of Disaster	Date Disaster Occurred or Began
Kansas		
Counties of Allen, Bourbon, Chautauqua, Cherokee, Cowley, Elk, Labette, Montgomery, Neosho, and Wilson	Severe storms and flooding	October 2, 1986
Michigan		
Counties of Allegan, Arenac, Bay, Clare, Clinton, Genesee, Gladwin, Gratiot, Huron, Ionia, Isabella, Kent, Lake, Lapeer, Macomb, Manistee, Mason, Mecosta, Midland, Montcalm, Muskegon, Newaygo, Oceana, Osceola, Ottawa, Saginaw, Sanilac, Shiawassee, Tuscola, and Van Buren	Severe storms and flooding	September 10, 1986
Missouri		
Counties of Bates, Benton, Boone, Callaway, Cass, Clark, Cole, Cooper, Franklin, Gasconade, Henry, Howard, Johnson, Lewis, McDonald, Miller, Moniteau, Montgomery, Morgan, Osage, Pettis, Ralls, Saline, Scotland, Shelby, St. Charles, St. Clair, St. Louis, Vernon, and Warren	Severe storms and flooding	September 18, 1986
Montana		
Counties of Chouteau, Daniels, Dawson, Deer Lodge, Fergus, Glacier, Granite, Liberty, Petroleum, Phillips, Pondera, Powell, Sanders, Teton, Toole, and Valley	Heavy rains, landslides, ice jams, and flooding	February 24, 1986
Counties of Blaine, Garfield, Hill, McCone, Phillips, Rosebud, and Valley	Severe storms and flooding	September 25, 1986
Nevada		
Counties of Douglas, Humboldt, Lyon, Storey, and Washoe	Severe storms and flooding	February 15, 1986
Carson City (City) and portions of the Fort McDermitt Indian Reservation located in Nevada		
New Hampshire		
Counties of Cheshire, Hillsborough, and Sullivan	Severe storms and flooding	July 29, 1986
Oklahoma		
Counties of Adair, Beckham, Blaine, Caddo, Canadian, Cherokee, Cleveland, Comanche, Creek, Custer, Delaware, Garfield, Grady, Grant, Greer, Haskell, Kay, Kingfisher, Kiowa, Logan, Major, Mayes, McClain, Muskogee, Noble, Nowata, Okfuskee, Oklahoma, Okmulgee, Osage, Ottawa, Pawnee, Payne, Pottawatomie, Rogers, Sequoyah, Tillman, Tulsa, Wagoner, Washington, and Washita	Severe storms and flooding	September 26, 1986

Disaster Areas in 1986	Type of Disaster	Date Disaster Occurred or Began
Pennsylvania		
County of Allegheny	Severe storms and flooding	May 30, 1986
Puerto Rico		
Municipalities of Aguada, Aibonito, Anasco, Arecibo, Barceloneta, Barranquitas, Caguas, Camuy, Cayey, Ciales, Coamo, Corozal, Florida, Hatillo, Jayuya, Lares, Luquillo, Manati, Moca, Morovis, Orocovis, San German, San Sebastian, Toa Baja, Utuado, and Villalba	Heavy rains, landslides, and flooding	April 25, 1986
South Dakota		
Counties of Aurora, Beadle, Brookings, Clark, Codington, Day, Deuel, Douglas, Edmunds, Faulk, Grant, Hamlin, Hand, Hutchinson, Jerauld, Kingsbury, Lyman, Potter, Roberts, Sanborn, Spink, Sully, Tripp, Turner, and Walworth	Severe storms and flooding	March 22, 1986
Texas		
Nolan County	Severe storms, rains, and tornadoes	April 19, 1986
Trust Territory of the Pacific		
Island of Ponape	Typhoon Lola	May 16, 1986
Utah		
Counties of Cache, Morgan, Wasatch, and Weber	Heavy rains, snowmelt, and flooding	February 12, 1986
Washington		
Counties of Clallam, Jefferson, and King	Severe storms landslides, and flooding	January 16, 1986
Cowlitz County	Heavy rains, landslides, and flooding	February 22, 1986
City of Spokane	Severe storms and flood damage	May 20, 1986
Wisconsin		
Counties of Milwaukee and Waukesha	Severe storms	August 6, 1986
Counties of Dodge, Fond du Lac, Kenosha, Milwaukee, Ozaukee, Sheboygan, Washington, and Waukesha	Severe storms and flooding	September 10, 1986

The following are areas in which disasters occurred prior to 1986 and which the President, on September 10, 1986, declared eligible for disaster assistance under the Disaster Relief Act of 1974.

Disaster Area in 1984	Type of Disaster	Date Disaster Occurred or Began
Texas		
Motley County Independent School District	Tornadoes	May 1, 1984

Disaster Area in 1985	Type of Disaster	Date Disaster Occurred or Began
Maryland		
Oldtown School in Allegany County	Severe storms and flooding	November 4, 1985

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 84–178, 1984–2 C.B. 48, and Rev. Rul. 85–195, 1985–2 C.B. 69, are supplemented.

Section 172.—Net Operating Loss Deduction

26 CFR 1.172–1: Net operating loss deduction.

T.D. 8107

TITLE 26.—INTERNAL REVENUE.—
CHAPTER I, SUBCHAPTER A, PART
1.—INCOME TAX; TAXABLE YEARS
BEGINNING AFTER DECEMBER 31,
1953

Taxable Years to Which the Net Operating Loss of a Real Estate Investment Trust May Be Carried

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations under section 172(b)(1)(E). These amendments will conform the regulations to changes made by the Act of December 24, 1980 (Pub. L. 96–595), the Economic Recovery Tax Act of 1981, and the Technical Corrections Act of 1982. These regulations provide guidance to officers and employees of the Internal Revenue Service and the public with respect to the taxable years to which a net operating loss of a real estate investment trust (hereinafter REIT) may be carried.

DATE: These regulations are generally effective for net operating losses in taxable years ending after December 31, 1975; however, the regulations conforming to section 207(a)(2)(B)(i) of the Economic Recovery Tax Act of 1981 (§1.172–10(a)(3)) shall apply to the determination of the net operating loss deduction for taxable years ending after October 4, 1976, for net operating losses sustained in taxable years ending after December 31, 1972.

FOR FURTHER INFORMATION CONTACT: Mitchell H. Rapaport of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3740).

BACKGROUND

On June 26, 1984, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 172 of the Internal Revenue Code of 1954 (49 FR 26102) [1984–2 C.B. 841]. The amendments were proposed to conform the regulations to the amendments made by section 1606 of the Tax Reform Act of 1976 (Pub. L. 94–455, 90 Stat. 1755), section 1 of the Act of December 24, 1980 (Pub. L. 96–595, 94 Stat. 3464) and by section 207(a) and (c)(1) and (3) of the Economic Recovery Tax Act of 1981 (Pub. L. 97–34, 95 Stat. 225, 226) (as amended by section 102(d)(1) and (2) of the Technical Corrections Act of 1982 (Pub. L. 97–448, 96 Stat. 2370)). The proposed regulations also contained amendments to update the existing regulations under section 172 and delete provisions that are no longer applicable. The Service did not receive any written comments in response to the notice of proposed rulemaking. No public hearing was requested or held. Accordingly, the proposed regulations are adopted as proposed.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is not required.

REGULATORY FLEXIBILITY ACT

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these regulations is Mitchell H. Rapaport of the Legislation and Regulations Division of the Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Amendments to the regulations

The amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.172–1 is amended by removing paragraph (f), by redesignating paragraphs (g) and (h) as paragraphs (f) and (g), respectively, and by revising paragraph (e) to read as follows:

§1.172–1 Net operating loss deduction.

* * * * *

(e) *Low applicable to computations.* (1) In determining the amount of any net operating loss carryback or carryover to any taxable year, the necessary computations involving any other taxable year shall be made under the law applicable to such other taxable year.

(2) The net operating loss for any taxable year shall be determined under the law applicable to that year without regard to the year to which it is to be carried and in which, in effect, it is to be deducted as part of the net operating loss deduction.

(3) The amount of the net operating loss deduction which shall be allowed for any taxable year shall be determined under the law applicable to that year.

* * * * *

Par. 3. Section 1.172–2 is revised to read as follows:

§1.172–2 Net operating loss in case of a corporation.

(a) *Modification of deductions.* A net operating loss is sustained by a corporation in any taxable year if and to the extent that, for such year, there is an excess of deductions allowed by chapter 1 of the Code over gross income computed thereunder. In determining the excess of deductions over gross income for such purpose—

(1) *Items not deductible.* No deduction shall be allowed under—

(i) Section 172 for the net operating loss deduction, and

(ii) Section 922 in respect of Western Hemisphere trade corporations:

(2) *Dividends received.* The 85-percent limitation provided by section 246(b) shall not apply to the deductions otherwise allowed under—

(i) Section 243(a) in respect of dividends received from domestic corporations,

(ii) Section 244 in respect of dividends received on preferred stock of public utilities, and

(iii) Section 245 in respect of dividends received from foreign corporations: and

(3) *Dividends paid.* The deduction granted by section 247 in respect of dividends paid on the preferred stock of public utilities shall be computed without regard to subsection (a)(1)(B) of Section 247.

(b) *Example.* The following example illustrates the application of paragraph (a):

Example. For the calendar year 1981, the X corporation has gross income of $400,000 and total deductions allowed by chapter 1 of the Code of $375,000, exclusive of any net operating loss deduction and exclusive of any deduction for dividends received or paid. Corporation X in 1981 received $100,000 of dividends entitled to the benefits of section 243(a). These dividends are included in Corporation X's $400,000 gross income. Corporation X has no other deductions to which section 172(d) applies. On the basis of these facts, Corporation X has a net operating loss for the year 1981 of $60,000, computed as follows:

Deductions for 1981	$375,000
Plus: Deduction for dividends received, computed without regard to the limitation provided in section 246(b) (85% of $100,000)	85,000
Total	460,000
Less: Gross income for 1981 (including $100,000 dividends)	400,000
Net operating loss for 1981	60,000

(c) *Qualified real estate investment trusts.* For taxable years ending after October 4, 1976, the net operating loss of a qualified real estate investment trust (as defined in §1.172–10(b) is computed by taking into account the adjustments described in section 857(b)(2) (other than the deduction for dividends paid, as defined in section 561), as well as the modifications required by paragraph (a)(1) of this section. Thus, for example, the special deductions for dividends received, etc., provided in part VIII of subchapter B (other than section 248), as well as the net operating loss deduction under section 172, are not allowed in computing the net operating loss of a qualified real estate investment trust.

Par. 4. Section 1.172–3 is amended as follows:

1. Paragraph (a) is amended by removing the phrase "beginning after December 31, 1953," by removing "of 1954," and by removing the clause; "this rule shall apply even though the loss year is otherwise subject to the Internal Revenue Code of 1939," and by adding a period after the word "thereunder";

2. Paragraph (b) is amended by removing the phrase "in case of a taxable year beginning after December 31, 1963,";

3. Paragraph (e) is removed; and

4. Paragraph (f) is redesignated as paragraph (e).

Par. 5. Section 1.172–4 is amended as follows:

1. Paragraph (a)(5) is removed;

2. Existing paragraph (a)(6), (7), and (8) are redesignated as paragraph (a)(5), (6), and (7), respectively;

3. Newly redesignated paragraph (a)(7) is amended by removing "1371" and adding "1361" in lieu thereof and by removing "(g)" and adding "(f)" in lieu thereof; and

4. Paragraphs (a)(1) and (b) are revised to read as follows:

§1.172–4 Net operating loss carrybacks and net operating loss carryovers.

(a) *General provisions*—(1) *Years to which loss may be carried*—(i) *In general.* In order to compute the net operating loss deduction the taxpayer must first determine the part of any net operating losses for any preceding or succeeding taxable years which are carrybacks or carryovers to the taxable year in issue.

(ii) *General rule for carrybacks and carryovers.* Except as provided in section 172(b)(1)(C), (D), (E), (F), (G), (H), (I), and (J), paragraphs (a)(1)(iii), (iv), (v), and (vi) of this section, and §1.172–10(a), a net operating loss shall be carried back to the 3 preceding taxable years and carried over to the 15 succeeding taxable years (5 succeeding taxable years for a loss sustained in a taxable year ending before January 1, 1976).

(iii) *Loss of a regulated transportation corporation.* Except as provided in subdivision (iv) of this subparagraph and §1.172–19(a), a net operating loss sustained by a taxpayer which is a regulated transportation corporation (as defined in section 172(g)(1)) in a taxable year ending before January 1, 1976, shall, subject to the provisions of section 172(g) and §1.172–8, be carried back to the taxable years specified in paragraph (a)(1)(ii) of this section and shall be carried over to the 7 succeeding taxable years.

(iv) *Loss attributable to foreign expropriation.* If the provisions of section 172(b)(3)(a) and §1.172–9 are satisfied, the portion of a net operating loss attributable to a foreign expropriation loss (as defined in section 172(h) shall not be a net operating loss carryback to any taxable year preceding the taxable year of such loss and shall be a net operating loss carryover to each of the 10 taxable years following the taxable year of such loss.

(v) *Loss of a financial institution.* A net operating loss sustained in a taxable year beginning after December 31, 1975, by a taxpayer to which section 585, 586, or 593 applies shall be carried back (except as provided in §1.172–10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

(vi) *Loss of a Bank for Cooperatives.* A net operating loss sustained by a taxpayer which is a Bank for Cooperatives (organized and chartered pursuant to section 2 of the Farm Credit Act of 1933 (12 U.S.C. 1134)) shall be carried back (except as provided in §1.172–10(a)) to the 10 preceding taxable years and shall be carried over to the 5 succeeding taxable years.

* * * * *

(b) *Portion of net operating loss which is a carryback or a carryover to the taxable year in issue.* (1) A net operating loss shall first be carried to the earliest of the several taxable years for which such loss is allowable as a carryback or a carryover, and shall then be carried to the next earliest of such several taxable years, etc. Except as provided in §1.172–9, the entire net operating loss shall be carried back to such earliest year.

(2) The portion of the loss which shall be carried to any of such several taxable years subsequent to the earliest taxable year is the excess of such net operating loss over the sum of the taxable incomes (computed as provided in §1.172–5) for all of such several taxable years preceding such subsequent taxable year.

(3) If a portion of the net operating loss for a taxable year is attributable to a foreign expropriation loss (as defined in section 172(h)) and if an election under paragraph (c) of §1.172–9 is made with respect to such portion of the net operating loss, then see §1.172–9 for the separate treatment of such portion of the net operating loss.

* * * * *

Par. 6. Section 1.172–5 is amended as follows:

1. Paragraph (a)(1) is removed;

2. Paragraph (a)(2), (3), (4), and (5) are redesignated as paragraph (a)(1)(2), (3), and (4), respectively;

3. Newly redesignated (a)(3) is amended by removing "1371" and adding "1361" in lieu thereof and by removing "paragraph (g)" and adding "paragraph (f)" in lieu thereof;

4. Newly redesignated (a)(4) is amended by removing "§1.172–12(b)" and adding "§1.172–10(b)" in both places that "§1.172–12(b)" appears and by removing "paragraph (a)(3)" and "paragraph (a)(3)(i)" and adding "paragraph (a)(2)"

and "paragraph (a)(2)(i)", respectively, in lieu thereof; and

5. Paragraph (b) is removed and reserved.

Par. 7. Paragraph (a) of §1.172–7 is amended by removing the last sentence thereof.

Par. 8. Section 1.172–8 is removed.

Par. 9. Section 1.172–9 is removed.

Par. 10. Section 1.172–10 is redesignated as §1.172–8 and amended as follows:

1. Paragraph (d) is removed.
2. Paragraph (e) is redesignated as paragraph (d); and
3. Paragraph (a) is revised to read as follows:

§1.172–8 Net operating loss carryovers for regulated transportation corporations.

(a) *In general.* A net operating loss sustained in a taxable year ending before January 1, 1976, shall be a carryover to the 7 succeeding taxable years if the taxpayer is a regulated transportation corporation (as defined in paragraph (b) of this section) for the loss year and for the 6th and 7th succeeding taxable years. If, however, the taxpayer is a regulated transportation corporation for the loss year and for the 6th succeeding taxable year, but not for the 7th succeeding taxable year, then the loss shall be a carryover to the 6 succeeding taxable years. If the taxpayer is not a regulated transportation corporation for the 6th succeeding taxable year then this section shall not apply. A net operating loss sustained in a taxable year ending after December 31, 1975, shall be a carryover to the 15 succeeding taxable years.

* * * * *

Par. 11. Section 1.172–11 is redesignated as §1.172–9 and amended as follows:

1. Paragraph (c)(2) is removed;
2. Paragraph (c)(3) is redesignated as paragraph (c)(2) and is amended by removing "subparagraphs (1) and (2)" and adding "subparagraph (1)" in lieu thereof, by removing "172(b)(3)(C)(ii)" and adding "172(b)(3)(A)(ii)" in lieu thereof, and by removing the flush material under subdivision (iv);
3. Paragraph (d) is removed;
4. Paragraphs (e) and (f) are redesignated respectively as paragraphs (d) and (e) and are amended by removing "paragraph (a)(1)(v)" and adding "paragraph (a)(1)(iv)" in each place it appears; and
5. Newly redesignated paragraph (d) is further amended by removing "paragraph (c)" and adding "paragraph (a)" in lieu thereof and by removing "paragraph (c)(2)" and adding "paragraph (a)" in lieu thereof.

Par. 12. Section 1.172–12 is redesignated as §1.172–10 and amended as follows:

1. Paragraph (a)(2) is redesignated as paragraph (a)(8);
2. Paragraph (c) is redesignated as paragraph (d);
3. Newly redesignated paragraph (d) is amended by removing "§§1.172–2(e)" and adding "§§1.172–2(c)" in its place; and
4. New paragraphs (a)(1) through (7) and (c) are added to read as follows:

§1.172–10 Net operating losses of real estate investment trusts.

(a) *Taxable years to which a loss may be carried.* (1) A net operating loss sustained by a qualified real estate investment trust (as defined in paragraph (b)(1) of this section) in a qualified taxable year (as defined in paragraph (b)(2) of this section) ending after October 4, 1976, shall not be carried back to a preceding taxable year.

(2) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before October 5, 1976, shall be carried back to the 3 preceding taxable years. However, see §1.857–2(a)(5), which does not allow the net operating loss deduction in computing real estate investment trust taxable income for taxable years ending before October 5, 1976.

(3) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending after December 31, 1972, shall be carried over to the 15 succeeding taxable years. However, see §1.857–2(a)(5).

(4) A net operating loss sustained by a qualified real estate investment trust in a qualified taxable year ending before January 1, 1973, shall be carried over to the 8 succeeding taxable years. However, see §1.857–2(a)(5).

(5) A net operating loss sustained in a taxable year for which the taxpayer is not a qualified real estate investment trust generally may be carried back to the 3 preceding taxable years; however, a net operating loss sustained in a taxable year ending after December 31, 1975, shall not be carried back to any qualified taxable year. However, see §1.857–2(a)(5) with respect to a net operating loss sustained in a taxable year ending before January 1, 1976.

(6) A net operating loss sustained in a taxable year ending after December 31, 1975, for which the taxpayer is not a qualified real estate investment trust generally may be carried over to the 15 succeeding taxable years.

(7)(i) A net operating loss sustained in a taxable year ending before January 1, 1976, for which the taxpayer is not a qualified real estate investment trust generally may be a net operating loss carryover to each of the 5 succeeding taxable years. However, where the loss was a net operating loss carryback to one or more qualified taxable years, the net operating loss, in accordance with paragraph (a)(7)(ii) of this section, shall be—

(A) Carried over to the 15 succeeding taxable years if the loss could be a net operating loss carryover to a taxable year ending in 1981, or

(B) Carried over to the 5, 6, 7, or 8 succeeding taxable years if paragraph (a)(7)(i)(A) of this section does not apply.

(ii) For purposes of determining whether a net operating loss could be a carryover to a taxable year ending in 1981 under paragraph (a)(7)(i)(A) of this section or, where paragraph (a)(7)(i)(A) of this section does not apply, to determine the actual carryover period under paragraph (a)(7)(i)(B) of this section, the net operating loss shall have a carryover period of 5 years, and such period shall be increased (to a number not greater than 8) by the number of qualified taxable years to which such loss was a net operating loss carryback; however, where the taxpayer acted so as to cause itself to cease to be a qualified real estate investment trust and the principal purpose for such action was to secure the benefit of the allowance of a net operating loss carryover under section 172(b)(1)(B), the net operating loss carryover period shall be limited to 5 years. However, see §1.857–2(a)(5).

* * * * *

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1)–(i) *Facts.* X was a qualified real estate investment trust for the taxable years ending on December 31, 1972, and December 31, 1973. X was not a qualified real estate investment trust for the taxable years ending on December 31, 1971, and December 31, 1974. X sustained a net operating loss for the taxable year ending on December 31, 1974.

(ii) *Applicable carryback and carryover periods.* The net operating loss must be carried back to the 3 preceding taxable years. Under §1.857–2(a)(5) the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the years ending December 31, 1972, and December 31, 1973. Where a net operating loss is sustained in a taxable year ending before January 1, 1976, for which the taxpayer is not a qualified real estate investment trust and the loss is a net operating loss carryback to one or more qualified taxable years, the carryover period is determined under §1.172–10(a)(7); the carryover period is determined by first applying the rule provided in paragraph (a)(7)(ii) of this section to obtain the carryover period for purposes of determining whether the net operating loss could have been a net operating loss carryover to a taxable year ending in 1981. Under these facts, paragraph (a)(7)(ii) of this section provides for a 7-year carryover period (5 years increased by the 2 qualified taxable years to which the loss was a net operating loss carryback); therefore, since the carryover period provided for by paragraph (a)(7)(ii) of this section would allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, under paragraph (a)(7)(ii)(A) of this section the applicable carryover period is 15 years (provided that X did not act so as to cause itself to cease to qualify as a real estate investment trust for the principal purpose of securing the benefit of a net operating loss carryover under section 172 (b)(1)(B)).

Example (2)–(i) *Facts*. The facts are the same as in *example* (1) except that the taxable year ending December 31, 1973, was not a qualified taxable year for X.

(ii) *Applicable carryback and carryover periods*. The net operating loss must be carried back to the 3 preceding taxable years. Section 1.857–2(a)(5) provides that the net operating loss deduction shall not be allowed in computing real estate investment trust taxable income for the year ending December 31, 1972. Under these facts the carryover period is determined under §1.172–10(a)(7). Paragraph (a)(7)(ii) of this section provides for a 6 year carryover period (5 years increased by the 1 qualified taxable year to which the loss was a net operating loss carryback); therefore, since a 6 year carryover period would not allow the net operating loss to be a net operating loss carryover to a taxable year ending in 1981, paragraph (a)(7)(i)(A) of this section does not apply. Where the rule stated in paragraph (a)(7)(i)(A) of this section does not apply, paragraph (a)(7)(i)(B) of this section provides that the applicable carryover period is the carryover period determined under paragraph (a)(7)(ii) of this section, which, in this case, is 6 years (provided that the principal purpose for X acting so as to cause itself to cease to qualify as a real estate investment trust was not to secure the benefit of the allowance of a net operating loss carryover under section 172(b)(1)(B)).

Par. 13. Paragraph (e)(1)(ii) of §1.857–6 is amended by removing "1.172–5(a)(5)" and by adding "§1.172–5(a)(4)" in lieu thereof.

Par. 14. Paragraph (d) of §1.6411–1 is removed.

Lawrence B. Gibbs,
Commissioner of
Internal Revenue.

Approved November 14, 1986.

J. Roger Mentz,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on December 1, 1986, 8:45 a.m., and published in the issue of the Federal Register for December 2, 1986, 51 F.R. 43344)

Section 179.—Election To Expense Certain Depreciable Business Assets

Guidance is provided for taxpayers who made elections under section 179 of the Code to expense amounts that exceed the dollar limitations imposed by section 280F(a)(2) of the Code. See Rev. Proc. 86–48, page 20.

Section 280F.—Limitation on Investment Tax Credit and Depreciation for Luxury Automobiles; Limitation Where Certain Property Used for Personal Purposes

Guidance is provided for taxpayers who made elections under section 179 of the Code to expense amounts that exceed the dollar limitations imposed by section 280F(a)(2) of the Code. See Rev. Proc. 86–48, page 20.

Section 280G.—Golden Parachute Payments

Federal short-term, mid-term, and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, page 16.

Section 382.—Limitation on Net Operating Loss Carryforwards and Certain Built-In Losses Following Ownership Change

The adjusted federal long-term rate is set forth for the month of January 1987. The long-term tax-exempt rates will be set forth beginning in January 1987. See Rev. Rul. 86–158, page 16.

Section 383.—Special Limitations on Unused Business Credits, Research Credits, Foreign Taxes, and Capital Losses

The adjusted federal long-term rate is set forth for the month of January 1987. The long-term tax-exempt rates will be set forth beginning in January 1987. See Rev. Rul. 86–158, page 16.

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, page 16.

Section 468.—Special Rules for Mining and Solid Waste Reclamation and Closing Costs

Federal short-term, mid-term, and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, page 16.

Section 472.—Last-in, First-out Inventories

26 CFR 1.472–1: Last-in, first-out inventories.
(Also Sections 611, 631, 1012; 1.611–3, 1.631–1 1.1012–1.)

Inventories; LIFO; timber cut under a section 631(a) election. A taxpayer may not use the LIFO inventory identification method in arriving at the adjusted basis of timber for purposes of computing gain or loss when the timber is cut under a section 631(a) election. Rev. Rul. 60–244 clarified.

Rev. Rul. 86–152

ISSUE

Can a taxpayer that has elected to treat the cutting of timber as a sale or exchange under section 631(a) of the Internal Revenue Code use a last-in, first-out (LIFO) inventory identification method in arriving at the adjusted basis of the timber for purposes of computing gain or loss when the timber is cut?

FACTS

The taxpayer, a domestic corporation, owns timber lands from which substantial quantities of timber are cut each year for use in its manufacturing operations. The taxpayer elected to treat the cutting of timber as a sale or exchange under section 631(a) of the Code.

The taxpayer operates on a 35 year cutting cycle. After it cuts a tract of timber, taxpayer reforests that tract and does no further cutting there for 35 years. In 1985, the taxpayer cut timber it had planted on 9*x* acres in 1950. On its federal income tax return filed for 1985, the taxpayer reported the cutting as a sale or exchange under section 631(a) of the Code. The "section 1231 gain" reported on the cutting was computed by subtracting the taxpayer's adjusted depletion basis for the timber from the fair market value of the timber on the first day of the taxpayer's 1985 tax year. The taxpayer determined its adjusted basis for depletion for the timber, under the LIFO method, by using its cost for the planting of 9*x* acres of timber that was added to this merchantable timber account in 1985.

LAW AND ANALYSIS

Section 1.631–1(d)(1) of the Income Tax Regulations provides that if the cutting of timber is considered as a sale or exchange pursuant to an election made under section 631(a) of the Code, gain or loss shall be recognized to the taxpayer in an amount equal to the difference between the adjusted basis for depletion in the hands of the taxpayer of the timber that has been cut during the tax year and the fair market value of such timber as of the first day of the tax year in which such timber is cut. The adjusted basis for depletion of the cut timber shall be based upon the number of units (feet board measure, log scale, or other units) of timber cut during the tax year that are considered to be sold or exchanged and upon the depletion unit of timber in the timber account or accounts pertaining to the timber cut, and shall be computed in the same manner as is provided in section 611 and the regulations thereunder with respect to the computation of the allowance for depletion.

Section 1.631–1(d)(3) of the regulations provides that the fair market value as of the beginning of the tax year of the standing timber cut during the year shall be considered to be the cost of such timber, in lieu, of the actual cost or other basis of such timber, for all purposes for which such cost is a necessary factor.

Section 1.631–1(d)(4) of the regulations provides that for any tax year for which the cutting of timber is considered to be a sale or exchange of such timber under section 631(a) of the Code, the timber so cut shall be considered as property used in the trade or business for purposes of section 1231, along with other property of the taxpayer used in the trade or business as defined in section 1231(b), regardless of whether such timber is property of a kind that would properly be includible in the inventory of the taxpayer if on hand at the close of the tax year or properly held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business.

Section 1.611–3(b)(3) of the regulations provides that when a taxpayer has elected to treat the cutting of timber as a sale or exchange of such timber under the provisions of section 631(a) of the Code, the taxpayer shall reduce the timber account containing such timber by an amount equal to the adjusted depletion basis of such timber.

Section 1.611–3(c)(1) of the regulations provides that every taxpayer claiming or expecting to claim a deduction for depletion of timber property shall keep accurate ledger accounts in which shall be recorded the cost or other basis provided by section 1012 of the Code of the property and land together with subsequent allowable capital additions in each account and all other adjustments provided by section 1016 and the regulations thereunder.

Section 1.611–3(c)(2) of the regulations provides that the timber accounts shall be credited each year with the amount of the charges to the depletion account computed in accordance with paragraph (b) of this section.

Section 1.611–3(b)(2) of the regulations sets forth the manner in which the depletion unit of the timber for a given timber account in a given year is to be computed. The depletion unit of the timber for a given timber account in a given year shall be the quotient obtained by dividing (i) the basis provided by section 1012 of the Code and adjusted as provided by section 1016, of the timber on hand at the beginning of the year plus the cost of the number of units acquired during the year plus proper additions to capital, by (ii) the total number of units of timber on hand in the given account at the beginning of the year plus the number of units acquired during the year plus (or minus) the number of units required to be added (or deducted) by way of correcting the estimate of the number of units remaining available in the account.

Section 1012 of the Code provides that the basis of property is its cost. Section 1.1012–1(a) of the regulations provides that cost is the amount paid for property in cash or other property.

Section 1016 of the Code provides for an adjustment to basis for the amount of depletion allowed as a deduction in computing taxable income.

Section 471 of the Code provides that whenever in the opinion of the Secretary the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by the taxpayer on such basis as the Secretary may prescribe as conforming as nearly as possible to the best accounting practice in the trade or business and as most clearly reflecting the income of such business or trade.

Section 472(a) of the Code provides that a taxpayer may use the LIFO method in inventorying goods.

Section 1.472–2(e)(8)(x) of the regulations provides, among other examples not pertinent here, that the use of actual cost of cut timber or the cost determined under section 631(a) of the Code is neither inconsistent with the inventory method referred to in section 1.472–1 nor at variance with the requirements of section 1.472–2(c). Section 1.472–2(e)(8)(x) further provides that under section 1.472–2(e)(1)(vi) either of these costing methods may be used to ascertain income, profit, or loss for credit purposes or for purposes of financial reports regardless of whether such method is also used by the taxpayer for federal income tax purposes.

The use of the LIFO method in computing the taxpayer's adjusted depletion basis under section 631(a) of the Code is incompatible with the requirements of section 1.611–3 of the regulations. Under the LIFO concept the latest cost incurred in acquiring timber added to the merchantable timber account would be applied against the timber being cut during the year. Sections 1.611–3(b)(2) and 1.611–3(c) require specific identification of the cost or other basis of each unit of timber under section 1012 and the adjustment to this basis of each unit under section 1016 for depletion.

When a section 631(a) election is in effect two realization events occur with respect to the timber. First, the deemed sale or exchange upon the cutting of the timber results in a section 1231 gain to the taxpayer to the extent the fair market value of the timber cut exceeds the actual basis of the timber cut, which basis is a cost basis with adjustments to reflect depletion and capital additions as required under section 1016 of the Code. The fair market value, as of the beginning of the tax year in which the standing timber is cut, becomes the cost basis of such timber See section 1.631–1(d)(3) of the regulations. The second realization event occurs when the cut timber product is carried in inventory by the taxpayer and subsequently sold. Section 1.631–1(e)(2) states that the fact that the fair market value as of the first day of the tax year in which the timber is cut is deemed to be the cost of such timber shall not preclude the taxpayer from computing its inventories upon the basis of cost or market, whichever is lower, if such method is used by the taxpayer. Nor shall it preclude the taxpayer from computing it inventories under the LIFO inventory method.

Rev. Rul. 60–244, 1960–2 C.B. 167, holds that a taxpayer who elects to treat the cutting of timber as sale or exchange under section 631(a) of the Code and adopts the LIFO method under section 472, may use, in financial statements to shareholders and for credit purposes, an inventory reserve reflecting the difference between the fair market value of the timber cut and the adjusted cost basis of such timber, determined without reference to such fair market value. See also section 1.472–2(e)(8)(x) of the regulations. The references to the use of the LIFO inventory method in Rev. Rul. 60–244 and section 1.472–2(e)(8)(x) are made with respect to the inventory valuation of cut timber subsequent to the section 631(a) computation. Rev. Rul. 60–244 and section 1.472–2(e)(8)(x) do not sanction use of the LIFO method in arriving at the adjusted depletion basis of the timber.

HOLDING

The taxpayer cannot use a LIFO inventory identification method in arriving at the adjusted depletion basis of timber for the purpose of computing the gain or loss when timber is cut and treated as a sale or exchange under section 631(a) of the Code.

Any change in the taxpayer's method of accounting to conform with the conclusion of this revenue ruling is a change in method of accounting to which the provisions of section 446 and 481 of the Code apply.

This ruling is identified as a designated ruling pursuant to section 5.12(2) of Rev. Proc. 84–74, 1984–2 C.B. 736.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 60–244 is clarified.

26 CFR 1.472–1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The April 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, April 30, 1986.

Rev. Rul. 86–153

The following price indexes for April 1986 were issued by the Bureau of Labor Statistics on May 23, 1986, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472–1(k) of the Income Tax Regulations and Rev. Proc. 72–21, 1972–1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, April 30, 1986.

Indexes are prepared on a national basis for the store total, for 23 major groups of departments and for three special combinations—soft goods, durable goods and miscellaneous goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, as well as contract departments.

The major groups of departments for which indexes are prepared have been expanded from 20 to 23. These new groups are: (1) Group 21—Recreation and Education; (2) Group 22—Home Improvements; and (3) Group 23—Auto Accessories. A Miscellaneous Goods index is also introduced to reflect the aggregate movement of these three new groups. *See* Rev. Proc. 86–46, 1986–50 I.R.B. 6.

Although the new indexes were introduced in the February 1986 Department Store Inventory Price Indexes, January 1987 will be the first month for which there will be a percent change based on a 12-month period. The January 1986 indexes for the new groups are all 100. Rev. Proc. 86–46 modifies and supersedes Rev. Proc. 72–21.

Rev. Proc. 86–47, 1986–50 I.R.B. 8, sets forth the procedures required of taxpayers to change their method of accounting from that of using the 20 groups set forth in Rev. Proc. 72–21 to the method of using the 23 groups set forth in Rev. Proc. 86–46.

Section 483.—Special Limitations on Certain Excess Credits, etc.

The adjusted applicable federal short-term, mid-term, and long-term rates are set fortn for the month of January 1987. See Rev. Rul. 86–158, page 16.

Section 611.—Allowance of Deduction for Depletion

26 CFR 1.611–3: Rules applicable to timber.

Whether a taxpayer can use the last-in, first-out inventory identification method in arriving at the adjusted basis of timber for purposes of computing gain or loss when the timber is cut. See Rev. Rul. 86–152, page 10.

Section 631.—Gain or Loss in the Case of Timber, Coal, or Domestic Iron Ore

26 CFR 1.631–1: Election to consider cutting as sale or exchange.

Whether a taxpayer can use the last-in, first-out inventory identification method in arriving at the adjusted basis of the timber for purposes of computing gain or loss when the timber is cut under a section 631(a) election. See Rev. Rul. 86–152, page 10.

Section 809.—Reduction in Certain Deductions of Mutual Life Insurance Companies

Mutual life insurance companies; differential earnings rates. The recomputed differential earnings rate for 1984 published in Rev. Rul. 86–114, 1986–39 I.R.B. 14, is corrected. The differential earnings rate for 1985 and the other figures on which these rates are based that are set forth in Rev. Rul. 86–114 are restated. Mutual life insurance companies use these rates to compute their income tax liability for 1985. Rev. Rul. 86–114 modified and superseded.

Rev. Rul. 86–157

This revenue ruling restates the differential earnings rate for 1985 and corrects the recomputed differential earnings rate for 1984. These rates were published in Rev. Rul. 86–114, 1986–39 I.R.B. 14. Under section 809 of the Internal Revenue Code, as amended by the Tax Reform Act of 1986, 1986–3 (Vol. 1) C.B. [illegible], mutual life insurance companies use these rates in computing their income tax liability for 1985. This ruling also restates some of the figures on which the determinations of these rates are based. Announcement 86–36, 1986–12 I.R.B. 27, contained tentative determinations of these same rates.

Section 809(a) of the Code provides that, in the case of any mutual life insurance company, the amount of the deduction allowable under section 808 for policyholder dividends shall be reduced (but not below zero) by the "differential earnings amount." Any excess of the differential earnings amount over the amount of the deduction allowable under section 808 shall be taken into account as a reduction in the closing balance of reserves under subsections (a) and (b) of section 807. The "differential earnings amount" for any taxable year is an amount equal to the product of (a) the life insurance company's average equity base for the taxable year multiplied by (b) the "differential earnings rate" for such taxable year. The "differential earnings rate" for a taxable year is the excess of (a) the "imputed earnings rate" for the taxable year over (b) the "average mutual earnings rate" for the second calendar year preceding the calendar year in which the taxable year begins. The "imputed earnings rate" for any taxable year beginning after 1984 is an amount that bears the same ratio to 16.5 percent as the "current stock earnings rate" for the taxable year bears to the "base period stock earnings rate."

Section 809(f) of the Code provides that, in the case of any mutual life insurance company, if the "recomputed differential earnings amount" for any taxable year exceeds the differential earnings amount for such taxable year, such excess shall be included in life insurance gross income for the succeeding taxable year. If the differential earnings amount for any taxable year exceeds the recomputed differential earnings amount for such year, such excess shall be allowed as a life insurance deduction for the succeeding taxable year. The "recomputed differential earnings amount" for any taxable year is an amount calculated in the same manner as the differential earnings amount for such taxable year, but substituting the average mutual earnings rate for the calendar year in which the taxable year begins for the average mutual earnings rate for the second calendar year preceding the calendar year in which the taxable year begins. For example, the differential earnings rate for 1985 is based on the average mutual earnings rate for 1983, and the recomputed differential earnings rate for 1985 (a rate that is used in the computation of tax liability for 1986) is based on the average mutual earnings rate for 1985.

For purposes of section 809 of the Code, the differential earnings rate for 1985, the rate used to calculate the recomputed differential earnings amount for 1984 (the "recomputed differential earnings rate" for 1984), and the figures on which these two rates are based are as follows:

Differential earnings rate for 1985	6.157 percent
Recomputed differential earnings rate for 1984	10.754 percent*
Imputed earnings rate for 1985	16.323 percent
Base period stock earnings rate	18.221 percent
Current stock earnings rate for 1985	18.026 percent
Stock earnings rate for 1981	17.316 percent
Stock earnings rate for 1982	18.812 percent
Stock earnings rate for 1983	18.535 percent
Stock earnings rate for 1984	16.731 percent
Average mutual earnings rate for 1983	10.166 percent
Average mutual earnings rate for 1984	5.930 percent

*Rev. Rul. 86–114 incorrectly stated this rate as 10.570 percent.

The Tax Reform Act of 1986 retroactively amended section 809 of the Code to change the procedures for computing these rates. As indicated above, however, these procedural changes (such as excluding data from certain companies) did not result in any changes to the rates set forth in Rev. Rul. 86–114. The change in the recomputed differential earnings rate for 1984 is a result of a computational error, not of a procedural change or the gathering of additional data.

Regulations under section 809 of the Code have not yet been issued, and when these regulations are issued, they may be effective prior to the date of their issuance. Even if that is the case, however, in determining the rates that are to be used in computing 1985 tax liability, the Service will not change the administrative procedures that governed its determination of the rates announced in this revenue ruling. Moreover, the Service generally will not restate any of the rates announced in this ruling to reflect subsequent changes in the data on which the rate is based, such as a change resulting from the audit of a life insurance company. Regulations or other pronouncements, however, may result in a change in these and other procedures for determination of the rates to be used in computing the tax liability of subsequent years.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 86–114 is modified and superseded.

Section 864.—Definitions

26 CFR 1.864–4: U.S. source income effectively connected with U.S. business.

Interest on loans; effectively connected to branch office. Securities held by a U.S. branch of a foreign bank and recorded on its books are attributable to the U.S. branch or to the home office.

Rev. Rul. 86–154

ISSUE

Whether, in the situations described below, securities held by a United States branch of a foreign bank and recorded on its books are attributable to the United States branch or to the home office.

FACTS

P, a foreign corporation whose home office is located in foreign country *X*, is actively engaged in the conduct of the banking business within the United States within the meaning of section 1.864–4(c)(5)(i) of the Income Tax Regulations through *B* and *C*, *P*'s United States branch offices. *B* has in its possession and has recorded on its books interest bearing securities of related and unrelated United States corporations evidencing funds advanced by *B* to these borrowers. Typically, the branch offices' participation in the loan acquisition process varies and is described in the situations presented below.

Situation 1: Unrelated Party Loans

B has full-time permanent employees who are account officers. These account officers contact financial officers of medium size United States companies. Through scheduled appointments, the account officers propose terms to prospective customers, and, if a customer is interested in the terms being offered, the customer executes a credit application. *B* transmits the credit application to *C*, which is staffed with personnel particularly capable of performing credit analysis, security evaluation, and other research functions. *C*'s findings are forwarded to *B*. The account officer incorporates *C*'s findings into a loan package which is forwarded to a credit committee composed of officers from *B* and *C*. The credit committee generally approves or rejects the loan package. In some cases, the committee will suggest modification of terms, in which case further negotiation by the account officer with the customer is necessary. Once the customer has agreed to terms and those terms are approved by the credit committee, *B* prepares the loan documentation and forwards it to the customer for signature. After the customer has signed, *B* funds the loan.

Situation 2: Related Party Loans

P has a wholly-owned United States subsidiary, *S*, which is actively engaged in equipment leasing and related services. *S* is in need of additional funding for expansion of its operations. The home office of *P* reviews *S*'s expansion plans, evaluates the customer orders and the credit worthiness of the customers' future receivables, and approves the loan. *P* funds the loan through *B*, by increasing *B*'s capital and having *B* loan the funds to *S*. *B* actually disperses the funds to *S*. As evidence of the loan, *S* executes a promissory note in favor of *B*. *B* services the loan throughout its term.

Situation 3: Loan Participations

An unrelated foreign multinational corporation, *Z*, is solicited by *P*'s home office and negotiates with that office for lines of credit that far exceed the funding capability of an individual branch such as *B*. In cases where *P* has approved such a large line of credit, it does so in anticipation that its various branches will participate in the funding of the loan. Regarding *B*'s participation, *P*'s home office forwards the loan documentation to *B* and instructs *B*, subject to *B*'s normal credit analysis and other loan review procedures, to fund a part of the loan to *Z*. *Z*'s wholly-owned domestic subsidiary contacts *B* for purposes of obtaining the designated loan amount. With the benefit of the information contained in the prior loan documentation forwarded from *P*, an independent global credit analysis is not performed by *B*. However, an account officer of *B* negotiates with *Z*'s United States subsidiary for the necessary collateral which is standard under *B*'s loan practices. *C* performs a thorough credit analysis of *Z*'s domestic subsidiary, evaluates the collateral and confirms to *B* that the collateral is adequate to secure the loan. *B* funds the loan.

LAW AND ANALYSIS

Section 881(a)(1) of the Internal Revenue Code generally imposes a tax of 30 percent on any interest received by a foreign corporation from United States sources, to the extent the interest is not effectively connected with the conduct of a United States trade or business. Although "portfolio interest" is exempt from the 30% withholding tax under section 881(c), "portfolio interest" does not include interest received by a bank on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business, unless the interest is paid on an obligation of the United States Government. Section 881(c)(3)(A).

Section 1.864–4(c)(5)(ii) and (iii) of the regulations provides special rules for determining whether income from securities is effectively connected with the active conduct of a banking, financing, or similar business within the United States. Subdivision (ii) requires the securities be acquired in the course of conducting specified activities, or, the securities consist of particular types. In addition, the securities must be considered attributable to a United States office through which the banking, financing, or similar business is carried on.

Subdivision (iii) provides that a security is attributable to a United States office only if such office actively and materially participates in soliciting, negotiating, or performing other activities required to arrange the acquisition of the security. However, a United States office need not have been the only active participant in arranging the acquisition of the security.

HOLDING

Situation 1

The activities of *B* and *C* are considered to be active and material with respect to the acquisition of the security. *B* or *C* solicited and negotiated the loan, performed the credit analysis and loan review, and approved the loan. These factors demonstrate that *P*'s branch office operation had the requisite authority and capability to make the loan and in fact performed all material functions with respect to the making of the loan. Accordingly, the interest income from the security held by *B* is considered effectively connected with the active conduct of a banking and finance business in the United States.

Situation 2

B did not actively and materially participate in the acquisition of the loan merely because it funded the loan. All essential functions in connection with the loan were performed by *P*'s home office. Therefore, the interest income received with respect to the security evidencing the related party loan to *Z* is not effectively connected with the active conduct of the banking, financing, or similar business within the United States. The Service will closely scrutinize loans made to related parties to determine whether a United States branch office actively and materially participates in arranging the acquisition of the securities. Absent facts clearly indicating active and material participation by a United States branch office including contemporaneous written evidence documenting such participation, it will be presumed that the office did not actively and materially participate.

Situation 3

B's and *C*'s activities are considered active and material. Although *P*'s home office solicited and negotiated the overall line of credit, *B* negotiated the collateral for the loan and *C* performed an independent credit analysis and evaluation of the collateral prior to the granting of the loan. The fact that *P*'s home office also actively and materially participated in the acquisition does not affect this result.

Section 954.—Foreign Base Company Income

26 CFR 1.954–1(f): Classification of an item of income.

Foreign base company income; gross income. Gross income from the engineering, fabrication, and installation of offshore drilling platforms is determined according to section 1.61–3(a) of the regulations after the income from such activities is classified according to the standards set forth in section 1.954–1(f)(2). Rev. Rul. 83–118 revoked.

Rev. Rul. 86–155

ISSUES

(1) For purposes of potentially characterizing income derived by a controlled foreign corporation from the engineering, fabrication, and installation of certain offshore drilling platforms as either foreign base company sales income or foreign base company services income as defined in section 954(d) and (e), respectively, is such income considered sales income or services income?

(2) In computing the gross income of a controlled foreign corporation for purposes of section 954(b)(3) of the Internal Revenue Code, are gross contract prices charged for the engineering, fabrication, and installation of certain offshore drilling platforms reduced by expenses attributable to these contracts?

FACTS

P, a domestic parent corporation, owns all of the stock in *FS*, a controlled foreign corporation (CFC) as defined in section 957 of the Code. Their activities consist principally of the engineering, fabrication, and installation of fixed offshore platforms, pipelines, and other facilities used in oil and gas drilling and production operations conducted in all major oil and gas producing areas of the world. *P* and *FS* do not themselves conduct exploration or drilling operations.

P's operations outside the United States are conducted through *FS*. Both *P* and *FS* utilize the completed contract method of accounting set forth in section 1.451–3(d) of the Income Tax Regulations.

LAW AND ANALYSIS

ISSUE (1)

Subject to exceptions, foreign base company services income, as defined in section 954(e) of the Code, and foreign base company sales income, as defined in section 954(d), consititute foreign base company income under section 954(a), which, subject to certain limitations, is includible in subpart F income. Foreign base company services income does not include any item of income which is appropriately classified as sales income, including income derived from the manufacture and sale of property. Furthermore, foreign base company sales income does not include any item of income which is appropriately classified as services income. In determining whether income from the engineering, fabrication, and installation of offshore drilling platforms potentially consitututes either foreign base company services income or foreign base company sales income, it is necessary as an initial matter to characterize such income as either services income or as sales income.

Section 1.954–1(f) of the regulations provides rules for the classification of an item of income for purposes of section 954 of the Code and sections 1.954–1 through 1.954–5. In general, income derived by a CFC from the performance of each integrated business transaction is considered a single item of income and will be classified in accordance with the predominant character of the transaction, even though an incidental part of the income could be characterized as a different class of income. However, in situations in which a CFC is engaged in performing separate business transactions, even though pursuant to the same contract or arrangement, the income from each such transaction shall be separately considered for purposes of classification under the predominant character test. Section 1.954–1(f)(2).

The determination of whether income from a single contract or arrangement constitutes separate items of income for classification purposes and the classification of each item of income as either sales or services income for subpart F purposes are factual determinations to be made by applying the standards set forth in section 1.954–1(f)(2) of the regulations. Therefore, in the present situation, the classification of *FS*'s income derived from its engineering, fabrication, and installation activities as services income, sales income, or a combination thereof depends upon the facts and circumstances of each contract or arrangement.

ISSUE (2)

Section 954(b)(3)(A) of the Code provides that, if foreign base company income derived by a CFC is less than 10 percent of its gross income, then no part of the gross income from the taxable year will be treated as foreign base company income. The determination of gross income and deductions for purposes of section 954 is made under section 952 and the regulations thereunder. Section 1.954–1(c) of the regulations.

Section 1.952–2(a)(1) of the regulations generally provides that gross income of a CFC for any taxable year is determined by treating the CFC as a domestic corporation taxable under section 11 of the Code and by applying the principles of section 61 and the regulations thereunder. Section 1.952–2(c)(4) states that the term "gross income" may not have the same meaning as the term "gross receipts." Under section 1.61–2(a) "gross income" from a manufacturing, merchandising or mining business generally means total sales less the cost of goods sold.

Whether direct labor and certain other costs incurred in the engineering, fabrication, and installation of the offshore drilling platforms described above are taken into account in computing "gross income" from those activities depends on whether the income derived from the activities constitutes sales income rather than services income. As discussed above, costs includible in cost of goods sold will be taken into account in determining gross income from manufacturing, merchandising, or mining but will not be taken into account in determining gross income from services. In order to compute the gross income from the engineering, fabrication, and installation of offshore drilling platforms, it is first necessary to determine whether the income derived from those activities constitutes separate items of income and to classify the item or items of income derived from such activities in the manner described above with respect to Issue (1). Gross income can then be determined pursuant to the rules of section 61 of the Code and the regulations thereunder.

Section 451 of the Code and the regulations thereunder are timing provisions for determining the recognition of income. *See* section 1.61–1(b)(3) of the regulations. Section 61 of the Code is applied for purposes of determining the amount of gross income of a CFC. The gross income from manufacturing activities by a CFC is computed by reducing gross receipts by costs of goods sold; whereas, the amount of gross income derived from performing services is equal to gross receipts.

HOLDINGS

Issue (1)

The classification of income from the engineering, fabrication, and installation of offshore drilling platforms as sales or services income for purposes of potentially characterizing such income as foreign base company sales or services income is a factual determination to be made by applying the standards set forth in section 1.954–1(f)(2) of the regulations to the facts and circumstances of each contract or arrangement.

Issue (2)

For purposes of section 954(b)(3) of the Code, gross income from the engineering, fabrication, and installation of offshore drilling platforms will be determined pursuant to section 1.61–3(a) of the regulations after the income from such activities is classified according to the standards set forth in section 1.954–1(f)(2).

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 83–118, 1983–2 C.B. 27, is revoked.

Section 1012.—Basis of Property – Cost

26 CFR 1.1012–1: Basis of property.

Whether a taxpayer can use the last-in, first-out inventory identification method in arriving at the adjusted basis of the timber for purposes of computing gain or loss when the timber is cut under a section 631(a) election. See Rev. Rul. 86–152, page 10.

Section 1273.—Determination of Amount of Original Issue Discount

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, below.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 280G, 362, 467, 468, 483, 1273, 1288, 7872; 1.483–1.)

Rev. Rul. 86–158

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of January 1987 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	6.13%	6.04%	6.00%	5.97%
110% AFR	6.75%	6.64%	6.59%	6.55%
120% AFR	7.38%	7.25%	7.19%	7.14%
Mid-Term				
AFR	6.93%	6.81%	6.75%	6.72%
110% AFR	7.63%	7.49%	7.42%	7.38%
120% AFR	8.34%	8.17%	8.09%	8.03%

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Long-Term				
AFR	7.41%	7.28%	7.21%	7.17%
110% AFR	8.17%	8.01%	7.93%	7.88%
120% AFR	8.93%	8.74%	8.65%	8.58%

For purposes of section 1288 of the Code, the short-term, mid-term, and long-term adjusted federal rates (adjusted AFR) for the month of January 1987 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-term				
AFR	3.88%	3.84%	3.82%	3.81%
Mid-term				
AFR	4.92%	4.86%	4.83%	4.81%
Long-term				
AFR	5.90%	5.82%	5.78%	5.75%

For purposes of section 382 of the Code, the adjusted federal long-term rate and the long-term tax-exempt rate for January 1987 are as follows:

Adjusted federal long-term rate for January	5.90%
Long-term tax-exempt rate for ownership changes during January (the highest of the adjusted federal long-term rates for the current month and the prior two months)	6.41%

Section 1288.—Treatment of Original Issue Discount on Tax-Exempt Obligations

The adjusted applicable federal short-term, mid-term, and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, page 16.

Section 7872.—Treatment of Loans with Below-market Interest Rates

Federal short-term, mid-term, and long-term rates are set forth for the month of January 1987. See Rev. Rul. 86–158, page 16.

Part II. Treaties and Tax Legislation

Subpart A.—Tax Conventions

United States-Netherlands Income Tax Convention, 1950–1 C.B. 92; 1967–2 C.B. 472.

Netherlands; equipment rental payments; business profits. U.S. source payments for equipment rentals are exempt from U.S. income tax as business profits under Article III of the U.S.-Netherlands Income Tax Convention.

Rev. Rul. 86–156

ISSUE

Whether photocopy machines are "other like property" within the meaning of Article IX of the United States—Netherlands Income Tax Convetion (the Treaty), 1950–1 C.B. 92, as amended by the Protocol of December 30, 1965 (1965 Protocol), 1967–2 C.B. 472, and, if not, whether payments for the lease thereof constitute industrial or commercial profits within the meaning of Article III of the Treaty.

FACTS

P, a corporation organized under the laws of the Netherlands, owns 100 percent of the stock of *S*, a corporation organized under the laws of the United States. *P* manufactures photocopy machines and leases them to *S*, and *S* makes periodic rental payments to *P*. *P* carries on a portion of its manufacturing operations in the Netherlands. *P* is not engaged in a trade or business within the United States through a permanent establishment. *S* subleases the photocopy machines to its United States customers.

LAW AND ANALYSIS

Article IX of the Treaty, prior to the 1965 Protocol, specifically exempted United States source royalties paid to a Netherlands corporation for the use of industrial, commercial, or scientific equipment, provided that the Netherlands corporation was not engaged in a trade or business within the United States through a permanent establishment.

Article IX(2), as amended by the 1965 Protocol, exempts United States source royalties, rentals, or amounts paid as consideration for the use of, or right to use, copyrights, artistic or scientific works, patents, designs, plans, secret processes or formulae, trademarks, motion picture films, films or tapes for radio or television broadcasting, or other like property or rights, or information concerning industrial, commercial or scientific knowledge, experience or skill, provided that the Netherlands corporation does not have a permanent establishment within the United States to which such amounts are attributable.

Article III(1) of the Treaty, as amended by the 1965 Protocol, exempts industrial or commercial profits derived by a Netherlands enterprise to the extent not attributable to a permanent establishment in the United States. Article II(1)(g) defines a Netherlands enterprise as an industrial or commercial enterprise or undertaking carried on in the Netherlands by the taxpayer. Article III(5) of the Treaty, as amended by the 1965 Protocol, provides that industrial or commercial profits means income derived from the active conduct of a trade or business, but does not include income described in Article IX(2).

Other treaties use the phrase "other like property or rights" in relation to intangibles such as patents and copyrights, and use independently the phrase "industrial, commercial or scientific equipment." For example, Article XII(4)(a)(i) of the United States-Australia Income Tax Convention, T.I.A.S. No. 10773, exempts payments and credits for the use of any "copyright, patent . . . or other like property or right." Article XII(4)(a)(ii) separately exempts payments for the use of, or the right to use, "industrial, commercial or scientific equipment. . . ."

Where payments for the use of industrial, commercial or scientific equipment are to be exempted by the royalties article in a treaty, that article specifically states that such property is included within its scope. Therefore, the phrase "other like property or rights" contained in Article IX(2) of the Treaty, as amended by the 1965 Protocol, modifies only the items specifically enumerated in Article IX(2). The items of tangible property included in Article IX(2) are tapes, films, and artistic or scientific works. None of the items enumerated could possibly incorporate equipment. Consequently, the phrase "other like property or rights" cannot be interpreted to refer to industrial, commercial, or scientific equipment. Payments for the use of industrial, commercial or scientific equipment, therefore, are not covered by Article IX(2) and are exempt, if at all, under the business profits article (Article III) of the Treaty.

Article III(5) of the Treaty defines "industrial or commercial profits" as "income derived from the active conduct of a trade or business." Article III(1) provides that the exemption for industrial or commercial profits derived by a Netherlands enterprise is applicable only to income that is not attributable to a permanent establishment in the United States.

The phrases "industrial or commercial profits" and "income derived from the active conduct of a trade or business" do not require such profits or income of the Netherlands enterprise be derived by an active trade or business within the United States, but merely require that the income be derived from the active conduct of a trade or business conducted in whole or in part in the Netherlands by the Netherlands enterprise.

Article III of the Treaty, therefore, exempts United States source rentals or other payments for the use of industrial, commercial, or scientific equipment, provided that such amounts are attributable to a trade or business actively conducted in whole or in part in the Netherlands by the Netherlands enterprise and are not attributable to a permanent establishment in the United States.

HOLDING

Under the facts of this case, the rentals for photocopy machines derived by *P* from *S* constitute industrial or commercial profits derived by a Netherlands enterprise. Furthermore, the rentals are not attributable to a permanent establishment of *P* in the United States. Therefore, the rentals are exempt from United States tax under Article III of the Treaty.

Part III. Administrative, Procedural, and Miscellaneous

Assistant Commissioner (International)—Title and Address

Notice 86–15

A new Assistant Commissioner (International) office was established May 12, 1986, to coordinate the Internal Revenue Service's various international tax activities. Three former organizations, the Foreign Operations District, The International Programs Section of the Assistant Commissioner (Examination), and the Tax Administration Advisory Services Division, were consolidated and restructured to form the new organization. The Assistant Commissioner (International) reports to the Associate Commissioner (Operations) and has multifunctional responsibility for international tax program development and compliance.

Pending the issuance of revised Internal Revenue Service documents such as publications, Revenue Procedures, and the Regulations under Title 26 of the USC, the following title and address will be used:

Internal Revenue Service
Assistant Commissioner (International)
ATTN: (when provided)
950 L'Enfant Plaza South, S.W.
Washington, D.C. 20024

The above title and address will be substituted for Director, Foreign Operations District (or in the older documents, Director, Office of International Operations) at the various Post Office boxes and 1325 K Street address in Washington, D.C.

Regulations To Be Published Under §884 (The Branch Profits Tax)

Notice 86–17

The Internal Revenue Service is herein announcing that, under regulations to be prescribed, the branch profits tax will not generally be imposed on (1) the complete termination of a foreign corporation's United States trade or business, (2) certain liquidations or reorganizations of a foreign corporation that has conducted a U.S. trade or business, or (3) a section 351 incorporation of a foreign corporation's U.S. trade or business.

Section 884(a) of the Internal Revenue Code of 1986, as added by section 1241 of the Tax Reform Act of 1986, imposes a 30-percent branch profits tax on a foreign corporation's after-tax U.S. earnings that are not reinvested in the corporation's U.S. business. The branch profits tax is imposed on the "dividend equivalent amount" for the taxable year. Generally, the dividend equivalent amount is the foreign corporation's earnings and profits attributable to income that is effectively connected with the conduct of a U.S. trade or business (1) decreased by increases in the foreign corporation's U.S. net equity during the taxable year and (2) increased by decreases in the foreign corporation's U.S. net equity during the taxable year.

Section 884(g) authorizes the Secretary to prescribe such regulations as may be necessary or appropriate to carry out the purposes of section 884. The principal purpose of section 884 is to equalize the tax treatment of U.S. branches and subsidiaries of foreign corporations.

The liquidation of a U.S. subsidiary of a foreign corporation would not generally result in a tax on the foreign parent corporation. In order to provide similar treatment where the foreign corporation has operated through a U.S. branch rather than through a U.S. subsidiary, regulations will be promulgated under section 884(g) to provide generally that the branch profits tax will not be imposed for the year in which a foreign corporation completely terminates its U.S. trade or business. Subject to an anti-abuse rule, a foreign corporation that completely terminates its U.S. trade or business (for example, by selling all its U.S. trade or buisness assets and investing the proceeds in portfolio obligations) will not be considered, for purposes of the branch profits tax, to have either effectively connected earnings and profits for the taxable year or a decrease in U.S. net equity as of the end of the taxable year. The foreign corporation will not, therefore, be subject to the branch profits tax for the taxable year. The regulations will also provide that the foreign corporation will not incur a branch profits tax if it completely liquidates in connection with the complete termination of the trade or business. For purposes of these rules, a foreign corporation with more than one U.S. branch will be considered to have a single U.S. trade or business. Thus, a foreign corporation with branches in New York and California must cease all activities of both branches in order to terminate completely its U.S. trade or business and avoid the branch profits tax under the foregoing rules.

Under the anti-abuse rule, the complete termination of a foreign corporation's U.S. trade or business may result in a branch profits tax liability if the foreign corporation, or any other related person, conducts a U.S. trade or business with any assets of the terminated trade or business or reinvests any of the proceeds from the sale of the assets of the terminated trade or business in a U.S. trade or business. This anti-abuse rule, will prevent, for example, a foreign corporation from terminating its U.S. trade or business and reinvesting less than the full amount of its U.S. net equity in U.S. trade or business assets.

Notwithstanding the foregoing, the following rules will apply when one foreign corporation transfers assets to a second foreign corporation pursuant to a distribution in liquidation described in section 332 or a nondivisive tax-free reorganization and the second corporation continues to conduct a U.S. trade or business previously conducted by the transferor. If the taxable year of the transferor closes as of the date of the liquidation or reorganization, the transferor's U.S. net equity as of the close of its short taxable year and its effectively connected earnings and profits must be computed for purposes of determining the branch profits tax for the short taxable year. The regulations will provide that, for purposes of these computations, U.S. net equity and effectively connected earnings and profits will be computed without regard to the transfer to the second corporation pursuant to the liquidation or reorganization. Thus, such transfer will not itself increase the transferor's dividend equivalent amount for the short taxable year and will not, therefore, increase its branch profits tax liability, if any, for such year. If, however, the transferor corporation has a dividend equivalent amount for the short year arising from other events (for example, from effectively connected earnings and profits realized prior to the transfer), the corporation may have a branch profits tax liability for such year.

The regulations will provide that, in situations described in the immediately preceding paragraph, the transferee corporation may be subject to the branch profits tax on an amount equal to the post-1986 effectively connected earnings and profits of the transferor corporation on which the branch profits tax was not previously imposed due to an increase in its U.S. net equity. The transferee corporation may be subject to the branch profits tax on this amount to the extent the transferee's U.S. net equity is reduced.

The preceding two paragraphs do not address transactions in which the transferee would not be subject to the branch profits tax after the transaction.

Finally, the regulations will provide generally that the incorporation of all of the U.S. trade or business activities of a foreign corporation into a wholly-owned U.S. subsidiary in a transaction described in section 351(a) will not be treated as a decrease in U.S. net equity of the foreign corporation and will not, therefore, increase the dividend equivalent amount of the foreign corporation and result in the imposition of the branch profits tax. The regulations will determine the extent to which events subsequent to the transfer, such as distributions from the U.S. subsidiary to the foreign parent or sale of the stock of the subsidiary by the foreign parent, will trigger either a branch profits or withholding tax on the parent.

The rules contained in this notice will be effective until superseded by regulations. Taxpayers may rely on these rules with respect to the specific transactions described herein.

---

26 CFR 601.602: Tax forms and instructions.
(Also Sections 179, 280F.)

Rev. Proc. 86–48

SECTION 1. PURPOSE

This revenue procedure provides guidance to taxpayers who made elections under section 179 of the Internal Revenue Code to expense amounts that exceed the dollar limitations imposed by section 280F(a)(2) of the Code. Under this procedure, in the limited circumstances described below, the Internal Revenue Service will recognize a limited modification of an election under section 179 if made on an amended return filed before the expiration of the period for filing a claim for credit or refund.

SEC. 2. BACKGROUND

.01 Section 179(a) of the Code permits a taxpayer to elect to treat the cost of any section 179 property as an expense that is not chargeable to capital account. The election must be made for the taxable year in which the section 179 property is placed in service.

.02 Section 179(c)(1) of the Code provides that any election under section 179 shall specify the items of section 179 property to which the election applies and the portion of the cost of each item which is to be taken into account under section 179(a). In addition, an election under section 179(a) shall be made on the taxpayer's income tax return for the taxable year. Section 179(c)(2) of the Code provides that any election made under section 179, and any specification contained in any such election, may not be revoked except with the consent of the Secretary.

.03 Pursuant to sections 179(d)(9) and 168(d)(1) of the Code, prior to computing investment tax credit under section 46 and deductions with respect to recovery property under section 168, a taxpayer must reduce the basis of the property subject to the section 179 election by the amount of the cost elected to be expensed.

.04 Under section 179(b) of the Code, for taxable years ending on or before December 31, 1986, $5,000 is the aggregate cost that may be expensed under section 179(a). With respect to property placed in service after December 31, 1986 in taxable years ending after such date, however, the limit is $10,000.

.05 Section 280F(a)(2) of the Code limits the deduction allowed for the cost recovery of passenger automobiles. For passenger automobiles placed in service after June 18, 1984, and before January 1, 1985, the recovery deduction allowed for the taxable year in which the automobile is placed in service is limited to $4,000. For passenger automobiles placed in service after December 31, 1984, and before April 3, 1985, and for automobiles placed in service before August 1, 1985, that are acquired by the taxpayer pursuant to a binding contract in effect on April 1, 1985, and at all times thereafter, the recovery deduction allowed for the taxable year the automobile is placed in service is limited to $4,100. *See* Rev. Rul. 86–107, 1986–37 I.R.B. 8. For all other passenger automobiles placed in service after April 2, 1985, and before January 1, 1989, the recovery deduction allowed for the taxable year in which the taxpayer places the automobile in service is limited to $3,200.

.06 Under section 280F(d)(1) of the Code, any deductions allowable under section 179 are subject to the limitations of sections 280F(a) and (b) in the same manner as if they were recovery deductions allowed under section 168. Thus, if the dollar limitations imposed by section 179 exceed the dollar limitations imposed by section 280F, then even though a taxpayer may elect under section 179 to expense the cost or a portion of the cost of a passenger automobile in excess of the section 280F(a)(2) dollar limitation, the taxpayer's deduction is limited to the amount allowed by section 280F(a)(2). Notwithstanding that limitation, the taxpayer must reduce its basis in the section 179 property by the full amount of its section 179 election. *See* sections 168(d)(1) and 179(d)(9), which refer to the amount of the taxpayer's election under section 179 and the amount allowed as a deduction by section 179(a), respectively.

.07 For example, if a taxpayer, unaware of the limitations of section 280F of the Code, purchased and placed in service in 1984 an automobile costing $11,000 and if that taxpayer elected under section 179 to expense $5,000 of the cost, the taxpayer's basis is reduced by the full $5,000 that the taxpayer originally elected to expense, even though the taxpayer is allowed to expense only $4,000 in the first recovery year. The remaining $1,000 of the amount that the taxpayer elected to deduct under section 179 but is precluded from deducting by section 280F(a)(2) becomes part of the "unrecovered basis." *See* sections 1.280F–2T(c)(1) and (e) Example (4) of the Temporary Income Tax Regulations. Accordingly, the remaining $1,000 elected to be deducted under section 179 as well as the deduction allowed under section 168 for the first recovery year would not be recoverable until a year after the end of the ACRS recovery period. In addition, the investment credit and the deductions allowed under section 168 would be calculated on a basis of $6,000 ($11,000 less the $5,000 basis reduction) rather than on a basis of $7,000 ($11,000 less $4,000, the maximum amount that can be expensed in the first year).

SEC. 3. TAXPAYERS AFFECTED

.01 This revenue procedure applies if (1) a taxpayer, on the taxpayer's return filed before the expiration of the time for filing, made an election under section 179 of the Code to expense the cost or a portion of the cost of a passenger automobile that was placed in service after June 18, 1984, and before January 1, 1986, and (2) the amount so elected was in excess of the dollar limitations imposed by section 280F(a)(2).

SEC. 4. PROCEDURE

.01 The Service will permit a limited modification of an election under section 179 of the Code if a request is made on an amended return filed before the expiration of the period under section 6511 for filing a claim for credit or refund. The Service will permit a modification only to the extent that the modification reduces the taxpayer's section 179 expense election to the maximum amount allowable under section 280F(a)(2) for the taxable year the property is placed in service. On the amended return, the taxpayer may adjust its basis to correspond with the amount correctly claimed as a section 179 expense election. The amended return should be filed with the appropriate Internal Revenue Service Center and include the statement "FILED UNDER REV. PROC. 86-48."

.02 A taxpayer may not reallocate to any other property that portion of its section 179 expense election that exceeded the recovery deduction limitation under section 280F(a)(2) of the Code.

SEC. 5. EFFECTIVE DATE

This revenue procedure shall be effective for requests made on amended returns filed after December 29, 1986, the date of publication of this revenue procedure.

Part IV. Items of General Interest

Diversification Requirements for Variable Annuity, Endowment, and Life Insurance Contracts

Announcement 86–129

This announcement concerns the diversification requirements under section 817(h) of the Internal Revenue Code that are applicable to variable annuity, endowment, and life insurance contracts.

Section 817(h) of the Code authorizes the Secretary of the Treasury to prescribe diversification requirements for the investments underlying a variable annuity, endowment, or life insurance contract and provides that a variable contract generally will not be treated as an annuity, endowment, or life insurance contract unless those requirements are satisfied. Temporary and proposed regulations prescribing diversification requirements under section 817(h) were published in the Federal Register on September 15, 1986 (51 FR 32633, 32664).

The effective date provisions set forth in the temporary regulations will be modified as described in this announcement in final regulations under section 817(h). Taxpayers can rely on this announcement until final regulations under section 817(h) are published in the Federal Register.

The temporary regulations generally are effective for taxable years beginning after December 31, 1983. Section 1.817–5T(i)(2) of the Temporary Income Tax Regulations, however, provides three exceptions to this general effective date. First, the regulations do not apply to a segregated asset account until December 15, 1986, if an insurance company would be considered the owner of the underlying assets under the principles of Rev. Rul. 81–225, 1981–2 C.B. 12. Because, under the regulations, diversification is tested as of the end of each calendar quarter, or within 30 days thereafter, the effect of this rule is to require a qualifying segregated asset account to satisfy the diversification requirements of the regulations on December 31, 1986, or within 30 days thereafter. Second, the regulations do not apply to any contract that was grandfathered under Rev. Rul. 77–85, 1977–1 C.B. 12, or Rev. Rul. 81–225. Third, certain debt instruments are not treated as government securities for purposes of determining whether a segregated asset account is adequately diversified for any calendar quarter ending before July 1, 1987.

The final regulations under section 817(h) will provide an additional exception to the general effective date rule in the case of a segregated asset account that is invested in government securities. Section 1.817–5T(b)(1)(ii)(B) of the temporary regulations provides that, for purposes of the diversification requirements, all government securities are treated as securities of a single issuer. The final regulations under section 817(h), however, will provide that, for purposes of determining whether a segregated asset account is adequately diversified for any calendar quarter ending before July 1, 1987, each government agency or instrumentality will be treated as a separate issuer.

Information Reporting for Brokers and Middlemen Holding Debt Instruments Issued at a Discount

Announcement 86–130

This announcement concerns information reporting rules under section 6049 of the Internal Revenue Code for brokers and middlemen who hold interests as nominees in certificates of deposit and other debt instruments issued at a discount. The Internal Revenue Service will amend the Income Tax Regulations under section 6049 of the Code; affected taxpayers may rely on this announcement until these regulations are issued.

BACKGROUND

Section 6049 of the Code and regulations under that section require every person who makes payments of interest (including original issue discount), or who receives payments of interest as a nominee and makes payments to another person with respect to the interest received, in an aggregate amount of $10 or more to make an information return and to provide the payee with a written statement setting forth the amount of these payments.

Section 6049(b) of the Code provides that, except as otherwise provided in regulations, an issuer or nominee need not provide a written statement to certain holders. Section 1.6049–4(c)(1)(ii)(L) of the regulations provides that brokers are treated as exempt recipients.

The Service on December 12, 1986, issued section 1.6049–5T of the Temporary Income Tax Regulations, relating to reporting by brokers of interest and original issue discount on and after January 1, 1986. This temporary regulation requires that brokers and other middlemen that hold as nominees certificates of deposit originally issued at a discount to report to holders the amount of OID includible for each year. The temporary regulation generally requires reporting for calendar year 1986 and thereafter with respect to debt instruments held on or after June 1, 1986. Before January 1, 1987, however, reporting is required only with respect to debt instruments held by a broker or middleman as a nominee on or after June 1, 1986, that also were sold by the broker or middleman to the owner.

Section 1.6049–5(c) of the regulations permits a payor (other than an issuer) to rely upon information contained in the Service's Publication 1212 in discharging its reporting obligations to provide a written statement to the payee. Certificates of deposit described in the temporary regulation issued on December 12, 1986, are not listed in this publication because, given the volume of certificates of deposit described in the temporary regulation, it would not be practical to compile OID information for Publication 1212 with respect to these certificates.

The Service thus recognizes that a broker or middleman required to report OID to the holder of a certificate of deposit or debt instrument described in the temporary regulation issued on December 12, 1986, may not possess information sufficient to comply adequately and accurately with the reporting requirement imposed by this regulation because (1) OID information is not available with respect to the certificate in Publication 1212 and (2) the broker or middleman, qualifying as an exempt recipient within the meaning of section 6049(b) and section 1.6049–4(c)(1) of the regulations, has not received a written statement containing this information from the issuer of the certificate.

Reporting Requirements

Accordingly, the Internal Revenue Service will amend section 1.6049–4 of the regulations to provide that a broker or middleman holding as a nominee a debt instrument described in section 1.6049–5T(a) or (b) of the temporary regulation may waive its status as an exempt recipient and request that the issuer of the debt instrument provide it with a written statement setting forth the information required by section 1.6049–3 of the regulations with respect to the debt instrument. In that event, the issuer will be required to provide a written statement to such broker. A broker may waive its exempt status for any debt instrument held on or after June 1, 1986.

COMMENTS WELCOMED

The Service welcomes comments from affected taxpayers on the reporting requirements discussed in this announcement. Comments may be directed to the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (LR–2–86).

Supplemental Information on Treasury Bills for Publication 1212

Announcement 86–131

Banks, brokers, and other middlemen who report discount on Treasury bill redemptions on Form 1099–INT must use the owner's purchase price, where available, to determine the amount of discount to report. Usually this information can be obtained from the owner's or middleman's records. However, if the owner's purchase price is *not* available from existing records, the middleman must report the discount as if the holder had purchased the Treasury bill at its original issue price. In this case, the middleman must use as the original issue price the noncompetitive issue price for the longest-maturity Treasury bill maturing on that date.

For Treasury bill redemptions in cases where the owner's purchase price *cannot* be determined, a list of the noncompetitive issue prices and corresponding amounts of discount to be reported on Form 1099-INT for Treasury bills maturing during January through June 1987 appears below. This list, which should also help middlemen determine any amounts subject to backup withholding, supplements the list that appears in Publication 1212, *List of Original Issue Discount Instruments* (Rev. Dec. 1986).

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and address of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under the consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Howard M. Belser	Decatur, AL	Attorney	Three Years from October 9, 1986
Kennard I. Mandell	Wellesley, MA	Attorney	Indefinite from October 1, 1986

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any person who has violated the rules and regulations governing the recognition of attorneys, certified public accountants, enrolled agents or enrolled actuaries to practice before the Internal Revenue Service.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been suspended from further practice before the Internal Revenue Service.

Name	Address	Designation	Term of Suspension
Paul Adams, Jr.	Bristol, VA	Certified Public Accountant	Indefinite from September 11, 1986

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Leonard Bezark	King of Prussia, PA	Certified Public Accountant	October 19, 1986

Standing Order Service

Just sign the authorization above to charge selected items to your existing Deposit Account, VISA, MasterCard, or CHOICE account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped.

Standing Orders remain in effect until canceled in writing (telephone cancellations are accepted but must be followed up with a written cancellation within 10 days) or canceled by the Superintendent of Documents. Service begins with the next issue released of each item selected. An acknowledgment card is sent for each Standing Order item selected.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1984/1985 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.
